The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceeding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street NE., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before April 3, 1981.

Please reference the FERC Control Number (JD No.) in all correspondence related to these determinations.

Kenneth F. Plumb,
Secretary.

The above notices of determination were received from the indicated jurisdictional agenices by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceding the control number indicates that other purchasers are listed at the end of the notice.

The applications for detemination in these proceddings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, execpt to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before April 3, 1981.

Please reference the FERC Control Number (JD No) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 205.204, file a protest with the Commission on or before April 3, 1981.

Please reference the FERC Control Number (JD No) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8463 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-C

Determinations by Jurisdictional Agencies Under the Natural Gas Policy Act of 1978

Issued: March 5, 1981.

JD NO	JA DKT	API NO	SEC	D	WELL NAME	FIELD NAME	PROD	PURCHASER
MISSISSIPPI OIL & GAS BOARD								
-EXXON CORPORATION					RECEIVED: 02/13/81 JA: MS

BILLING CODE 6450-85-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before April 3, 1981.

Please reference the FERC Control Number (JD No) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 2634-002]

Great Northern Nekoosa Corp., Application for Amendment of License

March 16, 1981.

Take notice that on February 12, 1981, great Northern Nekoosa Corporation (Licensee) filed an application [pursuant to the Federal Power Act, 16 U.S.C 791(a)–825(r)] for amendment of its license for its Great Northern Storage Project, Caucomgomoc Development, FERC NO. 2634 located at the headwaters of the West Branch of the Penobscot River, Piscataguis County, Maine. Correspondence with the Applicant should be directed to: Mr. W. A. Nash, Chief Engineer, Central Engineering Department, Great Northern Nekoosa Corporation, Millinocket, Maine 04462.

Applicant requests that its license be amended to authorize the replacement of the existing rock–filled timber–crib dam, gates, and fishway at Caucomgomoc Lake with a new concrete gravity dam including four new gates, an Ogee-type spillway section and a vertical slot fishway. In addition the earthen wing dikes at the dam would be increased 3.7 feet in height. The replacement of the dam and the increase in height of the wing dikes is necessary to enhance the ability of the dam and dikes to withstand extreme flood conditions. The normal water surface elevation of Caucomgomoc Lake will remain the same.

Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in 1.10 for protest. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petiton to intervene must be received on or before April 24, 1981. The Commission's address is: 825 North Capitol Street, N.E., Washington, D.C. 20426. The application is on file with the Commission and is available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 3107-000]

Newfound Hydroelectric Co.; Application for Short-Form License (Minor)

March 16, 1981.

Take notice that the Newfound Hydroelectric Company (Applicant) filed on January 7, 1981, an application for license [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for construction and operation of a water power project to be known as the Newfound Hydroelectric Project No. 3107. The project would be located on the Newfound River in Grafton County, New Hampshire. Correspondence with the Applicant should be directed to: Mr. Henry Harris, Central Square, Bristol, New Hampshire 03222.

Project Description—The proposed project would consist of: (1) a diversion weir (presently breached) located adjacent to New Hampshire Route 3A in Bristol, New Hampshire; (2) a new 800-foot long water conveyance facility, leading to (3) a new powerhouse located approximately 800 feet downstream of the Water St. Bridge; and (4) appurtenant works. The installed capacity would be approximately 1,487 kW. Applicant estimates that the average annual generation would be 7,400 megawatt-hours.

The application was filed during the term of the Applicant's preliminary permit for the Newfound Project, issued August 14, 1980.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are requested to provide comments pursuant to the Federal Power Act, the Fish and Wildlife Coordination Act, the Endangered Species Act, the National Historic Preservation Act, the Historical and Archeological Preservation Act, the National Environmental Policy Act, Pub. L. No. 88–29, and other applicable statutes. No other formal requests for comments will be made.

Comments should be confined to substantive issues relevant to the issuance of a license. A copy of the application may be obtained directly from the Applicant. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 15, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than September 14, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's

Rules. Any comments, protest, or petition to intervene must be received on or before May 15, 1981. The Commission's address is: 825 North Capitol Street, N.E., Washington, D.C. 20426. The application is on file with the Commission and is available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8437 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 3545-000]

Utah Hydro Corp.; Application for Preliminary Permit[1]

March 13, 1981.

Take notice that Utah Hydro Corporation (Applicant) filed on October 8, 1980, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3545 to be known as the Echo Hydro Project located on the Weber River in Summit County, Utah. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. J. D. Catten, 8184 Breeze Drive, Magna, Utah 84044. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the existing Water and Power Resources Service's Echo Dam and Reservoir, operated and maintained by the Weber River Water Users Association, and would consist of: (1) a penstock utilizing the existing outlet works near the left dam abutment; (2) a new powerhouse containing generating units having a total rated capacity between 2,500 kW and 7,070 kW; (3) a tailrace; (4) a new 46 kV transmission line, two miles long; and (5) appurtenant facilities. The Applicant estimates that the average annual energy output would be between 10,740,000 kWh and 25,000,000 kWh.

Purpose of Project—Project energy would be sold to the Utah Power and Light Company. Other alternative markets will be studied.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of three years, during which time it would prepare studies of the hydraulic, construction, economic, environmental, historic and recreational aspects of the project. Depending on the outcome of the studies, Applicant would prepare an application for an FERC license. Applicant estimates the cost of the studies under the permit would be $55,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 4, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 3, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 4, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3545. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8438 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 3894-000]

Town of Wareham, Mass.; Application From Exemption From Licensing of a Small Hydroelectric Project of 5 Megawatts or Less

March 16, 1981.

Take notice that the Town of Wareham (Applicant) filed with the Federal Energy Regulatory Commission on December 22, 1980, an application for exemption for it's Tremant Hydroelectric Project No. 3894-000 from all or part of Part 1 of the Federal Power Act pursuant to 18 CFR Part 4 subpart K (1980) implementing in part section 408 of the Energy Security Act of 1980.[1] The proposed project would be located on the Weweantic River in the Town of Wareham, Plymouth County, Massachusetts. Correspondence with

[1] This notice supersedes the Notice of Application for Preliminary Permit issued on February 24, 1981.

[1] Pub. Law 96-294, 94 Stat. 611. Section 408 of the ESA amends *inter alia*, Sections 405 and 408 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2705 and 2708).

the Applicant should be directed to: Mr. Robert F. Packard, Tremont Dam Project, Town Hall, Wareham, Massachusetts 02571.

Project Description—The proposed run-of-the-river project would consist of existing project works including: (1) a 1,200-foot long, 15-foot high earthen and granite-faced dam; (2) a reservoir of negligible storage capacity at a normal water surface elevation of 58.7 feet M.S.L.; (3) two overflow spillway gates and two inlet gates leading to the penstocks; (4) two 7-foot high, 10-foot wide, 18-foot long concrete penstocks; (5) a powerhouse which would contain two new 150-kW turbine-generator units; (6) a 1,200-foot long, 25-kV transmission line located either overhead or buried; and (7) appurtenant facilities. Applicant estimates that the average annual energy output would be 1,027,000 KWH.

Purpose of the Project—Project energy would be sold to the Bedford Gas and Edison Light Company for distribution to customers in it's service area.

Purpose of Exemption—An exemption, if issued, gives the Exemptee priority of control, development, and operation of the project under the terms of the exemption from licensing, and protects the Exemptee from permit or license applicants that would seek to take or develop the project.

Agency Comments—Federal, State and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for exemption. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of an exemption and consistent with the purpose of an exemption as described in this notice. No other formal request for comments will be made. If an agency does not file comments within 60 days of the date of issuance of this notice, it will be presumed to have no comments.

Competing Applications—Any qualified license applicant desiring to file a competing application must submit to the Commission, on or before April 27, 1981, either a competing license application that proposes to develop at least 7.5 megawatts in that project, or a notice of intent to file such a license application. Submission of a timely notice of intent allows an interested person to file the competing license application no later than August 25, 1981. Applications for a preliminary permit will not be accepted. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing license application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 27, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for exemption for Project No. 3894. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 N. Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first Paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 3922]

James E. White; Application for Exemption for Small Hydroelectric Power Project Under 5 Megawatts Capacity

March 16, 1981.

Take notice that on January 5, 1981, James E. White (Applicant) filed an application, under Section 408 of the Energy Security Act of 1980 (Act) [Public Law 96-294, 94 Stat. 611] (16 U.S.C. 2705, and 2708 *as amended*), for exemption of a proposed hydroelectric project from licensing under Part 1 of the Federal Power Act. The proposed James E. White small hydroelectric project (FERC No. 3922) would be located on Derr Creek in Bonner County, Idaho. Correspondence with the Applicant should be directed to: James E. White, P.O. Box 158, Clark Fork, Idaho 83811.

Project Description—The proposed project would consist of: (1) an intake structure; (2) two parallel penstocks, each 3,050 feet in length; (3) a powerhouse, containing five generating units with a total installed capacity of 250 kW; and (4) two 24-inch diameter discharge culverts. The power plant would be operated in a run-of-the-river mode, without capacity for storage or ponding.

Purpose of the Project—The energy generated by the proposed project would be marketed to a local utility.

Purpose of Exemption—An exemption, if issued, gives the Exemptee priority of control, development, and operation of the project under the terms of the exemption from licensing, and protects the Exemptee from permit or license applicants that would seek to take or develop the project.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for exemption. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuances of an exemption and consistent with the purpose of an exemption as described in this notice. No other formal request for comments will be made. If an agency does not file comments within 60 days of the date of issuance of this notice, it will be presumed to have no comments.

Competing Application.—Any qualified license applicant desiring in file a competing application must submit to the Commission, on or before April 27, 1981, either a competing license application that proposes to develop at least 7.5 megawatts in that project, or a notice of intent to file such a license application. Submission of a timely notice of intent allows an interested person to file the competing license application no later than August 25, 1981. Applications for a preliminary permit will not be accepted. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (C) (1980). A competing license application

must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene.—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10. for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 27, 1981.

Filing and Service of Responsive Documents.—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3922. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. TA81-1-20-002]

Algonquin Gas Transmission Co.; Rate Change Pursuant to Purchased Gas Cost Adjustment Provision

March 12, 1981.

Take notice that Algonquin Gas Transmission Company ("Algonquin Gas") on March 2, 1981, tendered for filing Revised 55th Revised Sheet No. 10 to its FERC Gas Tariff, First Revised Volume No. 1.

Algonquin Gas states that this sheet is being filed to track a downward adjustment in rates by its pipeline supplier, Texas Eastern Transmission Corporation, in compliance with the directive of the Commission order dated February 17, 1981, accepting Algonquin Gas' currently effective March 1, 1981 rates for filing.

Algonquin Gas also states such adjustment is in lieu of the treatment of reduced rates filed by Texas Eastern by a credit adjustment to Account 191 as prescribed in Section 17 of the Purchased Gas Cost Adjustment Provisions of its FERC Gas Tariff, First Revised Volume No. 1.

Algonquin Gas requests that the Commission accept for filing effective March 1, 1981, Revised 55th Revised Sheet No. 10.

Algonquin Gas notes that a copy of this filing is being mailed to each affected party and interested state commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, DC 20426, in accordance with § 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 23, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8499 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. SA81-17-000]

American Standard Plumbing/Heating Division; Application for Staff Adjustment

March 12, 1981.

Take notice that on February 9, 1981, American Standard (Applicant), P.O. Box 279, Tiffin, Ohio 44883, filed with the Federal Energy Regulatory Commission (Commission) pursuant to section 502(c) of the Natural Gas Policy Act of 1978 (NGPA) and § 1.41 of the Commission's Rules of Practice and Procedure an application for an adjustment. Applicant seeks relief from § 282.207(c)(3) of the Commission's regulations under the NGPA.

Specifically, Applicant states that it has installed its own gas supply system (self-help) for its plant operation. The Applicant's present disclosed estimation methodology, dated January 26, 1981, prorates its self-help gas among exempt and non-exempt (boiler) use in accordance with Order No. 86 in Docket No. RM80-16 (Issued on May 8, 1980).

Applicant further states that self-help gas has benefit for both the public and industry by reducing total demand from utilities and increasing supplies available to residential areas, while in addition reducing operation cost which affects employment and production cost to consumers. Applicant asserts that it should be able to subtract its self-help gas directly from its non-exempt boiler fuel in order to reduce or eliminate the amount of natural gas subject to incremental surcharges. In addition, Applicant feels that installing additional special costly and unnecessary piping so that the self-help gas could be exclusively designated for use in the boiler or increasing industry's cost by prorating to comply to Order No. 86 was not the intent of the law, rather than intent was to reduce dependence on oil, whether foreign or domestic.

The procedures applicable to the conduct of this adjustment proceeding are found in section 1.41 of the Commission's Rules of Practice and Procedure, Order No. 24, issued March 22, 1979 (44 FR 19861, March 30, 1979).

Any person desiring to participate in this adjustment proceeding shall file a petition to intervene in accordance with the provisions of section 1.41(e). All petitions to intervene must be filed on or before April 3, 1981.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8500 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. ER81-319-000]

Arizona Public Service Co.; Filing

March 12, 1981.

The filing Company submits the following:

Take notice that on March 6, 1981, Arizona Public Service Company (APS) tendered for filing Amendment No. 1 to Service Schedule K dated April 23, 1980 to the Power Coordination Agreement between Salt River Project Agricultural Improvement and Power District (SRP) and APS for the purpose of providing standby transmission facilities for the power to be generated at the Coronado Generating Station.

APS requests waiver of the Commission's Regulations to permit an effective date of October 27, 1980, the date that one of APS' customers will require to have its power flow to serve its load in the Coronado and Cholla areas.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 3, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8601 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4034-000]

Beacon Aluminum Finishing Corp.; Application for Preliminary Permit

March 12, 1981.

Take notice that Beacon Aluminum Finishing Corp. (Applicant) filed on January 21, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)—825(r)] for proposed Project No. 4034 to be known as the Braendley Hydro Project located on Fishkill Creek in Dutchess County, New York. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Joseph Guarneri, P.O. Box 850, One E. Main Street, Beacon, New York 12508. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would be run-of-the-river and would consist of: (1) an existing overflow gravity dam, 128 feet long and 15 feet high, constructed of cut stone set in mortar and capped with concrete; (2) a reservoir having negligible pondage; (3) a rehabilitated intake structure with a new gate; (4) a rehabilitated penstock; (5) a new powerhouse containing a generating unit having a total rated capacity of 300 kW; (6) a tailrace; (7) a new 13.2 kV transmission line; and (8) appurtenant facilities.

The Applicant estimates that the average annual energy output would be 1,500,000 kWh.

Purpose of Project—Project energy would be sold to the Central Hudson Gas and Electric Company.

Proposed Scope and Cost of Studies under Permit—Applicant seeks issuance of a preliminary permit for a period of three years, during which time it would prepare studies of the hydraulic, construction, economic, environmental, historic and recreational aspects of the project. Depending on the outcome of the studies, Applicant would prepare an application for an FERC license. Applicant estimates the cost of the studies under the permit would be $10,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to David Goodman and George R. Oliger's application for Project No. 3512, filed on September 29, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to made any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protest. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 3, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4034. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8617 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4109-000]

City of Fairbury; Application for Preliminary Permit

March 12, 1981.

Take notice that City of Fairbury (Applicant) filed on February 3, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825 (r)] for Proposed Project No. 4109 to be known as Fairbury Dam Power Project located on the Little Blue River in Jefferson County, Nebraska. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Marion E. Stewart, Chairman, Board of Public Works, 612 D Street, Fairbury, Nebraska 68352. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the existing Fairbury Dam and reservoir. Project No. 4109 would consist of: (1) a proposed forebay; (2) a proposed powerhouse located adjacent to the existing powerhouse; (3) proposed transmission lines; (4) an existing masonry dam approximately 240 feet long and 16 feet high; (5) an existing reservoir of approximately 5 acres at a normal crest elevation of 1,300 feet m.s.l. with minimal storage capacity and a drainage area of approximately 2,300 square miles; and (6) appurtenant facilities. Applicant estimates the installed capacity of the proposed project to be 300 kW, and the annual energy output to be 1.8 GWh.

Purpose of Project—Energy produced at the proposed project would be utilized within the municipality.

Proposed Scope and Cost of Studies Under Permit—Applicant has requested a 36 month permit to prepare a definitive project report, including preliminary design and economic feasibility studies, hydrological studies, environmental and social studies, and soils and foundation data. The cost of the aforementioned activities along with obtaining agreements with other Federal, State and local agencies is estimated to be $100,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant). Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before April 20, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than June 19, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 20, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4109. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8309 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 3803-000]

City of Rome, New York; Application for Preliminary Permit

March 13, 1981.

Take notice that the City of Rome, New York (Applicant) filed on November 28, 1980, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3803 to be known as the Delta Project located on the Mohawk River in Oneida County, New York. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mayor J. Eilenberg, City Hall, Rome, New York 13440. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed run-of-the-river project would consist of: (1) an existing gravity dam composed of a 300-foot long ogee spillway with a maximum height of 86 feet flanked by non-overflow sections of 331 feet and 361 feet in length; (2) the Delta Reservoir with a surface area of 2,483 acres at a crest elevation of 550 feet m.s.l.; (3) four existing 60-inch diameter outlet penstocks; (4) two existing 30-inch conduits in the western section of the dam providing water for a fish hatchery downstream; (5) a new powerhouse located below the eastern non-overflow section; (6) turbine/generator units with a total capacity between 1.5 and 2.2

MW; (7) a short transmission line and appurtenant facilities. The Applicant estimates that the average annual energy output would be 10,000,000 kwh.

Purpose of the Project—Project power would be used by the Applicant for municipal purposes.

Proposed Scope and Cost of Studies under Permit—Applicant seeks issuance of a preliminary permit for a period of two years, during which time it would perform surveys and geological investigations, determine the economic feasibility of the project, reach final agreement on sale of project power, secure financing commitments, consult with Federal, State and local government agencies concerning the potential environmental effects of the project, and prepare an application for FERC license, including an environmental report. Applicant estimates the cost under the permit would be $35,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to the Power Authority of the State of New York's application for Project No. 3630 filed on October 29, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's rules. Any comments, protest, or petition to intervene must be received on or before April 7, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", OR "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3803. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8008 Filed 3-18-81; 8:45 am]
BILLING CODE 6450-85-M

[Project No. 4240]

City of Santa Clara; Application for Preliminary Permit

March 16, 1981.

Take notice that the City of Santa Clara, (Applicant) filed on February 23, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–824(r)] for proposed Project No. 4240 to be known as the North Fork Dam Hydroelectric Project located on the North Fork American River in Placer County, California. The application is on file with the Commission and is available for public inspection. Correspondence with the applicant should be directed to: Mr. Barry R. Flynn, Director of Electric Utility, City of Santa Clara, 1500 Warburton Avenue, Santa Clara, California 95050. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project, to be located at the base of the existing U.S. Army Corps of Engineers' North Fork Dam, would consist of: (1) a penstock; (2) a powerhouse to be operated under a head of 130 feet with a rated capacity of 12 MW; and (3) approximately 5 miles of existing 12–kV transmission line connected to a pacific Gas and Electric Company substation. The Applicant estimates that the average annual energy output would be 60 million Kwhs.

Purpose of Project—Power generated from the project would be used to serve the Applicant's electrical service area.

Proposed Scope and Cost of Studies under Permit—Applicant seeks a preliminary permit for a period of 36 months during which it would conduct environmental, engineering, and economical studies to determine the feasibility of constructing and operating the proposed project. Applicant estimates that the costs of the feasibility studies and preparation of an FERC license application are $125,000.

Purpose of Preliminary Permit—A Preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Application—This application was filed as a competing application to the City of McFarland and

Western Renewable Resources' Project No. 3256 and the City of Redding's Project No. 3704, filed on July 17, 1980, and November 12, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 7, 1981.

Filing and Service of Responsive Documents.—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4240. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Room 208, RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8488 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. ER81-318-000]

Cleveland Electric Illuminating Co.; Filing

March 12, 1981.

The filing company submits the following:

Take notice that on March 6, 1981, The Cleveland Electric Illuminating Company (CEI) tendered for filing an executed Service Agreement and Exhibits A and B thereto, providing for transmission by CEI of approximately 20 MW of power from the 345 kv interconnection point on CEI's Juniper—Canton Line with the Ohio Power Company to the City of Cleveland Ohio (City) in accordance with the terms and conditions of CEI's FERC Transmission Service Tariff.

CEI has requested waiver of the FERC's 60-day notice requirement in order to permit commencement of transmission service on March 1, 1981.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 3, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8489 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project 3482-001]

Susan A. Craft; Application for Exemption for Small Hydroelectric Power Project Under 5 MW Capacity

March 12, 1981.

Take notice that on January 7, 1981, Susan A. Craft (Applicant) filed an application, under Section 408 of the Energy Security Act of 1980 (Act) [Pub. L. 96-294, 94 Stat. 611] (16 U.S.C. 2705, and 2708 *as amended*), for exemption of a proposed hydroelectric project from licensing under Part I of the Federal Power Act. The Lilliwaup Falls Hydroelectric Project (FERC Project No. 3482) is located on Lilliwaup Creek in Mason County, Washington. Correspondence with the Applicant should be directed to: Mr. John Scarola, c/o Montgomery, Lytal, Reiter, Denney and Searcy, P.O. Drawer 3626, West Palm Beach, Florida 33409.

Project Description—The existing project consists of: (1) a 45-foot long, 8-foot high concrete dam; (2) a 235-foot long tunnel with a 5-foot by 7-foot cross section; (3) a 486-foot long concrete flume with a 4-foot by 3-foot cross section; (4) a 24-inch diameter, 900-foot long wooden penstock; (5) a brick powerhouse containing two generating units with total installed capacity of 160 kW; and (6) appurtenant facilities.

Applicant proposes to increase the installed capacity to between 1,000 and 1,200 kW.

Purpose of Project—Project energy is and would be sold to a local utility company.

Agency Comments—The U.S. Fish and Wildlife Service and the Washington Departments of Fisheries and Game are requested, for the purposes set forth in Section 408 of the Act, to submit appropriate terms and conditions to protect any fish and wildlife resources. Other Federal, State, and local agencies that receive this notice through direct mailing from the Commission are requested to provide any comments they may have in accordance with their duties and responsibilities. No other formal requests for comments will be made. Comments should be confined to substantive issues relevant to the granting of an exemption. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Any qualified license applicant desiring to file a competing application must submit to the Commission, on or before April 20, 1981, either the competing license application that proposes to develop at least 7.5 megawatts in that project, or a notice of intent to file such a license application. Submission of a timely notice of intent allows an interested person to file the competing license application no later than June 17, 1981. Applications for preliminary permit will not be accepted.

A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing license application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and

Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 20, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3482. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Spreinger, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to interevene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER80-295]

El Paso Electric Co.; Filing

March 12, 1981.

The filing company submits the following:

Take notice that on or about February 23, 1981, El Paso Electric Company submitted for filing a compliance report, pursuant to the Commission's letter of January 27, 1981, in the above referenced proceeding.

A copy of this filing has been sent to the California Public Utility Commission.

Any person desiring to be heard or to protest this filing should file comments with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before April 3, 1981. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8609 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4206-000]

Enagenics; Application for Preliminary Permit

March 13, 1981.

Take notice that Enagenics (Applicant) filed on February 17, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)) for proposed Project No. 4206 to be known as the Laguna Project located on the Colorado River in Yuma County, Arizona. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Thomas H. Clarke, Jr., Presient, Enagenics, 1727 Q Street, N.W., Washington, D.C. 20009. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the existing Water and Power Resources Service's Laguna Dam, 4,780 feet long and 43 feet high and would consist of: (1) a new power plant adjacent to the downsteam face of the dam; (2) a new penstock and new trashracks; (3) a turbine/generator unit rated at 600 kW; (4) a new 2.0 mile long, 69-kV transmission line and (5) appurtenant facilities.

The Applicant estimates that the average annual energy output would be 2,200,000 kWh.

Purpose of Project—Project power would be sold either to the Western Area Power Administration or the Arizona Power Authority.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of three years, during which time it would perform surveys and geological investigations, determine the economic feasibility of the project, reach final agreement on sale of project power, secure financing commitments, consult with Federal, State, and local government agencies concerning the potential environmental effects of the project, and prepare an application for FERC license, including an environmental report. Applicant estimates the cost of studies under the permit would be $30,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant). Comments should be confined to substantive issues relevant tot he issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 13, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 13, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will

consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordane with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 13, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protest, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT OT FILE COMPETING APPLICATION", "COMPETING APPLCIATION", "PROTEST", or "PETITON TO INTERVENE", as applicable. Any of hese filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4206. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D. C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20428. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 3063-001]

Gelardin/Bruner/Cott, Inc.; Application for Short Form License (Minor)

March 12, 1981.

Take notice that Gelardin/Bruner/Cott, Inc. (Applicant) filed on January 26, 1981, an application for license [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for reconstruction and operation of a water power project to be known as Central Falls Hydroelectric Project No. 3063. The project would be located on the Blackstone River at Central Falls, in Providence County, Rhode Island. Correspondence with the Applicant should be directed to: Mr. Eric Richelson, Gelardin/ Bruner/Cott, Inc., 75 Cambridge Parkway, Cambridge, Massachusetts 02142, and Mr. Todd Cormier, Halliwell Associates, Inc., 865 Waterman Avenue, East Providence, Rhode Island 02914.

Project Description—The proposed project would consist of existing project works including: (1) Valley Falls Dam, a curved granite-masonry structure about 200 feet long and 10 feet high; (2) Valley Falls Pond, a reservoir of negligible storage capacity at surface elevation 49.5 feet m.s.l.; (3) a gatehouse/headgate structure containing five timber gates, each 7 feet-10 inches wide and 9 feet-3 inches high; (4) a headrace canal about 300 feet long, 12 feet deep, and varying from 28 to 60 feet wide; (5) a powerhouse area, located in the substructure of the restored south mill building (Blackstone Falls Mill), in which would be installed two new 409 kw turbine-generators for a total installed capacity of 818 kW; (6) a tailrace channel about 1,200 feet long and 25 feet wide at its narrowest section; (7) electrical facilities; and (8) other appurtenances. Applicant estimates annual generation would average 4,761,000 kWh.

Purpose of Project—The Blackstone Valley Falls Elderly Housing Project will utilize more than 25 percent of the project energy with the remainder being sold to the Blackstone Valley Electric Company.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments should be confined to substantive issues relevant to the issuance of a license. A copy of the application may be obtained directly from the Applicant. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 11, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than September 8, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 11, 1981.

Kenneth F. Plumb,

Secretary.

[FR Doc.81-8512 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4158-000]

Georgia-Pacific Corp.; Application for Preliminary Permit

March 16, 1981.

Take notice that Georgia-Pacific Corporation (Applicant) filed on February 9, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4158 to be known as Skookum Creek Project located on Skookum and Orsino Creeks in Whatcom County, Washington. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Georgia-Pacific Corporation, P.O. Box 1236, Attn: John H. Asmundson, Bellingham, Washington 98227. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) two 3-foot high concrete diversion weirs; (2) a 3-mile long pipeline; (3) a surge tank; (4) a 4,000-foot long penstock; (5) a powerhouse containing one generating unit rated at 5,000 kW; and (6) a 2-mile

long transmission line. The Applicant estimates that the average annual energy output would be 34.5 million kWh.

Purpose of the Project——The energy generated by the project would be sold to the Puget Sound Power and Light Company.

Proposed Scope and Cost of Studies Uunder Permit—Applicant seeks issuance of a preliminary permit for a period of 24 months, during which time it would conduct engineering and geological studies, perform preliminary designs, make an economic and feasibility analysis, obtain water rights, conduct environmental studies, and prepare an FERC license application. No new roads would be required to conduct the studies. The estimated cost of the work to be performed under the preliminary permit is $250,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 13, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 13, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 13, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST" or "PETITION TO INTERVENE", as applicable.

Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4156. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 4198-000]

Indiana Municipal Power Agency; Application for Preliminary Permit

March 16, 1981.

Take notice that Indiana Municipal Power Agency (Applicant) filed on February 13, 1981, an application for preliminary permit [Pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for proposed Project No. 4198 to be known as Cagles Mill Water Power Project located on the Mill Creek in Putnam County, Indiana. The Applicant is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Frank R. Rudolph, Chairman, Indiana Municipal Power Agency, 5020 Castleway West Drive, Indianapolis, Indiana 46250. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize an existing U.S. Army Corps of Engineers' dam and reservoir, and the Applicant facilities would be located mostly on U.S. lands. The proposed project would consist of: (1) an existing outlet conduit to be reinforced with a new steel liner; (2) a proposed penstock; (3) a proposed powerhouse containing generating units with a total installed capacity of 2.6 MW; (4) a proposed tailrace channel which would connect with the existing outlet channel; (5) proposed transmission lines; and (6) appurtenant facilities.

The Applicant estimates that the average annual energy output would be 6,900 MWh.

Purpose of Project—The power generated by the proposed project would be sold by the Applicant to the local residents.

Proposed Scope and Cost of Studies under Permit—Applicant has requested a 36-month permit to prepare a definitive project report, including preliminary design and economic feasibility studies, hydrological studies, environmetal and social studies, and soils and foundation data. The cost of the aforementioned activities along with obtaining agreements with other Federal, State and local agencies is estimated to be $290,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Fedral, State, and local agencies that recieve this notice through direct mailing form the Commssion are invited to submit

comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Continental Hydro Corp. Project No. 3389 filed on August 27, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 and 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petition to intervene must be received on or before April 8, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTESTS", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made a response to this notice of application for preliminary permit for Project No. 4198. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Divison of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8488 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4195-000]

Indiana Municipal Power Agency; Application for Preliminary Permit

March 10, 1981.

Take notice that Indiana Municipal Power Agency (Applicant) filed on February 13, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4195 to be known as Salamonie located on the Salamonie River in Wabash County, Indiana. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Frank R. Rudolph, Chairman, Indiana Municipal Power Agency, 5920 Castleway West Drive, Indianapolis, Indiana 46250. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize an existing U.S. Army Corps of Engineers' dam and reservoir, and would consist of: (1) a proposed steel liner in the existing outlet tunnel; (2) a proposed shut-off valve, wye and short penstock; (3) a proposed powerhouse; (4) a proposed tailrace; (5) proposed transmission lines and switchyard; and (6) appurtenant facilities. Applicant estimates the capacity of the proposed project to be 7.7 Mw, and the annual energy output to be 20.1 Gwh.

The proposed project will be located on Federal Lands.

Purpose of Project—Energy produced at the proposed project would be utilized by the twelve Indiana Municipal Power Agency (IMPA) members to displace power which would otherwise be purchased from private utilities.

Proposed Scope and Cost of Studies under Permit—Applicant has requested a 36-month permit to prepare a definitive project report, including preliminary design and economic feasibility studies, hydrological studies, environmental and social studies, and soils and foundation data. The cost of the aforementioned activities along with obtaining agreements with other Federal, State and local agencies is estimated to be $290,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Continental Hydro Corp., Project No. 3353 filed on August 25, 1980, under 18 CFR 4.33 (1980), and, therefore, on further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 and 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petition to intervene must be received on or before April 7, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTESTS", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it has made a response to this notice of

application for preliminary permit for Project No. 4195. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 4197-000]

Indiana Municipal Power Agency; Application for Preliminary Permit

March 16, 1981.

Take notice that Indiana Municipal Power Agency (Applicant) filed on February 13, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for proposed Project No. 4197 to be known as Mississinewa Water Power Project located on the Mississinewa River southeast of Peru, Indiana, in Miami County, Indiana. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. James V. Williamson, R. W. Beck and Associates, 200 Tower Building, 7th Avenue and Olive Way, Seattle, Washington 98101. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize an existing U.S. Army Corps of Engineers' dam and reservoir. Project No. 4197 would consist of: (1) a proposed waterway formed by the installation of a steel liner through the existing outlet tunnel; (2) a proposed wye from the existing conduit at the entrance to the stilling basin; (3) a proposed penstock from the wye to a manifold; (4) a proposed powerhouse located on the north bank of the river and discharging into the existing outlet channel; (5) proposed transmission lines; and (6) appurtenant facilities. The Applicant estimates the capacity of the project would be 10,300 kW and the annual output would be 26,900,000 KWh.

The proposed project will be located on Federal lands.

Purpose of Project—Energy produced at the proposed project would be utilized by the Indiana Municipal Power Agency members to displace power which would otherwise be purchased from private utilities.

Proposed Scope and Cost of Studies Under Permit—Applicant has requested a 36-month permit to prepare a definitive project report, including preliminary design and economic feasibility studies, hydrological studies, environmental and social studies, and soils and foundation data. The cost of the aforementioned activities along with obtaining agreements with other Federal, State, and local agencies is estimated to be $290,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications.—This application was filed as a competing application to Continental Hydro Corporation, Project No. 3365 filed on August 25, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 and 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petition to intervene must be received on or before April 7, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTESTS", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made a response to this notice of application for preliminary permit for Project No. 4197. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Room 208, RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 4196-000]

Indiana Municipal Power Agency; Application for Preliminary Permit

March 16, 1981.

Take notice that Indiana Municipal Power Agency (Applicant) filed on February 13, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for proposed Project No. 4196 to be known as C.M. Harden located on Raccoon Creek in Parke County, Indiana. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Frank R. Rudolph, Chairman, Indiana Municipal Power Agency, 5920

Castleway West Drive, Indianapolis, Indiana 46250. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize an existing U.S. Army Corps of Engineers' dam and reservoir and would consist of: (1) a proposed steel liner in the existing outlet conduit; (2) a proposed shut-off valve, wye and a short penstock; (3) a proposed powerhouse; (4) a proposed tailrace; (5) proposed transmission lines and switchyard; and (6) appurtenant facilities. Applicant estimates the capacity of the proposed project to be 1.4 MW, and the annual energy output to be 4.6 GWh.

The proposed project is to be located on Federal lands.

Purpose of Project—Energy produced at the proposed project would be utilized by the twelve Indiana Municipal Power Agency (IMPA) members to displace power which would otherwise be purchased from private utilities.

Proposed Scope and Cost of Studies Under Permit—Applicant has requested a 36-month permit to prepare a definitive project report, including preliminary design and economic feasibility studies, hydrological studies, environmental and social studies, and soils and foundation data. The cost of the aforementioned activities along with obtaining agreements with other Federal, State and local agencies is estimated to be $290,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Continental Hydro Corporation, Project No. 3391 filed on August 27, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 and 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petition to intervene must be received on or before April 7, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTESTS", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made a response to this notice of application for preliminary permit for Project No. 4196. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Room 208, RB Building, Washington, D.C 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

BILLING CODE 6450-85-M

[Project No. 4196-000]

Indiana Municipal Power Agency; Application for Preliminary Permit

March 16, 1981.

Take notice that Indiana Municipal Power Agency (Applicant) filed on February 12, 1981, an application for prelimianry permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4191 to be known as Monroe Lake located on Salt Creek in Monroe County, Indiana. The Application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Frank R. Rudolph, Chairman, Indiana Municipal Power Agency, 5920 Castleway West Drive, Indianapolis, Indiana 46250. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize an existing U.S. Army Corps of Engineers' dam and reservoir, and would consist of: (1) a proposed steel liner in the existing outlet conduit; (2) a proposed shut-off valve, wye and short penstock; (3) a proposed powerhouse; (4) a proposed tailrace; (5) proposed transmission lines and switchyard; and (6) appurtenant facilities. Appliant estimates the capacity of the proposed project to be 3.5 mw, and the annual energy output to be 9.1 Gwh. The proposed project would be located on Federal Lands.

Purpose of Project—Energy produced at the proposed project would be utilized by the twelve Indiana Municipal Power Agency (IMPA) members to displace power which would otherwise be purchased from private utilities.

Proposed Scope and Cost of Studies Under Permit—Applicant has requested a 36-month permit to prepare a definitive project report, including preliminary design and economic feasibility studies, hydrological studies, environmetal and social studies, and soils and foundation data. The cost of the aforementioned activities along with obtaining agreements with other Federal, State and local agencies is estimated to be $290,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and

environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to *Continental Hydro Corp.* Project No. 3355 filed on August 25, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 and 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petition to intervene must be received on or before April 7, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTESTS", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made a response to this notice of application for preliminary permit for Project No. 4191. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Divison of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E. Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8472 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4150-000]

Indiana Municipal Power Agency; Application for Preliminary Permit

March 13, 1981.

Take notice that Indiana Municipal Power Agency (Applicant) filed on February 9, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)) for proposed Project No. 4150 to be known as Huntington Waterpower Project located on the Wabash River in Huntington County, Indiana. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Frank R. Rudolph, Chairman, Indiana Municipal Power Agency, 5920 Castleway West Drive, Indianapolis, Indiana 46250. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize an existing U.S. Army Corps of Engineers' dam and reservoir, and the Applicant's facilities would be located mostly on U.S. lands. The proposed project would consist of: (1) a proposed intake structure; (2) a proposed power conduit bored through the left concrete non-overflow section; (3) a proposed steel penstock; (4) a proposed powerhouse containing generating units with a total installed capacity of 5.2 MW; (5) a proposed tailrace channel which would connect with the existing outlet channel; (6) proposed transmission lines; and (7) appurtenant facilities.

The Applicant estimates that the averge annual energy output would be 13,600 MWh.

Purpose of Project—The power generated by the proposed project would be utilized by the customers of the Indiana Municipal Power Agency.

Proposed Scope and Cost of Studies Under Permit—Applicant has requested a 36-month permit tb prepare a definitive project report, including preliminary design and economic feasibility studies, hydrological studies, environmental and social studies, and soils and foundation data. The cost of the aforementioned activities along with obtaining agreements with other Federal, State and local agencies is estimated to be $290,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Continental Hydro Corp. Project No. 3326 filed on August 18, 1980, under 18 CFR 4.33 (1980), and, therfore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 and 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordane with the Commission's Rules. Any comments, protests, or

petition to intervene must be received on or before April 7, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTESTS", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made a response to this notice of application for preliminary permit for Project No. 4150. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8513 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 3918-000]

Jackson County, Oreg.; Application for Preliminary Permit

March 12, 1981.

Take notice that Jackson County (Applicant) filed on January 2, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3918 to be known as Gold Ray Hydroelectric Project located on Rogue River in Jackson County, Oregon. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Paul Steinbrenner, County Administrator, Jackson County Courthouse, 10 South Oakdale, Medford, Oregon 97501. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (a) the existing Gold Ray Reservoir with gross storage capacity of 100 acre-feet at elevation 1,146 feet (mean sea level); (b) the existing 40-foot high, 394-foot long Gold Ray concrete gravity dam; (c) either the existing abandoned powerhouse (to be restored) or a new powerhouse (to be built) housing new generating units with total rated capacity of 6.5 to 9.0 MW; and (d) appurtenant facilities.

The Applicant estimates that the average annual energy output would be between 30 and 40 million kWh.

Purpose of Project—Project energy would be sold to Pacific Power and Light Company.

Proposed Scope and Cost of Studies Under Permit—Applicant has requested a 36-month permit to prepare a project report including preliminary designs, results of environmental, and economic feasibility studies. The cost of the above activities, along with preparation of an environmental impact report, obtaining agreements with the Federal, State, and local agencies, preparing a license application, conducting final field surveys, and preparing designs is estimated by the Applicant to be $50,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right to priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Gold Hill and Gold Ray Water Power Project No. 3210 on Rogue River in Jackson County, Oregon, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 6, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3918. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Room 208 RB, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-325-000]

Kansas City Power & Light Co. Filing

March 12, 1981.

The filing Company submits the following:

Take notice that on March 9, 1981, Kansas City Power & Light Company ("KCPL") tendered for filing an Assignment and Indemnification dated May 31, 1980, entered into between KCPL and The Empire District Electric Company ("Empire"), under the Associated-Companies Contract dated March 28, 1962, KCPL's Rate Schedule FPC No. 31A.

KCPL states the purpose of this filing is to assign to KCPL all of Empire's right, title and interest in and to all electric transactions under the Missouri Integration Arrangements during the remaining term of the Associated-Companies Contract. KCPL requests an effective date 60 days from the date of this filing.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10) All such petitions or protests should be filed on or before April 3, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket Nos. ER81-66-000, ER81-225-000, ER81-136-000, and ER80-502, et al.]

Louisville Gas & Electric Co.; Order Accepting for Filing and Suspending in Part Rate Schedule Changes, Waiving Notice in Part, Consolidating Dockets, Initiating Hearing, and Establishing Procedures

March 13, 1981.

The Louisville Gas and Electric Company (Louisville) filed certain amendments to its interconnection agreements with Public Service Company of Indiana (PSCI) on January 12, 1981,[1] in Docket No. ER81-66-000, with Big Rivers Electric Corporation (Big Rivers) on January 19, 1981, in Docket No. ER81-225-000, and with the Cincinnati Gas and Electric Company (CG&E) on November 24, 1980, in Docket No. ER81-136-000.[2] The amendments provide for (1) an increase in the demand charge for short-term power sold under the respective agreements, and (2) the replacement of percentage adders with fixed adders as part of the rates for any transmission or third party purchase and resale service provided by either party to the agreements pursuant to the Commission's Order Nos. 84 and 84-B.

Louisville requested an effective date of September 1, 1980, for the fixed adders and effective dates of January 1, 1981, and March 16, 1981, for all other rate changes filed in Docket Nos. ER81-66-000 and ER81-225-000, respectively. The charges filed by Louisville and CG&E in Docket No. ER81-136-000 have been previously accepted for filing by letter dated December 30, 1980, pursuant to the delegated authority of the Director of the Electric Power Regulation.

Lousiville's proposed amendments applicable to the three remaining parties provide for an increase from $0.07/kW/week to $0.85/kW/week in the demand charge for short-term power. The proposed amendments also provide for fixed adders of 2 mills/kWh for Louisville and PSCI, and 1 mill/kWh for CG&E as part of the rates for transmission service or third party purchase and resale service. Louisville also proposes to cancel a service schedule for maintenance power service to PSCI.[3]

PSCI and CG&E have submitted executed certificates of concurrence which are considered by the Commission to constitute filings in their own right with respect to these proposed charges, *i.e.*, a 2 mills/kWh adder for PSCI and a 1 mill/kWh adder for CG&E. No pleadings have been received in response to public notice of these filings.[4]

Discussion

Our analysis of the proposed demand charge for short-term power in Docket Nos. ER81-66-000 and ER81-225-000 indicates that this charge is cost-justified. Moreover, the $0.85/kw/week charge has already been accepted for filing with respect to PSCI.[5] Consequently, we shall accept the demand charges for short-term power for filing to become effective, without suspension, 60 days after completion of the filings on March 14, 1981 (Docket No. ER81-666-000) and March 21, 1981 (Docket No. ER81-225-000).

Our preliminary review, however, does not support the proposed 2 mills/kWh fixed adder in Docket Nos. ER81-666-000 and ER81-225-000. We find that this proposed charge has not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Consequently, we shall accept this portion of the submittals in both dockets for filing and we shall suspend operation of the 2 mills/kwh adder as directed below.

In a number of suspension orders, [6] we have addressed the considerations underlying the Commission's policy regarding rate suspensions. For the reasons given there, we have concluded that rate filings should generally be suspended for the maximum period permitted by statute where preliminary study leads the commission to believe that the filing may be unjust and unreasonable or that it may run afoul of other statutory standards. We have acknowledged, however, that shorter suspension periods may be warranted in circumstances where suspension for the maximum period may lead to harsh and inequitable results. Such circumstances have been presented here. We have consistently imposed a nominal suspension for interchange arrangements of the type involved in Docket Nos. ER81-666-000 and Docket No. ER81-225-000, recognizing that such arrangements provide for the mutual availability of necessary services. A one day suspension and the imposition of a refund obligation should protect the affected ratepayers pending the outcome of these consolidated proceedings. We further note that Order Nos. 84 and 84-B anticipated that required limitations on adders for third party transmission service would become effective on or about September 1, 1980. In addition, while the proposed fixed adders have not been shown to be just and reasonable, it appears that such adders can be expected to produce revenues

---

[1] This submittal was orginally made on October 30, 1980, but was declared deficient by letter order issued December 29, 1980.

[2] See Attachment A for rate schedule designations.

[3] Louisville's original transmittal letter in Docket No. ER81-66-000 also proposed to cancel a service schedule for fuel conservation energy service. By letter dated December 29, 1980, Louisville was requested to provide support for the cancellation of this service and to indicate what service would be offered in place of fuel conservaton energy service in the future if a fuel shortage situtation arose. On January 12, 1981, Louisville responded by indicating that the parties intended to retain the fuel conservation energy rate in accordance with the Commission's order in Docket Nos. ER78-228, *et al.*, establishing principles for fuel conservation energy rate schedules. Louisville's filing in Docket No. ER81-225-000 similarly indicated that the portion of the executed amendment which provided for the cancellation of the fuel conservation energy rate schedule was to be considered a nullity and that the service schedule would remain in effect pending renegotiation of the fuel conservation energy rate.

[4] Notices of the submittals in Docket Nos. ER81-66-000 and ER81-225-000 were issued on November 5, 1980, and January 20, 1981, respectively, with responses due on or before November 25, 1980, and February 13, 1981, respectively.

[5] *See* Letter order dated October 8, 1980, Docket No. ER80-255.

[6] *E.G., Boston Edison Company*, Docket No. ER80-508 (August 29, 1980) (five month suspension); *Alabama Power Company*, Docket No. ER80-506, *et al.*, (August 28, 1980) (one-day suspension); *Cleveland Electric Illuminating Company*, Docket No. ER80-498 (August 22, 1980) (one-day suspension).

lower than the existing percentage adders. Accordingly, we shall waive the prior notice requirements, and the proposed fixed adders filed in Docket Nos. ER81–666–000 and ER81–225–000 will be suspended for one day to become effective on September 2, 1980.

As noted above, Louisville's previous submittal in Docket No. ER81–136–000 was accepted for filing and allowed to go into effect without suspension as a result of a letter order issued by the Director of the Office of Electric Power Regulation. Since our current review of the filings in Docket Nos. ER81–666–000 and ER81–225–000 indicates that the 2 mills/kWh fixed adder may not be just and reasonable, and since an identical 2 mills/kWh fixed adder was filed in Docket No. ER81–136–000, we are compelled to look into the matter further. Based upon our present analysis, we believe it is in the public interest to institute an investigation pursuant to section 206(a) of the Federal Power Act for the limited purpose of invetigating the fixed adder in Docket No. ER81–136–000.

Since the proposed 2 mills/kWh fixed adder in Docket No. ER81–136–000 is identical to those filed by Louisville in Docket Nos. ER81–66–000 and ER81–225–000, consolidation of these proceedings is appropriate and in the public interest. Futhermore, consolidation of these three dockets with the current proceeding in Allegheny Power System, et al., Docket Nos. ER80–592, *et al.*, is appropriate since common questions of law and fact are presented.

The Commission Orders:

(A) Waiver of the notice requirements is hereby granted with respect to the fixed adders filed in Docket Nos. ER81–66–000 and ER81–225–000.

(B) The proposed 2 mills/KWh fixed adders filed in Docket Nos. ER81–66–000 and ER81–225–000 are hereby accepted for filing and suspended for one day to become effective on September 2, 1980, subject to refund pending hearing and decision.

(C) The proposed rate changes, other then the proposed 2 mills/KWh fixed adder, which have been filed in Docket Nos. ER81–66–000 and ER81–225–000 are hereby accepted for filing to become effective on March 14, 1981, in Docket No. ER81–66–000 and on March 21, 1981, in Docket No. ER–61–000, without suspension.

(D) Docket No. ER81–136–000 is hereby re-opened for the purposes specified in this order.

(E) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the DOE Act and by the Federal Power Act, particularly sections 205 and 206 thereof, and pursuant to the Commission's Rules of Practice and Procedure, and the regulations under the Federal Power Act [18 CFR, Chapter I (1980)], a public hearing shall be held concerning the justness and reasonableness of the 2 mills/KWh fixed adders filed in Docket Nos. ER81–66–000 and ER81–225–000, respectively, and currently in effect in Docket No. ER81–136–000.

(F) The proceedings in Docket Nos. ER81–66–000, ER81–225–000, and ER81–136–000 are hereby consolidated with the pending proceedings in Docket Nos. ER80–592, *et al*, for purposes of hearing and decision.

(G) The administrative law judge designated to preside in the consolidated proceeding in Docket Nos. ER80–592, *et al.*, shall determine the appropriate procedures necessary to accommodate consolidation of Docket Nos. ER81–66–000, ER81–225–000, and ER81–136–000, with the existing proceedings.

(H) The Secretary shall promptly publish this order in the **Federal Register**.

By the Commission.

Kenneth F. Plumb,

Secretary.

Attachment A.—*Louisville Gas & Electric Co., Docket Nos. ER81–66–000, ER81–225–000 Rate Schedule Designations*

Docket No. ER81–66–000.

[FR Doc. 81–8473 Filed 3–18–81; 8:45 am]
BILLING CODE 6450–85–M

[Docket No. ER81–222–000]

Louisville Gas & Electric Co.; Filing

March 12, 1981.

The filing Company submits the following:

Take notice that Louisville Gas and Electric Company (LG&E), on March 5, 1981, tendered for filing proposed changes in its Interconnection Agreement between LG&E and East Kentucky Power Cooperative (East Ky.) designated Louisville Gas and Electric Company FPC Rate Schedule No. 25.

The purpose of this filing is to increase the transmission charge as set forth under Article II of the Interconnection Agreement from 0.6 mill per kilowatt-hour to 1 mill per kilowatt-hour, and to increase the demand charge as set forth under Article VI from $0.12 per kilowatt per weekday (Monday through Saturday) to $0.14 per kilowatt per weekday (Monday through Saturday). These proposed revisions reflect a desire on the part of both parties to attain the optimum benefit from the interconnection of their systems.

Copies of the filing were served upon East Ky. and the Energy Regulatory Commission of Kentucky.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N. E., Washington, D. C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 3, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to

become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8502 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4215-000]

Metropolitan District Commission; Application for Preliminary Permit

March 13, 1981.

Take notice that the Metropolitan District Commission (Applicant) filed on February 17, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)) for proposed Project No. 4215 to be known as the Tariffville Project located on the Farmington River in Tariffville, Hartford County, Connecticut. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Bernard A. Batycki, District Manager, The Metropolitan District, 555 Main Street, Hartford, Connecticut 06101. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a new 30-foot high, 220-foot long concrete dam at the location of the old Tariffville dam; (2)(a) a new powerhouse at the location of the old powerhouse containing two turbine-generators with a total rated capacity of 3.0 MW; or (b) a diversion structure and 4,000-foot long power conduit extending downstream through Tariffville Gorge to the site of the old dam (which would eliminate the need for a dam) and a new powerhouse, located at the site of the old powerhouse containing two turbine-generators with total rated capacity of 3.0 MW; or (c) a 5,000 to 6,000-foot long tunnel whose intake would be located 1½ miles upstream from the old dam (which would also eliminate the need for a dam) and which would extend across the bend in the river, leading to a new powerhouse located approximately 1,000 to 2,000 downstream from the old dam containing two turbine-generator units with a total rated capcity of 4.5 MW; (3) a transmission line; and (4) appurtenant facilities.

The applicant estimates that the average annual energy output would be up to 20,000 kWh.

Purpose of Project—Energy produced at the project would be sold to Hartford Electric Light Company for distribution to its customers.

Proposed Scope and Cost of Studies Under Permit—The work proposed under the preliminary permit would include preliminary designs and economic analysis and a study of environmental impacts. Based on results of these studies, Applicant would decide whether to proceed with more detailed studies and the preparation of an application for license to construct and operate the project. Applicant estimates that the cost of the work to be performed under the preliminary permit would be $75,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to the Tariffville Project, No. 3324 filed on August 15, 1980, by Hartford Electric Light Company under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordane with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedure specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the commission's Rules. Any comments, protests, or petitions to intervene must be received on or before April 7, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTESTS", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made a response to this notice of application for preliminary permit for Project No. 4215. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, N. E., Room 208 RB Building, Washington, D. C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8515 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4117-000]

Metropolitan District of Hartford, Connecticut; Application for Preliminary Permit

March 16, 1981.

Take notice that the Metropolitan District of Hartford County, Connecticut, (Applicant) filed on February 5, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for proposed Project No. 4117-000 to be known as the Collinsville Project. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Bernard A. Batycki, District Manager, The Metropolitan District, 555 Main Street, Hartford, Connecticut 06101. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements

specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would include the following existing works: (1) the Collins Company Upper Dam, having a height of 32 feet and a length of 900 feet. The dam impounds a reservoir of 55 surface acres and a storage capacity of 350 acre-feet; (2) the Collins Company Lower Dam, having a height of 33 feet and a length of 400 feet. The dam impounds a reservoir of 40 surface acres and a storage capacity of 180 acre-feet; (3) the Goodwin Dam, having a height of 125 feet and a length of 900 feet. The dam impounds a reservoir of 215 surface acres and 8,900 acre-feet of storage; (4) the Nepaug Dam, having a height of 133 feet and a length of 600 feet; (5) the Phelps Brook Dam, having a height of 67 feet and a length of 1,250 feet. The Nepaug and Phelps Brook Dams together impound the Nepaug Reservoir having 900 surface acres and 34,120 acre-feet of storage capacity; (6) the Saville Dam, which impounds the Barkhamsted Reservoir, having a storage capacity of approximately 92,000 acre-feet; (7) a powerhouse at the Collins Company Upper Dam, which would be restored and would have an installed generating capacity of 1,500 kW. Alternately, the Applicant might construct a new powerhouse; (8) a powerhouse at the Collins Company Lower Dam, which would be restored and would have an installed generating capacity of 1,500 kW. Alternately, the Applicant might construct a new powerhouse; (9) a proposed powerhouse, which would utilize flows from the Nepaug and Barkhamsted Reservoirs and would have an installed generating capacity of 2,500 kW; and (10) appurtenant works.

The project would have a total installed generating capacity of 5,500 kW, and an estimated average annual energy output of 19,000,000 kWh.

Purpose of Project—Project energy would be sold to the Hartford Electric Light Company, or to local users of electric energy.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of two years, during which time Applicant would investigate the power generation, construction, economic, environmental, historic, and recreational aspects of the project. Depending upon the outcome of the studies, the Applicant would decide how to proceed with further environmental studies, project designs, and an application for a FERC license.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to the Collins Company Dams Project No. 3271, filed on July 29, 1980, by Water Power Development Corporation under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 7, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4117. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's Regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

BILLING CODE 6450-85-M

[Docket No. ER81-321-000]

Ohio Power Co.; Filing

March 12, 1981.

The filing Company submits the following:

Take notice that American Electric Power Service Corporation (AEP) on March 9, 1981, tendered for filing on behalf of its affiliate Ohio Power Company (OPCo.), Modification No. 16 dated February 23, 1981 to the Operating Agreement dated June 14, 1982 between The Cleveland Electric Illuminting Company and Ohio Power Company, OPCo.'s Rate Schedule FERC No. 31.

Sections 1 and 2 of Modification No. 16 provide for an increase in the demand charge for Short Term and Limited Term Power from $0.85 to $1.05 per kilowatt per week and $4.50 to $5.50 per kilowatt per month respectively. Both schedules proposed to become effective February 23, 1981.

Applicant states that since the use of Short Term Power and Limited Term Power cannot be accurately estimated, for the twelve-month period succeeding the date of filing, it is impossible to estimate the increase in revenues resulting from its modification for such period. Applicant's Appendix V which was included with the filing of this modification, demonstrates that the increase in revenues which would have resulted had the modification been in effect during the twelve-month period ending December 1980 would have been $4,009,642.88 (i.e., from $86,474,006.74 to $90,483,649.62) for Short Term power and $5,100,000.00 (i.e., from $98,052,425.50 to $103,152,424.50) for Limited Term Power.

Copies of the filing were served upon The Cleveland Electric Illuminating Company and the Public Utilities Commission of Ohio.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 3, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8503 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. TA 81-2-40-000 (PGA 81-2)]

Raton Natural Gas Co.; Change in Rates

March 12, 1981.

Take notice that Raton Natural Gas Company (Raton), on March 6, 1981, tendered for filing proposed changes in its FERC Gas Tariff, Volume No. 1, consisting of Twenty-fourth Revised Sheet No. 3a. The change in rates is for jurisdictional gas service. The proposed effective date is April 1, 1981.

Raton states that the instant notice of change in rates is occasioned solely for decrease in the cost of gas purchased from Colorado Interstate Gas Company (CIG). The tracking of CIG gas cost decrease results in decrease in Demand Rate from $1.85 to $1.79 and decrease in Commodity Rate from 305.16¢ to 302.84¢ per MCF. The annual revenue decrease, by reason of the tracking, amounts to $25,462.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.9 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.9, 1.10). All such petitions or protests should be filed on or before March 23, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

Copies of this filing are on file with the Commission and are available for inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8484 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. ER81-316-000]

Southeastern Electric Power Co., Filing

March 12, 1981.

The filing Company submits the following:

Take notice that on March 5, 1981, Southwestern Electric Power Company (SWEPCO) tendered for filing an Agreement between SWEPCO and Gulf States Utilities Company (Gulf States) dated October 2, 1978, which provides for SWEPCO to offer to sell and GSU to purchase capacity without reserves from specific generating units according to the following schedule:

Period	Unit	Megawatt rated capability	Megawatt offered	Estimated unit cost per kWhr delivered
June 1, 1981 to May 31, 1982.	Flint Creek No. 1.	264	90	200
June 1, 1982 to May 31, 1983.	Welsh No. 3...	528	160	295
June 1, 1983 to May 31, 1984.	Welsh No. 3...	528	115	295

SWEPCO states that it desires to sell the capacity from these units in order to reduce its reserves and Gulf States desires to purchase this capacity to assist in meeting its load requirements.

SWEPCO further states that energy schedule to be delivered each month shall be primary energy which is that energy scheduled up to 146 hours times the maximum Kilowatts established during the billing months, and secondary energy which is the scheduled energy which exceeds 146 hours times the maximum Kilowatts established during the billing month but not to exceed, in the aggregate, 436 hours times the maximum Kilowatts used during the same billing month.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8

and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 3, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. TA81-2-41-000 (PGA81-2)]

Southwest Gas Corp.; Change in Rates Pursuant to Purchased Gas Cost Adjustment

March 12, 1981.

Take notice that Southwest Gas Corporation ("Southwest") on February 27, 1981 tendered for filing Tenth Revised Sheet No. 10 and Second Revised Sheet No. 10A pursuant to Section 9, Purchased Gas Adjustment Clause ("PGA"), of the General Terms and Conditions contained in its FERC Gas Tariff, Original Volume No. 1. The purpose of said filing is to reflect a reduction in rates occasioned by a decrease in rates from Southwest's northern Nevada sole supplier of gas, Northwest Pipeline Corporation, effective April 1, 1981. The proposed effective date for Southwest's proposed reduction in rates is April 1, 1981.

Southwest states that a copy of this filing has been mailed to the Nevada Public Service Commission, the California Public Utilities Commission, Sierra Pacific Power Company and CP National.

Any person desiring to be heard, or to protest said filing, should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 24, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8805 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 3926-000]

Mr. Edward D. Stone, Jr., and Mr. Robert V. Stone; Application and Preliminary Permit

March 13, 1981.

Take notice that Mr. Edward D. Stone, Jr. and Mr. Robert V. Stone (Applicant) filed on January 5, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3926 to be known as the Stone Project located on the Eightmile River in New London County, Connecticut. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Robert V. Stone; 24 West 69th Street; Apartment 2S; New York, New York 10023. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) an existing 10 foot high, two section stone dam having a length of 70 feet; (2) an existing stone and concrete spillway; (3) the existing Mill Pond having a surface area of approximately 20 acres with a normal surface elevation of 24.37 feet; (4) an existing flume; (5) an existing penstock; (6) a new powerhouse having an installed generating capacity of 85 kW; (7) an existing tailrace; (8) new transmission lines and switchyard equipment; and (9) appurtenant works. The Mill Pond and Dam are owned by the Lyme Land Conservation Trust. The Applicant estimates that the average annual energy output would be 500,000 kWh.

Purpose of Project—Project energy would be sold to local public utilities.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of three years during which time the Applicant would investigate and generate project design alternatives, financial feasibility, environmental effects of project construction and operation and power output potential. Depending upon the outcome of the studies, the Applicant would decide whether to proceed with an application for FERC license. Applicant estimates the costs of studies under the permit would be $15,650.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, state and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 13, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 13, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed; but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a4 petition to intervene in accordance with the Commission's Rules. Any comments,

protest, or petition to intervene must be received on or before May 13, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3926–000. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's Regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 N. Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[ER81-324-000]

Union Electric Co.; Filing

March 12, 1981.

The filing Company submits the following:

Take notice that on March 9, 1981, Union Electric Company tendered for filing under Appendix B of the Interconnection Agreement between Central Illinois Public Service Company, Illinois Power Company, and Union Electric Company a new connection point and a revision to an existing connection point. Also included in the filing is a new Appendix "I" and an Amended Appendix "C" to the Facility Use Agreement between Union Electric Company and Central Illinois Public Service Company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions should be filed on or before April 3, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are available for public inspection at the Federal Energy Regulatory Commission.

[Docket No. ER81-310-000]

The Washington Water Power Co.; Filing

March 12, 1981.

The filing Company submits the following:

Take notice that on March 2, 1981, The Washington Water Power Company (Washington) tendered for filing copies of a service schedule applicable to what Washington refers to as a "Capacity Sales Agreement" between Washington and the City of Seattle, Department of Lighting (Seattle) for the sale of capacity. Washington states that the capacity will be made available to Seattle from November 1, 1980, through February 28, 1981.

Washington requests that the requirements of prior notice be waived and the effective date be made retroactive to November 1, 1980, adding that there would be no effect upon purchasers under other rate schedules.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 31, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Secretary.

[FR Doc. 81-8007 Filed 3-18-81; 8:45 am]

BILLING CODE 6450-85-M

Office of Hearings and Appeals

Implementation of Special Refund Procedures

AGENCY: Office of Hearings and Appeals, Department of Energy.

ACTION: Notice of Implementation of Special Refund Procedures and Solicitation of Comments.

SUMMARY: The Office of Hearings and Appeals of the Department of Energy solicits comments concerning the appropriate procedures to be followed in refunding to members of the public $1,629,000 in consent order funds. Separate escrow accounts of $1,100,000 and $529,000 were established by the Aluminum Company of America and Palo Pinto Oil and Gas Company, respectively, in settlement of enforcement proceedings brought by the Office of Enforcement of the Department of Energy.

DATES AND ADDRESSES: Comments must be filed on or before April 18, 1981, and should be addressed to the Office of Hearings and Appeals, Department of Energy, 2000 M Street, N.W., Washington, D.C. 20461. All comments should display conspicuously a reference to case numbers BEF-0021 and BEF-0034.

FOR FURTHER INFORMATION CONTACT: Thomas O. Mann, Acting Deputy Director, Office of Hearings and Appeals, Department of Energy, 2000 M Street NW., Washington, D.C. 20461, (202) 653-3137.

SUPPLEMENTARY INFORMATION: In accordance with § 205.282(b) of the procedural regulations of the Department of Energy, 10 CFR 205.282(b), notice is hereby given of the issuance of the Proposed Decision and Order set out below. The Proposed Decision and Order relates to two consent orders. One consent order was entered into by the Aluminum Company of America (Alcoa) and the Office of Enforcement of the DOE's Economic Regulatory Administration. *See* 44 FR 41908 (1979); 44 FR 67210 (1979). The Alcoa consent order was intended to settle all disputes between the DOE and Alcoa regarding Alcoa's first sale prices of natural gas liquids (NGLs) from its Point Comfort natural gas processing plant during the period September 1973 through December 1978. Under the terms of the consent order, Alcoa has deposited $1,100,000 into an escrow account. The other consent order was entered into by Palo Pinto Oil and Gas Company (Palo Pinto) and the ERA's Office of Enforcement. *See* 44 FR 41286 (1979). The Palo Pinto consent order was intended to settle all disputes between the DOE and Palo Pinto regarding first sale prices of NGLs from the firm's Markley natural gas processing plant during the period September 1973 through December 1978. Under the terms of this consent order, Palo Pinto has deposited $529,000 into an escrow account. In both consent orders, the parties stipulated that the refunds would be distributed by the DOE pursuant to 10 CFR, Part 205, Subpart V.

The Proposed Decision and Order sets forth procedures and standards that the DOE has tentatively formulated in order to distribute the contents of the escrow accounts funded by Alcoa and Palo Pinto. The DOE has tentatively decided that Applications for Refund should be accepted from the three initial purchasers of NGLs from the two plants during the covered period. We have also determined that Applications for Refund should be accepted from downstream

customers who bought products produced with or from the NGLs sold by Alcoa or Palo Pinto during the relevant time period. The Proposed Decision and Order states that in order to establish entitlement to some portion of the funds, a purchaser should provide all relevant information pertaining to a claim, including information concerning the date and place of purchase of the relevant product, information concerning whether increased costs incurred were retained or passed through to other purchasers by the claimant, and information reflecting the extent of any injury incurred, including the price and volume of product purchased.

The Proposed Decision and Order further provides a mechanism for distributing the funds remaining after all valid claims are paid.

The Proposed Decision and Order states DOE's view that the remainder of the consent order funds should be distributed through the three initial purchasers to persons or groups of persons who are likely to have suffered any overcharge injury. The DOE therefore solicits proposals from those three firms which set forth appropriate mechanisms for returning these moneys to the parties who likely paid increased prices as a result of the alleged overcharges. The DOE also invites proposals from other entities as well.

It should be pointed out that until final procedures are adopted, no claims for refunds can be accepted. Applications for Refund therefore should *not* be filed at this time. Appropriate public notice, including notice published in the **Federal Register**, will be given when the processing of claims is begun. No less than 90 days from publication of such notice in the **Federal Register** will be provided for the filing of claims.

Any member of the public may submit written comments regarding the proposed refund procedures. Commenting parties are requested to submit two copies of their comments. Comments should be submitted on or before April 18, 1981, and should be addressed to the address set forth at the beginning of this notice. All comments received in this proceeding will be available for public inspection in the Public Docket Room of the Office of Hearings and Appeals, located in Room B–120, 2000 M Street, N.W., Washington, D.C. between the hours of 1:00 to 5:00 p.m., Monday through Friday, except Federal holidays.

Dated: March 13, 1981.

Thomas L. Wieker,

Acting Director, Office of Hearings and Appeals.

Proposed Decision and Order of the Department of Energy

March 13, 1981.

Special Refund Procedures

Name of Petitioner: Office of Enforcement, Economic Regulatory Administration: In the Matters of Aluminum Company of America and Palo Pinto Oil and Gas Company

Dates of Filing: December 15, 1980; February 13, 1981

Case No. BEF–0021; BEF–0034

Under the procedural regulations of the Department of Energy, the Economic Regulatory Administration's Office of Enforcement (OE) may request the Office of Hearings and Appeals to formulate and implement a specially-designed process to distribute funds received as a result of an enforcement proceeding in order to remedy the effects of alleged violations of the DOE regulations. 10 CFR, Part 205, Subpart V. In accordance with these regulatory provisions, the OE recently filed Petitions for the Implementations of Special Refund Procedures in connection with Consent Orders entered into with the Aluminum Company of America (Alcoa) and Palo Pinto Oil and Gas Company (Palo Pinto). Pursuant to the two Consent Orders, Alcoa and Palo Pinto agreed to make refunds for alleged violations of the DOE price regulations in the amounts of $1,100,000 and $529,000, respectively. The funds are now being held in an escrow account under the jurisdiction of the DOE pending receipt of instructions from the DOE regarding their final distribution.

I. Background

Both Alcoa and Palo Pinto are "gas plant owners" within the meaning of 10 CFR 212.162. During the relevant time periods, they were therefore subject to the Mandatory Petroleum Price Regulations set forth in 6 CFR, Part 150, Subpart L, and 10 CFR, Part 212, Subparts E and K. Those regulations governed the prices charged in the first sales of natural gas liquids (NGLs). As a part of its enforcement activities, the OE conducted audits of certain Alcoa and Palo Pinto natural gas processing plants. The funds involved in this decision were obtained as a result of Consent Orders agreed to in settlement of alleged overcharge by the two firms in the sale of NGLs.

The ERA's audit of Alcoa's Point Comfort gas plant revealed possible pricing violations with respect to Alcoa's first sales of NGLs during the period September 1973 through December 1978. Alcoa's sole purchaser of NGLs from the Point Comfort plant during this period was the Tenneco Oil Company (Tenneco). In order to settle all claims and disputes between the parties regarding Alcoa's first sale prices of NGLs from the Point Comfort plant, Alcoa and the ERA entered into a Proposed Consent Order on June 18, 1979. In the Proposed Consent Order, Alcoa agreed to pay $1,100,000 to the DOE. The parties further agreed that the $1,100,000 would be distributed by the DOE pursuant to 10 CFR, Part 205, Subpart V. Notice of the Proposed Consent Order was published in the **Federal Register** on July 18, 1979. *See* 44 FR 41906 (1979). Interested persons were provided an opportunity to comment on the terms of the Proposed Consent Order and to submit written notice to ERA of potential claims against the settlement funds. In response, Tenneco submitted a claim for the $1,100,000 fund. No comments were received. The Proposed Consent Order was finalized without modification on November 16, 1979. *See* 44 FR 67210 (1979).

In its audit of Palo Pinto's Markley gas plant, the ERA similarly found possible violations with respect to first sales of NGLs during the period September 1973 through December 1978. Palo Pinto sold NGLs from the Markley Gas plant to only two refiners during this period: Warren Petroleum Corporation (Warren) and GTM Corporation (GTM). According to the ERA, 94.4 percent of the total alleged overcharges are attributable to sales to Warren, which purchased NGLs from Palo Pinto for 35 months of the relevant period. The ERA calculated that 5.6 percent of the alleged overcharges occurred in sales to GTM, which purchased NGLs from Palo Pinto during only four months of the relevant period.

On June 28, 1979, the ERA and Palo Pinto entered into a Consent Order under which Palo Pinto agreed to refund $529,000 (*1*) in settlement of all claims and disputes between the parties arising out of the Markley gas plant audit. Again, the parties stipulated that the refunds were to be distributed by the DOE pursuant to Subpart V proceedings. Notice of the Consent Order was published in the **Federal Register** on July 18, 1979. *See* 44 FR 41286 (1979). Interested parties were given an opportunity to comment on the terms of the Consent Order and invited to submit notice of potential claims against the refund account. The DOE also issued a press release regarding the proposed Consent Order. No comments or claims

were received in response to the Notices.

II. Jurisdiction

Section 205.280 of the DOE procedural regulations provides that special refund procedures may be adopted by the Office of Hearings and Appeals upon petition by a DOE enforcement official when that official is unable to readily identify persons who are entitled to refunds specified in a remedial order or in a consent order. In the Alcoa and Palo Pinto Consent Orders, the parties stipulated that since the initial purchasers from the firms were refiners, it is likely that any overcharges have been passed through as higher prices to subsequent purchasers. Because the ultimate consumers who paid higher prices are not readily identifiable, the parties to the Alcoa and Palo Pinto Consent Orders agreed that refunds would be made pursuant to Subpart V proceedings.

In reaching a determination to accept jurisdiction in prior Subpart V proceedings, we have considered the following factors: (1) whether the refund amount at issue is large enough to justify the employment of special refund procedures; (2) the complexity of the issues involved; and (3) the importance of providing notice and opportunity to comment to interested parties. *See generally Office of Enforcement*, 4 DOE ¶82,567 (1979).

The Alcoa case involves $1,000,000. In the Palo Pinto case, $529,000 is at issue. These amounts are certainly substantial enough to justify the employment of special refund procedures. *See, e.g., Office of Enforcement*, 4 DOE § 82,574 (1979). On several prior occasions, we have held that cases in which there were only a few initial purchasers did not present issues of sufficient complexity to warrant the implementation of special refund procedures. *See, e.g., Office of Enforcement*, 5 DOE ¶82,520 (1980). However, those decisions were reached at a time when the DOE had a comprehensive price regulation scheme in effect which could facilitate the channeling of refunds through price reductions to ultimate consumers.

As a result of decontrol, there is uncertainty regarding the effectiveness of price rollbacks as a method of making restitution to purchasers who were overcharged in the past. Moreover, to effect restitution to the parties actually injured by the alleged overcharges, a determination must be made regarding the extent to which the first purchasers absorbed the overcharges, or passed the higher costs through to their customers by raising their prices. As noted above, the sole first purchaser of the NGLs from Alcoa's Point Comfort plant during the period covered by the consent order was Tenneco. Similarly, Palo Pinto had only two first purchasers during the relevant period—Warren and GTM. We believe that the present Subpart V proceedings offer the most appropriate forum in which to adjudicate the claims of these three firms to portions of the consent order funds. Furthermore, we think that Tenneco, Warren, and GTM can effectively assist the DOE in identifying the downstream customers who are entitled to receive any remaining portions of the consent order funds. Accordingly, we will grant the Office of Enforcement's Petitions for Implementation of Special Refund Procedures, and accept Subpart V jurisdiction over the consent order funds obtained from Alcoa and Palo Pinto.

III. Authority to Fashion Refund Procedures

In several recent decisions we have explained the OHA's authority to conduct special refund proceedings under Subpart V. *See, e.g., Office of Enforcement*, No. DFF-0006, 46 FR 15320 (1981) (Proposed decision) (hereinafter cited as *Vickers); Office of Special Counsel*, 4 DOE ¶82,511 (1979). Subpart V authorizes the Office of Hearings and Appeals to fashion special procedures to distribute refunds obtained as part of settlement agreements. These provisions of the DOE regulations are intended to implement several different statutes. Congress provided for the mandatory allocation and pricing of crude oil, residual fuel oil, and refined petroleum products in the Emergency Petroleum Allocation Act of 1973 (EPAA), 15 U.S.C. 751 *et seq.* (1976). Natural gas liquids are petroleum products for the purposes of the EPAA and are therefore subject to its provisions. *Mobil Oil Corp. v. FEA*, 666 F.2d 87 (Temp. Emer. Ct. App. 1977). The enforcement mechanisms for regulations issued under the EPAA were specified in the Economic Stabilization Act (ESA), 12 U.S.C. 1904 note (1970). EPAA, § 5(a), 15 U.S.C. 754(a).

The authority contained in the foregoing statutes to issue and enforce regulations with respect to petroleum allocation and pricing was delegated to the Administrator of the Federal Energy Administration and subsequently to the Secretary of Energy. Federal Energy Administration Act (FEAA), § 5, 15 U.S.C. 765 (1974); Department of Energy Organization Act (DOE Act), 201(a), 42 U.S.C. 7151(a) (1979). To carry out the statutory mandates, the regulations of the Cost of Living Council, the Federal Energy Office, the Federal Energy Administration, and the Department of Energy have provided throughout the existence of the price control program for the issuance of remedial orders "requiring a person to cease a violation or to eliminate or compensate for the effects of a violation, or both." 6 CFR 155.81(b) (1973); 10 CFR 205.2 (1974) (defining "remedial order").

In order to implement these statutory and regulatory goals the DOE's enforcement process is designed to accomplish two independent ends: disgorgement of the fruits of a regulatory violation from the wrongdoer, and restitution to persons injured by the regulatory violation. *See generally, Vickers*, slip op. at 4. The latter objective—restitution to overcharged persons—furthers the specific EPAA goals of "equitable distribution of * * * refined petroleum products at equitable prices * * * among all users" and "economic efficiency." 15 U.S.C. 753(b)(1)(F), (H).

IV. Proposed Refund Procedures

In view of the objectives expressed in the statutes and regulations discussed above, and the Consent Orders themselves, procedures should be devised in these two cases which, to the maximum extent practicable, provide for the distribution of the refund amounts to parties on whose behalf the settlements were negotiated.

As we stated in *Vickers*, restitution is the primary focus of Subpart V, which authorizes the Office of Hearings and Appeals to formulate and implement a process "pursuant to which refunds may be made to injured persons in order to remedy the effects of a violation" of DOE regulations. 10 CFR 205.280. The Subpart V process is intended to provide refunds whenever possible to the persons or firms who were injured by overcharges during a particular period. It offers a means of compensation for many individuals who lack the resources or the financial stake to institue their own private lawsuits under Section 210 of the ESA. The Subpart V process can also be an efficient administrative mechanism for returning overcharges to affected parties which avoids lengthy and costly court actions. The distribution of funds to overcharged persons should generally take place in two primary ways: (1) payment of funds to persons and firms who file individual applications for refund and prove they are entitled to a portion of the funds held in trust, and (ii) payment of funds on behalf of injured persons to entities which can themselves implement restitution which furthers the foregoing purposes. The Subpart V regulations specify that "any

remaining funds * * * shall be deposited in the United States Treasury or distributed in any other manner specified in the Decision and Order referred to in § 205.282(c)." 10 CFR 205.288(c).

A. Refunds to Identifiable Purchasers

As a first step, the consent order funds should be distributed to claimants who successfully identify themselves as adversely affected purchasers. While we recognize that it is likely that Tenneco, Warren, and GTM (the first purchasers) passed on some portions of the alleged overcharges to their own customers, they will of course be afforded an opportunity to demonstrate the extent to which they did not actually do so. To the extent that Tenneco, Warren, and GTM can establish that they absorbed the price increases rather than passing them through to customers, they will be entitled to receive refunds themselves. In order to qualify for a refund, a first purchaser will be required to demonstrate that during the period covered by the relevant Consent Order it could have kept its prices at the same level if it had experienced a cost reduction equal to the amount of the refund claimed. In order to show this, a firm must demonstrate that at the time it purchased covered products from Alcoa or Palo Pinto it had unrecovered product costs which were at least equal to the amount of the refund claim, and that market conditions would not permit it to increase its prices to pass through the higher costs. In addition, it must have maintained a "bank" of unrecovered costs during each month thereafter in order to demonstrate that it did not subsequently recover these costs by increasing its prices. The amount of the refund will be limited to the amount of unrecovered costs available to the claimant for recovery through price increases. *See Office of Special Counsel for Compliance*, 4 DOE ¶ 82,511. If the three initial purchasers are able to make these showings, the entire amount of the funds at issue in this proceeding will be disbursed to them. In the event they are unable to make a satisfactory showing, the next group of persons who will be entitled to receive a portion of these funds are those firms and individuals who purchase NGLs and natural gas liquid products (NGLPs) from the first purchasers.

In order to establish entitlement to a refund, any person identifying itself as an injured party must demonstrate initially that it purchased a specific quantity of products which were produced with or from the NGLs sold by Alcoa or Palo Pinto during the relevant time period. Privity with Alcoa, Palo Pinto, or one of the three refiner-first purchasers need not be established; evidence need only be presented that the products purchased by the claimants flowed through a chain of distribution from Alcoa or Palo Pinto. In addition, unless the purchaser is an ultimate consumer, it must demonstrate that it did not pass through any cost increases resulting from the alleged overcharges to its own customers. For example, purchasers who resold the identified products must show that market conditions did not permit them to raise prices charged to downstream customers, and that as a result they were forced to absorb any cost increases incurred. In the absence of that showing, we must conclude that the claimant was not injured in any way by the alleged overcharge. *See Vickers*, slip. op. at 6; *Office of Special Counsel for Compliance*, 4 DOE ¶ 82,511 at 85,043–44 (1979). Refunds to purchasers who establish their entitlement to a refund would be made on a volumetric basis—*i.e.*, the refund would be based on the proportion of NGLs purchased by the applicant to the total amount of NGLs sold by Alcoa from the Point Comfort gas processing plant and by Palo Pinto from the Markley gas processing plant.

Any purchaser claiming a portion of the refund amount will be entitled to file an Application for Refund pursuant to 10 CFR 205.283. Applications should provide all relevant information pertaining to a claim for refunds of alleged overcharges, including the type of information described above concerning the date and place of purchase, the retention of increased costs, and information reflecting the extent of any injury incurred, including the price and volume of product purchased.

Detailed procedures for filing applications will be provided in a final Decision and Order. Before disposing of any of the funds received from Alcoa and Palo Pinto, we intend to provide the maximum possible notice of the distribution process and the opportunity to file claims. This notice will be provided to parties who may wish to request a refund by identifying themselves as adversely affected purchasers.

In addition to publishing notice in the **Federal Register**, notice will be provided in trade journals and in the areas in which Tenneco, Warren, and GTM marketed their respective products during the period covered by the Consent Orders. As a final matter, we note that refund applications filed on behalf of groups of claimants identifying themselves as adversely affected purchasers will be considered. Applications that are submitted on behalf of groups of purchasers will be evaluated on a case-by-case basis as received.

B. Distribution of the Remainder of the Refund Amount

After the claims of parties identifying themselves as adversely affected purchasers of the Alcoa and Palo Pinto NGLs have been filed and appropriate refunds to those purchasers have been made, the refund amounts provided by the firms pursuant to the Consent Orders are likely to be diminished but not exhausted. In view of the relatively small sums of money likely to be involved in many ultimate consumer claims, and the improbability that such consumers will possess detailed records regarding the validity of their claims, we anticipate that the foregoing showing of entitlement can be made by only limited numbers of persons. *See Vickers*, slip. op. at 7. The fact that claims to specific refunds may not have been proven, however, does not mean that injury has not occurred. Rather, the absence of claims for the full amount of the settlement would tend to reflect the difficulty of establishing a valid claim for a portion of the consent order funds.

As discussed above, the remaining amount should be distributed in accordance with the broadly conceived goals announced in the DOE's enabling legislation and implementing regulations. Consequently, the remaining funds should be distributed to groups of ultimate consumers who were likely to have borne a portion of the higher prices charged by Alcoa and Palo Pinto. This philosophy was reflected in our recent decision in *Vickers*, in which we proposed to return unclaimed portions of the consent order funds to ultimate consumers through organizations such as public utilities which are required by law to pass through the benefits of any cost reductions to their customers. In that decision we stated our belief that the class of customers of public utilities in the affected area was likely to bear a close relationship to the class of customers who were adversely affected by Vickers' pricing policies. *See Vickers*, slip. op. at 8–10.

The present case, however, is significantly different from *Vickers*. As an initial matter, the marketing and distribution of NGLs is much different from the marketing of motor gasoline through independent retail outlets. A significant proportion of the NGLs involved here were in all likelihood sold

for processing into other types of products such as petrochemicals. Although the effect of Vickers' pricing policies were isolated in an eight-state area, there is no indication in the present record regarding the geographic area in which the impact of the price increases was likely to have occurred.

As noted earlier, we believe that the first purchasers of the NGLs from Alcoa and Palo Pinto could most effectively assist the DOE in channeling the remaining Consent Order funds to persons who are most likely to have suffered any overcharge injury. Consequently, we propose to distribute any funds remaining after payments are made to successful claimants through Tenneco, Warren, and GTM. We solicit proposals from those three firms which set forth appropriate mechanisms for returning these moneys to the parties who likely paid increased prices as a result of the alleged overcharges. These plans should identify groups of end-users who were likely to have been adversely affected by the Alcoa and Palo Pinto price increases. To this end, each firm should take into account its distribution and marketing system and its method of calculating prices during the relevant period. To the extent that product purchases from the Point Comfort and Markley gas plants can be isolated in the appropriate distribution systems, the plans should limit the proposed refunds to customers who were downstream purchasers of the NGLs covered by the Consent Orders. The plans should also provide, as much as practicable, for a method by which to exclude from participation in this stage of the refund proceeding any purchasers who recovered a portion of the consent order funds during the prior distribution to successful claimants. In developing the foregoing plans, the first purchasers should give paramount consideration to the cost efficiency and an administrative ease of any proposed refund plan. For example, to the extent that the NGLs were used by agricultural producers, the plan may propose to distribute funds through agricultural cooperatives in the affected areas rather than to individuals.

We believe that the first purchasers of the Alcoa and Palo Pinto NGLs are, in the present cases, uniquely situated to provide a mechanism whereby refunds can be made to adversely affected parties. Of course, there may be other entities that might wish to submit proposals suggesting either a distribution scheme through which the first purchasers could channel remaining funds to injured parties, or an alternative method of distribution for the unclaimed Alcoa and Palo Pinto consent order funds. We invite any party interested in submitting such a plan to do so.

It is therefore ordered that: The $1,100,000 refund amount provided by the Aluminum Company of America and the $529,000 refund amount provided by Palo Pinto Oil and Gas Company will be distributed in accordance with the foregoing Decision.

Footnote

(1) The total refund amount of $529,000 includes a principal amount of $434,822 and interest of $94,178.

BILLING CODE 6450-01-M

Implementation of Special Refund Procedures

AGENCY: Office of Hearings and Appeals Department of Energy.

ACTION: Notice of implementation of special refund procedures and solicitation of comments.

SUMMARY: The Office of Hearings and Appeals of the Department of Energy solicits comments concerning the appropriate procedures to be followed in refunding to members of the public a $2,000,000 fund established by Conoco, Inc., in settlement of enforcement proceedings brought by the Office of Special Counsel for Compliance of the Department of Energy.

DATES AND ADDRESSES: Comments must be filed on or before April 18, 1981, and should be addressed to the Office of Hearings and Appeals, Department of Energy, 2000 M Street, N.W., Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT: Thomas O. Mann, Acting Deputy Director, Office of Hearings and Appeals, Department of Energy, 2000 M Street, NW., Washington, D.C. 20461, (202) 653-3137.

SUPPLEMENTARY INFORMATION: In accordance with § 205.282(b) of the procedural regulations of the Department of Energy, 10 CFR 205.282(b), notice is hereby given of the issuance of the Proposed Decision and Order set out below. The Proposed Decision and Order relates to a consent order between Conoco, Inc. and the Office of Special Counsel for Compliance of the DOE's Economic Regulatory Administration. *See* 43 FR 38925 (1978). The consent order is intended to settle various disputes between the DOE and Conoco with regard to prices charged by the firm in sales of motor gasoline and No. 2 heating oil to Foremost Petroleum Company and M & A Petroleum Company during the period March 6, 1973 through November 30, 1973. Under the terms of the consent order, Conoco has deposited $2,000,000 plus interest into an escrow account. The DOE agreed in the consent order to establish and administer a claims procedure to be followed by persons asserting a right to any portion of the payment which Conoco made.

The Proposed Decision and Order sets forth procedures and standards that the DOE has tentatively formulated in order to distribute the contents of the escrow account funded by Conoco. Since Foremost and M & A have agreed to waive all claims for refunds which they might have against Conoco, the DOE has tentatively decided that Applications for Refund should be accepted from purchasers of motor gasoline or No. 2 heating oil sold by foremost or M & A during the period covered by the consent order. The Proposed Decision tentatively identifies an area consisting of fourteen states (Texas, Louisiana, Mississippi, Alabama, Georgia, Tennessee, South Carolina, North Carolina, Virginia, Maryland, Pennsylvania, Delaware, New Jersey and New York) and the District of Columbia in which purchasers affected by the alleged Conoco overcharge are most likely to be found. The Proposed Decision and Order states that in order to establish entitlement to some portion of the funds, a purchaser including should provide all relevant information pertaining to a claim, information concerning the date and place of purchase of heating oil or motor gasoline traceable to Foremost or M & A, information concerning whether increased costs incurred were retained or passed through to other purchasers by the claimant, and information reflecting the extent of any injury incurred, including the price and volume of product purchased.

The Proposed Decision and Order further provides a mechanism for distributing the funds remaining after all valid claims by purchasers of the refined products are paid. The Proposed Decision and Order states DOE's view that the remainder of the Conoco funds should be distributed directly to the types of organizations that are required by applicable law to pass through the benefits of the refund to ultimate consumers of energy in the area in which the effects of the alleged overcharges were experienced. The DOE therefore proposes in the present case to distribute the remaining portions of the Conoco funds to electric utilities which have fuel adjustment clauses or other mechanisms requiring the benefit

of a refund to be passed through to the consuming public in the form of lower electric utility rates. Of course, there may be other entities, such as state governments in the affected areas, which can provide an identical service in distributing these refunds, and we solicit comments on the extent to which refunds should be made to these organizations as well. Comments are invited on the propriety of this approach to distribute the Conoco funds and the standards for distributing the funds if this approach is adopted in a final Decision and Order in this case.

It should be pointed out that until final procedures are adopted, no claims for refunds can be accepted. Applications for Refund therefore should *not* be filed at this time. Appropriate public notice, including notice published in the **Federal Register**, will be given when the processing of claims is begun. No less than 90 days from publication of such notice in the **Federal Register** will be provided for the filing of claims.

Any member of the public may submit written comments regarding the proposed refund procedures. Commenting parties are requested to submit two copies of their comments. Comments should be submitted on or before April 18, 1981, and should be addressed to the address set forth at the beginning of this notice. All comments received in this proceeding will be available for public inspection in the Public Docket Room of the Office of Hearings and Appeals, located in Room B–120, 2000 M Street, N.W., Washington, D.C., between the hours of 1:00 to 5:00 p.m., Monday through Friday, except Federal holidays.

Dated: March 13, 1981.

Thomas L. Wieker,

Acting Director, Office of Hearings and Appeals.

Proposed Decision and Order of the Department of Energy

Special Refund Procedures

March 13, 1981.

Name of Petitioner: Office of Special Counsel, for Compliance: In the Matter of Conoco, Inc.
Date of Filing: April 20, 1979
Case No. DFF–0003

On August 21, 1980, the Office of Hearings and Appeals (OHA) issued an interlocutory order stating that we would implement special refund procedures to disburse $2,000,000 obtained through a Consent Order which was entered into by Continental Oil Company, now Conoco, Inc. (Conoco) and the Office of Special Counsel for Compliance (OSC) on August 11, 1978. *See* 43 FR 38925 (August 31, 1978). Pursuant to the terms of the Consent Order, on September 25, 1978, OSC had accepted a check from Conoco in the amount of $2,000,000 plus accrued interest. Because of the difficulties involved in specifically identifying purchasers who may have been injured by Conoco overcharges, and in determining the amounts of any overcharges, the Office of Special Counsel requested on April 20, 1979 that special refund procedures be implemented pursuant to 10 CFR, Part 205, Subpart V. In the present decision, we consider the procedures under which the $2,000,000 plus interest earned should be distributed.

I. Background

The Conoco Consent Order resulted from an investigation initiated in March 1977 by the Federal Energy Administration (FEA) and later completed by the DOE. The investigation was undertaken after representatives of Conoco informed the FEA that in 1973 Conoco employees might have engaged in a scheme to sell motor gasoline and No. 2 heating oil at unlawful prices. The OSC investigation generally confirmed the information that had been provided by Conoco and further revealed that the purchasers of the products in question, Foremost Petroleum Company (Foremost) and M & A Petroleum Company (M&A), had voluntarily participated in the scheme. *See* 43 FR 38925 (August 31, 1978).

After completing its investigation, the OSC referred the matter to the Department of Justice for investigation of possible criminal violations by Conoco, Foremost, and M&A. The three firms, the DOE, and the Department of Justice subsequently agreed to the following disposition of the pending proceedings: Conoco entered a plea of *nolo contendere* to a felony charge of making false records under 18 U.S.C. 1001 and a misdemeanor count of violating Cost of Living Council regulations. It paid $15,000 in criminal fines. M&A entered a plea of *nolo contendere* to one felony count of violating 18 U.S.C. 1001 and paid $10,000 in criminal fines. Foremost entered a plea of *nolo contendere* to one misdemeanor count of violating Cost of Living Council regulations and paid $5,000 in criminal fines.

Conoco, M&A, and Foremost also entered into separate Consent Orders with the DOE. In the Conoco Consent Order, the firm agreed to tender a certified check for $2,000,000 to the United States government. This payment was deemed to satisfy any administrative remedial action that might be sought by the DOE for the refund of overcharges by Conoco in sales of gasoline and No. 2 heating oil to M&A and Foremost during the period March 6, 1973 through November 30, 1973. Conoco and the DOE agreed in the Consent Order that the payment to the United States government represented the most effective means of achieving restitution to persons ultimately affected by Conoco's allegedly unlawful practices.

In addition, the DOE agreed in the Consent Order to establish and administer a claims procedure to be followed by persons asserting a right to any portion of the payment which Conoco made to the United States. The Department stated that it would evaluate these claims and make refunds to persons who were able to prove that they had been overcharged. At the same time, Conoco agreed to cooperate with the DOE in the evaluation of those claims.

Finally, Conoco agreed to pay the United States an additional $265,000 in civil penalties in complete settlement of all administrative remedial actions that might be undertaken by the DOE against Conoco with regard to the matters described in the Consent Order.

In the other two Consent Orders, also executed on August 11, 1978, M&A and Foremost agreed to pay $40,000 and $45,000, respectively, in civil penalties in settlement of all administrative remedial actions that might be undertaken in connection with the transactions with Conoco. M&A and Foremost further agreed to waive all claims for refunds which they might have against Conoco with respect to the transactions involved.

On April 20, 1979, the OSC filed a Petition for Implementation of Special Refund Procedures in which it requested the Office of Hearings and Appeals to institute proceedings under the provisions of 10 CFR, Part 205, Subpart V, for the disposition and distribution of the $2 million payment which Conoco made to the United States pursuant to the August 11, 1978 Consent Order. On August 21, 1980, we accepted jurisdiction to adjudicate the disposition of the funds. *Office of Enforcement*, 6 DOE ¶ 82,572 (1980). Our determination to accept jurisdiction over the Conoco matter was based on the amount of money involved, the complexity of disbursing this sum, and the importance of providing notice so that persons who may have an interest in the funds have an opportunity to participate in the refund proceedings. *Id.* at 85,220. Implementation of proceedings pursuant to the provisions of Subpart V will discharge the obligations of the DOE

under the Conoco Consent Order "to provide for a claims procedure to be followed by persons asserting a right to any portion of the payment" and "to evaluate such claims and make refunds to those persons who are able to support such claims." Consent Order at 7.

The Office of Hearings and Appeals has received and reviewed extensive comments submitted in connection with this matter. On April 9, 1980, twenty consumer and public interest groups represented by common counsel filed a Comment and Request concerning the OSC Petition. (*1*) In their submission, the consumer and public interest groups request that the Conoco Consent Order funds be used to provide the initial funding for an independent entity called the Public Energy Trust. This organization would use the funds remaining after payments are made to individual consumers who are able to prove that they were overcharged to finance projects designed to assist consumers in coping with energy costs. The OSC supported this proposal. Conoco has filed comments in opposition.

Subsequently, we solicited views from a broad spectrum of interested parties. On September 10, 1980, the Office of Hearings and Appeals issued a Notice of Solicitation of Comments, in which we requested written comments on the manner in which all Consent Order funds currently under the control of the DOE should be disbursed. 45 FR 59627. The Consent Orders involved at that time were entered into by six independent and major integrated petroleum firms, including Conoco. A total of 101 written comments were received. The comments presented the views of major integrated refiners, independent refiners, petroleum marketers and resellers, trade associations, a broad range of consumer groups and several local, State, and Federal Government agencies. In issuing the procedures set forth below we have accorded careful consideration to these comments. We wish to emphasize that the conclusions which follow are tentative and may be revised upon consideration of submissions received in the comment stage of this proceeding. A copy of the final Decision and Order establishing refund procedures issued by the Office of Hearings and Appeals will be served upon each of the commenting parties. In addition, this proposed determination will be published in the **Federal Register**. We encourage interested parties to fully respond to the proposals advanced in this decision. The issuance of this tentative determination does not bar commenting parties from submitting alternative proposals concerning the proper disposition of the Conoco Consent Order funds.

II. Proposed Refund Procedures

A. Authority To Fashion Refund Procedures

The authority of the Office of Hearings and Appeals to fashion appropriate refund procedures was discussed in detail in a recent Decision involving the Vickers Energy Corporation. *Office of Enforcement*, No. DFF-0006 (February 27, 1981) (proposed decision) (hereinafter cited as *"Vickers"*). In that Decision we found that the regulations in Subpart V authorize the Office of Hearings and Appeals to fashion special procedures to distribute refunds obtained as part of settlement agreements. We reviewed the background of the Subpart V regulations and found that they are intended to implement several different statutes. Congress provided for the mandatory allocation and pricing of crude oil, residual fuel oil, and refined petroleum products in the Emergency Petroleum Allocation Act of 1973 (EPAA), 15 U.S.C. 751 *et seq.* (1976). The enforcement mechanisms for regulations issued under the EPAA were specified in the Economic Stabilization Act (ESA), 12 U.S.C. 1904 note (1970). EPAA, Section 5(a), 15 U.S.C. 754(a).

The authority contained in the foregoing statutes to issue and enforce regulations with respect to petroleum allocation and pricing was delegated to the Administrator of the Federal Energy Administration and subsequently to the Secretary of Energy. Federal Energy Administration Act (FEAA) Section 5, 15 U.S.C. 766 (1974); Department of Energy Organization Act (DOE Act) Section 301(a), 42 U.S.C. 7151(a) (1979). To carry out the statutory mandates, the regulations of the Cost of Living Council, the Federal Energy Office, the Federal Energy Administration, and the Department of Energy have provided throughout the existence of the price control program for the issuance of remedial orders "requiring a person to cease a violation or to eliminate or compensate for the effects of a violation, or both." 6 CFR 155.81(b), 38 FR 21981 (1973); 10 CFR 205.2, 39 FR 1925 (1974) (defining "remedial order").

We noted in the Vickers proceeding that in order to implement these statutory and regulatory goals the DOE's enforcement process is designed to accomplish two independent ends: disgorgement of the fruits of a regulatory violation from the wrongdoer, *Bulzan v. Atlantic Richfield Co.*, 620 F. 2d 278, 281 (Temp. Emer. Ct. App. 1980), and restitution to persons injured by the regulatory violation, *Bonray Oil Co. V. DOE*, 472 F. Supp. 899, 903–04 (W.D. Okla. 1978), *aff'd per curiam*, 601 F. 2d 1191 (Temp. Emer. Ct. App. 1979). The latter objective—restitution to overcharged persons—furthers the specific EPAA goals of "equitable distribution of * * * refined petroleum products at equitable prices * * * among all users" and "economic efficiency." 15 U.S.C. 753(b)(1)(F), (H). These provisions correspond to Section 102 of the DOE Act, which states that one of the Act's purposes is "to promote the interests of consumers through the provision of an adequate supply of energy at the lowest reasonable cost." 42 U.S.C. 7102. The DOE Act also reflects stated goals of the Federal Energy Administration Act of 1974, in which Congress expressed its purpose of maintaining "fair and reasonable consumer prices" for energy supplies, 15 U.S.C. 761(a), and of "prevent[ing] unreasonable profits within the various segments of the energy industry," 15 U.S.C. 764(b)(5).

In *Vickers*, it was also noted with regard to the goal of restitution that Congress had re-enacted enabling authority for the DOE and its predecessors on several occasions during periods in which the agency had been issuing remedial orders directing that refunds be made to remedy the effects of regulatory violations. This fact was viewed as specific congressional approval of DOE's authority to order restitution. *See Mobil Oil Corp. v. FEA*, 566 F. 2d 87, 100 (Temp. Emer. Ct. App. 1977); *cf. Commissioner v. Noel's Estate*, 380 U.S. 678, 682 (1965) (a long-standing administrative interpretation, applying to a substantially re-enacted statute, is deemed to have received congressional approval and has the effect of law). Moreover, it is highly significant that Congress specifically authorized the DOE to issue "Remedial Orders," 42 U.S.C. 7193(a), a term previously defined by the FEA and DOE regulations to encompass directions "to eliminate or to compensate for the effects of a violation." 10 CFR § 205.2. In addition, the Temporary Emergency Court of Appeals has held that the DOE is authorized by its enabling legislation to enforce compliance with its regulations by requiring violators to disgorge the benefits so obtained and to make refunds to injured parties for the purpose of restitution. *See, e.g., Bonray Oil Co. v. DOE; Univ. of Southern California v. COLC*, 472 F. 2d 1065, 1070 (Temp. Emer. Ct. App. 1972).

We conclude, as we did in *Vickers*, that restitution is the primary focus of Subpart V, which authorizes the Office of Hearings and Appeals to formulate and implement a process "pursuant to which refunds may be made to injured persons in order to remedy the effects of a violation" of DOE regulations. 10 CFR 205.280. The Subpart V process is intended to provide refunds whenever possible to the persons or firms who were injured by overcharges during a particular period. The distribution of funds to overcharged persons should generally take place in two primary ways: (i) payment of funds to persons and firms who file individual applications for refund and prove they are entitled to a portion of the funds held in trust; and (ii) payment of funds on behalf of injured persons to entities which can themselves implement restitution which furthers the foregoing purposes. The Subpart V regulations specify that "any remaining funds * * * shall be deposited in the United States Treasury or distributed in any other manner specified in the Decision and Order referred to in § 205.282(c)." 10 CFR 205.288(c).

The relevant portion of the Conoco Consent Order reads as follows:

> The Department of Energy agrees that it will accept and discharge the full administrative responsibility for establishing and administering a program which will provide for a claims procedure to be followed by persons asserting a right to any portion of the payment. The Department of Energy will evaluate such claims and make refunds to those persons who are able to support such claims. Conoco agrees to cooperate with the Department of Energy in the evaluation of claims filed by persons asserting a right to any portion of the payment. Such evaluation will be made prior to disposition of the funds to the Treasury of the United States.

Consent Order at 7. We find that the language quoted from the Consent Order clearly confirms that the DOE agreed to implement a procedure for evaluating individual claims for refunds by Conoco's customers. It does not, however, exclude the possibility that, after considering individual claims, the DOE might for administrative convenience distribute any remaining portions of the funds to entities which could further implement restitution to injured or overcharged persons who were unable to submit individual claims. Moreover, the Consent Order leaves open the possibility that residual Consent Order funds might be deposited in the United States Treasury if other distribution methods prove inappropriate.

Persons generally interested in Subpart V proceedings have suggested that additional types of distribution be made of refund amounts. For example, it has been suggested that funds subject to Subpart V proceedings should be used to assist entities in developing alternative energy resources or to subsidize public transit rather than refunded to injured members of the public. In *Vickers* we rejected these suggestions in the following manner:

> The goal of the Subpart V process is restitution to injured firms and consumers. This process offers the only means of compensation for individuals who lack the resources or the financial stake to institute their own private lawsuits under Section 210 of the Economic Stabilization Act. It can also be an efficient administrative mechanism for returning price increases to affected parties which avoids lengthy and costly court actions. While the funding of entities engaged in the development of alternative energy resources or the subsidization of public transit may well benefit the public at large, it is not so closely related to the statutory goals referred to above or to the objectives of the enforcement program as the interests of injured persons. Although there may be cases in which some of these forms of disbursement of Subpart V funds may be appropriate, particularly if the Consent Order specifies that type of distribution, this is not such a case. As indicated below, when it is possible to effectuate restitution to the class that may have been injured by the alleged regulatory violations, that class should enjoy a priority over other classes that are more removed from the actions giving rise to the refund.

Id., slip op. at 5.

In view of the objectives expressed in the statutes and regulations discussed above, and the Consent Order itself, procedures must be devised for the distribution of the $2,000,000 refund amount (plus interest) to affected parties. As a first step, this money should be distributed to claimants who successfully identify themselves as adversely affected purchasers. In the event that the claims of these persons do not exhaust the funds in the settlement account, an appropriate remaining portion should be distributed to other members of the classes of injured purchasers on whose behalf the settlement funds were negotiated. However, with respect to the latter group, since members of the injured class not filing as claimants may be extremely numerous and impossible to identify specifically, we will attempt to devise a special procedure. This procedure should operate to distribute funds to a group that corresponds as closely as possible to the group on whose behalf the settlement funds were negotiated. The courts have sanctioned restitution made for the benefit of an injured class as an appropriate exercise of equitable discretion. *See, e.g., Bebchick v. Public Utilities Comm'n*, 318 F.2d 187 (D.C. Cir. 1962) *(en banc), cert. denied*, 373 U.S. 913 (1963); *Democratic Central Committee v. Washington Metropolitan Area Transit Comm'n* 485 F.2d 922 (D.C. Cir. 1968). One approach of this type was proposed in the *Vickers* proceeding. Funds remaining after the completion of this two-step process should be distributed to the U.S. Treasury.

B. Refunds to Identifiable Purchasers

It is stipulated in the Conoco Consent Order that the $2,000,000 refund amount is in settlement of alleged overcharges by Conoco in sales of motor gasoline and No. 2 heating oil to Foremost and M&A during the period March 6, 1973 through November 30, 1973. However, M&A and Foremost have agreed in their Consent Orders to waive all claims for refunds which they might have against Conoco.

Any injury attributable to the alleged Conoco overcharge would have been experienced by Foremost and M&A or by the chain of customers who purchased motor gasoline or heating oil from those two firms. Because Foremost and M&A have waived their claims, our inquiry will extend solely to the latter group of firms and individuals. (2) Consequently, in order to establish entitlement to a refund, a purchaser identifying itself as an injured party must demonstrate initially that it purchased a specific quantity of motor gasoline or No. 2 heating oil from Foremost or M&A or from a firm which sold motor gasoline or No. 2 heating oil traceable to Foremost or M&A during the relevant time period (March 6, 1973 through November 30, 1973). Privity with Foremost or M&A need not be established; evidence need only be presented that the motor gasoline or heating oil purchased was initially marketed by one of them. In addition, unless the purchaser is an ultimate consumer, it must demonstrate that it did not pass on any cost increases implemented by Foremost or M&A to the purchaser's own customers. For example, purchasers who resold the products must show that market conditions did not permit them to raise prices charged to downstream customers, and that as a result they were forced to absorb any cost increases incurred. In the absence of that showing, we must conclude that the reseller was not injured in any way by the alleged overcharge. *See Office of Special Counsel for Compliance*, 4 DOE § 82,511 at 85,043–44 (1979). Refunds to purchasers who establish their entitlement to a refunds would be made on a volumetric basis—*i.e.*, the refund

would be based on the proportion of motor gasoline or heating oil purchased by the applicant to the total amount of the relevant prodoucts marketed by Foremost and M&A during the relevant period.

Any purchaser claiming a portion of the refund amount will be entitled to file an Application for Refund pursuant to 10 CFR 205.283. Applications should provide all relevant information pertaining to a claim for refunds of alleged overcharges resulting from purchases of Foremost or M&A motor gasoline or heating oil, including the type of information described above concerning the date and place of purchase, the retention of increased costs, and information reflecting the extent of any injury incurred, including the price and volume of product purchased.

Detailed procedures for filing applications will be provided in a final Decision and Order. Before dispoeing of any of the funds received from Conoco, we intend to provide the maximum possible notice of the distribution process and the opportunity to file claims. This notice will be provided to parties who may wish to request a refund by identifying themselves as adversely affected purchasers. In addition to publishing notice in the Federal Register, notice will be provided in newspapers and trade journals in the areas in which Foremost and M&A market motor gasoline or heating oil. We also intend to request Foremost and M&A to supply lists of their motor gasoline and heating oil customers during the relevant period so that direct mail notice may be provided to those customers. In addition, notice will be provided to business and consumer organizations in the areas in which these firms distributed motor gasoline or heating oil during the period covered by the Consent Order. As a final matter, we note that refund applications filed on behalf of groups of claimants identifying themselves as adversely affected purchasers will be considered. Applications that are submitted on behalf of groups of purchasers will be evaluated on a case-by-case basis as received.

C. Distribution of the Remainder of the Refund Amount

After the claims of parties identifying themselves as adversely affected purchasers of heating oil or motor gasoline from Foremost or M&A during the relevant period have been filed and appropriate refunds to those purchasers have been made, the fund provided by Conoco pursuant to the August 11 Consent Order is likely to be diminished but not exhausted. In view of the relatively small sums of money likely to be involved in many ultimate consumer claims, and the improbability that such consumers will possess detailed records regarding the validity of their claims, we anticipate that the foregoing showing of entitlement can be made by only limited numbers of persons. As discussed above, the remaining amount should be distributed in accordance with the broadly conceived goals announced in DOE's enabling legislation and implementing regulations.

In the present case, the distribution chain for the motor gasoline and heating oil marketed by Foremost and M&A appears to cover broad regions of the United States ranging from Texas through the New York City metropolitan area. The preliminary information which we have received from Conoco reveals that Foremost and M&A conducted most of their reselling operations during 1973 in Texas and the Southeast. Conoco has indicated that motor gasoline and heating oil sold to Foremost and M&A during 1973 could be traced to Conoco's Lake Charles refinery in Louisiana. The products were then transported through the Colonial Pipeline which, with its branches, distributes refined products in a fourteen state area (Texas, Louisiana, Mississippi, Alabama, Georgia, Tennessee, South Carolina, North Carolina, Virginia, Maryland, Pennsylvania, Delaware, New Jersey and New York) and the District of Columbia. We have tentatively decided to treat this region as the area likely to have been affected by the alleged overcharges, although we expect that further information, including data supplied by Foremost and M&A and persons commenting on the Proposed Decision, may lead us to modify this determination.

The fact that claims to specific refunds may not have been proven does not mean that injury has not occurred. Rather, the absence of claims for the full amount of the settlement would tend to reflect the difficulty of filing a valid individual claim and to indicate that some resellers of products pruchased from M&A or Foremost were not injured because they passed on to their customers the increased costs which they incurred. The persons who were injured in these cases were all users of motor gasoline-powered vehicles or oil-fired furnaces who purchased motor gasoline or heating oil from these firms in the affected area during the relevant period. It is extremely likely that these purchasers paid higher prices for these refined products than they would have paid absent the alleged Conoco violation. This group in our view corresponds to a very considerable degree to energy consumers generally in that area. Moreover, it is very likely that persons who purchased motor gasoline and heating oil in a particular area reside there as well, and are also ulitmate consumers of electricity.

Consequently, we have concluded that any portions remaining of the Conoco refund amount after identifiable claims are paid should be distributed directly to the types of organizations that are required by applicable law to pass through the benefits of the refund to ultimate consumers of energy in the area of the country in which the effects of the pricing violations are likely to have been experienced. Voluntary agreements could also be fashoned to achieve the same result. This result is supported by the comments received in response to the Notice of Solicitation of Comments placed by the Office of Hearings and Appeals in the Federal Register, 45 FR 59627, many of which supported distribution of refunds to organizations that are in a position to pass through the benefits of the refunds to ultimate consumers.

This plan of distribution can be accomplished in the relevant area by electric utilities which have fuel adjustment clauses or other mechanisms requiring the passthrough of a refund to ultimate consumers. Generally, a fuel adjustment clause of the desired type would require the benefit of a refund to be treated as a reduction in the cost of purchased fuels that can be passed through to the consuming public in the form of lower electric utility rates. We note that in the Vickers proceeding we tentatively decided to make use of natural gas utilities as well. However, since in the Conoco proceeding customers of these utilities often would not have borne any portion of the burden resulting from alleged overcharges on the sale of heating oil, we have determined that natural gas utilities would not be the most appropriate mechanism for effectuating restitution to the persons actually injured by the alleged Conoco overcharge. In contrast, all injured persons can be expected to use electricity and thereby receive benefits from this method of implementing restitution.

We believe that this proposal has a number of advantages. In the first place, the group of ultimate consumers of electricity in the area where the effects of the alleged overchargers were experienced bears a close relationship to the consumers who will not file individual claims and on whose behalf

the settlement amount was negotiated. In addition, this proposal is very desirable from a standpoint of administrative efficiency, since it may be implemented quickly and economically, and can be easily monitored. It represents, moreover, an appropriate balancing of the costs and benefits involved in identifying and effectuating restitution to a group of consumers corresponding to the group actually injured. Of course, there may be other entities which can provide an identical service in distributing these refunds, and we solicit comments on the extent to which refunds should be made to these organizations as well.

It is also possible to give preference to any municipalities that purchased motor gasoline or heating oil from Foremost or M&A during the relevant period in the event they cannot make claims as identifiable purchasers. Preference could also be given to public utilities that were purchasers of these refined products from Foremost or M&A during the audit period. State governments in the affected areas also may be designated as refund recipients for the purpose of reducing energy-related expenses (such as automobile licensing fees) subject to their direct control. In general, recipient organizations would receive refund amounts in proportion to the volumes of gasoline and heating oil marketed by Foremost or M&A in their areas. Determinations of the specific organizations to be chosen, the amount distributed to each organization, and the exact method of distribution will be based upon further information, including data supplied by the firms concerning the distribution of their refined products and upon proposals submitted by organizations or entities identified as potential distributors of the remainder of the refund amount. In general, however, we would tend to favor reduction in utility costs for residential users as opposed to commercial users, since commercial use would include offices occupied by persons who also own residences, and this could produce an unintended double measure of benefits for the persons involved. Industrial customers could also be excluded if the firm involved did not purchase commensurately large amounts of gasoline or heating oil in the area during the relevant period.

Refunds of this nature will benefit ultimate consumers of motor gasoline and heating oil in the areas where the effects of any overcharges have been experienced. These procedures will enable the DOE to order the refund of price increases under circumstances in which adversely affected purchasers are not specifically identifiable. In most instances, ultimate consumers will be the beneficiaries of this mechanism, and this is consistent with the fact that claims to specific refunds by this group are difficult to make and administer.

We believe the refund procedures outlined above will maintain a close relationship or nexus between the class of purchasers injured and the class of persons receiving the restitution proposed. The procedures selected reflect the agency's determination to fulfill its Congressional mandate to, *inter alia*, assure "equitable prices" for "refined petroleum products" in the United States. 15 U.S.C. 753(b)(1). As we stated in the Vickers Decision, we are unable to accept the proposition, advanced by some commenters(3), that the DOE lacks the authority to order refunds to an entity because the consumer's specific identity or degree of injury may not be ascertained. That position would be contrary to the intention of Congress in enacting the EPAA and related statutes, and contrary to the public interest. *Vickers*, slip op. at 10. *Cf. Bonray Oil Co. v. DOE*, 472 F. Supp. 899, 903–04 (W.D. Okla. 1978), *aff'd per curiam*, 610 F.2d 1191 (Temp. Emer. Ct. App. 1979), (ordering of refunds is implied power under EPAA); *Univ. of Southern California v. COLC*, 472 F.2d 1065, 1070 (Temp. Emer. Ct. App. 1972) (broad grant of authority to enforce program carries with it authority to order refunds).

It is therefore ordered that: The $2,000,000 refund amount provided by Conoco, Inc. in accordance with the August 11, 1978 Consent Order, plus interest earned, will be distributed in the manner set forth in the foregoing Decision.

2. Foremost and M&A contend that they did not pass through to their own purchasers any portion of the cost increases attributable to the alleged Conoco overcharges. This cannot be verified, for neither Foremost nor M&A was subject to price restrictions in sales of motor gasoline or No. 2 heating oil from March 8, 1973 until June 13, 1973. In the uncontrolled environment, the prices charged by Foremost and M&A in all likelihood were affected by their increased marginal costs. Accordingly, absent strong evidence to the contrary, M&A and Foremost can be treated as having passed through their increased costs to their puchasers. Although these purchasers were not victims of unlawful prices charged by foremost or M&A, they suffered injury by paying higher prices than would have prevailed absent the alleged Conoco overcharge.

3. *See generally* comments submitted in response to Notice of Solicitation of Comments, 45 FR 57627 (September 10, 1980), concerning proper disposition of consent order funds.

In other contexts as well, interested parties have discussed the scope of DOE's authority to distribute Consent Order funds. For example, at the request of the Honorable John D. Dingell, Chairman of the House Subcommittee on Energy and Power, the Comptroller General of the United States has issued an opinion, dated October 10, 1980, concerning the terms of a Consent Order entered into by the DOE and Getty Oil Company (Getty) on December 3, 1979. *See* Notice of Proposed Consent Order, 44 FR 71453 (December 11, 1979); Notice of Action on Consent Order, 45 FR 9992 (February 14, 1980). The Getty Consent Order was intended to settle, with certain exceptions, all disputes between Getty and DOE concerning the firm's compliance with price and allocation regulations in effect during the period August 19, 1973 through December 31, 1978. By its terms, the Consent Order required Getty to deposit $25,000,000 into an escrow account.

The Comptroller General commented on a proposal for distributing the $25,000,000 refund amount announced by the DOE on July 11, 1980. Under that plan, $21,000,000 was to be distributed to twenty state governments in proportion to Getty's home heating oil sales in those states, and $4,000,000 was to be distributed to lower pay grade military servicemen in states where heating oil was sold by the firm. The state governments would be required to distribute the settlement funds granted to them to low income residents for the purpose of defraying home heating oil costs.

The Comptroller General concluded that the Getty refund plan failed to meet certain requirements specified in DOE's enabling legislaion and implementing regulations. The Comptroller General observed, moreover, that "distribution of the Getty funds must be made in approximate proportion to the injury actually sustained to Getty customers and to ultimate consumers of Getty products who were the victims of the overcharges." Opinion of the Comptroller General at 7.

Because the July 11, 1980 plan was designed to effectuate restitution to low

income consumers only, the plan was found not to satisfy these requirements. In the words of the Comptroller General, "all ultimate consumers of Getty heating oil, regardless of income, were injured by the violations and should be entitled to a portion of the refunds." *Id.* at 9. As a result of these and other deficiencies, the Comptroller General concluded that the Getty funds should have been designated for distribution pursuant to the Subpart V process.

The disposition proposed in this Decision of the $2,000,000 refund amount involved in the Conoco case is not subject to the deficiencies referred to in the Comptroller General's Opinion. In the first place, the Conoco funds are, as recommended, being distributed pursuant to the Subpart V process. Moreover, the method of distribution proposed in this decision is intended initially to effectuate restitution to any injured consumer establishing entitlement to a refund, regardless of income level. Furthermore, remaining refund portions would be distributed to a group of ultimate consumers bearing a close relationship to the consumers on whose behalf the settlement amount was negotiated. As a result, this method of distribution is consistent with the views of the Comptroller General, who in the October 10 opinion specifically recognized that "it is frequently not possible to identify each individual customer or consumer who has been overcharged nor is it always possible to make a precise determination of the amounts each individual has been overcharged. So long as a good faith effort was made to identify overcharged individuals, we would not view a distribution scheme which lacked dollar for dollar precision as unauthorized." *Id.* at 10.

Georgia Pretreatment Program Approval

AGENCY: Environmental Protection Agency.

ACTION: Notice of approval of the national pollutant discharge elimination system pretreatment program of the State of Georgia.

SUMMARY: On March 12, 1981, the Environmental Protection Agency approved the State of Georgia's National Pollutant Discharge Elimination System State Pretreatment Program. This action authorizes the State of Georgia to administer the National Pretreatment Program as it applies to municipalities and industries within the State.

FOR FURTHER INFORMATION CONTACT: George E. Young, Permits Division (EN-336), U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460, 202-755-0750.

SUPPLEMENTARY INFORMATION:

Background

The Pretreatment Program, required by the Clean Water Act of 1977, governs the control of industrial wastes introduced into Publicly Owned Treatment Works (POTWs). The objectives of the Pretreatment Program are to: (1) prevent introduction of pollutants into POTWs which will interfere with the operation of the POTW or contaminate the sewage sludge; (2) prevent introduction of pollutants into POTWs which will pass through treatment works into receiving waters or the atmosphere or otherwise be incompatible with the works; (3) improve opportunities to recycle and reclaim wastewaters and the sludges resulting from wastewater treatment. Local pretreatment programs will be the primary vehicle for administering, applying and enforcing pretreatment standards for industrial users of POTWs. The EPA and States approved to administer the National Pollutant Discharge Elimination System (NPDES) Pretreatment Program will enforce the national standards where local governments do not develop a pretreatment program. To receive pretreatment program approval a State must submit to the EPA a modification to its NPDES program pursuant to the requirements and procedures of the General Pretreatment Regulation (40 CFR Part 403).

"Federal Register" Notice of Approval of State NPDES Programs or Modifications

Under the Consolidated Permit Regulations (45 FR 33290, May 19, 1980), EPA will provide **Federal Register** notice of any action by the Agency approving or modifying a State NPDES program. Each notice will include a table similar to the following one, setting forth the current status of program approval. This table will provide the public with an up-to-date list of the status of NPDES permitting authority throughout the country.

	Approved State NPDES permit program	Approved to regulate Federal facilities	Approved State pretreatment program

Polyester(1,4-Butanediol/Isophthalic Acid, Dimethyl Ester/ Poly(Oxyethylene/Oxypropylene)/ Terephthalic Acid, Dimethyl Ester); Approval of Test Marketing Exemption

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: On February 6, 1981, EPA received from E. I. du Pont de Nemours and Co., Inc. (du Pont) an application for a test marketing exemption (TM-81-1) from the premanufacture notification requirements of section 5 of the Toxic Substances Control Act (TSCA). The manufacturer has claimed the chemical identity and specific use confidential.

EPA has determined that the manufacturer's test marketing of this chemical substance will not present any unreasonable risk of injury to health or the environment. Therefore, the Agency has granted this manufacturer an exemption from the TSCA premanufacture reporting requirements for test marketing of the substance in the manner described in the application.

FOR FURTHER INFORMATION CONTACT:
David Dull, Chemical Control Division (TS-794), Environmental Protection Agency, Rm. E-208, Washington, D.C. 20460, (202-426-2601).

SUPPLEMENTARY INFORMATION: Under section 5 of TSCA, anyone who intends to manufacture or import a new chemical substance for commercial purposes in the United States must submit a notice to EPA before manufacture or import begins. A "new" chemical substance is one that is not on the Inventory of existing chemical substances compiled by EPA under section 8(b) of TSCA. Section 5(a)(1) requires each premanufacture notice (PMN) to be submitted in accordance with section 5(d) and any applicable requirements of section 5(b). Section 5(d)(1) defines the contents of a PMN and section 5(b) contains additional reporting requirements for certain new chemical substances.

Section 5(h), "Exemptions," contains several provisions for exemptions from some or all of the requirements of section 5. In particular, section 5(h)(1) authorizes EPA, upon application, to exempt persons from any requirement of section 5(a) or section 5(b), to permit them to manufacture or process chemical substances for test marketing purposes. To grant an exemption, the Agency must find that the test marketing activities will not present any unreasonable risk of injury to health or the environment. EPA must either approve or deny the application within 45 days of its receipt, and under section 5(h)(6) the Agency must publish a notice of its disposition in the **Federal Register**. If EPA grants a test marketing exemption, it may impose restrictions on the test marketing activities.

The application was assigned tests marketing exemption number TM-81-1. EPA issued a notice of receipt of the application published in the **Federal Register** of March 3, 1981 (46 FR 14960).

Du Pont claimed the specific chemical identity, the specific use, and the amount of the PMN substance to be manufactured as confidential business information.

The substance is described generically as "polyester(1,4-butanediol/ isophthalic acid, dimethyl ester/ poly(oxyethylene/oxypropylene)/ terephthalic acid, dimethyl ester). Its generic use is as an extruded or molded plastic. A limited quantity of the material (deemed confidential business information by the manufacturer) will be

manufactured during the test marketing period (approximately 4 months) for sampling by a limited number of companies engaged in the fabrication of up to five different types of industrial products. A maximum of 100 persons is expected to be exposed dermally to the new polymer during manufacture of the industrial goods. No consumer exposure to the new polymer is anticipated by du Pont.

EPA has established that the test marketing of TM-81-1, under the conditions set out in the application, will not present any unreasonable risk of injury to health or the environment for the reasons explained below.

There were no significant health or environmental concerns for the TME substance. Based on estimates of its molecular weight, the polymer is not expected to be absorbed. Polyesters of this type have been approved for use as components of packaging material in direct contact with food products. The acute lethal dose of materials of this type is greater than 25,000 mg/kg of body weight. The manufacturing process for production of the polymer is an essentially closed system.

Based on the facts and information obtained and reviewed, EPA grants du Pont a test marketing exemption for TM-81-1, effective on March 12, 1981 but subject to all conditions set out in the exemption application, and in particular those enumerated below:

1. This exemption is granted solely to du Pont;

2. The applicant must maintain records of the date(s) of shipment(s) to any customers specified in the application who will test market the substance, and the quantities shipped in each shipment, and must make these records available to EPA upon request;

3. Each bill of lading that accompanies a shipment of the substance during the test marketing period must state that the use of the substance is restricted to that described to EPA in the test marketing exemption application;

4. The production volume of the new substance may not exceed the quantity stated in the confidential version of the test market application;

5. The test marketing activity approved in this notice is limited to a four-month period commencing on the date of publication of the notice in the Federal Register;

6. The number of workers should not exceed that specified in the application and the exposure levels and duration of exposure should not exceed that specified;

7. The public will have until April 20, 1981 to submit comments on this test marketing exemption. The Agency reserves the right to rescind its decision to grant this exemption should any new information come to its attention which casts significant doubt on the Agency's conclusion that the test marketing of the substance will not present an unreasonable risk of injury to human health or the environment.

Dated: March 12, 1981.

Walter C. Barber, Jr.,

Acting Administrator.

BILLING CODE 6560-32-M

[Docket No. A-80-46; AD-FRL-1782-6]

Revisions to the Guideline on Air Quality Models

AGENCY: Environmental Protection Agency, Washington, D.C.

ACTION: Notice of Delay in Revisions to the Guideline on air quality models.

SUMMARY: This notice announces a delay in the schedule for the revision of the Guideline on Air Quality Models (EPA-450/2-78-027). The draft revised guideline is now expected to be completed by the end of 1981. Public hearings on the revised guideline can be anticipated in early 1982. The Conference on Air Quality Modeling required by Section 320 of the Clean Air Act will still be held in Washington, D.C., this summer. It will be an information exchange meeting to discuss modeling issues, primarily those concerning the accuracy of air quality models and their role in regulatory decision-making. There will be a notice of the Conference published in the Federal Register when the date and agenda are finalized. The guideline revisions will *not* be a Conference agenda item.

DATES AND SCHEDULE: The dates and other details of the Conference on Air Quality Modeling will be announced in the Federal Register in the summer of 1981. The hearing on the revised Guideline on Air Quality Models will be announced in the Federal Register in late 1981.

ADDRESSES: The Conference will be held in Washington, D.C. The precise location will be indicated in the later Federal Register notice.

FOR FURTHER INFORMATION CONTACT: Charlotte J. Hopper, Source Receptor Analysis Branch (MD-14), Office of Air Quality Planning and Standards, United States Environmental Protection Agency, Research Triangle Park, North Carolina 27711; phone (919) 541-5661.

SUPPLEMENTARY INFORMATION: In October 1980 the Environmental Protection Agency presented to the public proposed revisions to the Guideline on Air Quality Models at three meetings (Washington, D.C.; Seattle, Washington; and Chicago, Illinois). It was announced at the three meetings, and also in the Federal Register notice of those meetings, that a draft of the revised guideline would be available for comment at the Conference on Air Quality Modeling to be held in early 1981. This schedule has been changed and revisions to the guideline have been delayed.

Numerous comments were received on the proposed revisions presented in October 1980. Several of the commenters requested EPA to consider the costs associated with the implementation of the proposed revisions. Many requested additional consideration be given to model accuracy and also requested a re-examination of the role of air quality models in regulatory decision-making. EPA believes the time required to complete a cost analysis and to further analyze the issues of model accuracy and application will be beneficial. EPA also wishes to review and evaluate the National Commission on Air Quality recommendations to Congress.

For the above reasons EPA has determined that a delay in the revisions to the guideline will be advantageous to all concerned. It is anticipated that a draft of the revised guideline will be available for public comment by late 1981.

The Conference on Air Quality Modeling required by Section 320 of the Clean Air Act will be held in the summer of 1981. The format for the Conference will encourage an information exchange rather than solicit comments on EPA proposals. Discussions at the Conference will include such topics as the use of models in regulatory processes and the accuracy and reliability of models.

Until further notice, the Guideline on Air Quality Models, EPA 450/2-78-027

(April 1978) is the applicable guidance for the use of models in such applications as prevention of significant deterioration, new source review and the revision of state implementation plans. EPA Regional Offices should be contacted for more detailed information concerning the interpretation and use of that guideline.

Dated: March 13, 1981.

Edward F. Tuerk,

Acting Assistant Administrator for Air, Noise and Radiation.

BILLING CODE 6560-26-M

FEDERAL COMMUNICATIONS COMMISSION

[CC Docket No. 80-766; Transmittal 191]

RCA American Communications, Inc.; Correction

AGENCY: Federal Communications Commission.

ACTION: Erratum to memorandum opinion and order.

SUMMARY: The Federal Communications Commission corrects a typographical error in a Memorandum Opinion and Order (March 2, 1981; 46 FR 14816) that denied a petition filed by RCA American Communications, Inc. to consolidate this proceeding with the Commission's ongoing competitive carrier rulemaking proceeding in Docket No. 79-252.

DATES: Comment dates are the same as were stated in the original order.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Carl E. Douglas, Common Carrier Bureau, (202) 632-6617.

SUPPLEMENTARY INFORMATION: In the matter of RCA American Communications, Inc., revisions to Tariff F.C.C. Nos. 1 and 2, CC Docket No. 80-766, Transmittal No. 191 (46 FR 14816).

Released: March 5, 1981.

The Memorandum Opinion and Order in the above entitled matter, released February 19, 1981, is corrected to read in paragraph seven, line 14, "May 26, 1981" instead of "May 31, 1981."

Joseph A. Marino,

Acting Chief, Common Carrier Bureau.

BILLING CODE 6712-01-M

FEDERAL RESERVE SYSTEM

Alsip Bancorporation, Inc.; Formation of Bank Holding Company

Alsip Bancorporation, Inc., Alsip, Illinois, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 80 per cent or more of the voting shares of Alsip Bank and Trust, Alsip, Illinois. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than April 12, 1981. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, March 13, 1981.

Jefferson A. Walker,

Assistant Secretary of the Board.

[FR Doc. 81-8475 Filed 3-18-81; 8:45 am]

BILLING CODE 6210-01-M

Bank Holding Companies; Proposed de Novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than April 11, 1981.

A. *Federal Reserve Bank of New York* (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

Citicorp, New York, New York (real estate lending activities; California): to expand the previously approved activities of an existing office of its subsidiary, Citicorp Homeowners, Inc., located in San Jose, California, to include the making, acquiring, and servicing, for its own account and for the account of others, extensions of credit secured by liens on residential real estate. The previously approved activities of the office include the making, acquiring and servicing of extensions of credit secured by second liens on residential real estate; and the originating, for its own account and the account of others, of 1-4 family residential mortgage loans. The previously approved service area of the office, comprised of the metropolitan San Jose area, will also be expanded to include the entire State of California for all the activities of the office.

B. *Federal Reserve Bank of Cleveland* (Harry W. Hunning, Vice President) 1455 East Byrd Street, Richmond, Virginia 23261:

Pittsburgh National Corporation, Pittsburgh, Pennsylvania (mortgage banking activities; Virginia and Maryland): to engage, through its wholly-owned subsidiary The Kissel Company, in mortgage banking, including the making or acquiring and servicing for its own account or the account of others loans and other extensions of credit. These activities will be conducted from an office in Manassas, Virginia, serving Clarke, Culpeper, Fauquier, Prince William, Rappahanock, Stafford and Warren Counties, Virginia; an office in Annandale, Virginia, serving Fairfax and Loudoun Counties, Virginia; and an office in Baltimore, Maryland, serving

Baltimore, Carroll, Harford, Kent, and Queen Anne Counties, Maryland.

C. *Other Federal Reserve Banks:* None.

Board of Governors of the Federal Reserve System, March 12, 1981.
Jefferson A. Walker,
Assistant Secretary of the Board.

Bank Holding Companies; Proposed de Novo Nonbank Activities; Pittsburgh National Corp.

The bank holding company listed in this notice has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to the application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on the application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for the application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than April 10, 1981.

A. *Federal Reserve Bank of Cleveland* (Harry W. Hunning, Vice President) 1455 East Sixth Street, Cleveland, Ohio 44101:

Pittsburgh National Corporation, Pittsburgh, Pennsylvania (mortgage banking, Michigan): to engage *de novo*, through a wholly-owned subsidiary, The Kissell Company, Springfield, Ohio in the activity of mortgage banking, including the making or acquiring and servicing for its own accounts and or the accounts of others, loans and other extensions of credit. The proposed office will be located in Grand Rapids, Michigan and will serve the metropolitan area of Grand Rapids, Michigan, and Kent, Montcalm, Muskegon, Oceana, Newaygo, Mecosta, Isabella, Gratiot, Osceola, Lake, Mason, Ionia, Calhoun, Shiawassee, Livingston, Ingham, Genessee, Ottawa, Clinton, Allegan, Barry, Van Buren, Kalmazoo, Berrien, St. Joseph Branch and Jackson counties, Michigan.

B. *Other Federal Reserve Banks:* None.

Board of Governors of the Federal Reserve System, March 17, 1981.

Jefferson A. Walker,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

FEDERAL TRADE COMMISSION

Early Termination of the Waiting Period of the Premerger Notification Rules

AGENCY: Federal Trade Commission.

ACTION: Granting of request for early termination of the waiting period of the premerger notification rules.

SUMMARY: Prairie Farms Dairy Incorporated is granted early termination of the waiting period provided by law and the premerger notification rules with respect to the proposed acquisition of all voting securities of Muller-Pinehurst Dairy, Inc. The grant was made by the Federal Trade Commission and the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice in response to a request for early termination submitted by Prairie Farms. Neither agency intends to take action with respect to this acquisition during the waiting period.

EFFECTIVE DATE: February 27, 1981.

FOR FURTHER INFORMATION CONTACT: Roberta Baruch, Senior Attorney, Premerger Notification Office, Bureau of Competition, Room 303, Federal Trade Commission, Washington, D.C. 20580, (202) 523-3894.

SUPPLEMENTARY INFORMATION: Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Commission and Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register**.

By direction of the Commission.

Carol M. Thomas,

Secretary.

BILLING CODE 6750-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources Administration

National Advisory Council on Health Professions Education; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following National Advisory body scheduled to meet during the month of April 1981:

Name: National Advisory Council on Health Professions Education.
Date and Time: April 22-24, 1981, 8:30 a.m.
Place: Conference Room 6, 6th Floor, Building 31—C Wing, National Institutes of Health, Bethesda, Maryland 20205.
Closed April 22, 1981.
Open April 23 and 24, 1981.

Purpose. The Council advises the Secretary with respect to the administration of programs of financial assistance for the health professions and makes recommendations based on its review of applications requesting such assistance. This also involves advice in the preparation of regulations with respect to policy matters.

Agenda. The open portion of the meeting will cover: report of the Acting Administrator; welcome and opening remarks; budget update; legislative update; report on Health Promotion and Disease Prevention; and future agenda items. The meeting will be closed to the public on April 22, 1981, from 8:30 a.m. to 5:00 p.m., for the review of grant applications for Health Careers Opportunity Program and Residency Training in the General Practice of Dentistry. The closing is in accordance with the provision set forth in section 552b(c)(6), Title 5 U.S. Code, and the Determination by the Acting Administrator, Health Resources Administration, pursuant to Pub. L. 92-463.

Anyone wishing to obtain a roster of members, minutes of meetings, or other relevant information should write to or contact Mr. Robert L. Belsley, Bureau of Health Professions, Health Resources Administration, Room 4-27, Center Building, 3700 East-West Highway, Hyattsville, Maryland 20782, Telephone (301) 436-6504.

Agenda items are subject to change as priorities dictate.

Dated: March 13, 1981.

Irene D. Skinner,

Advisory Committee Management Officer, Health Resources Administration.

DEPARTMENT OF THE INTERIOR

Geological Survey

Oil and Gas and Sulphur Operations in the Outer Continental Shelf

AGENCY: U.S. Geological Survey, Department of the Interior.

ACTION: Notice of the Receipt of a Proposed Development and Production Plan.

SUMMARY: Notice is hereby given that Amoco Production Company has submitted a Development and Production Plan describing the activities it proposes to conduct on Leases OCS-G 4090 and 4398, Blocks 294 and 293, West Cameron Area, offshore Louisiana.

The purpose of this Notice is to inform the public, pursuant to Section 25 of the OCS Lands Act Amendments of 1978, that the Geological Survey is considering approval of the Plan and that it is available for public review at the offices of the Conservation Manager, Gulf of Mexico OCS Region, U.S. Geological Survey, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana 70002.

FOR FURTHER INFORMATION CONTACT: U.S. Geological Survey, Public Records, Room 147, open weekdays 9 a.m. to 3:30 p.m., 3301 North Causeway Blvd., Metairie, Louisiana 70002, Phone (504) 837-4720, Ext. 226.

SUPPLEMENTARY INFORMATION: Revised rules governing practices and procedures under which the U.S. Geological Survey makes information contained in Development and Production Plans available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in a revised § 250.34 of Title 30 of the Code of Federal Regulations.

Dated: March 12, 1981.

Lowell G. Hammons,

Conservation Manager, Gulf of Mexico OCS Region.

BILLING CODE 4310-31-M

Bureau of Land Management

Arizona Wilderness Inventory Program: Decision on Protests to the Final Intensive Wilderness Inventory

SUMMARY: This notice is to advise the public of my decisions on the protests received on the "Final Intensive Wilderness Inventory for Arizona."

SUPPLEMENTARY INFORMATION:

Background

On November 7, 1980, I announced my Final Intensive Wilderness Inventory Decision for Arizona. The above notice advised the public of their right to file a protest to my decision. All units recommended as Wilderness Study Areas (WSAs) were protested. Twenty-one units which were recommended to be released from the constraints of Section 603 of the Federal Land Policy and Management Act (FLPMA) were protested.

As a result of the evaluation of information contained in these protests, I am announcing amendments to eleven inventory unit decisions.

Amended Decisions

The inventory decision amendments are summarized as follows:

Arizona Strip District

AZ-010-031: Because of new information supplied by the public, ways were judged to be roads. These changes resulted in 665 acres being dropped from the unit. It is now 39,242 acres.

AZ-010-033A: Five ways have been recognized as roads and cherrystemmed from the unit. The boundary was adjusted near Tom Lamb Reservoir adding approximately 20 acres. The net result in acreage after the deletions and one area of addition remains the same. The unit remains at 63,882 acres.

AZ-010-034A: Grandfathered mining activity within the unit has expanded the area of impact. An additional 230 acres are dropped. The unit is now 9,441 acres.

AZ-010-104B: A way was judged to be a road after a field check because of new information supplied by the public. The road deletes 1,338 acres from the unit. It remains a WSA of 25,912 acres.

AZ-010-111: A way was judged to be a road. This road forms a new boundary which deletes 4,065 acres from the unit. The unit remains a WSA of 33,985 acres.

Phoenix District

AZ–020–083: The public supplied information which changed the status of a way to a road. The road deletes 2,400 acres from the unit. The unit remains a WSA of 21,800 acres.

AZ–020–125: Field investigation proved a vehicle access route which was formerly judged to be a way is actually a road. The road deletes 18,025 acres. The portion dropped was judged to lack outstanding opportunities for solitude or a primitive, unconfined type of recreation. The original unit remains a WSA of 40,575 acres.

AZ–020–176: The accumulation of minor works of man resulted in the decision to drop this unit from WSA status. The 10,065 acre unit is dropped from further consideration.

AZ–020–187: An area which contains minor works of man was deleted because of their cumulative effect. The area dropped is 700 acres. The unit remains a WSA of 6,268 acres.

Safford District

AZ–040–014: A way was judged to be a road. The road deletes 10 acres from the unit. The unit remains a WSA of 15,003 acres.

AZ–040–085: A road was cherrystemmed from the edge of the unit. The change deletes two acres from the unit. The WSA contains 16,769 acres.

Decisions Which Will Remain as Previously Announced

The Final Decision is in effect on the following WSAs.

Arizona Strip District

AZ–010–106A	AZ–010–099

Right To Appeal

The publication of this Federal Register starts a 30-day appeal period.

An appeal from these decisions must be taken to the Board of Land Appeals, Office of the Secretary, in accordance with the regulations in 43 CFR Part 4, Subparts A, B, and E. However, if an appeal is taken, the Notice of Appeal must be filed in this office (not the Board), so that the permanent document file(s) can be transmitted to the Board. A copy of the Notice of Appeal and of any statement of reasons, written arguments, or briefs must be served on the Field Solicitor, U.S. Department of the Interior, 2000 Valley Bank Center, Phoenix, Arizona 85073 not later than 15 days after filing the document. To avoid summary dismissal of the appeal, there must be strict compliance with the regulations.

Clair M. Whitlock,

State Director.

March 11, 1981.

BILLING CODE 4310–84–M

Boise District Public Meetings—Wilderness Study

The Bureau of Land Management Boise District is beginning the study phase of the wilderness review. BLM will now study these areas as part of the land use planning process and make a recommendation to the Secretary of Interior on whether the areas are suitable or unsuitable for Wilderness designation. The final decision is made by Congress.

Public meetings have been scheduled for:

April 15, 1981: Boise District Office Conference Room, 3948 Development Ave., Boise, Idaho.

April 16, 1981: Homedale County Agent's Office, Marsing, Idaho (Hwy 78—across from the gradeschool).

April 22, 1981: American Legion Hall, Bruneau, Idaho.

At each session, 12 noon to 7:30 p.m. will be open house, and 7:30 p.m. to 10 p.m. will be a public meeting.

The purpose of these meetings will be to obtain public comment and recommendations on planning and criteria, and to discuss alternate land uses in each area. For details on planning criteria, refer to Federal Register of December 19, 1980, Part III. During this planning, 23 wilderness study areas will be considered, all lying within the 5½ million acres managed by the Boise District in southwestern Idaho.

Also to be discussed at the meetings will be the intensive inventory for those areas proposed as wilderness study areas along the Idaho-Oregon and Idaho-Nevada borders. Completion of the inventory in these Stateline units has been delayed because of an earlier appeal. The appeal has now been settled and the Bureau will proceed with intensive inventory on these 10 units.

A map showing the exact locations of these areas is available from the BLM Boise District, 3948 Development Avenue, Boise, Idaho 83705. For further information contact John Benedict or Steve Addington at 208–334–1582, above address.

James Gabettas,

Acting District Manager.

March 9, 1981.

BILLING CODE 4310–84–M

Carson City District Grazing Advisory Board; Meeting

ACTION: Notice of meeting.

SUMMARY: This notice announces the agenda of the next meeting of the Board.

DATE: April 23, 1981—9:30 a.m.

ADDRESS: Bureau of Land Management, Carson City District Office, 1050 East Highway 50, Suite 335, Carson City, Nevada 89701.

FOR FURTHER INFORMATION CONTACT: Stephen Weiss, Public Affairs Officer, Carson City District Office, (702) 882–1631.

SUPPLEMENTARY INFORMATION: The Carson City District Grazing Advisory Board is chartered to advise the District Manager regarding the development of allotment management plans and the utilization of range betterment funds.

The agenda for the meeting will include discussion of allotment management plans, range improvement projects, the proposed Management Framework Plan for the Reno Planning Area, and consultation with permittees.

The meeting is open to the public. Any person may attend, file a written statement by mail, or appear before the Board at 3:00 p.m.

Thomas J. Owen,

District Manager.

BILLING CODE 4310-84-M

[Colorado 23723]

Colorado: Realty Action; Non-Competitive Sale of Public Lands in Fremont County

March 10, 1981.

The following described land has been examined and identified as suitable for disposal by sale under Section 203 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2750, 43 U.S.C. 1713), at no less than the appraised fair market value. ($1,275.00)

New Mexico Principal Meridian

T. 48 N., R. 10 E.,
Sec. 10, Lot 2.

The tract described contains 0.85 acres in Fremont County.

The sale of this land will be held on approximately the twelfth day of May, 1981. The lands are being offered as a direct, non-competitive sale to Mr. Clarence Canterbury, the owner of the adjoining tract and a water well inadvertently drilled on lot 2 prior to the boundaries of the public lands in the vicinity being identified and monumented under a dependent resurvey of the township. Disposal by direct sale to Mr. Canterbury, rather than by public auction, will legalize his use of the parcel and protect his equity investment in his improvements on the land and avoid an undue hardship if he were required to cease his use of the land. The sale will resolve an unauthorized use situation.

The triangular-shaped parcel is part of a public land tract. Its northwest boundary is the Fremont County road along West Creek. The road effectively separates it from the larger area of public land northwest of the road, and non-federal land adjoins all of the south and east boundaries. The parcel has not been used, and is not suitable for, nor needed for management by another Federal Department or agency. Disposal would best serve the public interest.

The sale will be consistent with the Bureau of Land Management's planning for the lands. Disposal would have no adverse impact on local planning and zoning. The Fremont County Commissioners have not objected to sale of the land.

The terms and conditions applicable to the sale are:

The patent will include a reservation of a right of way for ditches and canals constructed by the authority of the United States in accordance with 43 U.S.C. 945.

2. All mineral rights will be reserved to the United States.

3. The sale of this land will be subject to all valid existing rights, including the right of way for the county road along West Creek.

Detailed information concerning the sale, including the environmental assessment report and land report, is available for review at the Bureau of Land Management Canon City District Office, 3080 East Main Street, Canon City, Colorado 81212.

On or before April 16, 1981, interested parties may submit comments to the Secretary of the Interior (LLM-320), Washington, D.C. 20240. Any adverse comments will be evaluated by the Secretary of the Interior who may vacate or modify this realty action and issue a final determination. In the absence of any action by the Secretary of the Interior, this realty action will become the final determination of the Department of the Interior and the required payment, plus the cost of publishing the notice, shall be requested of Mr. Canterbury. Such payment, in full, shall be in accordance with 43 CFR 1822.1-2.

Harold R. Martin,

Acting State Director.

BILLING CODE 4310-84-M

Monument Resource Management Plan

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Notice of intent to prepare Resource Management Plan and Environmental Impact Statement for public lands in Blaine, Minidoka, Lincoln, Jerome, Gooding, and Power Counties, Idaho.

SUMMARY: Pursuant to 43 CFR 1600, the Shoshone District, Bureau of Land Management is developing a Resource Management Plan (RMP) and accompanying Environmental Impact Statement (EIS), covering approximately 1,200,000 acres of public land in southcentral Idaho. The RMP and EIS will analyze resource management alternatives ranging from production to protection, including a no action alternative, and are scheduled for completion in mid-1985. The Shoshone District invites members of the public, other Federal agencies, State and local governments, and Indian tribes to identify resource management issues and opportunities to be considered during the preparation of the Monument RMP.

Meetings to facilitate issues and opportunity identification will be held in late April in various areas (to be announced at a later date) within the planning area. All concerned parties are invited to attend the meetings. Opportunities for public participation will be made available throughout the process.

The interdisciplinary team will include the following disciplines: Economics, Public Affairs, range, wildlife, recreation, watershed (soil, water, and air), cultural resources, visual resources, minerals, lands, and realty.

DATE: Written comments concerning resource management issues and opportunities for the Monument RMP should be sent to the BLM District Manager, Shoshone District Office, P.O. Box 2 B, Shoshone, Idaho 83352. Comments must be received by May 15, 1981.

FOR FURTHER INFORMATION CONTACT: Ervin R. Cowley, Monument Area Manager, Shoshone BLM District Office, P.O. Box 2 B, Shoshone, Idaho 83352 (208) 886-2206.

SUPPLEMENTARY INFORMATION: As the planning is developed, documents will be available for inspection at the above address.

Dated: March 12, 1981.

Charles J. Hazzier,

District Manager.

[FR Doc. 81-8377 Filed 3-18-81; 8:45 am]

BILLING CODE 4310-84-M

Arizona; Safford District Grazing Advisory Board; Meeting

Notice is hereby given in accordance with Pub. L. 92-463 that a meeting of the Safford District Grazing Advisory Board will be held on Friday, April 24, 1981.

The meeting will begin at 9:30 a.m. in the conference room of the Bureau of

Land Management, 425 E. 4th Street, Safford, Arizona 85546.

The agenda for the meeting will include: (1) Election of chairman and vice-chairman; (2) Final rulemaking on grazing regulations; (3) Progress update on implementation of Upper Gila-San Simon Environmental Statement; (4) Drought conditions; (5) Update on Stewardship program; (6) Business from the floor.

The meeting will be open to the public. Interested persons may make oral statements to the Board between 10:30 a.m. and 11:30 a.m. A written copy of the oral statement must be provided at the conclusion of the presentation. Written statements may also be filed for the Board's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management 425 E. 4th Street, Safford, Arizona 85546, by 4:15 p.m., April 23, 1981.

Summary minutes of the Board meeting will be maintained in the District Office and be available for public inspection and reproduction (during regular business hours) within thirty (30) days following the meeting.

Dated: March 12, 1981.

Fritz U. Rennebaum,

Acting District Manager.

Cedar City District Grazing Advisory Board; Meeting; Correction

The April 9, 1981 meeting of the Cedar City District Grazing Advisory Board announced in the **Federal Register**, Volume 46, No. 41, page 14973 on Tuesday March 3, 1981 has been rescheduled for April 7, 1981. All other information remains the same.

Morgan S. Jensen,

District Manager.

March 11, 1981.

[FR Doc. 81-8430 Filed 3-18-81; 8:45 am]

BILLING CODE 4310-84-M

Eastern States; Transfer of Submarginal Lands; Bad River Indian Reservation

1. Pursuant to Public Law 94-114 (89 Stat. 577) and Sec. 2 thereof, the land described in paragraph 3 of this notice, together with all minerals underlying this land, whether acquired or otherwise owned by the United States, are hereby declared to be held by the United States in trust for the use and benefit of the Bad River Band of the Lake Superior Tribe of Chippewa Indians of Wisconsin, subject to all valid rights, reservations, rights-of-way, and easements of record. The land shall be part of the established Bad River Indian Reservation. These lands were submarginal lands acquired under Title II of the National Industrial Recovery Act of June 16, 1933 (48 Stat. 200), the Emergency Relief Appropriation Act of April 8, 1935 (49 Stat. 115), and Sec. 55 of the Act of August 24, 1935 (49 Stat. 750, 781). This notice is issued under the authority delegated to me by Bureau Order No. 701, dated July 23, 1946, as amended.

2. Any existing mineral leases, including oil and gas leases, which have been issued on this land will remain in force and effect in accordance with the terms and provisions of the Act under which the leases were issued. The lease files will be transferred to the Office of the Area Director, Bureau of Indian Affairs, Minneapolis, Minnesota. Future rentals for these leases will be paid to and collected by that office. Jurisdiction of these mineral leases is transferred from the Bureau of Land Management to the Bureau of Indian Affairs in trust for the Bad River Band of the Lake Superior Tribe of Chippewa Indians of Wisconsin.

3. Fourth Principal Meridian, Wisconsin

BILLING CODE 4310-84-M

[Coal Lease Modification Application C-22644]

Land in Routt County, Colo.; Public Hearing and Request for Public Comment

March 13, 1981.

The Department of the Interior, Bureau of Land Management, Colorado State Office, Denver, Colorado hereby gives notice that a public hearing will be held on April 21, 1981 at 7:00 p.m. in the Yampa Valley Electric Building, 32 10th Street, Steamboat Springs, Colorado. Application has been made by Energy Fuels Corporation for modification of coal lease C-22644 to include certain coal resources in the public lands hereinafter described. The purpose of the hearing is to obtain public comments on the following items: (1) The method of mining to be employed to obtain maximum economic recovery of the coal; (2) the impact that mining the coal in the proposed leasehold may have on the area, including, but not limited to, impacts on the environment; and (3) methods of determining the fair market value of the coal to be offered. Written requests to testify orally at the April 21, 1981 public hearing should be received at the Craig District Office, Bureau of Land Management, P.O. Box 248, Craig, Colorado 81625, prior to the close of business April 20, 1981. People who indicate they wish to testify when they check in at the hearing room may have an opportunity to testify if time is available after the listed witnesses have been heard.

Both oral and written comments will be received at the public hearing, but speakers will be limited to a maximum of three or five minutes each depending on the number of persons desiring to comment. The time limitation will be strictly enforced, but the complete text of prepared speeches may be filed with the presiding officer at the hearing, whether or not the speaker has been able to finish oral delivery in the allotted minutes. Substantive comments, whether written or oral, will receive equal consideration prior to any lease offering.

In addition, the public is invited to submit written comments concerning the fair market value of the coal resource to the Bureau of Land Management and the U.S. Geological Survey. Public comments will be utilized in establishing fair market value for the coal resources in the described lands.

Comments should address specific factors related to fair market value including, but not limited to: the quantity and quality of the coal resources, the price that the mined coal would bring in the market place, the cost of producing the coal, the probable timing and rate of production, the interest rate at which anticipated income streams would be discounted, depreciation and other accounting factors, the expected rate of industry return, the value of the surface estate (if private surface), and the mining method or methods which would achieve maximum economic recovery of the coal. Documentation of similar market transactions, including location, terms, and conditions may also be submitted at this time.

These comments will be considered in the final determination of fair market value as determined in accordance with 30 CFR 211.63 and 43 CFR 3422.1-2. Should any information submitted as comments be considered to be proprietary by the commenter, the information should be labeled as such and stated in the first page of the submission. Comments should be sent to both the State Director, Colorado State Office, Bureau of Land Management, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, and to the Deputy Conservation Manager, Conservation Division (RE), C/R, Geological Survey, Box 25046, Denver Federal Center, Denver, Colorado 80225, to arrive no later than April 22, 1981.

The coal resource to be offered is limited to strippable coal reserves in the Wadge seam and any overlying coal seams. The 1.3 million estimated recoverable tons are located in the following lands approximately 13 miles southeast of Milner, Colorado:

A parcel of land located in Section 19 and the NW¼NW¼ of Section 20, T4N, R86W of the 6th P.M., whose description is more particularly described as follows:

Beginning at the NW corner of said Section 20; thence along the North line of Section 20, N. 89°47'28" E., 329.08 feet, to the NE corner of the NW¼NW¼NW¼NW¼ of Section 20; thence along the East line of the NW¼NW¼NW¼NW¼ of Section 20, S. 00°01'00" E., 330.00 feet to the SE corner of the NW¼NW¼NW¼NW¼ of Section 20; thence along the south line of the NW¼NW¼NW¼NW¼ of Section 20, S. 89°47'28" W., 329.09 feet, to the East line of said Section 19; thence along the North line of the S½NE¼NE¼NE¼ of said Section 19, S. 89°59'54" W., 660.00 feet; thence along the

West line of the NE¼NE¼NE¼ of said Section 19, S. 00°01'00" E., 329.98 feet, to the SW corner of the NE¼NE¼NE¼ of said Section 19; thence along the North line of the S½NE¼NE¼ of said Section 19, West 660.00 feet, to a point on the West line of the NE¼NE¼ of said Section 19; thence along the West line of the NE¼NE¼ of said Section 19, S. 00°01'00" E., 329.98 feet; thence along the North line of the S½S½NW¼NE¼ of said Section 19, N. 89°59'52" W., 1320.01 feet, to a point on the North-South centerline of said Section 19; thence along the North-South centerline of said Section 19, S. 00°01'00" E., 989.74 feet, to a point on the East line of Lot 8 of said Section 19; thence N. 89°59'22" W., 660.00 feet, to the center of Lot 8 of said Section 19; thence S. 00°01'01" E., 659.72 feet, to a point on the South line of Lot 8 of said Section 19; thence along the South line of Lot 8 of said Section 19, N. 89°59'19" W., 660.00 feet, to the NE corner of Lot 10; thence along the East line of said Lot 10, S. 00°01'01" E., 659.78 feet; thence N. 89°59'07" W., 660.00 feet, to the center of said Lot 10; thence S. 00°00'59" E., 329.86 feet, to a point on the North-South centerline of said Lot 10; thence N. 89°59'04" W., 659.99 feet, to a point on the West line of said Lot 10; thence S. 00°01'03" E., 329.86 feet, to the NE corner of Lot 14 of said Section 19; thence N. 89°58'58" W., 660.00 feet, to a point on the North line of said Lot 14; thence N. 4°28'28" E., 1093.03 feet; thence N. 53°29'00" E., 4819.65 feet, to the northeast corner of the W½NW¼NE¼ of said Section 19; thence along the North line of said Section 19, N. 89°59'46" E., 1980.00 feet to the point of beginning, said parcel containing 148.12 acres more or less.

The application and the case file will be available for public inspection at the Colorado State Office, Bureau of Land Management at the address set out above.

Rodney A. Roberts,

Leader, Craig Team, Branch of Adjudication.

BILLING CODE 4310-84-M

[ES 26171, Survey Group 79]

Michigan; Filing of Plat of Survey Stayed

On Tuesday, February 3, 1981, there was published in the **Federal Register**, Volume 46, Number 22, at page 10543, a notice of the filing of plat of survey of two islands in Buhl Lake, T. 30 N., R. 4 W., Michigan Meridian, Michigan, accepted October 20, 1980.

The official filing of the plat is hereby stayed pending consideration and final determination of all protests and objections to the plat filing.

All inquiries relating to lands described in the notice published on February 3, 1981, should be sent to the Director, Eastern States Office, Bureau of Land Management, 350 South Pickett Street, Alexandria, Virginia 22304.

Pieter J. VanZanden,

Acting Eastern States Director.

BILLING CODE 4310-84-M

Montana Wilderness Inventory; Miles City and Lewistown Districts; Decisions on Protests of Intensive Inventory Decisions

March 13, 1981.

The final intensive wilderness inventory decisions for the Miles City and Lewistown Districts were announced in the **Federal Register** of November 14, 1980 (pages 75589–75590). The decisions were subject to a 45-day protest period which ended December 31, 1980. Nineteen inventory units from a total of 136 units inventoried were protested. The protests included 15 units in the Lewistown District and 4 units in the Miles City District.

The State Director has modified his decision on 4 of the units in the Lewistown District. The decisions on the remaining 11 protested units in the Lewistown District and the decisions on all the protested units in Miles City District remain unchanged.

A. The State Director's final decisions to designate the following inventory units as wilderness study areas remain unchanged:

Unit No.	Name	Acreage
	LEWISTOWN DISTRICT	
MT-087-207	Big Horn Tachon	4,470
MT-088-244	Dog Creek South	5,230
MT-088-250	Stafford	4,700
MT-088-253	Ervin Ridge	12,000
MT-088-256	Cow Creek	38,200
MT-085-278	Burnt Lodge/Sage Creek	15,000
Total		77,600
	MILES CITY DISTRICT	
MT-024-675	Bridge Coulee	5,650
Total		5,650
Grand total		83,250

B. The State Director's final decision to eliminate the following inventory units, or portions of units, from further wilderness consideration remain unchanged.

Unit No.	Name	Acreage
	LEWISTOWN DISTRICT	
MT-088-245	Chimney Bend	18,700
MT-088-249	The Wall	12,200
MT-088-250	Stafford	2,477
MT-088-253	Ervin Ridge	10,927
MT-088-255	Bullwhacker	40,881
MT-088-256	Cow Creek	34,913
MT-084-330	Caravan	5,580
MT-084-336	Marsh Hawk Hills	78,340
Total		201,528
	MILES CITY DISTRICT	
MT-027-701	Zook Creek	12,090
MT-027-715	Dead Horse Badlands	28,140
MT-027-736	Tongue River Breaks Contiguity	520
Total		3 8,740
Grand total		240,328

C. After careful consideration of the protests received and a field evaluation, the State Director has modified his decision on the following inventory units:

Lewistown District

Unit No. and name	Acreage identified for WSA status	Acreage eliminated from further wilderness consideration
MT-088-231—Two Calf Creek:		
Former decision	8,500	6,500
Present decision (+6,500)	0	15,000
MT-087-206—Burnt Timber Canyon:		
Former decision	0	10,968
Present decision (+3,958)	3,955	7,033
MT-088-246—Woodhawk:		
Former decision	0	17,000
Present decision (+7,855)	7,855	9,145
MT-088-288—Antelope Creek:		
Former decision	9,400	12,100
Present decision	12,340	9,160
Total, present decision	24,150	40,334

Any person who is adversely affected by this decision has the right of appeal to the Interior Board of Land Appeals in Washington, D.C. Information on appeals may be obtained by writing: Montana State Director (931), Bureau of Land Management, 222 North 32nd Street, P.O. Box 30157, Billings, Montana 59107.

Michael J. Penfold,

State Director.

BILLING CODE 4310-84-M

New Mexico; Intent to File Survey Plat

March 13, 1981.

Notice is hereby given, pursuant to § 1813.1–2 of Code 43 Federal Regulations of intent to file the survey plat of Township 2 South, Range 1 East, New Mexico Principal Meridian, New Mexico, accepted February 3, 1981.

The plat, in five sheets, representing the dependent resurvey of a portion of the New Mexico Principal Meridian, a portion of the north boundary of the Socorro Grant, a portion of the subdivisional lines of the township, and certain boundaries of small holding claims, the subdivision of sections 7, 18, 19 and 30, the survey of accreted lands, and riparian surveys in 7, 18, 19, 30, and 31, T. 2 S., R. 1 E., New Mexico Principal Meridian, New Mexico, for Group No. 768.

This survey was executed to meet certain administrative needs of the Bureau.

The plat will be officially filed in the Records Section of the Bureau of Land Management, New Mexico State Office, Santa Fe, New Mexico, on April 27, 1981.

Purpose of this notice is to inform the public of the foregoing described action. Interested persons desiring to oppose filing of the plat should address their views promptly to the Director, Bureau of Land Management, P.O. Box 1449, Santa Fe, New Mexico 87501.

Robert Sanchez,

Acting Chief, Division of Management Services.

BILLING CODE 4310-84-M

[1203 (943)]

Redelegation of Authority

March 11, 1981.

Pursuant to the authority contained in section 1.1(a) of Bureau order 701, as amended, the following specific authorities delegated to the State director in the cited Bureau order are hereby redelegated to the incumbents of the positions designated. The specific authorities redelegated are those listed in the designated sections of the Bureau order and are subject to the limitations listed in that order together with any additional limitations outlined below.

Section 3.9(g). *Materials other than forest products.* The district managers may take action on any sale or contract for sale of materials, other than forest products, or the free use of materials other than forest products, under 43 CFR Part 3610. The area managers may take action on any sale or contract for sale of materials, other than forest products, or the free use of materials other than forest products, under 43 CFR 3610 except transactions in which the materials are valued in excess of $2,000.

All of the above authorities redelegated to the area managers are to be performed in their respective areas of responsibility and in accordance with existing policies and regulations and under the direct supervision of the district manager. The district manager may at any time temporarily restrict or withhold any portion of the above-delegated authority through use of district manual supplements.

This redelegation of authority supersedes the redelegation regarding sale of materials other than forest products dated August 14, 1978 (43 FR 36035).

EFFECTIVE DATE: This redelegation is effective on May 1, 1981.

BILLING CODE 4310-84-M

[W-60227]

Wyoming; Termination of Proposed Withdrawal and Reservation of Lands

March 11, 1981.

The Fish and Wildlife Service, U.S. Department of the Interior, filed an application, serial number W-60227, on July 19, 1977, for withdrawal of the following described public lands for use as a district administrative headquarters site for Animal Damage Control activities:

Sixth Principal Meridian, Wyoming

T. 19 N., R. 105 W.,

Sec. 22, Lots 22, and 23.

The area described contains 11.21 acres in Sweetwater County, Wyoming.

The proposed withdrawal and reservation of lands for W-60227 was published as Federal Register Document 77-27526 on Page 47887 of the issue for September 22, 1977. This notice segregated the above-described lands from settlement, sale, location, or entry under all of the general land laws, including the mining laws, for a period of two (2) years from date of publication. The lands are still withdrawn for use by the Bureau of Land Management as an administrative site by Public Land Order 1778, dated January 14, 1959, and remain segregated from all forms of appropriation under the public land laws, including the mining and mineral leasing laws. However, all minerals in the above-described lands are in non-Federal ownership.

The Fish and Wildlife Service has cancelled its application for withdrawal of the above lands, and requested authorization for use of the site by a right-of-way grant pursuant to Section 507 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2781; 43 U.S.C. 1767). The segregative effect of proposed withdrawal W-60227, terminated on September 21, 1979. The lands were open to operation of the public land laws at that time, subject to valid existing rights and the provisions of existing withdrawals.

Questions concerning these lands should be addressed to the undersigned at the Bureau of Land Management, Wyoming State Office, P.O. box 1828, Cheyenne, Wyoming 82001.

Harold G. Stinchcomb,

Chief, Branch of Lands and Minerals Operations.

Alaska Native Claims Selection

Correction

In FR Doc. 81-5787, published on page 13385, in the issue of Friday, February 20, 1981, in the second column, under "T.1 N., R.13W.," the following should appear after the third line: "Sec. 35, N½ SE¼."

BILLING CODE 1505-01-M

INTERSTATE COMMERCE COMMISSION

[Volume No. 8]

Applications, Alternate Route Deviations, and Intrastate Applications

Republications of Grants of Operating Rights; Authority Prior to Certification Notice

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the Federal Register.

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this Federal Register notice. Such pleading shall comply with Special Rule 247(e) of the Commission's *General rules of Practice* (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served

concurrently upon the carrier's representative, or carrier if no representative is named.

MC 113843 (Sub-265) (Republication), filed July 23, 1979, published in the Federal Register issue of February 14, 1980, and republished, this issue: Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, MA 02210. Representative: Lawrence T. Sheils (same as above). A Decision of the Commission, *Division 1*, decided January 6, 1981, and served January 13, 1981, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce, over irregular routes, as a *common carrier*, by motor vehicle, transporting *frozen foods*, from the facilities of Campbell Soup Company, Inc., and from the facilities of the subsidiaries and affiliates of Campbell soup company, Inc., at or near (a) Salisbury and Pocamoke City, MD, (b) Clayton and Milford, DE, (c) Downingtown and Philadelphia, PA, and (d) Camden, NJ, to points in Illinois, Michigan, Ohio, Kentucky, West Virginia, Virginia, Pennsylvania, New York, New Jersey, Connecticut, Rhode Island, Vermont, Maine, Massachusetts, New Hampshire, Nebraska, Texas, Arkansas, South Carolina, and Georgia; that applicant is fit, willing, and able properly to perform the granted service and to conform to the requirements of Title 49, Subtitle IV, U.S. Code and the Commission's regulations. The purpose of this republication is to indicate and give proper notice that service being rendered from the facilities of Campbell Soup Company, Inc., also includes its subsidiaries and/or affiliates.

Motor Carrier Intrastate Applications(s); Notice

The following application(s) for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to Section 10931 (formerly Section 206(a)(6)) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the Commission's *General Rules of Practice* (49 CFR 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the appliction is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

California Docket No. 60272, filed February 19, 1981. Applicant: DELTRAN, INC., 25662 Minos, Mission Viejo, CA 92691. Representative: Gary W. Wigand, 13031 San Antonia Dr., Suite 214, Norwalk, CA 90650. Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportation of: A. Displays, padded and crated, and electronics. B. From, to and within all points and places within the State of California. Intrastate, interstate and foreign commerce authority sought. Hearing: date, time and place not yet fixed. Request for procedural information should be addressed to California Public Utilities Commission, California State Bldg., 350 McAllister Street, San Francisco, CA 94102, and should not be directed to the Interstate Commerce Commission.

New York Docket No. T-1418, filed February 17, 1981. Applicant: ACORN TRANSPORTATION, INC., No. 3 Sussex Road, East Greenbush, NY 12016. Representative: Neil D. Breslin, Esq., 600 Broadway, Albany, NY 12207. Certificate of Public Convenience and Necessity sought to operate a freight service, as follows: Transportation of: General Commodities—Between all points in the Counties of Albany, Rensselaer and Schenectady. Intrastate, interstate and foreign commerce authority sought. Hearing: date, time and place not yet fixed. Request for procedural information should be addressed to Department of Transportation, 1220 Washington Ave., State Campus, Albany, NY 12232, and should not be directed to the Interstate Commerce Commission.

By the Commission.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-8447 Filed 3-18-81; 8:45 am]

BILLING CODE 7035-01-M

[No. AB-6 (Sub-69)]

Burlington Northern, Inc.—Abandonment Between West Quincy and Kirksville, MO; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that by a decision decided February 18, 1981, a finding, which is administratively final, was made by the Commission stating that, the public convenience and necessity permit the abandonment by the Burlington Northern, Inc. of that portion of its line of railroad and operations between milepost 1.99 near West Quincy, MO and milepost 70.68 at Kirksville, MO, subject to the conditions for the protection of employees discussed in *Oregon Short Line R. Co.—Abandonment Goshen*, 360 I.C.C. 91 (1979). A certificate of abandonment will be issued to the Burlington Northern, Inc., based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 15 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued. The offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed. An offer may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made on the Commission to set conditions or amount of compensation, a certificate of abandonment will be issued no later than 50 days after notice is published. Upon notification to the Commission of the execution of an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96-448, effective October 1, 1980). All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced decision.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Ex Parte No. 387 (Sub-13)]

Denver and Rio Grande Western Railroad Co. Exemption for Contract Tariff ICC-DRGW-C-0001

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Provisional Exemptions.

SUMMARY: Petitioner is granted a provisional exemption under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e). The previously filed contract tariff will become effective on one day's notice but not before April 1, 1981. This exemption may be revoked if protests are filed within 15 days of publication in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder or Jane F. Mackall (202) 275-7656.

SUPPLEMENTARY INFORMATION: The Denver and Rio Grande Western Railroad Company (DRGW) has requested an exemption from the requirement of 49 U.S.C. 10713(e) that its contract tariff ICC-DRGW-C-0001 be made effective on a minimum of 30 days' notice. This tariff is currently scheduled to take effect on April 7, 1981. DRGW seeks to advance this effective date by 6 days to April 1, 1981. The tariff reflects a contract of 3 months duration with Chrysler Corporation. During the term of the agreement, Chrysler agrees to ship a fixed minimum volume of assembled automobiles and trucks by railroad under applicable rates. After a specified time DRGW will refund shipper a percentage of the total revenues derived from transportation under the provisions of the contract. Chrysler's financial difficulties have prompted this request. The advancement of the dates of Tariff ICC-DRGW-C-0001 would allow the parties to fulfill the contract terms within normal monthly accounting periods. This will result in a savings of money and time.

The carrier does not indicate whether protests are expected. However, we note that the Ex Parte No. 387 (Sub-1, 2, 5 and 8) exemption orders also cover special arrangements with automobile manufacturers. This proposal should enhance carrier service by encouraging efficient movement and should not impair the carrier obligation to provide service to other shippers. An earlier effective date is necessary to assist Chrysler in its financial condition.

In this unusual situation, we believe an exemption should be granted. DRGW has already indicated in its petition a willingness to be bound by the following conditions, which have been imposed in similar exemption proceedings:

If the Commission permits the contract to become effective on one day's notice, this fact neither shall be construed to mean that this is a Commission approved contract for purposes of 49 U.S.C. 10713(g) nor shall it serve to deprive the Commission of jurisdiction to institute a proceeding, on its own initiative or on complaint, to review this contract and to disapprove it during the period specified in 49 U.S.C. 10713.

Thus, subject to compliance with these conditions, under 49 U.S.C. 10505(a) we find that the 30-day notice requirement in this instance is not necessary to carry out the transportation policy of 49 U.S.C. 10101a and is not needed to protect shippers from abuse of market power. Further, we will consider revoking this exemption under 49 U.S.C. 10505(c) if protests are filed on or before April 3, 1981.

This action will not significantly affect the quality of the human environment or the conservation of energy resources.

(49 U.S.C. 10505)

Dated: March 12, 1981.

By the Commission, Division 1. Commissioners Clapp, Alexis, and Gilliam.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-8040 Filed 3-18-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carrier; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special Rule 247 was published in the Federal Register of July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirments of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before [45 days from the date of publication], (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP1-074

Decided: March 12, 1981.

By the Commission, Review Board No. 1. Members Parker, Chandler, and Taylor.

MC 128720 (Sub-12), filed February 6, 1981. Applicant: MERCHANTS FREIGHT LINE, INC., 1185 Omohundro Drive, Nashville, TN 37210. Representative: Henry E. Seaton, 929 Pennsylvania Bldg., 425 13th St., N.W., Washington, DC 20004. Transporting *general commodities* (except classes A and B explosives), between Nashville, TN, on the one hand, and, on the other, points in the U.S.

Note.—Applicant intends to tack this authority with applicant's existing regular-route authority.

MC 144630 (Sub-54), filed February 5, 1981. Applicant: STOOPS EXPRESS, INC., P.O. Box 287, Anderson, IN 46015. Representative: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240. Transporting *pulp, paper, and related products*, between Chicago, IL, on the one hand, and, on the other, points in IN, MI, OH, and KY.

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80100.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified

statements filed on or before 45 days from date of publication (or, if the application later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

MC 154466, filed February 6, 1981. Applicant: RAINBOW TRANSPORTATION BROKERS, P.O. Box 9224, Baltimore, MD 21222. Representative: Charles Berube (same address as applicant) (301) 285-6564. As a *broker of general commodities* (except household goods), between points in the U.S.

Agatha L. Mergenovich,
Secretary.

[FR Doc. 81-8440 Filed 3-16-81, 8:45 am]
BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the Federal Register of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings:

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environmental nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new

entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP1-075

Decided: March 12, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler and Taylor.

MC 381 (Sub-27), filed February 9, 1981. Applicant: GENOVA EXPRESS LINES, INC., P.O. Box 136, Williamstown, NJ 08094. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934 (201) 435-7140. Transporting *metal products*, between the facilities used by Hoeganaes Corporation, in the U.S., on the one hand, and, on the other, points in the U.S.

MC 2860 (Sub-218), filed March 3, 1981. Applicant: NATIONAL FREIGHT, INC., 71 West Park Ave. Vineland, NJ 08360. Representative: Richard M. Parnicky (same address as applicant). Transporting *food and related products*, between points in Cook County, IL, on the one hand, and, on the other, points in IA, IL, IN, KY, MI, MO, and WI.

MC 52460 (Sub-316), filed February 23, 1981. Applicant: ELLEX TRANSPORTATION, INC., P.O. Box 9637, 1420 W. 35th St., Tulsa, OK 74107. Representative: Don E. Kruizinga (same address as applicant) (918) 446-4434. Transporting *food and related products*, between points in Santa Cruz County, CA, on the one hand, and, on the other, points in IL, IA, LA, MO, OK and TX.

MC 52460 (Sub-317), filed February 27, 1981. Applicant: ELLEX TRANSPORTATION, INC., 1420 W. 35th St., P.O. Box 9637, Tulsa, OK 74107. Representative: Don E. Kruizinga (same address as applicant) (918) 446-4434. Transporting *food and related products*, between points in Ford County, KS, on the one hand, and, on the other, points in CA, CO, IL, IA, MN and NE.

MC 82841 (Sub-304), filed February 9, 1981. Applicant: HUNT TRANSPORTATION, INC., 10770 "I" St., Omaha, NE 68127. Representative: Donald L. Stern, 7171 Mercy Rd., Suite 610, Omaha, NE 68106 (402) 392-1220. Transporting (1) *Lumber and wood products*, (2) *pulp, paper and related products*, and (3) *forest products*, between points in (1) UT and MN, on the one hand, and, on the other, points in AR, CO, IA, IL, IN, KS, KY, MI, MN, MO, NC, NE, OH, PA, SC, SD, TN, WI, WV, and WY, (2) Navajo County, AZ, on the one hand, and, on the other, points in Bernalillo County NM and (3) CA, on the one hand, and, on the other, points in AZ, AR, CO, ID, IL, IN, IA, KS, KY, LA, MI, MN, MO, MT, NV, NE, NM, NC, OH, OK, OR, PA, SC, SD, TN, TX, UT, WA, WV, WI, and WY.

MC 82841 (Sub-306), filed February 27, 1981. Applicant: HUNT TRANSPORTATION, INC., 10770 "I" St., Omaha, NE 68127. Representative: Donald L. Stern, 7171 Mercy Rd., Suite 610, Omaha, NE 68106 1-402-392-1220. Transporting *such commodities* as are dealt in or used by manufacturers and dealers of agricultural equipment, industrial equipment, and lawn and leisure products, between points in Denver County, CO, on the one hand, and, on the other, points in ID,UT, those in that part of OK on and west of U.S. Hwy 183, those in that part of TX on and north of a line beginning at the NM-TX state line and extending along U.S. Hwy 60 to junction TX Hwy 86, then along TX Hwy 86 to junction U.S. Hwy 287, then along U.S. Hwy 287 to junction U.S. Hwy 183, then along U.S. Hwy 183 to the TX-OK state line, and those in that part of MT on and south of a line beginning at the ID-MT state line and extending along Interstate Hwy 90 to junction Interstate Hwy 94, then along Interstate Hwy 94 to the MT-ND state line.

MC 111231 (Sub-343), filed March 2, 1981. Applicant: JONES TRUCK LINES, INC., 610 East Emma Ave., Springdale, AR 72764. Representative: James H. Berry (same address as applicant) (501) 751-4806. Transporting *lumber and wood products*, between points in Searcy County, AR, on the one hand, and, on the other, points in the U.S.

MC 117380 (Sub-4), filed February 24, 1981. Applicant: EWING BROS. INC., 1200 North "A" St., Las Vegas, NV 89106. Representative: Fred H. Mackensen, 2029 Century Park East, Suite 4150, Los Angeles, CA 90067 (213) 879-5955. Transporting *transportation equipment*, between points in NV, AZ, CA, and UT.

MC 120821 (Sub-3), filed February 27, 1981. Applicant: ILLINOIS FREIGHT SYSTEM, INC., 618 Brookwood Dr., East Alton, IL 62024. Representative: Robert T. Lawley, 300 Reisch Bldg., Springfield, IL 62701 (217) 544-8466. Transporting (1) *construction materials*, and (2) *metal products*, between points in IL, IN, MO, and WI. Condition: Issuance of a certificate in this proceeding is conditioned upon coincidental cancellation, at applicant's written request, of its Certificate of Registration in No. MC 120821 (Sub-1).

MC 120761 (Sub-70), filed March 2, 1981. Applicant: NEWMAN BROS. TRUCKING COMPANY, 6559 Midway Road, Fort Worth, TX 76117. Representative: Clint Oldham, 1108 Continental Life Bldg., Fort Worth, TX 76102 (817) 332-4415. Transporting (1) *forest products* and (2) *lumber and wood products*, between points in AL and MS, on the one hand, and, on the other, points in the U.S.

MC 120981 (Sub-36), filed February 10, 1981. Applicant: BESTWAY EXPRESS, INC., 905 Visco Drive, Nashville, TN 37210. Representative: George M. Catlett, 706 McClure Bldg. Frankfort, KY 40601 (502) 227-7384. Transporting *general commodities* (except classes A and B explosives), (A) over regular routes, (1) between Mobile, AL, and Baton Rouge, LA, from Mobile, AL, over Interstate Hwy 10 to junction Interstate Hwy 12, then over Interstate Hwy 12 to Baton Rouge, LA, and return over the same route, serving all intermediate points, (2) between Montgomery, AL, and Jackson, MS, from Montgomery, AL, over U.S. Hwy 30 to junction Interstate Hwy 20, then over Interstate Hwy 20 to Jackson, MS, and return over the same route, serving all intermediate points, (3) between Mobile, AL, and Jackson, MS, from Mobile, AL, over U.S. Hwy 98 to junction U.S. Hwy 49, then over U.S. Hwy 49 to Jackson, MS, and return over the same route, serving all intermediate points, (4) between Lexington, KY, and Delaplain, KY, from Lexington, KY, over U.S. Hwy 25 to junction KY U.S. Hwy 620, then over KY Hwy 620 to Delaplain, KY, and return over the same route, serving all intermediate points, (5) between Lexington, KY, and Cynthiana, KY, from Lexington, KY, over Interstate Hwy 75 to junction U.S. Hwy 62, then over U.S. Hwy 62 to Cynthiana, KY, and return over the same route, serving all intermediate points, and (B) Over irregular routes, (1) between points in Scott County, KY, on the one hand, and, on the other, points in OH, those points in PA on and west of U.S. Hwy 219, and those points in NY on and west of NY Hwy 14, and (2) between Baton Rouge, LA, and points in Hinds County, MS,

Transporting (1) *farm products*, and (2) *machinery*, between points in AL, FL, and GA, on the one hand, and, on the other points in AR, AL, AZ, FL, GA, IL, KY, IN, LA, MS, NC, SC, TN, and TX.

MC 154536, filed March 2, 1981. Applicant: LES–MAR TRUCKING, INC., 1316 Central Ave., Union City, NJ 07087. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934 (201) 435–7140. Transporting *commodities in bulk*, between points in Hudson and Bergen Counties, NJ, on the one hand, and, on the other, points in NJ, NY, PA, MA, MD, DE, CT, RI, VA, NC, and DC.

Volume No. OP4–82

Decided: March 12, 1981.

By the Commission Review Board No. 2. Members Carlton, Fisher, and Williams.

MC 67646 (Sub-95), filed February 4, 1981, previsouly noticed in the Federal Register issue of February 26, 1981, and republished this issue. Applicant: HALL'S MOTOR TRANSIT COMPANY, a corporation, 6060 Carlisle Pike, Mechanicsburg, PA 17055. Representative: Edward W. Kelliher (same address as applicant). Over regular routes, transporting *general commodities* (except classes A and B explosives), (1) between Richmond, VA, and Charleston, WV: from Richmond over Interstate Hwy 64 to junction U.S. Hwy 60, then over U.S. Hwy 60 to Charleston, and return over the same route, serving all intermediate points, and (b) from Richmond over U.S. Hwy 60 to Charleston, serving all intermediate points, (2) between Charleston, WV, and Chicago, IL: from Charleston over Interstate Hwy 64 to Louisville, KY, then over Interstate Hwy 65 to junction Interstate Hwy 94, then over Interstate Hwy 94 to Chicago, and return over the same route, serving all intermediate points; and (3) between Cincinnati, OH, and Danville, KY: (a) from Cincinnati over Interstate Hwy 75 to junction Interstate Hwy 64, then over Interstate Hwy 64 to junction U.S. Hwy 127, then over U.S. Hwy 127 to Danville, and return over the same route, and (b) from Cincinnati over Interstate Hwy 75 to junction KY Hwy 922, then over KY Hwy 922 to KY Hwy 4, then over KY Hwy 4 to junction KY Hwy 68, then over U.S. Hwy 68 to junction U.S. Hwy 127, then over U.S. Hwy 127 to Danville, and return over the same route, serving in (a) and (b) above all intermediate points, and serving points in Boyle County, KY, as intermediate or off-route points.

Note.—(a) The purpose of this republication is to correctly state the requested authority, and (b) Applicant states it intends to tack the above routes with one another, and with its existing authority.

MC 150776 (Sub-4), filed February 5, 1981. Applicant: ALFRED DANIELS, INC., Rt. 1, P.O. Box 272–I, Jackson, OH 45640. Representative: Stephen J. Habash, 100 E. Broad St., Columbus, OH 43215 (614) 228–1541. Transporting *chemnicals and related products*, between points in Lawrence County, PA, Boyd County, KY, Cabell and Wayne Counties, WV, and Pittsburgh, PA, on the one hand, and, on the other, points in the U.S.

MC 154548, filed February 3, 1981. Applicant: DOROTHY J. COLEMAN, d.b.a. D AND D TRANSPORT, 101 Amherst Rd., S. Hadley, MA 01075. Representative: Dorothy J. Coleman (same address as applicant). Transporting *pulp, paper and related products*, between points in the U.S., under continuing contract(s) with National Blank Book Co., Inc., of Holyoke, MA.

Agatha L. Mergenovich,
Secretary.

[Docket No. AB–109 (Sub-1)]

Quanah Acme & Pacific Railway Co.; Abandonment Between Acme and Floydada in Cottle, Motley, Floyd, and Hardeman Counties, TX; Findings: Correction [1]

Notice is hereby given pursuant to 49 U.S.C. 10903 that by a Certificate and Decision decided January 26, 1981, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, the present and future public convenience and necessity permit the abandonment by the Quanah, Acme & Pacific Railway Company of the line of railroad between milepost 766 at or near Paducah, TX to milepost 833.2 at or near Floydada, TX a distance of approximately 67.2 miles. The total distance of the above segment is subject to the conditions for the protection of employees discussed in *Oregon Short Line R. Co.—Abandonment Goshen*, 360 I.C.C. 91 (1979). A certificate of public convenience and necessity permitting abandonment was issued to the Quanah, Acme & Pacific Railway Company. Since the investigation has been completed, the requirement of § 1121.38(b) of the Regulations that publication of notice of abandonment decisions in the **Federal Register** be made only after such a decision becomes administratively final was waived.

Upon receipt by the carrier of an actual offer of financial assistance, the carrier shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing Exhibit I (Section 1121.45 of the Regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than March 30, 1981. The offer, as filed, shall contain information required pursuant to § 1121.38(b) (2) and (3) of the Regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment

[1] Republished to cure defects in our February 10, 1981 notice.

shall become effective 30 days from the service date of the certificate.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[No. MC-C-10796]

Shipments Weighing 100 Pounds or Less

AGENCY: Interstate Commerce Commission.

ACTION: Notice of declaratory order proceeding.

SUMMARY: In response to a petition filed by the American Package Express Carriers Association, Inc., (APECA), the Commission is instituting a declaratory order proceeding to give our interpretation of "shipments weighing 100 pounds or less" under 49 U.S.C. 10922(b)(4)(D). Petitioner requests that the Commission promulgate rules which will include language in all certificates issued pursuant to the involved section defining "shipments weighing 100 pounds or less" as "one or more packages weighing in the aggregate 100 pounds or less transported from a consignor to a consignee on any one day." It argues that the statutory language is ambiguous and the failure of the Commission to clarify this section could lead to unauthorized transportation under the involved fitness-only procedure. Although we do not believe a rulemaking proceeding is warranted, we agree that a certain ambiguity exists within the statute as to the meaning of the involved phrase. Therefore, we will exercise our discretion and issue a declaratory order to clarify the meaning of the involved section.

DATES: Comments are due on or before April 20, 1981.

ADDRESS: Send an original and, if possible, 15 copies of any comments to: MC-C-10796, Room 5416, Office of Proceedings, Interstate Commerce Commission, Washington, D.C. 20432.

FOR FURTHER INFORMATION CONTACT:
Richard J. Osterman, Jr., (202) 275-7893
or
Edward E. Guthrie, (202) 275-7691.

SUPPLEMENTARY INFORMATION: By petition filed December 10, 1980, the American Package Express Carriers Association, Inc., (APECA) requests that this Commission institute a proceeding to promulgate rules which will incorporate language in all certificates issued pursuant to 49 U.S.C. 10922(b)(4)(D), defining the 100-pound shipments authorized, as "shipments of not more than 100 pounds a day from one consignor to one consignee." Petitioner notes that the Motor Carrier Act of 1980 does not define "100-pound shipments" and that the phrase, therefore, may be subject to a variety of interpretations. To prevent unauthorized transportation by carriers which are granted certificates under the involved fitness only procedure, petitioner seeks the incorporation of language in each certificate which will set forth the Congressional intent.

We believe that a rulemmaking is not the appropriate way to handle this matter; however, since we believe petitioner is correct in noting that an ambiguity exists in the meaning of the phrase "shipments weighing 100 pounds or less" as used in 49 U.S.C. 10922(b)(4)(D), we shall exercise our discretion to issue a declaratory order to clarify the matter.[1]

The term "shipment" has been defined by the Commission to mean "a quantity of freight received from one shipper, at one time, at one place, consigned to one consignee at a single destination under one bill of lading." See *East Express, Inc., Ext.—High Point*, 117 M.C.C. 383, 386 (1972). Under this definition, a certificate authorizing the transportation of "shipments weighing 100 pounds or less" might be interpreted to authorize the transportation of several packages aggregating more than 100 pounds from one consignor to one consignee as long as each package is shipped on a separate bill of lading and does not exceed 100 pounds. However, an examination of the legislative history of subsection (b)(4)(D) seems to preclude this interpretation.

The report of the House Committee on Public Works and Transportation states that under subparagraph (4)(D):

> A shipment is one or more packages weighing in the aggregate 100 pounds or less transported from a consignor to a consignee on any one day. This will allow carriers receiving a certificate under this subparagraph to transport up to 100 pounds from one consignor at any one location to one consignee at any one location on any day.

H.R. Rep. No. 96-1069, 96th Cong., 2d. Sess. 16 (1980). Thus, on any given day, a carrier holding a certificate under this subparagraph appears authorized to transport only a package or aggregate of packages weighing 100 pounds or less from one consignor to one consignee. To prevent confusion as to the interpretation of the phrase "shipments weighing 100 pounds or less", we believe we must declare that the Congressional intent as set forth in House Report 96-1069 is the proper interpretation of the transportation authorized under the involved fitness related application procedure.

All interested persons are invited to comment about this clarification and its impact. This action does not appear to affect significantly either the quality of the human environment or conservation of energy resources. However, anyone may comment on this aspect of the proceeding.

It is ordered:

The petition is denied.

Pursuant to 5 U.S.C. 554(e), and in the sound exercise of our discretion, a declaratory proceeding is instituted.

Decided: March 6, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Ex Parte No. 387 (Sub-15)]

Southern Pacific Transportation Exemption for Contract Tariff ICC-SP-C-0003

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Provisional Exemption.

SUMMARY: Petitioner is granted a provisional exemption under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e). The contract tariff to be filed will become effective on one day's notice. This exemption may be revoked if protests are filed within 15 days of publication in the Federal Register.

FOR FURTHER INFORMATION CONTACT:
Richard B. Felder or Jane F. Mackall (202) 275-7656.

SUPPLEMENTARY INFORMATION: By petition filed March 9, 1981, Southern Pacific Transportation Company (SP) has requested an exemption from the requirement of 49 U.S.C. 10713(e) that its proposed contract tariff ICC-SP-C-0003 be made effective on a minimum of 30 days' notice. SP seeks to file the contract tariff on one day's notice with an effective date of March 23, 1981. The duration of the contract is one year.

The contract involves the movement of pipe for the Northern Border Pipeline Project over the lines of SP, the St. Louis

---

[1] While petitioner's request for inclusion of language contained in House Report 96-1069 is denied, we note that the statutory language will be included in certificates issued pursuant to 49 U.S.C. 10922(b)(4)(D). See Ex Parte No. 55 (Sub-No. 43A), *Acceptable Forms of Requests for Operating Authority (Motor Carriers and Brokers of Property)*, 45 Fed. Reg. 86798, December 31, 1980.

Southwestern, the Norfolk and Western and Soo Line. The shipping schedule has recently undergone a significant change. The new schedule accelerates the beginning date for shipments by two weeks with a starting date of March 23, 1981. Corresponding commitments for the receipt of pipe shipments have been made by the receiver. Petitioner thus contends that a 30-day waiting period would be extremely disruptive to the scheduling to which the shipper and receiver have already committed themselves.

SP does not expect any protest of the contract tariff to be filed. It alleges that the contract is of limited scope because it involves a single commodity moving over a single route and has only a year duration. It also contends that the 30 day notice period is not required to protect shippers from any abuse of market power. SP will use a pool of leased rail cars to provide service under the contact, so its own fleet of rail cars will be available to meet its common carrier obligation to serve other shippers. For these reasons, petitioner argues that the requested exemption is warranted.

There is no provision for waiving the section 10713(e) requirement that contracts must be filed to become effective on not less than 30 nor more than 60 days' notice. Cf. former section 10762(d)(1). However, we may address the same relief under our section 10505 exemption authority and we do so here.

The contract at issue is designed to allow responsive transportation service in connection with a major energy project. To permit the contract to become effective only after a 30-day period could seriously disrupt shipping and production schedules already in place. The contract proposal should enhance carrier service by encouraging efficient use of transportation facilities. It should not impair the carriers' obligation to provide service to other shippers because SP will use a pool of lease cars to move the pipe. Thus, we conclude that a provisional exemption should be granted.

SP has already agreed in its petition to be bound by the following conditions, which have been imposed in similar exemption proceedings:

If the Commission permits the contract to become effective on one day's notice, this fact neither shall be construed to mean that this is a Commission approved contract for purposes of 49 U.S.C. 10713(g) nor shall it serve to deprive the Commission of jurisdiction to institute a proceeding, on its own initiative or on complaint, to review the contract or to disapprove it during the periods specified in 49 U.S.C. 10713.

In Ex Parte No. 387 (Sub-11), *Southern Pacific Transportation Company Exemption for Contract Tariff ICC–SP–C–0002*, served February 27, 1981, we advised S. P. that the filing of an exemption request on such short notice with no explanation as to why the request was not made earlier will be considered a strong indication that the requested exemption is not actually required. While SP has complied in part to our advice by filing earlier, in the future the Commission will require more detail as to why a shipper made commitments for shipment weeks before the contract's original effective date, April 6, 1981.

Subject to compliance with the conditions set out above, under 49 U.S.C. 10505(a) we find that the 30-day notice requirement in this instance is not necessary to carry out the transportation policy of 49 U.S.C. 10101a and is not needed to protect shippers from abuse of market power. The contract tariff may become effective on one day's notice. Further, we will consider revoking this exemption under 49 U.S.C. 10505(c) if protests are filed on or before April 3, 1981.

This action will not significantly affect the quality of the human environment or the conservation of energy resources.

Authority: 49 U.S.C. 10505.

Decided: March 13, 1981.

By the Commission, Division 1, Commissioners Clapp, Alexis, and Gilliam. Commissioner Gilliam was absent and did not participate.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-8445 Filed 3-18-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carrier Finance Applications; Decision-Notice

The following applications, filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed by Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the **Federal Register**. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.241. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of

effectiveness of this decision-notice or the application of a non-complying applicant shall stand denied.

Dated: March 12, 1981.

By the Commission, Review Board No. 3. Members Krock, Joyce, and Dowell.

MC–F–14577F, filed February 17, 1981. DON WARD, INC. d.b.a. DON WARD & CO. (Ward) (241 West 56th Avenue, Denver, CO 80216)—Purchase—Lynden Transport, Inc. (Lynden) (P.O. Box 433, Lynden, WA 98264). Representative: Steven E. Napper, 1700 Western Federal Building, Denver, CO 80202. Ward seeks authority to purchase the interstate operating rights of Lynden. Don A. Ward is the majority stockholder of Ward, and as a condition to the approval of this transaction, he will be required to join in the application. Ward is purchasing those rights contained in Lynden's Permit in MC 136438 (Sub 1), which authorizes the transportation of *Liquid concrete admixtures*, in bulk or tank vehicles. From Seattle, WA to points in OR, ID, MT and that part of CA lying on and north of a line beginning at Eureka and extending along U.S. Highway 101 to junction California Highway 299, thence along California Highway 299 to the California/Nevada state line, with no transportation for compensation on return except as otherwise authorized. The operations authorized herein are limited to a transportation service to be performed under a continuing contract, or contracts, with Master Builders, Division of Martin Marietta Corporation. Ward is a common carrier operating under MC 111434. An application for temporary lease has not been filed. Condition: Approval and authorization of this transaction is conditioned upon the prior receipt by the Commission of an affidavit signed by Don A. Ward stating that he is the person in control of transferee and that he joins in this application.

MC–F–14574, filed February 11, 1981. ALLTRANS PILOT, INC. (AP) (Two Robert Speck Parkway, Suite 1050, Mississauga, Ontario, Canada L5A 353)—Control—PILOT FREIGHT CARRIERS, INC., (Pilot) (Cherry Street & Polo Road, Winston-Salem, NC 27102). Representatives: Jack Goodman c/o Axelrod, Goodman, Steiner and Bazelon, 39 South La Salle Street, Chicago, IL 60603 and Pansy Beroth, P.O. Box 615, Cherry Street & Polo Road, Winston-Salem, NC 27102. Authority is sought by AP to control Pilot through ownership of its capital stock. AP is controlled by a noncarrier, Alltran Holdings, Inc. (AH) which, in turn, is controlled by a noncarrier, Thomas Nationwide Transport Limited (TNTL), whose stock is widely held. AH also controls a motor common carrier, Alltrans Express USA, Inc. (AXUSA), which in turn controls a freight forwarder, Alltrans Alaska Freight, Inc. (AAF). AH also controls a motor common carrier, MMar Transportation, Inc. (MMT). TNTL controls a noncarrier, Alltrans Canada, Inc. which in turn controls a motor common carrier TNT Canada, Inc. (TC). TC controls a motor common carrier, Trojan Freight Lines, Limited (TFL), a motor common carrier, Overland Western International, Inc. (OWI), and a carrier Champlain Steptilles Express, Inc. (CSX). CSX in turn owns 49 percent of the outstanding capital stock of a noncarrier, Champlan Express, Inc. which in turn controls a motor common carrier, Champlain Express Transport (CXT). TNTL corporate-system carriers hold operating rights generally authorizing transportation of general and specified commodities in Washington, Oregon, California, Arizona, Missouri, Illinois, Wisconsin, Michigan, Ohio, Maryland, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire and Maine. AP proposes to control Pilot which holds operating rights generally authorizing transportation of (1) general commodities (serving all intermediate and off-route points) of specified commodities in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Pennsylvania, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Tennessee, Ohio, West Virginia, Kentucky, Indiana and the District of Columbia. The authorities which AP or its affiliates hold duplicate authorities which AP would control through Pilot. A more detailed description of the carrier operating rights are on file as part of the application at the Commission's main office in Washington, DC and at its Regional Office in Atlanta, GA. To avoid conflict with 49 U.S.C. 11323, the authority of AAF will be transferred to Pilot prior to consummation of the instant transaction. Impediment: Duplication exists between the authorities of the TNTL corporate system carriers and Pilot. Therefore, applicants should submit a plan for eliminating duplicate authority.

Notes.—(1) AP has filed an application for temporary control of Pilot. (2) Pilot has filed a directly-related application under 49 U.S.C. 11301 in Finance Docket No. 29583 for authority issue 1,000,000 shares of $1.00 par value common stock to AP as part of the control transactions. At the time of issuance, Pilot will have no authorized stock outstanding because it previously will have redeemed and cancelled its outstanding stock as a earlier step in the control transaction.

Agatha L. Mergenovich,

Secretary.

Republications of Grants of Operating Rights Authority Prior to Certification

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the Federal Register.

An original and one copy of opposing verified statements must be filed with the Commission within 45 days after the date of this Federal Register notice. Applicant may file a verified statement in rebuttal within 60 days. Such pleadings shall comply with 49 CFR 1100.247 (renumbered 1100.251) addressing specifically the issue(s) indicated as the purpose for republication. Special Rule 247 (renumbered 251) was published in the Federal Register of July 3, 1980, at 45 FR 45539.

MC 144621 (Sub-22) (republication), filed August 13, 1980, published in the Federal Register of August 26, 1980, and republished this issue. Applicant: CENTURY MOTOR LINES, INC., Box 66, 52275 U.S. Highway 31, North 46637, South Bend, IN 46624. Representative: Charles J. Kimball, 350 Capitol Life Center, 1600 Sherman St., Denver, CO 80203. A decision by the Commission, Division 2, acting as an Appellate Division, decided February 23, 1981, and served February 27, 1981, finds that applicant is authorized to operate as a *common carrier* transporting (1) *buffing, polishing, and cleaning compounds, personal care products, and foodstuffs* (except commodities in bulk), (a) from the facilities of Alberto-Culver Co., at or near Melrose Park, IL, to points in AZ, CA, GA, ID, MA, NJ, NV, NY, OR, PA, TX, and WA, (b) from the facilities of Alberto-Culver Co., at or near Sparks, NV, to points in AZ, CA, ID, OR, and WA, and (c) from the facilities of Alberto-Culver Co., at or near Atlanta, GA, to points in FL, IL, MD, NJ, and NY, and (2) *materials, equipment and supplies* used in the manufacture and disposition of the commodities in (1) in the reverse direction. Applicant is fit, willing, and able properly to perform the granted service and to conform to the requirements of Title 49, Subtitle IV, U.S. Code, and the Commission's regulations. The purpose of this

republication is to indicate that applicant has been granted authority to serve points in NV, WA, and OR, which were inadvertently omitted from the initial publication.

By the Commission.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 4710-02-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. 80-10]

Ganes Chemicals, Inc.; Partial Denial of Registration

On March 25, 1980, the Acting Administrator of the Drug Enforcement Administration [DEA] issued to Ganes Chemicals, Inc., Lessee of Siegfried Chemical, Inc., of Pennsville, New Jersey, an Order to Show Cause as to why Ganes Chemicals' application for registration as a manufacturer of controlled substances in Schedules II, III and IV should not be denied. The Order to Show Cause specified a number of instances in which Ganes [hereinafter referred to as "the Respondent"] had failed to provide adequate security and had failed to maintain complete and accurate records with respect to certain controlled substances it manufactured; particularly, these specifications related to methaqualone, a Schedule II substance which the Respondent manufactured in bulk quantities.

On April 23, 1980, the Respondent requested a hearing on the issues raised by the Order to Show Cause and this matter was placed on the docket of Administrative Law Judge Francis L. Young. Following the completion of prehearing proceedings, a hearing was scheduled to be held in Salem, New Jersey, commencing on January 13, 1981.

Contemporaneously with the issuance of the Order to Show Cause in this matter, the United States Attorney for the District of New Jersey filed, in the United States District Court for that jurisdiction, a complaint seeking the assessment of civil penalties against the Respondent. The civil complaint alleged recordkeeping violations similar to those specified in the administrative proceeding.

During the pendency of the civil and administrative proceedings, attorneys and principals representing DEA, the U.S. Attorney's office and the Respondent met on numerous occasions to discuss alternatives to the full sanctions sought in these actions. During this period, the Respondent invested extensively in physical and procedural security measures designed to improve the firm's overall security posture and to prevent a recurrence of the conditions which led to the initiation of these proceedings. Ultimately, on December 9, 1980, agreement was reached on terms for the settlement of both the civil and administrative matters. The scheduled hearing was cancelled and, on February 26, 1981, all proceedings pending before the Administrative Law Judge were terminated.

The agreement reached between representatives of the Government and the Respondent provides, essentially, that the Respondent has withdrawn its opposition to the proposed denial of its application to be registered as a bulk manufacturer of methaqualone and has agreed not to reapply for such registration until 1984. DEA has agreed to withdraw the Order to Show Cause proposing to deny the Respondent's applications in all other respects. The Government further agreed to permit the Respondent to complete the production of all methaqualone in various stages of production at the Respondent's facility and to facilitate the acquisition of this material by the Respondent's single customer for this drug. The Respondent agreed to pay, and has paid, a civil penalty in the sum of $25,000.00 in settlement of the civil action in New Jersey. Additional penalties are provided for if the Respondent fails to dispose of its entire inventory of methaqualone within the allotted time.

The Administrator finds that settlement of this matter, according to the terms agreed upon by the parties, is in the public interest. The record clearly establishes that adequate grounds for the denial of the Respondent's application to manufacture methaqualone exist. Furthermore, the Administrator is confident that the Respondent has taken, and will in the future take, all necessary measures to prevent the diversion of controlled substances into other than legitimate medical, scientific and industrial channels. The Congress, in enacting the Controlled Substances Act, has mandated that all handlers of controlled substances do so under conditions designed to prevent the diversion of these substances into illicit channels. The requirements relating to manufacturers, such as the Respondent, are particularly stringent because of the extremely large quantities of dangerous drugs they handle. The vast majority of manufacturers and other commercial registrants take their responsibilities under the law very seriously. The casual disregard of these responsibilities, by a registrant, cannot, and will not, be tolerated.

Accordingly, under the authority vested in the Attorney General by Sections 303(a) and 303(d) of the Controlled Substances Act, 21 U.S.C. 823(a) and 823(d), the Administrator hereby denies the application of Ganes Chemicals, Inc., to be a bulk manufacturer of methaqualone. In all other respects, the Order to Show Cause

of March 25, 1980, is withdrawn. The Respondent's applications to be registered as a manufacturer of various controlled substances other than methaqualone will be processed and, in due course, issued. Until such processing is completed, the Respondent remains appropriately registered pursuant to the provisions of 21 CFR 1301.47. This order is effective upon execution by the Administrator.

Dated: March 13, 1981.

Peter B. Bensinger,

Administrator, Drug Enforcement Administration.

BILLING CODE 4410-09-M

National Institute of Justice

Efficient Use of Police Resources; Solicitation

The National Institute of Justice plans to initiate a program of research to investigate alternative means of utilizing State and local police agency resources to develop policies, programs or actions that would increase the efficiency and/or productivity of police departments given austere budget environments. This research is prompted by the current situation surrounding the police agency which is placing unusual demands on police resources. There is increasing pressure from the public for governmental fiscal restraint while at the same time Federal aid to police agencies is decreasing. But high crime levels persist and the public continues its demand for more and improved police service. This situation of diminishing resources and rising service demands present police administrators and the police research community new challenges to investigate more efficient alternatives to current police methods and operations.

The solicitation, entitled "Research on Efficient Use of Police Resources" asks for the submission of preliminary proposals rather than concept papers or full proposals. The selection of the final applicants will be determined by a peer review panel process in accordance with the criteria set forth in the solicitation. In order to be considered, all submissions must be postmarked no later than June 1, 1981. Two or more grants or cooperative agreements are planned for award in September 1981 with total funding support not to exceed $200,000 and a time period of 12–18 months in duration. To maximize competition for this award, both profit-making and non-profit organizations are eligible.

Copies of the solicitation may be obtained by sending a mailing label to: Solicitation Request, "Research on Efficient Use of Police Resources", National Criminal Justice Reference Service, Box 6000, Rockville, Maryland 20850.

Further information regarding the solicitation can be obtained by contacting George Shollenberger or Joseph Kochanski, Office of Research Programs, National Institute of Justice, 633 Indiana Avenue, N.W., Washington, D.C. 20531 (301/492–9110).

Dated: March 3, 1981.

Approved:

Harry Bratt,

Acting Director, National Institute of Justice.

[FR Doc. 81-8681 Filed 3-18-81; 8:45 am]

BILLING CODE 4410-18-M

Fiscal Year 1981 Research Solicitations

During fiscal year 1981, the National Institute of Justice plans to fund research in the following areas:

Victim Responses to Violent Crime—an analysis of victimization data to explore the effects of victims' resistance or non-resistance to such crimes as robbery, rape, mugging and other criminal violence.

**The Role and Impact of Police Collective Bargaining*—a study of the effects of collective bargaining on police administration and operations, focusing on the experience of the last decade. Deadline for proposals is April 30, 1981.

Efficient Use of Police Resources—an open solicitation that will invite proposals that investigate approaches for increasing police efficiency and productivity in a time of budget cutbacks.

Comparative Analysis of Various Dispute Resolution Programs—an assessment of the effectiveness of various approaches to developing and operating dispute resolution programs and the advantages and disadvantages of dispute resolution compared to traditional court processing.

**Methods for Alleviating Racial Tensions in Prisons*—an open solicitation for research that focuses on improving techniques for managing institutions where racial tensions are high and the potential for racial conflict exists. Deadline for proposals is April 14, 1981.

**Critical Issues Relating to the Operations and Use of Jails (Jail Research)*—an open solicitation for research that can yield empirically-derived knowledge about the role of jails and their impact. Deadline for proposals is April 20, 1981.

Synthesis of Research on Neighborhood Crime Prevention—a grant that will synthesize and assess research on informal social control processes in neighborhoods, describe the current state of knowledge and areas where new information is needed, and draw implications for citizen crime prevention activities.

Evaluation of the Differential Police Response Field Test—an assessment of an NIJ-sponsored field experiment that is testing the feasibility and utility of a system of alternative responses to non-emergency calls for police service.

**Unsolicited Research Program*—grants in the $10,000 to $120,000 range for creative approaches to justice research issues. Deadline for proposals is June 30, 1981.

Programs marked with an asterisk have already been announced in the **Federal Register**; other solicitations will be announced as issued. Additional topics for research may also be announced in future months. All prospective applicants must obtain a copy of the full solicitation before submitting proposals. Readers interested in receiving a copy of a particular program announcement should write to: *National Criminal Justice Reference Service, Box 6000, Rockville, Maryland 20850.* Please specify the title of the announcement.

Dated: March 10, 1981.

Harry M. Bratt,

Acting Director, National Institute of Justice.

METRIC BOARD

American National Metric Council Instrument Sector Conversion Plan Available For Public Comment

The United States Metric Board (USMB) was established by the Metric Conversion Act of 1975 (Pub. L. 94–168) to coordinate the voluntary increasing use of the metric system. Section 6(3) of that Act directs the USMB to keep interested parties informed and to encourage broad participation in private sector metric conversion planning activities. That is the purpose of this notice.

At the request of the American National Metric Council (ANMC) the USMB is announcing the availability for public comment of the third and final draft of the Instrument Sector Metric Conversion Plan which was developed under the auspices of the ANMC. ANMC is a private, nonprofit organization acting as a principal representative of the private sector in formulating and coordinating industrywide metric conversion plans.

The ANMC Instrument Plan has been under development for a period of four years by a group of company and trade association representatives. During that period, the plan has been available for public comment on two previous occasions.

In the event that the USMB is called upon to review this plan the record of public review and comment will be carefully examined. Therefore the Board urges the public to avail itself of this final opportunity to participate in the development of this important industry plan. Comments on the plan may be made in writing to ANMC on or before June 15, 1981.

Additional information or copies of the Instrument Sector Metric Conversion Plan may be obtained by contacting: Instrument Sector Program Manager, American National Metric Council, 1625 Massachusetts Avenue, NW., Washington, D.C. 20036. Telephone (202) 232–4545.

Dated: March 12, 1981.

Malcolm E. O'Hagan,

Executive Director, United States Metric Board.

BILLING CODE 6820-84-M

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Humanities Panel; Meeting

AGENCY: National Foundation on the Arts and the Humanities.

ACTION: Notice of meeting.

SUMMARY: Pursuant to the provision of the Federal Advisory Committee Act (Pub. L. 92–463, as amended), notice is hereby given that the following meeting of the Humanities Panel will be held at 806 15th Street, N.W., Washington, D.C. 20506:

Date: April 16–17, 1981.
Time: 9:00 a.m. to 5:30 p.m.
Room: 1134.
Program: This meeting will review applications submitted for General Research Program: Research Conferences Panel Division of Research Programs, for projects beginning after June 1, 1981.

The proposed meeting is for the purpose of Panel review, discussion, evaluation and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. Because the proposed meeting will consider information that is likely to disclose.

(1) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(2) Information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; and

(3) Information the disclosure of which would significantly frustrate implementation of proposed agency action;

pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated January 15, 1978, I have determined that this meeting will be closed to the public pursuant to subsections (c)(4), (6) and (9)(B) of section 552b of Title 5, Untied States Code.

Further information about this meeting can be obtained form Mr. Stephen J. McCleary, Advisory Committee Management Officer, National Endowment for the Humanities, Washington, D.C. 20506, or call (202) 724–0367.

Stephen J. McCleary,

Advisory Committee Management Officer.

BILLING CODE 7536-01-M

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 81-12]

Reports, Recommendations and Responses; Availability

Aircraft Accident Report—Scenic Airlines, Inc., Cessna 404, N2683S, Near Grand Canyon National Park Airport, Tusayan, Arizona, July 21, 1980 (NTSB–AAR–81–2).—The National Transportation Safety Board's investigation showed that the Cessna, on a VFR commuter flight to Phoenix, Ariz., crashed approximately 3 miles after takeoff from Tusayan. The aircraft cut a swath through densely wooded area on a magnetic heading of 165° and came to rest upright about 230 feet from the initial point of impact with trees. The pilot and the seven passengers died as a result of the accident.

The Safety Board determined that the probable cause of the accident was a substantial loss of power from the left engine at a critical point in the takeoff and the failure of the pilot to establish a minimum drag configuration which degraded the marginal single-engine climb performance of the aircraft. The loss of power resulted from seizure of the turbocharger following progressive failure of the turbine wheel blades initiated by foreign object ingestion which had occurred previous to this flight and was not detected during maintenance on the engine 4 days before the accident.

As a result of this investigation, the Safety Board reiterated recommendation A–79–80, issued to the Federal Aviation Administration on October 17, 1979 (44 FR 61477, October 25, 1979), and reiterated recommendations A–80–90 through –95, issued last September 9 as a result of Board study on general aviation accidents involving postcrash fires between 1974 and 1978 (45 FR 62233, September 18, 1980).

Safety Effectiveness Evaluation of Rail Rapid Transit Safety NTSB–SEE–81–1).—The Safety Board reports on the public hearing which it held last July 28 and 29, during which 25 witnesses testified on fire safety issues, emergency evacuation from rail rapid transit systems and safety oversight of transit systems. The Board examined fire safety issues involving transit car design; emergency exit from cars; emergency tunnel ventilation; evacuation from tunnels; emergency procedures including training, drilling, and testing; emergency communications, equipment, and mobility; and local/State/Federal safety oversight of rail rapid transit properties.

Based on the findings of this evaluation, the Safety Board on February 11 made the following recommendations:

—to the Secretary of Transportation:

Propose legislation to explicitly authorize the Secretary of Transportation to regulate the safety of rail rapid transit systems which receive Federal financial assistance. Such legislation should include the authority to establish Federal minimum safety standards, to enforce compliance, to conduct inspections, to conduct investigations of accidents and incidents, and such other general powers and duties as are necessary to provide for effective safety oversight. (R-81-1)

Pending the enactment of legislation conferring direct regulatory authority, require the Urban Mass Transportation Administration to establish Federal guidelines for equipment and operations, to aggressively utilize existing grant programs and investigative authority to promote conformance with Federal guidelines, and to conduct a program of substantially increased safety oversight of Federal assisted rail rapid transit systems. (R-81-2)

—to the Urban Mass Transportation Administration:

In cooperation with rail rapid transit authorities and local fire officials, immediately survey the facilities, communication systems, fire safety and other emergency equipment, and emergency plans of existing rail rapid transit systems to determine their capability for evacuation of passengers under various operational and passenger load conditions. (R-81-3)

Establish procedures to consult organizations, such as the United States Fire Administration, the International Association of Fire Chiefs, the International Association of Fire Fighters, the National Fire Protection Association, and employee unions, as apporpriate, in addition to the American Public Transit Association and individual transit properties, in developing Federal guidelines for car and tunnel design, safety equipment requirements, training programs (including emergency response) and other appropriate safety areas. (R-81-4)

Make appropriate organizational changes to provide for more direct consideration of safety issues in the formulation of the Administration's rail rapid transit policies and priorities. (R-81-5)

Establish, on a priority basis, Federal guidelines for the elimination or minimization of combustible and toxic gas and smoke-generating materials in existing rail rapid transit cars. Wherever possible, adherence to these guidelines should be made mandatory as a condition of Federal financial assistance. (R-81-6)

In cooperation with rail rapid transit authorities and local fire officials, assess the need for modification or retrofit of existing rail rapid transit cars to reduce the potential for the exposure of combustible or toxic materials to fire. (R-81-7)

Include in Federal financial assistance to rail rapid transit systems and ability to provide funding for acquisition of emergency equipment and for periodic inspection, maintenance, and testing of such equipment after it is installed. (R-81-8)

Develop and publish for public comment a comprehensive, 5-year safety program plan for increased safety oversight of new rail rapid transit systems as they are developed and for improving the safety of existing systems. (R-81-9)

Develop and publish for public comment a comprehensive, 5-year plan for rail rapid transit safety research and development. (R-81-10)

Establish a process, based upon testing and evaluation in accordance with such criteria as the Administration shall establish, for the certification or identification of specific products and materials used in the construction of rail rapid transit cars as meeting minimum safety standards or guidelines, and provide this information to rail rapid transit authorities on a regular basis. (R-81-11)

Develop and publish for public comment a formal plan for the review, evaluation, and certification of rail rapid transit system safety plans. (R-81-12)

Establish a fire safety research and testing program to assess the combustibility and toxic gas and smoke generation of materials used in the construction of rail rapid transit cars and to evaluate the fire safety of rail rapid transit cars through full-scale testing. (R-81-13)

Offer to assist and cooperate with the United States Fire Administration in its development of a national training curriculum for fire service personnel involved in the administration of fire protection on rail rapid transit systems. (R-81-14)

Develop Federal guidelines for training programs for rail rapid transit employees, to include actual performance, under simulated conditions, of the duties they may be required to perform in the event of a fire or other emergency. (R-81-15)

Conduct research to determine the most effective means of informing rail rapid transit passengers of the actions to be taken in the event of an emergency, the location of emergency equipment, and the means of operating vehicle exit doors, and promulgate Federal guidelines. (R-81-16)

Study and evaluate the need for fire suppression systems on new rail rapid transit vehicles and conduct research and development, and develop and promulgate Federal guidelines if so indicated. (R-81-17)

Require rail rapid transit authorities to have a formal, continuing process for including local fire and emergency medical service officials in reviews of fire and life safety considerations during system planning, design, construction, and operation. (R-81-18)

Include local fire and emergency response services in onsite reviews performed by the Administration of new and existing rail rapid transit systems. (R-81-19)

Until such time as comprehensive, formal safety standards have been established for rail rapid transit, publish an annual report assessing the degree of conformance or nonconformance of rail rapid transit systems with each Federal safety guideline established by the Administration. (R-81-20)

—to the United States Fire Administration:

Offer to assist and cooperate with the Urban Mass Transportation Administration in its development of rail rapid transit system training program guidelines which address fire safety concerns, such as tunnel rescue in a smoke and/or fire environment. (R-81-21)

In consultation with the Urban Mass Transportation Administration, develop a national training curriculum for fire service personnel involved in the administration of fire protection on rail rapid transit systems. (R-81-22)

—to the International Association of Fire Chiefs:

Offer to assist and cooperate with the Urban Mass Transportation Administration in its development of rail rapid transit system training program guidelines which address fire safety concerns, such as tunnel rescue in a smoke and/ or fire environment. (R-81-23)

Offer to assist and cooperate with the United States Fire Administration in its development of a national training curriculum for fire service personnel involved in the administration of fire protection on rail rapid transit systems. (R-81-24)

Offer to assist and cooperate with the Urban Mass Transportation Administration in its determination of minimum fire safety equipment needs of rail rapid transit systems. (R-81-25)

—to the International Association of Firefighters:

Offer to assist and cooperate with the Urban Mass Transportation Administration in its development of rail rapid transit system training program guidelines which address fire safety concerns, such as tunnel rescue in a smoke and/or fire environment. (R-81-26)

Offer to assist and cooperate with the United States Fire Administration in its development of a national training curriculum for fire service personnel involved in the administration of fire protection on rail rapid transit systems. (R-81-27)

—to the National Fire Protection Association:

Offer to assist and cooperate with the Urban Mass Transportation Administration in its determination of minimum fire safety equipment needs of rail rapid transit systems. (R-81-28)

—to the International Transport Workers Union of America, AFL-CIO:

Offer to assist and cooperate with the Urban Mass Transportation Administration in its determination of minimum training and equipment needs to improve the ability of rail rapid transit employees to respond to emergencies (including smoke and/or fire conditions) in transit environments. (R-81-29)

—to the Amalgamated Transit Union:

Offer to assist and cooperate with the Urban Mass Transportation Administration in its determination of minimum training and equipment needs to improve the ability of rail rapid transit employees to respond to emergencies (including smoke and/or fire conditions) in transit environments. (R-81-30)

—to the American Public Transit Association:

Encourage and facilitate participation by organizations having related safety interests in safety meetings and other safety activities of the Association. (R–81–31)

Recommendations R–81–3 and R–81–9 are designated "Class I, Urgent Action." All other of the above recommendations are designated "Class II, Priority Action."

Safety Board Member Patricia A. Goldman, in a separate concurring and dissenting statement appearing in the report, contends that (1) mandatory Federal standards or regulations are not essential to achieve the desired level of safety; (2) increases safety oversight should not be entirely a Federal responsibility; (3) the historical lack of effective Federal safety oversight is based more on philosophy and lack of resources than on deficient legal authority, therefore R–81–1 is not justified at this time; and (4) R–81–21 through –30 are redundant of other recommendations and should not be issued to the addressees, since these organizations have already pledged their support.

Responses to Safety Recommendations

A–80–35, from the Federal Aviation Administration, February 26, 1981.—Response supplements FAA's letter of last August 6 [45 FR 55678, August 21, 1980) regarding recommendation stemming from the September 19, 1978, incident at Washington (D.C.) National Airport involving a Piper aircraft, Model PA–31–350. While the aircraft was being taxied, the nose gear assembly collapsed.

FAA provides a copy of a proposal to adopt an airworthiness directive to require inspection of the nose wheel and replacement of wheels found with cracks on certain Piper models PA–31, PA–31–325, and PA–31–350 airplanes (Docket No. 80–SO–78). Also, FAA has recommended to Piper Lakeland that a production change be instituted to make available a preferred spare Cleveland Nose Wheel P/N 40–140 or an equivalent wheel supplied by any other wheel manufacturer. The P/FN 40–140 wheel is more rugged and should provide longer life, and was developed as a replacement for the P/N 40–120a covered by the AD and approved by Piper Lock Haven for the PA–31T.

A–80–139 and –140, from the National Oceanic and Atmospheric Administration, February 27, 1981.—Response is to recommendations issued January 5 following investigation of the crash last June 12 near Valley, Nebr., of an Air Wisconsin Swearingen SA–226 Metro (46 FR 7113, January 22, 1981).

Re A–80–139, NOAA believes that present criteria for issuing Center Weather Advisories (CWA's) are satisfactory. The Weather Service Operations Manual, Chapter D–25, "Support to Air Traffic Facilities," describes three circumstances in which a Center Weather Service Unit meteorologist will issue a CWA.

Re A–80–140, NOAA notes that Severe Weather Warnings are not intended for inflight operations. Their effectiveness would be minimal to the highly mobile aviation user, since none of their navigational aids contain the local references used in Warnings. Pilots, and even controllers, are also unlikely to be familiar with all of these references. Thus, the relay of Warnings as suggested by A–80–140 would not enhance the accuracy or detail of weather intelligence available to the aviation community.

H–77–31, from the Chicago Rock Island and Pacific Railroad Company, March 3, 1981.—Response is to Safety Board inquiry of February 9, 1981, seeking information as to implementation of this recommendation, issued following investigation of the July 1, 1976, railroad/highway grade crossing accident at Des Moines, Iowa (42 FR 60237, November 25, 1977). The recommendation suggested a modification of the approach track circuit at the crossing where the accident occurred. The response indicates that the crossing signal apparatus at Northeast 56th Street was updated in March 1979 from conventional track circuits to Safetran 500 motion sensors and termination shunts.

M–79–112 and –113, from the U.S. Coast Guard, February 26, 1981.—Refers to the Board's comments of last May 21 on Coast Guard's initial response dated March 13, 1980 (45 FR 26189, April 17, 1980). The recommendations stemmed from the collision of the *SS Sea-Land Venture* and the *M/T Nelly Maersk* in the Galveston inner bar channel, August 27, 1978.

Re M–79–112, Coast Guard agrees with the Board's comments in that meeting or overtaking at bends in the channel constitutes a higher risk than such maneuvers in straight sections of the channel, but is concerned that a single traffic management regulation may force pilots into even more hazardous maneuvers in order to maintain a reasonable traffic flow. Coast Guard notes that in certain situations, usually emergencies, the Houston-Galveston Vessel Traffic Service does recommend that vessels refrain from meeting and/or overtaking maneuvers, and when this VTS becomes mandatory, such maneuvers may be prohibited in emergencies.

Re M–79–113, Coast Guard continues to not concur, believing that no master, pilot, or watch officer should rely on helmsmen to keep him informed of the rudder's position. Although the recommended system is standard procedure for U.S. military seagoing services, Coast Guard finds no justification to impose this requirement on the civilian sector. A proposed amendment to SOLAS 74, requiring rudder angle and propeller RPM indicators to be readable from the conning position, has been approved by the IMCO Navigation Safety Subcommittee.

Note.—Single copies of Board reports are available without charge as long as limited supplies last. Copies of recommendation letters, responses and related correspondence are also free of charge. All requests must be in writing, identified by recommendation or report number. Address requests to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of Board reports may be purchased from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22161.

(49 U.S.C. 1903(a)(2), 1906)

Margaret L. Fisher,

Federal Register Liaison Officer.

BILLING CODE 4910–58–M

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards Subcommittee on La Salle County Station; Notice of Meeting

The ACRS Subcommittee on the La Salle County Station will hold a meeting on April 3 and 4, 1981 at the Holiday Inn, Route 47 at Interstate 80, Morris, IL to review the application of Commonwealth Edison Company for a license to operate Units 1 and 2 of the La Salle County Station.

In accordance with the procedures outlined in the Federal Register on October 7, 1980, (45 FR 66535), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made

to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance except for those sessions during which the Subcommittee finds it necessary to discuss proprietary and Industrial Security information. One or more closed sessions may be necessary to discuss such information. (Sunshine Act Exemption 4). To the extent practicable, these closed sessions will be held so as to minimize inconvenience to members of the public in attendance.

The agenda for subject meeting shall be as follows:

Friday, April 3, 1981—2:00 p.m. until the conclusion of business

Saturday, April 4, 1981—8:30 a.m. until the conclusion of business

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, will exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the Commonwealth Edison Company, NRC Staff, their consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Mr. Paul Boehnert (telephone 202/634-3267) between 8:15 a.m. and 5:00 p.m., EST.

I have determined, in accordance with Subsection 10(d) of the Federal Advisory Committee Act, that it may be necessary to close some portions of this meeting to protect proprietary and Industrial Security information. The authority for such closure is Exemption (4) to the Sunshine Act, 5 U.S.C. 552b(c)(4).

Dated: March 16, 1981.

John C. Hoyle,

Advisory Committee Management Officer.

BILLING CODE 7590-01-M

Receipt of Petition Concerning Financial Qualifications of Nuclear Power Plant Licensees; Request for Action

Notice is hereby given that by petition dated January 2, 1981, Mr. John Abbotts requested the Commission to order nuclear power plant licensees to show cause why their operating licenses and/or construction permits should not be revoked on the basis that these licensees have allegedly not demonstrated their ability to finance the costs which could result from serious nuclear plant accidents similar to that which occurred at the Three Mile Island Unit #2 nuclear power plant on March 28, 1979. This petition is being treated as a request for action under 10 CFR 2.206 of the Commission's regulations, and accordingly, action will be taken on the petition within a reasonable period of time.

Copies of the petition are available for inspection in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. 20555.

Dated at Bethesda, Maryland, this 12th day of March, 1981.

For the Nuclear Regulatory Commission.

Harold R. Denton,

Director, Office of Nuclear Reactor Regulation.

[Byproduct Material License No. 37-14600-01 EA-80-84]

Applied Health Physics, Inc.; Order to Modify License and Terminate Show Cause Order Dated December 8, 1980

I

Applied Health Physics, Inc., 2896 Industrial Boulevard, Bethel Park, Pennsylvania 15102 (the "licensee") is the holder of Byproduct Material License No. 37-14600-01 (the "license") issued by the Nuclear Regulatory Commission (the "Commission"). The license authorizes the company to receive and possess packages containing waste byproduct material for the purpose of transferring the packages to authorized land burial facilities. The license was issued on September 4, 1975, and was due to expire on August 31, 1980. The license continues in force on a timely renewal application.

II

As a result of the manner in which waste byproduct material was being handled at the licensee's facility, on December 8, 1980 the Director, Office of Inspection and Enforcement, issued an order to the licensee which limited the authority for possession of licensed material to the six (6) containers of transuranics currently in the licensee's possession, required disposal by immediate transfer to an authorized recipient of any other containers of radioactive material possessed by the licensee, prohibited any acquisition of additional licensed materials, and ordered the licensee to show cause why the requirements should not be made permanent.

The licensee responded by filing a written answer to the Order to Show Cause on January 27, 1981. The licensee set forth corrective measures for inspection and packaging of radioactive wastes, including revisions to its quality assurance program and guidelines for preparation of radioactive shipments. The licensee also described steps taken to improve the storage of licensed waste materials at its site. On the basis of an evaluation of the licensee's response, the Director, Office of Inspection and Enforcement, has determined that the specific plans, procedures and facility modifications if implemented as described by the licensee are adequate to enable the licensee to conduct future activities involving licensed material in compliance with Commission requirements. The Director has further determined that the public health, safety and interest requires that these commitments be made requirements effective immediately in lieu of the modifications ordered by the December 8, 1980 Order.

III

In view of the foregoing and pursuant to section 161(b) of the Atomic Energy Act of 1954, as amended, and the regulations in 10 CFR Parts 2, 20 and 30, *it is hereby ordered, effective immediately, that:*

A. (1) The Order to Show Cause Why Such Modifications Should Not Be Made Permanent dated December 8, 1980 is terminated.

(2) Conditions 1, 2 and 3 imposed by Order to Modify License (Effective Immediately) dated December 8, 1980 are deleted.

B. License No. 37-14600-01 is amended to incorporate as requirements the statements made by the licensee in his letter dated January 27, 1981 "response to Show Cause Order dated December 8, 1980." This amendment will remain in effect until a new license is issued pursuant to licensee's renewal application dated July 29, 1980.

IV

Any person who has an interest affected by this Order may request a hearing on this Order within 25 days of its issuance. A request for hearing shall be submitted to the Director, Office of Inspection and Enforcement, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. A copy of the request also shall be sent to the

Executive Legal Director at the same address. If a hearing is requested by a person other than the licensee, that person shall describe, in accordance with 10 CFR 2.714(a)(2), the nature of the person's interest and the manner in which that interest is affected by this Order. *Any request for a hearing shall not stay the effectiveness of this order.*

If a hearing is requested by a person who has an interest affected by this Order, the Commission will issue an order designating the time and place of any such hearing. If a hearing is held, the issue to be considered at such hearing shall be:

Whether, on the basis of the matters set forth in section II of this Order, License No. 37–14600–01 should be modified as set forth in section III.B of this Order.

Dated: March 9, 1981.

For the Nuclear Regulatory Commission.

Victor Stello, Jr.,

Director, Office of Inspection and Enforcement.

[FR Doc. 81-8614 Filed 3-18-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket No. 50–313]

Arkansas Power & Light Co.; Notice of Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 52 to Facility Operating License No. DPR–51, issued to Arkansas Power and Light Company (the licensee), which revised the Technical Specifications for operation of Arkansas Nuclear One, Unit No. 1 (the facility) located in Pope County, Arkansas. The amendment is effective as of the date of issuance.

The amendment modifies the Technical Specifications to support operation at full rated power during Cycle 5.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4), and environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated January 30, 1981 as supplemented February 12 and 26, 1981, (2) Amendment No. 52 to License No. DPR–51, and (3) the Commission's related Safety Evaluation. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Arkansas Polytechnic College, Russelville, Arkansas. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 9th day of March 1981.

For the Nuclear Regulatory Commission.

John F. Stolz,

Chief, Operating Reactors Branch No. 4, Division of Licensing.

[FR Doc. 81-8615 Filed 3-18-81; 8:45 am]

BILLING CODE 7590-01-M

[Byproduct Material License No. 37–00611–09 EA 81–25]

Automation Industries, Inc.; Order

I

Automation Industries, Inc., Nuclear Encapsulation Facility, Kimberton Road, Route 113 South, Phoenixville, Pennsylvania 19460 (the "licensee") is the holder of Byproduct Material License No. 37–00611–09 (the "license") issued by the Nuclear Regulatory Commission (the "commission"). The license authorizes the company to fabricate, test, store and distribute sealed sources of irridium-192 for use in industrial radiography and to test, store and distribute sealed sources of cobalt-60 for the same use. The license was originally issued October 4, 1966 and has been renewed periodically, most recently on October 3, 1978. The license expires on October 31, 1983.

II

As a result of the manner in which licensed material was used at the licensee's facility, an Order Suspending License and an Order To Show Cause Why The Suspension Should Not Be Continued, Pending Further Order was issued on February 17, 1981 to the licensee.

The licensee responded by filing a written answer dated February 27, 1981 to the Order Suspending License and Order to Show Cause Why the Suspension Should Not Be Continued, Pending Further Order. In this answer, the licensee described changes in the management of the facility and its radiation safety program, which together with procedural changes, were intended to assure adequate control of the operation of the facility. After a careful review of the licensee's February 27, 1981 response, it was determined that the proposed corrective procedures (1.a-1.g.) appear to be adequate to assure sufficient management control of the licensee's byproduct materials program and that these commitments should be made temporary requirements and formalized by Order pending approval of an amendment finalizing these procedures. Further information and specific details may be required prior to issuance of this amendment. Accordingly, the director, Office of Inspection and Enforcement, has determined that the February 17, 1981 Suspension Order should be terminated and that the actions Ordered in Section III are required by the public health, safety and interest.

III

In view of the foregoing and pursuant to Sections 81 and 161(b) of the Atomic Energy Act of 1954, as amended, and the regulations in 10 CFR Parts 2 and 30, *it is hereby ordered, effective immediately, that:*

A. (1) The February 17, 1981 order to Show Cause Why The Suspension of The License Should Not Be Continued, Pending Further Order, is terminated.

(2) The February 17, 1981 Order Suspending License is rescinded.

B. License No. 37–00611–09 is amended temporarily to incorporate as requirements the procedures submitted in the licensee's February 27, 1981 "Answer to Order Suspending License and to Show Cause Why The Suspension of the License Should Not Be Continued, Pending Further Order." This amendment will remain in effect until the licensee submits an amendment application and the amendment finalizing these procedures is issued. The amendment application shall be submitted no later than March 20, 1981.

IV

Any person who has an interest affected by this Order may request a hearing on this Order within 25 days of its issuance. A request for hearing shall be submitted to the Director, Office of Inspection and Enforcement, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Copies of the request shall also be sent to the Secretary of the Commission and The

Executive Legal Director at the same address. If a hearing is requested by a person other than the licensee, that person shall describe, in accordance with 10 CFR 2.714(a)(2), the nature of the person's interest and the manner in which that interest is affected by this Order. *Any request for a hearing shall not stay the immediate effectiveness of this order.*

If a hearing is requested by a person who has an interest affected by this Order, the Commission will issue an order designating the time and place of any such hearing. If a hearing is held, the issue to be considered at such hearing shall be:

Whether License No. 37-00611-09 should be modified as set forth in section IIIB of this Order.

Dated at Bethesda, Maryland this 6th day of March 1981.

For the Nuclear Regulatory Commission.

Victor Stello, Jr.,

Director, Office of Inspection and Enforcement.

[FR Doc. 81-8116 Filed 3-18-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 50-373 and 50-374]

Commonwealth Edison Co.; Availability of Safety Evaluation Report for La Salle County Station, Units 1 and 2

Notice is hereby given that the Office of Nuclear Reactor Regulation has published its Safety Evaluation Report on the proposed operation of the La Salle County Station, Units 1 and 2, to be located in Brookfield Township, La Salle County, Illinois. Notice of receipt of the application for facility operating licenses submitted by the Commonwealth Edison Company was published in the **Federal Register** on June 9, 1977 (42 FR 29576).

The report is being referred to the Advisory Committee on Reactor Safeguards and is being made available at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555, and at the Illinois Valley Community College, Rural Route #1, Oglesby, Illinois 16348 for inspection and copying. The report (Document No. NUREG-0519) can also be purchased, at current rates, from the National Technical Information Service, Department of Commerce, 5285 Port Royal Road, Springfield, Virginia 22161.

Dated at Bethesda, Maryland this 13th day of March 1981.

For the Nuclear Regulatory Commission.

B. J. Youngblood,

Chief, Licensing Branch No. 1, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-255, License No. DPR-20, EA 81-16]

Consumers Power Co. (Palisades Nuclear Power Facility); Order Confirming Licensee Actions To Upgrade Facility Performance

I

The Consumers Power Company (the "licensee") is the holder of Provisional Operating License No. DPR-20 (the "license") which authorizes the operation of the Palisades Nuclear Power Facility (the "facility") at a steady state reactor core power level not in excess of 2,530 megawatts thermal (rated power). The license was issued for less than full power levels on March 24 and November 20, 1971 and September 1, 1972 and for full power on October 16, 1972. The facility, a pressurized light water moderated and cooled reactor (PWR), is located at the licensee's site in Covert Township, Van Buren County, Michigan.

II

Over the past several years, this facility has been cited for a number of violations of regulatory requirements. The items for each year from 1975 through 1980 are shown in the attachment to this Order. As part of the NRC's Systematic Appraisal of Licensee's Performance (SALP), a meeting was held with licensee management on November 24, 1980 to discuss the results of the appraisal for the period September 1, 1979 to September 1, 1980. Inspections conducted during this period disclosed a total of 41 items of noncompliance.

Escalated enforcement action was taken on two occasions. On one occasion, November 9, 1979, an order modifying the license was issued and a civil penalty of $450,000 was proposed for a continuing violation of containment integrity and related procedural violations. The civil penalty action is being contested by the licensee, though the licensee has admitted the underlying procedural violations. On the other occasion, September 16, 1980, a $16,000 civil penalty was proposed (which was subsequently paid by the licensee) for two separate events relating to personnel errors which involved misvalving safety-related equipment. As a result of these findings, the licensee's performance in the area of reactor operations and radiation protection was rated "below average" as compared to other Region III licensees. In summarizing the licensee's regulatory performance the SALP report stated, "There are recent indications of some improvements in regulatory performance, but it is too soon to draw meaningful conclusions. If regulatory performance does not show improvement, additional escalated enforcement action will be taken."

III

On January 6, 1981, an electrical repairman did not follow procedures when conducting a surveillance test. This caused the two 125-volt battery banks to be isolated in violation of the Limiting Condition for Operation in Technical Specification 3.7.1.f. Had there been a loss of offsite power, there might not have been power available for operation of safety-related equipment at the plant. This condition existed for one hour while the plant was operating. Short-term corrective actions were addressed in an Immediate Action Letter, dated January 9, 1981, to the licensee from the NRC Region III office.

IV

The recent personnel error described in Section III, when evaluated with the undesirable level of regulatory performance as discussed in Section II, indicates that major changes in the licensee's management controls are necessary to assure that the licensee can operate the Palisades facility without undue risk to the health and safety of the public. At the request of the licensee, representatives of Region III and the licensee's management met on February 18, 1981. The licensee presented a planned program of intended actions to assure that the Palisades facility will operate without undue risk to the health and safety of the public while major, long-term actions are implemented to upgrade the facility performance. The Region III representatives emphasized that it is essential that broad, significant changes in the licensee's control of licensed activities accompany long-term operation of the facility. Region III representatives cautioned the licensee that these changes must be carried out in a timely fashion without adversely impacting the safety of near-term operations. In a letter to Region III dated February 23, 1981, and in a telephone conservation on March 3, 1981, between Mr. R. F. Heishman of the NRC Region III office and Mr. D. F. Hoffman of the

licensee's corporate staff, the licensee provided additional commitments related to short- and long-term improvements in the quality of operations at the Palisades facility.

Because the licensee has committed to take actions listed in the Immediate Action Letter of January 9, 1981, which are confirmed in a clarified and revised form in Section V.A of this Order, and because the licensee has committed to other supplemental actions, as confirmed in Sections V.B and C of this Order, there is reasonable assurance that the Palisades facility can be operated safely in the near-term. However, continued operation over the long-term requires significant changes in the licensee's control of licensed activities, as described and confirmed in Section V.D of this Order. Accordingly, I have determined that these commitments are required in the interest of public health and safety and, therefore, should be confirmed by an immediately effective order.

V

In view of the foregoing, pursuant to Section 161(i) of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Part 2 and 10 CFR Part 50, it is hereby ordered effective immediately that:

A. The licensee shall continue to operate under the following provisions which are a clarified and revised form of the provisions of the Immediate Action Letter issued January 9, 1981:

1. The licensee shall conduct an audit of plant operations daily by a corporate management representative. This representative may be any Consumers Power Company employee from within the Energy Supply Department holding at least the title of Staff Engineer or its equivalent.

2. A committee comprised of a member of corporate management (in addition to the corporate representative referenced in item 1 above), a Senior Reactor Operator, and another qualified individual shall review, prior to use, all Technical Specification surveillance procedures to assure that:

a. Each procedure is specifically identified as being safety-related, or as having the potential to affect safety-related equipment;

b. Authorization to perform work is required from plant management;

c. Special notification of work performed is made to the Shift Supervisor;

d. System conditions to perform work are defined;

e. Minimum personnel skill-level is defined; and

f. Return-to-normal verification requirements are specified.

Credit can be taken for the review performed in response to the NRC's November 9, 1979 Order.

3. The licensee shall reinstruct all personnel who perform safety-related work or other work in vital areas of the importance of strict adherence to procedures and the necessity for performance of all assigned duties in a disciplined and professional manner.

4. The licensee shall verify by a second qualified individual, that all activities involving the manipulation of safety-related circuits or systems outside the control room have been completed as required. Qualified individuals will be designated by the Plant General Manager for the specific tasks.

5. The licensee shall review the specific circuitry involved in the January 6, 1981 event to determine if control room indications are required to show when an abnormal line-up exists. Necessary circuit modifications will be performed on a schedule to be agreed to by Region III of the NRC.

The Director of Region III may relax or terminate any of the preceding conditions in writing for good cause.

B. Extended overtime on the part of licensed operators shall be avoided by restricting the overtime for licensed operators as follows:

(1) No more than 4 overtime hours in any 24-hour period;

(2) No more than 24 overtime hours in any 7-day period;

(3) No more than 64 overtime hours in any 28-day period;

The Director of Region III may relax or terminate any of the preceding conditions in writing for good cause.

C. A corporate review team shall perform independent reviews of safety-related events which are reportable as Licensee Event Reports per Technical Specification 6.9 and which are caused by personnel errors or procedural inadequacies. The review team shall be chaired by the Chairman of the Safety and Audit Review Board. Serving on the review team shall be one member, holding at least the title of Staff Engineer or its equivalent, from each of the following departments: Quality Assurance—Nuclear operations; Nuclear Services Department; and Nuclear Activities Department.

These members and their replacements shall be selected such that the team shall have experience and expertise in quality assurance, plant operations and plant systems.

For each occurence reviewed, the team shall recommend to the Palisades Plant General Manager and the Vice President for Nuclear Operations appropriate corrective actions to prevent recurrence.

The director of Region III may relax or terminate any of the preceding conditions in writing for good cause.

D. the licensee shall submit to the Director of Region III of the NRC, within 30 days of this Order, a comprehensive pain of action that will ensure sufficient controls will be implemented to prevent recurrence of valving and system misalignments and other operational errors similar to those set forth in Sections II and III above. The plan shall include a description of the actions to be taken, required impelmenting staff and their qualifications, documentation requirements, and the plan's schedule with important milestones. The milestones shall not be changed without prior written approval by the Director of Region III. The plan shall include at least the elements itemized below.

1. An independent outside consultant hired by the licensee shall evaluate current organizational responsibilities, management controls, staffing levels and competence, training and retraining programs, communications, and operating practices both at the facility and the corporate office. This consultant shall be directed to make recommendations for changes in the aforementioned areas that will assist the licensee in meeting NRC requirements. The licensee shall submit a copy of the independent evaluation to the Director of Region III.

2. The licensee shall review, evaluate and modify, as necessary, presently approved safety/related procedures and the process used in the development and approval of these procedures to ensure that prerequisites, precautions and limitations necessary to safe operation of the facility are included.

3. The licensee shall review, evaluate and modify, as necessary, the program for training and retraining of personnel (licensed and unlicensed) involved in safety/related activities in vital areas to ensure that the program adequately addresses these activities.

4. The licensee shall review and evaluate the adequacy of the current plant operations staff, including licensed operators and senior operators, to safely perform the necessary plant operation functions.

5. The licensee shall establish measures, including incentives and disciplinary action, to motivate personnel adherence to administrative controls and safety/related procedures.

6. The licensee shall develop and implement a system of audits by management representatives aimed at

assuring conformance to procedures and continued adherence to changes which result from the reviews identified in items V.D.1 through V.D.4 above.

VI

Any person who has an interest affected by this Order may request a hearing on this Order within 25 days of its issuance. A request for a hearing shall be submitted to the Secretary, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. A copy of the request shall also be sent to the Executive Legal Director at the same address.If a hearing is requested by a person other than the licensee, that person shall describe in accordance with 10 CFR 2.714(a)(2) the nature of the person's interest and the manner in which that interest is affected by this Order. Any request for a hearing shall not stay the immediate effectiveness of this Order.

If a hearing is requested by a person who has an interest affected by this Order, the Commission will issue an order designating the time and place of any such hearing. If a hearing is held, the issue to be considered at such hearing shall be:

Whether, on the basis of the matters set forth in Sections II and III of this Order, this Order should be sustained.

In the event that a need for further inforcement action becomes apparent, either in the course of a hearing or any other time, appropriate action will be taken by the Director.

Effective date: March 9, 1981, Bethesda, Maryland.

For the Nuclear Regulatory Commission.

Victor Stello, Jr.,

Director, Office of Inspection and Enforcement.

BILLING CODE 7590-01-M

[Docket No. 50-366]

Georgia Power Co., et al.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 23 to Facility Operating License No. NPF-5, issued to Georgia Power Company, Oglethrope Power Corporation, Municipal Electric Authority of Georgia, and City of Dalton, Georgia, which revised the license and Technical Specifications for operation of the Edwin I. Hatch Nuclear Plant Unit No. 2 (the facility) located in Appling County, Georgia. The amendment is effective as of its date of issuance.

This amendment deletes a satisfied license condition and revises the Technical Specifications to add Limiting Conditions for Operation and Surveillance Requirements for the system to monitor the output of the power supply for the Reactor Protection System. This amendment also corrects an identified deficiency in the specifications for the AC inverter associated with the Low Pressure Injection System.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated October 15, 1980, as supplemented November 11, 1980, (2) Amendment No. 23 to License No. NPF-5, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Appling County Public Library, Parker Street, Baxley, Georgia 31513. A copy of items (2) and (3) may be obtained upon request addressd to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 6th day of March 1981.

For the Nuclear Regulatory Commission.

Robert W. Reid,

Chief, Operating Reactors Branch No. 4, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-309]

Maine Yankee Atomic Power Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 54 to Facility Operating License No. DPR-36, issued to Maine Yankee Atomic Power Company, which revised Technical Specifications for operation of the Maine Yankee Atomic Power Station (the facility) located in Lincoln County, Maine. The amendment is effective as of the date of issuance.

The amendment consists of additions to the Technical Specifications to provide greater assurance that redundancy in decay heat removal capability will be maintained in all modes of operation.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since this amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated October 3, 1980, (2) Amendment No. 54 to License No. DPR-36, and (3) the Commission's letters dated June 11, 1980 and March 5, 1981. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Wiscasset Public Library Association, High Street, Wiscasset, Maine. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission,

Washington, D.C. 20555, Attention: Director, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-244]

Rochester Gas & Electric Corp.; Issuance of Amendment to Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 37 to Provisional Operating License No. DPR-18 to Rochester Gas and Electric Corporation (the licensee) which revised the license for operation of the R. E. Ginna Nuclear Plant located in Wayne County, New York. The amendment is effective as of the date of issuance and the portion relating to Safeguards Contingency is to be fully implemented within 30 days of Commission approval in accordance with the provisions of 10 CFR 73.40(b).

The amendment adds a license condition to include the Commission-approved Safeguards Contingency Plan as part of the license, and revises the license condition relating to the Security Plan to incorporate approved changes.

The licensee's filings comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendment.

The licensee's filings (transmitted by letter dated April 3, 1980, July 24, 1980, and September 10, 1980) are being withheld from public disclosure pursuant to 10 CFR 2.790(d). The withheld information is subject to disclosure in accordance with the provisions of 10 CFR 9.12.

For further details with respect to this action, see (1) Amendment No. to License No. DPR-18, and (2) the Commission's related letter to the licensee dated March 11, 1981. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Rochester Public Library, 115 South Avenue, Rochester, New York 14627. A copy of items (1) and (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C., 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 11th day of March, 1981.

For the Nuclear Regulatory Commission.

[Docket No. 50-29]

Yankee Atomic Electric Co.; Extension of Completion Date

By letter dated February 17, 1981, Yankee Atomic Electric Company (the licensee) requested that the U.S. Nuclear Regulatory Commission (the Commission) grant an extension for installation of rated fire-sealant material for four penetrations through fire barriers at Yankee Nuclear Power Station (Yankee-Rowe), located in Franklin County, Massachusetts.

The Commission's Director of Nuclear Reactor Regulation has concluded that good cause has been shown and that such postponement will not adversely affect the health and safety of the public. Accordingly, pursuant to 10 CFR 50.48(d), the request has been granted.

For further details with respect to this action, see (1) the licensee's request dated February 17, 1981, and (2) the Director's letter to the licensee dated March 11, 1981.

Dated at Bethesda, Maryland, this 11th day of March, 1981.

For the Nuclear Regulatory Commission.

Harold R. Denton,

Director, Office of Nuclear Reactor Regulation.

[FR Doc. 81-8423 Filed 3-18-81; 8:45 am]

BILLING CODE 7590-01-M

Privacy Act of 1974; Minor Amendments to Systems of Records

AGENCY: United States Nuclear Regulatory Commission.

ACTION: Proposed Minor Amendments of Systems of Records.

SUMMARY: The Nuclear Regulatory Commission is proposing minor amendments to the NRC Systems of Records, NRC-24. The amendments clarify and update the information contained in the NRC Systems of Records, in order to facilitate planned direct interface with the NRC Accounting, Payroll and Personnel Systems. For control purposes, these systems must maintain the same key fields. The Social Security Account Number is the key for individual person identifiers.

COMMENT DATE: Comments are due on or before April 20, 1981.

ADDRESS: Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch.

FOR FURTHER INFORMATION CONTACT: Sarah N. Wigginton, FOI/PA Branch, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Phone: (301) 492-8133.

SUPPLEMENTARY INFORMATION: In accordance with the Privacy Act of 1974, the Nuclear Regulatory Commission has published notices of those systems of records maintained by the NRC which contain personal information about individuals and from which such information can be retrieved by an individual identifier. The notices were published as documents subject to publication in the annual compilation of the Privacy Act documents. Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization

Act of 1974, as amended, and sections 552 and 552a of Title 5 of the United States Code, as amended, notice is hereby given that adoption of the following amendments to the NRC Systems of Records is contemplated. All interested persons who desire to submit written comments or suggestions for consideration in connection with the proposed amendments should send them to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch by April 20, 1981. Copies of comments on the proposed amendments may be examined at the Commission's Public Document Room at 1717 H Street, N.W., Washington, DC.

1. The paragraphs of NRC–24 entitled "Categories of records in the system" and "Retrievability" are amended to read as follows:

NRC–24

SYSTEM NAME:

Property and Supply System (PASS)–NRC.

* * * * *

CATEGORIES OF RECORDS IN THE SYSTEM:

These records contain information about the equipment (type, make, model, serial number, etc.), and information about the custodians of the equipment (social security account number, office, and office location).

* * * * *

RETRIEVABILITY:

Accessed by social security account number, office, and office location.

* * * * *

Dated at Bethesda, Maryland this 10th day of March 1981.

For the Nuclear Regulatory Commission.

William J. Dircks,

Executive Director for Operations.

[FR Doc. 81-8412 Filed 3-18-81; 8:45 am]

BILLING CODE 7590-01-M

Privacy Act of 1974; New System of Records

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Notice of New System of Records.

SUMMARY: The Nuclear Regulatory Commission (NRC) is establishing a new system of records identified as Employee Alcoholism and Drug Abuse Program Files. The purpose of the system is to enable the system manager to maintain confidential records pertaining to the counselling, referral, and treatment of individuals seeking assistance through the program.

EFFECTIVE DATE: April 20, 1981.

FOR FURTHER INFORMATION CONTACT: Sarah N. Wigginton, FOI/PA Branch, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Telephone: 301–492–8133.

SUPPLEMENTARY INFORMATION: The new system, "Employee Alcoholism and Drug Abuse Program Files," NRC–14, will consist of confidential records taken by the system manager during the course of counselling an NRC employee or any members of the employee's family. The records will be used for statistical purposes in conjunction with the program.

A notice of the proposed new system of records was published in the Federal Register on January 15, 1981 (46 FR 3693). No comments were received on the proposed new system of records.

Notice is hereby given that the Commission has established the new system of records, "Employee Alcoholism and Drug Abuse Program Files," NRC–14. The text of NRC–14 is identical except for minor grammatical corrections with the text of the proposed NRC–14 published on January 15, 1981.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and sections 552, 552a, and 553 of Title 5 of the United States Code, the following notice of NRC Systems of Records, Employee Alcoholism and Drug Abuse Program Files, NRC–14, is published as a document subject to publication in the annual compilation of Privacy Act Documents.

Dated at Bethesda, Maryland, this 11th day of March 1981.

For the Nuclear Regulatory Commission.

William J. Dircks,

Executive Director for Operations.

NRC–14

SYSTEM NAME:

Employee Alcoholism and Drug Abuse Program files—NRC.

SYSTEM LOCATION:

Office of Administration, U.S. Nuclear Regulatory Commission, 7735 Old Georgetown Road, Bethesda, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NRC employees and/or family members who have been counselled by or referred to the Manager of the Employee Alcoholism and Drug Abuse Program.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains records of NRC employees and/or their families who have been referred to the manager of the Employee Alcoholism and Drug Abuse Program for counselling, and the results of any counselling which may have taken place. The records contain information as to the nature of each individual's problem, progress, and subsequent treatment.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

42 U.S.C. 4561; 21 U.S.C. 1180.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information in these records may be used:

a. For statistical reporting purposes.

b. Any disclosure of information pertaining to an individual will be made in compliance with the Confidentiality of Alcohol and Drug Abuse Patient Records regulation, as authorized by 21 U.S.C. 1175 and 42 U.S.C. 4582, as amended.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained on paper in file folders.

RETRIEVABILITY:

Information accessed by name of the individual counselled.

SAFEGUARDS:

Files are maintained in a safe under the immediate control of the Manager of the Employee Alcoholism and Drug Abuse Program.

RETENTION AND DISPOSAL:

Retained for one year after successful completion of treatment or other termination of contact, then destroyed by shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Manager, Employee Alcoholism and Drug Abuse Program, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

NOTIFICATION PROCEDURE:

Director, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

RECORD ACCESS PROCEDURES:

Same as "Notification procedure."

CONTESTING RECORD PROCEDURES:

Same as "Notification procedure."

RECORD SOURCE CATEGORIES:

Information compiled by the Manager of the Employee Alcoholism and Drug Abuse Program during the course of counselling with an NRC employee and/or members of the employee's family.

[FR Doc. 81-8411 Filed 3-18-81; 8:45 am]

BILLING CODE 7590-01-M

OFFICE OF MANAGEMENT AND BUDGET

Agency Forms Under Review

March 16, 1981.

Background

When executive departments and agencies propose public use forms, reporting, or recordkeeping requirements, the Office of Management and Budget (OMB) reviews and acts on those requirements under the Federal Reports Act (44 U.S.C., Chapter 35). Departments and agencies use a number of techniques including public hearings to consult with the public on significant reporting requirements before seeking OMB approval. OMB in carrying out its responsibility under the Act also considers comments on the forms and recordkeeping requirements that will affect the public.

List of Forms Under Review

Every Monday and Thursday OMB publishes a list of the agency forms received for review since the last list was published. The list has all the entries for one agency together and grouped into new forms, revisions, extensions (burden change), extensions (no change), or reinstatements. The agency clearance officer can tell you the nature of any particular revision you are interested in. Each entry contains the following information:

The name and telephone number of the agency clearance officer (from whom a copy of the form and supporting documents is available);
The office of the agency issuing this form;
The title of the form;
The agency form number, if applicable;
How often the form must be filled out;
Who will be required or asked to report;
The Standard Industrial Classification (SIC) codes, referring to specific respondent groups that are affected;
Whether small businesses or organizations are affected;
A description of the Federal budget functional category that covers the information collection;
An estimate of the number of responses;
An estimate of the total number of hours needed to fill out the form;
An estimate of the cost to the Federal Government;
The number of forms in the request for approval;
The name and telephone number of the person or office responsible for OMB review; and
An abstract describing the need for and uses of the information collection.

Reporting or recordkeeping requirements that appear to raise no significant issues are approved promptly. Our usual practice is not to take any action on proposed reporting requirements until at least ten working days after notice in the **Federal Register**, but occasionally the public interest requires more rapid action.

Comments and Questions

Copies of the proposed forms and supporting documents may be obtained from the agency clearance officer whose name and telephone number appear under the agency name. The agency clearance officer will send you a copy of the proposed form, the request for clearance (SF83), supporting statement, instructions, transmittal letters, and other documents that are submitted to OMB for review. If you experience difficulty in obtaining the information you need in reasonable time, please advise the OMB reviewer to whom the report is assigned. Comments and questions about the items on this list should be directed to the OMB reviewer or office listed at the end of each entry.

If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the reviewer of your intent as early as possible.

The timing and format of this notice have been changed to make the publication of the notice predictable and to give a clearer explanation of this process to the public. If you have comments and suggestions for further improvements to this notice, please send them to Jim J. Tozzi, Assistant Director for Regulatory and Information Policy, Office of Management and Budget, 726 Jackson Place, Northwest, Washington, D.C. 20503.

DEPARTMENT OF DEFENSE

Agency Clearance Officer—John V. Wesderoth—703-697-1195

New

• Departmental and Others
The 1981 National Survey of Prospects for Military Service
Nonrecurring
Individuals or housholds
Youth ages 16-21
Department of Defense—Military, 1,435 responses, 717 hours; $217,000 Federal cost, 1 form
Kenneth B. Allen, 202-395-3785

The fiscal year 81 authorization bill mandated the test of an educational assistance program. The collection effort described in the attached supporting statement and document will collect data with which to study (1) advertising and recruiting effectiveness, (2) perceptions of the value of educational assistance, (3) importance of educational benefits as a means to increase enlistment propensity, and (4) the appeal of prop. edu. and other benefits not included in the test.

DEPARTMENT OF EDUCATION

Agency Clearance Officer—Wallace McPherson—202-426-5930

Revisions

• Office of Postsecondary Education
Lender's request for interest and special allowance
Guaranteed student loan program and parent loans for Undergraduate students
Ed 799 (formerly OE 1166)
Annually
Businesses or other institutions
Financial and credit institutions
Sic: 822, 601, 602, 603, 604, 605
Education, training, employment, and social services, 45,000 responses, 63,000 hours; $103,141 Federal cost, 1 form
• Laverne V. Collins, 202-395-6880

This form is used by the lender to bill for interest and special allowances on a quarterly, semi-annually, and annual basis.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency Clearance Officer—Joseph Strnad—202-245-7488

New

• Health Care Financing Administration
National Assessment of Medicare Diagnostic and Surgical
Data Quality HCFA-259
Nonrecurring
Businesses or other institutions
Fifty-four hospitals located country-wide
Sic: 806
Health, 54 responses, 216 hours; $60,000 Federal cost, 1 form
Richard Eisinger, 202-395-6880

The information collected is needed to evaluate the quality of data which is critical to the users of the medicare statistical system. Thus, it will be necessary to determine data low steps

and processes between the fiscal intermediaries and hospitals and processes between the fiscal intermediaries and HCFA to identify cost effective measures for improving and monitoring data quality on a national basis.

• Food and Drug Administration
License Applications for the Manufacture of viral, bacterial Alergenics, and Plasma Derivatives products and General
FDA 3210, 3211, 3212, 3213, 3214
On occasion
Businesses or other institutions

BILLING CODE 3110–01–M

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 21992; 70-8563]

Allegheny Power System, Inc.; Proposal by Holding Company To Become Bonded as Surety for Public-Utility Subsidiary Company

March 13, 1981.

Notice is hereby given that Allegheny Power System, Inc. ("Allegheny") 320 Park Avenue, New York, New York 10022, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 12(b) and 12(f) of the Act as applicable to the following proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Allegheny proposes to become bonded as surety to the State of West Virginia in such amount as shall be determined by the West Virginia Public Service Commission for prompt refund by Allegheny's wholly-owned subsidiary, The Potomac Edison Company ("Potomac"), of all amounts Potomac, under certain tariffs filed with said Commission on December 23, 1980, may collect or receive in excess of such rates and charges as may be finally fixed by said Commission, plus interest at such annual rate as such Commission may determine by order to be necessary and appropriate. The purpose of the proposed transaction is to enable Potomac, as permitted by West Virginia law, to begin applying the new increased rates prior to completion of the West Virginia Commission's investigation, hearing, and decision with respect thereto. It is expected that the amount of the bond will not exceed $13,200,000, which is the estimated additional annual revenue that the new rates will provide.

The fees and expenses incurred by Allegheny in connection with the proposed transaction are estimated not to exceed $2,200, including legal fees. The declaration states that no state commission and no federal commission, other than this Commission has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than April 9, 1981, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Rel. No. 17627; SR-CBOE-80-28]

Chicago Board Options Exchange, Inc.; Order Approving Proposed Rule Change

March 13, 1981.

On December 29, 1980, the Chicago Board Options Exchange, Incorporated, 141 West Jackson Street, Chicago, Illinois 60604 filed with the Commission, pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) (the "Act") and Rule 19b-4 thereunder, copies of a proposed rule change which permits, when unusual trading conditions exist, two floor officials to waive the requirements of Rule 8.7(b)(i), with respect to maximum bid/ask differentials, in those options series 10 or more points in the money to allow marketmakers to make bid/ask differentials as wide as the quotation in the primary market for the underlying security.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 17485, January 26, 1981) and by publication in the **Federal Register** (46 FR 10580, February 3, 1981). No comments were received with respect to the proposed rule change.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and in particular, the requirements of Section 6 and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[FR Doc. 81-8287 Filed 3-18-81; 8:45 am]

BILLING CODE 8010-01-M

[Release No. 34-17626; File No. SR-DTC-81-1]

Depository Trust Co; Proposed Rule Change; Self-Regulatory Organizations

Relating to an upper limit on the aggregate amount of all contributions to its Participants Fund.

Comments requested on or before April 9, 1981.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on February 25, 1981, The Depository Trust Company filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change involves placing an upper limit on the aggregate amount of all contributions to the Participants Fund of The Depository Trust Company (DTC). Whenever the aggregate amount of all contributions to the Participants Fund would exceed $200,000,000, the contribution of each DTC Participant will be reduced pro rata so that the aggregate amount of all contributions to the Participants Fund will not exceed $200,000,000. Such pro rata reductions will be calculated monthly. The formula pursuant to which contributions to the Participants Fund are fixed is unchanged and the minimum contribution for each Participant remains at $10,000.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The proposed rule change places an upper limit on the size of the DTC Participants Fund. The Participants Fund was almost $225,000,000 at the end of January 1981 and had increased by $102,000,000 in 1980 alone because of high settlement volume at DTC. After consideration, DTC concluded that a Participants Fund of $200,000,000 appears adequate for the foreseeable future. Moreover, although Participants receive the interest earned by their securities pledged to secure open account indebtedness to the Participants Fund, the necessity of providing DTC with qualifying securities in some cases creates a burden for those Participants which do not own such securities in the required amounts.

The proposed rule change is consistent with the requirements of the Securities Exchange Act of 1934 and the rules and regulations thereunder applicable to DTC because it equitably allocates Participants Fund contributions among DTC Participants. The proposed rule change will be implemented consistently with the safeguarding of securities and funds in DTC's custody or control or for which it is responsible since placing an upper limit on the size of the Participants Fund will still leave substantial resources in the Particpants Fund, which is available in addition to DTC's extensive insurance and its retained earnings and undivided profits. Moreover, DTC's Rules provide for a further call if needed equal to 100% of all Participants' contributions to the Participants Fund before any participant could withdraw from DTC in order to terminate DTC's right to call for additional contributions from the Participant.

(B) Self-Regulatory Organization's Statement on Burden on Competition

DTC perceives no impact on competition by reason of the proposed rule change.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change received from Members, Participants or Others

Written comments on the proposed rule change from DTC Participants or others have not been solicited or received. All Participants have been notified of the proposed rule change by the DTC Important Notice attached as Exhibit 2 to DTC's filing on Form 19b–4, File No. SR–DTC–81–1.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934 and subparagraph (e) of Securities Exchange Act Rule 19b–4. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, N.W, Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted on or before April 9, 1981.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: March 13, 1981.

George A. Fitzsimmons,

Secretary.

March 13, 1981.

In the matter of Keystone Provident Life Insurance Company, KMA Variable Account, American Liquid Trust, Keystone Custodian Fund, Series B–1, Keystone Custodian Fund, Series B–2, Keystone Custodian Fund, Series B–4, Keystone Custodian Fund, Series S–1, Keystone Custodian Fund, Series S–3, Keystone Custodian Fund, Series S–4, Massachusetts Fund and Money Market/Options Investment, Inc., 99 High Street, Boston, Massachusetts 02110. Notice of application for an order pursuant to Section 11 of the act approving certain offers of exchange and pursuant to Section 6(c) of the act granting exemptions from Sections 2(a)(32), 2(a)(35), 22(c), 26(a), 27(c)(1), 27(c)(2), and 27(d) of the act, and Rule 22c–1 thereunder.

Notice is hereby given that Keystone Provident Life Insurance Company ("Keystone" or the "Company"), a stock life insurance company established under the laws of the State of Rhode Island, and KMA Variable Account ("Variable Account"), a separate account of Keystone registered under the Investment Company of 1940 ("Act") as a unit investment trust, and American Liquid Trust ("ALT"), Keystone Cutodian Fund, Series B–1 ("Series B–1"), Keystone Custodian Fund, Series B–2 ("Series B–2"), Keystone Custodian Fund, Series B–4 ("Series B–4"), Keystone Custodian Fund, Series S–1 ("Series S–1"), Keystone Custodian Fund, Series S–3 ("Series S–3"), Keystone Custodian Fund, Series S–4 ("Series S–4"), Massachusetts Fund and Money Market/Options Investments, Inc. ("Money Market/Options"), each registered under the Act as an open-end management investment company (collectively "Applicants"), filed an application on July 5, 1980, and amendments thereto on November 21, 1980, January 21, 1981, and March 10, 1981, for an order of the Commission pursuant to Section 11 of the Act approving certain offers of exchange and pursuant to Section 6(c) of the Act granting exemptions from Sections

2(a)(32), 2(a)(35), 22(c), 26(a), 27(c)(1), 27(c)(2), and 27(d) of the Act and Rule 22c-1 thereunder to the extent necessary to permit the transactions described below. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Background

The Company is a wholly-owned subsidiary of Keystone Custodian Funds, Inc., which is a wholly-owned subsidiary of The Travelers Corporation of Hartford, Connecticut.

The Company is the depositor and sponsor of the Variable Account. The Variable Account is a segregated investment account of the Company established to act as the funding entity for the Individual Flexible Purchase Payment Variable Annuity Contracts (the "Contracts") to be issued by the Company.

Keystone Custodian Funds, Inc. ("KCF") is trustee for Series B-1, Series B-2, Series B-4, Series S-1, Series S-3 and Series S-4, and the investment adviser for the Massachusetts Fund and Money Market/Options. An affiliate of KCF, ALT Management Corporation, is the investment adviser for ALT.

The purchase payments under the Contracts will be allocated to the Variable Account and will be invested in one or more of ALT, Series B-1, Series B-2, Series B-4, Series S-1, Series S-3, Series S-4, Massachusetts Fund, and Money Market/Options at net asset value in accordance with the selection made by the contract owner in the application.

The Contracts will be sold by licensed insurance agents in those States where the Contract may be lawfully sold. Such agents will be registered representatives of broker-dealers registered under the Securities Exchange Act of 1934 which are members of the National Association of Securities Dealers, Inc. The Contracts will be distributed through Keystone Massachusetts, Inc. ("KMI") which is affiliated with KCF.

The Contracts permit purchasers to make investments in such amount and at such frequency as they elect, and to change such election as to prospective payments at will. The Contracts will be offered without the imposition of a sales charge deduction at time of sale. However, the Contracts contain a provision which imposes a deferred sales charge in the event there is a redemption in the early years of the Contract. The charge is referred to as a Contingent Deferred Sales Charge and is intended to reimburse the Company for expenses incurred which are related to contract sales.

A Contingent Deferred Sales Charge is deducted, except as noted below, in the event of a partial or complete redemption. The Contingent Deferred Sales Charge is based on a graded table of charges but in no event will the charge exceed 5% of the lesser of the amount redeemed or the purchase payments, less amounts redeemed during the previous five years which were subject to the Contingent Deferred Sales Charge. After the first Contract Anniversary, a contract owner may, not more frequently than once annually on a noncumulative basis, make a withdrawal of up to 7% of purchase payments per Contract Year without payment of any Contingent Deferred Sales Charges. The Contingent Deferred Sales Charge will be waived on distributions made pursuant to the death of the annuitant.

The Contingent Deferred Sales Charge will be applied in accordance with the table below:

Year	Deduction (percent)
1	5
2	4
3	3
4	2
5	1
6 and thereafter	0

The Custodian for the Contracts and for the Vairable Account is the Bradford Trust Company of Boston, Massachusetts, which performs all custodian and administrative functions for the Contracts and the Variable Account.

The Contracts are subject to a Contract Maintenance Charge which is deducted from the contract value on each Contract Anniversary and is currently $30 per Contract Year. The Contracts offered by the Company are unlike traditional variable annuity contracts in that there is no expense guarantee. Applicants agree that if the exemptions applied for are granted they shall remain in effect only so long as there is no increase in the charges made in connection with the Contracts. The Company also deducts premium taxes where applicable.

Contingent Deferred Sales Charge

Section 2(a)(35)

Section 2(a)(35) of the Act defines "sales load" as the difference between the price of a security to the public and that portion of the proceeds from its sale which is received and invested or held for investment by the issuer, less any portion of such difference deducted for trustees' or custodians' fees, insurance premiums, issue taxes or administrative expenses or fees which are not properly chargeable to sales or promotitonal expenses.

Applicants submit that the proposed Contingent Deferred Sales Charge is consistent with the intent of the definition of sales load contained in the Act. The charge would be imposed by the Company to reimburse it for expenses related to the sale of the Contracts, which the Applicants submit is within the Section 2(a)35) definition of sales load but for the timing of the imposition of the charge.

Nevertheless, Applicants have requested an exemption from the provisions of Section 2(a)(35) to the extent such exemption may be necessary to implement the proposed pricing of their Contracts.

Section 22(c) and Rule 22c-1

Rule 22c-1, promulgated under Section 22(c) of the Act, in pertinent part, prohibits a registered investment company issuing a redeemable security from selling, redeeming or repurchasing any such security except at a price based on the current net asset value of such security. When the contract owner surrenders all or a part of the contract value, the proceeds paid on such surrender will be based on the current net asset value. The Contingent Deferred Sales Charge, if applicable, will be deducted at the time of surrender in arriving at the contract owner's proportionate share or account value.

While Applicants do not believe that the imposition of the Contingent Deferred Sales Charge is violative of Section 22(c) or Rule 22c-1, they have requested an exemption from the provisions of Section 22(c) and Rule 22c-1 thereunder, to the extent necessary, to offer the Contracts as proposed.

Sections 26(a) and 27(c)(2)

Section 27(c)(2) of the Act prohibits a registered investment company or depositor or underwriter for such company from selling periodic payment plan certificates unless the proceeds of all payments, other than sales loads, on such certificates are deposited with a trustee or custodian having the qualifications prescribed in Section 26(a)(1) of the Act and are held by such trustee or custodian under an agreement containing substantially the provisions required by Sections 26(a)(2) and 26(a)(3) of the Act.

Section 26(a) of the Act further provides as here pertinent, in substance,

that no payment to the depositor or principal underwriter of a unit investment trust shall be allowed the custodian bank as an expense, except a fee, not exceeding such reasonable amounts as the Commission may prescribe, as compensation for performing bookkeeping and other administrative expenses normally performed by the custodian.

Applicants allege that the Contingent Deferred Sales Charge to be imposed (if any) upon the surrender of the Contracts issued with respect to the Separate Account is designed to recover distribution costs relating to the sales of the Contracts. The Contracts merely defer the time when the sales charge may be imposed.

Applicants further allege that since there is nothing in the Act to suggest that if Contingent Deferred Sales Charges were being used at the time the Act was promulgated, that deductions for such sales charges would not have been permitted, and, since it is in the contract owners' best interests that the entire amount of their purchase payments be invested at the time when made, they have requested an exemption from the provisions of Sections 26(a)(2)(C) and 27(c)(2) of the Act, to the extent necessary, in order to permit the offer and sale of the Contracts subject to the Contingent Deferred Sales Charge as described above.

Sections 2(a)(32) and 27(d)

Section 2(a)(32) of the Act, in pertinent part, defines "redeemable security" as any security under the terms of which the holder, upon its presentation to the issuer, is entitled to receive approximately his proportionate share of the issuer's current net assets or the cash equivalent thereof.

Section 27(d) of the Act, in pertinent part, requires that the holder of a periodic payment plan certificate be able to surrender the certificate under certain circumstances with the recovery of certain front-end sales charges. Applicants assert that the Contracts offered are not periodic payment contracts but request exemption from such Sections, to the extent necessary, to offer the Contracts. Applicants submit that the imposition of a Contingent Deferred Sales Charge does not violate Sections 2(a)(32) and 27(d).

Applicants assert that Sections 2(a)(32) and 27(d) contemplate the assessment of an initial sales load and that under the Contracts the net amount invested is the gross purchase payments. Thus, the owner's proportionate share or account value would be the gross Purchase Payments, plus or minus any increase or decrease in value less the charge. Applicants assert that deferring the imposition of the charge in no way restricts the contract owner from receiving his proportionate share or account value upon redemption. Applicants contend that the charge is contingent upon an event which might never occur, and that the purchaser's initial amount invested is maximized, thus providing a benefit to the purchaser. Applicants have requested an exemption from the provisions of Sections 2(a)(32) and 27(d), to the extent necessary, to permit the imposition of the Contingent Deferred Sales Charge and to offer the Contracts.

Section 27(c)(1)

Sections 27(c)(1) of the Act, in pertinent part, prohibits any registered investment company from issuing periodic payment plan certificates, or depositor or underwriter of such company, from selling any such certificate unless it is a redeemable security. Applicants assert that the Contracts issued are not periodic payment plans but nevertheless request an exemption to the extent necessary to offer the Contracts.

Applicants submit that the Contingent Deferred Sales Charge is not a restriction on redemption under Section 27(c)(1). Applicants assert that deferring the imposition of the sales charge in no way restricts the contract owner from receiving his proportionate share or current value or surrender and has the effect, through deferral of sales charge until contract value is withdrawn, of increasing the contract value available for redemption. However, Applicants have requested an exemption from the operation of the provisions of Section 27(c)(1) to the extent necessary to permit the charge to be imposed only upon surrender of contract values.

Annual Administrative Charge

As previously noted, the Contracts are subject to an annual administrative charge of $30. If the value of a Contract is surrendered for its full value on other than the Contract Anniversary date, the Administrative Charge will be deducted from the owner's redemption proceeds.

Because the provisions of the Act discussed above under the heading "Contingent Deferred Sales Charge" may be said to be equally applicable in this situation, Applicants hereby request an exemption from the provisions of Sections 2(a)(32), 2(a)(35), 22(c), 26(a), 27(c)(1), 27(c)(2), 27(d) and Rule 22c-1, to the extent necessary, to permit the deduction of the annual Administrative Charge under the circumstances described.

Deduction and Payment of Contract Charges and Fees

Sections 26(a) and 27(c)(2)

Sections 26(a) and 27(c)(2), as here pertinent, provide in substance that a registered unit investment trust and any depositor of or underwriter for such trust are prohibited from selling periodic payment plan certificates unless the proceeds of all payments, other than amounts deducted for sales load, are deposited with a qualified bank as trustee or custodian. Section 26(a)(2)(D) provides that the custodian have possession of all securities and other property in which the funds of the trust are invested subject only to the charges and collections allowed under clauses (A), (B) and (C) of Section 26(a)(2) until distribution thereof to the security holders of the trust. Section 27(c)(2) applies the same restrictions to periodic payment plan certificates.

The Applicants request an exemption from the provisions of Sections 26(a) and 27(c)(2) to the extent necessary to permit the deduction and payment of: (1) the Contract Maintenance Charge; (2) the Mortality Risk fee; and (3) applicable annuity premium taxes.

The Applicants consent that the foregoing requested exemptions from Sections 26(a) and 27(c)(2) may be made subject to the following conditions: (1) that the deductions under the Contracts for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe and the Commission may reserve jurisdiction for such purpose; and (2) that the payment of sums and charges out of the assets of the Variable Account shall not be deemed to be exempted from regulation by the Commission by reason of the requested order, provided that the Applicants' consent to this condition shall not be determined to be a concession to the Commission of authority to regulate the payment of sums and charges out of such assets, other than the charges for administrative services, and the Applicants reserve the right in any proceeding before the Commission, or in any suit or action in any court, to assert that the Commission has no authority to regulate the payment of such other sums and charges.

Exchanges

Section 11

Section 11(a) of the Act makes it unlawful for any registered open-end investment company or principal underwriter therefor to make an offer to the holder of a security of such company or

of any other open-end investment company to exchange his security for a security in the same or another such company on any basis other than the relative net asset values of the respective securities to be exchanged unless the terms of the offer have first been submitted to the Commission. Section 11(c) provides that the provisions of subsection (a) shall be applicable irrespective of the basis of exchange to any offer of exchange of any security of a registered open-end company for a security of a registered unit investment trust and to any type of offer of exchange of the securities of registered unit investment trusts for the securities of any other investment company.

Applicants assert two distinct requests for exemptive relief pursuant to Section 11. The first pertains to a proposal to permit shareholders of ALT, Series B–1, Series B–2, Series B–4, Series S–1, Series S–3, Series S–4, Massachusetts Fund and Money Market/Options to exchange their shares for the Contracts. That is, the Applicants propose to permit shareholders, who are shareholders of record upon the effective date of the prospectus for the Variable Account of ALT, Series B–1, Series B–2, Series B–4, Series S–1, Series S–3, Series S–4, Massachusetts Fund, and Money Market/Options, to exchange their shares for the Contracts. Such shareholders will be notified of the offer to exchange and will be permitted to make such an exchange without payment of a fee, sales load, transfer charge or Administrative Charge. All such exchanges will be accomplished at net asset value.

The second request pertains to a proposal to permit contract owners to reallocate their contract values among ALT, Series B–1, Series B–2, Series B–4, Series S–1, Series S–3, Series S–4, Massachusetts Fund and Money Market/Options. There is no limitation on such transfers, and in no event will solicitation of existing shareholders be made until such shareholders have been provided with a currently effective prospectus for the Contracts and for the particular underlying investment medium involved.

The Applicants submit that the proposed transfer rights will afford an owner the availability of choice among shares of mutual funds having different investment objectives, and that the granting of such rights is in recognition of the potentially changing nature of the owner's investment objectives and retirement needs over the years.

The Applicants further assert that the proposed transfer rights involve only a change in the underlying accumulation or annuity units related to a Contract, which are merely accounting units of measure to quantify contract value and, thus, do not involve the exchange of a unit investment trust security for the security of any other investment company. However, to avoid any questions that might be raised as to the applicability of Section 11(c), the Applicants request an order pursuant to Section 11 to the extent necessary to permit the proposed offer of transfer rights described above.

Section 6(c)

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, security, or transaction or any class or classes of persons, securities, or transactions from any provision of the Act or any rule or regulation under the Act if, and to the extent, such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, no later than April 7, 1981 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his/her interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he/she may request that he/she be notified if the Commission shall order a hearing thereon. Any such Communications should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon the Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following April 7, 1981 unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered will receive any notice or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,
Secretary.

[Rel. No. 21961; 70-6556]

Louisiana Power & Light Co.; Proposed Issuance and Sale of First Mortgage Bonds at Competitive Bidding

March 13, 1981.

Notice is hereby given that Louisiana Power & Light Company ("Louisiana"), 142 Delaronde Street, New Orleans, Louisiana 70174, a wholly-owned subsidiary of Middle South Utilities, Inc., a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating Sections 6(a) and 7 of the Act and Rule 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Louisiana proposes to issue and sell, at competitive bidding, up to $75,000,000 principal amount of its first mortgage bonds ("Bonds") of a new series having a term of not less than five nor more than thirty years. In light of uncertainties in the present capital markets, however, and to provide the company with flexibility in responding to capital market requirements prior to the time of bidding, Louisiana seeks to reserve the right to reduce the principal amount of the Bonds to be issued and sold and/or to change the maturity of the Bonds to a maturity of not less than five nor more than 29 years. If Louisiana exercises this right, it will give appropriate notice of such change and/or reduction not later than 24 hours preceding the time fixed for the presentation of bids. Furthermore, Louisiana may file an amendment seeking an exception from competitive bidding if market conditions, in the opinion of management, are not propitious for the competitive bidding of the Bonds.

The interest rate of the Bonds (which will be a multiple of ⅛th of 1%) and the price, exclusive of accrued interest, to be paid to Louisiana for the Bonds (which will be not less than 98% nor more than 101¾% of the principal amount thereof) will be determined by competitive bidding. The Bonds will be

issued under the company's Mortgage and Deed of Trust, dated as of April 1, 1944, as heretofore supplemented by various indentures and as it is to be further supplemented by a Twenty-ninth Supplemental Indenture to be dated as of the first day of the calendar month in which the Bonds are issued. The supplemental indenture will include a prohibition against refunding the Bonds, directly or indirectly, with funds borrowed at a lower interest cost for a period of not more than five years.

Louisiana will use the Bond proceeds primarily to reduce short-term borrowings estimated to be $110,000,000 at the time of the Bond offering and to finance in part Louisiana's construction expenditures estimated to total $280,200,000 in 1981.

The fees and expenses to be incurred in connection with the proposed transactions are estimated to be $207,737, including legal fees of $57,000, rating fees of $31,875, and printing costs of $48,000. The successful bidders for the Bonds will pay legal fees and expenses estimated to be $23,000.

It is stated that no State commission and no Federal commission other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than April 6, 1981, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,
Secretary.

BILLING CODE 8010-01-M

[Release No. 34-17624; File No. SR-MCC-81-1]

Midwest Clearing Corp.; Proposed Rule Change; Self-Regulatory Organizations

Relating to a price revision to the Midwest Clearing Corporation pricing schedule.

Comments requested on or before April 9, 1981.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on March 9, 1981, the Midwest Clearing Corporation filed with the Commission the proposed rule change as described in Item I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement on the Terms of Substance of the Proposed Rule Change

Attached as Exhibit A is the proposed Price Revision Schedule effective January 1, 1981.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(1) the proposed rule change is a revision of the Midwest Clearing Corportion (MCC) pricing schedule. The revised prices are necessitated by increased operational costs due to inflationary pressures and management decisions to enhance the MCC System. Improvements to the system include additional computer hardware to serve as a back-up to the existing system, the acquisition of two high-speed printers for report preparation, and conversion from keypunch to key-to-disc equipment to improve throughput and the accuracy of the system.

(2) The proposed rule change is consistent with the requirements of Section 17A of the Securities Exchange Act of 1934. Midwest Clearing Corporation believes the improvements to the system will ensure all participants a more efficient system for the prompt and accurate settlement and clearance of trades and the safekeeping of assets. Consequently, the resultant costs from the upgrades must be offset by increased revenues. The proposed increases will be equitably allocated among all participants using the services.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Price Revision Schedule was adopted to reflect increased inflation and operational costs and the Midwest Clearing Corporation believes that no burdens have been placed on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Porposed Rule Change Received from Members, Participants, or Others

Comments have neither been solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934 and subparagraph (e) of the Securities Exchange Act rule 19b-4. At any time within 200 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments,

all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, N.W., Washington, D.C. copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted on or before April 9, 1981.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: March 13, 1981.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Rel. No. 21983; 70-6574]

New England Power Co.; Proposed Amendment of Charter and By-Laws To Increase Authorized Preferred Stock

March 13, 1981.

Notice is hereby given that New England Power Company ("NEP") 25 Research Drive Westborough, Massachusetts 01581, a subsidiary of New England Electric System, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a) and 7 of the Act as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

NEP has three authorized classes of preferred stock: 6% Cumulative Preferred Stock ("6% Preferred Stock") of which there is one series outstanding; Dividend Series Preferred Stock ("$100 Par Stock") of which there are seven series outstanding; and Preferred Stock-Cumulative ("$25 Par Stock") of which there is one series outstanding. The $100 Par Stock and the $25 Par Stock are collectively referred to as the Cumulative Preferred Stock. The three classes of preferred stock have cumulative dividends and are of equal rank as to dividends and assets, but differ in various respects such as dividends rates and redemption prices for each series.

On July 31, 1980, NEP amended its Articles of Organization and By-Laws to increase from $150,000,000 to $250,000,000 the aggregate par value of Cumulative Preferred Stock it could issue without a majority vote of the shares of said stock then outstanding (HCAR No. 21634 (June 20, 1980)). NEP now proposes to amend its Articles of Organization and By-Laws to use the same limit in establishing the par value of Cumulative Preferred Stock it can issue without a majority vote of the shares of stock having general voting rights. Holders of NEP's Common Stock and 6% Preferred Stock have general voting rights. NEP's Cumulative Preferred Stock presently issued and outstanding has an aggregate par value of $101,764,000.

As a result of recent amendments to the Massachusetts General Laws, Massachusetts electric companies may now have authorized but unissued shares. In the past, the need to secure from stockholders with general voting rights approval of each series of preferred stock prior to issuance significantly increased the lead time required for these financings, and, thereby, reduced NEP's flexibility in placing its preferred stock. To better respond to capital markets, NEP wishes to take advantage of the statutory amendments by having stockholders authorize additional shares of Cumulatove Preferred Stock to be available for future issuance as necessary.

Proceeds from the issues of new preferred stock will be used to pay a portion of NEP's construction program. NEP's 1981–1985 construction program is estimated to total about $984 million, including allowance for funds used during construction. Included in the construction program are $916 million for generating facilities, $59 million for transmission lines and substations, and $9 million for other facilities.

NEP's Articles of Organization and By-Laws will be amended to provide that the company may not issue any series of Dividend Series Preferred Stock or Preferred Stock-Cumulative, without a majority vote of stock generally entitled to vote, if after such issue the aggregate outstanding par value of all issues of Dividend Series Preferred Stock and Preferred Stock-Cumulative would exceed $250 million. The Articles of Organization will be amended to increase the authorized number of shares of Dividend Series Preferred Stock from 780,140 to 2,262,500, or an increase of 1,482,360, and to increase the number of shares authorized of Preferred Stock-Cumulative from 1,000,000 to 6,879,440, or an increase of 5,879,440. (As 50,000 previously authorized shares have been retired, the company could issue 5,929,440 additional shares of Preferred Stock-Cumulative. This will permit the Board of Directors to issue either

Dividend Series Preferred Stock or Preferred Stock-Cumulative, or both, up to the $250 million maximum, as the market may demand.

NEP intends to submit the proposed amendments of its Articles of Organization by By-Laws to its stockholders at the Special in lieu of Annual Meeting to be held on April 15, 1981. The increase in the number of authorized shares of capital stock will require a vote of the majority of the Common Stock and 6% Preferred Stock voting together as a single class. The related amendments to the Articles of Organization and By-Laws will require a two-thirds vote of the Common Stock and 6% Preferred Stock voting together as a single class. It is anticipated that NEES, which owns all of the Common Stock, will vote in favor of each of the proposals, thereby assuring the necessary vote in each case.

It is stated that no state commission and no federal commission, other than this Commission, has jurisidiction over the proposed transactions. The fees and expenses to be incurred in connection with the proposed transactions are estimated at $4,125.

Notice is further given that any interested person may, not later than April 9, 1981, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

[CGD 81-020]

Coast Guard Academy Advisory Committee; Open Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) notice is hereby given of a meeting of the Coast Guard Academy Advisory Committee to be held at the U.S. Coast Guard Academy, New London, CT, on Monday, Tuesday and Wednesday April 27-29 1981. The session on Monday will be held from 10:30 to 11:45 a.m and from 2:00 to 3:15 p.m. An open session will also be held on Wednesday from 10:15 to 11:45 a.m.

The agenda for this meeting is as follows: (a) faculty, (b) curricula.

The Coast Guard Academy Advisory Committee was established in 1937 by Pub. L. 75-38 to advise on the course of instruction at the Academy, and to make recommendations as necessary.

Attendance is open to the interested public. With the approval of the Chairman, members of the public may present oral statements at the hearing. Persons wishing to attend or present oral statements at the hearing should notify, not later than the day before the meeting: CAPT Roderick M. White, USCG, Dean of Academics/Executive Secretary of the Academy Advisory Committee, U.S. Coast Guard Academy, New London, CT 06320, phone (203) 444-8275.

Any member of the public may present a written statement to the Committee at any time.

Issued in Washington, D.C., on March 5, 1981.

J. B. Hayes,

Admiral, U.S. Coast Guard, Commandant.

Federal Aviation Administration

Air Traffic Procedures Advisory Committee; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) notice is hereby given of a meeting of the Federal Aviation Administration Air Traffic Procedures Advisory Committee to be held from April 6 at 1 p.m. through April 10 at 1 p.m., in Conference Rooms 7A and B at FAA Headquarters, 800 Independence Avenue, S.W., Washington, D.C.

The agenda for this meeting is as follows: A continuation of the Committee's review of present air traffic control procedures and practices for standardization, clarification, and upgrading of terminology and procedures.

Attendance is open to the interested public but limited to the space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to attend and persons wishing to present oral statements should notify, not later than the day before the meeting, and information may be obtained from, Mr. L. Lane Speck, Executive Director, Air Traffic Procedures Advisory Committee, Air Traffic Service, AAT-300, 800 Independence Ave., S.W., Washington, D.C. 20591, telephone (202) 426-3725.

Any member of the public may present a written statement to the committee at any time.

Issued in Washington, D.C. on March 13, 1981.

James M. O'Malley,

Executive Secretary.

BILLING CODE 4910-13-M

[Docket No. 81-ASW-3AC]

Gulfstream American Corp. Models 690D and 695A; Aircraft Certification and Availability of Documents

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Specification of closing dates for receipt of comments concerning the type certification program for the Gulfstream American, formerly Rockwell International Models 690D and 695A.

SUMMARY: This document specifies the closing date for comments regarding the announcement of the Certification Program and Type Certification Basis for the Gulfstream American Models 690D and 695A. This announcement was published in 46 FR 14248, February 26, 1981.

DATES: The closing date for submitting comments, views, or data is April 20, 1981.

ADDRESSES: Send comments on the program in duplicate to: Regional Counsel, Attention: Docket No. 81-ASW-3AC, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101.

FOR FURTHER INFORMATION CONTACT: James L. Patras, Airframe Section, Engineering and Manufacturing Branch, ASW-212, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101, telephone (817) 624-4911, extension 518.

SUPPLEMENTARY INFORMATION: Persons may participate in the certification proceedings by submitting their views or data. Communications must identify the regulatory docket number and be submitted in duplicate to the above address. Comments received on or before the closing date will be considered and may cause the program to be changed if comments received justify the issuance of special conditions or retroactive application of previously adopted airworthiness regulations. Comments can be examined in the office of Regional Counsel, Federal Aviation Administration, Southwest Region, 4400 Blue Mound Road, Fort Worth, Texas. Request for copies of this announcement must include the docket number and be submitted to the Federal Aviation Administration, Public Affairs Officer, Southwest Region, P.O. Box 1689, Fort Worth, Texas 76101, telephone (817) 624-4911, extension 207.

BACKGROUND: On June 14, 1977, Gulfstream American applied to the FAA, Southwest Region, for type certification of the Models 690C and 695. These models would be an outgrowth of the already certificated Model 690B (Type Certificate Data Sheet 2A4). Changes to the wing, fuselage, engines, systems, and equipment were proposed. A preliminary Type Certification Board Meeting was held under Delegation Option Authorization procedures with FAA personnel in attendance on November 15, 1977. At an interim Type Certification Board Meeting requested by Gulfstream American with FAA participation, Gulfstream American advised that it was their intent to accomplish their original proposed changes (Models 690C and 695) on four models rather than two. Therefore, they intended to certify models designated as 690C, 695, 690D, and 695A. The changes that would be accomplished on each model were defined at this meeting held on August 29, 1978. Application for type certificate for the Models 690D and 695A was received on July 16, 1979. Models 690C and 695 were subsequently certificated under Delegation Option Authorization and are now included in the Type Certificate Data Sheet 2A4.

The Model 690D will be the same as the Model 690C except for the following changes:

1. Increased gross weight.
2. Increase in cabin pressure.
3. Revised interior items.

The Model 695A will be the same as the Model 690D except for the following changes:

1. Install Garrett TPF 331-501K engines.
2. Increased fuel capacity.
3. Increased gross weight.
4. Increased speed.

Based on the date of application, July 16, 1979, and pursuant to Section 21.17(a)(1), the type certification basis of the Models 690D and 695A airplanes will be:

CAR 3 dated May 15, 1956, including paragraphs 3.197, 3.270, 3.395, and 3.396 of Amendment 3-2 dated August 12, 1957; Amendment 3-3 dated May 17, 1958, 3-4 dated October 6, 1958, 3-6 dated September 13, 1961, paragraphs 23.473, 23.479, 23.481, and 23.483 of FAR 23, Amendment 23-7 dated September 14, 1969, plus Special Conditions letter dated April 1, 1965, and August 12, 1970; Docket No. 10506.

FAR 36 dated December 1, 1969, through Amendments 36-6 dated January 24, 1977.

Note.—This is a nonrulemaking proceeding within the meaning of the administrative procedure provision of 5 U.S.C. 551 *et seq.* Notices of Proposed Rule Making (NPRM) will be used for the issuance of special conditions and retroactive application of previously adopted airworthiness regulation.

Issued in Fort Worth, Texas, on March 9, 1981.

C. R. Melugin, Jr.,

Director, Southwest Region.

[FR Doc. 81-8286 Filed 3-18-81; 8:45 am]

BILLING CODE 4910-13-M

Radio Technical Commission for Aeronautics (RTCA), Special Committee 145—Digital Avionics Software; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I) notice is hereby given of a meeting of RTCA Special Committee 145 on Digital Avionics Software to be held on April 7-9, 1981 in Conference Rooms 9A-B-C, DOT/Federal Aviation Administration Building, 800 Independence Avenue,

SW., Washington, D.C. commencing at 9:30 a.m.

The Agenda for this meeting is as follows: (1) Chairman's Introductory Remarks; (2) Approval of Minutes of the Third Meeting Held on January 13–15, 1981; (3) Review First Draft of Committee Report; (4) Working Groups Meet in Separate Sessions; (5) Committee Plenary Session; and (6) Other Business.

Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the RTCA Secretariat, 1717 H Street, NW, Washington, D.C. 20006; (202) 296–0484. Any member of the public may present a written statement to the committee at any time.

Issued in Washington, D.C., on March 10, 1981.

Karl F. Bierach,

Designated Officer.

BILLING CODE 4910-13-M

Federal Highway Administration

Environmental Impact Statement; Mendocino County, Calif.

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Mendocino County, California.

FOR FURTHER INFORMATION CONTACT: Mr. Jerry L. Budwig, Division Engineer, Central Direct Federal Division, P.O. Box 25246, Denver, CO 80225, Attention: Mr. Robert Arensdorf (303) 234–4798.

SUPPLEMENTARY INFORMATION: The Forest Highway Program Agencies (FHWA-lead agency, U.S. Forest Service, and California Department of Transportation) and Mendocino County are proposing to improve 7.3 miles of California Forest Highway Route 7 (Mendocino County Route 338). This proposal begins 5.3 miles northeast of Covelo, California at the Short Creek bridge and proceeds eastward 7.3 miles to the U.S. Forest Service work station at the Middle Fork Eel River bridge. The proposal crosses private, Round Valley Indian Reservation, and U.S. Forest Service lands. The proposed action will follow closely the existing asphalt surfaced roadway, and will include regrading, widening, drainage improvement, channel relocation and bank stabilization (Williams Creek), paving, and the reconstruction of bridges over Williams Creek and the Middle Fork Eel River. The improvements are considered necessary to provide a highway facility that will safely accommodate existing and anticipated future traffic volumes.

Alternatives under consideration include (A) taking no action, and (B) reconstructing the existing roadway. (B1), (B2), and (B3) are design alternatives for a 1-mile section along Williams Creek.

Letters announcing the proposed action and soliciting comments have been sent to appropriate Federal, State, and local agencies, and to private organizations and citizens who have expressed interest in this proposal. Interagency and public meetings were held in Covelo, California on March 15, 1978, and a public hearing was held in Covelo on July 18, 1980. Coordination with interested agencies, organizations and citizens will continue throughout the EIS process. The draft EIS will be available for public and agency review and comment.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.

Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The provisions of OMB Circular No. A–95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects apply to this program.

Issued on March 13, 1981.

J. L. Budwig,

Division Engineer, Denver, Colorado.

BILLING CODE 4910-22-M

National Highway Traffic Safety Administration

Head and Neck Injury Criteria; Consensus Workshop

Notice is hereby given of a Consensus Workshop on Head and Neck Injury Criteria to be held on March 26, and 27, 1981. Invited participants from national and international centers of expertise in this field (academic, industry, and government agencies) will review the latest data and critique the existing standards for Head and Neck Injury Tolerances (e.g., the HIC). Intensive group discussions aimed at human and human surrogate data sources by the participants will result in a published report embodying resolutions and specific recommendations for further research to develop more rigorous criteria. The meetings will start at 8:30 a.m. at the Dulles Marriott Hotel near Dulles Airport. Attendance is open to the interested public but limited to the space available. Members of the public may present a written statement to the Workshop Chairman, Dr. A. K. Ommaya, at the National Highway Traffic Safety Administration, Room 6220, Mail Code NRD–12, 400 7th Street, S.W., Washington, D.C. 20590.

R. Rhoads Stephenson,

Associate Administrator for Research and Development.

[FR Doc. 81-8369 Filed 3-18-81; 8:45 am]

BILLING CODE 4910-59-M

[Docket No. IP81–6; Notice 1]

Cooper Tire & Rubber Co.; Receipt of Petition for Determination of Inconsequential Noncompliance

The Cooper Tire & Rubber Co. of Findlay, Ohio, has petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 *et. seq.*) for a noncompliance with 49 CFR 571.109, Motor Vehicle Safety Standard No. 109, *New Pneumatic Tires—Passenger Cars*. The basis of the petition is that the noncompliance is inconsequential as it relates to motor vehicle safety.

This notice of receipt of a petition for a determination of inconsequentiality is published in accordance with section 157 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1417), and does not represent any agency decision or other exercise of judgement concerning the merits of the petition.

Paragraph S4.3(b) requires that the sidewalls of each passenger car tire be labeled with the maximum permissible inflation pressure. Because of an erroneous mold, Cooper produced L78–15 Falls Avenger polyster/fiberglass belted, tubeless white sidewall tires between the 39th and 50th weeks of 1980 labeled with a maximum inflation pressure of 35 psi. The correct value is 32 psi. Cooper was able to recover and rebrand some of the tires but about 1800 remain uncorrected.

In the belief that tire strength would be the only factor possibly adversely affected by inflation to 35 psi, Cooper tested two of the mislabeled tires "finding * * * plunger energy of 3310

inch pounds (average of the two tires) which is well in excess of the required 2000 inch pounds under FMVSS 109 * * *." For this reason, the company argues that its noncompliance is inconsequential as it relates to motor vehicle safety, noting that the tires otherwise comply with Standard No. 109.

Interested persons are invited to submit written data, views and arguments on the petition of Cooper Tire & Rubber Co. described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice will be published in the Federal Register pursuant to the authority indicated below.

The engineer and attorney primarily responsible for this notice are Art Neill and Taylor Vinson, respectively.

Comment closing date: April 15, 1981.

(Sec. 102, Pub. L. 93-492, 99 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on March 10, 1981.

Michael M. Finkelstein,

Associate Administrator for Rulemaking.

[FR Doc. 81-8086 Filed 3-18-81; 8:45 am]

BILLING CODE 4910-59-M

Research and Special Programs Administration

Applications for Renewal or Modification of Exemptions or Applications To Become a Party to an Exemption

AGENCY: Materials Transportation Bureau, DOT.

ACTION: List of applications for renewal or modification of exemptions or application to become a party to an exemption.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Regulation of the Materials Transportation Bureau has received the applications described herein. This notice is abbreviated to expedite docketing and public notice. Because the sections affected, modes of transportation, and the nature of application have been shown in earlier Federal Register publications, they are not repeated here. Except as otherwise noted, renewal applications are for extension of the exemption terms only. Where changes are requested (e.g. to provide for additional hazardous materials, packaging design changes, additional mode of transportation, etc.) they are described in footnotes to the application number. Application numbers with the suffix "X" denote renewal; application numbers with the suffix "P" denote party to. These applications have been separated from the new applications for exemptions to facilitate processing.

DATES: Comment period closes on April 3, 1981.

ADDRESS COMMENTS TO: Dockets Branch, Information Services Division, Materials Transportation Bureau, U.S. Department of Transportation, Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate.

FOR FURTHER INFORMATION CONTACT: Copies of the applications are available for inspection in the Dockets Branch, Room 8426, Nassif Building, 400 7th Street, S.W., Washington, DC.

BILLING CODE 4910-60-M

Applications for Exemptions

AGENCY: Materials Transportation Bureau, DOT.

ACTION: List of Applicants for Exemptions.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, exemptions from the Department of Transportation's Hazardous Materials Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Regulation of the Materials Transportation Bureau has received the applications described herein. Each mode of transportation for which a particular exemption is requested is indicated by a number in the "Nature of Application" portion of the table below as follows: 1—Motor vehicle, 2—Rail freight, 3—Cargo vessel, 4—Cargo-only aircraft, 5—Passenger-carrying aircraft.

DATES: Comment period closes April 20, 1981.

ADDRESS COMMENTS TO: Dockets Branch, Information Services Division, Materials Transportation Bureau, U.S. Department of Transportation, Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate.

FOR FURTHER INFORMATION CONTACT: Copies of the applications are available for inspection in the Dockets Branch, Room 8426, Nassif Building, 400 7th Street, SW., Washington, DC.

New Exemptions

Application No.	Applicant	Regulation(s) affected	Nature of exemption thereof
8573-N	Shenango Enterprises, Incorporated, Fountain Valley, CA.	49 CFR 173.217	To manufacture, mark and sell non-DOT specification polyethylene bottles for shipment of certain oxidizers in four 15 pound bottles or two 30 pound bottles overpacked in a DOT Specification 12B fiberboard box (modes 1, 2, 3).
8574-N	Enterprise Steel Drum Corporation, Berlin, NJ	49 CFR 173.28(a), 178.116-10(a)	To authorize conversion of non-DOT specification tight head 18 gauge stainless steel 55 gallon drums to DOT Specification 17H except for marking for shipment of all commodities authorized in a DOT Specification 17H drum (modes 1, 2, 3, 4).
8575-N	Cincinnati Drum Service, Inc., Ludlow, KY	49 CFR 173.28(a), 178.116-10(a)	To authorize conversion on non-DOT specification tight head 18 gauge steel 55 gallon drums to DOT Specification 17H except for marking for shipment of all commodities authorized in a DOT specification 17H drum (modes 1, 2, 3, 4).
8576-N	Crown Zellerbach Corporation, San Francisco, CA.	49 CFR 172.28(m)(1)	To authorize reuse of new DOT Specification 17H drums which were previously used to ship a flammable liquid and to refill them with the same or similar material without thoroughly cleaning them (mode 1).
8577-N	Micor Company, Inc., Milwaukee, WI	49 CFR 172.312, 173.249	To authorize shipment of a corrosive liquid in a 25 mil., two quart capacity plastic bottle overpacked in a tray type polyethylene liner all overpacked into a DOT Specification 37C steel drum containing a non-regulated material (modes 1, 2, 3).
8578-N	Republic Tank and Supply Company, Temple, TX.	49 CFR 173.119(a)(17), 173.245(a)(30)(31), 178.340-8, 178.342-8, 178.343-8.	To manufacture, mark and sell non-DOT specification cargo tanks complying generally with DOT Specification MC-307/312 except for bottom outlet valve variations for transportation of flammable or corrosive waste liquids or semi-solids (mode 1).
8579-N	E. I. du Pont de Nemours and Company, Wilmington, DE.	49 CFR 176.410(d)	To authorize shipment of ammonium nitrate fertilizer in strapped or stretch wrapped palletized loaded bags aboard cargo vessel exempt from spacing criteria for bags and location (mode 3)
8580-N	Priority Air, Incorporated, Sanford, FL	49 CFR 172.101, 172.204(c)(3), 173.27, 175.30(a)(1), 175.320(b), Part 107 Appendix B.	To authorize carriage of Class A, B, and C explosives not permitted for air shipment or in quantities greater than those prescribed for air shipment (mode 4).
8581-N	U.S. Environmental Protection Agency, Research Triangle Park, NC.	49 CFR Parts 100-199	To authorize shipment of minute quantities (no greater than 100 milligrams) of various poison B liquids, flammable liquids, corrosive and ORM-A materials shipped as analytical standards when packed in specially designed packaging (modes 1, 2, 3, 4, 5)
8582-N	Missouri Pacific Railroad Company, St. Louis, MO.	49 CFR Parts 100-177	To authorize carriage of railway torpedoes and fuses packed in metal kits, in motor vehicles by railroad maintenance crews as non-regulated rail carrier equipment (mode 1).
8583-N	Process Engineering Incorporated, Plaistow, NH.	49 CFR 172.101, 173.315(a)	To manufacture, mark and sell non-DOT specification cargo tanks for shipment of certain flammable gases (cryogenic liquids) (mode 1).
8584-N	Safety-Kleen Corporation, Elgin, IL	49 CFR Part 173.245	To authorize shipment of a compound, cleaning, liquid, classed as a corrosive liquid, n.o.s. in non-DOT specification reusable 16 gallon removable head steel drums similar to a DOT Specification 37A (mode 1).
8585-N	Bergen Barrel and Drum Company, Demarest, NJ.	49 CFR 173, Subpart F	To manufacture, mark and sell a non-DOT specification reusable, tight-head polyethylene drum not to exceed 30 gallon capacity for shipment of those corrosives presently authorized in a DOT Specification 34 (modes 1, 2, 3).
8586-N	Bennett Paper Corporation, Maryland Heights, MO.	49 CFR 172.400, 172.402(a)(2)(3)(4), 172.504(a), 173.345(a), 173.364(a), 175.30.	To manufacture, mark and sell a packaging for the shipment of certain small quantities of class B poisonous liquids and solids, to be excepted from labeling requirements and flammable solids from placarding requirements (modes 1, 2, 4).
8587-N	Thatcher Chemical Company, Salt Lake City, UT.	49 CFR 173.256	To authorize shipment of a compound, cleaning, liquid, containing hydrofluoric acid, classed as a corrosive liquid in 5 gallon DOT Specification 2U polyethylene containers in a DOT Specification 12P fiberboard overpack. (mode 1).
8588-N	Sohio Alaska Petroleum Company, Anchorage, AK.	49 CFR 173.118a, 173.119	To authorize a DOT Specification 57 steel or stainless steel portable tank for shipment of flammable and combustible liquids by water (mode 3).
8589-N	Cowboy Oil Company, Pocatello, ID	49 CFR 173.315, 173.33	To authorize shipment of liquefied petroleum gas (propane) in a non-DOT specification cargo tank constructed in year 1980 in accordance with the ASME Code (mode 1).
8590-N	Hugonnet, S.A., Paris, France	49 CFR 173.119, 173.125, 173.245, 173.346(a), 173.506.	To authorize shipment of certain flammable, corrosive, poison B liquids and ORM-A materials in non-DOT specification IMCO Type I portable tanks with gravity discharge and bottom openings (modes 1, 2, 3)

New Exemptions—Continued

Application No.	Applicant	Regulation(s) affected	Nature of exemption thereof
6591-N	Hugonnet, S.A., Paris France	49 CFR 172.119, 173.125, 173.245, 173.245(a), 173.906.	To authorize shipment of certain flammable, corrosive, poison B liquids and ORM-A materials in non-DOT specification IMCO Type I portable tanks with pressure discharge and no bottom outlets (modes 1, 2, 3)

This notice of receipt of applications for new exemptions is published in accordance with Section 107 of the Hazardous Materials Transportation Act (49 U.S.C. 1806; 49 CFR 1.53(e)).

Issued in Washington, DC, on March 10, 1981.

BILLING CODE 4910-60-M

[No. WASP-1]

Civil Aircraft Allocation Order

AGENCY: Research and Special Programs Administration, Department of Transportation.

ACTION: Notice.

SUMMARY: This notice updates the Civil Aircraft Allocation Order published in the Federal Register, September 15, 1964 (29 FR 12939).

FOR FURTHER INFORMATION CONTACT: George W. Barry, Office of Emergency Transportation, Room 8330, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590.

SUPPLEMENTARY INFORMATION: With the passage of the Airline Deregulation Act of 1978 (Pub. L. 95-504), it is appropriate to redefine the statutory bases under which civil air carrier resources for the War Air Services Program (WASP) are allocated to the Civil Aeronautics Board. Accordingly, the following notice supersedes that of September 15, 1964 (29 FR 12939).

[No. WASP-1]
CIVIL AIRCRAFT
Allocation Order

Pursuant to authority under the Defense Production Act of 1950, as amended (50 U.S.C. App. 2061 et seq.), enabling Executive Order 10480, as amended, DMO-3, as amended (44 CFR Part 322.3 as amended), and Executive Order 11490, as amended, there is allocated to the Civil Aeronautics Board for use in the War Air Services Program (WASP) fleet, the following civil air carrier aircraft:

All aircraft operated by air carriers holding certificates issued by the Board under the following provisions of the Federal Aviation Act of 1958, as amended: Sections 401 (scheduled route and charter air carriers), and 418 (domestic all-cargo air carriers) and aircraft operated by commuter air carriers designated by the Civil Aeronautics Board to provide essential air service to small communities under Section 419 with the exception of those allocated or reallocated from time to time to the Department of Defense for use in the Civil Reserve Air Fleet (CRAF) Program.

This material supersedes the material appearing in FR Doc. 64-9306, filed September 14, 1964, and published in Federal Register dated Tuesday, September 15, 1964, page 12939.

Issued in Washington, D.C., on March 12, 1981.

Howard Degoff,

Administrator, Research and Special Programs Administration.

BILLING CODE 4910-60-M

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Department Circular; Public Debt Series—No. 6-81]

Treasury Notes of March 31, 1985, Series G-1985; Invitation for Tenders

1. Invitation for Tenders

1.1. The Secretary of the Treasury, under the authority of the Second Liberty Bond act, as amended, invites tenders for approximately $3,500,000,000 of United States securities, designated Treasury Notes of March 31, 1985, Series G-1985 (CUSIP No. 912827 LS 9). The securities will be sold at auction, with bidding on the basis of yield. Payment will be required at the price equivalent of the bid yield of each accepted tender. The interest rate on the securities and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of these securities may be issued to Government accounts and Federal Reserve Banks for their own account in exchange for maturing Treasury Securities. Additional amounts of the new securities may also be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities, to the extent that the aggregate amount of tenders for such accounts exceeds the aggregate amount of maturing securities held by them.

2. Description of Securities

2.1. The securities will be dated March 31, 1981, and will bear interest from that date, payable on a semiannual basis on September 30, 1981, and each subsequent 6 months on March 31 and September 30 until the principal becomes payable. They will mature March 31, 1985, and will not be subject to call for redemption prior to maturity. In the event an interest payment date or the maturity date is a Saturday, Sunday, or other nonbusiness day, the interest or principal is payable on the next-succeeding business day.

2.2. The income derived from the securities is subject to all taxes imposed under the Internal Revenue Code of 1954. The securities are subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, any possession of the United States, or any local taxing authority.

2.3. The securities will be acceptable to secure deposits of public monies. They will not be acceptable in payment of taxes.

2.4. Bearer securities with interest coupons attached, and securities registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000, and $1,000,000. Book-entry securities will be available to eligible bidders in multiples of those amounts. Interchanges of securities of different denominations and of coupon, registered, and book-entry securities, and the transfer of registered securities will be permitted.

2.5. The Department of the Treasury's general regulations governing United States securities apply to the securities offered in this circular. These general regulations include those currently in

effect, as well as those that may be issued at a later date.

3. Sale Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to 1:30 p.m., Eastern Standard time, Tuesday, March 24, 1981. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Monday, March 23, 1981.

3.2. Each tender must state the face amount of securities bid for. The minimum bid is $1,000 and larger bids must be in mulitples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.11%. Common fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a spcified yield. No bidder may submit more than one noncompetitive tender and the amount may not exceed $1,000,000.

3.3. All bidders must certify that they have not made and will not make any agreements for the sale or purchase of any securities of this issue prior to the deadline established in Section 3.1. for receipt of tenders. Those authorized to submit tenders for the account of customers will be required to certify that such tenders are submitted under the same conditions, agreements, and certifications as tneders submitted directly by bidders for their own account.

3.4. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government secutities and report daily to the Federal Reserve Bank of New York their positions in and borrowings on such securities, may submit tenders for account of customers if the names of the customers and the amount for each customer are furnished. Others are only permitted to submit tenders for their own account.

3.5. Tenders will be received without deposit for their own account from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; Federal Reserve Banks; and Government accounts. Tenders from others must be accompanied by full payment for the amount of securities applied for (in the form of cash, maturing Treasury securities, or readily collectible checks), or by a payment guarantee of 5 percent of the face amount applied for, from a commercial bank or a primary dealer.

3.6. Immediately after the closing hour, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in Section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, a coupon rate will be established, on the basis of a ⅛ of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 99.000. That rate of interest will be paid on all of the securities. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Government accounts and Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive tenders.

3.7. Competitive bidders will be advised of the acceptance or rejection of their tenders. Those submitting noncompetitive tenders will only be notified if the tender is not accepted in full, or when the price is over par.

4. Reservations

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of securities specified in Section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

5. Payment and Delivery

5.1. Settlement for allotted securities must be made at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Settlement on securities allotted to institutional investors and to others whose tenders are accompanied by a payment guarantee as provided in Section 3.5., must be made or completed on or before Tuesday, March 31, 1981. Payment in full must accompany tenders submitted by all other investors. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes or bonds (with all coupons detached) maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received from institutional investors no later than Friday, March 27, 1981. When payment has been submitted with the tender and the purchase price of allotted securities is over par, settlement for the premium must be completed timely, as specified in the preceding sentence. When payment has been submitted with the tender and the purchase price is under par, the discount will be remitted to the bidder. Payment will not be considered complete where registered securities are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. When payment is made in securities, a cash adjustment will be made to or required of the bidder for any difference between the face amount of securities presented and the amount payable on the securities allotted.

5.2. In every case where full payment has not been completed on time, an amount of up to 5 percent of the face amount of securities allotted, shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered securities tendered in payment for allotted securities are not required to be assigned if the new securities are to be registered in the same names and forms as appear in the registrations or assignments of the securities surrendered. When the new securities are to be registered in names and forms different from those in the inscriptions or assignments of the securities presented, the assignment should be to "The Secretary of the

Treasury for (securities offered by this circular) in the name of (name and taxpayer identifying number)." If new securities in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon (securities offered by this circular) to be delivered to (name and address)." Specific instructions for the issuance and delivery of the new securities, signed by the owner or authorized representative, must accompany the securities presented. Securities tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The securities must be delivered at the expense and risk of the holder.

5.4. If bearer securities are not ready for delivery on the settlement date, purchasers may elect to receive interim certificates. These certificates shall be issued in bearer form and shall be exchangeable for definitive securities of this issue, when such securities are available, at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. The interim certificates must be returned at the risk and expense of the holder.

5.5. Delivery of securities in registered form will be made after the requested form of registration has been validated, the registered interest account has been established, and the securities have been inscribed.

6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make allotments as directed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of securities on full-paid allotments, and to issue interim certificates pending delivery of the definitive securities.

6.2. The Secretary of the Treasury may at any time issue supplemental or amendatory rules and regulations governing the offering. Public announcement of such changes will be promptly provided.

Paul H. Taylor,

Fiscal Assistant Secretary.

Supplementary Statement

The announcement set forth above does not meet the Department's criteria for significant regulations and, accordingly, may be published without compliance with the departmental procedures applicable to such regulations.

5

FEDERAL DEPOSIT INSURANCE CORPORATION.

Changes in Subject Matter

Pursuant to the provisions of subsection (e)(2) of the "Government in the Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its closed meeting held at 2:30 p.m. on Monday, March 16, 1981, the Corporation's Board of Directors determined, on motion of Chairman Irvine H. Sprague, seconded by Director William M. Isaac (Appointive), concurred in by Director John G. Heimann (Comptroller of the Currency), that Corporation business required the addition to the agenda for consideration at the meeting, on less than seven days' notice to the public, of the following matters:

Recommendations regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 44,705-SR—Citizens State Bank, Carrizo Springs, Texas

Case No. 44,710-L—First Augusta Bank & Trust Company, Augusta, Georgia

Case No. 44,711-L—Franklin National Bank, New York, New York

Memorandum and Resolution re: North Point State Bank, Arlington Heights, Illinois

The Board further determined, by the same majority vote, that no earlier notice of the changes in the subject matter of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(4), (c)(9)(B), and (c)(10) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(4), (c)(9)(B), and (c)(10)).

Dated: March 16, 1981.

Federal Deposit Insurance Corporation.

Department of Transportation

Federal Aviation Administration

Advisory Circular for Performance Standards, Retread, Repair and Alterations of Aircraft Tires

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[AC No. 145-XX]

Advisory Circular for Performance Standards, Retread, Repair and Alterations *of* Aircraft Tires

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Draft advisory circular and request for comments.

SUMMARY: The draft Advisory Circular (AC) is intended to provide guidance for the development, qualification, and approval of aircraft tire repair and retread process specifications, and the use of special nondestructive inspection techniques. It also provides information related to certain rule changes having particular emphasis on aircraft tires used on transport aircraft in order that tire reliability will be enhanced, and the incident of tire failure decreased.

DATES: Comments must identify the AC No. 145-XX and be received on or before May 18, 1981.

ADDRESSES: Send all comments on the draft advisory circular to: Federal Aviation Administration, Attention: General Aviation and Commercial Branch (AWS-340), 800 Independence Ave., S.W., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT: Angelo R. Mastrullo, General Aviation and Commercial Branch, Aircraft Maintenance Division, Office of Airworthiness, Federal Aviation Administration, 800 Independence Ave., S.W., Washington, D.C. 20591; Telephone (202) 426-8204.

Comments received on the draft AC may be inspected in Room 313, FAA Headquarters Building (FOB-10A), 800 Independence Ave., S.W., Washington, D.C. 20591, between the hours of 8:30 and 5:00 p.m.

SUPPLEMENTARY INFORMATION:

Comments Invited

Comments are solicited from all interested persons. A copy of the draft AC referenced herein may be obtained by contacting the person identified under "For Further Information Contact".

Discussion of the Draft Advisory Circular

This advisory circular provides INTERIM guidance for the inspection, repair, and retreading of aircraft tires to enhance tire reliability and decrease the incidence of tire failure.

The FAA's safety surveillance and analysis of aircraft tires with respect to cause of tire failure disclosed that complex landing gear systems, unprecedented high maximum aircraft operating weights, the operation of aircraft at higher taxi speeds on long taxi distances, and the quality of the inservice tire maintenance were among the significant factors in tire failures.

In the interest of safety to meet the increasingly severe tire operation conditions, Federal Aviation Regulations (FAR) Part 25, Airworthiness Standards: Transport Category Airplanes, and Technical Standard Order TSO -C62c, Aircraft Tires, were amended to incorporate updated and improved minimum performance standards applicable to main landing gear and nose wheel aircraft type design standards covering tire loads and speed ratings.

In keeping with those improved requirements, in the interest of safety, the FAA has decided to issue interim guidance by way of this advisory circular covering tire retread process specifications that are consistent with the test and dynamometer testing specified in the TSO under which the tire was built or requalified by testing.

The FAA has recognized the need to identify minimum performance levels for aircraft tire retreading, inspection, repair and retreading process specifications predicated upon substantial data. The FAA anticipates future data inputs from two major sources. The Office of Airworthiness has established a project plan agreement with the Transportation System Center (TSC) in Cambridge, Mass., through the FAA Technical Center in Atlantic City, N.J., to develop this technology to assure the continued airworthiness of aircraft tires.

The object of this project is to set forth standards for inservice tire qualifications, tests, inspections, and will include life and retread limits for these tires. It will also establish standards for nondestructive inspection which will include the latest state-of-the-art technology. In addition, the FAA will rely on aircraft tire manufacturers who are required to furnish the FAA with maintenance data as a condition of TSO authorizations that include the inspection criteria for tires to determine the eligibility of used tires to be continued in service. Recapping procedures are required to be included in the maintenance information along with any specific repair methods applicable to the tire and special nondestructive inspection techniques.

The recommendations received from the FAA aircraft tire project, along with the tire manufacturers' data provided the FAA, will be evaluated and the analysis of the findings will be used to update this interim AC.

Issued in Washington, D.C., on March 12, 1981.

George J. Pour,

Acting Director of Airworthiness.

AC145-XX—Advisory Circular

Dated: March 12, 1981.

Subject: Performance standards, retread, repair and alterations of aircraft tires.

1. *Purpose.* This advisory circular (AC) provides interim guidance for the development, qualification, and approval of aircraft tire repair and retread process specifications, and the use of special nondestructive inspection techniques. It also provides information related to certain rule changes having particular emphasis on aircraft tires used on transport aircraft in order that tire reliability will be enhanced, and the incidence of tire failure decreased.

2. *Related FAR.* FAR Part 25, Airworthiness Standards: Transport Category Airplanes, FAR Part 43, Maintenance, Preventative Maintenance, Rebuilding and Alteration, Technical Standard Order —C62c —Aircraft Tires, FAR Part 145, Repair Stations.

3. *Related Reading Materials.* TSO —C62, —C62a, —C62b and —C62c, Aircraft Tires. Tire manufacturers maintenance and repair instructions.

4. *Background.* Federal Aviation Administration (FAA) Technical Standard Order TSO —C62c —Aircraft Tires, which sets forth the minimum performance standards applicable to the main landing gear and nose wheel aircraft tires, has been amended to incorporate updated and improved minimum performance standards. In addition, FAR Section 25.733 was amended to include more comprehensive transport category airplane type design standards related to tire loads and speed ratings. Those revisions were necessary in the interest of safety to meet increasingly severe tire operating conditions.

5. *Terminating the Use of Certain Tires.* Tires manufactured and approved under TSO —C62, —C62a, or —C62b may be continued to be manufactured under the provisions of their original approval and be continued in use on aircraft except that after December 31, 1982, no person may identify or mark a tire having a speed rating above 160 mph with those TSO numbers (Ref: TSO —C62c Paragraph (d)).

6. *Ground Load.* The ground loads which tires must support is based on the most critical combination of aircraft gross weight (up to maximum ramp weight), center of gravity position, and the effect of engine thrust, reacted by inertia at the airplane center of gravity on each main wheel tire and nose wheel tire with some exceptions.

a. *Dynamic Loading.* Since the maximum ramp weight of the airplane may be significantly greater than the maximum take-off weight, it is considered important in relation to the tire design. To account for dynamic loading conditions, and to be consistent with TSO standards, the FAR specify limiting ground reaction loads for

aircraft tires in terms of the tire load rating (Ref: FAR Section 25.733(a)(b) and (c)).

b. *Turning.* Turning loads subject the aircraft landing gear structure, wheel carriage, rims and tires to high loads. Turning loads should be computed using the most critical combination of ramp weight, center of gravity position, and engine thrust, reacted by inertia at the airplane center of gravity on each main wheel tire and nose wheel tire.

7. *Multiple Mounted Tires.* When more than one wheel and tire are mounted on a single landing gear axle, disproportionate loads on individual tires may occur. Such unequal tire loading between adjacent tires may cause temporary overloading of individual tires and subsequent tire failure.

a. *Overload Test.* The FAA has concluded that derating the main wheel tire rated load by 7 percent (i.e., a load factor of 1.07), in combination with other changes, is appropriate. The change requires high-speed tires to withstand an overload of 1.01 times the present load rating (Ref: FAR Section 25.733 (c), (1), and (2)).

b. *Matching Tires.* To assist in equalizing loads on pairs of tires on the same axle, it is recommended that tire pairs, be from the same manufacturer, be inflated to the same tire pressure, and have equal amounts of tread on each tire. These measures will help ensure equal deflection of both tires on an axle. A slight difference in tire diameter between pairs can cause excessive deflection in the larger tire, with consequent overheating; this can result in sidewall damage.

8. *Technical Data Requirements.* Manufacturers are required to provide the FAA with tire speed and load rating, rated inflation pressure, tire mold skid depth, size, width, outside diameter, nominal loaded radius at rated load and inflation pressure, permissable tolerance on the normal loaded radius, the actual loaded radius of the test tire at rated load and inflation pressure, weight, static unbalance of test tire, wheel rim designation, and manufacturer's part number. For high-speed tires a load deflection curve at loads up to 1.5 times load rating, and a summary of the loan-speed-time parameters used in the dynamometer test, are also required. The term "high-speed tire" as used herein means a tire tested at a speed greater than 120 miles per hour (mph). (Ref: TSO–C62c, Paragraph (c)(1)).

9. *Maintenance and Repair instructions.* Manufacturers are required to furnish the FAA with maintenance data that includes the inspection criteria for tires to determine the eligibility of used tires to be continued inservice. Recapping procedures must be included in the maintenance information along with any specific repair methods applicable to the tire and special nondestructive (NDT) inspection techniques (Ref: TSO –C62c, Paragraph (c) (2)).

10. *Retread, Repair and Alteration of Aircraft Tires.*

a. *Retread.* The term "retread", for the AC, refers to several means of restoring a used tire by renewing the tread alone, or by renewing the tread plus one or both sidewalls. It refers as well to the process of extending new sidewall material to cover the bead area of the tire. Repairs are included in the retreading of tires. The retread and repair of a tire is considered to be a major repair because it cannot be done by an elementary operation and, if improperly done, would affect the airworthiness of the tire. The terms recap and recapping as used in this AC are synonymous with the terms retread and retreading.

b. *Data.* A repair station that is certificated to retread aircraft tires is required by FAR Section 145.23 to perform that work in accordance with a process specifications approved by the FAA. Before the process specification is approved by the FAA, it is required to meet the requirements of FAR Section 43.13(a) and (b), and be qualified by dynamometer testing. In addition, testing such as cross section sliver inspection, NDT inspection, etc., may be required. The manufacturer of an aircraft tire is now required to furnish maintenance data that includes maintenance and repair, recapping information, and special NDT inspection techniques. Such information provided by a tire manufacturer does not constitute an approved process specification. However, such data may be acceptable for use by a retreading agency in developing its process specifications to be submitted for approval. Required testing for approval is as follows:

(1) *For retreading tires manufactured under TSO –C62b,* the process is required to meet the requirements of FAR Section 43.13(a) and (b), be qualified by the test and dynamometer testing as outlined in AC 43.13–1A, Acceptable Methods, Techniques, and Practices, Aircraft Inspection and Repair, Chapter 8, Paragraph 332. Aircraft tires manufactured under TSO –C62b may continue to be retreaded using FAA approved process specifications for the TSO –C62b tires for use on aircraft.

(2) *Since the revised TSO –C62c* –Aircraft Tires, contains updated and improved minimum performance standards, repair stations who retread TSO –C62c tires will be required to requalify their retread process specifications to substantiate that the process can produce a product that meets the requirements of FAR Section 43.13 (a) and (b), and be qualified by the test and dynamometer testing as outlined in the TSO under which the tire was built.

(3) *Aircraft tires manufactured under TSO –C62b* which are requalified to TSO –C62c in order to remain a –C62c tire will be required to be retreaded under a process specification approved by the FAA for use on a –C62c tire. If any other process is used the tire will revert back to a –C62b aircraft tire.

c. *Performance.* The maintenance performance rules of FAR Section 43.13(a) and (b) state in part that, a product after undergoing maintenance shall be at least equal to its original or properly altered condition. This makes it necessary for a tire on which maintainance was performed to continue to meet the requirements outlined in the TSO under which it was built or qualified by testing. Retread tires are required to meet the same qualifications as when the tire was new in regard to speed rating, load rating, size, material, weight, skid depth, etc. Any deviations from the specifications under which a tire was built or qualified by testing would be an alteration to the tire and it would be considered a new product. As a new product, it would be necessary for the altered tire to be tested for approval under the TSO, and, be approved for use on each aircraft of which it would be a part.

11. *Tire Repairs.* The following represent industry practices regarding aircraft tire repairs.

a. *For high-speed tires:*

(1) *Tread Area.* Cuts, cracks, or other tread injuries 1½ inches in length and ¼ inch in width or less on the first cord body ply, and which do not extend through more than 40 percent of the actual tire cord body plies, may be repaired without an inside reinforcement. However, any tread injury repaired by skiving or resping methods must not have the final repair greater than 2 inches in length.

(2) *Major Tread.* Repairs to tread areas are limited to six (6) per tire and must be no closer than 60 degrees apart along the tire circumference. Major repairs consist of repairs to tread injuries that penetrate a distance equal to 40 percent of the actual tire cord body plies, and are 1½ inches in length or less on the first cord body ply.

(3) *Tread Injuries.* Injuries that are less than major repairs are not limited.

(4) *Punctures.* Punctures that penetrate through the cord body are not repairable.

(5) *Sidewall Rubber.* Surface defects of any degree (checking radial and circumferential cracks, cuts and snags) may be repaired provided the injuries do not penetrate into the cord body fabric plies.

(6) *Sidewalls.* Sidewalls that display a significant amount of ozone cracking or weather checking shall be veneered during retreading. Retreaders must be equipped to recover sidewalls on all of an airline's tire sizes processed by a particular retreader.

(7) *Bead area.* Bead areas must be free of cuts, snags, separations, deformations or other irregularities. Minor damage to the bead area may be repaired provided the cord body plies are not damaged.

(8) *Bead seal.* The bead seal must not be affected or intersected by impressions or depressions.

(9) *Bead Face and Bead Heel.* Those areas must be smooth.

(10) *Bead Toe.* The bead toe must be trimmed so that no edges are exposed above the bead face and so that any bead toe flash remaining does not protrude more than ⅛ inch from the face contour of the bead. If trimming of the bead toe is necessary, the trimming shall not cut or expose the tire cord material or more than one layer of chafer fabric.

(11) *Chafer Strip.* Minor injuries in the chafer strip or slight tire tool injuries in the general bead area, if they do not extend into the plies of the tire and there is no sign of separation in the bead area, can be repaired. Loose or blistered chafer strips can be repaired or replaced.

(12) *Inner Liner.* Inner liner surface damage and defects other than liner splices that are less than two inches in length, may be repaired. A maximum of ten of these repairs are acceptable with no more than three repairs in any one quadrant. Liner splice

damage and defects may be repaired if less than ten inches in length.

(13) *Exposed Cord.* Exposed cord, either in the breaker or carcass ply, must not exceed one percent of the buffed total tread area on one spot or more than two percent for the entire tire. Exposed fabric shall not exceed one carcass ply in depth.

(b) *For low speed tires.*

(1) *Bead Injuries.* Repairs may be made where only the chafe resistant material is damaged or loose, or where minor injuries do not penetrate into more than 25 percent of the tire plies up to three damaged plies.

(2) *Tread or Sidewalls.* Injuries may be repaired by the spot method. This includes cuts in the tread area that are smaller than ½ inch in length and do not penetrate more than the following number of plies into the cord body.

Ply rating	Maximum cut depth (plies)
Less than 8	
8 through 16	2
More than 16	4

12. *Retreadable Tires.* Tires with sound cord bodies and beads, or those with flat spots which do not extend into the carcass plies, are retreadable. This should be established by appropriate NDT using the equipment, techniques, and procedures which are recommended by the tire manufacturer or those outlined in the repair station's process specification approved by the FAA.

a. *Number of Retreads.* The wide variation in tire operating environments which may affect total carcass life and serviceability make it inadvisable to prescribe arbitrarily the maximum number of times a tire should be retreaded. Tire studies have disclosed that due to the complexity of aircraft tires, the propagation mechanism is critically influenced by the overall structural strength and structural uniformity of the carcass. Small separations in a weak carcass may propagate very fast while the same separation in a very strong carcass will propogate very slowly and go through many R levels before it will lead to a terminal failure. Accordingly, the number of times a tire can be recapped can only be controlled by a thorough inspection of the carcass, using all the appropriate NDT methods for each area of the carcass being inspected.

b. *Marking of Retreaded Tires.* Whenever it is necessary to replace the area containing the required original markings (Ref: TSO–C62 as applicable), or if those markings are damaged, such markings are required to be replaced. When retreading tires for certain air carriers, they may require additional tire markings. In addition, each retreaded tire sidewall should be permanently embossed with the retread information as follows:

(1) *The letter "R"* followed by a number "1", "2", etc., to signify the sequential number of retreads applied therein.

(2) *The month and year* of retread application.

(3) *The name* or identifying letters of the person who retreaded the tire.

(4) *The plant location* of the retreader.

c. *Balance Marker.* To indicate the lightweight point of the tire, remove the old balance marker and durably affix a new relocation balance marker, consisting of a single red dot of appropriate size, to the sidewall of the tire immediately above the bead. The dot should remain for any period of storage plus the retread life of the tire.

d. *Tread Design.* All tires will have a full circumferential groove tread design. The grooves will be continuous, uninterrupted, and of constant depth around the tire circumference.

e. *Tread Reinforcement Fabric.* The uppermost ply of tread fabric must be placed at least 1/32 inch below the bottom of the tread grooves to prevent cord fraying or breaking. The tread reinforcing fabric must not end directly under an outer tread groove.

f. *Balance Tolerance.* Initially an attempt must be made to balance all tires to zero unbalance, but nose tires must be statically or dynamically balanced to within one ounce of zero unbalance, and main tires must be statically or dynamically balanced to within two ounces of zero unbalance.

g. *Tire Weight.* The weight of a tire will not be greater than the applicable aircraft type certificate limitations unless specified otherwise.

h. *Balance Pads.* Balance pads must be removed prior to performing the initial liner leak check.

i. *Tire Venting.* All existing vent holes shall be rebored if not venting during air needle test or if covered during the retreading operation.

j. *Tire Dimensional Roundness Control.* Tire will be placed in a drying room at a temperature of 150°F + 10°F under a relative humidity of less than 15 percent for at least twelve hours before retreading. Tires shall preferably be laid flat and supported off the floor by utilizing pallets.

13. *Nonrepairable Aircraft Tires.* If any of the following conditions exists, repair of the tire is not recommended.

a. *Injuries to the bead* or bead area (except repairs may be made where only the chafe resistant material is damaged or loose if damages do not extend into the plies of the tire and if there is no sign of separation in the bead area).

b. *Bead injuries* that affect the seal of the bead on tubeless tires.

c. *Evidence of separation* between plies or around bead wire.

d. *Injuries* requiring reinforcement and all injuries requiring sectional repair.

e. *Kinked or broken* bead.

f. *Weather checking* or radial cracks that expose body cords.

g. *Evidence of* flex breaks.

h. *Loose,* internally damaged or broken cords.

i. *Broken or cut cords* in the outside, sidewall, or shoulder area.

j. *Evidence of blisters or heat damage* to the bead seat where reversion, scorching or rubber flaking has occurred.

k. *Cracked, deteriorated,* or damaged inner liners.

l. *Flat spots and skid burns* that have penetrated more than one carcass ply.

m. *Tires that have been* heavily saturated with grease or oil.

n. *A tire run flat* or partially flat due to loss of air pressure, melting, or failure of fuse plugs should be scrapped, even though no unusual damage is evident. It is recommended that a dual mounted tire should also be removed and not repaired or reused. The only exception would be if the tire lost air and was not run in an underinflated condition.

o. *Tires when sidewalls have been buffed and veneered three times.*

14. *Certification of a Repair Station for Aircraft Tire Retreading.* A limited rating-specialized service for aircraft tire retreading is issued to an operator who desires to operate a repair station to retread aircraft tires. The wide differences in the techniques, materials and processes used by the aircraft tire manufacturers makes it necessary for a tire retreader to provide specific detailed process data for the repair and retreading of aircraft tires.

a. *Repair stations* may obtain such data from the respective tire manufacturer or may develop its own for inclusion in its process specification required by FAR Section 145.33(c). The process specification requirements are outlined in paragraph 10(b) of this AC.

b. *Since a process specification* for the retreading of aircraft tires contains in-depth details and instructions for the inspection, repair and retreading process, the document should be given a title and number by the applicant. The process specification should identify all types of tires to which the process specification applies, including qualification test reports and outlines of the procedure for the use of the specification by repair station personnel. A statement should be included to show that all changes to the process specification must be submitted to the FAA for approval before being implemented. The specification should also relate that if there are any current or future requirements of the FAR, the FAR requirements will take precedence. After the process specification is approved by the FAA, it is required to be referenced on the Repair Station Operations Specifications, FAA Form 8000–4–1 by title, number and date approved.

c. *Since the revised* TSO–C62c contains updated and improved minimum performance standards, repair stations will be required to requalify their retread process to substantiate that the process can produce a product equal to those new standards.

d. *Repair stations retreading tires* for an air carrier having a continuous airworthiness program under FAR Parts 121, 125, 127, or 135 must perform that work in accordance with the procedures as outlined in the air carrier's maintenance manual.

(1) Air carriers should assure that its maintenance manual content will provide that a retreaded tire meets the performance rules of FAR 43.13(a) and (b) and the TSO under which the tire was built or qualified by testing.

(2) Aircraft operators should consider keeping a detailed history of a tire. A copy of this record sent to the retread agency would be an asset to help determine if it would be economical for a tire to be retreaded, and possibly prevent an in-service failure of a

retreaded tire. The history should contain information such as, tire serial number, brand name, the date of manufacture, total time in service, number of landings, reasons for prior removals or repairs made to the tire during prior retreads, etc.

(3) A copy of that record should be supplied to the retread agency along with information as to why the tire is now being sent to that agency. Such as, rejected take-off, underinflation, dual mounted on axle with a failed tire, went flat static, went flat in motion, fuse plug blew, etc.

e. *The retreader's record* of work performed for each tire processed should at least contain information as follows:

(1) *Brand name.*
(2) *Tire size.*
(3) *Load rating.*
(4) *Speed rating.*
(5) *Serial number.*
(6) *Ply rating.*
(7) *Retread number.*
(8) *Skid Depth.*
(9) *Repairs made* to carcass prior to retreading and previous repairs noted that were not recorded.
(10) *Manufacturer's Part No.*
(11) *Type of tread applied.*
(12) *Plant Code.*
(13) *Month and year applied.*
(14) *Applicable TSO Number.*

f. *The retreader's quality control system* is expected to maintain a satisfactory level of workmanship throughout the retread process, including assurance that each retreaded tire meets the qualification specifications as outlined in the TSO under which the tire was built or qualified by testing. It should contain an acceptable means for determining that the methods, techniques, and practices utilized in the retread process will continue to produce a tire that meets the requirements of FAR Section 43.13, and that the work is done in accordance with the retreader's FAA approved process specification, by subjecting a representative tire to the qualification tests as outlined in the TSO under which the tire was built or qualified by testing. In addition, a representative tire of each R number escalation should also be subjected to those tests.

15. *Tire Inspection.* The life span of an aircraft tire is expected to include several retreads. In order to provide an increase in tire life span, it is necessary to subject the worn or defective tire to inspection procedures and limiting defect criteria to qualify the tire for repair, retread and return to service. Continued research is being conducted to improve tire inspection methods and criteria that will improve existing levels of tire performance, and enhance the safety of tires in service.

a. *An aircraft tire* is passed through a repair agency's inspection system to determine if the tire has defects that would make it uneconomical for retreading. The first unrepairable defect that is noted is cause for the tire to be marked for scrap and no further work is done on the tire.

b. *All repairable damage and/or defects found* are marked and identified on the work sheet for attention during the retread process.

16. *Inspection Methods.* Only three inspection procedures are now in relatively widespread use by tire retread agencies. (1) Visual, (2) air needle, and (3) holographic. Other candidate procedures require testing and validation before they can be considered effective for insuring the airworthiness of tire casings. Each procedure has limitations and should be used with full knowledge of the risks of overlooking potentially damaging defects. As inspection technology evolves, and after suitable validation, a candidate procedure will be added to these recommendations. A list and description of other candidate inspection procedures is also included in this document. Inspection procedures presently being used and evaluated by tire retread agencies are as follows:

a. *Visual Inspection.* A detailed visual inspection is the first inspection that a qualified inspector makes of an aircraft tire's outer surfaces. Any external damage that would be a reason to reject a tire for retread is usually detected during the visual inspection. Consequently, the visual tire inspection process will qualify a tire for retreading and continued service, reject it, or recommend nondestructive inspection (NDI). Visual inspection will include cuts, breaks, ply separations, exposed cords and bead damage. Specifically the visual tire inspection will include the items listed below:

(1) *Age*: Review it's history sheet, date of manufacture, use environment, number of retreads, and repair history.

(2) *Weather Checking*: Examine for sidewall checking that has exposed cords beyond repair limits.

(3) *Cuts and Punctures*: Check for injuries which have penetrated the ply structure beyond the repair limits.

(4) *Exposed Fabric*: Check for exposed fabric resulting from excessive tread wear, heavy scuffing, and bead damage that has exposed turn-up plies and/or chafer fabric.

(5) *Ply Separation*: Examine for visual signs of carcass separations in the tread, shoulder, and bead areas.

(6) *Bead Damage*: Check for bead damage that might affect the bead seal, abrasions, exposed bead wires, and evidence of excessive heat.

(7) *Internal Breaks or Ruptures*: Inspect for breaks or ruptures to the liner that will allow air to pass into the carcass.

(8) *Removal of Balance Pads*: Examine for damage to the liner, i.e. exposed fabric, etc.

(9) *Spot Repairs*: Inspect the casing to determine the need for spot repairing, determine whether the strength of the tire is affected, and approve or disapprove the repairs accordingly.

(10) *Foreign Material*: Examine the casing to ensure that the casing is free of embedded stones, nails, glass, and other foreign materials.

(11) *Pass-Fail Criteria*: See Paragraph 16b(3) this AC.

b. *Air Needle Inspection.* Aircraft tires will be inspected twice using the air needle method during each retread process. The first inspection is made after the visual inspection to check for liner and bead leaks, ply separations, and other defects such as improper venting. After the tire is repaired and the retread is cured, a second air needle inspection is acomplished to verify satisfactory vent hole function and to check for leaks, ply separations and defects that occured during retreading.

(1) *Equipment Description:* The operation requires:

(i) A rack for holding the tires in an upright position.

(ii) Hypodermic needles, 15 to 16 gauge, .050 inch ID, and approximately ½" long with special adapters allowing them to be attached to high pressure hoses.

(iii) A regulator capable of adjusting and monitoring air pressure at 125 psi.

(iv) A line trap within the system to collect moisture, oil and dirt.

(v) A portable light for close inspection work.

(vi) An air gun spray for applying leak indicator solution.

(2) *Test Method:* For the test two separate needles are inserted into each sidewall of the tire approximately 180° opposite each other. The needles are inserted in the ply turn-up region (just outboard of the annular rings) at a 45° angle to the sidewall surface with the needle point outboard away from the bead so the needle penetrates into the carcass plies taking care to use a needle length that will not penetrate the liner and cause a liner leak.

(i) The ply structure of the casing will be pressurized to 125 psi, for a minimum of 15 minutes.

(ii) The vent holes are sprayed with a leak indicator solution. Air leakage from the vent holes will verify that air pressure has migrated throughout the carcass.

(iii) Leak solution is then sprayed on the liner and over both bead areas. The surfaces are visually inspected for air bubbles, and by touch, for bulges.

(iv) Bulges are probed to determine the depth of the separation and/or cord breakage. Small isolated leakage, if only the liner, may be repairable by patching.

(v) All excess leak detector solution is cleaned from the tire. The inspection results are noted on the tire work sheets and the tire is forwarded to a drying room prior to repair or retreading.

(vi) After retreading, cleaning and trimming, the tire is given the second or final air needle test. Retreaded tires rechecked by air needle inspection station for defects, are returned to shop for correction or rejection.

(3) *Pass/Fail Criteria* described in this AC represent a consensus of industry practice and not verified test results. Tests are presently in progress to establish safe flaw sizes for tire operating condition. When these tests are complete the results will be included as part of the pass/fail criteria. When any of the following conditions become evident, the tire should be rejected:

(i) In tire sizes:

40 x 14, 20 ply rated, 120 MPH
40 x 14, 22 & 24 ply rated, 225 MPH
41 x 15, 22 ply rated, 225 MPH
(A) Shoulder separations larger than ⅜"
(B) Crown separations larger than ¾"

(ii) In tire sizes:

40 x 17, 30 ply rated, 210 MPH
50 x 20, 32 & 34 ply rated, 225 MPH
(A) Shoulder separations larger than ½"
(B) Crown separations larger than 1"

(C) Any ply separation in the bead areas, including the turnups and chafers, shall cause the tire to be rejected.

c. *Holographic Inspection.* This system uses a photographic technique to detect distortion of a tire surface in an unstressed condition as compared to that same surface in a stressed condition. The stress is applied by enclosing the tire in a controlled vacuum environment.

(1) *A photographic film* is double exposed with the first exposure of the tire surface in the unstressed position in ambient air and the second exposure of the same tire surface stressed with the tire in the vacuum chamber.

(2) *Holography is a process* of three dimensional photography that requires a coherent or single frequency light. A laser is used and the beam is split into two distinct paths. One path is called the object beam, used to illuminate the object and is reflected back from the object to the film plane. The second path is the reference beam, brought directly onto the film plane by a system of mirrors. It is the interference of the reflected light waves from the object and the reference beam that creates an interference pattern that is recorded on the film producing a "hologram."

(3) *Capillaries* in the cord plies of a tire and the micropores in the rubber contain air. The quickly induced vacuum allows expansion of this air, causing swelling of the tire and a small movement of the tire surface towards the camera. A separation defect would permit a local increase in movement or bulging.

(4) *Using the double exposure holographic technique,* small surface movements change the length of the reflected light path. This difference in optical path length creates a series of interference lines on the hologram. If the surface of the stressed tire moves uniformly toward the film plane, the interference fringe lines are horizontal and uniform. If the object contains a structural defect, it would produce distorted fringe lines in the local defect area.

(5) *Different types of structural defects* produce their own characteristic of distorted fringe lines. By learning to recognize those different types, the location, type and size of structural defects can be noted.

(6) *Bead to bead inspection* is readily available with holographic nondestructive testing using two different techniques, inside mirror view or outside camera view. Due to the complex shape of the tire, the crown, shoulders and mid-sidewall regions are inspected together in one view from the inside. The lower bead region can be viewed from the inside by inserting mirrors into the tire and looking at the reflected image. There is currently available a camera which can view the crown, shoulder and mid-sidewall areas from the inside and can be moved from the inside to the outside of the tire to view the lower bead region from the outside. This transition from the inside to outside can be accomplished in a matter of seconds.

(7) *Equipment Description:* Holographic equipment is available commercially and consists of the following:

(i) A platform supporting a turntable upon which the tire is mounted for inspection.

(ii) A laser and interferometer mounted on the same platform so that a fixed relationship with a tire can be maintained. All elements involved in the photographic process are uniformly vibration isolated on the platform.

(iii) Camera and interferometer optics mounted at the center of the turntable.

(iv) A dome over the entire assembly within which a partial vacuum may be created.

(v) A device used to spread the tire beads for the insertion of spreader bars.

(vi) A hologram viewer illuminated by a laser light source. Adequate floor space is necessary for the flat storage of tires, while allowing for dimensional stabilization after spreading.

(8) *Inspection Procedure.*

(i) The tire's beads are spread apart and the tire is allowed to stabilize for about 30 minutes.

(ii) The tire is loaded on the machine's turntable and fixed into position; the dome is brought down over it.

(iii) The tire is illuminated by a laser and is photographed.

(iv) Without moving the tire, a vacuum is induced within the chamber and the tire is again photographed, double exposing the hologram.

(v) Steps (iii) and (iv) are repeated until all four quadrants of the tire have been photographed.

(vi) The film is developed and the hologram is read.

(9) *Pass/Fail Criteria.* See Paragraph 16b(3) of this AC.

d. *Other Nondestructive Inspection Techniques.* Several promising techniques are beginning to be considered for aircraft tire integrity confirmation. While some show great potential, none has the ability to consistently demonstrate the ability to find flaws related to tire airworthiness. The criterion for acceptance of a potential technique should answer to the question: "Is the technique valuable in identifying tires which may fail to remain airworthy during the next cycle between retreads?" No known inspection method can find all flaws, but several have proved to be cost effective in reducing the number of tire removals between retreads, when used in the appropriate circumstances. As nondestructive technology evolves, new methods will become available which meet these criteria. The FAA in its approval procedure will compare the proposed overall inspection procedure to the anticipated maximum service severity of the carrier, in order to determine whether the procedure provides the necessary safeguards to maintain tire airworthiness. It is presently recognized, that a method for efficient casing selection prior to retreading tires is essential for an overall tire quality assurance program. Some of the other nondestructive inspection techniques are:

(1) *Air Needle Buffing.* This is accomplished on a machine designed to permit tire buffing and air needle inspection at the same time.

(i) The tire to be inspected is installed onto the expandable rim of the tire buffing machine. The rim is expanded by air pressure and the tire is inflated by air pressure to force the beads outward against the rim flanges and firm the tire to its inflated position. The air needles are put in place and the tire is slowly rotated to check needle hoses for clearance while rotating.

(ii) The buffing operation is started in a normal manner. As the heavy tread and shoulder rubber and tread reinforcement plies are buffed off, separation may become apparent on the buffed surface since outward surface bulges are no longer suppressed by the heavy outer rubber.

(iii) The machine operator continually observes the surface for separation evidence and may stop the machine for closer inspection. Carcass ply separation is cause for disqualifying a tire for retread. Isolated separations between outer carcass ply and undertread rubber may be repairable.

(2) *X-ray Method.* Present day X-rays use a video image of a flourescope screen for direct observation by the tire inspector in place of the use of film to record a tire image.

(i) The machinery used is composed of two enclosures that are air conditioned. The radiation enclosure houses the tire manipulator, and drive the X-ray source, generator system, cooling system, and the image system. The second is the operator enclosure that houses the systems controls and the operator's video display used during inspection. A radiation protective window is provided adjacent to the console so the operator has a direct view of the tire as it is manipulated during the inspection.

(ii) Analysis of defective areas in the structure of a tire requires a knowledge of tire construction. Anomalies appear as an area of greater distinguishable brightness than the surrounding area of similar construction for surface gouge or some separations. X-ray detects the tire construction components by their relative transparency to radiation. A single ply flaw in a multi-ply tire cause a small difference in overall X-ray transparency and is difficult to detect. In tires that contain multiple bead wire bundles, one bundle screens the X-ray penetration from the others and they are difficult to view. X-ray has a limited use in the inspection of a tire carcass.

(3) *Ultrasonic* is a system that uses sound waves passed through the tire to inspect the integrity of the laminated structure of the tire. The tire being inspected by a sonic method may be surrounded by various media, usually air or water, through which the sound travels from transmitter to the tire and then to the receiver. Testing in a media is necessary since the transducers are not in direct contact with the tire surface. By detecting the changes in sound wave transmission, it is possible to detect anomalies in the tire. Following are two systems in general use.

(i) *Through-Transmission.* This type uses a device (transducer) to generate sound waves near one surface of the tire and one or more receivers on the opposite side of the tire to detect the sound wave and converts the intensity of the received sound into an electrical voltage signal which is displayed as a wave form trace on an oscilloscope. When a ply separation or other tire defect is in the path of the transmitted sound, the wave form is changed in relation to the anomaly. A ply separation makes a noticeable reduction in the intensity of the sound at the receiver,

causing an altered wave form. A comparison of the altered wave forms displayed when the sound is received in an area of the tire containing a defect, with a region of the tire without a defect confirms the presence of the defect and usually shows the type and size of the anomaly.

(ii) *Pulse-echo.* This system also uses transducers to transmit a sound wave at very short intervals and to receive the delayed reflected sound waves from the intersurface of the tire laminate layers in the path of the transmitted waves. The reflected sound waves or echos from successive laminations are received at successively later times as the distance traveled by the transmitted and reflected sound increases. Each layer in the tire laminate affects the reflected wave forms in accordance with the layer material's sound transmission and sound impedance characteristics, as does an anomaly within the laminate. On an oscilloscope display the wave form differences can be evaluated to determine the type and extent of tire anomalies.

e. *100 percent tire inspection.* A review of tire studies shows that no single NDT inspection method can detect all the possible unsafe tire defects. It is therefore necessary to use multiple tire inspections to cover the entire tire structure to locate all possible defect areas.

(1) In order to quickly identify a tire that is not economical for retreading, it is recommended that the visual inspection should be done first in conjunction with an air needle inspection to check for liner leakage and vent hole function. This should provide identification of liner leaks to be considered for repairs or scrapping of the tire and to check the integrity of any earlier repairs. After those inspections, advanced NDT methods should than be used to further qualify a tire carcass for retreading.

(2) The holographic inspection method is the primary advanced method which is used on aircraft tires as a routine retread qualification method. It is used to search for separations in the bead, mid-sidewall, shoulder, and crown areas of tires and to check the overall structural integrity of a tire carcass as related to defects such as separation, poor adhesion, weak or loose splices, undercure, flex breaks, integrity of repairs, and porosity. Holographic tire inspection equipment is commercially available, and, considering the vast background experience in the process and analysis, this is ideal for use after the initial inspection to further qualify tires for retreading or as a final inspection to qualify the retread process.

(3) There is no off-the-shelf ultrasonic test equipment available for aircraft tires. Until such equipment is available, its use will be limited.

(4) X-ray inspection equipment is commercially available for aircraft tires and is used widely for examination of tire construction, but little of it is used for the qualification of aircraft tires for retread.

17. *High-Speed Tire Maintenance and Operational Practices.* Studies show that tire failure and carcass deterioration of inservice tires can be alleviated by proper maintenance and operational practices. Advisory Circular No. 20-97 provides information on the causes of aircraft tire failures and methods of increasing tire reliability. This advisory circular is available from the U.S. Department of Transportation, Publications Section, M-443.1, Washington, D.C. 20591.

Department of Transportation

Research and Special Programs Administration

Listing of Hazardous Materials

DEPARTMENT OF TRANSPORTATION

Research and Special Programs Administration

49 CFR Part 172

[Docket No. HM-145C Amdt. No. 172-66]

Listing of Hazardous Materials

March 10, 1981

AGENCY: Materials Transportation Bureau (MTB), Research and Special Programs Administration, Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: This rule amends the Hazardous Materials Regulations to include materials that have been determined by EPA to be "hazardous substances," as that term is defined in the comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), also known as the "Superfund" Act. Section 306(a) of that Act requires that each hazardous substance which is listed or designated as such shall, within 90 days after the date of enactment of the Act, be listed as a hazardous material under the Hazardous Materials Transportation Act. The effect of this rule is to initiate coordination of the MTB hazardous materials program with the implementation of CERCLA.

EFFECTIVE DATE: July 1, 1981.

FOR FURTHER INFORMATION CONTACT: Thomas Charlton (202-426-2075), Standards Division, Office of Hazardous Materials Regulation, Materials Transportation Bureau, Washington, D.C. 20590.

SUPPLEMENTARY INFORMATION:

Background

Section 306(a) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) requires that, within 90 days after the date of enactment of the Act, each substance that is listed or designated as a hazardous substance under the Act shall be listed as a hazardous material under the Hazardous Materials Transportation Act (HMTA). Section 306(b) provides that common and contract carriers shall not be liable under CERCLA for releases of hazardous substances prior to the effective date of the listing of that substance as a hazardous material unless it is demonstrated that the carrier has actual knowledge of the identity or nature of the substance.

The purpose of these provisions is twofold: First, to assure coordination of the implementation of CERCLA (as it relates to transportation) with the administration of the HMTA so as to avoid regulatory inconsistencies and overlaps; and, second, to provide reasonable notice, through the HMTA regulatory system, to transporters of hazardous substances that they are subject to the liability and other provisions of CERCLA.

Listings

The purpose of this final rule is to fulfill the requirements of Section 306(a) of CERCLA by listing as hazardous materials those substances that EPA has determined to be "hazardous substances," as defined in Section 101(14). That definition incorporates six lists of substances, five of which have been developed under other statutory authorities:

1. Section 311(b)(2)(A) of the Federal Water Pollution Control Act (FWPCA);
2. Section 3001 of the Solid Waste Disposal Act;
3. Section 307(a) of the FWPCA;
4. Section 112 of the Clean Air Act; and
5. Section 7 of the Toxic Substances Control Act (TSCA).

The sixth list is comprised of substances for which authority to designate is granted to EPA in Section 102 of CERCLA.

The listing in this rule does not include:

1. Substances listed under Section 311(b)(2)(A) of the FWPCA. These substances were incorporated into the Hazardous Materials Table on May 22, 1980, (45 FR 34560) and are currently covered by the Hazardous Materials Regulations. It is therefore unnecessary to repeat them in this listing.

2. Substances under Section 7 of the TSCA. No substances have yet been designated under this authority.

3. Substances designated under Section 102 of CERCLA. No substances have yet been designated under this authority.

The listing in this rule includes substances designated under Section 307(a) of the FWPCA, Section 3001 of the Solid Waste Disposal Act, and Section 112 of the Clean Air Act. It should be noted that many of these substances either are already listed in the Hazardous Materials Table or meet an existing hazard class definition and are currently subject to the Hazardous Materials Regulations. Today's listing indicates by asterisk (*) those materials that were listed as hazardous substances in the Department's May 22, 1980, final rule. With respect to the other substances listed, reference should be made to the existing regulations to determine their applicability to those substances.

Effect of Listings

This rule meets the requirement of Section 306(a) of CERCLA since hazardous substances, as defined in Section 101(14) of CERCLA, are listed as hazardous materials under the Hazardous Materials Transportation Act. It does not, however, extend the applicability of the Department's Hazardous Materials Regulations to any materials that are not already covered by those regulations. For example, if in the past shipping papers were not required by 49 CFR 172.200 for a material included in this new listing, they will not now be required as a result of the listing. Specifically, the Department is not at this time incorporating these materials into the list of "hazardous substances," as defined in the Hazardous Materials Regulations (49 CFR 171.8), nor is the Department assigning reportable quantities (RQs) for purposes of the Hazardous Materials Regulations.

Section 102 of CERCLA provides that, pending establishment by EPA of a different quantity, the RQ for all hazardous substances shall be one pound. The Hazardous Materials Regulations provide that shipping papers must be issued for all shipments of hazardous substances (as defined in § 171.8) that equal or exceed their reportable quantity. Therefore, the effect of listing the materials covered by this action as "hazardous substances," as defined by the Department, and assigning an RQ of one pound would be to vastly increase the number of shipments requiring shipping papers under the Hazardous Materials Regulations. For example, every shipment of galvanized steel containing more than one pound of zinc would require a hazardous materials shipping paper. This result would not promote the purposes of CERCLA, and it would be contrary to the Department's goal of minimizing paperwork requirements.

At such time as EPA exercises its authority under Section 102 to establish RQs for particular substances, the Department will determine the appropriateness of listing those substances as "hazardous substances" and assigning those RQs to them.

It should be noted that, as discussed above, some of the materials listed in this rule are already designated as hazardous substances in the Hazardous Materials Table, and RQs for these materials have already been assigned.

Section 102 of CERCLA provides that all materials in today's listing that have not been assigned an RQ shall have an RQ of one pound pending establishment

of a different quantity by EPA. Section 103 (a) and (b) of CERCLA requires that all releases of an RQ of a hazardous substance into the environment be reported to the National Response Center. While the Department does not currently contemplate changing its general incident reporting requirements (49 CFR 171.15 and 171.16), EPA is currently developing a notice explaining how it will implement the requirements of Section 103 (a) and (b) of CERCLA. Shippers and transporters of materials listed in this rule should contact EPA (Mr. H. D. Van Cleave, Acting Director, Emergency Response Division (WH-548), Office of Hazardous Emergency Response, U.S. EPA, 401 M Street, SW., Washington, D.C. 20460, (202) 245-3045) for additional information regarding these reporting requirements.

With respect to those materials listed in this rule that are not already covered by the Hazardous Materials Regulations, the Department is aware that, since shipping papers are not required for these materials, carriers will not always be aware that CERCLA's release notification requirements apply to them. While this uncertainty is unfortunate, it is far preferable to the imposition of extensive new shipping paper and other regulatory requirements that would be necessary to provide carriers with certainty. Furthermore, this uncertainty is an interim consequence of the enactment of CERCLA; as EPA establishes RQs for these materials, the Department will begin to incorporate them into the Hazardous Materials Table as "hazardous substances" and assign RQs to them, at which point the Department's requirements of the Hazardous Materials Regulations will apply.

With respect to the release notification requirements for hazardous substances, (as defined in 49 CFR 171.8), it should be noted that, in addition to the requirements of 49 CFR 171.17 for releases "into or upon the navigable waters or adjoining shorelines," Section 103 (a) and (b) of CERCLA requires the reporting of such releases into the "environment," which is defined broadly to include surface water, ground water, land surface, and ambient air.

Regulatory Impact

The listing contained in this rulemaking, which is required by Section 306(a) of CERCLA to be promulgated within 90 days after the date of enactment of that Act, is essentially informational in nature since no new regulatory requirements are imposed as a result of the listing. Therefore, this rule does not constitute a "major rule" as defined in Executive Order 12291 and DOT implementing procedures (44 FR 11034).

With regard to the requirements of the Administrative Procedure Act (5 U.S.C. 553), the Department finds that notice and public procedure thereon are impracticable and unnecessary because this rule is required to be promulgated within 90 days after the enactment of CERCLA.

In consideration of the foregoing, Part 172 of Title 49 Code of Federal Regulations is amended as follows:

PART 172—HAZARDOUS MATERIALS TABLES AND HAZARDOUS MATERIALS COMMUNICATIONS REGULATIONS

1. Section 172.101 is amended by adding the following after the Hazardous Materials Table:

§ 172.101 Hazardous Materials Table.

* * * * *

CERCLA List

Note.—The following listing fulfills the requirement of Section 306(a) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), that all "hazardous substances," as defined in that Act, shall be listed as hazardous materials under the Hazardous Materials Transportation Act. That definition includes substances listed under Section 311(b)(2)(A) of the Federal Water Pollution Control Act (FWPCA). Those materials have already been listed as hazardous substances in the Hazardous Materials Table of this section, and that listing is not repeated here. The definition of "hazardous substance" in CERCLA also includes substances designated under Section 307(a) of the FWPCA, Section 3001 of the Solid Waste Disposal Act, and Section 112 of the Clean Air Act. The following listing consists of materials designated under those authorities. Materials indicated in the listing by an asterisk (*) are also listed in the Hazardous Materials Table as hazardous substances. With respect to other materials in the following listing, those that are not forbidden materials or fall within a hazard class are not subject to the requirements of this Subchapter.

It should be noted that Section 306(b) of CERCLA provides that common and contract carriers may be held liable under that Act for the release of a "hazardous substance" as defined in that Act, after the effective date of the listing of that substance as a hazardous material under the Hazardous Materials Transportation Act.

Specific Chemical Wastes

EPA hazardous waste No.	Substance
U001	*Acetaldehyde (I)
U034	Acetaldehyde, trichloro-
U187	Acetamide, N-(4-ethoxyphenyl)-
U005	Acetamide, N-9H-fluoren-2-yl-
U112	Acetic acid, ethyl ester (I)
U144	*Acetic acid, lead salt
U214	Acetic acid, thallium (I) salt
U002	Acetone (I)
U003	Acetonitrile (I,T)
U004	Acetophenone
U005	2-Acetylaminofluorene
U006	*Acetyl Chloride (C,R,T)
U007	Acrylamide
U008	Acrylic acid (I)
U009	*Acrylonitrile
U150	Alanine, 3-[p-bis(2-chloroethyl)amino]phenyl-, L-
U011	Amitrole
U012	*Aniline (I,T)
U014	Auramine
U015	Azaserine
U010	Azirino(2',3':3,4)pyrrolo(1,2-a)indole-4,7-dione,6-amino-8-[((aminocarbonyl)oxy)methyl]-1,1a,2,8,8a,8b-hexahydro-8a-methoxy-5-methyl-
U157	Benz(j)aceanthrylene,1,2-dihydro-3-methyl-
U016	Benz[c]acridine
U016	3,4-Benzacridine
U017	Benzalchloride
U018	Benz[a]anthracene
U018	1,2-Benzanthracene
U094	1,2-Benzanthracene,7,12-dimethyl-
U012	*Benzenamine (I,T)
U014	Benzenamine, 4,4-carbonimidoylbis(N,N-dimethyl-
U049	Benzenamine, 4-chloro-2-methyl-
U093	Benzenamine, N,N-dimethyl-4-phenylazo-
U158	Benzenamine, 4,4'-methylenebis(2-chloro-
U222	Benzenamine, 2-methyl-, hydrochloride
U181	Benzenamine, 2-methyl-5-nitro-
U019	*Benzene (I,T)
U038	Benzeneacetic acid, 4-chloro-alpha-(4-chlorophenyl)-alpha-hydroxy-, ethyl ester
U030	Benzene, 1-bromo-4-phenoxy-
U037	*Benzene, chloro-
U190	1,2-Benzenedicarboxylic acid anhydride
U028	1,2-Benzenedicarboxylic acid, [bis(2-ethylhexyl)] ester
U069	*1,2-Benzenedicarboxylic acid, dibutyl ester
U088	1,2-Benzenedicarboxylic acid, diethyl ester
U102	1,2-Benzenedicarboxylic acid, dimethyl ester
U107	1,2-Benzenedicarboxylic acid, di-n-octyl ester
U070	*Benzene, 1,2-dichloro-
U071	*Benzene, 1,3-dichloro-
U072	*Benzene, 1,4-dichloro-
U017	Benzene, (dichloromethyl)-
U223	Benzene, 1,3-diisocyanatomethyl-(R,T)
U239	*Benzene, dimethyl-(I,T)
U201	*1,3-Benzenediol
U127	Benzene, hexachloro-
U056	*Benzene, hexahydro-(I)
U188	*Benzene, hydroxy-
U220	*Benzene, methyl-
U105	*Benzene, 1-methyl-2,4-dinitro-
U106	*Benzene, 1-methyl-2,6-dinitro-
U203	Benzene, 1,2-methylenedioxy-4-allyl-
U141	Benzene, 1,2-methylenedioxy-4-propenyl-
U090	Benzene, 1,2-methylenedioxy-4-propyl-
U055	Benzene, (1-methylethyl)-(I)
U169	*Benzene, nitro-(I,T)
U183	Benzene, pentachloro-
U185	Benzene, pentachloro-nitro-
U020	Benzenesulfonic acid chloride (C,R)
U020	Benzenesulfonyl chloride (C,R)
U207	Benzene, 1,2,4,5-Tetrachloro-
U023	Benzene, (trichloromethyl)-(C,R,T)
U234	Benzene, 1,3,5-trinitro-(R,T)
U021	Benzidine
U202	1,2-Benzisothiazolin-3-one, 1,1-dioxide
U120	Benzo[j,k] fluorene
U022	Benzo[a]pyrene
U022	3,4-Benzopyrene
U197	p-Benzoquinone
U023	Benzotrichloride (C,R,T)
U050	1,2-Benzphenanthrene
U085	2,2'-Bioxirane (I,T)
U021	(1,1'-Biphenyl)-4,4'-diamine
U073	(1,1'-Biphenyl)-4,4'-diamine, 3,3'-dichloro-
U091	(1,1'-Biphenyl)-4,4'-diamine, 3,3'-dimethoxy-
U095	(1,1'-Biphenyl)-4,4'-diamine, 3,3'-dimethyl-
U024	Bis(2-chloroethoxy) methane
U027	Bis(2-chloroisopropyl) ether
U244	Bis(dimethylthiocarbamoyl) disulfide
U028	Bis(2-ethylhexyl) phthalate
U246	Bromine cyanide
U225	Bromoform

Specific Chemical Wastes—Continued

EPA hazardous waste No.	Substance
U030	4-Bromophenyl phenyl ether
U128	1,3-Butadiene, 1,1,2,3,4,4,-hexachloro-
U172	1-Butanamine, N-butyl-N-nitroso-
U035	Butanoic acid, 4-[Bis(2-chloroethyl) amino] benzene-
U031	1-Butanol (I)
U159	2-Butanone (I,T)
U160	2-Butanone peroxide (R,T)
U053	*2-Butenal
U074	2-Butene, 1,4,-dichloro-(I,T)
U031	n-Butyl alcohol (I)
U136	Cacodylic acid
U032	*Calcium chromate
U238	Carbamic acid, ethyl ester
U178	Carbamic acid, methylnitroso-, ethyl ester
U176	Carbamide, N-ethyl-N-nitroso-
U177	Carbamide, N-methyl-N-nitroso-
U219	Carbamide, thio-
U097	Carbamoyl chloride, dimethyl-
U215	Carbonic acid, dithallium(I) salt
U156	Carbonochloridic acid, methyl ester (I,T)
U033	Carbon oxyfluoride (R,T)
U211	*Carbon tetrachloride
U033	Carbonyl fluoride (R,T)
U034	Chloral
U035	Chlorambucil
U036	*Chlordane, technical
U026	Chlornaphazine

P045	Thiofanox
P049	Thioimidodicarbonic diamide
P014	Thiophenol
P116	Thiosemicarbazide
P026	Thiourea, (2-chlorophenyl)-
P072	Thiourea, 1-naphthalenyl-
P093	Thiourea, phenyl-
P123	*Toxaphene
P118	Trichloromethanethiol
P119	Vanadic acid, ammonium salt
P120	*Vanadium pentoxide
P120	*Vanadium(V) oxide
P001	Warfarin
P121	*Zinc cyanide
P122	*Zinc phosphide (R,T)
F001	The following spent halogenated solvents used in degreasing: tetrachloroethylene, trichloroethylene, methylene chloride, 1,1,1-trichloroethane, carbon tetrachloride, and chlorinated fluorocarbons; and sludges from the recovery of these solvents in degreasing operations.
F002	The following spent halogenated solvents: tetrachloroethylene, methylene chloride, trichloroethylene, 1,1,1-trichloroethane, chlorobenzene, 1,1,2-trichloro-1,2,2-trifluoroethane, orthodichlorobenzene, and trichlorofluoromethane; and the still bottoms from the recovery of these solvents.
F003	The following spent non-halogenated solvents: xylene, acetone, ethyl acetate, ethyl benzene, ethyl ether, methyl isobutyl ketone, n-butyl alcohol, cyclohexanone, and methanol; and the still bottoms from the recovery of these solvents.
F004	The following spent non-halogenated solvents: cresols and cresylic acid, and nitrobenzene; and the still bottoms from the recovery of these solvents.
F005	The following spent non-halogenated solvents: toluene, methyl ethyl ketone, carbon disulfide, isobutanol, and pyridine; and the still bottoms from the recovery of these solvents.
F006	Wastewater treatment sludges from electroplating operations except from the following processes: (1) sulfuric acid anodizing of aluminum; (2) tin plating on carbon steel; (3) zinc plating (segregated basis) on carbon steel; (4) aluminum or zinc-aluminum plating on carbon steel; (5) cleaning/stripping associated with tin, zinc and aluminum plating on carbon steel; and (6) chemical etching and milling of aluminum

Specific Chemical Wastes—Continued

EPA hazardous waste No	Substance
F019	Wastewater treatment sludges for the chemical conversion coating of aluminum.
F007	Spent cyanide plating bath solutions from electroplating operations (except for precious metals electroplating spent cyanide plating bath solutions).
F008	Plating bath sludges from the bottom of plating baths from electroplating operations where cyanides are used in the process (except for precious metals electroplating plating bath sludges).
F009	Spent stripping and cleaning bath solutions from electroplating operations where cyanides are used in the process (except for precious metals electroplating spent stripping and cleaning bath solutions).
F010	Quenching bath sludge from oil baths from metal heat treating operations where cyanides are used in the process (except for precious metals heat-treating quenching bath sludges).
F011	Spent cyanide solutions from salt bath pot cleaning from metal heat treating operations (except for precious metals heat treating spent cyanide solutions from salt bath pot cleaning).
F012	Quenching wastewater treatment sludges from metal heat treating operations where cyanides are used in the process (except for precious metals heat treating quenching wastewater treatment sludges).
F015	Spent cyanide bath solutions from mineral metals recovery operations.
K001	Bottom sediment sludge from the treatment of wastewaters from wood preserving processes that use creosote and/or pentachlorophenol.
K002	Wastewater treatment sludge from the production of chrome yellow and orange pigments.
K003	Wastewater treatment sludge from the production of molybdate orange pigments.
K004	Wastewater treatment sludge from the production of zinc yellow pigments.
K005	Wastewater treatment sludge from the production of chrome green pigments.
K006	Wastewater treatment sludge from the production of chrome oxide green pigments (anhydrous and hydrated).
K007	Wastewater treatment sludge from the production of iron blue pigments.
K008	Oven residue from the production of chrome oxide green pigments.
K009	Distillation bottoms from the production of acetaldehyde from ethylene.
K010	Distillation side cuts from the production of acetaldehyde from ethylene.
K011	Bottom stream from the wastewater stripper in the production of acrylonitrile.
K013	Bottom stream from the acetonitrile column in the production of acrylonitrile.
K014	Bottoms from the acetonitrile purification column in the production of acrylonitrile.
K015	Still bottoms from the distillation of benzyl chloride.
K016	Heavy ends or distillation residues from the production of carbon tetrachloride.
K017	Heavy ends (still bottoms) from the purification column in the production of epichlorohydrin.
K018	Heavy ends from the fractionation column in ethyl chloride production.
K019	Heavy ends from the distillation of ethylene dichloride in ethylene dichloride production.
K020	Heavy ends from the distillation of vinyl dichloride in vinyl chloride monomer production.
K021	Aqueous spent antimony catalyst waste from fluoromethanes production.
K022	Distillation bottom tars from the production of phenol/acetone from cumene.
K023	Distillation light ends from the production of phthalic anhydride from naphthalene.
K024	Distillation bottoms from the production of phthalic anhydride from naphthalene.
K093	Distillation light ends from the production of phthalic anhydride from ortho-xylene.
K094	Distillation bottoms from the production of phthalic anhydride from ortho-xylene.

Specific Chemical Wastes—Continued

EPA hazardous waste No	Substance
K025	Distillation bottoms from the production of nitrobenzene by the nitration of benzene.
K026	Stripping still tails from the production of methyl ethyl pyridines.
K027	Centrifuge and distillation residues from toluene diisocyanate production.
K028	Spent catalyst from the hydrochlorinator reactor in the production of 1,1,1-trichloroethane.
K029	Waste from the product steam stripper in the production of 1,1,1-trichloroethane.
K095	Distillation bottoms from the production of 1,1,1-trichloroethane.
K096	Heavy ends from the heavy ends column from the production of 1,1,1-trichloroethane.
K030	Column bottoms or heavy ends from the combined production of trichloroethylene and perchloroethylene.
K083	Distillation bottoms from aniline production.
K103	Process residues from aniline extraction from the production of aniline.
K104	Combined wastewater streams generated from nitrobenzene/aniline production.
K085	Distillation or fractionation column bottoms from the production of chlorobenzenes.
K105	Separated aqueous stream from the reactor product washing step in the production of chlorobenzenes.
K071	Brine purification muds from the mercury cell process in chlorine production, where separately prepurified brine is not used.
K073	Chlorinated hydrocarbon waste from the purification step of the diaphram cell process using graphite anodes in chlorine production.
K106	Wastewater treatment sludge from the mercury cell process in chlorine production.
K031	By-product salts generated in the production of MSMA and cacodylic acid.
K032	Wastewater treatment sludge from the production of chlordane.
K033	Wastewater and scrub water and scrub water from the chlorination of cyclopentadiene in the production of chlordane.
K034	Filter solids from the filtration of hexachlorocyclopentadiene in the production of chlordane.
K097	Vacuum stripper discharge from the chlordane chlorinator in the production of chlordane.
K035	Wastewater treatment sludges generated in the production of creosote.
K036	Still bottoms from toluene reclamation distillation in the production of disulfoton.
K037	Wastewater treatment sludges from the production of disulfoton.
K038	Wastewater from the washing and stripping of phorate production.
K039	Filter cake from filtration of diethylphosphorodithioic acid in the production of phorate.
K040	Wastewater treatment sludge from the production of phorate.
K041	Wastewater treatment sludge from the production of toxaphene.
K098	Untreated process wastewater from the production to toxaphene.
K042	Heavy ends or distillation residues from the distillation of tetrachlorobenzene in the production of 2,4,5-T.
K043	2,6-Dichlorophenol waste from the production of 2,4-D
K099	Untreated wastewater from the production of 2,4-D.
K044	Wastewater treatment sludges from the manufacturing and processing of explosives.
K045	Spent carbon from the treatment of wastewater containing explosives.
K046	Wastewater treatment sludges from the manufacturing, formulation and loading of lead-based initiating compounds.
K047	Pink/red water from TNT operations.
K048	Dissolved air flotation (DAF) float from the petroleum refining industry.
K049	Slop oil emulsion solids from the petroleum refining industry.
K050	Heat exchanger bundle cleaning sludge from the petroleum refining industry.

Specific Chemical Wastes—Continued

EPA hazardous waste No.	Substance
K051	API separator sludge from the petroleum refining industry.
K052	Tank bottoms (leaded) from the petroleum refining industry.
K061	Emission control dust/sludge from the primary production of steel in electric furnaces
K062	Spent pickle liquor from steel finishing operations.
K069	Emission control dust/sludge from secondary lead smelting.
K100	Waste leaching solution from acid leaching of emission control dust/sludge from secondary lead smelting.
K084	Wastewater treatment sludges generated during the production of veterinary pharmaceuticals from arsenic or organo-arsenic compounds.
K101	Distillation tar residues form the distillation of aniline-based compounds in the production of veterinary pharmaceuticals from arsenic or organo-arsenic compounds.
K102	Residue from the use of activated carbon for decolorization in the production of veterinary pharmaceuticals from arsenic or organo-arsenic compounds.
K086	Solvent washes and sludges, caustic washes and sludges, or water washes and sludges from cleaning tubs and equipment used in the formulation of ink from pigments, driers, soaps, and stabilizers containing chromium and lead.
K060	Ammonia still lime sludge from coking operations.
K087	Decanter tank tar sludge from coking operations.

BILLING CODE 4910-60-M

Chemicals listed by EPA under Section 307(a) of the Clean Water Act

Acenaphthylene

Acenaphthene

*Acetic acid

*Acrolein

Anthracene

Antimony

*Antimony pentachloride

*Antimony potassium tartrate

*Antimony tribromide

*Antimony trichloride

*Antimony trifluoride

*Antimony trioxide

Arsenic

Arsenic acid

*Arsenic disulfide

*Arsenic pentoxide

*Arsenic trichloride

*Arsenic trioxide

Asbestos

Benz[a] anthracene

*Benzene

Benzidine

Benzo[ghi] perylene

Benzo[a] pyrene

Beryllium

*Beryllium chloride

*Beryllium fluoride

*Beryllium nitrate

Bis(2-chloroethoxy)methane

Bis(2-chloroethyl)ether

Bis(2-chloroisopropyl)ether

Bis(2-ethylhexyl) phthalate

Bromomethane

4-Bromophenyl phenyl ether

Butyl benzyl phthalate

*n-Butyl phthalate

Cadmium

*Cadmium acetate

*Cadmium bromide

*Cadmium chloride

*Carbon tetrachloride

*Chlordane

*Chlorobenzene

Chlorodibromomethane

Benzo[b] fluoranthene

Benzo[k] fluoranthene

2-Chloroethyl vinyl ether

*Chloroform

Chloromethane

Chloromethyl methyl ether

Chloronaphthalene (all isomers)

2-Chloronaphthalene

Chlorophenol

2-Chlorophenol

2-Chloronaphthalene

4-Chlorophenyl phenyl ether

Chromium

*Chromic acetate

*Chromic acid

*Chromic sulfate

*Chromous chloride

Chrysene

Copper

Copper cyanide

*Cupric acetate

*Cupric acetoarsenite

*Cupric chloride

*Cupric nitrate

p-Chloro-m-cresol

Choroethane

*Cupric oxalate

*Curpic sulfate

*Cupric sulfate ammoniated

*Cupric tartrate

*Cyanides (soluble salts and complexes),n.o.s.

*Cyanogen chloride

2-Cyclohexyl-4, 6-dinitrophenol

*DDD

DDE

*DDT

Dibenz[a,h] anthracene (Dibenzo[a,h] anthracene)

Dibenzo [a,e] pyrene

Dibenzo[a,h] pyrene

Dibenzo[a,i] pyrene

Dibromomethane

*Di-n-butyl phthalate

*Dichlorobenzene (all isomers)

Dichlorobenzidine (all isomers)

3,3'-Dichlorobenzidine

Dichlorobromomethane

Dichloroethane (all isomers)

1,1-Dichloroethane

1,2-Dichloroethane

*Dichloroethylene (all isomers)

*1,1-Dichloroethylene

*1,2-Dichloroethylene

Dichloromethane

Dichloronaphthalene (all isomers)

Dichlorophenol (all isomers)

2,4-Dichlorophenol

2,6-Dichlorophenol

Dichlorophenylarsine

*Dichloropropane (all isomers)

*Dichloropropene–Dichloropropane mixture

*Dichloropropene(s) (all isomers)

*1,3-Dichloropropene

*Dieldrin

Diethylarsine

Diethyl phthalate

7,12-Dimethylbenz[a]anthracene

Dimethylnitrosamine

*2,4-Dimethylphenol

Dimethyl phthalate

4,6-Dinitro-o-cresol

*Dinitrotoluene (all isomers)

*2,4-Dinitrotoluene

*2,6-Dinitrotoluene

Di-n-octyl phthalate

Di-n-propylnitrosamine

*Endosulfan (all isomers)

Endosulfan sulfate

*Endrin and metabolites

*Ethyl benzene

Ethyl cyanide

*Ethylene dichloride

Fluoranthene

Fluorene

*Heptachlor

Heptachlor epoxide

Hexachlorobenzene

*Hexachlorobutadiene

Hexachlorocyclohexane (all isomers)

*Hexachlorocyclooentadiene

Hexachloroethane

Hexachlorophene

Indeno(1,2,3-cd)pyrene

Iodomethane

Isophorone

Lead

*Lead

*Lead

*Lead

*Lead

*Lead

*Lead

Lead p

*Lead

Lead s

*Lead

*Lead

*Lead

*Mercu

*Mercu

*Mercu

Mercuri

*Mercu

Mercury

Nickel

*Nickel

*Nickel

*Nickel

Lead

*Lead acetate

*Lead arsenate

*Lead chloride

*Lead fluoborate

*Lead fluoride

*Lead iodide

*Lead nitrate

Lead phosphate

*Lead stearate

Lead subacetate

*Lead sulfate

*Lead sulfide

*Lead thiocyanate

*Mercuric cyanide

*Mercuric nitrate

*Mercuric sulfate

Mercuric thiocyanate

*Mercurous nitrate

Mercury

Nickel

*Nickel ammonium sulfate

*Nickel chloride

*Nickel hydroxide

*Nickel nitrate

*Nickel sulfate

*Nitrobenzene

*Nitrophenol (all isomers)

*2-Nitrophenol

*4-Nitrophenol

N-Nitrosodi-n-butylamine

N-Nitrosodiethanolamine

N-Nitrosodiethylamine

N-Nitrosodimethylamine

N-Nitrosodiphenylamine

N-Nitrosodi-n-propylamine

N-Nitrosomethylethylamine

N-Nitrosomethylvinylamine

Octachloronaphthalene

Pentachlorobenzene

Pentachloroethane

*Pentachlorophenol

Phenanthrene

*Phenol

Phenyl dichloroarsine

Phenylmercury acetate

*Polychlorinated biphenyl(s) (PCBs)

Potassium silver cyanide

Nickel carbonyl

Nickel cyanide

Selenium

Selenium oxide

Selenium sulfide

Silver

Silver cyanide

*Silver nitrate

Tetrachlorobenzene

1,2,4,5-Tetrachlorobenzene

2,3,7,8-Tetrachlorodibenzo-p-dioxin

Tetrachloroethane (all isomers)

1,1,1,2-Tetrachloroethane

1,1,2,2-Tetrachloroethane

Tetrachloroethene (Tetrachloroethylene)

*Tetrachloromethane

Tetrachlorophenol (all isomers)

2,3,4,6-Tetrachlorophenol

*TDE

Thallium

Thallic oxide

Thallium (I) acetate

Thallium (I) carbonate

Thallium (I) chloride

Pyrene

Selenious acid

Trichlorfon

Trichloroethane (all isomers)

1,1,1-Trichloroethane

1,1,2-Trichloroethane

*Trichloroethylene

*Trichlorophenol (all isomers)

*2,4,5-Trichlorophenol

*2,4,6-Trichlorophenol

Vinyle chloride

Zinc

*Zinc acetate

*Zinc ammonium chloride

*Zinc borate

*Zinc bromide

*Zinc carbonate

*Zinc chloride

*Zinc cyanide

*Zinc fluoride

*Zinc formate

*Zinc hydrosulfite

*Zinc nitrate

*Zinc phenolsulfonate

Thallium (I) nitrate

Thallium (I) selenite

*Thallium (I) sulfate

*Toluene

*Toxaphene

Tribromomethane

Trichlorobenzene (all isomers)

1,2,4-Trichlorobenzene

BILLING CODE 4910-60-C

*Zinc phosphide

*Zinc silicofluoride

*Zinc sulfate

*Zirconium nitrate

*Zirconium potassium fluoride

*Zirconium sulfate

*Zirconium tetrachloride

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53, Appendix A to Part 1)

Note.—The Materials Transportation Bureau has determined that this document will not result in a "major rule" under the terms of Executive Order 12291 and is not a significant regulation under DOT's regulatory policy and procedures (44 FR 11043), nor require an environmental impact statement under the National Environmental Policy Act (49 U.S.C. 4321) et seq.). A regulatory evaluation and an environmental assessment are available for review in the docket.

L. D. Santman,

Director, Materials Transportation Bureau.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.
Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

List of Public Laws

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's **List of Public Laws.**

[Last Listing February 19, 1981; last cumulative listing for the 96th Congress (1980), January 7, 1981.]

THE FEDERAL REGISTER: WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.
WHO: The Office of the Federal Register.
WHAT: Free public briefings (approximately 2½ hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between Federal Register and the Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them, as part of the General Services Administration's efforts to encourage public participation in Government actions. There will be no discussion of specific agency regulations.
WHEN: April 10 and 24; at 9 a.m. (identical sessions).
WHERE: Office of the Federal Register, Room 9409, 1100 L Street NW., Washington, D.C.
RESERVATIONS: Call King Banks, Workshop Coordinator, 202–523–5235.

The authentic text behind the news . . .

The Weekly Compilation of PRESIDENTIAL DOCUMENTS

Administration of Ronald W. Reagan

This unique service provides up-to-date information on Presidential policies and announcements. It contains the full text of the President's public speeches, statements, messages to Congress, news conferences, personnel appointments and nominations, and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. Each issue contains an Index of Contents and a Cumulative Index to Prior Issues.

Separate indexes are published quarterly, semiannually, and annually. Other features include lists of acts approved by the President and of nominations submitted to the Senate, a checklist of White House press releases, and a digest of other Presidential activities and White House announcements.

Published by Office of the Federal Register, National Archives and Records Service, General Services Administration

Highlights

Cumulative List of Public Laws—The fourth and final cumulative list of public laws for the second session of the 96th Congress can be found in the **Reader Aids** Section of the issue of January 7, 1981

17751 **Presidential Advisory Board on Ambassadorial Appointments** Executive order

17790 **Infants** HHS/FDA extends comment period until 5–1–81, on proposed requirements for quality control procedures for the manufacture of infant formula products

17994 **Recombinant DNA** HHS publishes notice of actions under NIH guidelines for research involving Recombinant DNA Molecules; comments by 4–20–81 (Part IV of this issue)

17758 **Postal Service** PS solicits comments by 5–1–81, on new postal rates, fees and classifications scheduled to take effect March 22, 1981 at 12:01 a.m.

17829 **Natural Gas** DOE/EIA gives notice of alternative fuel price ceilings and incremental price threshold for high cost natural gas

CONTINUED INSIDE

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

17826 **Coal** DOE request public comments by 4–30–81, on the "Interim Report of the Interagency Coal Export Task Force"

17876 **Grant Programs—Minority Businesses** EPA extends comment period to 5–4–81, on proposed changes to the minority business enterprise and women's business enterprise policies

17791 **Travel and Transportation Expenses** GSA proposes to revise Federal Travel Regulations to update and improve relocation allowances; comments by 5–19–81

17787 **Travel** DOE proposes to provide explicit guidelines on payment from Department funds of travel expenses of persons who are not Government employees; comments by 4–20–81

17788 **Consumer Protection** CPSC withdraws proposed standard for miniature Christmas tree lights; comments by 5–19–81

17876 **Communications** FCC terminates inquiry into the abolition of special rates for letter telegrams

17893 **Common Carriers** ICC invites comments by 5–15–81, on Congress mandated study of cargo liability

17814 **Motor Carriers** ICC proposes to authorize individual carriers to establish their own nondiscriminatory c.o.d. collection and remittance rules; comments by 5–4–81

17980 **Minimum Wages** Labor/ESA publishes basic hourly wage rates and fringe benefit payments for certain classes of laborers and mechanics employed on construction projects (Part II of this issue)

17947 **Sunshine Act Meetings**

Separate Parts of this Issue

17980 **Part II, Labor/ESA**
17991 **Part III, HHS/NIH**
17994 **Part IV, HHS/NIH**
18000 **Part V, DOE**

Rules and Regulations

Federal Register
Vol. 46, No. 54
Friday, March 20, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

7 CFR Ch. XVIII

Revision and Redesignation of Section 502 Rural Housing Loan Policies, Procedures, and Authorizations; Postponement of Effective Date

AGENCY: Farmers Home Administration, USDA.

ACTION: Postponement of effective date of final rule.

SUMMARY: Farmers Home Administration (FmHA) is postponing the effective date of its previously published Section 502 Rural Housing Loan Program regulations to allow time for review under Executive Order 12291.

DATES: The effective date of the regulations identified below is postponed until further notice.

FOR FURTHER INFORMATION CONTACT: Daryl Grove, Director, Single Family Housing Loan Division, Single Family Housing, Farmers Home Administration, Room 5343 S, U.S. Department of Agriculture, Washington, D.C. 20250, (202) 447–4295.

SUPPLEMENTARY INFORMATION: On January 19, 1981, FmHA published a final rule in the Federal Register (46 FR 4681) to revise and redesignate its regulations regarding the Section 502 Rural Housing Loan Program. These regulations were to become effective on March 20, 1981. As directed by the President, the Department of Agriculture postponed the effective date until March 30, 1981 (46 FR 11501). To allow time for the further review required of major rules under Section 7(e) E.O. 12291, FmHA hereby further postpones the effective date of these regulations until further notice.

By postponing this rule, the Agency continues in effect all current requirements and provisions of the Code of Federal Regulations which this rule would have changed or amended.

It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exception in 5 U.S.C. 553, with respect to such rules. This action is not published for proposed rulemaking since the purpose of this action is to comply with E.O. 12291 and any delay would be contrary to the public interest. The official making this determination is Dwight O. Calhoun, Acting Administrator, telephone (202) 447–7967.

Dated: March 12, 1981.

Dwight O. Calhoun,
Acting Assistant Secretary for Rural Development.

[FR Doc. 81-8080 Filed 3-19-81; 8:45 am]
BILLING CODE 3410-07-M

Animal and Plant Health Inspection Service

7 CFR Part 331

Mediterranean Fruit Fly; Changing Methyl Bromide Treatment for Bell Peppers

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: Pursuant to the Federal Plant Pest Act, this document amends the Mediterranean fruit fly emergency regulations by changing a methyl bromide treatment for bell peppers from 2½ hours to 3½ hours. This action is necessary as an emergency measure for the purpose of preventing the artificial spread of the Mediterranean fruit fly into noninfested areas of the United States.

DATES: Effective date of final rule; March 20, 1981. Written comments concerning this final rule must be received on or before May 19, 1981.

ADDRESSES: Written comments should be submitted to E. E. Crooks, Regulatory Support Staff, Plant Protection and Quarantine, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Federal Building, 6505 Belcrest Road, Room 635, Hyattsville, MD 20782.

FOR FURTHER INFORMATION CONTACT: E. E. Crooks, Acting Chief Staff Officer, Regulatory Support Staff, Plant Protection and Quarantine, APHIS, USDA, Federal Building, 6505 Belcrest Road, Room 635, Hyattsville, MD 20782, (301) 436–8247.

SUPPLEMENTARY INFORMATION:

Executive Order 12291

This final rule is issued in conformance with Executive Order 12291, and has been determined to be not a "major rule." Also, emergency circumstances make it impracticable for the agency to follow the procedures of Executive Order 12291 with respect to this final rule.

Emergency Action

Harvey L. Ford, Deputy Administrator of the Animal and Plant Health Inspection Service for Plant Protection and Quarantine, has determined that an emergency situation exists which warrants publication without opportunity for a public comment period on this final action. Due to the possibility that Mediterranean fruit fly could be spread artificially to noninfested areas of the United States, a situation exists requiring immediate action to better control the spread of this pest.

Further, pursuant to the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to this emergency final action are impracticable and contrary to the public interest; and good cause is found for making this emergency final action effective less than 30 days after publication of this document in the Federal Register. Comments have been solicited for 60 days after publication of this document and a final document discussing comments received and any amendments required will be published in the Federal Register as soon as possible.

Certification Under the Regulatory Flexibility Act

Dr. Mussman, Administrator of the Animal and Plant Health Inspection Service, has determined that this action will not have a significant economic impact on a substantial number of small entities. This action affects the interstate movement of certain bell peppers from specified areas in

Alameda County and Santa Clara County in California. There are hundreds of small entities that move bell peppers interstate from California and many more hundreds of small entities that move bell peppers interstate from other States. However, based on information submitted by the California Department of Agriculture it has been determined that fewer than 5 entities move bell peppers interstate from the specified areas in Alameda County and Santa Clara County.

Written Comments

Interested persons are invited to submit written comments concerning the final rule. Comments should bear a reference to the date and page numbers of this issue of the **Federal Register**. All written comments made pursuant to this document will be made available for public inspection at the Federal Building, 6505 Belcrest Road, Room 635, Hyattsville, MD 20782, during regular hours of business, 8 a.m. to 4:30 p.m., Monday through Friday, except holidays, in a manner convenient to the public business (7 CFR 1.27(b)).

Background

The Mediterranean fruit fly, *Ceratitis capitata* Wiedeman, is one of the world's most destructive pests of numerous fruits and vegetables, especially citrus fruits. It can cause serious economic losses. Heavy infestations can cause complete loss of crops, and losses of 25 to 50 percent are not uncommon. Its short life cycle permits the rapid development of serious outbreaks.

Because of infestations of the Mediterranean fruit fly found in areas in California, emergency Mediterranean fruit fly regulations were published in the **Federal Register** on July 29, 1980 (45 FR 50318–50324), and emergency amendments to the regulations were published in the **Federal Register** on August 15, 1980 (45 FR 54302–54304), on September 12, 1980 (45 FR 60402–60403), and on December 12, 1980 (45 FR 81728–81731). The regulations and the amendments thereto became effective on the dates of publication and are set forth in 7 CFR 331.1 through 331.1–9. The regulations restrict the interstate movement of regulated articles from regulated areas in California for the purpose of preventing the artificial spread of the Mediterranean fruit fly into noninfested areas.

Section 331.1–9 of the regulations (7 CFR 331.1–9) sets forth treatments for certain regulated articles. Under the regulations a regulated article would be eligible for interstate movement pursuant to a certificate if, among other things, it had been treated in accordance with § 331.1–9 of the regulations, and would be eligible for interstate movement pursuant to a limited permit if it were moving under certain conditions for such treatment. The treatments are designed to destroy any accompanying Mediterranean fruit flies.

Prior to the effective date of this document, § 331.1–9(f) of the regulations provided a treatment for bell peppers consisting of fumigation with methyl bromide at normal atmospheric pressure with 32 g/m³ for 2½ hours at 21°C. (70°F.) or above. The 2½ hour time period was in error and should have been a 3½ hour time period. Based on research, it has been determined that it is necessary to fumigate bell peppers with such methyl bromide treatment for 3½ hours in order to destroy the pest. Therefore, the time period should be changed from 2½ hours to 3½ hours. This change is necessary as an emergency measure for the purpose of preventing the artificial spread of the Mediterranean fruit fly into noninfested areas of the United States.

§ 331.1–9 [Amended]

Accordingly, the Mediterranean fruit fly emergency regulations, which, as noted above, became effective on July 29, 1980, and were amended on August 15, 1980, September 12, 1980, and December 12, 1980 (45 FR 50318–50324, 54302–54304, 60402–60403, 81728–81731) are further amended by changing the time period for the treatment of bell peppers with methyl bromide in § 331.1–9(f) of the regulations (7 CFR 331.1–9(f)) from "2½ hours" to "3½ hours".

(Secs. 105 and 106, 71 Stat. 32 and 33; 7 U.S.C. 150dd, 150ee; 37 FR 28464, 28477, as amended; 38 FR 19141)

Done at Washington, D.C., this 17th day of March 1981.

Harry C. Mussman,

Acting Assistant Secretary for Marketing and Transportation Services, Department of Agriculture.

[FR Doc. 81-8636 Filed 3-19-81; 8:45 am]

BILLING CODE 3410-34-M

Agricultural Marketing Service

7 CFR Part 910

[Lemon Regulation 297]

Lemons Grown in California and Arizona; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period March 22–28, 1981. Such action is needed to provide for orderly marketing of fresh lemons for this period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: March 22, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, 202–447–5975.

SUPPLEMENTARY INFORMATION: *Findings.* This rule has been reviewed under USDA procedures and Executive Order 12291 and has been classified "not significant", and not a major rule. This regulation is issued under the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The action is based upon the recommendations and information submitted by the Lemon Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1980–81. The marketing policy was recommended by the committee following discussion at a public meeting on July 8, 1980. A regulatory impact analysis on the marketing policy is available from William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

The committee met again publicly on March 17, 1981, at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is good.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been

apprised of such provisions and the effective time.

Section 910.597 is added as follows:

§ 910.597 Lemon Regulation 297.

The quantity of lemons grown in California and Arizona which may be handled during the period March 22, 1981, through March 28, 1981, is established at 250,000 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: March 18, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

7 CFR Part 959

Onions Grown in South Texas; Handling Regulation; Correction

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Correction.

SUMMARY: This corrects FR Doc. 81–7604 published at page 16238 of the March 12, 1981, Federal Register. Under paragraph (g) Safeguards, subparagraph (6) should begin "Make each shipment" instead of "Bill each shipment".

EFFECTIVE DATE: March 20, 1981.

FOR FURTHER INFORMATION CONTACT: Charles W. Porter, Chief, Vegetable Branch, F&V, AMS, USDA, Washington, D.C. 20250, (202) 447–2615.

In § 959.321 (46 FR 16238) subparagraph (g)(6) is hereby corrected to read as follows:

§ 959.321 [Corrected]

(g) * * *

(6) Make each shipment directly to the applicable processor and include a copy of the Report of Special Purpose Onion Shipment.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: March 17, 1981, to become effective March 20, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

BILLING CODE 3410-02-M

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Part 303

Applications, Requests and Submittals; Delegation of Authority To Discontinue Proceedings To Terminate Deposit Insurance or To Cease-and-Desist

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Final rule.

SUMMARY: FDIC is amending its regulations to authorize the Director of the Division of Bank Supervision to terminate pending administrative proceedings against banks which are closed while proceedings are pending. The delegation of this authority eliminates the need for formal action by FDIC's Board of Directors in each case. FDIC's purpose in adopting this rule is to save time and other resources required for Board Action.

EFFECTIVE DATE: March 20, 1981.

FOR FURTHER INFORMATION CONTACT: Werner Goldman, Assistant General Counsel, Legal Division, Federal Deposit Insurance Corporation, 550 17th Street, N.W., Washington, D.C. 20429 (202–389–4324).

SUPPLEMENTARY INFORMATION: The Board of Directors of the Federal Deposit Insurance Corporation (the "Board") may initiate proceedings for termination of deposit insurance of insured banks under Section 8(a) of the Federal Deposit Insurance Act (the "Act") (12 U.S.C. 1818(a)). Under Section 8(b) of the Act (12 U.S.C. 1818(b)), the Board has the authority to order an insured nonmember bank to cease-and-desist from practices which are unsafe or unsound, or from violating an applicable law, rule or regulation. Section 8(c) of the Act (12 U.S.C. 1818(c)) gives the Board discretion to issue a temporary order to cease-and-desist where an insured nonmember bank is engaged in, or is about to engage in, unsafe or unsound banking practices.

Since termination of pending proceedings under Section 8(a), 8(b) or 8(c) of the Act calls for an essentially ministerial act when the bank is closed, FDIC will save time and other agency resources by delegating the authority to terminate such proceedings.

This final rule will have no effect on administrative proceedings against a bank which merges with another bank while proceedings are pending. The rule makes this explicit.

FDIC considered two alternatives to this rule. One of these was to include language in each administrative order to terminate the order if the bank closed. This approach was rejected because it would preclude FDIC from making an independent judgment to terminate administrative proceedings in a given case. FDIC staff also believes that language in an order calling for termination of proceedings when the bank is closed could make capital formation or other rehabilitation more difficult since the existence and material terms of final orders must be disclosed in stock offerings and shareholders proxy solicitations. The other considered alternative was to delegate authority by general resolution. This approach was rejected because § 303.13(a) of Part 303 of FDIC's Rules and Regulations (12 CFR 303.13(a)) states that the Board does not delegate its authority except as provided in Part 303, (with exceptions for prompt action and operational flexibility which do not pertain here).

This regulation affects only internal FDIC operating procedures. It does not affect the recordkeeping, reporting requirements, or competitive status of any insured bank. Therefore, FDIC has determined that a cost-benefit analysis (including a small bank impact statement) regarding the amendment is unnecessary.

In promulgating this rule, FDIC did not follow the requirements of Subsections b and d of Section 553 of Title 5 of the United States Code (5 U.S.C. 553 (b) and (d)) for public notice and comment and for deferred effective date, because this amendment involves only internal FDIC procedures and in no way restricts or otherwise affects existing rights of the public.

12 CFR Part 303 is amended as follows:

1. The authority citation for Part 303 is revised as follows:

Authority: Secs. 2(5), 2(6), 2(7(j)), 2(9 "Seventh" and "Tenth"), 2(18), 2(19), Pub. L. 797, 64 Stat. 876, 881, 891, 893 as amended by Pub. L. 86–463, 74 Stat. 129; sec. 2, Pub. L. 87–827, 76 Stat. 953; Pub. L. 88–593, 78 Stat. 940; Pub. L. 89–79, 79 Stat. 244; sec. 1, Pub. L. 89–356; 80 Stat. 7; sec. 12(c), Pub. L. 89–485, 80 Stat. 242, sec. 3, Pub. L. 89–597, 80 Stat. 824; Title II, secs. 201, 205, Pub. L. 89–695, 80 Stat. 1055; sec. 2(b), Pub. L. 90–505, 82 Stat. 856; secs. 8(c)(7), (12), (13), Pub. L. 95–369, 92 Stat. 616–620; Title III, secs. 306, 309 and Title VI, sec. 602, Pub. L. 95–630, 92 Stat. 3677, 3683 (12 U.S.C. 1815, 1816, 1817(j), 1818, 1819 "Seventh" and "Tenth", 1828, 1829).

2. Section 303.13 is amended by adding a subsection (l) as follows:

§ 303.13 Other delegations of authority.

* * * * *

(l) *Termination of administrative proceedings against closed banks.* The Board of Directors has delegated to the Director of the Division of Bank Supervision authority to discontinue proceedings to terminate deposit insurance or to cease-and-desist, including final orders, brought against a bank under Subsection (a), (b), or (c) of Section 8 of the Federal Deposit Insurance Act (12 U.S.C. 1818(a), (b), or (c)), which are pending when the bank is closed by a Federal or State authority. This rule does not delegate authority to terminate administrative proceedings against a bank when the bank merges.

By Order of the Board of Directors.
Dated: March 16, 1981.
Federal Deposit Insurance Corporation.
Hoyle L. Robinson,
Executive Secretary.

BILLING CODE 6714-01-M

---

12 CFR Part 303

Applications, Requests and Submittals; Delegation of Authority To Enforce Administrative Orders

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Final rule.

SUMMARY: FDIC is amending its regulations to authorize its General Counsel, or his designee, to enforce in United States District Court any effective and outstanding order to cease-and-desist issued by its Board of Directors. This final rule codifies existing agency practice to conform with Part 303 of FDIC's Rules and Regulations regarding delegations of authority. The effect of this regulation is to eliminate the need for the Board of Directors of the FDIC to delegate authority to enforce an order in each case.

EFFECTIVE DATE: March 20, 1981.

FOR FURTHER INFORMATION CONTACT: Werner Goldman, Assistant General Counsel, Legal Division, Federal Deposit Insurance Corporation, 550 17th Street, N.W., Washington, D.C. 20429 (202-389-4324).

SUPPLEMENTARY INFORMATION: The Federal Deposit Insurance Act (the "Act") at Section 8(i) (12 U.S.C. 1818(i)) provides for the Board of Directors of FDIC to enforce any effective and outstanding administrative notice or order issued by it under Section 8 of the Act (12 U.S.C. 1818) in the United States District Court with jurisdiction in the matter. Orders which may be enforced include orders to cease-and-desist from unsafe or unsound practices or from violations of applicable laws or regulations issued under Section 8(b) of the Act (12 U.S.C. 1818(b)). In addition, FDIC may issue temporary orders to cease-and-desist under Section 8(c) of the Act, and enforce such orders under Section (d). (12 U.S.C. 1818 (c) and (d)). Delegation of enforcement authority is necessary in each case brought under Section 8(b) or 8(c). For this reason, FDIC determined to issue this final rule of general applicability under its rulemaking powers.

The only alternative FDIC considered was to continue to delegate enforcement authority in each case. The alternative was rejected because it does not conform with § 303.13(a) of Part 303 of FDIC's Rules and Regulations (12 CFR 303.13(a)) which states that the Board of Directors does not delegate its authority except by regulation as provided in Part 303 (with exceptions for prompt action and operational flexibility which do not pertain here).

This final rule affects only internal FDIC procedures. It does not affect the recordkeeping, reporting requirements, or competitive status of any insured bank. Therefore, a cost-benefit analysis (including a small bank impact statement) regarding the amendment is unnecessary.

In issuing this rule, FDIC did not follow the requirements of Subsections b and d of Section 553 of Title 5 of the United States Code (5 U.S.C. 553 (b) and (d)) for public notice and comment and for deferred effective date, because the amendment involves only internal FDIC procedures and in no way restricts or otherwise affects existing rights of the public.

12 CFR Part 303 is amended as follows:

1. The authority citation for Part 303 reads as follows:

Authority: Secs. 2(5), 2(6), 2(7(j)), 2(9 "Seventh" and "Tenth"), 2(18), 2(19), Pub. L. 797, 64 Stat. 876, 881, 891, 893 as amended by Pub. L. 86-463, 74 Stat. 129; sec. 2, Pub. L. 87-827, 76 Stat. 953; Pub. L. 88-593, 78 Stat. 940; Pub. L. 89-79, 79 Stat. 244; sec. 1, Pub. L. 89-356; 80 Stat. 7; sec. 12(c), Pub. L. 89-485, 80 Stat. 242, sec. 3, Pub. L. 89-597, 80 Stat. 824; Title II, secs. 201, 205, Pub. L. 89-695, 80 Stat. 1055; sec. 2(b), Pub. L. 90-505, 82 Stat. 858; secs. 6(c)(7), (12), (13), Pub. L. 95-369, 92 Stat. 616-620; Title III, secs. 308, 309 and Title VI, sec. 902, Pub. L. 95-630, 92 Stat. 3677, 3683 (12 U.S.C. 1815, 1816, 1817(j), 1818, 1819 "Seventh" and "Tenth", 1828, 1829).

2. Section 303.13 is amended by adding a subsection (m) as follows:

§ 303.13 Other delegations of authority.

* * * * *

(m) *Enforcement of Administrative Orders.* The Board of Directors has delegated to the General Counsel, or his designee, authority to initiate and prosecute any action to enforce any effective and outstanding order, or temporary order, issued by the Board under Section 8(b) or 8(c) of the Federal Deposit Insurance Act (12 U.S.C. 1818 (b) or (c)), or any provision thereof, in the appropriate United States District Court.

By Order of the Board of Directors.
Dated: March 16, 1981.
Federal Deposit Insurance Corporation.
Hoyle L. Robinson,
Executive Secretary.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Parts 239, 249, 259, 269, 274, and 279

[Release Nos. 33-6288, 34-17623, 35-21980, 39-615, IC-11581, and IA-753]

Miscellaneous Amendments Related to Forms

AGENCY: Securities and Exchange Commission.

ACTION: Miscellaneous amendments and editorial changes.

SUMMARY: The Commission is amending various Parts of Title 17, Chapter II, of the Code of Federal Regulations which list forms prescribed under the Acts administered by it to remove obsolete forms, eliminate duplications, and make certain editorial changes. These amendments are administrative in nature and are intended to make it easier for the reader to identify the forms currently in use and to indicate the availability of the forms.

EFFECTIVE DATE: March 12, 1981.

FOR FURTHER INFORMATION CONTACT: George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Room 892, 500 North Capitol Street, Washington, D.C. 20549, (202-272-2600).

Text of Amendments

Accordingly, 17 CFR Chapter II is amended as follows:

PART 239—FORMS PRESCRIBED UNDER THE SECURITIES ACT OF 1933

1. By revising § 239.0-1 to read as follows:

§ 239.0–1 Availability of forms.

(a) This part identifies and describes the forms prescribed for use under the Securities Act of 1933.

(b) Any person may obtain a copy of any form prescribed for use in this part by written request to the Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Any person may inspect the forms at this address and at the Commission's regional offices. (See § 200.11 of this chapter for the addresses of SEC regional offices.)

§§ 239.507, 239.508, 239.509, 239.510, 239.514, 239.515, 239.516, and 239.517 [Removed]

2. By removing Subpart C and §§ 239.507, 239.508, 239.509, 239.510, 239.514, 239.515, 239.516, and 239.517 thereunder.

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

1. By revising § 249.0–1 to read as follows:

§ 249.0–1 Availability of forms.

(a) This part identifies and describes the forms prescribed for use under the Securities Exchange Act of 1934.

(b) Any person may obtain a copy of any form prescribed for use in this part by written request to the Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Any person may inspect the forms at this address and at the Commission's regional offices. (See § 200.11 of this chapter for the addresses of SEC regional offices.)

§§ 249.10a, 249.10b, 249.450, 249.503, 249.504, 249.504a, 249.504b, 249.504c, 249.504d, 249.504e, 249.504f, 249.504g, 249.504h, 249.504i, 249.504k, 249.504l, 249.504m, 249.514, 249.515, 249.516, 249.517, and 249.519b [Removed]

2. By removing §§ 249.10a, 249.10b, 249.450, 249.503, 249.504, 249.504a, 249.504b, 249.504c, 249.504d, 249.504e, 249.504f, 249.504g, 249.504h, 249.504i, 249.504k, 249.504l, 249.504m, 249.514, 249.515, 249.516, 249.517, and 249.519b.

3. By revising the heading of § 249.402 as follows:

§ 249.402 Form 2-MD, annual report for investment trusts having securities registered on forms N-1, N-2, or S-6.

4. By revising the heading of Subpart I to read as follows:

Subpart I—Forms for Self-Regulatory Organization Rule Changes and Forms for Registration of and Reporting by National Securities Associations and Affiliated Securities Associations

PART 259—FORMS PRESCRIBED UNDER THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

1. By revising § 259.0–1 to read as follows:

§ 259.0–1 Availability of forms.

(a) This part identifies and describes the forms prescribed for use under the Public Utility Holding Company Act of 1935.

(b) Any person may obtain a copy of any form prescribed for use in this part by written request to the Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Any person may inspect the forms at this address and at the Commission's regional offices. (See § 200.11 of this chapter for the addresses of SEC regional offices.)

§§ 259.217a and 259.217b [Removed]

2. By removing §§ 259.217a and 259.217b.

PART 269—FORMS PRESCRIBED UNDER THE TRUST INDENTURE ACT OF 1939

1. By revising § 269.0–1 to read as follows:

§ 269.0–1 Availability of forms.

(a) This part identifies and describes the forms prescribed for use under the Trust Indenture Act of 1939.

(b) Any person may obtain a copy of any form prescribed for use in this part by written request to the Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Any person may inspect the forms at this address and at the Commission's regional offices. (See § 200.11 of this chapter for the addresses of SEC regional offices.)

§§ 269.17, 269.18, 269.19, 269.20, 269.24, 269.25, 269.26, and 269.27 [Removed]

2. By removing §§ 269.17, 269.18, 269.19, 269.20, 269.24, 269.25, 269.26, and 269.27.

PART 274—FORMS PRESCRIBED UNDER THE INVESTMENT COMPANY ACT OF 1940

1. By revising § 274.0–1 to read as follows:

§ 274.0–1 Availability of forms.

(a) This part identifies and describes the forms prescribed for use under the Investment Company Act of 1940.

(b) Any person may obtain a copy of any form prescribed for use in this part by written request to the Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Any person may inspect the forms at this address and at the Commission's regional offices. (See § 200.11 of this chapter for the addresses of SEC regional offices.)

§§ 274.207, 274.208, 274.209, 274.210, 274.214, 274.215, 274.216, 274.217, and 274.218 [Removed]

2. By removing §§ 274.207, 274.208, 274.209, 274.210, 274.214, 274.215, 274.216, 274,217, and 274.218

PART 279—FORMS PRESCRIBED UNDER THE INVESTMENT ADVISERS ACT OF 1940

1. By revising § 279.0–1 to read as follows:

§ 279.0–1 Availability of forms.

(a) This part identifies and describes the forms prescribed for use under the Investment Advisers Act of 1940.

(b) Any person may obtain a copy of any form prescribed for use in this part by written request to the Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Any person may inspect the forms at this address and at the Commission's regional offices. (See § 200.11 of this chapter for the addresses of SEC regional offices.)

Since these amendments are administrative in nature, the Commission finds that notice and comment procedures are unnecessary and therefore the amendments may become effective immediately.

By the Commission.

George A. Fitzsimmons,
Secretary.

March 12, 1981.

BILLING CODE 8010–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 5

Delegations Regarding Certain Programs and Grants

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration amends the regulations for delegations of authority to (1) provide the Director of the National Center for Toxicological Research with a delegation of authority under section 301 of the Public Health Service Act and (2) update the delegation of grants authority to officials in the Division of Contracts and Grants Management.

EFFECTIVE DATE: March 20, 1981.

FOR FURTHER INFORMATION CONTACT: Robert L. Miller, Office of Management and Operations (HFA–340), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4976.

SUPPLEMENTARY INFORMATION: Section 5.25(c) (21 CFR 5.25(c)) is being amended as a result of a reorganization of the Division of Contracts and Grants Management. The Grants Management Branch has been retitled the State Contracts and Assistance Agreements Branch, and a Grants and Assistance Agreements Section was established. The delegation of authority is being amended accordingly. Section 5.25(d) is added to authorize the National Center for Toxicological Research to make available to educational institutions laboratory animals which are not required in support of the Center's research programs.

Further redelegation of the authority delegated is not authorized. Authority delegated to a position by title may be exercised by a person officially designated to serve in such position in an acting capacity or on a temporary basis.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055 (21 U.S.C. 371(a))) and the Public Health Service Act (sec. 301, 58 Stat. 691, (42 U.S.C. 241)), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), Part 5 is amended in § 5.25 by revising paragraph (c) and adding new paragraph (d), to read as follows:

§ 5.25 Research, investigation, and testing programs and health information and health promotion programs.

* * * * *

(c) The Associate and Deputy Associate Commissioner for Management and Operations, the Director and Deputy Director of the Division of Contracts and Grants Management of the Office of Management and Operations, the Chief of the State Contracts and Assistance Agreements Branch, and the Chief of the Grants and Assistance Agreements Section of that Division and Office are authorized to sign and issue all notices of grant awards and amendments thereto and sign and issue notices of suspension and termination thereof for grants approved under the authority delegated in paragraphs (a) and (b) of this section.

(d) The Director of the National Center for Toxicological Research is authorized under section 301, as amended by Pub. L. 95–622, of the Public Health Service Act to make available to educational institutions, for biomedical and behavioral research, laboratory animals bred for research purposes of the Center which are not required to support Center research programs.

Effective date. This regulation shall be effective March 20, 1981.

(Sec. 701(a), 52 Stat. 1055 (21 U.S.C. 371(a)); sec. 301, 58 Stat. 691 (42 U.S.C. 241))

Dated: March 6, 1981.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

[FR Doc. 81-8230 Filed 3-19-81; 8:45 am]

21 CFR Part 178

[Docket No. 79F–0318]

Indirect Food Additives: Adjuvants, Production Aids and Sanitizers; Hydrogen Peroxide; Availability of Method

AGENCY: Food and Drug Administration.

ACTION: Notice

SUMMARY: The Food and Drug Administration (FDA) announces the public availability of a method that can be used to measure hydrogen peroxide at the 0.1 part per million (ppm) level in distilled water when it is used to sterilize packaging materials under simulated use conditions.

FOR FURTHER INFORMATION CONTACT: Carl L. Ciannetta, Bureau of Foods (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: In a final rule published in the Federal Register of January 9, 1981 (46 FR 2341), FDA announced the amendment of the food additive regulations to provide for the safe use of hydrogen peroxide as a sterilizing agent for polyethylene used in contact with food. This action was in response to a food additive petition filed by Brik Pak, Inc., 2775 Villa Creek Drive, Dallas, TX 75234.

In response to a comment contending that methods available to measure low levels of hydrogen peroxide obtain varying results at high sensitivity, the agency indicated that it was investigating a number of methods to develop better reliability and sensitivity. This notice announces the public availability of such a method.

Copies of the method are available for review in the Dockets Management Branch (formerly the Hearing Clerk's office), Food and Drug Administration, RM. 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

Dated: March 9, 1981.

Sanford A. Miller,

Director, Bureau of Foods.

Tobramycin Ophthalmic Solution

Correction

In FR Doc. 81–7842, published at page 16660, in the issue of Friday, March 13, 1981, in the third column on page 16661, in the fourth full paragraph, the effective date should read: "*Effective date.* This regulation shall be effective March 13, 1981."

BILLING CODE 1505-01-M

POSTAL SERVICE

39 CFR Part 111

New Domestic Mail Manual Regulations To Implement Changes in Rates, Fees and Classifications

AGENCY: Postal Service.

ACTION: Final rule, with comments invited for consideration in future rulemakings.

SUMMARY: As announced in the Federal Register on March 12, 1981 (46 FR 16404), new postal rates, fees and classifications are scheduled to take effect on March 22, 1981, at 12:01 a.m. Implementing regulations for the rate, fee, and classification changes have been developed and are set forth below. Although they are to take effect on March 22, 1981, comments on these regulations are solicited, and any proposed changes will be considered and acted upon as appropriate.

EFFECTIVE DATE: March 22, 1981. Comments Date: Written comments on these implementing regulations should be received on or before May 1, 1981.

ADDRESS: Written comments should be directed to the Director, Office of Mail Classification, Rates and Classification Department, U.S. Postal Service, Washington, D.C. 20260. Copies of written comments received will be available for public inspection and photocopying between 9 a.m. and 4 p.m., Monday through Friday, in Room 1640, 475 L'Enfant Plaza West, SW., Washington, D.C. 20260.

FOR FURTHER INFORMATION CONTACT: Ernest Collins (202) 245–4353.

SUPPLEMENTARY INFORMATION: The new rates adopted by the Governors of the Postal Service (46 FR 16404) included several new presortation differentials as well as classification changes. Many of these changes require new implementing regulations in the Domestic Mail Manual. The following is a summary of the changes made to the Domestic Mail Manual as a result of the rate, fee and classification changes.

1. The definitions of *Within BMC (INTRA–BMC) and INTER–BMC* were added to section 122.7, Postal Zones, to provide for the new parcel post rates which apply to parcels originating and destinating at post offices assigned to the same parent Bulk Mail Center (BMC).

2. The fees for on-site meter settings in section 144.351b. were changed.

3. The permit imprint permit application fee in section 145.21 was increased.

4. Changes were made in section 149 as a result of the classification change adopted by the Governors making the purchase of insurance with registered mail optional.

5. The dead mail fee in sections 159.53b and 159.554 was increased.

6. A new zone for Express Mail was added to section 211.2 to provide for pieces traveling up to 150 miles.

7. All Express Mail rates, and the Express Mail pickup and delivery charge, changed. This required changes in Exhibit 212, section 213 and exhibit 213, section 214 and exhibits 214A and 214B.

8. Section 296 was added to provide for the purchase of return receipts for Express Mail.

9. All rates and fees for First-Class Mail in part 310 changed. Included in these changes is the addition of a carrier route presort First-Class rate.

10. A new section 323.2 was added to describe carrier route First-Class Mail.

11. The change in section 341, annual presort fee for First-Class Mail, announced as a proposed rule (effective on an interim basis) at 45 FR 84060, is made final. No comments were received regarding this change. The wording of the section has been altered slightly due to the addition of the First-Class carrier route rate.

12. The surcharge for nonstandard First-Class Mail was increased in section 353.3.

13. Preparation requirements, including marking and sortation for carrier route First-Class Mail were added to sections 362.31, 367.2, 367.3 and 367.4.

14. Sections 374, presort verification, and 382, payment of postage, were changed to provide for the new carrier route First-Class rate.

15. Due to the introduction of several new per-piece rate presortation levels for second-class mail, and the merger of second-class and controlled circulation, part 410 of chapter 4 has been completely restructured. A separate rate chart is provided for each rate category and type of authorization in section 411. The original entry fee in section 412.1 has been changed.

16. Section 422.6 was added to include publications formerly mailed as controlled circulation in a separate authorization category of second-class mail. Controlled circulation is no longer a separate class of mail.

17. Section 441.1 was changed to clarify the application requirements for second-class mail privileges and to set forth application procedures for controlled-circulation type second-class publications.

18. Section 442.1 was changed to clarify the procedures for additional entry applications and to include the provisions for a 30-day waiting period for controlled-circulation type second-class publications desiring additional entry points, made final effective March 6, 1981 (46 FR 10721).

19. Part 444 was changed to clarify reentry application procedures for a change in title, frequency or office of publication (section 444.1) and to provide for changes in qualification categories from controlled circulation to general (section 444.23) and from general to controlled circulation (section 444.24).

20. Second-Class presort requirements in section 467.6 were changed to provide for new 5-digit and carrier route per-piece rates for mailings of special rate publications to destinations outside the county of publication, new carrier route per piece rates for regular rate and science of agriculture limited circulation publications, and new carrier route per piece rates for in-county copies.

21. Chapter 5 of the DMM has been entirely deleted due to the merger of second-class and controlled circulation. All regulations governing publications formerly mailed as controlled circulation are now found in chapter 4 (second-class).

22. The single piece third-class rates in section 611.11 have been increased, with the first rate increment applicable to pieces up to one ounce.

23. The bulk third class rates have been changed in section 611.2, with three levels of presortation reflected in the rates, carrier route, five-digit presort and basic (required presortation). The rate differences between books/catalogs and all other bulk third-class matter have been eliminated. Exhibits 611.2a and 611.2b have been added which show the weight breakpoints for application of the minimum per piece rate.

24. The rates for keys and identification devices in section 611.4 have been increased.

25. Eligibility and preparation requirements for the five-digit presort level rate have been added to sections 622.1, 667.4 and 672.3.

26. Part 628 has been changed due to the combination of books/catalogs and all other third-class matter.

27. Part 652 has been changed to increase the surcharge on nonstandard third-class mail, and to make it applicable only to pieces weighing one ounce or less.

28. All of the fourth-class rates in part 711 have changed. The parcel post rates in section 711.1 are shown in three separate rate charts due to the introduction of the intra-BMC discount and the nonmachinable surcharge.

29. Section 722.1 was changed by adding Exhibit 722.1 to show the ZIP Code areas served by bulk mail centers (BMCs).

30. Section 724.223 was changed to reduce the number of pieces required for special fourth-class presort level B rates to 500 pieces.

31. Part 753 was added to provide for the nonmachinable surcharge for inter-BMC parcels.

32. Section 911 was changed to make the purchase of insurance with registered mail optional. All fees for registered mail changed.

33. The fees for certified mail in section 912.3 changed.

34. The fees for insuring mail in section 913.21 were increased. The insurance limit for unnumbered insured articles increased from $15 to $20, requiring changes in 913.21, 913.43, 913.44, 913.46 and 913.51.

35. Fees for collect on delivery (COD) in section 914.21 were increased.

36. Special delivery fees in section 915.41 and special handling fees in section 916.2 were increased.

37. Changes were made in section 917 for business reply, 918 for parcel airlift (PAL) and 919 for merchandise return, due to fee increases.

38. The fees for certificates of mailing in section 931.2 were increased.

39. Sections 932.1 and 932.32 have changed to include the provision for return receipts for Express Mail and the increase in the insurance limit for unnumbered insured articles. The fees for return receipts were increased in section 932.2.

40. The fee for restricted delivery increased in section 933.2. Provision was made for the increase in the insurance limit for unnumbered insured articles in section 933.1.

41. In section 941.1, the fees for money orders were increased and the maximum amount of money orders was raised from $400 to $500.

42. In part 945 the fees for correction of mailing lists (945.1) furnishing address changes to election boards and registration commissions (945.2), and ZIP Coding of mailing lists (945.5) were changed).

43. In part 951, the lockbox fee schedule was revised to eliminate subgroups, show fee increases, and simplify the fee schedule by separating rental fee information and lockbox size standards into separate sections. Group 3 fees are now based on annual, rather than semiannual periods.

44. The caller service fee in section 952.222 has been increased.

45. Changes have been made in section 951.23 for lockboxes and section 952.221 for caller service to eliminate the requirement for retroactive adjustment for fee increases.

Although exempt from the requirements of the Administrative Procedure Act (5 U.S.C. 553 (b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service ordinarily invites comment from the public whenever it proposes a new or amended regulation, such as those set forth below, which might have a substantive effect on the public. In this case, however, publishing these rules as proposals, with a comment period of 30 days, would delay implementation of many of the changes adopted by the Governors and ordered implemented on March 22, 1981, by the Board of Governors. This would particularly disadvantage mailers desiring to take advantage of changes such as presortation discounts for various classes of mail. Moreover, the Governors decision followed ten months of on-the-record hearings at the Postal Rate Commission (Docket No. R80–1; see 39 U.S.C. 3624).

Accordingly, the Postal Service finds it unnecessary and contrary to the public interest to follow its customary practice of publishing these rules as proposed rules for comment before they become effective. See 5 U.S.C. 553(d). However, we reiterate that comments are welcomed on the published rules, and that any proposed changes will be considered and acted upon as appropriate.

A transmittal letter making these changes in the pages of the Domestic Mail Manual will be published and will be transmitted to subscribers automatically. These changes will be published in the Federal Register as provided in 39 CFR 111.3.

(39 U.S.C. 401(2), 404(a)(2) 3621, 3625, 3626, 3641)

W. Allen Sanders,

Associate General Counsel, Office of General Law and Administration.

In view of the considerations discussed above, the Postal Service hereby adopts the following revisions to the Domestic Mail Manual which is incorporated by reference in the Federal Register. See 39 CFR 111.1.

145 Permit Imprints

* * * * *

145.2 Permit

.21 Application. A permit to use permit imprints and pay postage in cash at the time of mailing may be obtained by submitting Form 3601, *Application to Mail Without Affixing Postage Stamps*, with a fee of $40 to the post office where mailings will be made. The postmaster will give the applicant * * * [The remainder of 145.21 is unchanged.]

* * * * *

149 Indemnity Claims

149.1 Insured Mail and COD Claims

* * * * *

.15 Assignment of Responsibilities

.151 a. Accept claims when evidence of postal insurance, assessment of value (including proper documentation), and required signatures are furnished.

* * * * *

.16 Payable and Nonpayable Claims

.161 Payable Claims. Subject to 149.162 insurance for loss or damage to registered, insured or COD mail within the amount covered * * *. [The remainder of 149.161 is unchanged.]

* * * * *

.162 Nonpayable Claims. [Delete 149.162d.]

* * * * *

149.6 Registered Mail Claims

* * * * *

.64 Information Required

.641 Evidence of Registration. The customer must submit evidence that the article was registered and that postal insurance was purchased. Acceptable evidence * * *. [The remainder of 149.641 is unchanged.]

* * * * *

149.7 Payment Conditions and Recovery of Articles or Reimbursement

* * * * *

.712 If commercial insurance is carried on an insured or COD * * *. [The remainder of 149.712 is unchanged.]

150 Collection and Delivery

* * * * *

159 Undeliverable Mail

* * * * *

159.5 Dead Mail

* * * * *

.53 Matter Sent to Dead Letter and Dead Parcel Branches

* * * * *

b. A fee of 70 cents is charged for delivery to sender or addressee of each letter and first-class parcel opened in the dead mail branch.

* * * * *

.554 Dead Mail Fee. The dead mail fee of 70¢ (see 159.536) is charged * * * [The remainder of 159.536 is unchanged.]

* * * * *

CHAPTER 2.—EXPRESS MAIL

210 Rates and Fees

* * * * *

211 General Rate Information

* * * * *

211.2 Express Mail postage rates are based on zones measured by great circle air miles between the airport serving the origin postal facility and the airport serving the destination postal facility, as follows:

Zone	Miles: Greater than	Miles: Up to and including
1 & 2	0	150
3	150	300
4	300	600
5	600	1,000
6	1,000	1,400
7	1,400	1,800
8	1,800	2,400
9	2,400	

* * * * *

213 Express Mail Custom Designed Service Rates

* * * * *

213.2a. Add $5.60 for each delivery stop for item(s) tendered for delivery to addressee.

213.2b. For each collection stop, add $5.60 per occurrence.

* * * * *

214 Express Mail Next Day Service Rates

214.1 This service was formerly called Regular Service.

214.2 The rates for Express Mail Next Day Service are set forth in Exhibits 214a (*Express Mail Next Day Service-Post Office to Addressee*) and 214b (*Express Mail Next Day Service-Post Office to Post Office*). They are subject to the following: for each collection stop, add $5.60 per occurrence.

* * * * *

290 Ancillary Services

* * * * *

296 Return Receipts

Return receipts furnish the mailer with evidence of delivery. The fee paid for a return receipt does not insure the article against loss or damage. The return receipt is returned by mail by the Postal Service to the mailer after the article is delivered to the addressee. For fees, see 932.2. Restricted delivery service is not available for Express Mail.

Exhibit 214B—Next Day Service, Post Office to Post Office Rates

CHAPTER 3.—FIRST-CLASS MAIL

310 Rates and Fees

A. Single Letters (12 oz. or less)

This applies to first-class letters which do not exceed 12 ounces.

First oz. or fraction of an oz..... 18¢
Each additional oz. or fraction of an oz..... 17¢

B. Cards

Postal cards are stamped cards sold by the USPS. Post cards are sold commercially and must have stamps added. Rates:

Postal cards:
Single ..... 12¢ each
Double ..... 24¢ (12¢ each part)

Post cards:
Single ..... 12¢ each
Double ..... 24¢ (12¢ each part)

(Reply part does not have to bear postage when originally mailed.)

C. Presort First-Class Mail:

To mail at presort rate, the *annual presort fee of $40* must first be paid.

Rates: The applicable first-class rate, less 5¢ per piece for letters and less 1¢ per piece for cards.

D. Carrier Route First-Class Mail

To mail at the carrier route First-Class rate, the presort *annual fee of $40* must first be paid. (This is the same fee to mail at Presort First-Class Mail rates.)

Rates: The applicable full first-class rate, less 4¢ per piece for letters and less 2¢ per piece for cards.

Exception: Parcels weighing less than 15 pounds, measuring over 84 inches but not exceeding 100 inches in length and girth combined, are chargeable with a minimum rate equal to that for a 15-pound parcel for the zone to which addressed.

320 Classification

• • • • • •

323 *Presorted First-Class Mail*

• • • • • •

323.2 Carrier Route First-Class Mail

Carrier route First-Class rates apply to each piece that is part of a group of 10 or more pieces properly sorted to the same carrier route, rural route, highway contract route, lockbox section, or general delivery unit, when they are presented at one post office as part of a single mailing of not less than 500 pieces. All pieces in the mailing must weigh 12 ounces or less, and be within the same processing category (see 128). The appropriate identification marking and Presort rate or full First-Class postage must be paid on the pieces not sorted in groups of 10 or more to the same carrier route, rural route, highway contract route, lockbox section, or general delivery unit. Mailers must, at the time of each mailing, provide the post office a listing indicating the number of qualifying pieces to each 5-digit ZIP Code area. Mailers are responsible for the proper makeup of mail to carrier routes according to the latest official Postal Service scheme. See 622.11e(2) for procedures to obtain official Postal Service schemes. When a carrier route First-Class mailing is found to have more than 5 percent error in the makeup to carrier routes in a 5-digit ZIP Code area, postage will be recalculated at the Presort First-Class rate of postage for all pieces within that 5-digit ZIP Code area, providing the pieces meet the Presort First-Class Mail preparation requirements.

• • • • •

340 Authorizations and Permits

341 Annual Presort Fee

A Presort First-Class mailing fee must be paid once each calendar year at each office of mailing by any person or organization who enters mailings at a Presort First-Class Mail rate or at a carrier route First-Class rate. Persons or organizations paying this fee may enter mail of their clients as well as their own mail. Payment of one fee allows a mailer to enter mail materials at both rates.

• • • • •

350 Physical Limitations

• • • • •

353 Nonstandard First-Class Mail

• • • • •

353.3 Surcharge. A surcharge of 9 cents is assessed on each piece of nonstandard First-Class Mail.

• • • • •

362 Marking Requirements

• • • • •

362.2 Presort First-Class Mail

• • • • •

362.3 Carrier Route First-Class Mail

• • • • •

.31 Qualifying Pieces

All pieces which qualify for the carrier route rates in a carrier route First-Class mailing, must be marked *First-Class* and *Carrier Route Presort* or *CAR-RT SORT* as follows:

a. When a permit imprint is used, the identifications *First-Class* and *Carrier Route Presort* or *CAR-RT SORT* must be part of the permit imprint or printed or rubber stamped by the mailer above the address and immediately below or to the left of the permit imprint, except as provided in 362.31(e).

b. When a meter stamp is used, the identifications *First-Class* and *Carrier Route Presort* or *CAR-RT SORT* must be printed or rubber stamped by the mailer above the address and immediately below or to the left of the meter stamp, except as provided in 362.31(e).

c. When a precanceled stamp is used, the identifications *First-Class* and *Carrier Route Presort* or *CAR-RT SORT* must be printed or rubber stamped by the mailer above the address and immediately below or to the left of the precanceled stamp, except as provided in 362.31(e). *Note:* Precanceled stamps in denominations suitable for carrier route rate may be provided by the Postal Service as conditions permit and demand suggests. There is no guarantee that they will be available. Precanceled stamps bearing the words *Carrier Route Presort*, if provided, will be sufficient identification for carrier route mailings, and the identifications *Carrier Route Presort* or *CAR-RT SORT* need not be printed or rubber stamped on the piece if such stamps are used.

d. The *First-Class* and *Carrier Route Presort* or *CAR-RT SORT* markings may be printed by a postage meter, special ship, ad plate, or other suitable means which will ensure a legible endorsement.

e. As an alternative to a, b, and c above, the endorsement *Carrier Route Presort* or *CAR-RT SORT* may be located in the address area on either the line above the address or two lines above the address. (The preferred position is two lines above the address.)

.32 Nonqualifying Pieces (Presort rate and residual full rated pieces)

All pieces which are part of a carrier route First-Class mailing, but which do not qualify for the carrier route rate, must be marked *"PRESORTED FIRST-CLASS"* as noted in 362.2. *Exception to marking:* When, *and only when*, the total number of Presort rate and residual (full rate) pieces in a carrier route First-Class mailing does not exceed 5% of the total number of qualifying pieces, Presort rate and residual pieces may be marked with the *Carrier Route Presort* or *CAR-RT SORT* identification.

• • • • •

367 Preparation of Presorted Mailings

367.1 Presort First-Class Mail (General) (see Exhibit 367.1)

• • • • •

367.2 Presort First-Class Mail (Sortation Requirements)

• • • • •

.26 Nonqualifying Pieces

All nonqualifying pieces in a Presort First-Class mailing are residual and are subject to full First-Class rates. Nonqualifying pieces must be sorted and prepared according to 367.5.

367.3 Carrier Route First-Class Mail

.31 Packages

.311 When to Make Packages

When there are 10 or more pieces to the same carrier route, rural route, highway contract route, lockbox section, or general delivery unit, the mailer must prepare the pieces as a package. Rubber bands are the only acceptable means of securing packages of trayed mail.

.312 Rubber Bands

Rubber bands will be provided by the Postal Service and must be used by mailers to secure packages of carrier route First-Class under the following conditions.

a. Packages of letter size pieces, as described in 128.2, must be secured with rubber bands.

b. Packages should not exceed approximately 4 inches in thickness.

c. Packages up to one inch in thickness must be secured with one rubber band around the girth. Packages between one and four inches in thickness must be secured with two rubber bands, the first around the length and the second around the girth.

.313 Labeling Packages

Whenever a carrier package is not placed in a tray labeled to show that it contains only packages for the

**CR 22

up according to the latest "official scheme") will be made at the delivery unit.

12 Collected at Customer's Facility. All presorted and carrier route First-Class mailings collected at the customer's facility will be verified at a post office accepta-

two rubber bands, the first around the length and the second around the girth.

.313 Labeling Packages

Whenever a carrier package is not placed in a tray labeled to show that it contains only packages for the same carrier route, rural route, highway contract route, lockbox section, or general delivery unit, the mailer must use one of the following procedures to label the package:

a. The mailer may prepare packages with a facing slip which must be affixed to the front of the package and marked as shown below:

Line 1: City, State, and 5-Digit ZIP Code of Address.
Line 2: Carrier Route, Rural Route, Highway Contract Route, Lockbox Section, or General Delivery Unit.
Line 3: Office of Mailing.

Sample:

SAN FRANCISCO CA 94133
RURAL ROUTE 12
BOSTON MA 021

b. Packages made up to individual carrier routes, rural routes, highway contract routes, lockbox sections, or general delivery units may be prepared without facing slips when the following conditions are met:

(1) The carrier route information consisting of a descriptive prefix (or its abbreviation), plus a two-digit route number or four-digit numeric code, must be on the top line of the address, either alone (the preferred format), or with other information (addressee, account data, etc.). Alternatively, the carrier route information may appear with the *Carrier Route Presort* endorsement on the line above or two lines above the address when the *Carrier Route Presort* endorsement is located in the address area in accordance with 362.31e.

(2) The descriptive prefix "carrier route", "rural route", "highway contract route", "lockbox section", or "general delivery unit" must either be spelled out (the preferred format) or abbreviated as follows:

Carrier Route	CR
Rural Route	RR
Highway Contract Route	SR
Lockbox Section	LS
General Delivery	GD

(3) The descriptive prefix must be followed by one blank space and a two-digit route number. The mailer may use a four-digit numeric route code. This four-digit route code must consist of the last two digits of the ZIP Code followed by the two-digit carrier route number.

(4) The carrier route information must be right justified.

(5) The carrier route information must be preceded by at least two asterisks (**), or other distinctive non-alphabetic or non-numeric characters. The following are examples of address formats:

**CR 22
Resident
1300 Waterford Drive
District Heights, MD 20028

**Rural Route 05
Postal Customer
1602 Country Lane
Burke, VA 22015

Postal Customer **RR 1505

CAR-RT SORT **CR 22
Resident
1300 Waterford Drive
District Heights, MD 20028

(6) At least 10 spaces must be allowed for carrier route information if it is included with other information on the top line.

.32 Traying

Packages must be made up into trays in accordance with 367.4.

367.4 Carrier Route First-Class Mail (Sertation Requirements)

.41 Carrier Route Packages and Trays

.411 Carrier Route Packages. When there are 10 or more pieces, but less than a full tray, addressed to the same carrier route, rural route, highway contract route, lockbox section, or general delivery unit, the mailer must prepare them in packages of 10 or more pieces, and not more than 4 inches in thickness. The pieces in the packages must be faced in the same direction and secured with one or two rubber bands around each package as provided in 367.414.

.412 Trays

a. *Carrier Route Trays.* When there are enough qualifying carrier packages to the same carrier route to fill a tray, a direct carrier route tray must be prepared. Each tray must be labeled in the following manner:

Line 1: City, State, and 5-Digit ZIP Code Destination.
Line 2: Contents and Carrier Route, or Rural Route, Lockbox Section, Highway Contract Route, or General Delivery Unit.
Line 3: Office of Mailing.

Sample:

SAN FRANCISCO CA 94133
FCM—CARRIER ROUTE 18
PORTLAND OR 972

b. *Carrier Routes Trays.* All qualifying carrier packages which are not placed in carrier route trays must be placed in carrier routes trays labeled to a 5-digit ZIP Code destination. Each tray must be labeled in the following manner:

Line 1: City, State, and 5-Digit ZIP Code Destination.
Line 2: Contents followed by the words *CARRIER ROUTES.*

Line 3. Office of Mailing

Sample:

SAN FRANCISCO CA 94133
FCM—CARRIER ROUTES
BOSTON MA 021

.42 Nonqualifying Pieces

.421 Definition. Pieces remaining after packages and trays have been prepared in accordance with 367.3 are nonqualifying and are ineligible for the carrier route rate. The nonqualifying portion of the mailing consists of Presort First-Class mail pieces (367.2) and residual pieces (367.5). The applicable rate on nonqualifying pieces is the Presort rate or full rate on residual pieces.

.422 Sortation. Pieces remaining after all possible carrier route packages and carrier route and carrier routes trays have been prepared must be sorted according to the requirements in 367.2 and 367.5. The nonqualifying portion must be completely separated from the qualifying carrier route or carrier routes trays.

.423 Limits on Nonqualifying Pieces. There is no limit on the total number of nonqualifying pieces in a carrier route mailing, provided all Presort First-Class Mail and residual pieces are marked with the identification required in 362.32. If the number of Presort rate and residual (full rate) pieces is 5% or less of the total number of qualifying carrier route pieces in the mailing, mailers may endorse these pieces as *First-Class Carrier Route* or *CAR-RT SORT*. (Mailers can use this option only if the total number of nonqualifying pieces is 5% or less of the total number of carrier route qualifying pieces.)

367.5 Residual (Full Rate) Pieces

• • • • •

370 Mailing

• • • • •

374 Presort Verification

374.1 Where Verified

.11 Accepting Post Office.

a. Presort First-Class mailings will be verified at the post office of acceptance to establish that each mailing made at the Presort rate is properly made up and presorted and qualifies for the Presort rate.

b. Carrier route First-Class mailings will be verified at the post office of acceptance to ensure the nonqualifying pieces are properly prepared and do not exceed applicable limits. Verification for proper carrier route presort makeup according to the latest "official scheme") will be made at the delivery unit.

12 Collected at Customer's Facility. All presorted and carrier route First-Class mailings collected at the customer's facility will be verified at a post office acceptance unit unless the mailing is made under an optional procedure or complete acceptance and verification is accomplished at the customer's facility. If a presorted or carrier route First-Class mailing, which has been collected at the customer's facility and brought to the appropriate acceptance unit is found not to qualify due to makeup irregularities, improper postage, or other reasons, the mailer must come to the acceptance unit to resolve the discrepancies.

374.2 When a Presort Mailing Is Disqualified.

.21 Options. a. When a presort mailing is disqualified, the mailer has the option of taking corrective action or paying the full regular single piece rate. When necessary, the return of such mailings to the customer's plant is the responsibility of the mailer. Discrepancies are to be corrected or the full first-class postage rate is to be paid before the mailing will be accepted.

b. When a carrier route First-Class mailing is found to have more than 5 percent error in the makeup to carrier routes in a 5-digit ZIP Code area, the mailing does not qualify for the carrier route First-Class rate. Postage will be recalculated at the Presort First-Class rate of postage on all pieces within that 5-digit ZIP Code area, provided the pieces meet the Presort First-Class Mail preparation requirements.

• • • • •

380 Payment of Postage

• • • • •

382 Presort and Carrier Route Rates (See Exhibit 310)

382.1 Method of Payment

Postage on mailings made at Presort or carrier route rates must be paid by meter stamps, permit imprints, or precanceled postage. Permit imprints may only be used on mailings of nonidentical weight under the provisions of 145.8 or 145.9.

382.2 Exact Postage on Each Piece

.21 Presort Rates. When precanceled postage or meter stamps are used, pieces must bear postage at the Presort First-Class rate on qualifying pieces, and at the full First-Class rate on residual pieces except as provided in 382.3.

.22 Carrier Route Rates. When precanceled postage or meter stamps are used, pieces must bear postage at the carrier route First-Class rate on qualifying pieces. Nonqualifying pieces must bear postage as required in 382.21.

CHAPTER 4.—SECOND-CLASS MAIL

410 Rates, Fees, and Charges

411 Rates

411.1 Rate Elements

The postage charged for mailing second-class matter is based on the application of the following rate elements to the mailing:

a. *Per pound rate.* The total weight of the mailing in pounds is multiplied by the per pound rate.

b. *Per piece rate.* The total number of pieces in the mailing is multiplied by the per piece rate. An individual addressed copy or package of unaddressed copies is considered a piece.

Note: The postage to be paid for a mailing is the sum of the charges determined by applying the per pound rate, and the charges determined by applying the per piece rates.

411.2 Regular Rates

.21 General

(*Note:* The rates in 411.21 through 411.24 apply to all copies of publications which do not qualify for one of the preferred rates contained in 411.3.)

.211 Per pound Rates. Rates per pound or fraction of a pound:

	Cents
Nonadvertising portion	10.6
Advertising portion:	
Zones 1 and 2	14.2
Zone 3	15.4
Zone 4	17.7
Zone 5	21.5
Zone 6	25.8
Zone 7	30.1
Zone 8	34.8

.212 Per Piece Rates. The three per piece rates reflect the level of presort. The sortations that must be accomplished to qualify for these rates are prescribed in 467.

	Cents
Level A—Basic—Pieces not qualifying for Level B—5-Digit or Level C—Carrier (SCF, states, mixed states)	8.0
Level B—5-Digit—Packages of six or more addressed pieces for 5-digit or multi-ZIP Coded City destinations	6.4
Level C—Carrier—Packages of six or more addressed pieces for carrier route or finer sort destinations	5.4

Note: Copies of second-class publications that do not qualify for Level B—5-Digit or Level C—Carrier must be sorted to the finest extent possible as required by 467.

.22 Commingled Nonsubscriber rate

.221 General. These rates apply to nonsubscriber copies of second-class publications that are commingled and presorted with subscriber or requester copies if the nonsubscriber and nonrequester copies are in excess of the 10 percent allowance (See 428.1) mailable at the applicable rates in 411.21, 411.32, 411.33, 411.34, 411.35, 411.36 and 411.37.

.222 Per pound Rates. Rates per pound or fraction of a pound:

	Cents
Nonadvertising portion	10.6
Advertising portion:	
Zones 1 and 2	14.2
Zone 3	15.4
Zone 4	17.7
Zone 5	21.5
Zone 6	25.8
Zone 7	30.1
Zone 8	34.8

.223 Per Piece Rates. The three per piece rates reflect the level of presort. The sortations that must be accomplished to qualify for these rates are prescribed in 467.

	Cents
Level A—Basic—Pieces not qualifying for Level B—5-Digit or Level C—Carrier (SCF, state, mixed states)	8.0
Level B—5-Digit—Packages of six or more addressed pieces for 5-digit or multi-ZIP Coded City destinations	6.4
Level C—Carrier—Packages of six or more addressed pieces for carrier route or finer sort destinations	5.4

Note: Copies of second-class publications that do not qualify for Level B—5-Digit or Level C—Carrier must be sorted to the finest extent possible as required by 467.

.23 Controlled Circulation Publications

.231 General. These rates apply to requester and commingled nonrequester copies of controlled-circulation publications.

.232 Per Pound Rates. Rates per pound or fraction of a pound:

	Cents
Nonadvertising portion	10.6
Advertising portion:	
Zones 1 and 2	14.2
Zone 3	15.4
Zone 4	17.7
Zone 5	21.5
Zone 6	25.8
Zone 7	30.1
Zone 8	34.8

.233 Per Piece Rates. The three per piece rates reflect the level of presort. The sortations that must be accomplished to qualify for these rates are prescribed in 467.

	Cents
Level A—Basic—Pieces not qualifying for Level B—5-Digit or Level C—Carrier (SCF, states, mixed states)	8.0
Level B—5-Digit—Packages of six or more addressed pieces for 5-digit or multi-ZIP Coded City destinations	6.4
Level C—Carrier—Packages of six or more addressed pieces for carrier route or finer sort destinations	5.4

Note: Copies of second-class publications that do not qualify for Level B—5-Digit or Level C—Carrier must be sorted to the finest extent possible as required by 467.

.24 Transient Rate for Noncommingled Copies:

.241 General. The transient rate for noncommingled copies is charged for copies mailed by the general public (persons other than publishers or registered news agents), or copies mailed by publishers or registered news agents which are not commingled and presorted as part of the regular mailing of subscriber or requester copies.

.242 Rate per Copy

Weight:	Cents
0 to 1 ounce	15
Over 1 to 2 ounces	33
Over 2 to 3 ounces	49
Over 3 to 4 ounces	59
Over 4 to 5 ounces	69
Over 5 to 6 ounces	79
Over 6 to 7 ounces	89
Over 7 to 8 ounces	99
Over 8 to 10 ounces	$1.09
Over 10 to 12 ounces	$1.19
Over 12 to 14 ounces	$1.29
Over 14 to 16 ounces	$1.39
Over 16 ounces	[1] $1.59

[1] Plus 10 cents for each additional 2 ounces over 16 ounces.

Note:

a. Rates are computed on each individually addressed copy or package of unaddressed copies.

b. The fourth-class rates for parcel post or bound printed matter, as appropriate, must be charged if they are lower than the transient rate.

411.3 Preferred Rates

.31 General

There are six preferred rates. They are:

a. In-county

b. Special Nonprofit

c. Classroom

d. Science-of-Agriculture

e. Limited Circulation

f. Limited Circulation Science-of-Agriculture

.32 In-County Rates

.321 General Application. In-county rates apply to copies of second-class publications (except commingled nonsubscriber in excess of the 10% allowance, and controlled-circulation) which are to be delivered to addresses within the county of publication if such copies are:

a. Mailed at the office of original entry; or

b. Mailed at an office of additional entry within the county of publication.

Note: If the postmaster of an office of entry directs a publisher to deposit copies of the publication at a postal facility serving that office, these copies will be considered as mailed at the office of entry. Copies are subject to in-county rates if they are addressed to destinations within the county and are entered at a post office which serves these addresses, but is located outside the county.

.322 Rates. In-County rates are:

	Cents
Per Pound	3.2
Per Piece:	
Level J—Not Presorted to Carrier Route	1.6
Level K—Presorted to Carrier Route—Packages of six or more addressed pieces for carrier route or finer sort destinations	1.6

.323 Independent Cities. Each second-class publication (except commingled nonsubscriber copies in excess of the 10% allowance, and controlled circulation) having original entry at an incorporated city which is situated entirely within a county or which is situated contiguous to one or more counties in the same State, but which is politically independent of such county or counties, will be considered to be within and a part of the county with which it is principally contiguous, and copies mailed into that county are chargeable with postage at the in-county rates. Where more than one county is involved, the publisher will select the principal county and notify the postmaster.

.33 Special Nonprofit Rate

.331 Per Pound Rates. Rates per pound or fraction of a pound:

	Cents
Nonadvertising portion	6.5
Advertising portion:	
Zones 1 and 2	9.5
Zone 3	10.0
Zone 4	11.4
Zone 5	13.3
Zone 6	15.0
Zone 7	16.6
Zone 8	18.0

Note: The advertising zone rates are applicable to issues in which the advertising portion exceeds 10 percent. Issues containing 10 percent or less advertising will be computed at the nonadvertising rate.

.332 Per Piece Rates. The three per piece rates reflect the level of presort. The sortations that must be accomplished to qualify for these rates are prescribed in 467.

	Cents
Level G—Basic—Pieces not qualifying for Level H—5-Digit or Level I—Carrier (SCF, states, mixed states)	2.8
Level H—5-Digit—Packages of six or more addressed pieces for 5-digit or multi-ZIP Coded City destinations	2.6
Level I—Carrier—Packages of six or more addressed pieces for carrier route or finer sort destinations	2.5

Note: Copies of second-class publications that do not qualify for Level H—5-Digit or Level I—Carrier must be sorted to the finest extent possible as required by 467.

.34 Classroom

.341 Per Pound Rates. Rates per pound or fraction of a pound:

	Cents
Nonadvertising portion	4.0

try located outside the county where published and entered, when the total number of out-of-county copies is less than 5,000.

Zone 5	21.5
Zone 6	25.8
Zone 7	30.1
Zone 8	34.8

.363 Per Piece Rates. The three per piece rates reflect the level of present (see 467) for mailings of less than 5,000 out-of-county copies per issue:

	Cents
Level D—Basic—Pieces not qualifying for Level E—5-Digit or Level F—Carrier (SCF, states, mixed states)	2.7
Level E—5-Digit—Packages of six or more addressed pieces for 5-digit or multi-ZIP Coded City destinations	2.1
Level F—Carrier—Packages of six or more addressed pieces for carrier route or finer sort destinations	2.1

Note: Copies of second-class publications that do not qualify for Level E—5-Digit or Level F—Carrier must be sorted to the finest extent possible as required by 467.

.37 Limited Circulation Science of Agriculture

.371 General. These rates apply to copies of science of agriculture publications which will be delivered to addressees outside the county where published and entered, and on copies mailed at an office of additional entry located outside the county where published and entered, when the total number of out-of-county copies is less than 5,000, and when the total number of copies furnished during any 12-month period to subscribers residing in rural areas consists of at least 70% of the total number of copies distributed by any means for any purpose.

.372 Per Pound Rates. Rates per pound or fraction of a pound:

	Cents
Nonadvertising portion	10.6
Advertising portion:	
Zones 1 and 2	9.9
Zone 3	15.4
Zone 4	17.7
Zone 5	21.5
Zone 6	25.8
Zone 7	30.1
Zone 8	34.8

.373 Per Piece Rates. The three per piece rates reflect the level of present (see 467) for mailings of less than 5,000 out-of-county copies per issue.

	Cents
Level D—Basic—Pieces not qualifying for Level E—5-Digit or Level F—Carrier (SCF, states, mixed states)	2.7
Level E—5-Digit—Packages of six or more addressed pieces for 5-Digit or multi-ZIP Coded City destinations	2.1
Level F—Carrier—Packages of six or more addressed pieces for carrier route or finer sort destinations	2.1

Note: Copies of second-class publications that do not qualify for Level E—5-Digit or Level F—Carrier must be sorted to the finest extent possible as required by 467.

.38 Nonsubscriber Copies, Sent at a Preferred Rate

Nonsubscriber copies mailed at any time during the calendar year up to 10 percent of the total weight of copies mailed to subscribers during the calendar year are preferred mail and subject to the preferred mail rates, provided that the nonsubscriber copies would have been preferred mail if mailed to subscribers.

412 Fees

412.1 Application Fees for Second-Class Privileges

The fees to accompany applications for second-class original entry, reentry, additional entry, or for registration as a news agent, are:

Kind of application:	Amount
a. Original Entry	$160.00
b. News Agent Registry	30.00
c. Reentry (because of change in title, frequency of issue, office of publication, or other reason)	30.00
d. Additional Entry (Only one is collectible for an application for additional entry even if the additional entry for which application is made modifies another previously approved additional entry	50.00

Note: If an application is not approved, no part of the fee is returned to the applicant.

412.2 Fee for Address Correction Service

The fee for address correction service is 25 cents per notice issued.

480 Classification

* * * * *

422 Types of Authorization

* * * * *

422.6 Controlled Circulation Publications

.61 General. A publication, whether circulated free or to subscribers, is eligible for authorization to mail at the rates in 411.23 if it meets the requirements in 421 and all of the following requirements:

a. Each issue must contain at least 24 pages;

b. No issue may contain more than 75 percent advertising (see 422.232);

c. The publication must not be owned or controlled by one or more individuals or business concerns and conducted as an auxiliary to and essentially for the advancement of the main business or calling of those who own or control it; and

d. Effective March 20, 1982, the publication must have a legitimate list of persons who request the publication, and 50 percent or more of the copies of the publication must be distributed to persons making such requests. Subscription copies paid for or promised to be paid for including those at or below a nominal rate may be included in the determination of whether the 50 percent request requirement is met. Persons will not be deemed to have requested the publication if their request is induced by a premium offer or by receipt of material consideration. Requests which are more than three years old will not be considered to meet this requirement.

* * * * *

425 What May be Mailed at the Second-Class Rates

* * * * *

425.6 Enclosures. The only enclosures permitted in second-class publications are receipts and orders for subscriptions. Copies of publications authorized controlled circulation mailing privileges may also contain forms for requesting the publication. These may either be inserted loose or bound in the publication. Preparation methods include, but are not limited to:

a. Printed or written;

b. Printed on cards and envelopes including business reply;

c. Arranged to include coin receptacles; or

d. Arranged as combination forms for two or more second-class publications issued by same publisher.

* * * * *

490 Authorization and Permits

441 Original Entry for Publishers and News Agents

441.1 Application Forms and Copies Filed

.11 General

.111 An application must be filed by the publisher before a publication will be considered for second-class authorization. Copies of application forms may be obtained from the local postmaster. The headings on the forms describe the information the publisher must furnish. Two copies of the issue published nearest to the date of application must accompany the application. These copies must meet the preparation requirements contained in 460. The copies must be marked to show the advertising content and the percentage of advertising must be stated on the cover. When one-half or more of the total copies distributed are purchased by news agents for resale or are consigned to news agents for sale, two copies each of at least four issues must be filed before an application is either approved or disapproved, to demonstrate compliance with the requirement for regular issuance at least four times each year. If the publication is printed in a foreign language, a brief translation of the contents of the copies must be furnished with the application. Generally a synopsis of each article and advertisement will suffice.

.112 The postmaster will forward the application and one copy of the publication to his Mail Classification Center (MCC). The MCC, after reviewing the application for completeness, will forward it with one copy of the publication to the Office of Mail Classification, Rates and Classification Department, USPS Headquarters, Washington, DC 20260.

* * * * *

.15 Controlled Circulation Publications

.151 Application. An application for a publication which seeks authorization under 422.6 must be filed on Form 3511, *Application for Mailing Under Controlled Circulation Privileges*, at the post office serving the known office of publication.

.152 Supporting Documentation. Effective March 20, 1982; the publisher must maintain records adequate to establish that the primary distribution of the publication is to persons who have requested it. See 447 for a description of the types of records needed to satisfy this requirement. The postmaster of the office of publication (original entry) will review the application and verify the accuracy and adequacy of the publisher's records.

.16 Foreign Publications.

An application for a publication which seeks authorization under 422.5 must be filed on Form 3501–A, *Application to Mail Publications at Second-Class Rates*, at the post office where the mailings are to be made. All information requested on the form must be made available by the publisher or the publisher's agent for verification (see 447).

.17 News Agents

A news agent must file application Form 3501–A before being considered for authorization to mail at the second-class rates. All information requested on the form must be provided. The application must be filed at the post office where mailings are to be made (see 447).

• • • • •

442 Additional Entry Applications

442.1 Application Procedure. If multiple entry points are desired, a Form 3510, *Application for Additional Entry or Reentry of Second-Class Publication*, must be filed by the publisher at the original entry post office. A publisher may apply for permission to mail at additional entry post office(s) at the time of the original entry application or at a later time. Two copies of the issue nearest the application date must accompany the application(s). These must be marked to show the advertising content as described in 483. Publishers of publications authorized second-class privileges under the provisions of 422.6 (controlled circulation) must file applications for additional entry 30 days prior to making a mailing at the proposed additional entry office(s). Postage for mailings presented prior to the expiration of the 30-day period must be made at the first-, third-, or fourth-class postage rates.

• • • • •

444 Application for Reentry

444.1 Change in Title, Frequency, or Office of Publication. An application for reentry must be filed on Form 3510, *Application for Additional Entry or Reentry of Second-Class Publication*, whenever the name, frequency of issuance, location of the known office of publication, or qualification category (see 422) is changed. When the name or frequency of issuance of a publication is changed, a Form 3510 must be filed at the post office of original entry with two copies of the publication showing the new name or frequency. When the location of the known office of publication is changed, a Form 3510 must be filed at the new mailing office with two copies of the publication showing the name of the new office as the known office of publication. These copies must be marked to show the percentage of advertising as prescribed in 483. A reentry application need not be filed if the known office of publication is moved to a location served by the same post office. An application for reentry is not required when only the ownership of a publication is changed unless the change disqualifies the publication for an entry which was authorized under 422.3.

• • • • •

444.2 Changing Qualification Categories

• • • • •

.23 *Controlled Circulation to General.*

When a publication authorized under 422.6 wishes to change its authorization to 422.2, the publisher must submit Form 3510 and Form 3501, *Application for Second-Class Mail Privileges* (pink form), at the office of original entry. The postmaster will verify the circulation records of the publication and complete the application to determine whether the publication meets the paid circulation requirements of 422.2.

.24 *General to Controlled Circulation.*

When a publication authorized under 422.2 wishes to change its authorization to 422.6, the publisher must submit Form 3510 and Form 3511, *Application for Mailing Under Controlled Circulation Privileges*, at the office of original entry. The postmaster will verify the circulation records of the publication and complete the application to determine whether the publication meets the requirements of 422.6.

• • • • •

460 Preparation Requirements

• • • • •

467 Presort Requirements

• • • • •

467.6 Preparing Presort Level Discount Rated Pieces (Levels B, C, E, F, H, I & K)

.61 General.

There are several different piece rates provided for pieces mailed outside the county of publication (except pieces mailed at the classroom rate) and for pieces mailed within the county of publication, which reflect the level of presort. Presort Levels A–(basic), B–(5-digit), C–(carrier) are provided for pieces mailed at the regular, commingled nonsubscriber, and science of agriculture rates mailed to destinations outside the county of publication and for pieces mailed at the controlled circulation rate. Presort Levels D–(basic), E–(5-digit), and F–(carrier) are provided for pieces mailed at limited circulation and limited circulation science of agriculture rates mailed to destinations outside the county of publication. Presort Levels G–(basic), H–(5-digit), and I–(carrier) are provided for pieces mailed at the special nonprofit rates mailed to destinations outside the county of publication. Presort Levels J–(basic) and K–(carrier) are provided for pieces eligible for within county rates.

.62 Qualification Requirements.

a. *5-Digit Rates.* To qualify for the Level B, E, or H piece rate a piece must be: (1) In a 5-digit package of six or more pieces and the package must be in a 5-digit sack, or (2) In a city package (see 467.114) or 3-digit package of six or more pieces addressed to a city having a unique 3-digit ZIP Code prefix. The package must be in a city sack or a 3-digit sack for a city with a unique 3-digit ZIP Code prefix.

b. *Carrier Rates.* To qualify for the Level C, F, I, or K piece rate, a piece must be in a carrier route package of six or more pieces and the package must be in a carrier route sack or carrier routes sack. The following provisions also apply:

(1) *Proper Makeup.* Mailers are responsible for makeup of mail to carrier routes according to the latest official Postal Service scheme. Postage on mailings with more than a 5% error in the makeup to carrier routes in the 5-digit ZIP Code area will be recalculated at the appropriate "basic" rate (level A, D, G or J) for all pieces claimed at carrier route level rates delivered in that 5-digit ZIP Code area.

(2) *Obtaining Schemes.* See 622.11e(2)

c. *Bundling Instead of Sacking.* Pieces presented in bundles instead of sacks (see 467.3) are eligible for presort rates providing they meet all other requirements for the presort rates.

.63 *Documentation Requirements.*

Mailers must be prepared to document or otherwise confirm the number of pieces mailed and paid for at Levels B, C, E, F, H, I and K piece rates. This may be done in any of the following ways:

a. By separating sacks paid at the various presort category rates when they are presented for mailing. That is, group the sacks by: (1) Those containing pieces eligible for basic rates (Levels A, D, G and J); (2) Those containing pieces eligible for 5-digit rates (Levels B, E or H); and (3) Those containing pieces eligible for carrier rates (Levels C, F, I or K).

b. By attaching to the mailing statement a list of the number of copies (and pieces) contained in sacks to each 5-digit ZIP Code, to each city having a unique 3-digit ZIP Code prefix, to each city listed in 467.114, and to each carrier route for which levels B, D, F, H, I, and K piece rates are being paid, or

c. By maintaining records for each mailing which will confirm the number of pieces in qualifying 3-digit city, 5-digit, carrier route sacks, and carrier routes sacks. The records must document the number of copies (and pieces) to each qualifying 3-digit city, 5-digit, and carrier route destination for which sacks are made up. A printout must be presented prior to the first mailing made under this arrangement. These records must be retained for at least two months, or until any pending action regarding the recalculation of postage is resolved to the satisfaction of the Postal Service (see 467.62b(1)).

Notes: The mailer must provide a copy of the record for a particular mailing, or portions of it, within 30 days of a request by the postmaster of the office of entry. Postmasters will advise the Region's Revenue Protection Programs Manager of all publications being mailed under this arrangement. Acceptance units will maintain a list of publications authorized to mail under this arrangement.

.64 Combining more than one Second-Class Publication.

.641 More than one second-class publication may be combined to meet the volume per sack or bundle requirement for the presort level discount piece rates. To qualify for Levels B and C piece rates, at least 5,000 copies of each issue in the combined mailing must be mailed to destinations outside the county of publication or be a controlled circulation publication. To qualify for the Levels E–(5-digit) and F–(carrier) rates, each publication must mail fewer than 5,000 copies per issue to destinations outside the county of publication. To qualify for Levels H–(5-digit) and I–(carrier) rates, each publication must be authorized the special nonprofit rate. To qualify for the Level K–(carrier) rate the copies of each publication in the mailing must be eligible for the in-county rates at the post office of mailing.

.642 Listings and records provided by publishers in accordance with 467.63 must also declare the total number of addressed pieces and copies of each publication mailed to each unique 3-digit city, each city listed in 467.114, each 5-digit ZIP Code destination, and each carrier route. The number of addressed mailing pieces for all publications in the mailing for each level of presort may be reported on the mailing statement for one of the publications in the mailing, or the number of addressed pieces of all publications in the mailing may be shown on a separate mailing statement.

.643 A notation such as "per piece charge for consolidated copies of (title), (title), etc." must be included on the Form 3541 or 3541–A on which the piece rates are computed. The Forms 3541 or 3541–A used to compute pound-rate postage for the individual publications must include a notation of the number of copies included on the consolidated mailing statement, and where the piece rate computations can be found (i.e., (number) copies sent in consolidated bundles and reported on the Form 3541 for (title)).

CHAPTER 6.—THIRD-CLASS MAIL

610 Rates and Fees

Over 3 to 4 oz..... .69

BULK THIRD-CLASS—Continued

PIECES WHICH ARE EQUAL TO OR WEIGH LESS THAN THE WEIGHTS SHOWN BELOW MUST BE

CHAPTER 6.—THIRD-CLASS MAIL

610 Rates and Fees

611 Rates

611.1 Single Piece Rates

.11 General. The single piece rates are applied to each piece according to its weight. The single piece rates are:

0 to 1 oz	$0.18
Over 1 to 2 oz	.35
Over 2 to 3 oz	.52
Over 3 to 4 oz	.69
Over 4 to 5 oz	.70
Over 5 to 6 oz	.92
Over 6 to 8 oz	1.14
Over 8 to 10 oz	1.36
Over 10 to 12 oz	1.58
Over 12 to 14 oz	1.81
Over 14 but less than 16 oz	

611.2 Bulk Rates (See Exhibit 611.2 a and b)

BULK THIRD-CLASS

	Regular Rate		*Special rates for authorized nonprofit organizations only (see 623)*	
	Per pound or fraction	*Minimum rate per piece*	*Per pound or fraction*	*Minimum rate per piece*
Presort level:				
Basic	33¢	10.4¢	14¢	5.5¢
5-digit	33¢ minus 1.6¢ per piece	8.8¢	14¢ minus 0.2¢ per piece	5.3¢
Carrier route	33¢ minus 4¢ per piece	6.4¢	14¢ minus 0.4¢ per piece	5.1¢

Exception: When the postage computed at the bulk third-class rate is higher than a fourth-class rate—for which the matter and the mailing could qualify *except* for weight—the fourth-class rate may be paid without the necessity of adding needless additional weight.

For example: A piece which weighs less than 1 pound and which meets all prescribed requirements, other than weight, for fourth-class bound printed matter may be mailed at the fourth-class bound printed matter rate.

All other requirements of bulk third-class remain applicable.

Exhibit 611.2a

BULK THIRD-CLASS

Regular rates:

Presort level:	Per pound or fraction of a pound:
Basic	33¢.
5-digit	33¢ minus 1.6¢ per piece.
Carrier route	33¢ minus 4.0¢ per piece.

PIECES WHICH ARE EQUAL TO OR WEIGH LESS THAN THE WEIGHTS SHOWN BELOW MUST BE PAID AT PRESCRIBED MINIMUM PER PIECE RATE FOR EACH PRESORT LEVEL

	Minimum rate per piece	*Ounces*	*Pounds*	*Grams*
Basic	10.4¢	5.04	0.315	142.9
5-digit	8.8¢	5.04	0.315	142.9
Carrier route	6.4¢	5.04	0.315	142.9

SPECIAL RATES FOR AUTHORIZED NONPROFIT ORGANIZATIONS ONLY (SEE 623)

Presort level:	Per pound or fraction of a pound:
Basic	14¢.
5-digit	14¢ minus 0.2¢ per piece.
Carrier route	14¢ minus 0.4¢ per piece.

BULK THIRD-CLASS—Continued

PIECES WHICH ARE EQUAL TO OR WEIGH LESS THAN THE WEIGHTS SHOWN BELOW MUST BE PAID AT PRESCRIBED MINIMUM PER PIECE RATE FOR EACH PRESORT LEVEL

	Minimum rate per piece	*Ounces*	*Pounds*	*Grams*
Basic	5.5¢	4.00	0.250	113.4
5-digit	5.3¢	4.00	0.250	113.4
Carrier route	5.1¢	4.00	0.250	113.4

Exception: When the postage computed at the bulk third-class rate is higher than a fourth-class rate—for which the matter and the mailing could qualify *except* for weight—the fourth-class rate may be paid without the necessity of adding needless additional weight.

For example: A piece which weighs less than 1 pound and which meets all prescribed requirements, other than weight, for fourth-class bound printed matter may be mailed at the fourth-class bound printed matter rate.

All other requirements of bulk third-class remain applicable.

Exhibit 611.2b

• • • • •

611.4 Keys and Identification Devices. Keys and identification devices such as identification cards or identification tags that are without cover may be mailed at third-class rates if they bear, contain, or have securely attached the name and complete post office address of a person, organization, or concern, with instructions to return to such address and a statement guaranteeing the payment of the postage due on delivery. They are charged 33¢ for the first 2 ounces and 30¢ for each additional 2 ounces or fraction thereof.

680 Classification

• • • • •

622 Third-Class Bulk Mail

622.1 Eligibility

• • • • •

.12 Five Digit Presort Level

a. *Minimum Quantity.* Each mailing must consist of at least 200 pieces or 50 pounds of mail presorted to 5-digit destinations. Each piece must be part of a group of 10 or more pieces sorted and sacked to the same 5-digit ZIP Code in order to be eligible for the five-digit presort level rate.

b. *Residual.* Residual pieces (those not part of a group of 10 or more pieces to a particular five-digit ZIP Code) may be included in a five-digit presort level rate mailing subject to the following provisions:

(1) Residual pieces do not count toward the minimum quantity requirements for the five-digit presort level rate.

(2) Residual pieces are not eligible for the five-digit presort level rate and must have postage paid at the appropriate third-class "basic" level bulk rate.

(3) Residual pieces must be prepared in accordance with the applicable provisions of 667.12 and 667.13.

c. *Listing Required.* Mailers must, at the time of each mailing, provide the post office a listing of the number of pieces to each ZIP Code destination when 5-digit mailings contain pieces mailed at the "basic" rate.

.13 Basic Presort Level

Mailings of at least 200 pieces or 50 pounds, presorted in accordance with 667 (except for the requirements in 667.5 for the carrier route presort level rate, which is optional) are eligible for the third-class bulk basic presort level rates.

• • • • •

625 Attachments

The front cover page or the back cover page of a mailing piece may bear an attachment provided the following conditions are met:

a. The material must qualify for and be mailed at bulk rates.

b. Pieces bearing attachments must be larger than 6 by 11 inches (too large to be distributed in a regular letter case).

c. The mailing must be presorted to carrier routes.

d. Attachments must be secured so as not to interfere with processing or delivery. Folded or multipage attachments must be secured to prevent opening during handling.

e. Each piece in the mailing must bear the same attachment.

• • • • •

680 Physical Limitations

• • • • •

652 Nonstandard Third-Class Mail

652.1 Size Limits. Third-class single piece rate mail weighing one ounce or less (except keys and identification devices as provided in 611.4) is nonstandard if it exceeds any of the following size limits:

a. Its length exceeds 11½ inches, or

b. Its height exceeds 6½ inches, or

c. Its thickness exceeds ¼ of an inch, or

d. Its aspect ratio (length divided by height) does not fall between 1 to 1.3 and 1 to 2.5 inclusive.

* * * * *

652.9 Surcharge. A surcharge of 9 cents is assessed on each piece of nonstandard single piece rate third-class mail.

660 Preparation Requirements

* * * * *

667 *Preparation of Bulk Rate Mailings (see Exhibit 667)*

* * * * *

667.4 Preparation Requirements for Five-Digit Presort Level Rate.

.41 *Five-Digit Packages.* When there are 10 or more pieces addressed to the same five-digit ZIP Code area, the mailer must prepare them in packages of 10 or more pieces. A package of letter size mail should not exceed four inches in thickness. All pieces in a package must be faced in the same direction and securely wrapped or tied together. Rubber bands are the preferred method of securing packages.

.42 *Sacking.* All qualifying packages of 10 or more pieces must be placed in and sacked to a five-digit ZIP Code destination. Each sack must be labeled in the following manner:

Line 1: City, State and 5-Digit ZIP Code Destination.
Line 2: Contents.
Line 3: Office of Mailing.

Sample:

San Francisco, CA 94133
SC LTRS
Boston, MA 021

.43 *Trays.* The accepting post office may authorize the use of trays or other containers instead of sacks provided all pieces are oriented and faced in the same direction.

.44 *Residual Pieces.* Residual pieces must be packaged and sacked in accordance with the applicable provisions of 667.12 and 667.13.

.45 *Loose Packing.* Management Sectional Center (MSC) Managers may authorize loose packing of pieces in full No. 3 sacks without bundling when all material in a sack goes to the same 5-digit ZIP Code. Pieces must be prepared to maintain orientation while in transit. Mailers desiring to loose pack pieces must request approval from the post office of mailing.

Note: The terms *loose pack* or *loose packing* refer to the placement of unbundled, unbound mail pieces in a receptacle such as a mail sack.

* * * * *

670 Mailing

* * * * *

672 *Bulk Rates*

* * * * *

672.5 Separation of Mailings.

Mailings at carrier route, and 5-digit bulk rates must be physically separated when presented for mailing.

722 *What May Be Mailed at Parcel Post Rates*

722.1 Description. Any fourth-class matter may be mailed at parcel post rates (see 711.1). The parcel post rates are based on zones described in 122.7 and on whether a parcel is mailed and delivered within a BMC or ASF service area.

BMC	ZIP Code Areas Served
Puerto Rico	006-009
New York	070-079, 088-119, 124-127
Springfield	010-069, 120-123, 128-129
Philadelphia	080-087, 137-139, 160-199
Pittsburgh	150-168, 280-286, 439-447
Washington	200, 202-212, 214-239, 244, 254, 267-268
Atlanta	298, 300-312, 317-319, 350-352, 354-368, 373-374, 377-379
Dallas	679, 710-712, 718, 733, 739, 747, 750-758, 760-768, 780-782, 786-799
Greensboro	240-243, 245-248, 270-288, 290-297, 376
Jacksonville	299, 313-316, 320, 322-331, 333-340
Memphis	369-372, 380-396, 396-397, 716-717, 719-729
Chicago	403-464, 530-532, 534-535, 537-538, 600-608, 609-611, 613
Cincinnati	250-259, 235-259, 400-418, 421-422, 425-427, 430-433, 437-438, 448-457, 460-462, 469-474
Des Moines	500-516, 520-528, 612, 680-681, 683-689
Detroit	434-436, 458, 465-468, 480-497
Kansas City	635, 640-641, 644-653, 656-658, 660-678
Minneapolis	498-499, 540-564, 566
Saint Louis	420, 423-424, 475-479, 614-620, 622-634, 636-639, 654-655, 659
Denver	690-693, 800-816, 820-831
Los Angeles	890-891, 900-908, 910-918, 920-928, 930-935
San Francisco	894-897, 936-966
Alaska	995-999
Hawaii	967-969
Seattle	835, 838-839, 970-978, 980-994

ASF	ZIP Code Areas Served
Buffalo	130-136, 140-149
Oklahoma City	730-731, 734-738, 740-741, 743-746, 748-749

Phoenix	850, 852-853, 855-857, 859-860, 863-864

Exhibit 722.1—Within BMC (Intra-BMC/ASF) Rate ZIP Code Service Areas

• • • • •

724 *What May Be Mailed at Special Fourth-Class Rates*

• • • • •

724.2 Special Fourth-Class Presort Rates

• • • • •

.22 Qualification for Presort Rates

• • • • •

.223 Level B

a. To qualify as a presorted piece subject to the special forth-class presort level B rate, a piece must be one of a mailing of at least 500 identical weight sackable pieces receiving identical service, properly prepared and presented in full sacks or substantially full sacks presorted to bulk mail centers (BMCs).

b. Mailings of at least 500 identical weight nonmachinable outside parcels as described in 128 may qualify for presort level B if they are made up to preserve the BMC presort as prescribed by the postmaster of the office of mailing. The postmaster may require notification up to 24 hours before the mailing is presented. The mailer must comply with the postmaster's instructions on how to separate and present mailings of outside parcels. The postmaster will coordinate such mailings and obtain procedures for separation of parcels through the regional logistics office.

• • • • •

730 Physical Limitations

• • • • •

753 *Nonmachinable Surcharge.* A fifty cent surcharge must be paid for all outside parcels (as defined in 128.6) mailed at inter-BMC parcel post rates. (The rates contained in Exhibit 711.1c include the surcharge.) The surcharge is in addition to the fourth-class postage. *Exception:* If the special handling fee (916) or the special delivery fee (915) is paid, the nonmachinable surcharge is not to be paid.

Note: Chapter 8 is reserved.

• • • • •

CHAPTER 9.—SPECIAL SERVICES

910 Special Mail Services

911 *Registered Mail*

911.1 Description

.110 *Purpose.* The registered mail system is designed to provide added protection for valuable and important mail. Postal insurance coverage may be purchased • • • [The remainder of 911.11 is unchanged.]

• • • • •

911.2 Fees and Liability

• • • • •

.23 Postal Insurance Liability

.231 Obtaining Postal Insurance. Postal insurance may be purchased, at the option of the mailer, to cover articles valued at the time of mailing up to $25,000. To obtain postal insurance, the full value of the article must be declared at the time of mailing and the correspondingee fee, as shown in Column A, Exhibit 911.21, must be paid.

.232 With Commercial Insurance Containing A Deductible Amount. If the mailer has commercial insurance containing a deductible amount, postal insurance may be purchased for the amount of the deductible up to the first $25,000 of value on the article at the time of mailing. To do this, the mailer must declare the full value of the article at the time of mailing. The mailer must then tell the accepting postal employee the amount of the deductible requiring postal insurance. The fee for the deductible amount will then be taken from Column A, Exhibit 911.21, and the remaining value of the article will be charged a handling fee of 25 cents per $1,000, or fraction thereof on values up to $1,000,000 dollars. Articles valued at higher amounts will be charged the handling charge applicable in Exhibit 911.21.

• • • • •

.25 Declaration By Sender

.251 Value. The sender must tell the postal clerk (or enter on the firm mailing bill if a firm mailer) the *FULL* value of mail matter presented for registration. The fact that private insurance may be carried on registered mail does not modify the requirements for declaring the full value.

.252 Examples

Kind of mail matter	Value to be declared
Negotiable instruments—Instruments payable to bearer, and MATURED interest coupons.	*Market value.*
Nonnegotiable instruments—All registered bonds, warehouse receipts, checks, drafts, deeds, wills, abstracts, and similar documents. Certificates of stock are considered nonnegotiable so far as declaration of value is concerned.	No value, or replacement cost if postal insurance coverage is desired. (See Note below.)
Money	Full value.
Jewelry, gems, precious metals.	Market value or cost.
Merchandise	Market value or cost.
Nonvaluables—matter not having intrinsic value such as letters, files, records, etc.	No value, or replacement cost if postal insurance coverage is desired. (See Note below.)

Note: Mailers who do not know replacement costs should contact a person or firm familiar with such documents and determine replacement costs before the articles are mailed.

• • • • •

.26 Mail Registered Without Prepayment

.262d No liability is assumed by the Postal Service. If coverage is desired, the regular registration fees as shown in Column A, Exhibit 911.21, must be paid.

• • • • •

Value	Fees (in addition to postage)	
	For articles with Postal Insurance	For articles without Postal Insurance
	Column A	Column B
$0.00 to $100	$3.30	$3.25
$100.01 to $500	3.60	3.55
$500.01 to $1,000	3.90	3.85

• • • • •

931.2 Fees

.21 Individual Pieces. Original certificate of mailing for individually listed pieces of all classes of ordinary mail 40¢ for each piece of mail described. Each additional copy of original certificate of mailing or original mailing receipt for registered, insured, certified, and COD mail, 40¢.

.22 Bulk Pieces.

Identical pieces of first- and third-class mail paid with ordinary stamps, precanceled stamps, or meter stamps are subject to the following fees:	
Up to 1,000 pieces (1 certificate for total number)	$1.35
For each additional 1,000 pieces, or fraction	15¢
Duplicate copy	40¢

• • • • •

932 Return Receipts

932.1 Purpose. Return receipts furnish the mailer with evidence of delivery. The fee paid for a return receipt does not insure the article against loss or damage. Return receipts may be obtained for mail which is sent COD, Express Mail, is insured for more than $20.00, or which is registered. . . . [The remainder of 932.1 is unchanged.]

932.2 Fees (In Addition to Postage and Other Fees). The fees for return receipts are:

Requested at time of mailing:	
Showing to whom (signature) and date delivered	60¢
Showing to whom (signature), date and address where delivered	70¢
Requested after mailing:	
Showing to whom and date delivered	$0.75

932.3 Procedures at Mailing Office

• • • • •

.32 The sender may request a return receipt after mailing an article which is registered, Certified, COD, Express Mail, or insured for more than $20.00 by . . . . [The remainder of 932.32 is unchanged.]

• • • • •

.34 Payment for return receipts shall be noted on the receipt given for purchase of the COD, registry, certified mail, or insurance service.

• • • • •

933 Restricted Delivery

933.1 Purpose. Restricted delivery is a service by which a mailer may direct that delivery be made only to the addressee or to an agent of the addressee who has been specifically authorized in writing by the addressee to receive his mail. This service is available only for articles addressed to natural persons specified by name. Restricted delivery may be obtained for mail which is COD, insured for more than $20, registered. . . . [The remainder of 933.1 is unchanged.]

• • • • •

933.2 Fee (In Addition to Postage and Other Fees). Restricted delivery, $1.00.

940 Nonmail Services

941 Money Orders

941.1 Issuance

• • • • •

.12 Amounts, Fees and Payments

.121 *Amounts.* The maximum amount for a single money order is $500. There . . . . [the remainder of 941.121 is unchanged.]

• • • • •

.122 Fees

a. The fee for a postal military money order is 25¢. They are issued by military facilities authorized by the Department of Defense.

b. Fees for domestic money orders issued at other post offices including those with branches or stations on military installations are as follows:

Amount of money order	Amount of fee
	Domestic
$0.01 to $25	$0.75
$25.01 to $50	1.10
$50.01 to $500	1.55

• • • • •

945 Mailing List Services

945.1 Correction of Mailing Lists

.13 Charges

.131 The minimum charge for each list corrected is $1.00. For a list of more than seven names or addresses, the charge is 13¢ per name or street address, including individual apartments. Where rural routes have been consolidated or changed to another post office, no charge will be made for correction if the list contains only names of persons residing on the route or routes involved.

• • • • •

945.2 Furnishing Address Changes to Election Boards and Registration Commissions.

Residential change-of-address information is available to duly constituted election boards or registration commissions using permanent registration at a cost of 15¢ for each change-of-address Form 3575. An election board . . . . [Remainder of 945.2 is unchanged.]

• • • • •

945.5 ZIP Coding Mailing Lists

.52 Multi-ZIP Coded Post Offices. Under the following conditions, post offices will sort mailing lists consisting of addresses for the multi-ZIP-Coded post office described in 122.633 (see also 122.634) according to five-digit ZIP Code delivery units at a charge of $33.00 per thousand addresses or fraction thereof, payable to the local postmaster upon submission of the list:

[Remainder of 945.52 is unchanged.]

980 Alternate Delivery Services

951 Post Office Lockbox Service

• • • • •

951.2 Rental Fees

.21 Rental Fee Payment Periods

.211 Group 1 and 2 fees, listed in 951.26, are for a semi-annual or six month period. One or two periods may be paid at a time (see also 951.276).

.212 Group 3 fees listed in 951.26 are for an annual period. Group 3 fees may be paid for an annual period only.

.22 Rental Fee Groups

.221 General Provisions

a. Customers at all facilities under the administration of the same post office are subject to the same lockbox rental fees applicable at the main office. This includes any post office which has been discontinued and re-established as a station or branch of another post office. See 951.222c(1) for an exception applicable to rural stations, rural branches, and community post offices.

b. The qualification of a business, association, organization, church, or other institution, to rent a box in any rental fee group, will be determined separately from the qualification of any associated person.

.222 Fee Group Application

a. *Group 1 Fees*

(1) Customers at all facilities of a post office providing city carrier delivery are charged Group 1 fees, except as provided by 951.222b(2).

(2) Customers at post offices which establish city carrier delivery service must start paying Group 1 fees, subject to the exclusion in 951.222b(2), after the beginning of city carrier delivery.

(3) All customers who receive their mail at mail processing facilities which are not under the administration of a post office, must pay Group 1 fees.

b. *Group 2 Fees*

(1) Customers at post offices with more than 25 revenue units, which do not provide city carrier delivery service, will be charged Group 2 fees.

(2) Customers at offices which provide city carrier delivery service may rent one box for the Group 2 fee if they are not eligible for and do not receive any kind of delivery by postal carrier. (Additional boxes may be rented at the applicable Group 1 fee.)

c. *Group 3 Fees*

(1) Customers at post offices with 25 or fewer revenue units, and at rural stations, rural branches, and community post offices, will be charged the flat Group 3 fee for lock-boxes of all sizes.

(2) Post offices with 25 or fewer revenue units must charge the Group 3 fee unless or until they exceed 25 revenue units. They will then change rates in Group 2, if city carrier delivery has not been established, or in Group 1 if city carrier delivery is established.

951.23 *Changes in Fees.* Revised lockbox rental fees may be required by a general fee change, by a change in carrier service, or by a change in the status of a postal facility. Revised lockbox fees are effective on the date of the action which caused the change unless another date is specified in an official announcement. If a lockbox fee is increased, no retroactive adjustment is to be made for payments made before the effective date of the revision.

• • • • •

.26 Fee Schedule

.261 Rental fees are:

Group	Box size 1	2	3	4	5
	Per semi-annual period				
1	$10.00	$15.00	$22.50	$34.50	$51.00
2	2.50	3.50	5.50	8.50	13.00
	Per annual period				
3	$2.00	2.00	2.00	2.00	2.00

.262 Box sizes are determined by the following cubic inch capacities

Box size	Capacity
1	All boxes under 265 cubic inches.
2	From 265 through 499 cubic inches.
3	From 500 through 999 cubic inches.
4	From 1000 through 1999 cubic inches.
5	2000 or more cubic inches.

.27 Payment of Box Rent

.271 Payment Period. The Postal Service has established semi-annual payment periods for groups 1 and 2 lockbox fees, and an annual period for group 3. The beginning date for these periods is determined by either:

a. Option 1: Payment may be made for any six or twelve consecutive months. The beginning of a payment period is established on the date of the approval of the application to rent a box.

b. Option 2: Postmasters at group 2 offices with less than 500 lockboxes may establish April 1 and October 1 as the beginning of payment periods for boxholders in their office. For customers paying group 3 fees, the annual period begins on October 1. When this option is used, payment periods beginning other than April 1 or October 1 for group 2 offices or October 1 for group 3, will be brought into alignment with these respective dates by adjusting fees in accordance with 951.272c.

.272 Rent Paid in Advance

a. Box rents must be paid in advance for no less than one annual period for group 3 fees or for one and no more than two semi-annual periods for group 1 or 2 fees, except as provided by 951.252, and 951.272b and c. Fees may be paid by check to postmasters; however, checks sent by mail must be received by the postmaster by the due date.

b. Government agencies, whose payment period coincides with the Government fiscal year, may, upon request to the postmaster, pay their box rent during the first quarter rather than in advance.

c. Postmasters who adopt Option 2 (see 951.271b) will adjust new or existing payment periods to begin on April 1 or October 1 at the time of a new rental or at the expiration of all payment periods for which a customer has paid. Adjustments for customers paying group 1 or 2 fees will be made by charging one-sixth of a semi-annual rental fee for each month remaining between the beginning of a new payment period (as determined under 951.276), or the expiration of existing payment periods, and the next subsequent April 1 or October 1. Adjustments for customers paying group 3 fees will be made by charging one-twelfth of an annual rental fee for each month remaining between the beginning of a new annual payment period (as determined by 951.276), or the expiration of existing payment periods and the next subsequent October 1. The total amount due will be rounded off to the next higher 10¢. After payment periods have been adjusted in accordance with this section, only fees for full semi-annual payment periods will be accepted for group 1 or 2 fees as indicated in 951.272a. Payments for up to two semi-annual periods plus the adjustment period may be accepted. For group 3 fees, only payments for one annual period may be accepted.

.273 Receipt. Form 1538, *Receipt for Box Rent and Caller Service Fees*, will be given for each box rent payment except that boxholders who hold more than one box may be issued one receipt for the payment for all of their boxes.

.274 ***Change of Payment Period Date.*** Except for customers at facilities which have adopted Option 2 (see 951.271b), boxholders of record may change their payment period by submitting a new application with the month they wish to use as the start of their revised payment period noted thereon. The date selected must be before the end of the current payment period. The unused fee for the period being discontinued may be refunded in accordance with 951.3, and the fee for the new payment period must be fully paid in advance.

.275 ***Renewal of Service.*** Boxholders of record paying group 1 or 2 fees, may, during the last month of their rental period, pay rent for their next one or two semi-annual payment periods. Boxholders paying group 3 fees must pay for a full annual period during the last month of their payment period.

• • • • •

951.3 Refund of Box Rent

.31 When a lockbox is closed or surrendered, the unused portion of the fee may be refunded as follows:

a. No refund is made for any group 3 fee.

b. For group 1 or 2 fees:

(1) Refunds will be processed in accordance with 147.26.

(2) The entire fee will be refunded for a semiannual payment period subsequent to that in which the service is discontinued.

(3) Refunds for the payment period in which service is discontinued will be determined as follows:

(a) For service discontinued any time within the first three months (i.e., on or before the last day of the third month) of the semiannual payment period, the amount refunded will be one-half of the semiannual rental fee for the discontinued box (see 951.26).

(b) No refund will be made when service is discontinued any time after the third month (i.e., on or after the first day of the fourth month) of the semiannual payment period.

• • • • •

952 *Caller Service*

• • • • •

952.2 Fees

• • • • •

.22 Caller Service Fees

.221 ***When Fees Are Effective.*** Caller service fees may be revised in connection with a general change in postal rates and fees. Caller service fee revisions will be effective at the same time as the general increase unless another date is specified in an official announcement. If the caller service fee is increased, no retroactive adjustment is to be made for payments made before the effective date of the revision.

.222 Basic Caller Service Fee

a. General Rule. The basic fee for caller service is $95.00 for a semi-annual period to be applied to each caller number or separation used.

BILLING CODE 7710-12-C

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-4-FRL 1777-6]

Approval and Promulgation of Implementation Plans; Georgia: Complete Approval of Georgia's Particulate Part D Plan Revision

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: EPA today announces full approval of the revisions which the State of Georgia submitted pursuant to Part D of Title I of the Clean Air Act. The revisions represent an approvable plan for achieving the particulate National Ambient Air Quality Standards (NAAQS) in the Atlanta and Savannah nonattainment areas. EPA gave conditional approval of the revisions on September 16, 1979 (44 FR 54047). Under the terms of the conditional approval, the State was required to correct deficiencies in the revisions by February 15, 1980. Specifically, by that date the State was to:

a. Inspect all sources which may impact the particulate nonattainment areas in Atlanta and Savannah;

b. Submit to EPA a report of their inspections describing the existing controls.

c. Prescribe in the industries' permits a schedule for implementing RACT.

These conditions were met by the State, and on September 4, 1980 (45 FR 58598), EPA proposed full approval of Georgia's total suspended particulate (TSP) nonattainment plan revisions. The September 4, 1980, notice solicited comments on the revisions. The comment period ended on October 6, 1980, and no comments were received. Therefore, EPA is today fully approving Georgia's TSP nonattainment plans.

DATE: These actions are effective April 20, 1981.

ADDRESSES: Copies of the materials submitted by the State may be examined during normal business hours at the following locations:

Public Information Reference Unit, Library Systems Branch, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

Library, EPA, Region IV, 345 Courtland Street NE., Atlanta, Georgia 30365.

Georgia Department of Natural Resources, Environmental Protection Division, 270 Washington Street SW., Atlanta, Georgia 30334.

FOR FURTHER INFORMATION CONTACT: Melvin Russell, EPA Region IV, Air Programs Branch, 345 Courtland Street NE., Atlanta, Georgia 30365, 404/881-3286 or FTS 257-3286.

SUPPLEMENTARY INFORMATION:

Background

In the May 9, 1979, Federal Register (44 FR 27134) EPA proposed approval of the Georgia revisions for the following designated total suspended particulate nonattainment areas:

A. That portion of Fulton County within the northwest section of Atlanta (primary and secondary standards).

B. That portion of Chatham County within the north central section of Savannah (primary and secondary standards).

C. That portion of the northern part of Walker County which includes Rossville (primary and secondary standards).

D. That portion of Washington County within the southern section of Sandersville (secondary standards).

In the September 18, 1979, Federal Register (44 FR 54047) EPA conditionally approved Georgia's TSP nonattainment plans for Atlanta (Fulton County) and Savannah (Chatham County). Also, EPA approved the State's TSP plan for Rossville (Walker County), and stated EPA's policy on redesignation as it would apply to the Sandersville (Washington County) nonattainment area. Therein, EPA also granted 18-month extensions (to July 1980) for submittal of the nonattainment plans for attaining the TSP secondary standard in Atlanta, Savannah and Rossville. On December 6, 1979 (44 FR 70143), EPA redesignated Sandersville as attainment for total suspended particulate (TSP) in accordance with Agency policy. Therefore, Atlanta and Savannah remained as the only TSP areas with deficient nonattainment plans.

The State has met the conditions stated in the Summary section of this preamble. On December 27, 1979, the State submitted to EPA part of the necessary corrective material. EPA reviewed the material and presented comments at the subsequent public hearing held on January 31, 1980. The remainder of the material necessary to correct the deficiencies was submitted to EPA on April 8, 1980.

The April 8, 1980 submittal was reviewed and determined adequate to complete the State's correction of all deficiencies.

Action

Based on the foregoing, EPA hereby fully approves Georgia's total suspended particulate revisions. With approval of these revisions, Georgia has now met all requirements of Part D of the Clean Air Act, for all applicable criteria pollutants. These actions are effective April 20, 1981.

Under Section 307(b)(1) of the Clean Air Act, judicial review of EPA's approval of Georgia's TSP plan is available *only* by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit on or before May 19, 1981. Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may *not* be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

Note.—The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

(Secs. 110 and 172 of the Clean Air Act (42 U.S.C. 7410 and 7502))

Dated: March 12, 1981.

Walter C. Barber,
Acting Administrator.

Note.—Incorporation by reference of the State Implementation Plan for the State of Georgia was approved by the Director of the Federal Register on July 1, 1980.

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

Subpart L—Georgia

1. In § 52.570, paragraph (c)(17) is revised to read as follows:

§ 52.570 Identification of plan.

* * * * *

(c) The plan revisions listed below were submitted on the dates specified.

* * * * *

(17) 1979 Implementation plan revisions for nonattainment areas for ozone, total suspended particulates, and carbon monoxide, submitted on January 17, March 9, 16, 20, June 29, December 27, 1979 and April 8, 1980, by the Georgia Department of Natural Resources.

§ 52.573 [Removed]

2. Section 52.573 Control strategy: particulate matter, is removed.

[FR Doc. 81-8669 Filed 3-19-81; 8:45 am]

BILLING CODE 6560-38-M

40 CFR Part 52

[A-7-FRL 1778-5]

Approval and Promulgation of Iowa State Implementation Plan for Lead

AGENCY: Environmental Protection Agency.

ACTION: Final rulemaking.

SUMMARY: As required by Section 110 of the Clean Air Act and the October 5, 1978 (43 FR 46246) promulgation of a National Ambient Air Quality Standard for lead, the State of Iowa has submitted for approval to EPA a State Implementation Plan (SIP) for lead. The lead SIP provides for the attainment of the National Ambient Air Quality Standards (NAAQS) for lead in all areas of State by October 31, 1982. A notice of Proposed Rulemaking (PRM) on this action appeared in the **Federal Register** on November 21, 1980 (45 FR 77052). The PRM contained a discussion of the basis for the proposed action. The present action is a final rulemaking which approves the Iowa lead SIP and amends the Code of Federal Regulations at Sections 52.820 and 52.827 for Iowa.

DATE: This approval is effective April 20, 1981.

ADDRESSES: Copies of the State submission, the public hearing minutes, the PRM, and the technical support memo which explains the rationale for EPA's approval of the Iowa lead SIP are available for public review at the following locations:

Environmental Protection Agency, Region VII, Air, Noise and Radiation Branch, 324 East 11th Street, Kansas City, Missouri 64106
Public Information Reference Unit, Environmental Protection Agency, Room 2922, 401 M Street, SW., Washington, D.C. 20460
The Office of the Federal Register, Room 8401, 1100 L Street, NW., Washington, D.C. 20460
Iowa Department of Environmental Quality, Henry A. Wallace Building, 900 East Grand, Des Moines, Iowa 50319

FOR FURTHER INFORMATION CONTACT: Ken Greer at (816) 374-3791 or (FTS) 758-3791.

SUPPLEMENTARY INFORMATION:

I. Background

On October 5, 1978, National Ambient Air Quality Standards (NAAQS) for lead were promulgated by the Environmental Protection Agency (EPA) (43 FR 46246). Both the primary and secondary standards were set at a level of 1.5 micrograms lead per cubic meter of air (μg lead/m^3), averaged over a calendar quarter. As required by section 110(a)(1) of the Clean Air Act (the Act), within nine months after promulgation of a NAAQS each State is required to submit a State implementation plan (SIP) which provides for attainment and maintenance of the primary and secondary NAAQS within the State. The State of Iowa has developed and submitted a SIP for the attainment of the lead NAAQS. The SIP shows that all areas of the State of Iowa are presently, and will remain, in attainment of the lead NAAQS.

II. Description of Previous Actions Concerning Iowa Lead SIP

A. Basic Requirements

The basic requirements for a SIP in general are outlined in Section 110(a)(2) of the Clean Air Act and EPA regulations at 40 CFR Part 51, Subpart B. These provisions require the submission of air quality data, emission inventory data, air quality modeling, a control strategy, a demonstration that the NAAQS will be attained within the time frame specified in the Clean Air Act, and provisions for ensuring maintenance of the NAAQS. Specific requirements for developing a SIP for lead are outlined in 40 CFR Part 51, Subpart E.

B. Description of SIP and PRM

A description of the Iowa lead SIP was discussed in the PRM published in the **Federal Register** on November 21, 1980 (45 FR 77052). Also, a discussion was presented in the PRM of the adequacy of the SIP submission, and a description of EPA's proposed actions. Except for minor deficiencies, the SIP met all of the EPA requirements for an approvable lead SIP. As explained in the PRM, the minor deficiencies were: (1) The Iowa SIP listed an attainment date in 1983. The attainment date should be October 31, 1982. EPA requested that Iowa submit to EPA a correction. (2) The Iowa SIP did not provide for review of new sources of lead locating in Iowa consistent with EPA guidance. The SIP did not demonstrate that all new sources of lead with potential lead emissions of 5 tons per year or more would be reviewed by the State before construction; nor did the SIP demonstrate that the permit review procedure would allow the public 30 days to review the State's proposed actions before the final approval/disapproval of new lead source permits. EPA requested that the State submit clarifying information to EPA. (3) The SIP states that most of the State ambient air sampling sites do not meet the currently proposed EPA siting criteria for lead ambient air monitoring (October 10, 1980—45 FR 67564). EPA requested that the State revise its lead monitoring system to conform to the lead ambient air monitoring siting criteria, and submit confirmation that the revisions have been made to EPA within nine months of the date that the final siting criteria rules for lead ambient air monitoring are published. (4) The SIP indicates that problems were encountered in the modeling of the two lead-acid battery plants in Iowa, and discrepancies were encountered between EPA emission factors and State stack-test information obtained at one of the lead-acid battery plants. The State committed in the SIP to do further modeling and additional monitoring around the lead-acid battery plants.

C. Information Submitted by Iowa

The State of Iowa submitted a letter to EPA on January 19, 1981 that provided information which corrected most of the minor deficiencies of the Iowa lead SIP. The State has submitted a change page for the SIP which correctly states that the attainment date for the lead NAAQS is October 31, 1982. The State also submitted information which clarifies the State's process of reviewing new lead source permits. The State explained that its recently revised review procedures for new air pollution sources authorize State review of all new lead sources of 5 tons lead emissions per year or greater, and allow for 30 days of public review of the State's actions on new lead source permits. The State is also in the process of revising its lead ambient air monitoring system to comply with EPA's siting criteria for lead monitoring. In addition, the State is in the process of doing additional modeling and monitoring around the lead-acid battery plants in the State, and a contract to do additional stack testing at one of these battery plants has been initiated.

III. Public Comments

No public comments were received by EPA during the 60-day public comment period.

EPA's Actions

EPA approves all parts except one of the Iowa lead SIP as adequate to attain and maintain the lead NAAQS in the State of Iowa. EPA takes no action at the present time on the section of the Iowa lead SIP which deals with review of permits for new sources of lead. As previously mentioned, Iowa has recently revised its procedures concerning review of permits for new air pollution sources. The State has provided assurances to EPA in a January 19, 1981

letter that all new sources of lead with potential lead emissions of 5 tons per year or more will be reviewed by the State before construction. The State also assured EPA that the permit review procedure will allow the public 30 days to review the State's proposed actions before the final approval/disapproval of new lead source permits. Since EPA has not taken final action on approving/disapproving Iowa's recently revised procedures concerning review of permits for new air pollution sources, EPA takes no action in this rulemaking concerning the issue of adequacy of Iowa's permit review procedures for new sources of lead. EPA's rulemaking on Iowa's new source review procedures and the adequacy of the review procedures concerning new lead sources will be published in the next few months.

Another EPA action is possible in the future concerning the Iowa lead SIP. If additional monitoring or modeling around the lead-acid battery plants in the State show exceedances of the lead NAAQS, the EPA will require the state to revise its lead SIP to bring the area into attainment of the lead NAAQS.

The Administrator's decision to approve or disapprove the Iowa lead SIP was based on the information received from the State and on a determination whether the SIP meets the requirements of Section 110(a)(2) of the Clean Air Act and 40 CFR Part 51, Requirements for Preparation, Adoption, and Submittal of State Implementation Plans.

Note.—The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to section 8(b) of that Order.

Incorporation by reference of the State Implementation Plan for the State of Iowa was approved by the Director of the Office of the Federal Register on July 1, 1980.

(Sec. 110 and 301(a) of the Clean Air Act as amended (45 U.S.C. 7410) and 7601(a))

Dated: March 12, 1981.

Walter C. Barber,

Acting Administrator.

Title 40, Part 52, Subpart Q—Iowa, of the Code of Federal Regulations is amended to include the following:

(1) Section 52.820 is amended by adding paragraphs (c)(31) and (c)(36) as follows:

§ 52.820 Identification of plan.

* * * * *

(c) * * *

(31) The State of Iowa Lead State Implementation Plan was submitted on August 19, 1980 by the Director of the Department of Environmental Quality.

* * * * *

(36) A letter was submitted dated January 19, 1981 by the Director of the Department of Environmental Quality which provided additional information concerning the Iowa Lead State Implementation Plan.

(2) Section 52.827 is amended by adding the pollutant "Lead" in a new column with the letter "g" in each row and with the footnote "g" inserted in proper order below the table as follows:

§ 52.827 Attainment dates for National Standards.

Air quality control region	Pollutant: Lead

40 CFR Part 52

[A-2-FRL 1783-5]

Approval and Promulgation of Implementation Plans; New Jersey

AGENCY: Environmental Protection Agency.

ACTION: Final rule related notice.

SUMMARY: EPA, under the provisions of a federal regulation promulgated at 40 CFR 52.1601(b), requires the State of New Jersey to submit a copy of the permit application for specific coal conversions, together with an air quality analysis employing methodology acceptable to EPA. On January 30, 1981 the New Jersey Department of Environmental Protection submitted a permit and an air quality analysis for the conversion from oil to coal at unit 7 of Public Service Electric and Gas Company's Burlington generating station located in Burlington, New Jersey. EPA has reviewed the impact of the proposed conversion and determined on the basis of the air quality modeling results that the proposed coal conversion will not interfere with the attainment or maintenance of air quality standards and will not cause any Prevention of Significant Deterioration (PSD) increment to be exceeded.

FOR FURTHER INFORMATION CONTACT: William S. Baker, Chief, Air Programs Branch, Environmental Protection Agency, Region II, 26 Federal Plaza, Rm. 1005, New York, New York 10278, (212) 264-2517.

Note.—The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

(Secs. 110 and 301 of the Clean Air Act, as amended (42 U.S.C. 7410, 7601))

Dated: March 6, 1981.

Charles S. Warren,

Regional Administrator, Environmental Protection Agency.

[FR Doc. 81-8009 Filed 3-19-81; 8:45 am]

BILLING CODE 6560-38-M

40 CFR Part 162

[AS FRL 1781-1]

Deferral of Effective Dates; Correction

AGENCY: Environmental Protection Agency.

ACTION: Notice of deferral of effective dates; correction.

SUMMARY: This notice amends the Federal Register notice of February 12, 1981 (46 FR 11972) and corrects the effective date of certain EPA regulations issued pursuant to FIFRA to reflect a statutory provision allowing a specified time period for a Congressional Resolution of disapproval. The listed FIFRA regulations will not take effect until a notice announcing a specific effective date is published in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Faith Halter, Special Assistant to the General Counsel, Environmental Protection Agency, 401 M Street, SW, Washington, D.C. 20460, 202-755-0709.

SUPPLEMENTARY INFORMATION: In the 1978 amendments to the Federal

Insecticide, Fungicide, and Rodenticide Act (FIFRA), Congress added a new provision (section 25(a)(4)) requiring transmittal of final rules to Congress for a specified period to provide an opportunity for adoption of a concurrent resolution disapproving the rules. Under this provision, any final rule issued under FIFRA will have its effective date deferred until the rule has been before Congress for 60 days of continuous session. If, during this 60-day waiting period, certain steps are taken to adopt a resolution of disapproval, the waiting period is extended by a further 30 days of continuous session. Unless both Houses of Congress adopt a concurrent resolution of disapproval within the allocated 90 days, the rule becomes effective.

On February 12, 1981, the Environmental Protection Agency published a notice deferring until March 30, 1981 the effective dates of certain EPA regulations, including under FIFRA a final rule on the restricted use classification of uses of active pesticide ingredients, and a final rule on the State registrations of pesticides to meet local needs. This deferral was based on the January 29, 1981 Executive Order postponing pending regulations for 60 days. The February 12, 1981 **Federal Register** notice listed March 30, 1981 as the new effective date for these regulations. The Agency also issued a **Federal Register** notice on February 24, 1981 (46 FR 13691) correcting an error in the CFR part affected by the regulation dealing with State registrations.

This notice corrects the March 30, 1981 effective date to take into account, among other things, the time period allowed for a Congressional Resolution of disapproval. This correction is necessary because the 60 (or 90, if appropriate) days of continuous session are expected to extend beyond the March 30, 1981 date. The new effective date of the regulations will be published in the **Federal Register** at a time not earlier than the conclusion of the time period allowed for a Congressional Resolution of disapproval.

The February 12, 1981 and February 24, 1981 listings for these two rules are therefore corrected to read:

CFR part affected	FR citation	Subject matter	Old effective date	New effective date
40 CFR 162.31	46 FR 5896 (1/19/81)	Federal Insecticide, Fungicide and Rodenticide Act. Classification of Uses of Active Ingredients for Restricted Use.	No sooner than 60 calendar days of continuous session of current Congress from date of promulgation (3/30/81).	Not earlier than the conclusion of the time period allowed for a Congressional Resolution of disapproval. The regulation will not take effect until a specific effective date is published in the FEDERAL REGISTER. In no event will this regulation take effect prior to March 30, 1981.
40 CFR 162.150—162.156	46 FR 2008 (1/7/81)	Federal Insecticide, Fungicide and Rodenticide Act. State Registration of Pesticides to Meet Local Needs.	No sooner than 60 calendar days of continuous session of current Congress from date of promulgation (3/9/81).	Not earlier than the conclusion of the time period allowed for a Congressional Resolution of disapproval. The regulation will not take effect until a specific effective date is published in the FEDERAL REGISTER. In no event will this regulation take effect prior to March 30, 1981.

Dated: March 16, 1981.

Walter C. Barber,

Acting Administrator.

BILLING CODE 6560-38-M

GENERAL SERVICES ADMINISTRATION

41 CFR Ch. 1

[FPR Temp. Reg. 58]

Standard Forms 37 and 37-A Submission Requirements

AGENCY: General Services Administration.

ACTION: Temporary regulation.

SUMMARY: This regulation deletes the SF 37 and SF 37-A and their reporting requirements from the FPR. This deletion was requested by the Office of Federal Procurement Policy. The intended effect is to reduce procurement reporting burdens on Executive agencies.

EFFECTIVE DATE: October 1, 1980.

EXPIRATION DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: Philip G. Read, Director, Federal Procurement Regulations Directorate (VR), Office of Acquisition Policy, 703-557-8947.

(Sec. 205(c), 63 Stat. 390 (40 U.S.C. 486(c)))

In 41 CFR Chapter 1, the following temporary regulation is listed in the appendix at the end of the chapter.

[Federal Procurement Regs.; Temporary Reg. 58]

Standard Forms 37 and 37-A submission requirements

February 23, 1981.

1. *Purpose.* This temporary regulation deletes the Standard Forms 37 and 37-A and their reporting requirements from the Federal Procurement Regulations.

2. *Effective date.* This regulation is effective October 1, 1980.

3. *Expiration date.* This regulation expires on October 1, 1982.

4. *Background.* a. The Federal Procurement Data System (FPDS), a system developed by the Office of Federal Procurement Policy (OFPP), became operational in fiscal year 1979. Much of the information provided by Standard Forms 37 and 37-A, which provide data on procurement by executive agencies, duplicates the data provided by the FPDS. However, use of SF 37 and SF 37-A has been continued pending a determination that the FPDS is sufficiently reliable.

b. The SF 37 report was adopted as a result of a request from President Truman that GSA collect data from civilian executive agencies regarding awards to small business concerns. In later years other data requirements were added. SF 37-A was added in 1977, at the request of OFPP, in order to provide an interim Government-wide procurement data system.

c. The FPDS is now deemed to be functioning satisfactorily. Both the Federal Procurement Data Center and the reporting agencies have had sufficient experience with the new system to place full reliance on it in fiscal year 1981. Consequently, OFPP has requested that SF 37 and SF 37-A and their reporting requirements be deleted from the Federal Procurement Regulations.

5. *Explanation of changes.* a. The following sections are deleted and reserved.

§ 1-1.709
§ 1-1.807
§ 1-1.1302(a)(9)
§ 1-16.804-1
§ 1-16.804-2
§ 1-16.804-3
§ 1-16.804-4
§ 1-16.804-6
§ 1-16.901-37
§ 1-16.901-37A

b. This change does not affect the status of the Optional Form 61, Subcontracting Program—Quarterly Report of Participating Large Company on Subcontracting Commitments.

6. *Cancellations.* Standard Forms 37 and 37–A, and Interagency Report Control No. 1118–GSA–SA, are canceled.

7. *Agency action.* Cancellation of Standard Forms 37 and 37–A, effective October 1, 1980, eliminates the need for agencies to collect and submit data in fiscal year 1981. However, agencies will be expected to complete the submission of data for fiscal year 1980.

Ray Kline,

Acting Administrator of General Services.

[FR Doc. 81-8553 Filed 3-19-81; 8:45 am]

BILLING CODE 6820-61-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 64

[Docket No. FEMA 6013]

List of Communities Eligible for the Sale of Insurance Under the National Flood Insurance Program

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Final rule.

SUMMARY: This rule lists communities participating in the National Flood Insurance Program (NFIP). These communities have applied to the program and have agreed to enact certain flood plain management measures. The communities' participation in the program authorizes the sale of flood insurance to owners of property located in the communities listed.

EFFECTIVE DATE: The date listed in the fifth column of the table.

ADDRESSES: Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Phone: (800) 638–8620.

FOR FURTHER INFORMATION CONTACT: Mr. Gary D. Johnson, National Flood Insurance Program, (202) 755–5581 or Toll Free Line 800–424–8872, Room 5270, 451 Seventh Street SW., Washington, DC 20410.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), enables property owners to purchase flood insurance at rates made reasonable through a Federal subsidy. In return, communities agree to adopt and administer local flood plain management measures aimed at protecting lives and new construction from future flooding. Since the communities on the attached list have recently entered the NFIP, subsidized flood insurance is now available for property in the community.

In addition, the Federal Insurance Administrator has identified the special flood hazard areas in some of these communities by publishing a Flood Hazard Boundary Map. The date of the flood map, if one has been published, is indicated in the sixth column of the table. In the communities listed where a flood map has been published, Section 102 of the Flood Disaster Protection Act of 1973, as amended, requires the purchase of flood insurance as a condition of Federal or federally related financial assistance for acquisition or construction of buildings in the special flood hazard area shown on the map.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

The Catalog of Domestic Assistance Number for this progrm is 83.100 "Flood Insurance." This program is subject to procedures set out in OMB Circular A–95.

In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

Section 64.6 is amended by adding in alphabetical sequence new entries to the table.

§ 64.6 List of eligible communities.

State and county	Location	Community No.	Effective dates of authorization/cancellation of sale of flood insurance in community	Special flood hazard area identified
Alabama: Jefferson	Brookside, town of	010118C	Feb. 18, 1981, suspension withdrawn	Aug. 23, 1974, Dec. 26, 1975, and July 21, 1978.
Illinois:				
Madison	Collinsville, city of	170439B	do	May 24, 1974 and Apr. 2, 1976.
Jersey	Elsah, village of	170313B	do	Nov. 23, 1973 and Mar. 1, 1974.
Pike	Florence, village of	170552B	do	Jan. 30, 1976.
Lake	Lake Forest, city of	170374C	do	Aug. 27, 1976.
DuPage	Oak Brook, village of	170214B	do	Sept. 5, 1975.
Do	Oak Brook Terrace, city of	170215B	do	Mar. 28, 1974 and Mar. 26, 1976.
Iowa:				
Jefferson	Fairfield, city of	190108C	do	June 28, 1974, Dec. 26, 1975, and Mar. 26, 1976.
Lee	Montrose, city of	190186B	do	Jan. 23, 1974 and Apr. 30, 1976.
Kansas: Pottawatomie	Wamego, city of	200276B	do	Dec. 7, 1973 and Dec. 26, 1975.
Michigan:				
Barry	Hastings, city of	260314B	do	Apr. 12, 1974 and Oct. 3, 1975.
Muskegon	Muskegon Heights, city of	260162B	do	June 28, 1974 and July 23, 1976.
Wayne	Plymouth, city of	260236B	do	May 17, 1974 and June 11, 1976.
Macomb	Utica, city of	260608A	do	Oct. 17, 1975.
Minnesota:				
Wabasha and Goodhue	Lake City, city of	270466C	do	Mar. 15, 1974, Apr. 9, 1976, and Mar. 9, 1979.
Marshall	Minneapolis, city of	270172B	do	Mar. 22, 1974 and Apr. 30, 1976.
Do	Warren, city of	270274B	do	May 3, 1974 and Feb. 14, 1975.
Missouri:				
St Louis	Bel-Ridge, village of	290333B	do	Mar. 29, 1974 and Sept. 17, 1976.
Do	Frontenac, city of	290353B	do	Jan. 23, 1974 and Jan. 2, 1976.
Franklin	New Haven, city of	290133A	do	Mar. 5, 1976.
New Hampshire: Hillsborough	Manchester, city of	330169B	do	Jan. 14, 1977.
New York: Monroe	Penfield, town of	360426B	do	Aug. 9, 1974 and Sept. 3, 1976.
Ohio:				
Summit	Akron, city of	390523B	do	Mar. 15, 1974 and Sept. 10, 1976.
Knox	Fredericktown, village of	390309B	do	Apr. 5, 1974 and Oct. 24, 1975.
Cuyahoga	Glenwillow, village of	390735A	do	Aug. 8, 1975.
Washington	Marietta, city of	390572C	do	Dec. 7, 1973, July 11, 1975 and Oct. 26, 1979.
Cuyahoga	Valley View, village of	390134B	do	Jan. 23, 1974 and July 2, 1976.
Washington	Unincorporated areas	390566B	do	Jan. 31, 1975 and June 9, 1976.

State and county	Location	Community No.	Effective dates of authorization/cancellation of sale of flood insurance in community	Special flood hazard area identified
Oklahoma:				
Delaware	Grove, town of	400068	do	Oct. 28, 1976 and Aug. 16, 1977.
Murray	Sulphur, city of	400119B	do	Nov. 26, 1973 and Feb. 6, 1976.
Pennsylvania:				
Perry	Penn, township of	422766B	do	Feb. 6, 1974 and Dec. 19, 1978.
Columbia	Mt. Pleasant, township of	421043B	do	Aug. 2, 1974 and July 9, 1976.
Texas:				
Cherokee	Jacksonville, city of	480123B	do	May 24, 1974 and Apr. 16, 1976.
Anderson	Palestine, city of	480004B	do	May 31, 1974 and Nov. 19, 1976.
West Virginia: Ohio	Wheeling, city of	540153B	do	Dec. 13, 1974 and Oct. 31, 1975.
Michigan: Saginaw	Thiabaudeau, township of	260604	Feb. 16, 1981, emergency	Aug. 16, 1978.
Texas: Bowie	Unincorporated areas	481194A	Feb. 17, 1981, emergency	Aug. 16, 1978.
Minnesota: Marshall	Alvarado, city of	270557A	Apr. 16, 1975, emergency, Jan. 16, 1981, regular, Jan. 16, 1981, suspended, Feb. 16, 1981, reinstated.	Jan. 16, 1981.
Pennsylvania:				
Tioga	Roseville, borough of	420628A	Feb. 17, 1981, emergency	Dec. 13, 1974 and Nov. 28, 1980.
Clearfield	Houston, township of	421525	Feb. 24, 1981, emergency	Dec. 20, 1974.
Ohio: Greene	Cedarville, village of	390507A	Feb. 24, 1981, emergency, Feb. 24, 1981, regular.	Jan. 10, 1975 and July 2, 1980.
Alabama: Shelby	Montevallo, city of	0103488	Feb. 25, 1981, emergency	Jan. 26, 1977 and June 15, 1979.
New York: St. Lawrence	Clare, town of	361422	Feb. 26, 1981, emergency	Jan. 3, 1975.
Kentucky: Scott	Georgetown, city of	2102088	June 25, 1975, emergency, Feb. 4, 1981, regular, Feb. 4, 1981, suspended, Feb. 25, 1981, reinstated.	May 24, 1974.
New York: Allegany	Burns, town of	361088	Feb. 26, 1981, emergency	Nov. 8, 1974.
Ohio: Clinton	Sabina, village of	390527A	Feb. 27, 1981, emergency	July 25, 1975 and July 6, 1979.
Texas: Upshur	Unincorporated areas	481696A	Feb. 27, 1981, emergency	May 31, 1977.
Tennessee: Knox	Farragut, town of	470367-new	Aug. 14, 1970,[1] emergency, Aug. 14, 1970,[1] regular.	Aug. 14, 1970.[2]

[1] Since the area now incorporated and known as the Town of Farragut was formerly participating in the National Flood Insurance Program under the Knox County application, the Town's effective dates are the same as the County's.

[2] Although Farragut has not been issued its flood maps, the Town has agreed to use the Knox County FIRM in the interim. However, insurance policies should be written using Farragut's new identification number.

BILLING CODE 6718-03-M

44 CFR Part 65

[Docket No. FEMA–6006]

National Flood Insurance Program; Communities With Minimal Flood Hazard Areas

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator, after consultation with local officials of the communities listed below, has determined, based upon analysis of existing conditions in the communities, that these communities' Special Flood Hazard Areas are small in size, with minimal flooding problems. Because existing conditions indicate that the area is unlikely to be developed in the foreseeable future, there is no immediate need to use the existing detailed study methodology to determine the base flood elevations for the Special Flood Hazard Areas.

Therefore, the Administrator is converting the communities listed below to the Regular Program of the National Flood Insurance Program (NFIP) without determining base flood elevations.

EFFECTIVE DATE: Date listed in fourth column of List of Communities with Minimal Flood Hazard Areas.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program, (202) 755–5585 or Toll Free Line 800–424–8872, Federal Emergency Management Agency, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: In these communities, the full limits of flood insurance coverage are available at actuarial, non-subsidized rates. The rates will vary according to the zone designation of the particular area of the community.

Flood insurance for contents, as well as structures, is available. The maximum coverage available under the Regular Program is significantly greater

than that available under the Emergency Program.

Flood insurance coverage for property located in the communities listed can be purchased from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurance Program. The effective date of conversion to the Regular Program will not appear in the Code of Federal Regulations except for the page number of this entry in the Federal Register.

The entry reads as follows:

§ 66.7 List of communities with minimal flood hazard areas.

State	County	Community name	Date of conversion to regular program
New York	Greene	Town of Ashland	Apr. 10, 1981.
North Dakota	Divide	City of Noonan	Apr. 21, 1981.
Indiana	Porter	Town of Dune Acres	Apr. 24, 1981.
Pennsylvania	Franklin	Township of Antrim	Apr. 24, 1981.
Pennsylvania	Allegheny	Borough of Marshall	Apr. 24, 1981.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; Executive Order 12127, 44 FR 19367; and delegation of authority to the Federal Insurance Administrator)

Issued: February 24, 1981.

Richard W. Krimm,

Acting Administrator, Federal Insurance Administration.

BILLING CODE 6718-03-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 80-238; RM-3419]

FM Broadcast Stations in Bradford, Kane, and Warren, Pennsylvania; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns FM Channel 276A to Warren, Pennsylvania, as that community's second FM assignment, in response to a petition filed by God's Station, Inc. In order to effect the assignment to Warren, Channel 280A is substituted for Channel 276A at Kane, Pennsylvania, and Channel 252A is substituted for Channel 280A at Bradford, Pennsylvania.

DATE: Effective May 4, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Michael A. McGregor, Broadcast Bureau, (202) 632–7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.202(b), table of assignments, FM broadcast stations. (Bradford, Kane and Warren, Pennsylvania); Report and Order; Proceeding Terminated.

Adopted: March 6, 1981.

Released: March 13, 1981.

By the Chief, Policy and Rules Division:

1. Before the Commission is a *Notice of Proposed Rule Making*, 45 FR 37240, published June 2, 1980, proposing the assignment of FM Channel 276A to Warren, Pennsylvania, as that city's second FM assignment, the substitution of Channel 280A for Channel 276A at Kane, Pennsylvania, and the substitution of Channel 252A for Channel 280A at Bradford, Pennsylvania, at the request of God's Station, Inc. ("petitioner"). Channel 276A at Kane is currently unoccupied with one application pending;[1] Channel 280A at Bradford is currently unoccupied and unapplied for. Comments supporting the assignment and related channel substitutions were filed by petitioner; Hope Ministries, a potential applicant for the channel at Bradford; and Radio Buffalo, Inc., licensee of Station WACJ(FM), Buffalo, New York. No oppositions to the assignments were submitted.

2. Warren (pop. 12,998),[2] seat of Warren County (pop. 47,682), is located approximately 80 kilometers (50 miles) southeast of Erie, Pennsylvania. It is served locally by daytime-only AM Station WNAE and FM Station WRRD (Channel 222).

3. As stated in the *Notice*, the assignments proposed by petitioner would cause new preclusion to only one community with a population over 1,000 having no FM assignment, Smethport, Pennsylvania. In response to the Commission's request that a channel search be conducted to determine if alternative channels are available for assignment to Smethport, petitioner states that Channel 292A may be assigned in compliance with the Commission's minimum distance separation requirements. The assignment of Channel 276A to Warren would result in intermixture of Class A and Class B channels in that city. However, petitioner is willing to apply for and operate on a Class A channel despite the competitive disadvantages. In such a situation, we are not disposed to deny the assignment based on intermixture. *See Yakima, Washington*, 42 F.C.C. 2d 548 (1973).

4. After giving careful consideration to the proposal, we believe the proposed amendments to the Table of assignments should be adopted. Petitioner has submitted persuasive information with respect to Warren and its need for a second FM broadcast service. Channel 276A can be assigned to Warren with a required site restriction of 12 kilometers (7.35 miles) northeast of the community. Petitioner and all potential applicants are reminded that the Commission's rules require that a transmitter located at such a distance from Warren must nonetheless place a 70 dBu signal over the entire community. See § 73.315(a) of the Commission's Rules. Regarding the channel substitution at Kane, Huber-Dixon Broadcasting will be permitted to amend its application to specify operation on Channel 280A.

5. Canadian concurrence in the assignments has been obtained.

6. Accordingly, *It Is Ordered*, That effective May 4, 1981, § 73.202(b) of the Commission's Rules, the FM Table of Assignments, is amended with respect to the communities listed below, as follows:

City	Channel No.
Bradford, Pa	252A
Kane, Pa	280A
Warren, Pa	222, 276A

[1] The applicant is Huber-Dixon Broadcasting (File No. BPH-810128AF).

[2] All population data are taken from the 1970 U.S. Census.

7. Authority for the actions taken herein are contained in Sections 4(i), 5(d), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules.

8. *It Is Further Ordered,* That the Secretary of the Commission shall send a copy of this *Report and Order* by certified mail, return receipt requested, to Huber-Dixon Broadcasting, 5351 William Flynn Hwy., Rte. 8, Gibsonia, Pennsylvania 15044, the applicant affected by this *Report and Order.*

9. *It Is Further Ordered,* That this proceeding *is terminated.*

10. For further information concerning this proceeding, contact Michael A. McGregor, Broadcast Bureau, (202) 632-7792.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

BILLING CODE 6712-01-M

---

47 CFR Part 73

[BC Docket No. 80-234; RM-3434]

FM Broadcast Station, Mifflintown, Pennsylvania; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein amends the Commission's Rules, the FM Table of Assignments, by assigning Channel 296A to Mifflintown, Pennsylvania, in response to a petition filed by Mifflintown Broadcasters Association. The assignment could provide Mifflintown with its first FM service.

DATE: Effective May 4, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Kathy A. Grant, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.202(b), table of assignments, FM broadcast stations. (Mifflintown, Pennsylvania); Report and Order; Proceeding Terminated.

Adopted: March 6, 1981.

Released: March 12, 1981.

By the Chief, Policy and Rules Division:

1. The Commission has before it for consideration a *Notice of Proposed Rule Making,* 45 FR 37243, published June 2, 1980, inviting comments on a proposal to assign Channel 296A to Mifflintown, Pennsylvania. This proceeding was instituted on the basis of a petition filed by Mifflintown Broadcasters Association ("petitioner"). Supporting comments were filed by petitioner in which it restated its intent to apply for the channel, if assigned. Comments were filed by Mifflin County Broadcasting Company ("MCB"), licensee of radio Stations WMRF and WMRF(FM), Lewistown, Pennsylvania.

2. Mifflintown (pop. 828),[1] seat of Juniata County (pop. 16,712), is located approximately 216 kilometers (135 miles) east of Pittsburgh, Pennsylvania. It presently has no local aural broadcast service.

3. MCB, in comments, pointed out that there is a pending proceeding to assign Channel 288A to Lewistown, Pennsylvania (BC Docket No. 80-233), which is 15 kilometers (9.4 miles) from Mifflintown. MCB argues that, given the close proximity of the communities and the relatively low population of the area, only one channel should be assigned. MCB requests that the Lewistown and Mifflintown proceedings be consolidated.

4. As we stated in the Lewistown proceeding, since the Commission does not allocate FM channels according to a state-wide or regional plan, and each community's needs are typically considered separately, we are not convinced that these proposals should be treated together as if they were in some way mutually exclusive.

5. In view of the first local aural service that would be provided to the community, the Commission finds it to be in the public interest to assign Channel 296A to Mifflintown, Pennsylvania.

6. Canadian concurrence in the proposal has been obtained.

7. Accordingly, *it is ordered,* That effective May 4, 1981, § 73.202(b) of the Commission's Rules, the FM Table of Assignments, *is amended* for the community listed below, as follows:

City	Channel No
Mifflintown, Pa.	296A

8. Authority for the action taken herein is contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules.

9. *It is further ordered,* that this proceeding *is terminated.*

10. For further information concerning this proceeding, contact Kathy A. Grant, Broadcast Bureau, (202) 632-7792.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

47 CFR Part 73

[BC Docket No. 80-233; RM-3436]

FM Broadcast Station in Lewistown, Pennsylvania; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein amends the Commission's Rules, the FM Table of Assignments, by assigning Channel 288A to Lewistown, Pennsylvania, in response to a petition filed by Central Pennsylvania Broadcasting Company. The assignment could provide Lewistown with its second FM service.

DATE: Effective May 4, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Kathy A. Grant, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.202(b), table of assignments, FM Broadcast Stations. (Lewistown, Pennsylvania); Report and Order; Proceeding Terminated.

Adopted: March 6, 1981.

Released: March 12, 1981.

By the Chief, Policy and Rules Division:

1. The Commission has before it for consideration a *Notice of Proposed Rule Making,* 45 FR 37242, published June 2, 1980, inviting comments on a proposal to assign Channel 288A to Lewistown, Pennsylvania, as that community's second FM assignment. This proceeding was instituted on the basis of a petition filed by Central Pennsylvania Broadcasting Company ("petitioner"), licensee of AM Station WKVA, Lewistown, Pennsylvania. Supporting comments were filed by petitioner in which it restated its intent to apply for

[1] Population figures are taken from the 1970 U.S. Census.

the channel, if assigned. Comments were filed by Mifflin County Broadcasting Company ("MCB"), licensee of radio Stations WMRF–FM and WMRF(AM), Lewistown, Pennsylvania, to which petitioner replied.[1]

2. Lewistown (pop. 11,008),[2] seat of Mifflin County (pop. 45,268), is located approximately 200 kilometers (125 miles) east of Pittsburgh, Pennsylvania. It is presently served by fulltime AM Stations WKVA and WMRF, and FM Station WMRF–FM (Channel 240A).

3. In its comments, MCB pointed out that there is a pending proceeding to assign Channel 296A to Mifflintown, Pennsylvania, which is 15 kilometers (9.4 miles) from Lewistown (BC Docket No. 80–234). MCB argues that the proceedings should be consolidated and only one channel assigned to the area because the communities are so close and the population of the area relatively small. MCB claims that the radio market in Lewistown is "depressed" and rather than experiencing growth and redevelopment is actually losing jobs and population. According to MCB, new census figures show Lewistown's population to be 9,696, a 12.6 percent decrease from 1970. Petitioner, in response, does not dispute MCB's population figures, but asserts that the decline is due to a major flood which occurred in 1972. Petitioner claims that cooperative efforts among industry, local groups, and government have led to Lewistown's recovery and redevelopment. Petitioner also points out that MCB has applications pending before the Commission to upgrade its facilities in Lewistown—plans MCB would not make unless it believed them economically feasible.

4. Economic arguments such as MCB makes here are normally deferred to the application stage. *FCC* v. *Sanders Brothers Radio Station*, 309 U.S. 470, 60 S. Ct. 693 (1940); *Carroll Broadcasting Co.* v. *FCC*, 258 F. 2d 440 (D.C. Cir. 1958). Moreover, since the Commission does not allocate FM channels according to a state-wide or regional plan, and each community's needs are considered separately, we are not convinced that these proposals should be treated together as if they were in some way mutually exclusive. Although the population of Lewistown may have declined recently, as claimed by MCB, assignment of Channel 288A will be in accordance with the Commission's population criteria, which allow one or two FM assignments for communities of 50,000 or less.

5. After careful consideration of the proposal and comments, we believe it to be in the public interest to assign Channel 288A to Lewistown, Pennsylvania, to provide a second local FM service. As stated in the *Notice*, no new preclusion would be caused to any community exceeding 1,000 population.

6. Canadian concurrence has been obtained.

Accordingly, *it is ordered*, That effective May 4, 1981, the FM Table of Assignments, § 73.202(b) of the Commission's Rules, *Is Amended* with regard to the following community:

City	Channel No.
Lewistown, Pa	240A, 288A

8. Authority for the action taken herein is contained in Sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules.

9. *It Is Further Ordered*, That this proceeding *Is Terminated*.

10. For further information concerning this proceeding, contact Kathy A. Grant, Broadcast Bureau, (202) 632–7792.

BILLING CODE 6712–01–M

[1] MCB's pleading, styled "Reply Comments," was filed on the last day for submitting such comments, August 7, 1980. Petitioner filed a Motion to Strike MCB's comments, claiming that they were original comments and therefore should have been filed by July 18, 1980. MCB replied to petitioner's Motion, claiming that the pleading was intended to "reply" to statements made in petitioner's comments supporting the *Notice*. Petitioner then filed a "Motion for Acceptance of Response to Reply Comments," requesting that its reply comments be accepted for filing after the August 7, 1980, deadline. There does appear to have been some confusion about the distinction between "comments" and "reply comments." However, since petitioner has responded to MCB's comments and we now have before us a complete set of pleadings, we believe it to be in the public interest to consider the pleadings.

[2] Population figures are taken from the 1970 U.S. Census.

Correction

In FR Doc. 81–7555 appearing at page 16200 in the issue for Wednesday, March 11, 1981, make the following correction:

On Page 16212, in the second column, in the third paragraph under the heading "Proposed §§ 1005.1 and 1310.15", in the third line, "1056.16" should read "1056.7".

BILLING CODE 1505–01–M

49 CFR Part 1100

[Ex Parte No. 55 (Sub-46)]

Elimination of Attorney Registration Requirements

AGENCY: Interstate Commerce Commission.

ACTION: Notice of final rules.

SUMMARY: This Notice abolishes the Commission's requirement in 49 CFR 1100.8 that attorneys file declarations that they are qualified members of the bar, before they represent others before the Commission. The Commission believes it can be assumed that an attorney, acting in a representative capacity in a proceeding, is qualified to practice before the Commission. The Commission will no longer maintain a register of attorney practitioners under 40 CFR 1100.7. Since these rules primarily affect internal Commission procedures, they are issued in final form and public comment will not be required. However, informal comments may be submitted..

DATE: Effective April 20, 1981.

ADDRESS: Informal comments, an original and one copy, if possible, may be submitted to: Office of the Secretary, Room 2215, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT: James Bayne (202) 275–7646, or

Kathleen King (202) 275–0956.

SUPPLEMENTARY INFORMATION:

Attorneys who practice before the Commission have been required to submit a written declaration that they are members in good standing of the bar of the highest court of any State, possession, territory, Commonwealth or the District of Columbia before they could represent persons before the Commission. The declaration was a one time filing and based on that declaration the attorney's name was entered in the Commission's register of practitioners. See 5 U.S.C. 500 and 49 CFR 1100.7 and 1100.8.

The Commission has surveyed other regulatory agencies and found that only one, the Federal Maritime Commission, requires an attorney to submit a written declaration of bar membership or maintains a register of attorney practitioners. The Commission has decided that it is no longer necessary to maintain our attorney declaration procedure under Rule 8, or the attorney portion of the Practitioner Register under Rule 7. Declarations will still be required in accordance with 49 CFR 1100.10 when an attorney or non-attorney practitioner or other representative of a party makes an initial appearance in any proceeding.

Therefore, 49 CFR 1100.8 is revised to state that a person who is a member of the bar of any of our 50 States or the District of Columbia, is qualified to practice before the Interstate Commerce Commission. 49 CFR 1100.7 is modified to state that only a Register of non-attorney practitioners will be maintained by the Commission in the future.

It should be noted that the fact that we will no longer maintain a register of attorney practitioners does not change the fact that attorneys are bound to observe the Code of Ethics For Practitioners Before the Interstate Commerce Commission. Moreover, the Commission will still retain the jurisdiction to disbar, suspend, or discipline attorneys, as provided in 49 CFR 1100.11.

The revisions set forth in the attached appendix are adopted.

This action does not affect significantly the quality of the human environment or conservation of energy resources.

Issued under authority of 5 U.S.C. 553 and 49 U.S.C. 10308.

Decided: March 4, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Clapp, Gresham, Trantum, and Gilliam. Commissioner Trantum was absent and did not participate.

Agatha L. Mergenovich,

Secretary.

PART 1100—GENERAL RULES OF PRACTICE

49 CFR 1100.7 is revised to read as follows:

§ 1100.7 Register of non-attorney practitioners (rule 7).

A register is maintained by the Commission which contains the names of all non-attorneys entitled to practice before the Commission. The register is maintained according to the individual non-attorney practitioner's name and not by corporation or firm name. Corporations and firms are not admitted or recognized as practitioners before the Commission.

49 CFR 1100.8 is revised to read as follows:

§ 1100.8 Attorney at law-qualification and requirements for practice before the Commission (rule 8).

Any person who is a member in good standing of the bar of the highest court of any State, possession, territory, commonwealth or the District of Columbia may represent others before the Commission.

(5 U.S.C. 553 and 49 U.S.C. 10308)

Proposed Rules

Federal Register
Vol. 46, No. 54
Friday, March 20, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF ENERGY

10 CFR Part 1060

Payment of Travel Expenses of Persons Who Are Not Government Employees

AGENCY: Department of Energy.

ACTION: Proposed regulations.

SUMMARY: The Department of Energy is proposing to amend 10 CFR to establish a new Part 1060 which establishes policies on payment from Department funds of travel expenses of persons who are not Government employees (often referred to as "invitational travel"). The proposed regulations will provide Department employees and members of the public with explicit guidelines with respect to authorization and approval of such payments.

DATE: Written comments must be submitted on or before April 20, 1981.

ADDRESS: Written comments should be submitted to Ralph D. Goldenberg, Assistant General Counsel for Standards of Conduct, GC–45, U.S. Department of Energy, MS 6F094, Washington, D.C. 20585.

FOR FURTHER INFORMATION CONTACT:
Susan Fonner, Attorney, Office of the Assistant General Counsel for Standards of Conduct, GC–45, U.S. Department of Energy, Washington, D.C. 20585, (202) 252–1522.

SUPPLEMENTARY INFORMATION:

Classification: The Department of Energy has determined that no substantial issue of fact or law exists with respect to these regulations and that these regulations are not likely to have a substantial impact on the Nation's economy or large numbers of individuals or businesses. The Department of Energy has further determined that these regulations relate to agency management and therefore are exempt from the requirements of 5 U.S.C. 553, 603, and 604, and the requirements of Executive Order 12291.

Regulatory analysis: Not required for this rulemaking.

Environmental Impact Statement: Not required for this rulemaking.

Request for Comments: Written comments are solicited and will be accepted. Comments must be received by 5:00 p.m. on April 20, 1981, at the address indicated in the "Address" section of this preamble. Seven copies should be submitted.

Background

The authority to provide payment from DOE funds for travel expenses of persons who are not Government employees is primarily based on provisions incorporated in chapter 57, title 5, United States Code, as amplified by Decisions of the Comptroller General. (See, for example, 4 Comp. Gen. 281; 8 Comp. Gen. 465; 21 Comp. Gen. 610; 27 Comp. Gen. 163; 36 Comp. Gen. 483; 40 Comp. Gen. 221; 41 Comp. Gen. 482; 48 Comp. Gen. 110; 51 Comp. Gen. 800; 54 Comp. Gen. 554; 56 Comp. Gen. 661.) Section 645 of the DOE Organization Act (42 U.S.C. 7255) provides statutory authority with respect to expenses of subpoenaed persons.

Some Government agencies, including the DOE, have internal rules that attempt to provide guidance to agency employees with respect to certain aspects of invitational travel. However, the lack of more explicit guidance has resulted in uncertainty on the part of both DOE employees and private individuals as to when payment for such travel is authorized. The proposed regulations will provide express guidelines for limiting international travel to specific categories of individuals and to certain invitations approved by high-level DOE officials.

For the reasons set out in the preamble, Chapter X of Title 10 of the Code of Federal Regulations is proposed to be amended by adding a new Part 1060 as set forth below.

Issued in Washington, D.C., February 11, 1981.

William S. Heffelfinger,
Director of Administration.

Part 1060 is added to 10 CFR Chapter X to read as follows:

PART 1060—PAYMENT OF TRAVEL EXPENSES OF PERSONS WHO ARE NOT GOVERNMENT EMPLOYEES

Sec.
1060.101 Persons who may be paid.
1060.201 Relatives and contractors excluded.
1060.301 Government employees excluded.
1060.401 Applicability of internal DOE rules.
1060.501 Definitions.

Authority: Section 644, Pub. L. 95–91 Stat. 599 (42 U.S.C. 7254).

§ 1060.101 Persons who may be paid.

(a) Payment may not be authorized or approved for transportation, lodging, subsistence, or other travel expenses from DOE funds to, or on behalf of, a person who is not a Government employee unless such payment is made—

(1) Pursuant to an invitation received by that person from the Department to confer with a DOE employee on matters essential to the advancement of DOE programs or objectives and (i) in the case of a person invited to confer at the post of duty of the conferring DOE employee, a designated official has approved and stated the reasons for the invitation in writing, or (ii) in the case of a person invited to confer at a place other than the post of duty of the conferring DOE employee, a principal departmental officer has approved and stated the reasons for the invitation in writing.

(2) Pursuant to an invitation for an interview to a prospective employee of the Department who is an applicant for (i) a position in the Department classified at GS–16 or above of the General Schedule or the rate of basic pay for which is fixed, other than under the General Schedule, at a rate equal to or greater than the minimum rate of basic pay fixed for GS–16, (ii) a position for which a determination has been made that there is a manpower shortage pursuant to 5 U.S.C. 5723, or (iii) a DOE position for which the Department has the exclusive duties of recruitment and selection;

(3) In accordance with 28 U.S.C. 1821 or other applicable law, to a person who is subpoenaed by the Department to appear and testify or to appear and to produce documents at a designated place;

(4) To a person who serves as a travel attendant for a handicapped individual who is authorized to travel at DOE expense and whose handicap prevents him from traveling alone; or

(5) Pursuant to a written determination of a principal departmental officer that it is in the

interest of the Government to provide such payment, where the Counselor has determined in writing that the payment is authorized under 5 U.S.C. Ch. 57 or other statutory authority.

(b) The authority of a designated official or a principal departmental officer, as the case may be, to provide approval of an invitation to travel under paragraph (a)(1) of this section and of a principal departmental officer to determine that payment of travel expense is in the interest of the Government under paragraph (a)(5) of this section may not be delegated.

(c) Within 30 days of providing written approval of an invitation under paragraph (a)(1)(i) of this section, a designated official who is an Administrator of a power administration or the head of a regional or district office or a field installation shall transmit a copy of the written approval to the principal departmental officer to whom the official or the official's organization reports under the organizational arrangement described in Part 1003 of Chapter X of this Title.

(d) Payment of travel expenses may not be made pursuant to an invitation to travel under paragraph (a)(1) or (a)(5) of this section unless the written approval and statement of reasons required by paragraph (a)(1) of this section, or the written determinations required by paragraph (a)(5) of this section, are made before the travel to be authorized by the invitation takes place.

§ 1060.201 Relatives and contractors excluded.

Notwithstanding any other provision in this part, a DOE employee may not authorize or approve, require another person to authorize or approve, or (except in the case of payment under § 1060.101(a)(4)) advocate the authorization or approval of, payment from DOE funds of travel expenses of a person who is not a Government employee and who is (a) the DOE employee's relative, or (b) in the case of payment under § 1060.101(a)(1), a DOE contractor or a DOE contractor's employee.

§ 1060.301 Government employees excluded.

Nothing in this part shall be interpreted as being applicable to authorization or approval of payment of travel expenses of Government employees, including DOE employees.

§ 1060.401 Applicability of internal DOE rules.

Payment of travel expenses under § 1060.101(a)(1)–(5) shall be subject to other Department rules relating to authorization of travel.

§ 1060.501 Definitions.

For purposes of this part—

(a) "Counselor" means the General Counsel of the Department or the General Counsel of the Federal Energy Regulatory Commission or their delegates, as appropriate.

(b) "Designated official" means (1) a principal departmental officer, (2) an individual who is appointed to a position in the Department by the President of the United States with the advice and consent of the Senate, (3) the Administrator of a power administration, or (4) the head of a regional or district office or a field installation (as defined in Part 1003 of Chapter X of this Title).

(c) "DOE" or "Department" means the Department of Energy established by the Department of Energy Organization Act, section 201, Pub. L. 95–91 (42 U.S.C. 7131).

(d) "Employee" means—

(1) An employee as defined by 5 U.S.C. 2105;

(2) A special Government employee as defined in 18 U.S.C. 202(a);

(3) A member of a Uniformed Service.

(e) "Handicapped individual" means a person who has a physical or mental disability or health impairment, and includes an individual who is temporarily incapacitated because of illness or injury.

(f) "Principal departmental officer" means the Secretary, Deputy Secretary, Under Secretary, or Chief Financial Officer of the Department, or, in the case of the Federal Energy Regulatory Commission, the Chairman or Executive Director of the Commission.

(g) "Relative" means, with respect to a DOE employee, an individual who is related to the employee, by blood, marriage, or operation of law, as father, mother, son, daughter, brother, sister, uncle, aunt, great aunt, great uncle, first cousin, nephew, niece, husband, wife, grandchild, grandparent, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half brother, or half sister, and shall also include the grandparent of an employee's spouse, an employee's fiance or fiancee, or any person residing in the employee's household.

BILLING CODE 6450-01-M

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1208

Miniature Christmas Tree Lights; Proposed Withdrawal of Proposed Rule

AGENCY: Consumer Product Safety Commission.

ACTION: Proposal to withdraw proposed standard.

SUMMARY: Based on information showing that there has been significant upgrading of voluntary standards to address the risks of injury from fire and shock associated with miniature Christmas tree lights, as well as information showing a decline in fire incidents from 1977 to 1980, the Commission proposes to withdraw its proposed standard for miniature Christmas tree lights. The proposed standard was published on May 3, 1978. March 15, 1981 is the date by which the Commission is now obligated to either publish a final standard or withdraw the proposal. Since the Commission wishes to obtain public comments on withdrawal of the proposed standard before the effective date of the withdrawal, the Commission extends its decision date from March 15, 1981 to September 15, 1981.

DATES: Comments, preferably in five copies, are due on or before May 19, 1981. Comments received after this date will be considered to the extent practicable.

ADDRESSES: Comments on this proposal to withdraw the proposed standard should be addressed to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207.

Copies of the staff briefing packages and related materials on miniature Christmas tree lights are available at the Office of the Secretary, 1111 18th Street NW., 3rd floor, Washington, D.C. 20207.

FOR FURTHER INFORMATION CONTACT: Carl W. Blechschmidt, Program Manager, Office of Program Management, Consumer Product Safety Commission, Washington, D.C. 20207, (301) 492–6557.

SUPPLEMENTARY INFORMATION: On May 3, 1978, the Commission proposed a standard under section 7 of the Consumer Product Safety Act (CPSA) (15 U.S.C. 2056) for miniature Christmas tree lights and similar miniature decorative lights in order to eliminate or reduce the risks of injury from electric shock and fires. (43 FR 19136) Based on information available at the time of the proposal the Commission preliminarily

determined that a consumer product safety standard was necessary to eliminate or reduce the unreasonable risks of injury from fires and electric shock associated with these products.

Since its formation in 1973, the Commission has received reports of incidents and injuries due to electric shocks and fires from miniature Christmas tree lights and similar miniature decorative lights. In 1974 a number of manufacturers voluntarily initiated a recall of certain lights as a result of reports received at that time and the encouragement of the Commission's staff.

The Commission initiated its standard development proceeding on March 31, 1977 (42 FR 17154) based primarily on the CPSC's 1975 Christmas Decorative Light Survey and technical analyses of Christmas light products. The 1975 survey involved the inspection of manufacturers, importers, and major retailers of miniature Christmas tree lights to identify hazardous products. From this survey, the Commission learned that defects in miniature Christmas tree light products could very likely lead to hazardous situations.

At the time the Commission initiated the standard development proceeding the Commission received information about two existing voluntary standards for miniature Christmas tree light products: Underwriters Laboratories Inc., (UL)—"Standard for Christmas Tree and Decorative Lighting Outfits—UL 588" (13th Edition, November 15, 1974, revised December 30, 1974 and February 4, 1976); and National Ornament and Electric Lights Christmas Association (NOEL)—"NOEL Standard Midget Sets, September 16, 1975. The Commission recognized at that time that although the voluntary standards included many beneficial features, application of those standards as they existed would not eliminate or sufficiently reduce the unreasonable risks of injury. (43 FR 19137) During the rulemaking proceeding the Commission staff continued to work with the voluntary standards organizations in an effort to encourage improvements in the voluntary standards.

In response to the Commission's work, in July, 1978 UL revised its existing standard to include virtually all of the requirements in the Commission's proposed standard. In addition, NOEL indicated in October 1978 that it would amend its standard to include the provisions of the standard recommended to the Commission by the National Consumers League. On March 9, 1979, after considering the existing information on the improvements in the voluntary standards, the Commission extended, until March 15, 1981 the date by which it must either publish a final standard or withdraw the proposed standard. (44 FR 13040) The reason for the extension was to allow the Commission additional time in which to monitor the voluntary standards before making any decision that a mandatory standard is not necessary to protect the public.

Since that time, the staff has provided the Commission with eight progress reports concerning the status of the voluntary standards. The Commission staff's efforts to monitor the voluntary standard development show that UL has in fact, adopted the provisions of the Commission's proposed standard and has, in addition, adopted certain provisions for larger size parallel connected light strings. The staff reports also show that NOEL has adopted the provisions of the NCL standard, with the exception of one testing requirement.

The Commission has sponsored a project with the National Bureau of Standards (NBS) to monitor the degree of compliance with the voluntary standards for the 1980 Christmas season. The results of these tests showed a disappointing level of conformance with the voluntary standards. However, the lights tested represented the first production year for lights manufactured to meet the newly upgraded standards, so that some failures because of quality control problems could be corrected in a second production year. In the NBS tests, there were serious deviations from compliance with the voluntary standards. Thirty-six percent of the UL models tested and 92 percent of the NOEL models tested had more than one failure for more than one test requirement. (The non-UL and non-NOEL models tested had conformance results that were between those of the UL and NOEL models.) To help address this situation the Commission staff has contacted the manufacturers of the models that were found not to comply with the voluntary standards, and informed of the non-compliance. The staff has requested these manufacturers to provide information as to why the lights do not conform to the voluntary standard requirements and to advise the Commission of any steps to assure future conformance. The Commission staff has also contacted UL and NOEL about the test results. In response to these inquiries, UL has indicated that it is interested in following up on deficiencies under its compliance program. NOEL has indicated that it will make arrangements with a third party laboratory to offer a third party certification program to individual members of the association, and will encourage members to use third party certification on an individual basis.

The staff has also examined the reported incidents of injuries and fires associated with miniature Christmas tree lights from 1977–1980. Based on this examination, the number of fires involving Christmas tree lights appears to have decreased in the 1980 Christmas season compared to previous years. From 1977–1979, there were an estimated 150 fires each year caused by miniature Christmas tree lights based on U.S. Fire Administration data. Although the data collection for 1980 is not yet complete, the number of fires reported to the Commission from newspaper clippings and consumer complaints in the 1980 Christmas season show a decline from those in previous years—from 41 in 1977, 37 in 1978, and 40 in 1979 to 25 in 1980. There have been no shock injuries reported from 1977–1980, except for those involving consumer abuse. The number of reported incidents involving melting or overheating of component parts has been decreasing continuously since 1977, from 53 in 1977 to 13 in 1980.

The Commission staff estimates that in 1980, 38.5 million miniature Christmas tree lights were imported into the United States. Over 35 million were imported from Taiwan and Korea. Only a small number of miniature christmas tree lights were produced in the United States. The staff estimates that by 1979, over 50 percent of miniature Christmas tree lights were UL listed. (In 1974 less than 20 percent of miniature Christmas tree lights were UL listed.)

Summary and Conclusion

Based on the foregoing information, the Commission has decided to propose to withdraw its proposed standard for miniature Christmas tree lights and similar miniature decorative lights. There has been a significant upgrading in the voluntary standards for the product, covering approximately 90 percent of the entire industry, as a result of the Commission's efforts over the past few years to improve the safety of the product. The gross hazards of exposed live parts, melting, and short circuits have largely been resolved. The voluntary standards, if met by industry members, will sufficiently reduce the risks of injury from fire and shock with miniature Christmas tree lights. In addition, the Commission notes that there has been a reduction in the number of reported fires associated with the product in 1980, as well as a continuous reduction in melting and

overheating incidents since 1977. Also there have been no injuries from electrical shock except those caused by consumer abuse. The Commission, therefore, concludes that a standard for miniature Christmas tree lights is not reasonably necessary at this time to eliminate or reduce the risks of injury from fire and electric shock associated with the products.

The Commission, however, remains concerned about the level of conformance to the voluntary standards, and has instructed the staff to monitor the industry's compliance with these standards. This continued monitoring should enable the Commission to respond in an expeditious fashion to any need for future regulation in this area. If in the future, the Commission becomes aware of significant violations of the voluntary standards that result in serious risks of injury from fire and shock, the Commission will consider the need for action under section 15 of the CPSA (15 U.S.C. 2064). Moreover, manufacturers (including importers), distributors, and retailers of miniature Christmas tree lights who obtain information supporting the conclusion that the product contains a defect which could create a substantial product hazard must immediately inform the Commission in accordance with section 15(b) of the act and the Commission's regulations at 16 CFR Part 1115.

In accordance with section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 601 et. seq.) the Commission certifies that the proposed rule withdrawing the proposed standard for miniature Christmas tree lights will not, if issued, have a significant economic impact on a substantial number of small entities. In contrast with a final regulation with requirements that are being or will be enforced, the proposed standard which is proposed to be withdrawn at this time is not binding, creates no obligations, and has no legal impact. Thus, any action to withdraw the proposed standard will also not have a significant impact on small entities.

Accordingly, pursuant to section 9(a)(1)(B) of the CPSA, the Commission proposes to withdraw proposed Part 1208 and solicits public comment on this proposal.

In order to receive and evaluate comments on this proposal, the Commission, for good cause as an administrative matter, extends from March 15, 1981 to September 15, 1981 the date by which it must either publish a final standard or withdraw the proposal.

Dated: March 17, 1981.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CRF Part 106

[Docket No. 80N-0025]

Infant Formula Quality Control Procedures; Extension of Comment Period

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: The Food and Drug Administration (FDA) is extending the period for submitting comments on its proposal to establish a new Part 106 (21 CFR Part 106), that would require quality control procedures for the manufacture of infant formula products. FDA is granting this extension in response to several requests.

DATE: Comments on the proposed rule by May 1, 1981.

ADDRESS: Written comments to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: F. Edward Scarbrough, Bureau of Foods (HFF-204), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-245-3117.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of December 30, 1980 (45 FR 86362), FDA proposed to establish a new Part 106 (21 CFR Part 106) that would require quality control procedures for the manufacture of infant formula products. The proposed regulations specify a systematic procedure for sampling, testing, analyses, and recordkeeping for in-process and finished formulas. The proposed regulations also would require manufacturers to establish the following: an acceptance protocol for ingredients assuring that they conform to strict specifications for composition and purity; an in-process operational control program of ingredient addition, blending, homogenization, and standardization; and a finished product evaluation system that specifies sampling frequency and an analytical format that defines product release ranges at which the product may be shipped. The proposal is intended to ensure that infant formula products contain the necessary nutrients at the specified levels as required by the Infant Formula Act of 1980. Written comments were to be submitted on or before March 2, 1981.

FDA has received requests for an extension of the comment period from The Infant Formula and Nutrition Organization, also known as FORMULA, Gerber Products Company and the American Medical Association. The requests are on file with the Dockets Management Branch, FDA.

After carefully evaluating the requests, FDA has concluded that an extension is appropriate to provide adequate time to prepare responses to the proposed regulations. FDA recognizes the significance of the issues involved in this matter and wishes to ensure that all interested parties have a fair amount of time for comment. Therefore, FDA has concluded that the comment period should be extended an additional 60 days.

Interested persons may, on or before May 1, 1981, submit to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, written comments regarding this proposal. Four copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: March 13, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-9-FRL 1783-6]

Approval and Promulgation of Implementation Plans; California State Implementation Plan Revision; Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Extension of comment period.

SUMMARY: On February 4, 1981, a notice of proposed rulemaking for the San

Diego Air Basin nonattainment area plan was published concerning volatile organic compound (VOC) rules. The notice provided a 30-day public comment period. During the comment period, the EPA Regional Office received several requests to extend the comment period.

DATES: This notice officially revises the public comment period and extends the comment period to April 8, 1981.

FOR FURTHER INFORMATION CONTACT: Doug Grano, (415) 556-3308.

Dated: March 12, 1981.

Sheila M. Prindiville,

Acting Regional Administrator.

GENERAL SERVICES ADMINISTRATION

Transportation and Public Utilities Service

41 CFR Part 101-7

Federal Travel Regulations

AGENCY: General Services Administration.

ACTION: Proposed rule.

SUMMARY: The General Services Administration (GSA) proposes to revise the Federal Travel Regulations (FTR), FPMR 101-7, to update and improve relocation allowances for Federal employees who are transferred in the interest of the Government. These proposed changes are the result of a comprehensive study of the adequacy of employee relocation allowances recently conducted jointly by GSA and the Office of Personnel Management (OPM) in coordination with the Office of Management and Budget (OMB).

DATE: Comments and recommendations must be received on or before May 19, 1981.

ADDRESS: Written comments should be sent to the General Services Administration (TTT), 425 I Street, NW., Room 3112, Washington, D.C. 20405. GSA will review all comments and modify the final regulations as considered appropriate.

FOR FURTHER INFORMATION CONTACT: Phyllis Hickman, Federal Travel Management Division (202-275-0661).

SUPPLEMENTARY INFORMATION: Executive Order 11609 (July 22, 1971) and the Travel Expense Amendments Act of 1975 (Pub. L. 94-22, May 19, 1975) authorized the Administrator of General Services to prescribe the regulations necessary to administer subchapters I and II of chapter 57 of title 5, United States Code, governing per diem, travel, transportation, and relocation allowances and entitlements for Federal civilian employees. Under this authority, GSA proposes to revise the Federal Travel Regulations (FTR), FPMR 101-7, to improve relocation allowances for Federal civilian employees transferred in the interest of the Government. These proposed changes reflect the recommendations of a comprehensive study of the adequacy of employee relocation allowances conducted jointly by GSA and OPM in coordination with the Office of Management and Budget (OMB). This review was conducted because of agency complaints that financial hardships were making it difficult to get well-qualified and experienced personnel to relocate in the interest of the Government. The GSA/OPM review group surveyed Federal civilian employees and their employing agencies to determine the changes necessary to alleviate some of the financial burdens being encountered by transferred employees.

Questionnaires were sent to 35 Federal headquarters agencies soliciting their views and recommendations for changes to the FTR. In addition, a survey sampling of employees who moved during Fiscal Year 1979 was conducted to obtain actual costs and other related problems encountered during their relocation. Sufficient data received from Federal agencies and those selected employees enabled the GSA to recommend the following proposed regulatory changes to the existing FTR allowances while other recommendations received will require statutory action. GSA has forwarded a draft legislative package to OMB for consideration.

Also included in this regulatory proposal are recommendations to modify certain travel allowances. These recommended changes are based on several employee suggestions already on file with GSA.

To assist interested parties in understanding the extent of the proposed changes to the FTR, the following explanation is furnished:

a. Paragraph 1-2.3c is revised to permit agencies to restrict reimbursement for the use of taxicabs or place a monetary limit on the amount of reimbursement under certain circumstances.

b. Paragraph 1-4.2c(3) is renumbered to read 1-4.2c(4) and a new paragraph 1-4.2c(3) is added to allow reimbursement for actual mileage incurred between home, office, and common carrier terminals, when a privately owned automobile is used on a voluntary basis to transport fellow travelers in connection with official travel.

c. Paragraph 2-1.4d(1)(b) is revised to expand the definition of "immediate family" to provide for the travel costs of a child born after the employee reports for duty at the new official station, if the spouse's travel to the new station at Government expense is prevented because of advanced stage of pregnancy, and paragraph 2-1.4h is revised for clarification and to include additional items which can be shipped as household goods.

d. Paragraph 2-2.3b is revised to increase the permanent change of station mileage reimbursement rate to reflect the current airline fare level, and paragraph 2-2.3c is revised to reference the applicable privately owned vehicle mileage reimbursement rate as prescribed.

e. Paragraph 2-3.1b(5) is revised to allow reimbursement under the miscellaneous expenses allowance for unrefundable or nontransferable contract costs incurred for private institutional care for handicapped dependents.

f. Paragraph 2-3.3a (1) and (2) are revised to increase the miscellaneous expense flat rate allowances from $100 to $200 for an employee without immediate family and $200 to $400 for an employee with immediate family.

g. Paragraph 2-4.1a is revised to allow reimbursement for separate househunting trips for the employee and spouse, limited to the cost of one round-trip for employee and spouse traveling together, and paragraph 2-4.2 is revised to extend the maximum period of time to seek housing from 6 to 10 calendar days.

h. Paragraph 2-5.2c is revised to permit payment of temporary quarters subsistence expenses when the temporary quarters occupied ultimately become the employee's permanent residence, if the agency can establish that the original intent was to occupy the residence temporarily, and paragraph 2-5.2g is revised for clarity.

i. Paragraph 2-5.4c is revised to allow temporary quarters subsistence allowance reimbursement to the employee for the first 10-day period up to the maximum per diem rate prescribed for the locality (e.g., conterminous United States or nonforeign area) in which the temporary quarters are located instead of the current 75-percent limitation.

j. Paragraph 2-6.1e is revised to extend the residential transaction eligibility period for an additional year beyond the current 2-year period when necessary.

k. Paragraph 2–6.2d is revised to allow reimbursement of the loan origination fee incurred when buying a new residence, and paragraph 2–6.2g is revised to increase the maximum reimbursement limitation for the sale of a residence from $8,000 or 10 percent of the price, whichever is the lesser amount, to $15,000 or 10 percent of the price, whichever is the lesser amount; and the limitation on the purchase of a new residence is increased from $4,000 or 5 percent of the price, whichever is the lesser amount, to $5,000 or 5 percent of the price, whichever is the lesser amount.

l. Paragraph 2–8.2a is revised to allow the same maximum weight allowance for shipment of household goods for all employees regardless of family status, and paragraph 2–8.2c is revised to extend the household goods temporary storage period from 60 to 90 days and to give agencies the authority to allow an additional 90 days under certain conditions.

Note.—The General Services Administration has determined that this proposal will not be considered a major rule under E.O. 12291 of February 17, 1981, because it is not likely to: have an annual effect on the economy of $100 million or more, cause a major increase in costs or prices, or result in significant adverse effects.

Accordingly, it is proposed to amend the Federal Travel Regulations (FPMR 101–7) as follows:

Chapter 1. Travel Allowances

Part 2. Transportation Allowable

1. Paragraph 1–2.3c is revised to read as follows:

1–2.3. Local transportation.

* * * * *

c. *To and from carrier terminals.* (1) Reimbursement will be allowed for the usual taxicab and airport limousine fares, plus tip, between a common carrier or other terminal and either the employee's home of official duty station or place of lodging at a temporary duty point, or between the airport and airport limousine terminal.

(2) However, an agency shall restrict the use of taxicabs hereunder or place a monetary limit on the amount of taxicab reimbursement when:

(a) Suitable Government or common carrier transportation service, including airport limousine service, is available for all or part of the distance involved, or

(b) Courtesy transportation service is provided by hotels/motels between the place of lodging at the temporary duty site and the common carrier terminal.

* * * * *

Part 4. Reimbursement for Use of Privately Owned Conveyances

2. Paragraph 1–4.2c(3) is renumbered to read 1–4.2c(4) and a new paragraph 1–4.2c(3) is added to read as follows:

1–4.2. When use of a privately owned conveyance is advantageous to the Government.

* * * * *

c. * * *

(3) *Privately owned conveyance instead of taxicab used to transport other employees between residence, office, and common carrier terminals.* Instead of payment under (2) and (3) above, payment may be made on the basis of actual mileage incurred at the rate of 22.5 cents per mile without the taxifare limitation when an employee uses a privately owned conveyance to pick up and transport other employees traveling between home, office, and common carrier terminals incident to a temporary duty assignment. Employee participation under this provision is voluntary.

* * * * *

h. *Household goods.* (1) All personal property associated with the home and all personal effects belonging to an employee and the immediate family when shipment or storage begins, which can be legally accepted and transported as household goods by an authorized commercial carrier in accordance with the rules and regulations established or approved by an appropriate Federal or State regulatory authority, except the following:

(a) Boats and airplanes;

(b) Live animals, birds, fowls, and reptiles;

(c) Cordwood and building materials;

(d) Property for resale, disposal, or commercial use rather than for use by the employee or the immediate family; and

(e) A privately owned motor vehicle that:

(i) Is self-propelled;

(ii) Is required to be licensed to travel overland on the public highways;

(iii) Has four or more wheels;

(iv) Is designed to carry passengers or property; and

(v) Is not owned by the Government and is in the possession of and used by the employee or the immediate family for the primary purpose of providing personal transportation.

(2) A vehicle with two or three wheels may be shipped as household goods or, if authorized, may be shipped as a privately owned vehicle under Part 10 of this chapter.

(3) Generally carriers' tariffs prohibit household goods carriers from accepting the articles listed below for shipment. Agencies are advised to consult applicable tariffs or to contact the carrier involved if problems arise concerning shipment of the following prohibited articles:

(a) Property liable to impregnate or otherwise damage equipment or other property (e.g., hazardous articles, including explosives, flammable and corrosive materials, poisons, etc.).

(b) Articles which cannot be taken from the premises without damage to the article or the premises.

(c) Perishable articles, including frozen foods, articles requiring refrigeration, or perishable plants unless:

(i) Shipment is to be transported not more than 150 miles and/or delivery accomplished within 24 hours from the time of loading.

(ii) No storage of shipment is required, and

(iii) No preliminary or enroute servicing or watering or other preservative method is required of the carrier.

(4) Items of extreme value or sentiment are not provided special security. Employees and their immediate families are advised to personally transport these items.

* * * * *

Chapter 2. Relocation Allowances

Part 1. Applicability and General Rules

3. Paragraphs 2–1.4d(1)(b) and 2–1.4h are revised to read as follows:

2–1.4. Definitions.—As used in these regulations, and unless otherwise specifically provided in these regulations, the following definitions apply:

* * * * *

d. * * *

* * * * *

(b) Children of the employee or employee's spouse who are unmarried and under 21 years of age or who, regardless of age, are physically or mentally incapable of self-support. (The term "children" shall include natural offspring; stepchildren; adopted children; grandchildren, legal minor wards, or other dependent children who are under legal guardianship of the employee or employee's spouse; and a child born after the employee's effective date of transfer when the travel of the employee's expectant spouse to the new official station is prevented at the time of the transfer because of advanced stage of pregnancy or other reasons acceptable to the agency concerned.)

* * * * *

Part 2. Allowances For Subsistence and Transportation

4. Paragraphs 2–2.3 b and c are revised to read as follows:

2–2.3. For use of a privately owned automobile in connection with permanent change of station.

* * * * *

b. *Mileage rates prescribed.* Payment of mileage allowances when authorized or approved in connection with transfer shall be allowed as follows:

Occupants of automobile	Mileage rate (cents)
Employee only; or one member of immediate family	15
Employee and one member; or two members of immediate family	17
Employee and two members; or three members of immediate family	19
Employee and three or more members; or four or more members of immediate family	21

c. *Mileage rates in special circumstances.* Heads of agencies may prescribe that travel orders or other administrative determinations specify higher mileage rates at a rate not more than the maximum rate prescribed in 1–4.2a(2) for individual transfers of employees or transfers of groups of employees when:

* * * * *

Part 3. Allowances for Miscellaneous Expenses

5. Paragraph 2–3.1b(5) is revised to read as follows:

2–3.1. Applicability.

* * * * *

b. * * *

(5) Forfeiture losses on medical, dental, and food locker contracts that are not transferable; and contracts for private institutional care, such as that provided for handicapped or invalid dependents only, which are not transferable or refundable; and

* * * * *

6. Paragraphs 2–3.3a(1) and (2) are revised to read as follows:

2–3.3. Allowable Amount.

* * * * *

a. * * *

(1) $200 or the equivalent of 1 week's basic pay, whichever is the lesser amount, for an employee without immediate family; and

(2) $400 or the equivalent of 2 week's basic pay, whichever is the lesser amount, for an employee with immediate family.

* * * * *

Part 4. Travel to Seek Residence Quarters

7. Paragraph 2–4.1a is revised to read as follows:

2–4.1. Applicability of and general policy for authorizing travel to seek residence quarters.

a. Payment of travel and transportation expenses of the employee and spouse traveling together, or the employee and spouse traveling separately provided the cost is limited to the cost of one round trip for the employee and spouse together, between the localities of the old and new duty stations to seek housing, may be authorized when circumstances warrant. A round trip performed by the employee for this purpose must be accomplished before reporting to the new official station. This trip by the spouse traveling separately or traveling with the employee may be accomplished at any time before relocation of the family to the new official station but not after the expiration of the maximum time for beginning allowable travel and transportation. (See paragraph 2–1.5a(2).) An appropriate official of the agency who will be responsible for payment of the travel and transportation allowances for the employee shall decide whether this trip should be authorized.

* * * * *

8. Paragraph 2–4.2 is revised to read as follows:

2–4.2. Duration of trip. The round trip should be allowed for a reasonable period of time considering distance between the old and new official stations, mode of transportation to be used, and the housing situation at the new official station location. In no instance shall the period of the round trip at Government expense be allowed in excess of 10 calendar days, including travel time. In authorizing or allowing a particular mode of transportation, consideration shall be given to providing minimum time en route and maximum time at the new official station locality. Accordingly, if the use of a privately owned automobile is permitted, this use is considered advantageous to the Government and the mileage allowance shall be as provided in paragraphs 2–2.3b and c. Reasonable expenses for local transportation at the location of the new official station shall be allowed. Agencies may authorize local transportation by common carrier, local transit systems, GSA contract rental or other commercially rented automobiles, or privately owned automobiles; however, the mode of local transportation must be consistent with the mode of transportation authorized for travel to and from the new official station. Expenses for the use of taxis shall be limited to transportation between depots, airports, or other carrier terminals and place of lodging.

Part 5. Subsistence While Occupying Temporary Quarters

9. Paragraphs 2–5.2 c and g are revised to read as follows:

2–5.2. Conditions and limitations for eligibility.

* * * * *

c. *What constitutes temporary quarters.* Generally, the term "temporary quarters" refers to lodging obtained from private or commercial sources for the purpose of temporary occupancy after vacating the residence occupied when the transfer was authorized. However, occupancy of temporary quarters that eventually becomes the employee's permanent residence shall not prevent payment of temporary quarters allowance if, in the agency's judgment, the employee shows satisfactorily that the quarters occupied were intended initially to be only temporary.

* * * * *

g. *Effect of partial days.* (1) The following guidelines shall be used for determining the eligibility period for temporary quarters, subsistence expense reimbursement and in computing maximum reimbursement when occupancy of temporary quarters for reimbursement purposes occurs the same day that en route travel per diem ends:

(a) For en route travel of more than 24 hours, reimbursement for temporary quarters subsistence expenses shall start at the beginning of the calendar day quarter immediately following termination of the en route travel per diem. This will be considered the first full day of the entitlement period for the purpose of computing maximum reimbursement.

(b) For en route travel of 24 hours or less, reimbursement for temporary quarters subsistence expenses shall start at the beginning of the same calendar day quarter in which en route travel per diem ends upon arrival at destination. This will be considered the first full day of the entitlement period for the purpose of computing maximum reimbursement.

(2) In all other cases, the temporary quarters period shall start with the first quarter of the calendar day in which temporary quarters subsistence expense reimbursement is claimed: *Provided,* That temporary quarters are occupied during that calendar day.

(3) The temporary quarters period shall terminate at midnight of the last day of eligibility.

* * * * *

10. Paragraph 2–5.4c is revised to read as follows:

2–5.4. Allowable amount.

* * * * *

c. *Computation of maximum.* The amount which may be reimbursed for temporary quarters subsistence expenses shall be the lesser of either (1) the actual amount of allowable expense incurred for each 10-day period or (2) the amount computed as follows:

(1) *For the first 10 days.* (a) For the employee, a daily rate not more than the maximum per diem rate prescribed for the locality in which the temporary quarters are located (see 1–7.2 a or b); and

(b) For each member of the employee's immediate family, two-thirds of the employee's daily rate established in (a), above.

(2) *For the second 10 days.* (a) For the employee, two-thirds of the daily rate established for the employee for the first 10 days in 2–5.4c(1)(a); and

(b) For each member of the employee's immediate family, two-thirds of the daily rate established for members of the immediate family for the first 10 days in 2–5.4c(1)(b).

(3) For the third 10 days and for any portion of an authorized additional 30–day period. (a) For the employee, one-half of the daily rate established for the employee for the first 10 days in 2–5.4c(1)(a).

(b) For each member of the employee's immediate family, one-half of the daily rate established for members of the immediate family for the first 10 days in 2–5.4c(1)(b).

* * * * *

Part 6. Allowances for Expenses Incurred in Connection With Residence Transactions

11. Paragraph 2–6.1e is revised to read as follows:

2–6.1. Conditions and requirements under which allowances are payable.

* * * * *

e. *Time limitation.* The settlement dates for the sale and purchase or lease termination transactions for which reimbursement is requested are not later than 1 (initial) year after the date that the employee reported at the new official station. Upon an employee's written request, this time limit for completion of the sale and purchase or lease termination transaction may be extended by the head of the agency or a designee, for an additional period of time not to exceed 1 year regardless of the reasons, if it is determined that the particular residence transaction is reasonably related to the transfer of official station. Further, when extenuating circumstances prevent the employee from completing the sale and purchase or lease termination transactions in the above time frame, upon an employee's written request, the time limit may be extended beyond the 2–year period for an additional period of time not to exceed 1 additional year, by the agency head or a designee. Agencies are advised to carefully review the employee's request to ensure that the circumstances for the request indicate the additional time is necessary and the sale and/or purchase in reasonably related to the transfer.

* * * * *

12. Paragraphs 2–6.2 d and g are revised to read as follows:

2–6.2. Reimbursable and nonreimbursable expenses.

* * * * *

d. *Miscellaneous expenses*—(1) *Reimbursable items.* The expenses listed below are reimbursable in connection with the sale and purchase of residences, provided they are customarily paid by the seller of a residence in the locality of the old official station or by the purchaser of a residence at the new official station to the extent they do not exceed amounts customarily paid in the locality of the residence.

(a) FHA or VA fee for the loan application;

(b) Loan origination fee;

(c) Costs of preparing credit reports;

(d) Mortgage and transfer taxes;

(e) State revenue stamps;

(f) Other fees and charges similar in nature to those listed above, unless specifically prohibited in (2), below;

(g) Charge for prepayment of a mortgage or other security instrument in connection with the sale of a residence at the old official station to the extent the terms in the mortgage or other security instrument provide for this charge. This prepayment penalty is also reimbursable when the mortgage or other security instrument does not specifically provide for prepayment, provided this penalty is customarily charged by the lender but in that case the reimbursement may not exceed 3 months' prevailing interest on the loan balance.

(h) Mortgage title policy paid for by the employee on a residence purchased by the employee for the protection of, and required by, the lender;

(i) Owner's title policy, provided it is a prerequisite to financing or the transfer of property; or the cost of the owner's title policy is inseparable from the cost of other insurance, which is a prerequisite to financing or the transfer of property;

(j) Expenses in connection with construction of a residence, which are comparable to expenses that are reimbursable in connection with the purchase of an existing residence;

(2) *Nonreimbursable items.* Except as specifically provided in (1), above, the following items of expense are not reimbursable:

(a) Owner's title policy, "record title" policy, mortgage insurance or insurance against loss or damage of property, and optional insurance paid for by the employee in connection with the purchase of a residence for the protection of the employee;

(b) Interest on loans, points, and mortgage discounts;

(c) Property taxes;

(d) Operating or maintenance costs;

(e) No fee, cost, charge, or expense determined to be part of the finance charge under the Truth in Lending Act, Title I, Pub. L. 90–321, and Regulation Z issued in accordance with Pub. L. 90–321 by the Board of Governors of the Federal Reserve System, unless specifically authorized in (1), above; and

(f) Expenses that result from construction of a residence.

* * * * *

g. *Overall limitations.* The total amount of expenses that may be reimbursed is as follows:

(1) In connection with the sale of the residence at the old official station, reimbursement shall not exceed 10 percent of the actual sale price or $15,000, whichever is the lesser amount.

(2) In connection with the purchase of a residence at the new official station, reimbursement shall not exceed 5 percent of the purchase price or $5,000, whichever is the lesser amount.

* * * * *

Part 8. Transportation and Temporary Storage of Household Goods

13. Paragraphs 2–8.2a and c are revised to read as follows:

2–8.2. General limitations.

a. *Maximum weight allowance.* The maximum weight of household goods that may be transported or stored in connection therewith at Government expense is limited to 11,000 pounds net weight for all employees. The total weight of household goods stored under 2–9.2 plus the weight of household goods transported under this Part 8 shall not exceed the above maximum weight allowance.

* * * * *

c. *Temporary storage time limit.* The time allowable for temporary storage in connection with an authorized shipment of household goods shall not exceed a period of 90 days. This time period also applies when an employee returns to his or her place of actual residence for leave before serving a new tour of duty outside the conterminous United States either at a different post of duty or at the same post of duty if the storage is provided instead of furnished quarters or a quarters allowance. However, upon an employee's written request, the initial 90 days period may be extended an additional period not to exceed 90 days under certain conditions if approved by the agency head or a designee. Justification for an additional storage period may include but is not limited to the following reasons:

(1) An intervening temporary duty or long term training assignment;

(2) Nonavailability of suitable housing;

(3) Completion of residence under construction;

(4) Serious illness of employee or illness or death of a dependent; or

(5) Strikes, acts of God, or other circumstances beyond the control of the employee.

* * * * *

(Sec. 205(c), 63 Stat. 390 (40 U.S.C. 486(c)))

BILLING CODE 6820-AM-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA-6007]

National Flood Insurance Program; Proposed Zone and Base Flood Elevation Determinations for the City of Van Buren, Crawford County, Ark.

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed zones and base flood elevations as described below.

The proposed zones and base flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for partcipation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in the newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed zones and base flood elevations are available for review at the Office of the Mayor, City Hall, 1000 East Main, Van Buren, Arkansas.

Send comments to: The Honorable Robert E. Bell, Mayor, City of Van Buren, 1000 East Main, Van Buren, Arkansas 72956.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation & Engineering Office, National Flood Insurance Program, 451 Seventh Street SW., Washington, DC 20410, (202) 755-6570 or toll free line (800) 424-8872 (in Alaska and Hawaii call toll free (800) 424-9080).

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed zones and base flood elevations for the City of Van Buren, Arkansas, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90-448), 42 U.S.C. 4001-4128, and 44 CFR Part 67.

These zones and base flood elevations, together with the flood plain management measures required by § 60.3 of the program regulations, are the minimum that are required. It should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. The proposed zones and base flood elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are as follows:

Source of flooding	Location	Elevation (NGDV)
Town Branch	At the southernmost corporate limits.	399
	At Oak Grove Road	404
	At Alma Boulevard	442
	Just upstream of North 24th Street.	462
	At the Limit of Detailed Study	483
Town Branch Overflow	At the confluence with Flat Rock Creek.	399
	Approximately 1,300 feet downstream from the confluence of Town Branch.	401
Flat Rock Creek	At the confluence with Town Branch Overflow.	399
	Approximately 300 feet downstream from Oak Grove Road.	401
	Just upstream of U.S. Routes 64 and 71.	429
	Approximately 1,500 feet upstream from U.S. Routes 64 and 71.	434
Arkansas River	At the westernmost corporate limits.	414

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: March 6, 1981.

Robert G. Chappell,

Acting Assistant Administrator, Federal Insurance Administration.

44 CFR Part 67

[Docket No. FI-4088]

National Flood Insurance Program; Revision of Proposed Flood Elevation Determinations for La Plata County, Colo.

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in La Plata County, Colorado.

Due to recent engineering analysis, this proposed rule revises the proposed determinations of base (100-year) flood elevations published in 43 FR 27197 and 27198 on June 23, 1978 and in the *Durango Herald*, published on or about May 22, 1978, and May 23, 1978, and hence supersedes those previously published rules.

DATES: The period for comment will be ninety (90) days following the second publication of this notice in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the La Plata County Courthouse, 1060 Second Avenue, Durango, Colorado.

Send comments to: the Honorable R. T. Scott, P.O. Box 30220, Durango, Colorado 81301.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program, (202) 755–5585, Federal Emergency Management Agency, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: Proposed base (100-year) flood elevations are listed below for selected locations in La Plata County, Colorado, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a)).

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations are:

Source of flooding	Location	#Depth in feet above ground Elevation in feet (NGVD)
Animas River near Durango.	Along Denver and Rio Grande Western Railroad (River side of Railroad) approximate 0.2 mile north along U.S. Route 550 from Hospital in Durango.	*6,553
	Durango Corporate Limits at Station 66.28 upstream side.	*6,547
	Durango Corporate Limits at Station 62.40 downstream side.	*6,462
	La Posta Road (New Bridge) upstream side.	*6,454
	100 feet downstream of Old La Posta Road Bridge.	*6,449
Junction Creek	Private Drive Bridge No. 3 downstream side.	*6,776
	Private Drive Bridge No. 2 upstream side.	*6,767
	Private Drive Bridge No. 1 upstream side.	*6,754
Dry Gulch Creek	On Creek side of Dirt Road 0.8 mile north along Dirt Road from Y intersection in Durango (Dirt Road is parallel to Dry Gulch Creek).	*6,690
	Corporate Limits at Station 3,750 upstream side.	*6,690
Lightner Creek	Bridge No. 11 downstream side.	*7,160
	Bridge No. 10 upstream side	*6,908
	Bridge No. 9 upstream side	*6,806
	Bridge No. 8 downstream side	*6,711
	Bridge No. 4 upstream side	*6,586
	Bridge No. 3 upstream side	*6,548
Vallecito Creek	Upper County Road Bridge upstream side.	*7,835
	Upper County Road Bridge downstream side.	*7,833
	Lower County Road Bridge upstream side.	*7,690
	Lower County Road Bridge downstream side.	*7,686
	80 feet downstream of Lower County Road Bridge.	*7,686
Los Pinos River at Bayfield.	Highway 160 Bridge upstream side.	6,666
	Downstream of Bayfield Corporate Limits (approximately 1,300 feet downstream of Highway 160 (alternate) Bridge).	*6,664
Los Pinos River at Ignacio.	Bridge No. 2 upstream side	*6,480
	Bridge No. 2 downstream side	*6,477
	Bridge No. 1 upstream side	*6,441
Grimes Creek	First Private Drive downstream of Upper County Road.	*7,775
	Lower County Road Bridge upstream side.	*7,693
	Lower County Road Bridge downstream side.	*7,691

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: February 27, 1981.

Richard W. Krimm,

Acting Administrator, Federal Insurance Administration.

[FR Doc. 81–8688 Filed 3–19–81; 8:45 am]

BILLING CODE 6718–03–M

44 CFR Part 67

[Docket No. FEMA 6012]

National Flood Insurance Program; Proposed Flood Elevation Determinations; Connecticut et al.

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below and proposed changes to base flood elevations for selected locations in the nation. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: See table below.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program, (202) 426–1460 or Toll Free Line (800) 424–8872, (In Alaska and Hawaii call Toll Free Line (800) 424–9080), Federal Emergency Management Agency, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for selected locations in the nation, in accordance with section 110 and section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR Part 67.4(a) (presently appearing at its former Title 24, Chapter 10, Part 1917.4 (a)).

These elevations, together with the flood plain management measures required by § 60.3 (formerly § 1910.3) of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Proposed Base (100-Year) Flood Elevations

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD)
Connecticut	Franklin, Town, New London County	Susquetonscut River	Upstream of State Route 87	*128
			Upstream of Murphy Road	*140
			Approximately 1,680' upstream of Murphy Road	*146
			Approximately 3,175' downstream of Meeting House Hill Road.	*161
			Approximately 1,050' downstream of Meeting House Hill Road.	*161
			Downstream of Meeting House Hill Road	*206
		Yantic River	Approximately 430' downstream of Franklin Road	*117
			Approximately 140' upstream of Franklin Road	*117

Issued: February 27, 1981.

Richard W. Krimm,

Acting Administrator, Federal Insurance Administration.

[FR Doc. 81-8569 Filed 3-19-81; 8:45 am]

BILLING CODE 6718-03-M

44 CFR Part 67

[Docket No. FEMA 6008]

National Flood Insurance Program; Proposed Incorporated Annexed Area, Boundaries, Base Flood Elevations, and Zone Designations for the City of Paducah, Ky.

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed incorporated annexed area, boundaries, base flood elevations and zone designations described below.

The proposed incorporated annexed area, boundaries, base flood elevations and zone designations will be the basis for the floodplain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in the newspaper of local circulation in the above-named community.

ADDRESSES: Map and other information showing the detailing outlines of the floodprone areas and the proposed incorporated annexed area, boundaries, base flood elevations and zone designations are available for review at the Mayor's Office.

Send comments to: The Honorable John K. Penrod, Mayor, City of Paducah, P.O. Box 2267, Paducah, Kentucky 42001.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation and Engineering Office, National Flood Insurance Program, 451 Seventh Street, SW., Washington, D.C. 20410, (202) 755–6570 or toll free line, (800) 424–8872 or (800) 424–8873.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed incorporated annexed area, boundaries, base flood elevations (100-year flood) and zone designations for the City of Paducah, Kentucky, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a) (presently appearing at its former Section, 24 CFR 1917.4(a)).

The proposed incorporated annexed area, boundaries, base flood elevations and zone designations together with the floodplain management measures required by § 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State or regional entities. The proposed incorporated annexed area, boundaries, base flood elevations and zone designations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed 100-year flood elevations and zone designations for selected locations are:

Source of flooding	Location	Elevation (feet)	Zone
Perkins Creek	Between the Illinois Central Gulf Railroad and the confluence with Crooked Creek.	350 to 362 feet NGVD	A3
Crooked Creek	Between the confluence with Perkins Creek and 600 feet above the confluence with Perkins Creek.	365 to 367 feet NGVD	A3
Crooked Creek	Between 600 feet above the confluence with Perkins Creek and 4600 feet above the confluence with Perkins Creek.	367 to 379 feet NGVD	A2
Crooked Creek	Between 4600 feet above the confluence with Perkins Creek and Albert Road.	379 to 400 feet NGVD	A4

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: March 9, 1981.

Robert G. Chappell,

Acting Assistant Administrator, Federal Insurance Administration.

BILLING CODE 6718-03-M

44 CFR Part 67

[Docket No. FEMA-5947]

National Flood Insurance Program; Revision of Proposed Flood Elevation Determinations; New York

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Village of Skaneateles, Onondaga County, New York.

Due to recent engineering analysis, this proposed rule revises the proposed determinations of base (100-year) flood elevations published in the *Press Observer* on November 5, 1980, and November 12, 1980, and in the Federal

Register at 45 FR 77087 on November 21, 1980, and hence supersedes those previously published rules.

DATES: The period for comment will be ninety (90) days following the second publication of this notice in a newspaper of local circulation in each community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Village Hall, 46 Genesee Street, Skaneateles, New York.

Send comments to: Honorable Carl Fisher, Mayor of Skaneateles, Village Hall, 46 Genesee Street, Skaneateles, New York 13152.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Federal Emergency Management Agency, Federal Insurance Administration, National Flood Insurance Program, (202) 755–5585 or Toll Free Line (800) 424–8872, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: Proposed base (100-year) flood elevations are listed below for selected locations in the Village of Skaneateles, Onondaga County, New York, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a).

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations are:

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD)
New York	Skaneateles, Village, Onondaga County	Skaneateles Lake	Entire shoreline within the community	*867
		Skaneateles Creek	Upstream of downstream corporate limits	*857
			Upstream of West Elizabeth Street	*858
			Downstream of State Dam	*860

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: February 27, 1981.

Richard W. Krimm,

Acting Administrator, Federal Insurance Administration.

BILLING CODE 6718-03-M

---

44 CFR Part 67

[Docket No. FEMA-5773]

National Flood Insurance Program, Proposed Flood Elevation Determinations; Correction; North Carolina

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects a Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the Town of Hope Mills, Cumberland County, North Carolina, previously published at 45 FR 6964 on January 3, 1980.

EFFECTIVE DATE: March 20, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program, (202) 426–1460 or Toll Free Line (800) 755–5585 (in Alaska and Hawaii call Toll Free Line (800) 424–9080), Federal Emergency Management Agency, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the correction to the Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the Town of Hope Mills, Cumberland County, North Carolina, previously published at 45 FR 6964 on January 3, 1980, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a).

The last two elevations listed under the Source of Flooding of Little Rockfish Creek were incorrect. The elevation just upstream of Lake View Road should be 103' NGVD and the elevation just downstream of Lake View Road should be 95' NGVD.

The listing appears correctly as follows:

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD)
North Carolina	Town of Hope Mills, Cumberland County	Little Rockfish Creek	Just downstream of Lake View Road (Hope Mills Dam)	*95
			Just upstream of Lake View Road (Hope Mills Dam)	*103

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968) as amended; 42 U.S.C. 4001–4128; Executive Order 12127, 44 FR 19367; and delegation of authority of Federal Insurance Administrator)

Issued: February 25, 1981.

Richard W. Krimm,

Acting Administrator, Federal Insurance Administration.

[FR Doc. 81-8569 Filed 3-19-81; 8:45 am]

BILLING CODE 6718-03-M

44 CFR Part 67

[Docket No. FEMA-5724]

National Flood Insurance Program; Revision of Proposed Flood Elevation Determinations; Pennsylvania

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Borough of Columbia, Lancaster County, Pennsylvania.

Due to recent engineering analysis, this proposed rule revises to proposed determinations of base (100-year) flood elevations published the Federal Register at 44 FR 64446 on November 7, 1979, and hence supersedes those previously published rules.

DATES: The period for comment will be ninety (90) days following the second publication of this notice in a newspaper of local circulation in each community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Borough Building, 3rd and Locust Street, Columbia, Pennsylvania.

Send comments to: Honorable Paul W. Myers, President of the Columbia, Borough Council, 3rd and Locust Streets, Columbia, Pennsylvania 17512.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Federal Emergency Management Agency, Federal Insurance Administration, National Flood Insurance Program, (202) 755-5585 or Toll Free Line (800) 424-8872, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: Proposed base (100-year) flood elevations are listed below for selected locations in the Borough of Columbia, Lancaster County, Pennsylvania, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128 and 44 CFR 68.4(a).

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations are:

BILLING CODE 6718-03-M

44 CFR Part 67

[Docket No. FEMA 6019]

National Flood Insurance Program; Proposed Base Flood Elevations and Zone Designations for the Township of Lower Mount Bethel, Northampton County, Pa.

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base flood elevations and zone designations described below.

The proposed base flood elevations and zone designations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety days following the second publication of this proposed rule in the newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base flood elevations and zone designations are available for review at Centerfield School Auditorium on State Route 611, Martins Creek, Pennsylvania.

Send comments to: Mr. Tony Piebani, Chairman, Lower Mount Bethel Township Supervisors, P.O. Box 213R, Martins Creek, Pennsylvania 18063.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation and Engineering Office, National Flood Insurance Program, 451 Seventh Street SW., Washington, D.C. 20410, (202) 755–6570 or toll free line (800) 424–8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed base flood elevations and zone designations for the Township of Lower Mount Bethel, Pennsylvania, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a).

Zone designations and base (100-year) flood elevations, together with the flood plain management measures required by Section 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. The proposed base flood elevations and zone designations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base flood elevations are:

285 feet MSL to 207 feet MSL along the Delaware River from the northern corporate limits to the southern corporate limits.

275 feet MSL to 212 feet MSL along Martins Creek from a point approximately 4,600 feet upstream from the confluence of Martins Creek and Little Martins Creek to the confluence of Martins Creek and the Delaware River.

280 feet MSL to 245 feet MSL along Little Martins Creek from a point approximately 3,300 feet upstream from the confluence of Martins Creek and Little Martins Creek to the confluence of Martins Creek and Little Martins Creek.

The proposed zone designation are:

Zone A16 along the Delaware River from the northern corporate limits to a point approximately 9900 feet downstream from the northern corporate limits.

Zone A18 along the Delaware River from a point approximately 9900 feet downstream from the northern corporate limits to a point approximately 2300 feet northeast of the confluence of the Oughoughton Creek and Delaware River.

Zone A22 along the Delaware River from a point approximately 2300 feet northeast of the confluence of the Oughoughton Creek and te Delaware River to the southern corporate limits; along Oughoughton Creek between the confluence of Oughoughton Creek with the Delaware River and a point approximately 3300 feet downstream from the junction of Oughoughton Creek and L.R. 48025; along Mud Run between the Conrail tracks and the Delaware River; along Martins Creek between its confluence with the Delaware River; along Martins Creek between its confluence with the Delaware River and a point approximately 3050 feet downstream from the State Highway 611 bridge across Martins Creek.

Zone A12 along Martins Creek between two points approximately 3050 feet and 2000 feet respectively downstream from the State Highway 611 bridge across Martins Creek.

Zone A8 along Martins Creek between a point approximately 2000 feet downstream from the State Highway 611 bridge across Martins Creek and the State Highway 611 bridge itself.

Zone A9 along Martins Creek between State Highway 611 bridge across Martins Creek and a point approximately 4000 feet upstream from the confluence of Martins Creek and Little Martins Creek.

Zone A6 along Little Martins Creek between a point approximately 100 feet upstream from the fifth bridge which crosses Little Martins Creek above its confluence with Martins Creek and a point approximately 150 feet upstream from the confluence of Martins Creek and Little Martins Creek.

Zone B along the east side of Martins Creek between a line parallel to and approximately 100 feet north of State

Highway 611 and a line perpendicular to Martins Creek and approximately 2000 feet downstream from the State Highway 611 bridge across Martins Creek.

Zone C along the Delaware River from the northern corporate limits to the southern corporate limits; along Oughoughton Creek between L.R. 48025 and Delaware River; along Martins Creek between a point approximately 4000 feet upstream from the confluence of Little Martins Creek and Martins Creek, and the confluence of Martins Creek and the Delaware River; along Little Martins Creek between a point approximately 100 feet upstream from the fifth bridge which crosses Little Martins Creek above its confluence with Martins Creek, and the confluence of Little Martins Creek and Martins Creek; and along Mud Run between L.R. 48025 and the confluence of Mud Run and the Delaware River.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: March 6, 1981.

44 CFR Part 67

[Docket No. FI-5842]

National Flood Insurance Program; Proposed Flood Elevation Determinations; Correction; Virginia

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects a Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in Pittsylvania County, Virginia, previously published at 45 FR 29319 on May 2, 1980.

EFFECTIVE DATE: March 20, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Federal Emergency Management Agency, Federal Insurance Administration, National Flood Insurance Program, (202) 755–5585, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the correction to the Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in Pittsylvania County, Virginia, previously published at 45 FR 29319 on May 2, 1980, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a).

In order for the following locations to be correctly identified with the corresponding Flood Insurance Study (profile) and Flood Insurance Rate Map for Sandy Creek Tributary No. 1 and Pole Bridge Branch in Pittsylvania County, Virginia, the descriptions should be amended to read as follows. The elevations were correct as cited.

Source of flooding	Location	*Elevation in feet (NGVD)
Pole Bridge Branch.	Confluence with Cherrystone Reservoir.	*680
	State Route 640 (Upstream)	*720
	Approximately 2,500' upstream of State Route 799.	*780
Sandy Creek Tributary No. 1.	Confluence with Sandy Creek	*823
	Approximately 4,000' upstream of State Route 666.	*853

44 CFR Part 67

[Docket No. FEMA-6011]

National Flood Insurance Program; Proposed Zone and Base Flood Elevation Determinations for the City of Seaside, Clatsop County, Oreg.

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed zones and base flood elevations as described below.

The proposed zones and base flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in the newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed zones and base flood elevations are available for review at the Office of the City Auditor, 851 Broadway Street, Seaside, Oregon.

Send comments to: Mr. Burton M. Lowe, City Manager, 851 Broadway Street, Seaside, Oregon 97138.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation & Engineering Office, National Flood Insurance Program, 451 Seventh Street, SW., Washington, DC 20410, (202) 755–6570 or toll free line (800) 424–8872 (in Alaska and Hawaii call toll free (800) 424–9080).

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed zones and base flood elevations for the City of Seaside, Oregon, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90–448), 42 U.S.C. 4001–4128, and 44 CFR Part 67.

These zones and base flood elevations, together with the flood plain management measures required by § 60.3 of the program regulations, are the minimum that are required. It should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. The proposed zones and base flood elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations in the recently annexed areas are:

Source of flooding	Location	Elevation (NGVD)
Neawanna Creek	Area east of Oregon Coast Highway and north of Alder-crest Street.	12
	Area between Avenues S and a point approximately 100 feet south of Avenue R.	13
Necanicum River	Northern portion of the City	11

Source of flooding	Location	Elevation (NGVD)
	Area approximately 600 feet north of 30th Avenue.	14

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: March 6, 1981.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 81-154; RM-3882]

FM Broadcast Station, Ansley, Alabama; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes the assignment of FM Channel 281A to Ansley, Alabama, in response to a petition filed by Reid Spann. The proposed channel would provide a first local aural service to Ansley.

DATES: Comments must be filed on or before May 4, 1981, and reply comments on or before May 25, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632–7792.

SUPPLEMENTARY INFORMATION: In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Ansley, Alabama); Notice of Proposed Rule Making.

Adopted: March 6, 1981.

Released: March 16, 1981.

By the Chief, Policy and Rules Division.

1. The Commission herein considers a petition for rule making [1] filed by Reid Spann ("petitioner"), which seeks the assignment of Channel 281A to Ansley, Alabama, as that community's first FM assignment. Petitioner failed to state that he would apply for the channel, if assigned. He is requested to make a commitment to that effect.

2. The transmitter site must be located at least 1.6 kilometers (1 mile) northwest of the community. Petitioner proposes a site approximately 7 kilometers (4.4 miles) northwest.

3. Ansley (not listed in the 1970 Census), is located approxiately 56 kilometers (35 miles) south of Montgomery, Alabama. It has no local aural broadcast service.

4. Petitioner asserts that the population of the Ansley area is approximately 600, of which 30% is Black. Their social activities are centered around the cities of Troy and Montgomery. Petitioner further states that Ansley is in need of a station that will relate to the needs of the community, although it is dependent on the aid of larger cities. Petitioner should submit a recent population estimate for the community of Ansley, and furnish economic and demographic information which demonstrate the need for an FM assignment.

5. In view of the fact that the proposed FM channel could provide a first local aural service to Ansley, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules, with regard to Ansley, Alabama, as follows:

City	Channel No.	
	Present	Proposed
Ansley, Alabama		281A

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before May 4, 1981, and reply comments on or before May 25, 1981.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, Section 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632–7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, IT IS PROPOSED TO AMEND the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations,

[1] Public Notice of the petition was given on July 7, 1980, Report No. 1228.

interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of §1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

[FR Doc. 81-8527 Filed 3-19-81; 8:45 am]

BILLING CODE 6712-01-M

47 CFR Part 73

[BC Docket No. 81-153; RM-3729]

FM Broadcast Stations in Fort Bragg and Mendocino, California; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes the assignment of FM Channel 249A to Fort Bragg, California, as that community's second FM assignment in response to a petition filed by Ft. Bragg Broadcasting Co. In addition, we are proposing the reassignment of Channel 224A from Fort Bragg to Mendocino, California, to reflect its actual use there.

DATE: Comments must be filed on or before May 4, 1981, and reply comments on or before May 25, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION: In the Matter of Amendment of § 73.202(b), table of assignments, FM broadcast stations. (Fort Bragg and Mendocino, California; Notice of Proposed Rule Making.

Adopted: March 6, 1981.

Released: March 18, 1981.

By the Chief, Policy and Rules Division.

1. The Commission herein considers a petition for rule making,[1] filed by Fort Bragg Broadcasting Company ("petitioner"), proposing the assignment of FM Channel 249A to Fort Bragg, California, as that community's second FM assignment. Although Fort Bragg presently has Channel 224A assigned, that channel is being used at Mendocino, California, and we have proposed to reassign the channel to reflect its actual use in that community under Section 73.203(b) of the Commission's Rules. Petitioner failed to state that it would apply for the channel, if assigned. It is requested to make a commitment to that effect in its comments. No oppositions to the proposal were received.

2. Fort Bragg (pop. 4,455),[2] in Mendocino County (pop. 51,101) is located approximately 216 kilometers (135 miles) northwest of San Francisco. It is served locally by fulltime AM Station KDAC. FM Channel 237A is presently unoccupied with two applications pending.

3. Petitioner states that the economy is supported by fishing, lumbering and tourism. Sufficient information was submitted to demonstrate the need for a second FM assignment to Fort Bragg.

4. The proposed assignment of Channel 249A to Fort Bragg would cause preclusion on Channel 248A within 65 miles, Channel 247 within 65 miles, Channel 248 within 105 miles, Channel 249A within 65 miles, and Channel 250 within 65 miles. Petitioner claims that no communities would be precluded as a result of the proposed assignment.

5. In view of the apparent need for a second FM channel for Fort Bragg, the Commission believes it would be in the public interest to propose assignment of Channel 249A to that community. We also propose to reassign Channel 224A from Fort Bragg to Mendocino, California, to reflect its current usage. Comments are invited on the proposal to amend the FM Table of Assignments, Section 73.202(b) of the Commission's Rules, with regard to the following communities:

City	Channel No.	
	Present	Proposed
Fort Bragg, California	224A, 237A	237A, 249A
Mendocino, California		224A

6. The Commission's authority to institute rule making proceedings,

showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before May 4, 1981, and reply comments on or before May 25, 1981.

8. The Commission has detemined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, Section 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend Sections 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 Federal Register 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303).

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, IT IS PROPOSED TO AMEND the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a

[1] Public Notice of the petition was given on August 13, 1980, Report No. 1244.

[2] Population figures are taken from the 1970 U.S. Census.

station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

47 CFR Part 73

[BC Docket No. 81-155; RM-3608, RM-3728]

FM Broadcast Station in Bend, Oregon; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes the assignment of Class C FM Channels 248 and 289 to Bend, Oregon, in response to separate petitions filed by Terry A. Cowan and KBND, Inc. The proposals would provide a third and forth FM station to Bend.

DATES: Comments must be filed on or before May 4, 1981, and reply comments on or before May 25, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Kathy A. Grant, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION: In the matter of amendment of § 73.202(b), table of assignments, FM broadcast stations (Bend, Oregon); Notice of Proposed Rule Making.

Adopted: March 6, 1981.

Released: March 17, 1981.

By the Chief, Policy and Rules Division.

1. The Commission has under consideration two petitions to assign two additional Class C channels to Bend, Oregon, as that community's third and fourth FM assignments. The first, filed by Terry A. Cowan ("Cowan"), requests assignment of channel 248 to Bend, Oregon.[1] the second, filed by KBND, Inc. ("KBND"), licensee of Station KBND(AM), Bend, Oregon, requests assignment of Channel 289 to the same community.[2] Capps Broadcasting Group, Inc. ("Capps"), licensee of Stations KGRL(AM) and KXIQ(FM), Bend, Oregon, filed comments in opposition to both assignments.

2. Bend (pop. 13,710),[3] the seat of Deschutes County (pop. 30,442), is located approximately 197 kilometers (123 miles) southeast of Portland, Oregon. Bend is currently served locally by FM Station KXIQ (Channel 231), FM Station KICE (Channel 264), fulltime AM Station KBND, and daytime-only AM Station KGRL.

3. Petitioner Cowan states that Bend, the largest city in the central Oregon area, is a rapidly growing community. According to Cowan, Bend's population in 1980 was 17,912, a figure representing a thirty percent increase since 1970 and a sixty percent increase since 1960. As the hub of the county, Bend is the regional retail sales center and the location of numerous state and federal offices. Major industries are lumbering, mining, light manufacturing and tourism. Petitioner KBND also emphasized the area's rapid growth. According to KBND, projected population growth for Deschutes County is 40.4% between 1980 and 1990, and 23.5% between 1990 and the year 2000. Although neither petitioner submitted projected population figure for Bend itself, both pointed out that, as the county seat, Bend will undoubtedly participate in the overall growth of the county. Both petitioners argue that although the population of Bend does not meet the criteria for assignment of three FM channels, the community's rapid and steady growth justify a waiver of the Commission's population guidelines.

4. In comments, Capps requested that the petitions considered herein be consolidated with two other petitions to assign Class C channels to two other communities in the area, Redmond and Madras.[4] Capps argues that the proposals are so closely related geographically and economically that consideration of the proposals individually may have an adverse impact on the total service offered by existing stations in the area if most or all are adopted. Because the Commission does not allocate FM channels according to a state-wide or regional plan and each community's needs are typically considered separately, we are not convinced that these four proposals should be treated together as if they were in some way mutually exclusive. The fact that each proposal involves wide area coverage assignments does not in itself require consolidation.

5. In its comments, Capps raised the argument that Bend, already sufficiently served by local and nearby stations in the area, cannot support the addition of two Class C channels. Normally such economic considerations are deferred to the application stage. *FCC* v. *Sanders Brothers Radio Station*, 309 U.S. 470, 60 S. Ct. 693 (1940); *Carroll Broadcasting Co.* v. *FCC*, 258 F. 2d 440 (D.C. Cir. 1958); *Melbourne and Satellite Beach, Florida*, 47 FCC 2d 717, 721 (1974). However, as Capps pointed out, the Commission in 1975 found the addition of a third FM channel to Bend to be unwarranted.[5] At that time, the Commission did not find in Bend's increasing economic and population growth, sufficient circumstances to warrant deviation from the population guidelines and noted particularly the adverse economic impact the assignment would have had

---

[1] Public Notice of the petition was given on May 29, 1980, Report No. 1229.

[2] Public Notice of the petition was given on July 21, 1980, Report No. 1240.

[3] Population figures are taken from the 1970 U.S. Census.

[4] One petition requests assignment of Channel 275 to Redmond, Oregon, and was filed by Oregon Broadcasting Company on July 25, 1980 (RM-3725). The second petition requests assignment of Channel 243 to Madras, Oregon, and was filed by Peregrine Broadcasting Co. (BC Docket No. 80-491; RM-3611).

[5] *See Bend, Oregon*, Docket 20481, 35 R.R. 2d 836 (1975); *recons. den.*, 37 R.R. 2d 333 (1976).

on independent Station KICE–FM.[6] In addition, the Commission noted the fact that the population of Bend was not predicted to reach even 50,000 by 1985.[7] In light of the previous action on a proposal almost identical to that considered herein, petitioners are requested to show in their comments how circumstances in Bend have changed to warrant assignment of a third and fourth FM channel at the present time. Although we denied a similar proposal only 5 years ago, our approach to cases involving requests to exceed our population criteria has become less restricted as exemplified by the recent case of *Waycross, Georgia*, 45 FR 25806, published April 16, 1980, 47 R.R. 2d 319, which holds that equitable and efficient distribution of available frequencies depends for the most part on the preclusive impact of a specific proposal. Otherwise, to "artificially restrain" the provision of additional broadcast service may not serve the public interest. We have been provided a list of precluded communities and alternative channel assignments by KBND, Inc. which would justify our proposing a third assignment to Bend. However, the need for and the impact of a fourth assignment to Bend has not been sufficiently shown. Thus, we issue this proposal to provide the opportunity for submissions of an adequate showing.

6. *Preclusion.* (a) According to petitioner KBND, assignment of Channel 289 to Bend will preclude the use of several channels in nine communities, as follows:

Community	Population	Channels precluded
Madras	1,899	288A, 292A
Oakridge	3,422	288A
Prineville	4,191	288A, 292A
Redmond	3,721	288A, 292A
Ashland	12,342	288C
Burns	3,283	288C, 288C
John Day	1,598	288C, 288C
Klamath Falls	15,775	288C
Lakeview	2,765	288C

KBND states that in each case the community has either an FM assignment already or an alternate channel available to it for assignment.

(b) Petitioner Cowan states that assignment of Channel 248 to Bend will have "no unacceptable preclusion on adjacent channels." Precluded communities with populations over 1,000 and possible alternative channels were not listed. Cowan is requested to provide such information in his comments. *See Policy Statement to Govern Requests for Additional FM Assignments*, 8 F.C.C. 2d 79 (1967).

7. Accordingly, it is proposed to amend the FM Table of Assignments § 73.202(b) of the Commission's Rules) with respect to Bend, Oregon, as follows:

City	Channel No.	
	Present	Proposed
Bend, Oregon	231, 284	231, 248, 284, 289

8. The commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

9. Interested parties may file comments on or before May 4, 1981, and reply comments on or before May 25, 1981.

10. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, Published February 9, 1981.

11. For further information concerning this proceeding, contact Kathy A. Grant, Broadcast Bureau, [202] 632–7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, IT IS PROPOSED TO AMEND the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See Section 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed

[6] *Id.* at 837.
[7] *Id.*

comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's Rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

47 CFR Part 90

[PR Docket 80-440]

Land Mobile Radio Stations To Provide for Additional Technologies Which Can Improve the Efficiency of Radio Spectrum Use; Order Extending Time for Filing Comments and Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Notice of inquiry; extension of comment and reply comment period.

SUMMARY: This Order extends the time for filing comments to the Notice of Inquiry in Docket PR 80-440 which solicited information and comments concerning the application of spectrum efficient technologies to land mobile radio systems. This action is taken to provide additional time for the submission of experimental test data so that it may be examined in the public record.

DATES: Comments are now due by May 26, 1981 and replies by July 10, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Larry Reed or Roger Madden, Policy Development Division, Private Radio Bureau, 632-7597 or 632-6497.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of the Commission's rules governing land mobile radio stations to provide for additional technologies which can improve the efficiency of radio spectrum use. Order extending time for filing comments (See also 45 FR 63305, September 24, 1980).

Adopted: March 5, 1981.
Released: March 6, 1981.

By the Chief, Private Radio Bureau.

1. The Land Mobile Communications Section of the Communications Division of Electronics Industries Association has filed a request for an extension of the deadline for filing comments on the Notice of Inquiry in the above-entitled matter. The Communications Section requested an extension of 90 days in order that it may submit data resulting from tests and experiments that likely will be pertinent to this Inquiry. It has indicated that such tests are expected to be analyzed after 60 days, and 30 more days are needed for preparing the analysis for submission to the Commission.

2. Inasmuch as we would like to provide additional opportunity for the inclusion of experimental data for the record, I am, therefore, extending the comment and reply comment periods by 75 and 45 days respectively. It appears that good cause has been shown and that the public interest would be served by granting an additional period in order to afford the petitioner and other interested parties a full opportunity for their preparation and presentations in this proceeding.

3. Accordingly, *it is ordered,* pursuant to Section 0.331 and 1.46 of the Commission's Rules, that the time for filing comments in the above-captioned proceeding is *extended* from March 9, 1981, to May 26, 1981, and for filing reply comments from May 11, 1981, to July 10, 1981.

Federal Communications Commission.
Carlos V. Roberts,
Chief, Private Radio Bureau.

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1052

[Ex Parte No. MC 42 (Sub-1)]

Handling of C.O.D. Shipments

AGENCY: Interstate Commerce Commission.

ACTION: Withdrawal of Proposed Rules and Termination of Proceeding.

SUMMARY: The Commission has decided not to adopt the proposed rules (43 FR 32314, July 26, 1978) which proposed to include a number of additional requirements for carriers providing cash-on-delivery (c.o.d.) service and to discontinue the proceeding. We believe that overly detailed industry-wide rules governing c.o.d. shipments are not in the public interest. Elimination of the proposal should encourage shipper-carrier arrangements which are satisfactory to both groups.

DATE: This decision will be effective March 20, 1981.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder or Jane F. Mackall, (202) 275-7656.

SUPPLEMENTARY INFORMATION: In this proceeding, we proposed to amend 49 CFR 1052.3 to include a number of additional requirements for carriers providing cash-on-delivery (c.o.d.) service.[1] We proposed to limit the form of payment, to limit the amount of cash that could be accepted, and to require that checks and money orders be payable only to the consignee or designated payee. We also sought comment on other related issues, such as the need for separate accounts or escrow accounts for c.o.d. funds held by carriers and the need for a bonding requirement. Generally, the proposals stemmed from a concern that there were insufficient safeguards to ensure payment of the funds to the consignor, especially in the case of carrier insolvency, bankruptcy, or misappropriation.

The limited number of comments filed in response to our proposals were mixed. Carriers, for the most part, objected to all but one of the proposals. A number of carriers favored a limit on the amount of cash a carrier should be expected to collect. Shippers generally sought greater regulation in this area to prevent improper handling of c.o.d. funds and to ensure that, in the case of carrier bankruptcy, shippers would be in a more favorable position than that of typical unsecured creditors.

For the reasons discussed below, we have decided not to implement any of these proposals. We are also proposing, in a related proceeding (Ex Parte MC 42, *Handling of C.O.D. Shipments*) instituted this date, to repeal the present 10-day remittance rule.

The requirements that were proposed closely parallel Item 430 of the National Motor Freight Classification Tariff 100-G, and reflect current carrier practice. However, as noted above, the carriers are strongly opposed to making these proposals absolute rules for the industry. A number of carriers have published exceptions to Item 430 because it fails to meet their needs. (See, for example, statements of Jones Transfer Company, Bayview Trucking, Inc., and United Parcel Service.)

[1] 1052.3 now requires that c.o.d. remittances be made within 10 days of delivery.

We agree with the National Industrial Traffic League's observation that "the balancing of benefits and burdens is important in this proceeding." It is our belief that, at the present time, the additional burdens that would be imposed by required application of certain of the proposed rules ((a)(v), (b), and the bonding and fund segregation suggestions) outweigh their benefits as industry requirements. The other proposals do not, in our view, warrant mandatory rules.

In their performance of c.o.d. service, carriers should be free to establish reasonable and nondiscriminatory rules that meet their needs and the needs of their shippers. This is not to say that the concerns raised by shippers here are not important. We recognize the legitimate interest of consignors if bankrupt carriers have commingled c.o.d. funds, and we believe that a provision such as our proposed rule (b) is a reasonable one. Similarly, segregation of funds is also a reasonable approach and certain carriers already do so. However, these observations need not result in ironclad rules for the industry. We must prefer to give carriers the opportunity to offer whatever services are necessary. We see no significant added costs in providing many of these services, e.g., accepting cash greater than $250. Accepting personal checks, on the other hand, may involve added risk, although UPS does it successfully. We also believe that a requirement that checks be made payable to the consignor is a reasonable request on the part of shippers. One carrier commenter pointed out that it accommodates these requests from one of its shippers.

We expect that reasonable requests for services such as these will be met in the marketplace. If carriers are able to price c.o.d. service at a level that recovers cost and produces a reasonable profit, we expect that a real choice of carriers will be available. Thus, as this traffic should be desireable, competition should produce adequate service responsive to shipper needs. Shippers dissatisfied with particular c.o.d. service or fearful of imminent bankruptcy may use another carrier or support the need for service by new carriers. In addition, the complaint remedy under 49 U.S.C. 11701 remains available, if reasonable c.o.d. service demands are not met in the marketplace. We also note that order-notify service is another alternative. This service eliminates the carriers handling of the funds.

We believe this analysis is consistent with the national transportation policy (49 U.S.C. 10101), as amended by Pub. L. 96-296. New section 7 of that policy states:

> With respect to transportation of property by motor carrier, to promote competitive and efficient transportation services in order to (A) meet the needs of shippers, receivers, and consumers; (B) allow a variety of quality and price options to meet changing market demands and the diverse requirements of the shipping public; * * *

Under our analysis, carriers will be able to respond quickly and effectively to market demands and adopt rules that meet specific needs of their shippers.

We reaffirm the conclusion that c.o.d. service is an integral part of the nation's transportation system and although in exercising our regulatory responsibilities we see no need to prescribe additional regulation, we remain willing to investigate claims or unreasonable practice or discrimination. See *C.O.D. and Freight-Collect Shipments*, 356 I.C.C. 37, 41–43 (1977).

This decision does not significantly affect either the quality of the human environment or conservation of energy resources nor does it have an adverse impact on small business.

(49 U.S.C. 10101, 10321, 10701, 10762, 11101, 5 U.S.C. 553)

Decided: March 12, 1981.

By the Commission, Chairman Gaskins, Vice Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-8576 Filed 3-19-81; 8:45 am]

BILLING CODE 7035-01-M

---

49 CFR Part 1052

[Ex Parte MC 42 [1]]

Handling of C.O.D. Shipments

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Commission proposes to revise its existing regulations to authorize individual carriers to establish their own nondiscriminatory c.o.d. collection and remittance rules and to eliminate the requirements in existing recordkeeping. By this action, the Commission intends to promote efficient operation through individually tailored rules, and to promote competition which should produce better c.o.d. service.

DATE: Comments of interested persons will be due May 4, 1981.

ADDRESS: An original and 15 copies of comments should be sent to: Room 5356, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder or Jane F. Mackall, (202) 275-7656.

SUPPLEMENTARY INFORMATION: *Remittance Period.* The present regulations for the handling of cash-on-delivery (c.o.d) funds (49 CFR 1052) were promulgated in 1949. *Handling of C.O.D. Shipments*, 51 M.C.C. 5 (1949). Among other things, these rules require that c.o.d. monies collected by carriers will be remitted directly to the consignor or other payee designated by the consignor within 10 days following delivery and, at the same time, the delivering carrier will notify the originating carrier, if an interline movement, of the remittance (49 CFR 1052.3).

We propose to remove this rule and to substitute a rule authorizing each carrier offering c.o.d. service to publish its own non-discriminatory c.o.d. provisions in its tariff.

The rule requiring remittance of c.o.d. funds within 10 days after delivery has been in effect since 1949. In recent years, fewer carriers have been eager to undertake c.o.d. service and it is not as available as it once was. It may be that the 10 day remittance requirement, among other things, discourages carriers from providing the service. Recently, the Commission was informed by Mistletoe Express Service that it was unable to streamline its operation to meet the 10 day deadline.[2]

Under our proposal, a carrier in this situation will be able to publish a remittance period which is practical for its operation. On the other hand, other carriers could remit c.o.d. funds faster and specify a shorter remittance period. We believe that this freedom to publish individual c.o.d. rules will create an opportunity for additional carriers to offer c.o.d. service to the public. In an era of inflation and high interest rates, a carrier which remits c.o.d. funds promptly offers very desirable service.

We also believe that out proposal is consistent with the trend in motor carrier regulation evidenced by the Motor Carrier Act of 1980, Pub. L. 96-296. That Act amended the national transportation policy, 49 U.S.C. 10101(a), to include:

> with respect to transportation of property by motor carrier, to promote competitive and efficient transportation services in order to (A) meet the needs of shippers, receivers, and

[1] The petition filed January 17, 1980, by Mistletoe Express Service for an exemption is consolidated for disposition here.

[2] As a result of this proposal, we will not consider Mistletoe's request further. In any case, the rules provide for no exceptions and a rule change would have been necessary to grant the request.

consumers; (B) allow a variety of quality and price options to meet changing market demands and the diverse requirements of the shipping public; * * *

Individual c.o.d. handling rules should enable each carrier to operate more efficiently. Each carrier may tailor its c.o.d. rules to coordinate best with its own operations.

We recognize that the length of time carriers retain c.o.d. funds is of extreme importance to shippers and that freedom to extend the remittance time could be used to discourage c.o.d. transportation. In accordance with our findings in *C.O.D. and Freight Collect Shipments*, 356 I.C.C. 37 (1978), and our conviction that c.o.d. service is a necessary part of motor transportation services, we are willing to investigate claims by shippers that reasonable c.o.d. service or alternative service (perhaps order-notify) is not available. We are, nonetheless, confident that increased entry and service competition will ensure adequate levels of c.o.d. service. Whatever provisions determined by a carrier (we hope in consultation with its c.o.d. shippers) to be necessary must be applied on a non-discriminatory basis. The size of a shipper or the amount of c.o.d. funds involved are not proper grounds for establishing different remittance periods or different procedures (e.g., amounts of cash accepted, acceptance of checks payable to the consignor).

We also believe that the second part of § 1052.3, requiring notification of remittance to the originating carrier in a joint movement at the time the remittance is made, should be removed. Matters such as these involving day-to-day carrier relations are more appropriately resolved by the carriers themselves. To the extent connecting carriers need this, or other similar information, we are confident that they will develop procedures that meet their needs.

Carriers offering c.o.d. service will be required to publish their c.o.d. handling rules in their tariffs. As discussed above, the rules must apply to all the carrier's c.o.d. shipments and would be subject to protest upon filing. The rules may include as many optional services as may be desirable or needed by particular shippers (e.g. clear shipper notation requirement, acceptance of cash versus checks, maximum cash accepted), and, if appropriate, contain reasonable charges for the various services. The restrictions imposed on rate bureau activities in Ex Parte 297 (Sub-5), *Motor Carrier Rate Bureaus-Implementation of Pub. L. 96-296*, 364 I.C.C. 464, served December 30, 1980, will be applicable, as pertinent, to collective establishment of c.o.d. rules.

We are also proposing to repeal 49 CFR 1052.4, which requires that a separate record of all c.o.d. shipments be kept and that it contain certain information. Considering the need for business to maintain complete records in the case of customer inquiry or problem, we question the necessity of a rule to accomplish the same thing. Unless the carriers believe it useful, we see no need for a separate listing for c.o.d. shipments.

It is proposed that § 1052.3 of Part 1052, Subchapter A, Chapter X of Title 49 of the Code of Federal Regulations be revised to read as follows:

§ 1052.3 Collection and remittance.

Every common carrier of property subject to the Interstate Commerce Act, except as otherwise provided in § 1052.1, which provides any c.o.d. service must publish and maintain a tariff or tariffs which set forth non-discriminatory rules governing the collection and remittance of c.o.d. funds.

§ 1052.4 [Removed]

It is also proposed that § 1052.4 be removed.

The proposed rules do not appear to affect significantly the quality of the human environment, the conservation of resources or small business. However, comments on this issue are welcome.

This notice of proposed rulemaking is issued under authority contained in 49 U.S.C. 10101, 10321, 10762, 11101, and 5 U.S.C. 553.

Decided: March 9, 1981.

By the Commission, Chairman Gaskins, Vice Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam. Commissioner Gresham concurring.

Agatha L. Mergenovich,

Secretary.

Federal Register
Vol. 46, No. 54
Friday, March 20, 1981

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

ADVISORY COMMITTEE ON FEDERAL PAY

Continuation of Committee; Public Inquiry

This is to request any expressions from the public as to the desirability of continuation of the Advisory Committee on Federal Pay.

The Advisory Committee on Federal Pay was established by the Federal Pay Comparability Act of 1970. It consists of three experts on pay and labor relations who are Federal employees only for the time that they serve on this Committee. The Committee serves as an independent third party in advising the President on salary adjustments for Federal white-collar employees. In making its recommendations on pay increases for these Federal employees, the Committee considers pay in the private sector, the views of Federal employee organizations, government officials and pay experts.

Any comments should be sent in writing to the Advisory Committee on Federal Pay, Suite 205, 1730 K Street, NW., Washington, D.C. 20006, by April 10. Any such communications will be incorporated in the report that the Advisory Committee makes to the Administrator of GSA.

Jerome M. Rosow,
Chairman.

DEPARTMENT OF AGRICULTURE

Forest Service

North Fork Cascade River Wild and Scenic River Evaluation, Mount Baker-Snoqualmie National Forest, Skagit County, Wash.; Decision Notice and Finding of No Significant Impact

The Wild and Scenic Rivers Act (Pub. L. 90-542), as amended by the National Parks and Recreation Act of 1978 (Pub. L. 95-625), directed that a segment of the North Fork Cascade River from its confluence with the South Fork to the boundary of the North Cascades National Park be investigated to find if it qualifies for the National Wild and Scenic Rivers System.

The river segment is located within the Mount Baker-Snoqualmie National Forest and is approximately one mile long. About 280 acres of National Forest System lands are encompassed by the study area. The act further provides that, if the segment is found to be qualified and suitable for the National Wild and Scenic Rivers System, notice of the finding shall be published in the Federal Register and the segment will become a component of the National System.

A Forest Service interdisciplinary study team developed three alternatives for possible management of the river area. Public involvement and interagency coordination were important parts of this phase of the study process. This involvement led to the elimination of one alternative; namely, partial designation of the segment. Therefore, the alternatives given consideration were: a no action alternative that would maintain current management, and an alternative to designate the entire one mile segment as a component of the National Wild and Scenic Rivers System. Subsequently, the study team prepared a report which contains the elements of an environmental assessment and documents the analysis and evaluation of the alternatives. The report is available for public review in the Forest Service office in Seattle, Washington, and in the Office of the Chief, Forest Service, Washington, D.C.

Based on the analysis and evaluation described in the environmental assessment, it is my decision to implement the alternative for designating the North Fork of the Cascade River from its confluence with the South Fork to the boundary of the North Cascades National Park as a component of the National Wild and Scenic Rivers System. This segment meets the criteria for designation, as established by the Wild and Scenic Rivers Act and the Department of Agriculture—Department of the Interior Guidelines for Evaluating Wild and Scenic Rivers. Designation will ensure future protection of the water quality and scenic values and will protect or enhance cultural resources. Final management plans for this segment will be developed in the Skagit Wild and Scenic River Management Plan.

I have determined through the environmental analysis that this is not a major Federal action that would significantly affect the quality of the human environment; therefore, an environmental impact statement is not needed. This determination was made considering the following factors: (a) designation will protect and/or enhance cultural resources; (b) there are no irreversible or irretrievable commitments of resources; (c) there are no adverse effects on the physical or biological environment, and effects on the social and economic environment are minimal or insignificant; (d) wetlands along the North Fork will not be affected; and (e) there are no known threatened or endangered plants or animals.

Project implementation will take place on the date this decision is published in the Federal Register, pursuant to Pub. L. 95-625.

John R. Block,
Secretary.

BILLING CODE 6320-01-M

[Order 81-3-79; Docket 39166]

Air Transport Association; Order Granting Exemption

Issued Under Delegated Authority March 13, 1981.

By application filed February 27, 1981, the Air Transport Association (ATA) on behalf of the U.S. certificated scheduled air carriers requests that the exemption granted by Board orders,[1] be amended to the extent necessary to permit them to provide free unlimited transportation over their domestic routes to the former hostages and selected family members during the period of April 14–18, 1981. The current exemptions are marked to expire with March 10, 1981.

In support of its application, ATC states that the purpose of the trapsportation is for these individuals to travel to and from their homes to a conference site in connection with a meeting to be called by the Department of state.

We find that the reasons given by the carriers supporting this request are consistent with the criteria we have previously found necessary to approve this type of exemption, and the exemption is consistent with the public interest, and therefore we will approve the exemption. We will also extend this exemption to all other U.S. air carriers.

Accordingly, acting under authority delegated by the Board in the Board's Regulations, 14 CFR 3854.16,

1. We exempt all U.S. air carriers from the provisions of Section 403 of the Federal Aviation Act of 1958, and Parts 221 and 223 of the Board's Economic Regulations, insofar as the enforcement of Section 403 and Parts 221 and 223 would prevent them from providing the free transportation as described herein.

2. We will serve a copy of this order on all U.S. air carriers.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective immediately and the filing of a petition for review shall not preclude its effectiveness.

This order will be published in the Federal Register.

Julien R. Schoenk,

Chief, Donestic Fares and Rates Division, Bureau of Domestic Aviation.

Phyllis T. Kaylor,

Secretary.

Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits Filed Under Subpart Q of the Board's Procedural Regulations; Week Ended March 13, 1981

Subpart Q Applications

The due date for answers, conforming application, or motions to modify scope are set forth below for each application. Following the answering period the Board may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

Date filed	Docket No.	Description
Mar. 10, 1981	39403	Quebec Aviation Limited, Hangar No. 2, Aeroport de Quebec, Ste-Foy Province de Quebec, Canada G2E-3M3. Application of Quebec Aviation Limited pursuant to Section 402 of the Act and Subpart Q of the Board's Procedural Regulations, requests a permit authorizing scheduled foreign air transportation of persons, mail and property between Quebec City and Boston, between Sherbrooke and Boston and between Quebec City and Portland.
Do		Answers may be filed by April 7, 1981.
Mar. 13, 1981	39414	Western Air Lines, Inc., 6060 Avion Drive, Los Angeles, California 90045. Application of Western Air Lines, Inc. pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations, requests amendment of its certificate of public convenience and necessity for Route 152 so as to authorize service between a point or points in the United States and Paris, Marseilles, and Nice, France.
Do		Conforming Applications, motions to modify scope, and Answers may be filed by April 9, 1981.
Mar. 12, 1981	39417	Air Florida, Inc., 3900 N.W. 79th Avenue, Miami, Florida 33166. Application of Air Florida, Inc. pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations, requests an amendment of its certificate of public convenience and necessity for Route 197-F authorizing it to engage in air transportation with respect to persons, property and mail as follows: Between the terminal point Miamsi, Florida, and ther terminal point, Prestwick, Scotland.
Do		Air Florida further requests that the Board condition this authority as follows: The holder may serve Prestwick, Scotland on flights serving foreign points listed on other segments of this certificate or other certificates or exemption orders authorizing the holder to engage in foreign air transportation and may carry local traffic between such points; *provided* that such service may be conducted only in accordance with all treaties and agreements between the United States and other countries.
Do		Conforming Applications, motions to modify scope, and Answers may be filed by April 9, 1981.
Mar. 13, 1981	39427	Lone Star Airways, Inc., P.O. Box 2075, Dallas, Texas 75221. Application of Lone Star Airways, Inc. pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations, requests authority to engage in scheduled air transportation of passengers, property and mail to the following additional markets: Omaha, Nebraska; Tulsa, Oklahoma; and Oklahoma City, Oklahoma.
Do		Conforming Applications, motions to modify scope, and Answers may be filed by April 10, 1981.

BILLING CODE 6320-01-M

[Order 81-3-55; Docket 39114]

Trans World Airlines Additional Points, Akron/Canton-Youngstown Proceeding; Order To Show Cause

Issued under delegated authority; March 11, 1981.

On December 31, 1980, Trans World Airlines (Trans World) filed an application in Docket 39114 for amendment of its certificate of public convenience and necessity for Route 2 so as to authorize it to engage in unrestricted operations between the terminal point Akron/Canton, Ohio, eighty-two intermediate points, and the terminal point Youngstown, Ohio.[1] Trans World submitted requisite schedules and other data for its proposed operations, and requested that its application be processed under Subpart Q in a show-cause proceeding.

A statement of position was received on February 2, 1981,[2] from the Lubbock Civic Parties,[3] supporting approval of the proposed application of Trans World.

Eleven points involved in Trans World's application already appear on the carrier's certificate, namely:

Albuquerque, New Mexico
Boston, Massachusetts
Chicago, Illinois
Denver, Colorado
Honolulu, Hawaii
Houston, Texas
Los Angeles, California
Miami, Florida
Pittsburgh, Pennsylvania
St. Louis, Missouri
Seattle-Tacoma, Washington

We therefore will dismiss Trans World's application as it pertains to these points.

We have decided to issue an order to show cause why Trans World's application for new unrestricted authority at the points listed in Appendix B should not be granted. We tentatively conclude, on the basis of the tentative findings below, that it is consistent with the public convenience and necessity to award unrestricted authority to Trans World [4] at the points in Appendix B. Further, we tentatively conclude that no oral evidentiary hearing is needed here since there are no material determinative issues of fact requiring such a hearing for their resolution.

Upon review of all the facts and pleadings in this case, we have tentatively determined that there is no reason why we should not grant unrestricted authority at the 73 points [5] requested by Trans World.[6] Our tentative conclusions comport with the letter and spirit of the Airline Deregulation Act of 1978, particularly the declaration of policy set forth in Section 102 which instructs us to rely, to the maximum extent possible, on competitive forces, including potential competition.[7] See our general conclusions about the benefits of multiple authority in *Improved Authority to Wichita Case, et al.*, Order 78-12-106, December 14, 1978. Accordingly, we conclude that it is desirable to award the additional authority sought by the applicant, whether or not services are in fact operated. The existence of additional operating rights at points now being served by incumbent carriers or authorized to be served will best effect the statute's policy objective of placing maximum reliance on the decisions of the marketplace. This will occur because newly authorized carriers may actually enter the points in order to exploit unmet demand, both in terms of price and service, or because incumbents will be encouraged by the realistic threat of entry to meet that demand. Because demand is dynamic in character and therefore constantly changing, the most effective means to assure that competitive forces will operate quickly and efficiently is to award operating authority to all carriers that are fit, willing and able to provide service.

We remain open to receiving objections to the award of route authority and will continue to evaluate and adjudicate any such objections. In particular, we are sensitive to claims based on environmental considerations, and will consider matters based on any special factual circumstances concerning a given point. Nevertheless, while we will consider any claim that we should not apply the policy of multiple entry in a particular case, the fundamental policies of the Act lead us to conclude that generally we should continue to award authority at new points to all fit, willing and able carriers in order to assure that the benefits of competition are widely available.

In accordance with our rules, Trans World submitted an estimate of the amount of annual aircraft fuel required if it instituted daily nonstop round trip service between and among the 84 points applied for—82.3 million gallons. Clearly, no operation of this scope or remotely approaching it will materialize. The authority we are awarding is permissive and Trans World will exercise such authority only as it perceives a demand that it can profitably satisfy. What we expect to materialize eventually from our award here, if anything, is some pattern of single-plane or connecting flights serving some of the points where other carriers have withdrawn existing services or Trans World steps in to meet growing demand. Such service would involve far less than the projected gallonage and would be in the public interest. We therefore conclude that our action fully meets the standards of the Energy Policy and Conservation Act of 1975.

We will give interested persons 30 days following the service date of this order to show cause why the tentative findings and conclusions set forth here should not be made final; answers will be due within 10 days after that. We expect such persons to direct their objections, if any, to the application and points at issue, and to support such objections with detailed economic analysis. If an oral evidentiary hearing or discovery procedures are requested, the objector should state in detail why such a hearing or discovery is considered necessary and what material issues of decisional fact he would expect to establish through such hearing or discovery that cannot be established in written pleadings. The objector

---

[1] See Appendix A: List of Cities. Appendices A–C are filed as a part of the original document.

[2] The statement of position was late filed and not accompanied by a motion to file a late document under Part 302.4 of our Procedural Rules. We will acknowledge it despite this procedural omission.

[3] The Lubbock Chamber of Commerce, the Board of City Development and the Lubbock Airport Board.

[4] On the basis of officially noticeable data, we find that Trans World is a citizen of the United States and is fit, willing and able to perform the air services proposed and to conform to the provisions of the Act and our rules, regulations and requirements.

[5] Excludes 11 points described in paragraph 3 on page 1. See Appendix B.

[6] We recently have amended Part 203 of our Regulations to make clear that, after December 31, 1980, the addition of a new point to a certificated carrier's route will automatically authorize the carrier to provide unrestricted nonstop service between such point and all other points on its system (see ER-1206 and 1207). In the future, therefore, it will be sufficient for an application filed under Subpart Q to list points at which the carrier wishes to obtain new certificate authority; such application will satisfy the evidence requirements of Subpart Q if it contains illustrative schedules and the other requisite data for operations from the new cities to a base city or cities already included in the carrier's certificate.

[7] Section 102(a) specifies as being in the public interest, among other things: "The placement of maximum reliance on competitive market forces and on actual and potential competition (A) to provide the needed air transportation system, (B) to encourage efficient and well-managed carriers to earn adequate profits and to attract capital" and "The encouragement, development, and maintenance of an air transportation system relying on actual and potential competition to provide efficiency, innovation and low prices, and to determine the variety, quality and price of air transportation services."

should consider whether discovery procedures alone would suffice to resolve material issues of decisional fact; if so, the type of procedure should be specified (see Part 302, Rules 19 and 20); if not, the reasons why not should be explained. We will not entertain general, vague, or unsupported objections.

If no objections are filed, the Secretary shall enter an order which will make final our tentative findings and conclusions and will issue the amended certificate.

We are issuing this order under authority delegated by the Board in its Regulations, 14 CFR 385.13.

Accordingly: 1. We institute the *Trans World Airlines Additional Points Akron/Canton-Youngstown Proceeding*, Docket 39114;

2. We dismiss as moot the application of Trans World in Docket 39114 to the extent that it involves authority at Albuquerque, New Mexico, Boston, Massachusetts, Chicago, Illinois, Denver, Colorado, Honolulu, Hawaii, Houston, Texas, Los Angeles, California, Miami, Florida, Pittsburgh, Pennsylvania, St. Louis, Missouri and Seattle-Tacoma, Washington;

3. We direct all interested persons to show cause why we should not allow the tentative findings and conclusions stated above to become final, and amend the cerificate of public convenience and necessity of Trans World for Route 2 to allow it to engage in unrestricted operations at the 73 points[8] listed in Appendix B;

4. We direct any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendment set forth here, to file in Docket 39114, and serve upon all persons listed in paragraph 7 no later than April 15, 1981, a statement of objections together with a summary of testimony, statistical data, and evidence expected to be relied upon to support the objections; answers to objections shall be filed no later than April 27, 1981;

5. If timely and properly supported objections are filed, we will accord full consideration to the matters or issues raised by the objections before we take further action;[9]

6. In the event no objections are filed, the Secretary will enter an order making final our tentative findings and conclusions and issue the certificate amendment; and

7. We will serve a copy of this order on all parties listed in Appendix C.

We will publish a summary of this order in the Federal Register.

Phyllis T. Kaylor,

Secretary.

[FR Doc. 81-8039 Filed 3-19-81; 8:45 am]

BILLING CODE 6320-01-M

[8] See footnote [4].

[9] Since we have provided for the filing of objections to this order, we will not entertain petitions for review.

BILLING CODE 3510-07-M

International Trade Administration

Butter From Denmark; Preliminary Results of Administrative Review of Countervailing Duty Order and of Tentative Determination To Revoke

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice of Preliminary Results of Administrative Review of Countervailing Duty Order and of Tentative Determination To Revoke.

SUMMARY: As a result of an administrative review of the countervailing duty order on butter from Denmark, the Department of Commerce has tentatively determined to revoke such order on the grounds that the Government of Dennark has eliminated the subsidy. This product remains covered by the order on dairy products from the EC. Interested parties are invited to comment on this decision.

EFFECTIVE DATE: March 20, 1981.

FOR FURTHER INFORMATION CONTACT: Paul J. McGarr, Office of Compliance, Room 1126, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230, (202-377-2104).

SUPPLEMENTARY INFORMATION:

Procedural Background

On September 28, 1935, in T.D. 47896, the Department of the Treasury imposed countervailing duties on butter imported directly or indirectly from Denmark. The notice stated that the Treasury Department had determined that exports of butter from Denmark were provided bounties or grants, within the meaning of section 303 of the Tariff Act of 1930 (19 U.S.C. 1303) ("the Tariff Act"). On December 29, 1936, T.D. 48734 modified this prior order, restricting its application to butter exported indirectly from Denmark on or after November 10, 1935.

On January 1, 1973, Denmark became a member of the European Communities ("the EC"). Since then, the Common Agricultural Policy of the EC has applied to all butter exported from Denmark. On May 19, 1975, a "Final Countervailing Duty Determination" on dairy products from the EC, including Denmark, T.D. 75-113, was published in the Federal Register (40 FR 21719). The notice stated that the Department of the Treasury had determined that exports of certain dairy products from the EC, including butter, were subject to bounties or grants within the meaning of section 303 of the Tariff Act. In conjunction with the notice, T.D. 75-114 was published waiving imposition of countervailing duties under the authority of section 303(d) of the Tariff Act.

On January 1, 1980, the provisions of title I of the Trade Agreements Act of 1979 ("the TAA") became effective. On January 2, 1980, the authority for administering the countervailing duty law was transferred from the Department of the Treasury to the Department of Commerce ("the Department"). The Department published in the Federal Register of May 13, 1980 (45 FR 31455) a notice of intent to conduct administrative reviews of all outstanding countervailing duty orders. As required by section 751 of the Tariff Act, the Department has conducted an administrative review of the order on butter from Denmark.

Scope of the Review

Imports covered by this review are butter imported indirectly from Denmark. Such imports are currently classifiable under items 116.00-116.25, Tariff Schedules of the United States.

The review covers the period January 1, 1973 to the present.

Preliminary Results of the Review

The Department has received official confirmation from the Government of Denmark that the Government abolished all subsidy programs for exported butter when Denmark became a member of the EC on January 1, 1973. Therefore, the Department has tentatively determined to revoke the 1935 countervailing duty order concerning butter from Denmark. Such merchandise will remain covered by the 1975 countervailing duty order on dairy products from the European Communities.

Interested parties may submit written comments on this decision on or before April 20, 1981 and may request disclosure and/or a hearing on or before April 6, 1981. The Department will publish a notice of final results of administrative review after analysis of issues raised in written comments or at a hearing.

This administrative review, tentative determination to revoke, and notice are in accordance with section 104(c) of the TAA and sections 751(a)(1), (c) of the Tariff Act (19 U.S.C. 1675(a)(1), (c)) and §§ 355.41 and 355.42 of the Commerce Regulations (19 CFR 355.41, 355.42).

John D. Greenwald,

Deputy Assistant Secretary for Import Administration.

March 16, 1981.

BILLING CODE 3510-25-M

Ceramic Wall Tile From the United Kingdom; Preliminary Results of Administrative Review of Antidumping Finding and of Tentative Determination To Revoke

AGENCY: U.S. Department of Commerce, International Trade Administration.

ACTION: Notice of Preliminary Results of Administrative Review of Antidumping Finding and of Tentative Determination to Revoke.

SUMMARY: This notice is to advise the public that, as a result of an administrative review of the antidumping finding on ceramic wall tile from the United Kingdom, the Department of Commerce has tentatively determined to revoke such finding. All sales by the only known exporter covered by the finding, H & R Johnson, Ltd., with the exception of several isolated sales on which *de minimis* margins were found, were made at not less than fair value for the period December 1, 1975 through December 31, 1979. There is no indication of sales at less than fair value since that time. Interested parties are invited to comment on this decision.

EFFECTIVE DATE: March 20, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Jonathan Seiger, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202-377-3986).

SUPPLEMENTARY INFORMATION:

Procedural Background

On May 18, 1971, a dumping finding with respect to ceramic wall tile from the United Kingdom was published in the **Federal Register** as Treasury Decision 71-129 (36 FR 9008-10). On June 26, 1974, the Department of the Treasury published in the **Federal Register** a notice excluding Pilkington's Tiles Sales, Ltd. from the scope of the finding (39 FR 20786). On January 1, 1980, the provisions of title I of the Trade Agreements Act of 1979 became effective. Title I replaced the provisions of the Antidumping Act of 1921 ("the 1921 Act") with a new title VII to the Tariff Act of 1930 ("the Tariff Act"). On January 2, 1980, the authority for administering the antidumping duty law was transferred from the Department of the Treasury to the Department of Commerce ("the Department"). The Department published in the **Federal Register** of March 28, 1980 (45 FR 20511-12) a notice of intent to conduct administrative reviews of all outstanding dumping findings. As required by section 751 of the Tariff Act, the Department has conducted an administrative review of the finding on ceramic wall tile from the United Kingdom. The substantive provisions of the 1921 Act apply to all unliquidated entries made prior to January 1, 1980.

Scope of the Review

Merchandise covered by this review is glazed ceramic wall tile, currently classifiable under item 532.2400 of the Tariff Schedules of the United States Annotated (TSUSA). The Department knows of only one exporter of ceramic wall tile from the United Kingdom to the United States still covered by the finding.

That firm is H & R Johnson, Ltd. The review covers the period from December 1, 1975 through December 31, 1979. The Treasury Department previously reviewed all earlier periods covered by the finding and issued appraisement instructions ("master lists") for those periods. The issue of the Department's obligation to conduct administrative review of entries, unliquidated as of January 1, 1980, and covered by previous appraisement instructions, is under review. Liquidation has been suspended pending disposition of this issue.

Purchase Price

The Department used purchase price, as defined in section 203 of the 1921 Act, in cases where sales were made to unrelated purchasers in the U.S. prior to the date of exportation. Purchase price here was calculated on the basis of the F.O.B. packed price to unrelated purchasers. Where applicable, we deducted cash discounts from this price. No other adjustments were claimed or allowed.

Exporter's Sales Price

The Department used exporter's sales price, as defined in section 204 of the 1921 Act, in cases where sales were made to a related U.S. purchaser. Exporter's sales prices here were calculated on the basis of the delivered price from the related U.S. party to unrelated U.S. purchasers. Where applicable, deductions were made for cash discounts, ocean freight, U.S. duty and insurance. No other adjustments were claimed or allowed.

Foreign Market Value

The Department used home market price, as defined in section 205 of the 1921 Act, since sufficient quantities of such or similar merchandise were sold in the home market to provide the basis for comparison. H & R Johnson sold 61% of its total production in the home market during the covered period. The home market prices here are based on delivered prices with adjustments for cash discounts, a U.K. inland freight differential, and a packing differential. Adjustments for differences in circumstances of sale, in accordance with § 153.10 of the Customs Service Regulations or § 353.15 of the Commerce Regulations, were made, where applicable, for the costs of technical services and advertising. When home market price was compared to exporter's sale price, we made an additional adjustment for home market selling expenses. No other adjustments were claimed or allowed.

Preliminary Results of the Review

As a result of our comparison of purchase price (and exporter's sale price, where appropriate) to foreign market value, we have concluded that, with the exception of several isolated sales on which *de minimis* margins were found, there were no sales at less than fair value by H & R Johnson, Ltd. for the period December 1, 1975 through December 31, 1979. There is no

indication of any sales at less than fair value by this firm since that time.

As provided for in § 353.54(e) of the Commerce Regulations, H & R Johnson, Ltd. has agreed in writing to an immediate suspension of liquidation and reinstatement of the finding if circumstances develop which indicate that ceramic wall tile thereafter imported into the United States is being sold at less than fair value.

Tentative Determination

As a result of our review we tentatively determine to revoke the finding on ceramic wall tile from the United Kingdom. If the finding is revoked it shall apply with respect to unliquidated entries entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice. Interested parties may submit written comments on or before April 20, 1981, and may request disclosure and/or a hearing on or before April 6, 1981. A request for administrative protective order must be made on or before March 25, 1981. The Department will publish the final results of the administrative review including the results of its analysis of any such comments or hearing. The Department will, for entries made during the period of review, issue appraisement instructions for this exporter directly to the Customs Service. The Department will issue subsequent appraisement instructions for entries made between January 1, 1980 and the date of publication of this notice.

This administrative review, tentative determination to revoke, and notice are in accordance with section 751(a)(1) and (c) of the Tariff Act (19 U.S.C. 1675(a)(1), (c)) and § 353.54(e) of Commerce Regulations (19 CFR 353.54(e)).

John D. Greenwald,

Deputy Assistant Secretary for Import Administration.

March 16, 1981.

BILLING CODE 3510-25-M

Diamond Tips for Phonograph Needles From the United Kingdom; Preliminary Results of Administrative Review of Antidumping Finding

AGENCY: U.S. Department of Commerce, International Trade Administration.

ACTION: Notice of Preliminary Results of Administrative Review of Antidumping Finding.

SUMMARY: This notice is to advise the public that the Department of Commerce has conducted an administrative review of the antidumping finding on diamond tips for phonograph needles from the United Kingdom. The review covers two of the three known exporters of this merchandise to the United States. The review covers separate time periods up to March 31, 1980 for each exporter. This review indicates the existence of dumping margins in particular periods for one of the exporters, and the absence of dumping margins during the entire period of review for the other exporter. The Department is currently conducting review of the third exporter.

As a result of the present review, the Department has preliminarily determined to assess dumping duties for the one exporter equal to the calculated difference between foreign market value and United States price on each of its shipments occurring during the covered periods. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: March 20, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Philip S. Gallas, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230, (202-377-4023).

SUPPLEMENTARY INFORMATION:

Procedural Background

On April 1, 1972, a dumping finding with respect to diamond tips for phonograph needles from the United Kingdom was published in the Federal Register as Treasury Decision 72-91 (37 FR 6665). On January 1, 1980, the provisions of title I of the Trade Agreements Act of 1979 became effective. Title I replaced the provisions of the Antidumping Act of 1921 ("the 1921 Act") with a new title VII to the Tariff Act of 1930 ("the Tariff Act"). On January 2, 1980, the authority for administering the antidumping duty law was transferred from the Department of the Treasury to the Department of Commerce ("the Department"). The Department published in the Federal Register of March 28, 1980 (45 FR 20511-12) a notice of intent to conduct administrative reviews of all outstanding dumping findings. As required by section 751 of the Tariff Act, the Department has conducted an administrative review of the finding on diamond tips for phonograph needles from the United Kingdom. The substantive provisions of the 1921 Act apply to all unliquidated entries made prior to January 1, 1980.

Scope of the Review

Imports covered by this review are diamond tips for phonograph needles, consisting of an almost microscopic chip of diamond bonded to steel and shaped to fit into the grooves of a phonograph record. Diamond tips for phonograph needles are currently classifiable under item 665.340 of the Tariff Schedules of the United States Annotated (TSUSA).

The Department knows of a total of three exporters to the United States of diamond tips for phonograph needles from the United Kingdom. This review covers two of them, Bauden Precision Diamonds Ltd. ("Bauden") and Diamond Stylus Company Ltd. ("Diamond Stylus"), for all time periods up to March 31, 1980, during which shipments of diamond tips for phonograph needles may have been made to the United States and for which appraisement instructions ("Master lists") have not been issued. Therefore, different time periods are involved for each company. The Department is currently conducting a review of the third company, Fidelitone International Ltd., and will publish the results in a subsequent notice. The issue of the Department's obligation to conduct administrative review of entries unliquidated as of January 1, 1980 and covered by prior master lists is under review. Liquidation has been suspended pending disposition of the issue.

United States Price

In calculating United States price for all sales by Bauden during the entire review period, the Department used exporter's sales price, as defined in section 772(c) of the Tariff Act or section 204 of the 1921 Act, since all sales were made to a related purchaser. In this case exporter's sales price was calculated on the basis of an ex-factory, packed price to the first unrelated purchaser in the United States. Deductions were made for U.S. duty, brokerage charges, selling expenses, and repacking. No other adjustments were claimed or allowed.

In calculating United States price for most sales by Diamond Stylus, the Department again used exporter's sales price since those sales were made to a related purchaser, Phono Stylus Corp. In this case exporter's sales price was calculated on the basis of an ex-factory, packed price to the first unrelated purchaser in the United States. Deductions were made for U.S. duty, brokerage charges, selling expenses, repacking, U.S. inland freight, and insurance. No other adjustments were claimed or allowed.

Some of the sales made by Diamond Stylus during the period under review were made directly to unrelated U.S. customers. In such instances, in calculating United States price the Department used purchase price, as defined in section 772(b) of the Tariff Act or section 203 of the 1921 Act. In this

case purchase price was calculated on the basis of an ex-factory, packed price to the unrelated purchaser in the United States. No adjustments were claimed or allowed.

Foreign Market Value

In calculating foreign market value for both firms the Department used home market price, as defined in section 773(a) of the Tariff Act or section 205 of the 1921 Act, since sufficent quantities of such or similar merchandise were sold in the home market to provide a basis for comparison. Diamond Stylus sold in the home market at least 6 percent of total sales, and at least 7 percent of sales for export to countries other than the United States, during the periods covered. Bauden sold in the home market at least 12 percent of total sales. Bauden made no sales for export other than those to the United States. Home market prices for both companies were based on the ex-factory, packed price. No adjustments were claimed or allowed.

Preliminary Results of the Review

As a result of our comparison of United States price to foreign market value, we preliminarily determine that the following margins exist:

Company	Time period	Margin (percent)
Diamond Stylus/Phono Stylus	7/1/78–3/31/79	
	4/1/79–3/31/80	0
		.79
Diamond Stylus	7/1/78–3/31/79	
	4/1/79–3/31/80	2.1
		.0
Bauden	7/1/78–10/31/77	
	11/1/77–3/31/80	0
		[1] 0

[1] No shipments during this period.

Interested parties may submit written comments on these preliminary results on or before April 20, 1981, and may request disclosure and/or a hearing on or before April 6, 1981. Any request for administrative protective order must be made no later than March 25, 1981. The Department will publish the final results of the administrative review including the results of its analysis of any such comments or hearing.

The Department shall determine, and the U.S. Customs Service shall assess, duties on all entries made with purchase dates or export dates as appropriate during the time periods involved. Individual differences between purchase price or exporter's sales price and foreign market value may vary from the percentages stated above. The Department will issue appraisement instructions separately on each exporter directly to the Customs Service.

Further, as required by § 353.48(b) of the Commerce Regulations, a cash deposit based upon the most recent of the margins calculated above shall be required on all shipments entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results. This requirement shall remain in effect until publication of the final results of the next administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 353.53 of the Commerce Regulations (19 CFR 353.53).

John D. Greenwald,

Deputy Assistant Secretary for Import Administration.

March 16, 1981.

BILLING CODE 3510-25-M

Printed Vinyl Film From Brazil; Preliminary Results of Administrative Review of Antidumping Finding

AGENCY: U.S. Department of Commerce, International Trade Administration.

ACTION: Notice of preliminary results of administrative review of antidumping finding.

SUMMARY: This is notice is to advise the public that the Department of Commerce has conducted an administrative review of the antidumping finding on printed vinyl film from Brazil. The review is limited to the only known exporters—Vulcan Material Plastico, S.A. and Plasticos Plavinil, S.A.—and to the periods July 1, 1978 through July 31, 1980; and December 1, 1973 through July 31, 1980, respectively. The review has disclosed no imports of printed vinly film from Vulcan Material Plastico, S.A. for the period July 1, 1978 through July 31, 1980. There are no known unliquidated entries for this firm for the period of the review. The Department has evidence that there was a shipment by Plasticos Plavinil, S.A. during the covered period which remains unliquidated. For the latter firm the Department has preliminarily decided to assess dumping duties equal to the calculated differences between foreign market value and purchase price on that shipment. Since no information was received from this firm, the Department has used the best information available. Although Vulcan Material Plastico, S.A. has requested revocation of the dumping finding, it has not submitted the required written agreement. Therefore, the Department is taking no further action on this request at this time. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: March 20, 1981.

FOR FURTHER INFORMATION CONTACT: Mrs. E. Valerie Newkirk, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202–377–5345).

SUPPLEMENTARY INFORMATION:

Procedural Background

On August 24, 1973, a dumping finding with respect to printed vinyl film from Brazil was published in the Federal Register as Treasury Decision 73–232 (38 FR 22794). On January 1, 1980, the provisions of title I of the Trade Agreements Act of 1979 became effective. Title I replaced the provisions of the Antidumping Act of 1921 ("the 1921 Act") with a new title VII to the Tariff Act of 1930 ("the Tariff Act"). On January 2, 1980, the authority for administering the antidumping duty law was transferred from the Department of the Treasury to the Department of Commerce ("the Department"). The Department published in the Federal Register of March 28, 1980 (45 FR 20511–12) a notice of intent to conduct administrative reviews of all outstanding dumping findings. As required by section 751 of the Tariff Act, the Department has conducted an administrative review of the finding on printed vinyl film from Brazil. The substantive provisions of the 1921 Act apply to all unliquidated entries made prior to January 1, 1980.

Scope of the Review

Imports covered by this review are printed vinyl film, also known as printed polyvinyl chloride sheeting. Printed vinyl film is currently classifiable under item 771.4312 of the Tariff Schedules of the United States Annotated (TSUSA).

The Department knows of two Brazilian exporters of printed vinyl film to the United States. These firms are Vulcan Material Plastico, S.A. and Plasticos Plavinil, S.A. This review covers all time periods, that is, from July 1, 1978 through July 31, 1980 for Vulcan Material Plastico, S.A., and December 1, 1973 through July 31, 1980 for Plasticos Plavinil, S.A., during which shipments of printed vinyl film may have been made to the United States and for which appraisement instructions ("master lists") have not been issued.

The Department received an inadequate response from Plasticos Plavinil, S.A. and Vulcan Material Plastico, S.A. replied that they had no shipments. Therefore, the Department

used the best information available. For Vulcan Material Plastico, S.A. the best information is the most recent master list information with values (January, 1973 to December, 1976), and for Plasticos Plavinil, S.A. the best information is the fair value margin.

Preliminary Results of the Review

As a result of our review, we preliminarily determine that the margin of 52 percent of the entered value exists for Plasticos Plavinil, S.A. We preliminarily determine that no margin exists for Vulcan Material Plastico, S.A. Vulcan Material Plastico, S.A. has requested a revocation of the dumping finding but has failed to respond to our requests for the written agreement required by § 353.54(e) of the Commerce Regulations. The Department, therefore, has taken no further action on this request at this time.

Interested parties may submit written comments on this preliminary determination on or before April 20, 1981, and may request disclosure and/or a hearing on such determination on or before April 6, 1981. The Department will publish the final results of the administrative review including the results of its analysis of any such comments or hearing.

The Department shall determine, and the U.S. Customs Service shall assess, duties on all entries made with purchase dates during the time periods involved. The Department will issue appraisement instructions separately on each exporter directly to the Customs Service.

Further, as required by § 353.48(b) of the Commerce Regulations, a cash deposit based upon the margin calculated above, that is 52 percent of the entered value, shall be required for Plasticos Plavinil, S.A., on all shipments entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results. There will be no cash deposit requirement for Vulcan Material Plastico, S.A., since no margin was found on the last known shipment. The cash deposit requirement for Plasticos Plavinil, S.A., and the deposit waive for Vulcan Material Plastico, S.A., shall remain in effect until publication of the final results of the next administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 353.53 of the Commerce Regulations (19 CFR 353.53).

John D. Greenwald,

Deputy Assistant Secretary for Import Administration.

March 16, 1981.

BILLING CODE 3510-25-M

National Bureau of Standards

Proposed Revision to Federal Information Processing Standard 71, Advanced Data Communication Control Procedures

Correction

In FR Doc. 81-6231 appearing on page 14029 in the issue of Wednesday, February 25, 1981, in the third column, in the third full paragraph, delete the last three lines now reading "or before [please insert date of publication of this notice in the Federal Register].", and insert "or before May 26, 1981". Also the *Proposed Revisions to FIPS PUB 71* which appeared on pages 14029—14031 are republished below to correct substantive errors. The *Proposed Revisions to FIPS PUB 71* read as follows:

Proposed Revisions to FIPS PUB 71

It is proposed that the specifications section of FIPS PUB 71, Advanced Data Communication Control Procedures, be revised to add the following two new items:

(4) All systems shall implement the 16-bit frame check sequence (FCS) specified in American National Standard X3.66–1979, referenced above.

A 32-bit FCS may also be provided for use when it has been determined that a higher degree of error protection is necessary on a link. For a discussion of the relative merits of the 16-bit and 32-bit FCS, see FIPS PUB 78, Guideline for Implementing Advance Data Communication Control Procedures, Section 7.0.

The equations for 32-bit FCS generation are:

$$\frac{X^{n}G(X)^{k} + X^{k}L(X)}{P(X)} = Q(X) + \frac{R(X)}{P(X)}$$

$FCS = L(X) + R(X) = R(X)$

The arithmetic is modulo 2.

$L(X) = X^{31} + X^{30} + X^{29} + X^{28} + X^{27} + X^{26} + X^{25} + X^{24} + X^{23} + X^{22} + X^{21} + X^{20} + X^{19} + X^{18} + X^{17} + X^{16} + X^{15} + X^{14} + X^{13} + X^{12} + X^{11} + X^{10} + X^{9} + X^{8} + X^{7} + X^{6} + X^{5} + X^{4} + X^{3} + X^{2} + X^{1} + 1.$

$R(X)$ = The remainder which is of degree less than 32.
k = The number of bits represented by $G(X)$.
$P(X)$ = The generator polynomial $X^{32} + X^{26} + X^{23} + X^{22} + X^{16} + X^{12} + X^{11} + X^{10} + X^{8} + X^{7} + X^{5} + X^{4} + X^{2} + X^{1} + 1$
$G(X)$ = The message polynomial, which includes the contents of the address, control, and information fields, excluding the zero bits inserted for transparency (see American National Standard X3.66–1979, Section 3.7).

The generation of the remainder R(X) differs from that used in conventional (non-ADCCP) check sequence generation by the presence of the $X^k L(X)$ term in the generation equation. When the 32-bit FCS generation is by the usual shift register technique, the $X^k L(X)$ term is added in either of two ways:

a. Preset the shift register to all ones rather than to all zeros as in conventional (non-ADCCP) generation procedures. Otherwise, shift the data G(X) through the register as in conventional procedures, or,

b. Invert the first 32 bits of G(X) before shifting into the register and shift the remaining part of G(X) through the register uninverted. This requires that G(X) contain at least 32 bits.

Whether 1 or 2 is used, the shift register contents, after shifting through G(X), are R(X). These contents are inverted bit-by-bit and transmitted as the FCS sequence.

The transmitted sequence is always (in algebraic notation):
$M(X) = X^{32}G(X) + FCS$.

The received sequence will be denoted $M^*(X)$ and may differ from the transmitted sequence M(X) if transmission errors are introduced. The checking process always involves dividing the received sequence by P(X) and testing the remainder. Direct division, however, does not yield a unique remainder and it is expected that in most cases the received sequence will be modified for checking purposes by the addition of terms which will cause the division to yield such a unique remainder when $M^*(X) = M(X)$, i.e., when the frame is error free.

Two classes of checking equations are given below:

$$\frac{X^{\gamma}[M^*(X) + X^k L(X)]}{P(X)} = Q(X) + \frac{R(X)}{P(X)}$$

(Equation 1)

In this case, the unique remainder is the remainder of the division

$$X^{\gamma}\frac{L(X)}{P(X)}$$

When $\gamma = 0$ the remainder is L(X) (32 ones).
When $\gamma = 32$ the remainder is $X^{31} + X^{30} + X^{29} + X^{28} + X^{26} + X^{25} + X^{24} + X^{16} + X^{15} + X^{14} + X^{13} + X^{11} + X^{10} + X^{8} + X^{6} + X^{5} + X^{4} + X^{3} + X^{1} + 1$.

$$\frac{X^{\gamma}[M^*(X)^k + (X+1)\,L(X)]}{P(X)} = Q(X) + \frac{R(X)}{P(X)}$$

(Equation 2)

In this case, the unique remainder is always zero regardless of the value of γ.

Shift register implementation of the above equations normally use $\gamma = 32$ (pre-multiplication). When this is the case, the added term $X^k L(X)$ in Equations 1 and 2 is added by either inverting the first 32 received bits of $M^*(X)$ before shifting them through the checking register or by presetting the register to all ones and shifting all of $M^*(X)$ through normally. Thus, the receiver action on the leading portion of a frame is the same with either Equation 1 or 2.

The $+1$ of the term $(X^k + 1)L(X)$ of Equation 2 is added by inverting the 32-bit FCS. This implies a 32-bit storage delay by the 32-bit FCS function at the receiver since the location of the 32-bit FCS is not known until the closing flag is received.

(5) To maximize interoperability among major Federal data communication networks, while still allowing flexibility to tailor a network for efficient day-to-day use, the following features are required:

a. The W bit in the frame reject (FRMR) information field shall be set to indicate the cause of the frame rejection condition. (See American National Standard X3.66–1979, Section 7.5.3.1.)

b. Upon receiving a FRMR with the W bit set to one, a primary/combined station shall issue an appropriate mode setting command (i.e., SNRM, SARM, SABM, SNRME, SARME, or SABME) and shall not subsequently, during the same connection with the same secondary/combined station, transmit a frame containing the command or response that caused the frame rejection condition. (See American National Standard X3.66–1979, Section 7.4.1.)

It is also proposed that the cross-index section of FIPS PUB 71 be revised to add the following new items:

(c) FIPS PUB 78, Guideline for Implementing Advance Data Communication Control Procedures.

(d) International Standard 3309: Data Communications—High-level Data Link Control Procedures—Frame Structure.

(e) International Standard 4335: Data Communications—High-level Data Link Control Procedures—Elements of Procedures.

(f) Addendum 1 to International Standard 4335: Data Communications—High-level Data Link Control Procedures—Elements of Procedures.

(g) Addendum 2 to International Standard 4335: Data Communications—High-level Data Link Control Procedures—Elements of Procedures.

(h) International Standard 6159: Data Communications—High-level Data Link Control Procedures—Unbalanced Classes of Procedure.

(i) International Standard 6256: Data Communications—High-level Data Link Control Procedures—Balanced Class of Procedure.

(j) CCITT Recommendation X.25: Interface Between Data Terminal Equipment (DTE) and Data Circuit-Terminating Equipment (DCE) for Terminals Operating in the Packet Mode on Public Data Networks.

(k) CCITT Recommendation X.75: Terminal and Transit Call Procedures and Data Transfer Systems on International Circuits Between Packet-Switched Data Networks.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Procurement List 1981; Deletions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Deletions from procurement list.

SUMMARY: This action deletes from Procurment List 1981 services provided by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: March 20, 1981.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT: C. W. Fletcher, (703) 557–1145.

SUPPLEMENTARY INFORMATION: On January 16, 1981, the Committee for Purchase from the Blind and Other Severely Handicapped published a notice (46 FR 3953) of proposed deletions from Procurement List 1981, November 12, 1980 (45 FR 74836).

After consideration of the relevant matter presented, the Committee has determined that the services listed below are no longer suitable for procurement by the Federal Government under 41 U.S.C. 46–48c, 85 Stat. 77.

Accordingly, the following services are hereby deleted from Procurement List 1981:

Sic 7395: Film Developing (Photographic Processing for GSA Self-Service Store #60), Denver Federal Center, Denver, Colorado

Sic 7399: Repair of Field Jackets, Fort Riley, Kansas

C. W. Fletcher,

Executive Director.

[FR Doc. 81-8981 Filed 3-19-81; 8:45 am]

BILLING CODE 6820-33-M

Procurement List 1981; Proposed Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed addition to procurement list.

SUMMARY: The Committee has received a proposal to add to Procurement List 1981 a commodity to be produced by workshops for the blind and other severely handicapped.

DATES: Comments must be received on or before April 22, 1981.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT: C. W. Fletcher, (703) 557–1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed action.

If the Committee approves the proposed addition, all entities of the Federal Government will be required to procure the commodity listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodity to Procurement List 1981, November 12, 1980 (45 FR 74836):

Class 8530: Litter, Folding Aluminum, 8530–00–782–7805

C. W. Fletcher,

Executive Director.

BILLING CODE 6820-33-M

CONSUMER PRODUCT SAFETY COMMISSION

Product Safety Advisory Council; Meeting

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of meeting: Product Safety Advisory Council.

SUMMARY: This notice announces a meeting of the Product Safety Advisory Council on Monday, April 13, 1981, 12:00 Noon–6:00 p.m., and Tuesday, April 14, 1981, 8:30 a.m.–3:00 p.m. The meeting will be held at 1111 18th Street, NW., Washington, D.C. 20207, Third Floor Conference Room.

FOR FURTHER INFORMATION CONTACT: Barbara Rosenfeld, Director, Office of Public Participation, Office of the Secretary, Suite 300, 1111 18th Street, NW., Washington, D.C. 20207, 202/634–7700.

SUPPLEMENTARY INFORMATION: The Product Safety Advisory Council was established by Section 28 of the Consumer Product Safety Act, which provides that the Commission may consult with the Council before prescribing a consumer product safety rule or taking other action under the Act.

The agenda for the meeting will include a discussion of reauthorization issues and the impact of proposed budget cuts; a report on fire and flammability projects; an update on child safety activities, and a briefing on the status of urea-formaldehyde foam insulation regulatory action.

The meeting is open to the public; however, space is limited. Persons who wish to make oral or written presentation to the Product Safety Advisory Council should notify the Office of the Secretary (see address above) by April 6, 1981. The notification should list the name of the individual who will make the presentation, the person, the company, group or industry on whose behalf the presentation will be made, the subject matter, and the approximate time requested. Time permitting, these presentations and other statements from the audience to members of the Council may be allowed by the presiding officer.

Dated: March 17, 1981.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-M

COPYRIGHT ROYALTY TRIBUNAL

Commencement of Obligation To Pay Adjusted Royalty Fees

March 16, 1981.

The American Society of Composers, Authors and Publishers; Broadcast Music, Inc.; Major League Baseball; Motion Picture Association of America, Inc.; National Association of Broadcasters; National Basketball Association; National Hockey League; and North American Soccer League (Copyright Owners) in the matter of Compulsory License for Secondary Transmissions by Cable Systems; Royalty Adjustment Proceeding, CRT Docket No. 80–3, have filed a Petition for Declaratory Relief to the effect that if the Tribunal's adjustment of cable royalties is sustained on judicial review that:

1. Cable systems are obligated for payment of the adjusted royalty fees as of January 1, 1981.

2. Interest on the adjusted royalty fees must be calculated from the first semi-annual deposit date in 1981 through the date of actual payment by a cable system.

The National Cable Television Association has filed an Opposition to Petition for Declaratory Relief urging the dismissal or denial of the petition.

The Petition of the Copyright Owners and the Opposition of the National Cable Television Association are available for inspection in the office of the Tribunal.

The pending Petition for Declaratory Relief presents questions of general application to all Tribunal royalty adjustment proceedings. Therefore the Tribunal has determined that prior to any action on the petition, the Tribunal should provide an opportunity for comments by any interested person on the issues presented by the Petition and the general subject of any retroactive application of Tribunal royalty rate adjustments.

Any person desiring to present views to the Tribunal on these matters shall submit such comments not later than April 15, 1981. Comments should be addressed to Chairman, Copyright Royalty Tribunal, 1111 20th Street, NW., Washington, D.C. 20036.

Clarence L. James, Jr.,

Chairman, Copyright Royalty Tribunal.

BILLING CODE 1410-01-M

DEPARTMENT OF DEFENSE

Department of the Navy

Intent To Commence Relocation of Navy Resale and Services Support Office (NAVRESSO) to Staten Island, N.Y.

The Department of the Navy announces its intent to commence the relocation of the Navy Resale and Services Support Office (NAVRESSO) from Brooklyn, N.Y. to three existing buildings located at Fort Wadsworth, Staten Island, N.Y. The action is being taken because the present Brooklyn location is to be vacated by 1984 (the building is unsafe and further repair is considered uneconomical) and Fort Wadsworth is the preferred alternative among possible facilities investigated. A Finding of No Significant Impact concerning the environmental assessment of this relocation has been on file for a period of 30 days from January 22, 1981. Since the Navy has received no substantive comments which would be cause to alter the original relocation plans, the Department of the Navy intends to commence a phased relocation of NAVRESSO on the date of publication of this notice.

P. B. Walker,

Captain, JAGC, U.S. Navy, Alternate Federal Register Liaison Officer.

March 13, 1981.

BILLING CODE 3810-70-M

Office of the Secretary of Defense

DOD Advisory Group on Electron Devices; Advisory Committee Meeting

Working Group C (Mainly Imaging and Display) of the DOD Advisory Group on Electron Devices (AGED) will meet in closed session 23 April 1981, at the Palisades Institute for Research Services, Inc., 201 Varick Street, New York, New York, 10014.

The mission of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group C meeting will be limited to review of research and development programs which the military propose to initiate with industry, universities or in their laboratories. This special device area includes such programs as infrared and night sensors. The review will include classified program details throughout.

In accordance with 5 U.S.C. App 1, 10(d)(1976), it has been determined that this Advisory Group meeting concerns matters listed in 5 U.S.C. 552b(c)(1)(1976), and that accordingly, this meeting will be closed to the public.

Dated: March 17, 1981.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

[FR Doc. 81-8879 Filed 3-19-81; 8:45 am]

BILLING CODE 3810-70-M

Department of Defense Wage Committee; Closed Meetings

Pursuant to the provisions of section 10 of Public Law 92-463, the Federal Advisory Committee Act, effective January 5, 1973, notice is hereby given that a meeting of the Department of Defense Wage Committee will be held on Tuesday, May 5, 1981; Tuesday, May 12, 1981; Tuesday, May 19, 1981; and Tuesday, May 26, 1981 at 10:00 a.m. in Room 3D-321, The Pentagon, Washington, D.C.

The Committee's primary responsibility is to consider and submit recommendations to the Assistant Secretary of Defense (Manpower, Reserve Affairs, and Logistics) concerning all matters involved in the development and authorization of wage schedules for Federal prevailing rate employees pursuant to Public Law 92-392. At this meeting, the Committee will consider wage survey specifications, wage survey data, local wage survey committee reports and recommendations, and wage schedules derived therefrom.

Under the provisions of section 10(d) of Public Law 92-463, the Federal Advisory Committee Act, meetings may be closed to the public when they are "concerned with matters listed in section 552b. of Title 5, United States Code." Two of the matters so listed are those "related solely to the internal personnel rules and practices of an agency," (5 U.S.C. 552b.(c)(2)), and those involving "trade secrets and commercial or financial information obtained from a person and privileged or confidential" (5 U.S.C. 552b.(c)(4)).

Accordingly, the Deputy Assistant Secretary of Defense (Civilian Personnel Policy) hereby determines that all portions of the meeting will be closed to the public because the matters considered are related to the internal rules and practices of the Department of Defense (5 U.S.C. 552b.(c)(2)), and the detailed wage data considered by the Committee during its meetings have been obtained from officials of private establishments with a guarantee that the data will be held in confidence (5 U.S.C. 552b.(c)(4)).

However, members of the public who may wish to do so are invited to submit material in writing to the Chairman concerning matters believed to be deserving of the Committee's attention. Additional information concerning this meeting may be obtained by writing the Chairman, Department of Defense Wage Committee, Room 3D-264, The Pentagon, Washington, D.C.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

March 16, 1981.

BILLING CODE 3810-70-M

DEPARTMENT OF ENERGY

Request for Public Comment on the "Interim Report of the Interagency Coal Export Task Force"

AGENCY: Department of Energy.

ACTION: Request for public comment on the "Interim Report of the Interagency Coal Export Task Force."

SUMMARY: The Interagency Coal Export Task Force, under the direction of the U.S. Department of Energy, has recently published its Interim Report. It will be available from the Superintendent of Documents in early March for

approximately $5.00 (document number 061-000-00506-1).

DATE: Written public comments are invited and should be received by April 30, 1981.

ADDRESS: Comments should be directed to: The Deputy Secretary of Energy, Department of Energy, Forrestal Building, Mail Stop 7E064, 1000 Independence Avenue, SW, Washington, DC 20545.

FOR FURTHER INFORMATION CONTACT: Mr. David J. Beecy, re: Interagency Coal Export Task Force, U.S. Department of Energy, Room C-125, Germantown, FP-52, Washington, DC 20545; Telephone: (301) 353-2800.

SUPPLEMENTARY INFORMATION: The Interagency Coal Export Task Force was formed in the Spring of 1980 at the direction of the President. It included some fifty representatives of fourteen Federal agencies, and was chaired by the Deputy Secretary of Energy. The Task Force was asked to report on possible courses of action to increase U.S. steam coal exports in a manner consistent with national energy policies, including the commitment to environmental protection.

Over approximately six months, the Task Force undertook a number of related activities. It assembled existing data and developed new information regarding the international coal market. It analyzed restrictions and barriers to coal export and served as a clearinghouse for ideas and information. The Task Force acted as a point of contact for U.S. and foreign representatives both to obtain current information on coal development in the United States and to register concerns. Finally, it contributed to public awareness that increased coal exports will serve both the domestic and international interests of the United States.

Separate staff working groups addressed issues and alternatives in six specific areas:

Supply and Demand
Inland Transportation
International Cooperation
Ports and Ocean Transportation
Marketing and Business Issues
Environmental Impacts and Issues

In addition, contractor personnel on site in the major consuming countries provided up-to-date information on current and projected demand among the major importers of steam coal.

The Task Force efforts resulted in a number of conclusions as follows:

- There will be significant growth in world demand for steam coal, even greater than predicted in previous studies, such as the *World Coal Study*. In millions of short tons of coal, these projections are:

	1979	1985	1990	2000
Europe	82.6	97-123	146-190	273-343
Pacific Rim	13.9	43	90	202-222
Total	78.5	140-166	236-280	475-565

- The primary demand will be for low-sulfur (generally below 1.5% and preferably below 1%), bituminous coal.
- Increased steam coal exports are not likely to exceed ten percent of domestic production.
- U.S. coal is generally higher priced than coal from other major supplying countries (Australia, Poland, and South Africa), largely due to higher costs for transportation, both inland and ocean, and handling. Foreign buyers, however, appear willing to pay a premium (of as much as ten percent) to insure diversity and security of supply.
- A critical factor in current price differences between U.S. and competing coals is demurrage associated with the long lines of ships waiting (an average of 40 days) to load coal at East Coast ports. Current capacity expansion plans (if implemented) will eliminate this problem by the mid-1980's.
- Inability to handle larger (100,000+deadweight tons) vessels does *not* appear to be a deterrent, at least at this time, although the trend toward increased use of these vessels will result in certain pressure to deepen ports to accommodate their use. Decisions to deepen ports will be made by the Congress based on considerations above and beyond that of coal export.
- The possible U.S. share of the world steam coal market has been projected (in millions of short tons, and as a percentage of total market) as follows:

	1985	1990	2000
European market	28 (28%)	49 (29%)	145 (47%)
Pacific rim market		15 (17%)	52 (25%)
Total world market	28 (17%)	64 (25%)	197 (36%)

- The ultimate U.S. share of this world market will depend largely on actions by the private sector to increase transportation and handling capacity. Given the availability of long-term contracts ensuring adequate future sales of steam coal, the capital will be available in the private sector for needed facility and equipment improvements.

Finally, the Task Force identified four areas for possible Federal involvement: coal ports, environmental review, inland transportation, and encouragement of foreign investment. Possible actions within these areas include:

- That the U.S. Corps of Engineers develop an analysis for an optimizing strategy that will capture the benefits of early expenditures on partial port dredging: for example, by dredging to 50 feet initially, and then 55 feet at a later date; or by dredging outbound channels first.
- That support be provided for blanket Congressional authorization for harbor improvement projects approved in the administrative review process. this will significantly shorten the time required from proposal to completion of construction.
- That initiatives be supported that will result in streamlined Federal, state, and local review of such critical energy projects as port expansions.
- The the Federal government remain sensitive to foreign concerns about possible export restrictions by reassuring foreign buyers that the United States will not interrupt steam coal supply except in a national emergency.
- That the Federal government actively encourage foreign investment in domestic steam coal production and transportation systems.
- That the Administration support passage of a coal slurry pipeline bill granting the right of eminent domain to traverse other rights of way.
- That Federal responsibility for communications with foreign countries on steam coal exports be centralized (in State, Commerce, Energy, or the White House).

Dated: March 16, 1981.

Roger W. A. LeGassie,

Acting Assistant Secretary for Fossil Energy.

BILLING CODE 6450-01-M

Bonneville Power Administration

Intent To Prepare a Draft Environmental Impact Statement for Alston-Portland Area; Transmission System Reinforcement

The Bonneville Power Administration (Bonneville) hereby gives notice of its intent to prepare and consider an environmental impact statement (EIS) on a proposal to reinforce the electrical transmission system serving the Longview, Washington, and Portland,

Oregon, areas. This proposal was initially evaluated in the Allston-Portland Area Reinforcement Draft Facility Planning Supplement to Bonneville's Proposed Fiscal Year 1981 Program Draft EIS (DOE/EIS-0060), which was filed with the Environmental Protection Agency on December 6, 1979. Bonneville has since identified alternative plans of service not discussed in the draft EIS supplement. To better facilitate a comparative and meaningful analysis of the alternatives, Bonneville will prepare a revised draft EIS rather than supplement and finalize the existing draft EIS supplement.

The proposed action is to construct, in stages, additions to the electrical transmission grid between the Longview and Portland-Vancouver areas. Five feasible alternative plans of service are presently identified, all involving the construction of new 230-kV and 500-kV overhead transmission line segments utilizing existing right-of-way, purchasing new right-of-way, and upgrading existing lower capacity circuits. Possible routes range approximately from 65 to 95 miles in total length.

No action is a possible alternative to construction. If loads in the Longview and Portland-Vancouver areas grow as forecast and Bonneville takes no action to reinforce the transmission system, the system would operate at substandard reliability. No action would also mean increased energy losses in transmission.

To help determine the scope of issues to be addressed in the EIS and to identify significant issues related to the proposed action, Bonneville will consider the comments it has received on the draft facility planning supplement. In addition, Bonneville will invite current participation by sending a scoping notice to interested persons and agencies and by holding scoping meetings in the project area. When specific dates and places for these meetings are arranged, they will be announced through local news media. Questions and comments about the proposed action and the EIS should be directed to John E. Kiley, Environmental Manager, Bonneville Power Administration, P.O. Box 3621-SJ, Portland, Oregon 97208.

Dated at Portland, Oregon, this 6th day of March 1981.

Stanley E. Efferding,

Acting Administrator.

[FR Doc. 81-8661 Filed 3-19-81; 8:45 am]

BILLING CODE 6450-01-M

Economic Regulatory Administration

O'Connell Oil Co.; Action Taken on Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of action taken on Consent Order.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) gives notice of a Consent Order.

EFFECTIVE DATE: December 1, 1980.

FOR FURTHER INFORMATION CONTACT: James J. Dowd, Audit Director, Office of Enforcement, Northeast District, Economic Regulatory Administration, Room 700, 150 Causeway Street, Boston, MA 02114.

SUPPLEMENTARY INFORMATION: "On December 1, 1980, the Office of Enforcement of the ERA executed a Consent Order with O'Connell Oil Company (O'Connell) of Pittsfield, Massachusetts. Under 10 CFR 205.199J(b), a Consent Order which involves a sum of less than $500,000 in the aggregate, excluding penalties and interest, becomes effective upon its execution."

I. The Consent Order

O'Connell, with its home office located in Pittsfield, Massachusetts, is a firm engaged in the sale and allocation of Motor Gasoline and is subject to the Mandatory Petroleum Price and Allocation Regulations at 10 CFR, Parts 210, 211, 212. To resolve certain civil actions which could be brought by the Office of Enforcement of the Economic Regulatory Administration as a result of its audit of O'Connell, the Office of Enforcement, ERA and O'Connell entered into a Consent Order, the significant terms of which are a follows:

1. O'Connell has agreed to refund a total of $9,361.13 including interest through November 30, 1980 in full settlement of overcharges alleged by the DOE for the period April 1, 1979 through April 30, 1980.

2. The amount that O'Connell overcharged and the applicable interest is as follows:

Blend of gasoline	Class	Amount	Interest through 11/30/80	Total
Regular	Reseller Delivered	$4,578.20		
	Retail Ser. Station	886.15	$1,088.83	$6,756.79
	Retail-Commercial	511.91		
No Lead	Retail Ser. Station	410.89	140.07	894.91
	Reseller Delivered	334.18		
Premium	Reseller Delivered	1,321.60	272.17	1,718.43
	Retail Ser. Station	125.66		
Total		7,679.36	1,481.77	9,361.13

3. O'Connell has agreed to pay a civil penalty of $500.00.

4. The provisions of 10 C.F.R. 205.199J are applicable to the Consent Order.

II. Disposition of Matters Covered by This Consent Order

O'Connell agreed to refund in full settlement of any civil liability with respect to actions which might be brought by the DOE arising out of the allegations specified in paragraph 1, above, the sum of $9,361.13. Refunds of those overcharges will be in the form of certified check(s) made payable to the United States Department of Energy and will be delivered to the Assistant Administrator for Enforcement, ERA. These funds will remain in a suitable account pending the determination of their proper disposition.

The DOE intends to distribute the refund amounts in a just and equitable manner in accordance with applicable laws and regulations. Accordingly, distribution of such refunded overcharges requires that only those "persons" (as defined at 10 CFR 205.2) who actually suffered a loss as a result of the transactions described in the Consent Order receive appropriate refunds. Because of the petroleum industry's complex marketing system it is likely that overcharges have been passed through as higher prices to subsequent purchasers. In fact, the adverse effects of the overcharges may have become so diffused that it is a practical impossibility to identify specific, adversely affected persons, in which case disposition of the refunds will be made in the general interest by an appropriate means such as payment to the Treasury of the United States pursuant to 10 CFR 205.199I(a).

III. Submission of Written Comments

A. *Potential Claimants:* Interested persons who believe that they have a

claim to all or a portion of the refund amount specified in I.1 above, should provide written notification of the claim to the ERA at this time. Proof of claims is not now being required. Written notification to the ERA at this time is requested primarily for the purpose of identifying valid potential claims to the refund amount. After potential claims are identified, procedures for the making of proof of claims may be established. Failure by a person to provide written notification of a potential claim with the comment period for this Notice may result in the DOE irrevocably disbursing the funds to other claimants or to the general public interest.

B. *Other Comments:* The ERA invites interested persons to comment on the terms, conditions, or procedural aspects of the Consent Order. Such comments will be considered solely in connection with DOE's right to rescind or modify the Consent Order upon the discovery of new evidence or upon petition by O'Connell.

You should send your comments or written notification of a claim to Edward F. Momorella, District Manager of Enforcement, Northeast District, Department of Energy, 1421 Cherry Street, Philadelphia, Pennsylvania 19102. You may obtain a free copy of this Consent Order by writing to the same address or by calling (215) 597–2633. You should identify your comments on the outside of the envelope and on the documents you submit with the designation, "Comments on O'Connell Oil Company Consent Order." We will consider all comments which are pertinent as described above and which we receive by 4:30 p.m., Eastern Standard Time, on April 20, 1981. You should identify any information or data which, in your opinion, is confidential and submit it in accordance with the procedures in 10 CFR 205.9(f).

Issued in Philadelphia, Pennsylvania on the 17th day of February 1981.

Edward F. Momorella,

District Manager, Northeast District Enforcement.

[FR Doc. 81-8626 Filed 3-19-81; 8:45 am]

BILLING CODE 6450-01-M

B. M. Hester; Proposed Remedial Order

Pursuant to 10 CFR 205.192(c), the Economic Regulatory Administration (ERA) of the Department of Energy hereby gives notice of a Proposed Remedial Order which was issued to B. M. Hester. This Proposed Remedial Order charges Hester with pricing violations in the amount of $285,587.73 connected with the sale of crude oil and condensate at prices in excess of those permitted by 10 CFR 212, Subpart D during the time period September 1973 through May 1979 in the State of Texas.

A copy of the Proposed Remedial Order, with confidential information deleted, may be obtained from Wayne I. Tucker, Southwest District Manager, Economic Regulatory Administration, Department of Energy, P.O. Box 35228, Dallas, Texas 75235, or by calling (214) 767–7745. Within fifteen (15) days of publication of this notice, any aggrieved person may file a Notice of Objection with the Office of Hearings and Appeals, 2000 M Street, NW, Washington, D.C. 20461, in accordance with 10 CFR 205.193.

Issued in Dallas, Texas, on the 11th day of March 1981.

Wayne I. Tucker,

Southwest District Manager, Economic Regulatory Administration.

[FR Doc. 81-8629 Filed 3-19-81; 8:45 am]

BILLING CODE 6450-01-M

Energy Information Administration

Publication of Alternative Fuel Price Ceilings and Incremental Price Threshold for High Cost Natural Gas

The Natural Gas Policy Act of 1978 (NGPA) (Pub. L. 95–621), signed into law on November 9, 1978, mandated a new framework for the regulation of most facets of the natural gas industry. In general, under Title II of the NGPA, interstate natural gas pipeline companies are required to pass through certain portions of their acquisition costs for natural gas to industrial users in the form of a surcharge. The statute requires that the ultimate cost of gas to the industrial facility does not exceed the cost of the fuel oil which the facility could use as an alternative.

Pursuant to Title II of the NGPA of 1978, Section 204(e), the Energy Information Adminsitration (EIA) herewith publishes for the Federal Energy Regulatory Commission (FERC) computed natural gas ceiling prices and a high cost gas incremental pricing threshold which are to be effective April 1, 1981. These prices are based on the prices of alternative fuels.

FOR FURTHER INFORMATION CONTACT: Leroy Brown, Jr., Energy Information Administration, Federal Building, 12th & Pa. Ave., NW., Rm. 4121, Washington, D.C. 20461, (202) 633–9710.

Section I. Alternative Fuel Price Ceilings

As required by FERC Order No. 50, computed prices are shown for the 48 contiguous States. The District of Columbia's ceiling is included with the ceiling for the State of Maryland. FERC, by an Interim Rule issued on March 2, 1981, in Docket No. RM79–21, revised the methodology for calculating the monthly alternative fuel price ceilings for State regions. Under the revised methodology, the applicable alternative fuel price ceiling published for each of the contiguous States shall be the lower of the alternative fuel price ceiling for the State or the alternative fuel price ceiling for the multistate region in which the State is located.

The price ceiling is expressed in dollars per million British Thermal Units (BTU's). The method used to determine the price ceilings is described in Section III.

State	Dollars per million Btu's
Alabama	$3.95
Arizona [1]	3.45
Arkansas [1]	3.97
California [1]	3.45
Colorado [1]	3.63
Connecticut	4.99
Delaware [1]	4.40
Florida	4.47
Georgia	4.52
Idaho [1]	3.63
Illinois	2.97
Indiana [1]	3.72
Iowa [1]	4.04
Kansas [1]	4.04
Kentucky [1]	3.72
Louisiana	3.64
Maine [1]	5.13
Maryland [1]	4.40
Massachusetts	5.07
Michigan [1]	3.72
Minnesota [1]	4.04
Mississippi	4.46
Missouri	3.82
Montana [1]	3.63
Nebraska [1]	4.04
Nevada [1]	3.45
New Hampshire [1]	5.13
New Jersey [1]	4.40
New Mexico	3.55
New York	4.28
North Carolina [1]	4.55
North Dakota [1]	4.04
Ohio [1]	3.72
Oklahoma	3.80
Oregon [1]	3.45
Pennsylvania [1]	4.40
Rhode Island [1]	5.13
South Carolina [1]	4.55
South Dakota [1]	4.04
Tennessee	4.37
Texas [1]	3.97
Utah [1]	3.63
Vermont [1]	5.13
Virginia [1]	4.55
Washington	3.25
West Virginia [1]	3.72
Wisconsin	3.33
Wyoming	3.25

[1] Region based price as required by FERC Interim Rule, issued on Mar. 2, 1981, in Docket No. RM79–21.

Section II. Incremental Pricing Threshold for High Cost Natural Gas

The EIA has determined that the volume-weighted average price for No. 2 distillate fuel oil landed in the greater New York City Metropolitan area during

January 1981 was $40.18 per barrel. In order to establish the incremental pricing threshold for high cost natural gas, as identified in the NGPA Title II, Section 203(a)(7), this price was multiplied by 1.3 and converted to its equivalent in millions of BTU's by dividing by 5.8. Therefore, the incremental pricing threshold for high cost natural gas, effective April 1, 1981, is $9.01 per million BTU's.

Section III. Method Used to Compute Price Ceilings

The FERC, by Order No. 50, issued on September 28, 1979, in Docket No. RM79-21, established the basis for determining the price ceilings required by the NGPA. FERC also, by Order No. 81, issued in the same docket on May 7, 1980, established that only the price paid for No. 6 high sulfur content residual fuel oil would be used to determine the price ceilings until November 1, 1981.

A. Data Collected

The following data were required from all companies identified by the EIA as sellers of No. 6 high sulfur content (greater than 1 percent sulfur content by weight) residual fuel oil: for each selling price, the number of gallons sold to large industrial users in the months of November 1980, December 1980, and January 1981.[1] All reports of volume sold and price were identified by the State into which the oil was sold.

B. Method Used to Determine Alternative Price Ceilings

(1) *Calculation of Volume-Weighted Average Price.* The prices which will become effective April 1, 1981 (shown in Section I) are based on the reported price of No. 6 high sulfur content residual fuel oil, for each of the 48 contiguous States, for each of the 3 months, November 1980, December 1980, and January 1981. Reported prices for sales in November 1980 were adjusted by the percent change in the nationwide volume-weighted average price from November 1980 to January 1981. Prices for December 1980 were similarly adjusted by the percent change in the nationwide volume-weighted average price from December 1980 to January 1981. The volume-weighted 3-month average of the adjusted November 1980 and December 1980, and the reported January 1981 prices was then computed for each State.

[1] Large Industrial User—A person/firm which purchases No. 6 fuel oil in quantities of 4,000 gallons or greater for consumption in a business, including the space heating of the business premises. Electric utilities, governmental bodies (Federal, State or Local) and the military are excluded.

(2) *Adjustment for Price Variation.* States were grouped into the regions identified by the FERC (see Section III.C.). Using the adjusted prices and associated volumes reported in a region during the 3-month period, the volume-weighted standard deviation of prices was calculated for each region. The volume-weighted 3-month average price (as calculated in Section III.B.(1) above) for each State was adjusted downward by two times this standard deviation for the region to form the adjusted weighted average price for the State.

(3) *Calculation of Ceiling Prices.* The lowest selling price within the State was determined for each month of the 3-month period (after adjusting up or down by the percent change in oil prices at the national level as discussed in Section III.B.(1) above). The products of the adjusted low price for each month times the State's total reported sales volume for each month were summed over the 3-month period for each State and divided by the State's total sales volume during the 3 months to determine the State's average low price. The adjusted weighted average price (as calculated in Section III.B.(2)) was compared to this average low price, and the higher of the values was selected as the base for determining the alternative fuel price ceiling for each State. For those States which had no reported sales during one or more months of the 3-month period, the appropriate regional volume-weighted alternative fuel price was computed and used in combination with the available State data to calculate the State's alternative fuel price ceiling base. The State's alternative fuel price ceiling base was compared to the alternative fuel price ceiling base for the multistate region in which the State is located and the lower of these two prices was selected as the final alternative fuel price ceiling base for the State. The appropriate lag adjustment factor (as discussed in Section III.B.4.) was then applied to the alternative fuel price ceiling base. The alternative fuel price (expressed in dollars per gallon) was multiplied by 42 and divided by 6.3 to estimate the alternative fuel price ceiling for the State (expressed in dollars per million BTU's).

(4) *Lag Adjustment.* The EIA has implemented a procedure to partially compensate for the two-month lag between the end of the month for which data are collected and the beginning of the month for which ceiling prices become effective. It was determined that *Platt's Oilgram Price Report* publication provides timely information relative to the subject. The prices found in *Platt's Oilgram Price Report* publication are given for each trading day in the form of high and low prices for No. 6 residual oil in 21 cities throughout the United States. The low posted prices for No. 6 residual oil in these cities were used to calculate a national and a regional lag adjustment factor. The national lag adjustment factor was obtained by calculating a weighted average price for No. 6 high sulfur residual fuel oil for the ten trading days ending March 12, 1981, and dividing that price by the corresponiding weighted average price computed from prices published by Platt's for the month of January 1981. A regional lag adjustment factor was similarly calculated for four regions. These are: one for FERC Regions A and B combined; one for FERC Region C; one for FERC Regions D, E, and G combined and one for FERC Regions F and H combined. The lower of the national or regional lag factor was then applied to the alternative fuel price ceiling for each State in a given region as calculated in Section III.B.(3).

C. *Listing of States by Region.* States were grouped by the FERC to form eight distinct regions as follows:

Region A	*Region B*
Connecticut	Delaware
Maine	Maryland
Massachusetts	New Jersey
New Hampshire	New York
Rhode Island	Pennsylvania
Vermont	

Region C	*Region D*
Alabama	Illinois
Florida	Indiana
Georgia	Kentucky
Mississippi	Michigan
North Carolina	Ohio
South Carolina	West Virginia
Tennessee	Wisconsin
Virginia	

Region E	*Region F*
Iowa	Arkansas
Kansas	Louisiana
Missouri	New Mexico
Minnesota	Oklahoma
Nebraska	Texas
North Dakota	
South Dakota	

Region G	*Region H*
Colorado	Arizona
Idaho	California
Montana	Nevada
Utah	Oregon
Wyoming	Washington

Issued in Washington, D.C. on March 17, 1981.

Albert H. Linden, Jr.,

Acting Administrator, Energy Information Administration.

Cook Electric Co.; Application for Preliminary Permit

March 17, 1981.

Take notice that Cook Electric Company (Applicant) filed on December 5, 1980, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3834 to be known as Wallowa Valley Improvement District located on Big Sheep Creek and Little Sheep Creek in Wallowa County, Oregon. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Warren P. Chapman, Cook Electric Company, P.O. Box 1071, Twin Falls, Idaho 83301. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of 3 sites. The No. 1 site at Salt Creek Ridge would include a diversion structure, a 54-inch diameter 4,600-foot long penstock, and a powerhouse with two 2,200 kW generating units. The No. 2 site at Canal Creek would include a diversion structure, a 54-inch diameter 400-foot long penstock, and a powerhouse with two 750 kW generating units. The No. 3 site at Ferguson Ridge would include a diversion structure, a 54-inch diameter 1,750-foot long penstock, and a powerhouse with two 800 kW generating units.

The Applicant estimates that the average annual energy output would be 38,989,834 kWh.

Purpose of Project—The power generated by the proposed project would be sold to either Portland Power and Light Company or Idaho Power and Light Company.

Proposed Scope and Cost of Studies under Permit—The Applicant seeks issuance of a preliminary permit for a period of 36 months, during which time they would conduct hydrologic and engineering studies and determine environmental impacts. The Applicant estimates the cost of the studies to be $45,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing form the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 18, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 17, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petition to intervene must be received on or before May 18, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3834. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, NW, Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 3964]

Enagenics; Application for Preliminary Permit

March 17, 1981.

Take notice that Enagenics (Applicant) filed on January 12, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3964 to be known as Three Mile Falls Diversion Dam Project located on Umatilla River in Umatilla County, Oregon. The Application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Thomas H. Clarke, Jr., 1727 Q Street NW., Washington D.C. 20009. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize a government dam owned by the United States Water and Power Resources Service and would consist of a power plant with a total capacity of 3.1 MW. The Applicant estimates that the average annual energy output would be 5.03 GWh.

Purpose of Project—Applicant proposes to market the power generated by the project to local institutions, industrial users, or utilities.

Proposed Scope and Cost of Studies Under Permit—The proposed studies

would include an economic analysis, preliminary engineering, and environmental aspects. Based on the results of the studies, Applicant would decide whether to proceed with more detailed studies and preparation of an application for license to construct and operate the project. Applicant estimates cost of studies would be $35,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Cascade Waterpower Development Corporation's Project No. 3462 filed on September 12, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 and 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petition to intervene must be received on or before April 27, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION," "COMPETING APPLICATION," "PROTESTS", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made a response to this notice of application for preliminary permit for Project No. 3904. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Divison of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 3806-000]

Mitchell Energy Company, Inc.; Application for Preliminary Permit

March 17, 1981.

Take notice that Mitchell Energy Company, Inc. (Applicant) filed on December 1, 1980, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)) for proposed Project No. 3806 to be known as Falmouth Dam Hydroelectric Project located at the U.S. Army Corps of Engineers Falmouth Dam, on Licking River in Pendleton County, Falmouth, Kentucky. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Mitchell L. Dong, President, Mitchell Energy Company, Inc., 173 Commonwealth Avenue, Boston, Massachusetts 02110. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize a U.S. Army Corps of Engineers dam. Project No. 3806 would consist of: (1) a proposed powerhouse located just below the existing dam structure, and having an estimated installed generating capacity of 40 MW; (2) proposed transmission lines; and (3) appurtenant facilities. The project is located on Federal Lands.

The Applicant estimates that the average annual energy output would be 137,000,000kWh.

Purpose of Project—Applicant plans to sell the generated output of energy to Ohio Edison Company or another local utility.

Proposed Scope and Cost of Studies under Permit—The Applicant seeks issuance of a preliminary permit for a period of 36 months. Within the 36 month time period the Applicant intends to conduct engineering, environmental, and legal examinations. The total cost of the proposed examinations is $50,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 19, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July

17, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 18, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3604. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8005 Filed 3-19-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 3650-000]

Mitchell Energy Company, Inc.; Application for Preliminary Permit

March 17, 1981.

Take notice that Mitchell Energy Company, Inc. (Applicant) filed on November 3, 1980, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3650 to be known as Mississippi Lock and Dam No. 2 Hydroelectric Project located at the U.S. Army Corps of Engineers' Mississippi Lock and Dam No. 2 on the Mississippi River near Dakota County, near the township of Hastings, Minnesota. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Mitchell L. Dong, President, Mitchell Energy Company, Inc., 173 Commonwealth Avenue, Boston, Massachusetts 02116. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize a U.S. Army Corps of Engineers' dam. Project No. 3650 would consist of: (1) a proposed powerhouse that would operate as a run-of-the-river installation and located just below the existing dam having generation units with a total capacity of approximately 7.1 MW; (2) proposed transmission lines; and (3) appurtenant facilities. The proposed project is located on Federal lands.

The Applicant estimates that the average annual energy output would be a maximum of 43,500,000 kWh.

Purpose of Project—The Applicant proposes to sell the output of energy generated to a local utility.

Proposed Scope and Cost of Studies Under Permit—The Applicant seeks issuance of a preliminary permit for a period of 36 months. Within the 36 month time frame, the Applicant proposes to conduct engineering, environmental and legal investigations. The Applicant estimates the cost of the proposed investigations to be $50,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 18, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 17, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 18, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for

Project No. 3650. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Projects Nos. 3738-000 and 3813-000]

Mitchell Energy Company, Inc. and, ENAGENICS; Applications for Preliminary Permit

March 17, 1981.

Take notice that Mitchell Energy Company, Inc. (MECI) and ENAGENICS (EN), (Applicants) filed on November 12, 1980, and December 3, 1980, respectively, applications for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for proposed Projects Nos. 3738 and 3813 both to be known as the Merritt Dam Hyroelectric Project located at the Ainsworth Irrigation District, United States Water and Power Resourses Service, on the Snake River, in Cherry County, near Valentine, Nebraska. The applications are on file with the Commission and are available for public inspection. Correspondence with the Applicants MECI and EN, respectively should be directed to: Mr. Mitchell L. Dong, President, Mitchell Energy Company, Inc., 173 Commonwealth Avenue, Boston, Massachusetts 02116, and Mr. Thomas H. Clarke, Jr., President, ENAGENICS, 1727 Q Street, NW, Washington, D.C. 20009. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed projects would utilize a United States Water and Power Resources Service's dam. Project No. 3738 would consist of: (1) a proposed powerhouse located just below the dam where the outlet works conduit branches to serve the Ainsworth Canal and river, and having an estimated installed generating capacity of 4 MW; (2) proposed transmission lines; and (3) appurtenant facilities. Project No. 3813 would consist of: (1) a proposed powerhouse located on the left side of the river outlet works stilling basin and having one unit with an installed capacity of approximately 1.5 MW; (2) a proposed bifurcation installed in the river outlet control house with a slide gate placed at the power penstock side of the bifurcation; (3) a proposed 57-inch diameter buried penstock 80-foot long and connecting the bifurcation to the powerplant; (4) a proposed five mile transmission line to interconnect with the K.R.B. Rural Power District; and (5) appurtenant facilities. The Merritt Dam Hydroelectric Project is located on Federal lands.

MECI estimates that the average annual energy output would be 10,500,000 dWh and EN estimates that the average annual energy output would be 7,500,000 kWh.

Purpose of Project—MECI proposes to sell the generated output of energy to Nebraska Public Power District or other local utility. EN proposes to sell the generated output of energy to K.R.B. Rural Power District or public or private utilities.

Proposed Scope and Cost of Studies under Permit—The Applicants seek issuance of a preliminary permit for a period of 36 months, during which time studies would be made to determine the engineering, environmental, and economic feasibility of the project. In addition, historic and recreational aspects of the project would be determined, along with consultation with Federal, State, and local agencies for information, comments and recommendations relevant to the project. MECI estimates that the cost of the studies would be $50,000. EN estimates that the cost of the studies would be $35,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 18, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 17, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33(a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to e heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1,8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a part to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 18, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Projects Nos. 3738 and 3813. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F.

Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D. C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, NW., Washington, D. C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8957 Filed 3-19-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 3746-000]

Mitchell Energy Company, Inc.; Application for Preliminary Permit

March 17, 1981.

Take notice that Mitchell Energy Company, Inc. (Applicant) filed on November 17, 1980, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 3746 to be known as the Carter Lake Hydroelectric Project located on the Big Thompson River near the City of Boulder in Larimer County, Colorado. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Mitchell L. Dong, President, Mitchell Energy Company, Inc., 173 Commonwealth Avenue, Boston, Massachusetts 02116. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the existing U.S. Water and Power Resources Service's main Carter Lake Dam and would consist of: (1) a powerhouse located at the existing outlet tunnel containing generating units having a total rated capacity of 26,654 kW; (2) a short tailrace discharging to the existing St. Urain Supply Canal; and (3) appurtenant facilities. The Applicant estimates that the average annual energy output would be 70,046,700 kWh.

Purpose of Project—Project energy would be sold to Public Service Company of Colorado or another local utility.

Proposed Scope and Cost of Studies under Permit—Applicant seeks issuance of a preliminary permit for a period of two years, during which time it would prepare studies of the geologic, hydraulic, construction, economic, and environmental aspects of the project. Applicant estimates the cost of the studies under the permit would be $50,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 18, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 17, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 18, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3746. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[Docket Nos. RP80-97, etc.]

Tennessee Gas Pipeline Co., et al.; Informal Settlement Conference

March 17, 1981.

In the matter of Tennessee Gas Pipeline Company, Docket No. RP80-97; Michigan Wisconsin Pipe Line Company, Docket No. RP80-100; Southern Natural Gas Company, Docket No. RP80-102; Natural Gas Pipe Line Company of America, Docket No. RP80-107; Transcontinental Gas Pipe Line Corporation, Docket No. RP80-117; United Gas Pipe Line Company, Docket No. RP80-121; Trunkline Gas Company, Docket No. RP80-106; Columbia Gulf Transmission Company, Docket No. RP80-145; Columbia Gas Transmission Corporation, Docket No. RP80-146; Sea Robin Pipeline Company, Docket Nos. RP80-55 and RP80-118; Florida Gas Transmission Company, Docket No. RP81-7; High Island Offshore System, Docket No. RP81-18; and U-T Offshore

System, Docket No. RP81-20; Notice of Informal Settlement Conference.

Take notice that on March 26, 1981, at 10:00 a.m. there will be an informal conference of all interested persons for the purposes of discussing settlement of issues pertaining to the allocation of transmission costs between the transportation of natural gas and liquids and liquefiable hydrocarbons. Such issues appear to arise in the above-captioned dockets, which while not consolidated, will be the subject of joint discussions as a matter of convenience and to assure consistency in the resolution of these issues to the extent possible.

The meeting place for this conference will be at the offices of the Federal Energy Regulatory Commission, Hearing Room A, 825 North Capitol Street, NE., Washington, D.C. 20426.

Customers, those retaining an interest in the subject liquids and liquefiable hydrocarbons and other interested persons will be permitted to attend this conference, but if such persons have not previously been permitted to intervene in any of the above-captioned dockets by order of the Commission or of a Presiding Administrative Law Judge attendance will not be deemed to authorize intervention as a party in any of these proceedings nor will attendance by a person granted intervention in one or more of the above-captioned proceedings be deemed to authorize intervention in any other docket.

All participants will be expected to come fully prepared to discuss the merits of the issues arising in those proceedings in which they have a pertinent and cognizable interest and to make commitments with respect to such issues and to any offer of settlement or stipulations discussed at the conference.

Inquiries regarding this conference should be directed to Lawrence Acker or Norma Rosner at (202) 357-8585.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6450-85-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Nautral Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceeding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before April 6, 1981.

Please reference the FERC Control Number (JD No.) in all correspondence related to these determinations.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6450-85-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) proceeding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings, together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street NE., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before April 6, 1981.

Please reference the FERC Control Number (JD No.) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceeding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before April 6, 1981.

Please reference the FERC Control Number (JD No) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

feet (MM
control n
purchase
notice.

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceeding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before April 6, 1981.

Please reference the FERC Control Number (JD No) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-01-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceeding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before April 6, 1981.

Please reference the FERC Control Number (JD No) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

Office of Hearings and Appeals

Issuance of Decisions and Orders; Week of Jan. 19 Through Jan. 23, 1981

During the week of January 19 through January 23, 1981, the decisions and orders summarized below were issued with respect to appeals and applications for exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeals

David Bowman, New York, N.Y., BFA-0555, freedom of information

David Bowman filed an Appeal from a denial by the Director of the Office of Safeguards and Security of a request for information which he had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that the document initially withheld under Exemptions 2 and 5 should be released to the public because it is not internal agency material within the scope of Exemption 2, and because any Exemption 5 claim that it could be withheld as a predecisional intra-agency memorandum had been waived by the prior broad distribution of the document. In addition, the DOE found that the document may not be withheld under Exemption 3 because it does not contain information specifically exempted from disclosure by another statute.

Chevron U.S.A., Inc., Washington, D.C., DEA-0323, DEE-2209, crude oil

Chevron U.S.A., Inc. filed an Appeal from the January 1979 Entitlements Notice. In its submission, Chevron: (i) challenged the validity of the methodology used by the Economic Regulatory Administration's Office of Petroleum Operations to correct reporting errors in the Entitlements Program, and (ii) questioned the equity of the ERA's correction to adjust for amended entitlements reports which Chevron had filed. Chevron also filed an Application for Exception claiming that the dollar amount of the adjustment which the ERA calculated for Chevron on the January 1979 Notice was insufficient and that the ERA correction methodology therefore resulted in a gross inequity for Chevron. In considering the applicable regulations, the DOE found that, although the ERA is permitted some discretion in making corrections to entitlements reporting errors, it had not considered certain relevant factors in calculating Chevron's adjustment. The DOE therefore granted Chevron's Appeal and issued $6,487,575 of additional entitlements to the firm. Chevron's Application for Exception was deemed to be moot and was dismissed.

Getty Oil Co., Los Angeles, Calif., BFA-0558, freedom of information

Getty Oil Company filed an Appeal from a partial denial by the Manager of the Western Enforcement District of the Economic Regulatory Administration of a request for information which the firm had submitted under the Freedom of Information Act. The document which the firm requested contained suggested model language for enforcement documents concerning crude oil import license transactions. In considering the Appeal, the DOE found that the District Manager correctly determined that Exemption 5 applied to the withheld document since the document was advisory in nature and reflected the individual views of its authors. The DOE also found that the District Manager had correctly determined that its disclosure would be contrary to the public interest.

Hughes Oil Co., Atlanta, Ga., BFA-0557, freedom of information

On December 17, 1980, the Hughes Oil Company filed an Appeal from a denial by the District Manager for the Southeast District of the Economic Regulatory Administration of a request for information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that the documents which were initially withheld under Exemption 7(A) should not be released to the public. The DOE found that disclosure of the documents would interfere with enforcement proceedings and that a generic index of the withheld documents was appropriate since, in this situation, the release of a detailed index was not required by law.

Request for Modification and/or Rescission

BP Oil, Inc., Cleveland, Ohio, BER-0694, gasohol

BP Oil, Inc. filed a Request for Modification or Rescission of a Decision and Order issued to Hollowell Oil Co. on October 31, 1980. *Hollowell Oil Co.*, 6 DOE ¶ 81,367 (1980). In its Application, BP sought modification of the Hollowell Decision to require Hollowell to blend gasohol at the accepted ratio of nine parts motor gasoline to one part alcohol. In the alternative, BP sought modification of the reporting requirements placed upon Hollowell by the Decision and Order. In considering the request, the DOE found that the provisions of the Decision and Order which permitted Hollowell to allow its customers to upgrade its gasoline-alcohol blend prior to retail sale could allow the firm increased flexibility in its gasohol marketing program and thereby further the production and use of gasohol. The DOE also found that the reporting requirements which BP suggested would be an onerous and unnecessary burden for Hollowell. Accordingly, BP's request for modification was denied.

Requests for Exception

Akron/Canton Truck Plaza, Inc., North Canton, Ohio, DEE-7052, motor gasoline

Akron/Canton Truck Plaza, Inc., filed an Application for Exception from the provisions of 10 CFR Part 211, in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm was not experiencing any financial difficulties which would warrant exception relief. Accordingly, the Application was denied.

Astro, Inc., Camden, North Carolina, DEE-7495, gasohol

Astro, Inc. filed an Application for Exception from the provisions of 10 CFR Part 211, in which the firm sought an increased allocation of motor gasoline for the express purpose of blending and marketing gasohol. In considering the request, the DOE found that exception relief was necessary to enable the firm to produce and market gasohol.

Bailey's Corner Store, Clinton, Washington, BEO-0469, motor gasoline

Bailey's Corner Store filed an Application for Exception from the provisions of 10 CFR Part 211, in which the firm sought an increase in its base period allocation of gasoline. In considering the request, the Department of Energy found that the firm had failed to demonstrate that it would be adversely affected to a significant degree if exception relief were not granted. Accordingly, the Application for Exception was denied.

Bolin Oil Co., Uniontown, Ohio, DEE-4775, motor gasoline

Bolin Oil Company filed an application for Exception from the provisions of 10 CFR 211.102, in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm had failed to show that it was experiencing a gross inequity or unfair distribution of burdens as a result of DOE

regulations. Accordingly, exception relief was denied.

Charles H. Booth, Inc., Anniston, Ala., BEE–0674, gasohol

Charles H. Booth, Inc. filed an Application for Exception from the provisions of 10 C.F.R. Part 211, in which the firm sought exception relief increasing its allocation of unleaded motor gasoline for the purpose of blending and marketing gasohol. In considering the request, the DOE found that exception relief was necessary to enable the firm to expand its gasohol marketing operations. Accordingly, exception relief was granted.

E. B. Brooks, Jr., Dallas, Texas, DEE–2222, crude oil

E. B. Brooks, Jr. (Brooks) filed an Application for Exception from the provisions of 10 C.F.R. Part 212, Subpart D, in which the firm sought to reclassify the oil sold from the Baptist Foundation Lease as stripper well oil because of decreased production due to equipment malfunction. In considering the request, the DOE found that the lease was ineligible for stripper well classification, since average daily production figures must be adjusted when significant decreases in production are attributable to mechanical failure. Accordingly, exception relief was denied.

Dale Olson Oil Co., Sioux Falls, S. D., BEE–0501, gasohol

Dale Olson Oil Company filed an Application for Exception from the provisions of 10 C.F.R. § 211.102, in which the firm sought an increased allocation of motor gasoline for the purpose of blending and marketing gasohol. In considering the request, the DOE found that exception relief should be granted because Olson had demonstrated that a demand for gasohol exists in its market area, that it is in an advantageous position to further the production and use of gasohol, that it has made a substantial commitment of resources toward that end, and that DOE regulations significantly frustrate its project. In denying objections to the grant of relief, the DOE discussed (i) whether an applicant is required to use all of its existing allocation of gasoline for blending gasohol before it is entitled to exemption relief; (ii) whether a supplier which conducts its own gasohol activities should be excused from supplying additional gasoline to a firm which seeks exception relief for gasohol production and marketing; and (iii) whether OHA's failure to notify potential suppliers and to give them an opportunity to comment prior to the issuance of the proposed Decision and Order violated their due process rights. Accordingly, exception relief was granted.

Dunn Fuels, Adrain, Mich., DEE–5842 DES–5842, motor gasoline

Dunn Fuels filed an Application for Exception from the provisions of 10 C.F.R. Part 211, Subparts A and F, in which the firm sought an increase in base period allocation of motor gasoline. In considering the request, the DOE found that the firm had failed to demonstrate that it was adversely affected to a significant degree by DOE Regulations. Accordingly, exception relief was denied.

Faith Christian Assembly, Lincoln Park, Mich., BEO–0427, temperature restrictions

The Faith Christian Assembly filed an Application for Exception from the provisions of 10 C.F.R. Part 490, in which the firm sought permission to raise the maximum heating temperature in its building above 65°F. In considering the request, the DOE found that Faith Christian Assembly had failed to establish that the Temperature Restrictions cause it to incur a special hardship, gross inequity, or unfair distribution of burdens. Accordingly, exception relief was denied.

Flippo's Oil Company, Harrisonburg, Virginia; BEE–1071, gasohol

Flippo's Oil Company filed an Application for Exception from the provisions of 10 CFR Part 211, in which the firm sought an increased allocation of unleaded motor gasoline with which to blend gasohol. In considering the request, the DOE found that exception relief was necessary to prevent the firm from suffering a gross inequity as a result of the Mandatory Petroleum Allocation Regulations which allocate motor gasoline on the basis of historical relationships. Accordingly, exception relief was granted.

Gulf Oil Corporation, Houston, Texas; BXE–1204, crude oil

Gulf Oil Corporation filed an Application for Exception from the provisions of 10 CFR Part 212, Subpart D. Exception relief was granted to permit Gulf to sell at upper tier ceiling prices 70.59 percent of the crude oil produced from the Kirby Lumber Company *et al* "C" Lease.

Jerry's Marathon, Winamac, Indiana; BEO–0550, motor gasoline

Jerry's Marathon filed an Application for Exception from the provisions of 10 CFR Part 211, in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that exception relief was necessary to prevent the firm from experiencing a gross inequity as a result of a significant change in the firm's operating posture intended to increase its gasoline sales volume. Accordingly, exception relief was granted.

Krantz Shell Service, New Philadelphia, Ohio; BEO–0613, motor gasoline

Krantz Shell Service filed an Application for Exception from the provisions of 10 CFR Part 211, in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm was not experiencing a serious hardship, gross inequity, or unfair distribution of burdens as a result of the DOE allocation regulations. Accordingly, exception relief was denied.

L. W. Green Co., Oxford, Kansas; DEE–7081, motor gasoline

L. W. Green Co. filed an Application for Exception from the provisions of 10 CFR Part 211, in which the firm sought assignment of a lower-priced supplier of motor gasoline. In considering the request, the DOE found that the firm was not experiencing serious competitive difficulty in its sales of motor gasoline and that it had not been forced to reduce its gross margin on those sales. Accordingly, exception relief was denied.

Lee Oil Company, Selmer, Tennessee; DEE–5962, motor gasoline

Lee Oil Company filed an Application for Exception from the provisions of 10 C.F.R. Part 211, in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm failed to show that it would suffer a significant financial hardship in the absence of exception relief. Accordingly, exception relief was denied.

Linn Enterprises, Inc., Cottage Grove, Minnesota; DEE–6854, motor gasoline

Linn Enterprises, Inc. filed an Application for Exception from the provisions of 10 C.F.R. Part 211, in which the firm sought an increase in the base period allocation of motor gasoline of two retail outlets which the firm operates. In considering the request, the DOE found that the firm was not experiencing any financial difficulties which warranted exception relief. The DOE also found that the residents of the community in which the applicant's retail outlets are located are not experiencing an unfair distribution of burdens. Accordingly, exception relief was denied.

Alex Nuszen, Patchogue, New York; DEE–777, motor gasoline

Alex Nuszen filed an Application for Exception from the provisions of 10 C.F.R. Part 211, in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that exception relief was necessary to prevent the firm from experiencing a gross inequity and serious hardship as a result of its low base period volumes. Accordingly, exception relief was granted.

P F & E Oil Company, Brownwood, Texas; DEE–6411, motor gasoline

P F & E Oil Company filed an Application for Exception from the provisions of 10 C.F.R. Part 211, in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm failed to show that either it or the community it serves was suffering an inequity or an unfair distribution of burdens as a consequence of DOE regulations. Accordingly, exception relief was denied.

Scenic Texaco Automotive Center, Alamogordo, New Mexico; BEO–0370, motor gasoline

Scenic Texaco Automotive Center filed an Application for Exception from the provisions of 10 C.F.R. Part 211, in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the applicant has no reasonable expectation of receiving an increase in the base period allocation of motor gasoline for the retail outlet which it purchased subsequent to the updating of the base period. The DOE also found that the residents of the community in which the applicant is located are not experiencing an unfair distribution of burdens. Accordingly, exception relief was denied.

Schaeffer Oil Co., Winner, South Dakota; BEE–0326 gasohol

Schaeffer Oil Company filed an Application for Exception from the provisions

of 10 C.F.R. Part 211, in which the firm sought an increase in its base period allocation of unleaded gasoline in order to blend and sell gasohol. In considering the request, the DOE found that the firm was not in an advantageous position to further the production and use of gasohol. Accordingly, exception relief was denied.

Sigmor Refining Company, Three Rivers, Texas; DEE-0737, motor gasoline

Sigmor Refining Company filed an Application for Exception regarding the computation of maximum allowable selling prices for motor gasoline produced at a refinery which it purchased and rebuilt. Since the refinery had not previously produced motor gasoline, the Mandatory Petroleum Price Regulations are not specifically designed to apply to the circumstances of this case. Sigmor requested that the DOE establish: (i) May 15, 1973 selling prices for regular, premium, and unleaded motor gasoline for the firm's wholesale, f.o.b. refinery class of purchaser; (ii) a May 1973 cost for certain feedstocks which are purchased and refined or blended and which are attributable to the production of motor gasoline; and (iii) nonproduct costs for each of the allowable nonproduct cost categories specified in 10 C.F.R. § 212.83(c).

In considering Sigmor's request, the DOE found that, although Sigmor's acquisition of an existing refinery resulted in the firm's being classified as a "refiner" for purposes of DOE Price Regulations, Sigmor has not previously produced or sold motor gasoline. Consequently, motor gasoline produced at the firm's refinery is a "new item" which should be priced in accordance with 10 C.F.R. § 212.111. Since Sigmor was unable to obtain the May 15, 1973 prices charged by other refiners in the marketing area, the DOE permitted the firm to use May 15, 1973 prices published in an industry publication as its May 15, 1973 selling prices. The DOE also permitted Sigmor to impute a May 15, 1973 price for unleaded motor gasoline. The DOE allowed Sigmor to impute its May 1973 costs of certain feedstocks, other than crude oil, by using data available from the files of a consultant which had wide experience working with refiners in Sigmor's area. In addition, the DOE allowed Sigmor to impute its May 1973 nonproduct costs on the basis of the refinery's actual nonproduct costs in early 1978. Finally, the DOE determined that in view of the inordinate administrative delay which occured between the date of the firm's original submission and the date of the determination by the DOE, the relief granted to Sigmor should be approved retroactive to the date the firm began producing motor gasoline.

Stepp's General Tire, Inc., Ioeger, West Virginia; BEO-1028, motor gasoline

Stepp's General Tire, Inc. filed an Application for Exception from the provisions of 10 C.F.R. Part 211, in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm was not experiencing a serious hardship, gross inequity, or unfair distribution of burdens as a result of the DOE allocation regulations. Accordingly, exception relief was denied.

Texaco, Inc., White Plains, New York, BEE-1323, crude oil

Texaco, Inc. filed an Application for Exception from the provisions of 10 C.F.R. § 212.84(h), which provides that landed costs for imported crude oil shall be considered to be incurred in accordance with a refiner's customary accounting procedures. Under Texaco's customary accounting procedures, the costs for imported crude oil accured when the crude oil was landed in the United States. In considering the request, the DOE found that changes in the credit terms of Persian Gulf countries, and new shipping procedures had rendered Texaco's customary accounting procedures anomalous. The DOE further found that because of the operation of § 212.84(h) Texaco would be discouraged from using its sour crude oil refining capacity. Accordingly, exception relief was granted in order to allow Texaco to accure its costs for imported crude oil on a loaded basis.

Tom McDonald Oil Co., Inc., Tampa, Florida, DEE-2309, motor gasoline

Tom McDonald Oil Co., Inc., filed an Application for Exception from the provisions of 10 C.F.R. Part 211, in which the firm sought an increase in its base period allocations of motor gasoline. In considering the request, the DOE found that the firm had failed to show that it would be adversely affected to a significant degree in the absence of exception relief. Accordingly, exception relief was denied.

Tomahawk Oil Company, Hiawatha, Kansas, BEE-0331; gasohol

Tomahawk Oil Company filed an Application for Exception from the provisions of 10 C.F.R. Part 211, in which the firm sought an increase in its base period allocation of unleaded gasoline in order to blend and sell gasohol. In considering the request, the DOE found that exception relief was appropriate in order to further the national policy objective of developing alternative energy sources. Accordingly, exception relief was granted.

Veyo Mercantile, Veyo, Utah, BEO-0780, motor gasoline

Veyo Mercantile filed an Application for Exception from the provisions of 10 C.F.R. Part 211, in which the firm sought exception relief increasing its base period allocation of motor gasoline. In considering the request, the DOE found that the firm had failed to show that it was suffering serious financial difficulties as a result of the DOE regulations. Accordingly, exception relief was denied.

Wise Oil & Fuel, Inc., Cambridge, Maryland, DEE-7564, gasohol

Wise Oil & Fuel, Inc. filed an Application for Exception from the provisions of 10 C.F.R. Part 211, in which the firm sought an increased allocation of motor gasoline for the express purpose of blending and marketing gasohol. In considering the request, the DOE found that exception relief was appropriate in order to further the national policy objective of developing alternate energy sources. The DOE considered and rejected Shell's objections that (1) the appropriate form for the issues involved is a rulemaking rather than an adjudicatory proceeding; (2) OHA must comply with the requirements of the National Environmental Policy Act in granting such relief; (3) Wise has not demonstrated sufficient demand for gasohol, a significant commitment to gasohol production or that it is in an advantageous position to further the national policy objective of increasing the use of gasohol; (4) the level of exception relief was excessive; (5) that Shell Unleaded is an inappropriate blendstock for gasohol. Accordingly, exception relief was granted.

Zitro Energy Consultants Holtsville, New York, DEE-2394, motor gasoline

Zitro Energy Consultants filed an Application for Exception from the provisions of 10 C.F.R. § 211.9, in which the firm sought the termination of the supplier/purchaser arrangement between Zitro and its base period supplier. In considering the request, the DOE found that the firm was suffering neither gross inequity nor serious hardship. Accordingly, exception relief was denied.

Requests for Stay

Huntway Refining Company, Wilmington, California, BES-0125, BST-0125, crude oil

Huntway Refining Company (Huntway) filed Applications for Stay and Temporary Stay of certain portions of a Decision and Order issued to the firm by the DOE Office of Hearings and Appeals. *Huntway Refining Co.*, 6 DOE ¶ 81,256 (1980), which partially denied the firm's request for an exception from the provisions of 10 C.F.R. § 211.67, regarding the treatment under the Entitlements Program of Huntway's starting crude oil inventory. Huntway sought the stay relief pending a determination on the merits of a Petition for Review which the firm intends to file with the Federal Energy Regulatory Commission and pending further judicial review in the event Huntway's Petition is unsuccessful. The stay, if granted would increase by approximately $714,000 the value of the entitlements to be issued to the firm in the next Entitlements List. In considering the request, the DOE found that Huntway had neither raised significant issues nor presented unusual circumstances and the DOE therefore concluded that the firm had failed to show any likelihood of success on the merits of its Petition for Review with FERC or in judicial review. The DOE also found that Huntway would be unlikely to suffer an irreparable injury in the absence of stay relief since revenues will be available following the expiration of the Entitlements Program which will permit the satisfaction of the firm's claims in the event the firm is successful in its appeals. Finally, the DOE found that the approval of Huntway's stay request would be inadvisable on public policy grounds since the granting of stays to all firms which have been denied entitlements exception relief based on the possibility that the firms will be successful in their appeals would result in a massive transfer of funds through the Entitlements Program from all firms on the Entitlements List to all firms which have recently been denied relief. Consequently, the DOE determined that Huntway had failed to

satisfy the criteria for the approval of a stay and denied the Application for Stay and dismissed the Application for Temporary Stay.

Plateau, Inc., Washington, D.C., BES-0128, crude oil

Plateau, Inc. filed an Application for Stay seeking to increase the amount of exception relief tentatively granted to the firm in a Proposed Decision and Order on December 16, 1980. In considering the Application, the DOE determined that the firm had made a strong showing of the likelihood of success on the merits of its Statement of Objections to the Proposed Decision. Plateau's stay request was therefore granted.

Supplemental Order

Warrior Asphalt Company of Alabama, Washington, D.C., BEX-0150, crude oil

The DOE issued a Supplemental Order to the Warrior Asphalt Company of Alabama which corrected the calculation of that firm's entitlements purchase obligation for the period December 1980 through May 1981 which had been established in a recent Proposed Decision and Order issued to Warrior.

Motion For Discovery

Mitchell Energy Corporation, Houston, Texas, DRD-0093, DRH-0093, crude oil

Mitchell Energy Corporation (Mitchell) filed a Motion for Discovery and a Motion for Evidentiary Hearing in connection with its Statement of Objections to a Proposed Remedial Order issued to it by ERA Region VI on January 28, 1978. The PRO alleged that Mitchell misclassified certain of its crude oil producing properties and consequently charged unlawful prices for crude oil from those properties. In its Motion for Discovery, Mitchell sought to discover all documents concerning the meaning of and basis for three Federal Energy Administration interpretive rulings which it claimed supported its classification of the properties. It also sought to discover information concerning the sampling techniques ERA used in determining which of Mitchell's properties to audit. The DOE denied all discovery pertaining to the meaning of the three rulings because it found such discovery could not aid the agency in evaluating Mitchell's contention that its interpretation of the ruling was the only one permissible. However, some discovery concerning audit sampling techniques was permitted on the ground that access to such information was necessary to enable Mitchell to prove that the agency had not audited a random sample of its properties and that the self-audit remedy requested by ERA was therefore inappropriate.

In its Motion for Evidentiary Hearing, Mitchell requested that the DOE convene an evidentiary hearing with the following witnesses: (1) officials of the DOE Office of General Counsel to prove Mitchell's interpretation of the term "property" is consistent with that of FEA interpretive rulings; (2) the Senior Vice-President of Mitchell and an official of the Texas Railroad Commission, to give information concerning Mitchell's accounting practices; (3) a DOE auditor to give information concerning the audit sampling techniques used. The DOE denied the Motion with respect to the first two categories of witnesses because it found that they could not provide information concerning any relevant factual issues in the case. With regard to the auditor, the DOE decided that it could not determine whether an evidentiary hearing was necessary on the audit sampling issue until discovery was completed. This portion of the Motion was therefore dismissed without prejudice to refiling within 30 days after completion of discovery.

Interim Order

The following firm was granted Interim Exception Relief which implements the relief which the DOE proposed to grant in an order issued on the same date as the Interim Order:

Company Name, Location, and Case No.

Energy Cooperative, Inc., Washington, D.C., BEN-0079

Protective Orders

The following firms filed Applications for Protective Orders. The applications, if granted, would result in the issuance by the DOE of the proposed Protective Orders submitted by the firms. The DOE granted the following applications and issued the requested Protective Orders as Orders of the Department of Energy:

Company Name, Location, and Case No.

Commonwealth Oil/Chevron U.S.A., Washington, D.C., BEJ-0175
Commonwealth Oil/Mobil Oil, BEJ-0177
Dow Chemical, U.S.A./Chevron U.S.A., Inc., Washington, D.C., BEJ-0179
Energy Cooperative, Inc., Washington, D.C., BEJ-0178
Kerr-McGee Corporation

Petition

The following firm filed an Application for Exception, Temporary Exception, Stay, and/or Temporary Stay from the provisions of the Motor Gasoline Allocation Regulations. The request, if granted, would result in an increase in the firm's base period allocation of motor gasoline. The DOE issued a Decision and Order which determined that the request be granted.

Company Name, Location, and Case No.

Paris Avenue Amoco, New Orleans, LA, DEO-0366

The following firms filed Applications for Exception, Temporary Exception, Stay, and/or Temporary Stay from the provisions of the Motor Gasoline Allocation Regulations. The requests, if granted, would result in an increase in the firms' base period allocation of motor gasoline. The DOE issued Decisions and Orders which determined that the requests be denied.

Company Name, Location, and Case No.

Bill's Standard, Washington, DC, BEO-0591
Clark Super 100, Hazel Park, MI, BEO-1066
George's of Seymour, Inc., Seymour, TN, BEO-0451
Hess Store, Baltimore, MD, BEO-1262
Shelby Arco Station, Madison, VA, DEO-0374

Dismissals

The following submissions were dismissed without prejudice to refiling at a later date:

Company Name and Case No.

Associate Fellow, BFA-0561
Atlantic Richfield Co., DEE-2092
Barielle Oil Co., Inc., BXE-0049
BRO Oil Company, Inc., BEE-0710
Carey Johnson Oil Co., Inc., BEE-0856
Dixon Oil Co., BEE-1521
Energy Development of California, Inc., DRO-0150
Giant Refining Co., DEE-1076
Golden Gate Petroleum Co., BRS-0117
Independent Refining Corp., DEE-1553
Instrument Control Service, BFA-0584
Keith W. Kennedy, DEE-2653; DST-2653; DES-2653
Michaelson Producing Co., DRA-0217
Monsanto Company, DXE-2537
Pierremont Petroleum Corp., DEE-5536
Seneca Oil Co., BEE-1506 through BEE-1512; BEL-1506 through BEL-1512
Sheboygan Oil, Inc., DEE-3781
Ten-Com Service, BEE-1183
TPCO, Inc., BEE-1392; BEL-1392
Town Hall Westport, DEE-0221

Copies of the full text of these decisions and orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B-120, 2000 M Street NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except federal holidays. They are also available in *Energy Management: Federal Energy Guidelines*, a commercially published looseleaf reporter system.

Thomas L. Wieker,
Acting Director, Office of Hearings and Appeals.

March 13, 1981.

BILLING CODE 6450-01-M

ENVIRONMENTAL PROTECTION AGENCY

[ER-FRL-1763-7]

Availability of Environmental Impact Statements

AGENCY: Office of Federal Activities (A-104), US Environmental Protection Agency.

PURPOSE: This notice lists the environmental impact statements (EISs) which have been officially filed with the EPA and distributed to Federal agencies and interested groups, organizations and individuals for review pursuant to the Council on Environmental Quality's regulations (40 CFR Part 1506.9) during the week of March 9, 1981 to March 13, 1981.

REVIEW PERIODS: The 45-day review period for draft EIS's listed in this notice

is calculated from March 20, 1981 and will end on May 4, 1981. The 30-day review period for final EIS's as calculated from March 20, 1981 will end on April 20, 1981.

EIS AVAILABILITY: To obtain a copy of an EIS listed in this notice you should contact the Federal agency which prepared the EIS. If a Federal agency does not have the EIS available upon request you may contact the Office of Federal Activities, EPA, for further information. Copies of EIS's previously filed with EPA or CEQ which are no longer available from the originating agency are available with charge from the following source: Information Resources Press, 1700 North Moore Street, Arlington, Virginia 22209, (703) 558–8270.

FOR FURTHER INFORMATION CONTACT: Kathi L. Wilson, Office of Federal Activities, Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, (202) 245–3006.

Dated: March 17, 1981.

William N. Hedeman, Jr.,

Director, Office of Federal Activities (A–104).

DEPARTMENT OF AGRICULTURE

Contact: Barry Flamm, Office of Environmental Quality, (202) 447–3965.

SOIL CONSERVATION SERVICE

Final

JUMPER CREEK WATERSHED PROTECTION, SUMTER COUNTY, FLORIDA, Date Filed 3–12–81—proposed installation of water control/grade stabilization structures, channel rehabilitation and land treatment. Comments made by: USDA, DOC, HEW, COE, DOT, EPA, State and Local Agencies. (EIS Order No. 810199.)

FOREST SERVICE

Final

PANDORA MOTH MANAGEMENT PLAN, COCONINO COUNTY, ARIZONA, Date Filed 3–12–81—proposed suppression of moth infestation of Ponderosa Pine around Jacob Lake within Kaibab National Forest. Comments made by: DOI, USDA, EPA, DOT FERC, State and Local Agencies, Groups, Individuals and Businesses. (EIS Order No. 810200.)

US ARMY CORPS OF ENGINEERS

Contact: Richard Makinen, Office of the Chief of Engineers, (202) 272–0121.

Final

SAVANNAH HARBOR NAVIGATION CHANNEL WIDENING, CHATHAM COUNTY, GEORGIA, Date Filed 3–9–81—widening of channel to 500 feet from Fig Island Turning Basin to King Island Turning Basin. Comments Made by: EPA, FEA, HEW, HUD, DOI, DOC, DOE, State and Local Agencies. (EIS Order No. 810185.)

PAXTON CREEK AND SUSQUEHANNA RIVER FLOOD CONTROL, DAUPHIN COUNTY, PENNSYLVANIA, Date Filed 3–9–81—measures include flood wall, channel modification and construction of a detention reservoir. Comments made by: DOI, HUD, HEW, DOC, DOE, SRBC, EPA, State Agencies. (EIS Order No. 810186.)

HILO LAVA FLOW CONTROL, ISLAND AND STATE OF HAWAII, Date Filed 3–13–81—proposed protection plan involving construction of barrier segments only in the event of an actual eruption of Mauna Loa. Comments made by: DOI, DOC,USDA, HUD, EPA, DOT, State Agencies, Groups, Individuals and Businesses. (EIS Order No. 810193.)

BONNEVILLE LOCK AND DAM, NAVIGATION, OREGON AND WASHINGTON, Date Filed 3–13–81—proposed construction of new navigation lock with dimensions of 86 by 675 feet south of existing lock and powerhouse. Comments made by: DOC, DOI, DOT, EPA, USDA. (EIS Order No. 810194.)

HALSTEAD FLOOD CONTROL PLAN, HARVEY COUNTY, KANSAS, Date Filed 3–12–81—proposed construction of horseshoe levee, and channel enlargement and realignment. Comments made by: HUD, DOC, DOT, USDA, ACH, HEW, DOI, EPA, State and Local Agencies. (EIS Order No. 810096.)

EAST BAY HARBOR, OLYMPIA HARBOR, THURSTON COUNTY, WASHINGTON, Date Filed 3–12–81—proposed construction of East Bay Marina including moorage for 800 boats, recreational facilities, and cargo handling area. Comments made by: DOC, DOD, USDA, HUD, DOE, DOT, State and Local Agencies, Groups, Individuals and Businesses. (EIS Order No. 810201.)

BRAZOS ISLAND HARBOR, CHANNEL IMPROVEMENT, CAMERON COUNTY, TEXAS, Date Filed 3–13–81—proposed enlargement of turning basin, main channel and entrance channel. Comments made by: AHP, DOI, EPA, DOT, State and Local Agencies. (EIS Order No. 810203.)

PRESQUE ISLE PENINSULA BEACH EROSION, LAKE ERIE, ERIE COUNTY, PENNSYLVANIA, Date Filed 3–13–81—proposed placement of 58 offshore breakwater segments extending from the west end of the peninsula through Sunset Point. Comments made by: DOT, DOC, USDA, DOI HUD, EPA, State Agencies, Groups and Individuals. (EIS Order No. 810204.)

FOURCHE BAYOU BASIN, LITTLE ROCK, PULASKI COUNTY, ARKANSAS, Date Filed 3–12–81—proposed flood control improvements consisting of channel clearing, bank shaping and alteration of highway and railroad bridges. Comments made by: EPA, DOI, DOC, AHP, DOE, State and Local Agencies. (EIS Order No. 810205.)

Report

CHARLESTON HARBOR NAVIGATION IMPROVEMENTS, CHARLESTON COUNTY, SOUTH CAROLINA, Date Filed 3–11–81—supplemental information. (EIS Order No. 810191.)

EXTENSION: Bowline Point Generating Station, Haverstraw, NY, published FR February 13, 1981—review period has been extended to March 27, 1981. (No. 810100.)

DEPARTMENT OF COMMERCE

[EN-FRL 1783-2]

JRB Associates, Inc., Contracted To Provide Witnesses To Assist in Preparing for Legislation

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: The EPA has contracted with JRB Associates, Inc. to provide expert witnesses to assist the Agency in preparing for litigation. In the process of procuring these expert witnesses, JRB may require, and EPA may permit, access to documents containing confidential business information.

EFFECTIVE DATE: April 3, 1981.

FOR FURTHER INFORMATION CONTACT: Jonathan D. Libber, Attorney-Advisor, Special Programs and Policy Staff, Office of Enforcement, Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460, (202) 472-3065.

SUPPLEMENTARY INFORMATION: The EPA frequently needs expert witnesses in order to effectively prosecute violations of the environmental statutes it enforces. Expert witnesses are used both in preparation for litigation and in the actual course of a tribal or administrative proceeding. The demand for qualified expert witnesses has often been inadequately satisfied. To satisfy this demand more effectively, EPA has contracted with JRB Associates, Inc. to locate and subcontract with qualified expert witnesses as EPA needs them. The contract numbered 68-01-6187 will run until September 1981, but may be extended up to two additional years at the option of EPA.

In order to locate expert witnesses, JRB will need some knowledge of the technical and scientific issues involved in the cases. Therefore, JRB may need access to some confidential business information obtained by EPA under the Clean Air Act, the Clean Water Act, the Safe Drinking Water Act, the Resource Conservation and Recovery Act, the Toxic Substances Control Act, and the Federal Insecticide, Fungicide, and Rodenticide Act. EPA has determined pursuant to 40 CFR 2.301(h), 2.303(h), 2.304(h), 2.306(h), 2.308(j), and 2.307(h) that is may need to disclose confidential business information to JRB. Whenever specific materials are no longer required by JRB to procure witnesses, JRB will return the confidential business information to the Agency.

JRB is legally required under the terms of the contract to safeguard from unauthorized disclosure any confidential business information it receives from EPA. In addition JRB has been authorized under the EPA Toxic Substances Control Act Confidential Business Information Security Manual to have access to confidential business information. EPA has approved JRB's security plan. EPA has also conducted the required inspection of the JRB facilities and has found them to be in compliance with the requirements of the Security Manual.

When JRB locates and subcontracts with an expert witness with EPA's approval, each affected business will receive notice prior to disclosure of confidential business information to that subcontractor as provided by EPA regulations.

Dated: February 23, 1981.

Jeffrey G. Miller,

Acting Assistant Administrator for Enforcement.

BILLING CODE 6560-32-M

[OPP-50529; PH-FRL 1783-4]

Monsanto Co.; Renewal of Experimental Use Permit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has issued a renewal of an experimental use permit to Monsanto Co., for use of the herbicide glyphosate on forage grasses and legumes to evaluate control of weeds. Such permits are in accordance with and subject to the provisions of 40 CFR Part 172, which defines EPA procedures with respect to the use of pesticides for experimental purposes.

DATE: This experimental use permit expires January 29, 1982.

FOR FURTHER INFORMATION CONTACT: Robert J. Taylor, Product Manager (PM) 25, Registration division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 412E, CM No. 2, 1921 Jefferson Davis Highway, Arlington, VA 22202 (703-557-7086).

SUPPLEMENTARY INFORMATION: EPA has issued a renewal of an experimental use prmit to Monsanto Co., 1101 17th St., NW., Washington, D.C. 20036. This experimental use permit (524-EUP-46) allows the use of 3,720 pounds of the remaining quantity of the herbicide glyphosate on forage grasses and legumes to evaluate control of weeds. A

total of 2,600 acres are involved. The program is authorized only in the States of Alabama, Arkansas, California, Colorado, Connecticut, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Massachusetts, Maryland, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, Wisconsin, and Wyoming. The program was previously effective from November 14, 1978 to November 14, 1980. It is now effective from January 29, 1981 to January 29, 1982. Temporary tolerances for residues of the herbicide in or on forage legumes, liver and kidney of cattle, goats, hogs, horses, poultry, and sheep have been established. A permanent tolerance for residues of glyphosate in or on the forage grasses has been established (40 CFR 180.364).

Persons wishing to review this experimental use permit are referred to the designated product manager. Inquiries concerning this permit should be directed to the person cited above. It is suggested that interested persons call before visiting the EPA Headquarters Office, so that the appropriate file may be made available for inspection purposes from 8:00 a.m. to 4:00 p.m., Monday through Friday, excluding legal holidays.

(Sec. 5, 92 Stat. 819, as amended (21 U.S.C. 136))

Dated: March 13, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

Intent To Issue Revised Minority Business Enterprise Policy for Construction Grants Program; Technical Amendments to Women's Business Enterprise Policy for Construction Grants Program; Procedures for Implementation of Minority Business Enterprise and Women's Business Enterprise Policies; Extension of Comment Period

AGENCY: The Environmental Protection Agency.

ACTION: Proposed policy revisions and proposed program requirements memorandum; extension of comment period.

SUMMARY: This document announces the extension of the opportunity for the public to comment on proposed policy revisions, technical amendments, and implementing procedures relating to EPA's minority business enterprise and women's business enterprise policies, published in the Federal Register on January 19, 1981 (46 FR 5666).

DATE: Comments must be submitted on or before May 4, 1981.

ADDRESS: Comments (in duplicate, if possible) may be mailed to Central Docket Section (A-130), ATTN: Docket No. G-80-5, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Robert J. Knox (Director, Office of Small and Disadvantaged Business Utilization), (202) 755-0393, or Sylvia Horitz (Office of General Counsel), (202) 426-4090, 401 M Street, SW., Washington, D.C. 20460.

Dated: March 16, 1981.

Walter C. Barber, Jr.,

Acting Administrator.

The deadline for submitting comments on the proposed Revised Minority Business Enterprise Policy for the Construction Grants Program, Technical Amendments to the Women's Business Enterprise Policy for the Construction Grants Program, and Procedures for Implementation of Minority Business Enterprise and Women's Business Enterprise Policies is extended from March 20, 1981, to May 4, 1981.

These policies will apply to Construction Grants for Wastewater Treatment Works, Catalogue of Federal Domestic Assistance No. 66.418. Grants for construction of wastewater treatment works are subject to the requirements of Office of Management and Budget Circular A-95 (clearinghouse review).

BILLING CODE 6560-38-M

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20609]

An Inquiry Into the Abolition of Special Rates for Letter Telegrams

AGENCY: Federal Communications Commission.

ACTION: Order terminating docket.

SUMMARY: Docket No. 20609 was initiated as an inquiry into the abolition of special rates for letter telegrams. Its purpose was to gather information to assist the Commission in advising the Department of State on the U.S. position to the Sixth Plenary Assembly of the CCITT held in 1976. The proceeding is moot and therefore is terminated.

ADDRESS: Not Applicable.

DATES: Not Applicable.

FOR FURTHER INFORMATION CONTACT: Earl S. Barbely, Chief, International Conference Staff, Common Carrier Bureau, Federal Communications Commission, Washington, D.C. 20554.

In the matter of an inquiry into the abolition of special rates for letter telegrams; order; *See also* 40 FR 49124, October 21, 19755.

Adopted: March 4, 1981.

Released: March 9, 1981.

By the Acting Chief, Common Carrier Bureau.

1. On October 15, 1975, the Commission released a Notice of Inquiry in this docket designed primarily to provide the Commission with the information necessary to advise the Department of State with respect to the U.S. Position at the Sixth Plenary Assembly of the International Telegraph and Telephone Consultative Committee (CCITT) of the International Telecommunications Union (ITU) which was scheduled to be held in the Fall of 1976, as well as at preliminary international meetings where this subject would be considered.

2. Comments were filed in the proceeding and were used by the Commission in advising the Department of State concerning the U.S. position on this subject at the various ITU meetings. The CCITT Sixth Plenary Assembly agreed to maintain those provisions which provide for reduced rate letter telegrams as an optional service within the CCITT F series Recommendations. The U.S. international record carriers continue to offer letter telegram service to those countries who will accept and deliver such telegrams.

3. Accordingly, pursuant to §§ 0.91, 0.291, and 1.401(e), it is *Ordered* that this Docket is terminated.

Joseph A. Marino,

Acting Chief, Common Carrier Bureau.

BILLING CODE 6712-01-M

[BC Docket Nos. 81-166, 81-167, File Nos. BPH-791218AE, BPH-800701AB]

Alabama Christian Broadcasting Co., Inc., et al.; Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Alabama Christian Broadcasting Company Inc., Reform, Alabama, Req: 101.7 MHz, Channel 269A, 1 kW (H&V), 479 feet, BC

Docket No. 81-166, File No. BPH-791218AE. L. D. Vail, Margaret M. Ramage, and Charlie Taggart, a partnership d.b.a. REGO Broadcasting Company, Reform, Alabama. Req: 101.7 MHz, Channel 269A, 3kW (H&V), 300 feet, BC Docket No. 81-167, File No. BPH-800701AB; for a Construction Permit for a New FM Station.

Adopted: March 9, 1981.

Released: March 17, 1981.

By the Chief, Broadcast Bureau.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has under consideration the above-captioned mutually exclusive applications of Alabama Christian Broadcasting Co. Inc. (ACBC) and L. D. Vail, Margaret Ramage and Charlie Taggart, a partnership d.b.a. REGO Broadcasting Company (REGO) for a construction permit for a new FM station.

2. *REGO.* Analysis of the financial data submitted by REGO reveals that $119,263.76 will be required to construct the proposed station and operate for three months, itemized as follows:

Equipment cost	$88,172.26
Studio and transmitter site rental	750.00
Miscellaneous	12,716.40
Operating cost (three months)	15,625.00
Total	119,263.76

REGO plans to finance construction and operation with a $100,000.00 loan from the Bank of Reform. The letter of commitment from the Bank of Reform does not set forth the rate of interest, or the terms for repayment and is, in any event, not enough to cover applicant's proposed costs. A limited financial issue will be specified.

3. *Other Matters.* Data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would receive service from the proposals. Consequently, for the purpose of comparison, the area and populations which would receive FM service of 1 mV/m or greater intensity, together with the availability of other primary aural services in such areas will be considered under the standard comparative issue for the purpose of determining whether a comparative preference should accrue to either of the applicants.

4. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

5. Accordingly, *it is ordered,* That pursuant to Section 309(e) of the Communications Act of 1934, as amended, the applications *are designated for hearing in a consolidated proceeding,* at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine with respect to REGO:

(a) the source and availability of funds to meet its expected costs; and

(b) whether, in light of the evidence adduced in (a) above, REGO is financially qualified.

2. To determine which of the proposals would on a comparative basis better serve the public interest.

3. To determine in light of the foregoing issues which if either, of the applications should be granted.

6. *It is further ordered,* That, to avail themselves of the opportunity to be heard, the applicants herein shall, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission in triplicate a written appearance stating the intention to appear on the date fixed for the hearing and to present evidence or the issues specified in this Order.

7. *It is further ordered,* That the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594 of the Commission's Rules, give notice of the hearing (either individually or, if feasible and consistent with the Rules, jointly) within the time and in the manner prescribed and such Rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the Rules.

Federal Communications Commission.

Larry D. Eads,

Acting Chief, Broadcast Facilities Division.

[FR Doc. 81-8822 Filed 3-19-81; 8:45 am]

BILLING CODE 6712-01-M

[BC Docket Nos. 81-164, 81-165, File Nos. BPH-800527AC, BPH-800708AB]

Brownfield Broadcasting Corp., et al.; Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Brownfield Broadcasting Corp., Brownfield, Texas, Req: 103.9 MHz, Channel 280A 3 kW (H&V), 300 feet, BC Docket No. 81-164, File No. BPH-800527AC. Brownfield Radio, Inc., Brownfield, Texas, Req: 103.9 MHz, Channel 280A 3 kW (H&V), 227.75 feet, BC Docket No. 81-165, File No. BPH-800708AB; For Construction Permit for a New FM Station.

Adopted: March 5, 1981.

Released: March 18, 1981.

By the Chief, Broadcast Bureau:

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has under consideration the above-captioned mutually exclusive applications filed by Brownfield Broadcasting Corporation (BBC) and Brownfield Radio, Inc. (BRC).

2. *BBC.* Analysis of the financial portion of BBC's application reveals that it will require $59,500 to construct the proposed facility and operate for three months, itemized as follows:

Equipment	$24,500
Building	2,000
Miscellaneous and other costs	18,000
Operating costs (three months)	15,000
Total	59,500

BBC has failed to provide a complete itemization of cost of operation for the first three months as required by Section III, Paragraph 1(b) of FCC Form 301. Consequently, its costs of proposed operation cannot be determined. BBC plans to finance construction and operation with the following funds: a $50,000 loan from the Brownfield State Bank and Trust Co. and $24,500 in radio equipment on hand. However, the bank letter fails to comply with Paragraph 4(e) of Section III of FCC Form 301 in that it does not specify the interest rate of the loan, the terms of repayment, or collateral or security required. Therefore, only $24,500 has been shown to be available to the applicant. Accordingly, a financial issue will be specified.

3. *BRC.* Analysis of the financial portion of BRC's application reveals that it will require $39,679 to construct the proposed facility and operate for three months, itemized as follows:

Equipment	$32,679
Miscellaneous and other costs	1,500
Operating costs (three months)	5,700
Total	39,879

To meet these requirements BRC intends to rely on $12,000 in profits from commonly-owned radio station KKUB(AM) and $45,000 in anticipated advertising revenues. However, the applicant cannot rely on anticipated revenues. *Financial Qualifications Standards for Aural Broadcast Applicants,* 69 FCC 2d 407, 43 RR 2d 1101 (1978); *Amber Producations Inc.,* FCC 79-549, 46 RR 2d 448, (1979). Since the applicant has shown only $12,000 to be available, a limited financial issue will be specified.

4. Applicants for new broadcast stations are required by § 73.3580(f) of the Commission's Rules to give local

notice of the filing of their applications. They must then file with the Commission the statement described in § 73.3580(h) of the Rules. We have no evidence that BRC published the required notice. To remedy this deficiency, BRC will be required to publish local notice of its application, if they have not already done so, and to file a statement of publication with the presiding Administrative Law Judge.

5. Data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would receive service from the proposals. Consequently, for the purpose of comparison, the areas and populations which would receive FM service of 1 mV/m or greater intensity, together with the availability of other primary aural services in such areas, will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to either of the applicants.

6. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

7. Accordingly, it is ordered, That, pursuant to Section 309(e) of the communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine with respect to BBC:

(a) The cost of operation of the proposed station for the first three months;

(b) The source and availability of funds to meet its expected costs; and

(c) In light of the evidence adduced pursuant to (a) and (b) above, whether the applicant is financially qualified to construct and operate the proposed station.

2. To determine with respect to BRC:

(a) The source and availability of funds to meet its expected costs; and

(b) In light of the evidence adduced pursuant to (a) above whether the applicant is financially qualified to construct and operate the proposed station.

3. To determine which of the proposals would, on a comparative basis, better serve the public interest.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

8. *It is further ordered,* That BRC shall publish local notice of the filing of its application with the Commission in accordance with § 73.3580(h) of the Rules and file a statement of publication with the presiding Administrative Law Judge.

9. *It is further ordered,* That to avail themselves of the opportunity to be heard, the applicants herein shall, pursuant to § 1.221(c) of the Commission's Rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission in triplicate a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

10. *It is further ordered,* That the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594 of the Commission's Rules, give notice of the hearing (either individually or, if feasible and consistent with the Rules, jointly) within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the Rules.

11. *It is further ordered,* That in the event the application of BRC is granted, it is subject to the condition that if the Commission ultimately adopts a rule prohibiting commonly-owned AM and FM stations in the same market, BRC will divest itself of either its AM, station or FM station in accordance with the requirements established in such rulemaking proceeding.

Federal Communications Commission.

Larry D. Eads,

Acting Chief, Broadcast Facilities Division, Broadcast Bureau.

[FR Doc. 8023 Filed 3-19-81; 8:45 am]

BILLING CODE 6712-01-M

[PR Docket No. 81-120, File Nos. 42191-IB-65, 42192-IB-65, and 42193-IB-65]

Dial Electric & Engineering, Inc., for Renewal of Business Radio Station Licenses KN-2705, KII-93 and KRK-603; Designating Application for Hearing on Stated Issues

Adopted: March 9, 1981.

Released: March 12, 1981.

The Chief, Private Radio Bureau, has under consideration the applications of Dial Electric & Engineering, Inc. dated May 7, 1980, to renew the Business Radio Service licenses issued to it on June 13, 1975, for five terms.[1] [2]

1. Information before the Commission indicates that Dial Electric & Engineering, Inc., 7020 Beach Street, Westminster, Colorado 80030, has operated its stations in a manner which causes harmful interference to the transmissions of other licensees who share the frequency 463.425 MHz and 468.425 MHz with Dial Electric. On August 16, 1979, the Commission's Denver, Colorado office sent a Certified letter to Kenneth Schoenicke of Dial Electric & Engineering, Inc., directing him to install tone control equipment at Dial Electric's mobile relay station KRK-603 within 90 days from the date of that letter to eliminate the cause of the harmful interference, pursuant to § 90.243(c)(2) of the Private Land Mobile Radio Service Rules. On December 27, 1979, an authorized Commission representative attempted to inspect Dial Electric's Business Radio Service station transmitters and authorizations pursuant to § 90.439 of the Private Land Radio Service Rules. This section states that all stations and records of stations should be made available for inspection at any reasonable time or any time while the station is in operation, upon reasonable request of an authorized representative of the Commission. The inspection was refused. However, information was obtained during the attempted inspection which indicated that Dial Electric had failed to install the required tone control equipment at its mobile relay stations.

2. The Commission's information also indicates that Dial Electric installed an unlicensed mobile relay station at 82nd and Osceola Streets, Westminster, Colorado and operated it on December 27, 1979, in conjunction with Dial Electric's Business Radio Service stations, in wilful violation of § 90.113 of the Private Land Mobile Radio Service Rules.

3. The apparent violations of December 27, 1979, were the subject of three Official Notices of Violation mailed to Dial Electric & Engineering, Inc. on February 11, 1980.

---

[1] Pursuant to § 1.929(c) of the Commission's Rules, Dial Electric has continuing operating authority for Business Radio stations KII-93, KN-2705 and KRK-603 pending determination of whether its renewal applications should be granted or denied.

[2] Dial Electric filed an application, dated May 7, 1980, to renew the Business Radio Service license KRK-602 issued to it on March 12, 1975, for a five year term. Pursuant to § 1.929(c) of the Commission's Rules, all applications for renewal of a license must be made during the license term and should be filed within 90 days but not later than 30 days prior to the end of the license term. Dial Electric failed to make a timely and sufficient application for the renewal of this license. Therefore, pursuant to § 1.955(c) of the Commission's Rules, Dial Electric's renewal application for Business Radio Service KRK-602 is dismissed as defective.

4. Section 309(e) of the Communications Act of 1934, as amended, requires that the Commission designate an application for hearing where it cannot find that grant of the application would serve the public interest, convenience and necessity. Accordingly, *it is ordered*, that Dial Electric's applications for renewal of its Business Radio Service licenses (KN–2705, KII–93, KRK–603) *are designated for hearing* upon the following issues:

(a) To determine whether Mobile Relay station KRK–603, licensed to Dial Electric & Engineering, Inc., has been the source of harmful interference to other authorized users of the frequency pair 463.425 MHz and 468.425 MHz and whether Dial Electric & Engineering, Inc., failed to install tone control equipment as required by the Federal Communications Commission.

(b) To determine whether the Commission inspection of stations KN–2705, KII–93, and KRK–603 was refused on December 27, 1979, in wilful violation of § 90.439 of the Private Land Mobile Radio Service Rules.

(c) To determine whether Dial Electric & Engineering, Inc., has established an unauthorized Mobile Relay station, in wilful violation of § 90.113 of the Private Land Mobile Radio Service.

(d) To determine, in light of the evidence adduced above, whether grant of the applications would serve the public interest, convenience and necessity.

5. *It is ordered*, that if Dial Electric wants a hearing on this matter, it must file a written request for a hearing within 20 days.[2] If a hearing is requested, the time, place, and Presiding Judge will be specified by subsequent Order. If Dial Electric waives its right to a hearing, its applications will be dismissed with prejudice.

6. *It is further ordered*, that pursuant to § 1.227 of the Commission's Rules, Dial Electric's applications for renewal of its Business Radio Service licenses (KN–2705, KII–93, KRK–603) are consolidated for hearing.

7. *It is further ordered*, that a copy of this Order shall be sent by Certified Mail—Return Receipt Requested and by Regular Mail to the licensee at its address of record (as shown in the caption).

[2] The attached form should be used to request or waive hearing. It should be completed and mailed to the Federal Communications Commission, Washington, D.C. 20554, in the enclosed envelope.

Chief, Private Radio Bureau.

Raymond A. Kowalski,

Chief, Compliance Division.

Harkins, 1895 Wild Cat Court, Cool, California 95614, for Advanced Class Amateur Radio Operator License, PR Docket No. 81–123.

Adopted: March 9, 1981.

Released: March 13, 1981.

The Chief, Private Radio Bureau, has under consideration the amateur radio station license, WD6GRV, and the Technician Class Amateur Radio Operator's license of Robert G. Harkins. The licenses were issued February 26, 1980, for a five year term. Also under consideration is Harkins' application to upgrade his Technician Class license to Advanced Class dated April 23, 1980.

1. Information before the Commission indicates that on January 23, 1980, Harkins appeared at the Commission's District Office in San Francisco, California, and submitted an Application for Individual Amateur Radio Station and/or Operator License (FCC Form 610) for change of class of operators license from Novice to Technican Class in the name of Alfred E. Bloch. Harkins then proceeded to take the written portion of the Commission's examination (Element 3) associated with that application. Harkins signed all associated Commission examination papers with Bloch's name and otherwise represented to the Commission that he was Bloch, in an attempt to fraudulently obtain a Technician Class Amateur radio operator license for Bloch, in wilful violation of Section 97.129 of the Commission's Rules.[1] The information further indicates that Bloch gave Harkins one hundred dollars ($100.00) to take the examination for him.

[1] Section 97.129 of the Commission's rules states that "[n]o licensed radio operator or other person shall obtain or attempt to obtain, or assist another to obtain or attempt to obtain, an operator license by fraudulent means."

2. On April 23, 1980, Harkins was issued an Interim Amateur Permit (FCC Form 660–B) authorizing him Advanced Class privileges, based upon his successful completion of the elements required to upgrade his Technical Class license. On April 29, 1980, that Permit was set aside by the Commission's San Francisco Field Office.

3. Harkins' application for an Advanced Class Amateur Operator's license was granted on June 17, 1980. This grant was set aside on July 11, 1980, pursuant to § 1.113(a) of the Commission's Rules and Harkins' application reverted to pending status.

4. Section 312(a)(4) of the Communications Act of 1934, as amended, provides that radio station licenses may be revoked for wilful violation of the Commission's Rules. Section 303(M)(1)(F) of the same act provides that an operator license may be suspended upon proof sufficient to satisfy the Commission that the licensee has assisted another to obtain or attempt to obtain an operator's license by fraudulent means. Accordingly, *it is ordered* that Harkins SHOW CAUSE why the license for Amateur radio station WD6GRV should not be revoked, and that Harkins' Technician Class Amateur radio operator's license IS SUSPENDED for the remainder of the license term. The suspension will be held in abeyance if Harkins requests a hearing or submits a written statement for consideration.

5. *It is further ordered*, That Harkins' application for an Advanced Class Operator's license is designated for hearing on the issues specified below.

6. *It is further ordered*, That if Harkins desires a hearing on the revocation, suspension and/or application matters, he must file a written request for a hearing within 30 days of his receipt of this Order.[3] [4] If a hearing is requested, the time, place, and Presiding Judge will be specified by subsequent order.

7. *It is further ordered*, That if Harkins waives his right to a hearing on the revocation and/or the suspension matters, those matters will be certified to the Commission for administrative disposition pursuant to § 1.92(c) of the Rules.[5] If Harkins does not file a written appearance in triplicate on the application matter, as required by

[2] Any contrary provisions of § 1.85 of the Rules are waived.

[3] Any contrary provisions of §§ 1.85 and 1.221(c) of the Rules are waived.

[4] The enclosed form should be used to request or waive hearing. It should be returned to the Federal Communications Commission, Washington, D.C. 20554.

[5] Any contrary provisions of § 1.85 of the Rules are waived.

§ 1.221(c) of the Rules, within 30 days of his receipt of this Order, the application will be dismissed with prejudice pursuant to § 1.221(c).[6]

8. *It is further ordered,* That the revocation, suspension, and application proceedings are consolidated for hearing pursuant to § 1.227 of the Commission's Rules and shall be resolved upon the following issues:

(a) To determine whether Harkins assisted Alfred E. Bloch to fraudulently obtain or attempt to obtain a Technician Class Amateur radio operator license in wilful violation of Section 97.129 of the Commission's Rules.

(b) To determine, in light of the evidence adduced pursuant to issue (a), whether Robert G. Harkins has the requisite qualifications to remain a Commission licensee.

(c) To determine whether the license for Amateur radio station WD6GRV should be revoked.

(d) To determine whether the suspension order for Harkins' Technician Class Amateur radio operator's license should be affirmed, modified or dismissed.

(e) To determine whether the grant of Harkins' application for an Advanced Class Amateur radio operators license would serve the public interest, convenience and necessity.

9. *It is further ordered,* That the proceedings in this case shall be consolidated with the proceedings in the case of ALFRED E. BLOCH (PR DOCKET NOS. 81-124, 81-125, 81-126 and 81-127), pursuant to § 1.227 of the Rules.

10. *It is further ordered,* That a copy of this Order shall be sent by Certified Mail—Return Receipt Requested and by Regular Mail to the licensee at his address of record (as shown in the caption).

Chief, Private Radio Bureau.

Raymond A. Kowalski,

Chief, Compliance Division.

BILLING CODE 6712-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

[Docket No. 1; FEMA-REP-6-AR-1]

Arkansas; Radiological Emergency Plans

AGENCY: Federal Emergency Management Agency.

ACTION: Notice of Receipt of Plans.

SUMMARY: This is a notice that the State of Arkansas has submitted Radiological Emergency Plans to the Federal Emergency Management Agency for review and approval. The plans include Annex "V" to the "Arkansas Emergency Operations Plan" and appropriate plans for those counties located near the Arkansas Power and Light Company's Arkansas Nuclear One generating facility.

FOR FURTHER INFORMATION CONTACT:

Mr. Dale Milford, Regional Director, FEMA Region VI, Federal Center, Denton, Texas 76201—(817) 387-5811.

NOTICE: This provides notice in accordance with 44 CFR Part 350.6 of the FEMA Proposed Rule, "Review and Approval of State and Local Radiological Emergency Plans and Preparedness", 44 FR 42341, that the Federal Emergency Management Agency, Region VI Office, received on January 6, 1981 from the State of Arkansas, Radiological Emergency Plans for the State of Arkansas.

These plans include "Annex 'V' to the Arkansas Emergency Operations Plan, 'Radiological Emergency Response Plan for Nuclear Power Reactors' "; Attachment No. 14, "Pope County Radiological Response Plan"; Attachment No. 15, "Johnson County Radiological Response Plan"; Attachment No. 16, "Yell County Radiological Response Plan" and Attachment No. 17, "Logan County Radiological Response Plan."

Copies of these plans are available for review and copying at the FEMA Region VI Office.

Copies will be made available upon request in accordance with the fee schedule for FEMA Freedom of Information Act requests. This schedule which covers exemptions from the fee, is set forth in Subpart C of 44 CFR Part 5. Reproduction fees are $0.10 a page for this document. There are in excess of 400 pages in the document, excluding, Standing Operating Procedures. (As the cost will be over $25.00, the fee is to be paid in advance.)

Comments on the plans may be submitted in writing to Mr. Dale Milford, Regional Director, at the above address within thirty days.

FEMA Proposed Regulation 44 CFR 350.10 calls for a public meeting in advance of FEMA approval. Public meetings will be conducted in each of

---

[6] Any contrary provisions of § 1.221(c) of the Rules are waived.

the four subject counties prior to FEMA approval.

Dale Milford,
Regional Director.

BILLING CODE 6718-01-M

[Docket: FEMA-REP-4-SC-1]

South Carolina Radiological Emergency Response Plan

AGENCY: Federal Emergency Management Agency.

ACTION: Notice of receipt of plan.

SUMMARY: For continued operation of nuclear power plants, the Nuclear Regulatory Commission requires approved licensee and State and local governments' radiological emergency response plans. Since FEMA has a responsibility for reviewing the State and local government plans, the State of South Carolina has submitted its radiological emergency plans to the FEMA Regional office. These plans support nuclear power plants which impact on South Carolina and include those of local governments near the Carolina Power and Light Company's H. B. Robinson Plant located in Darlington County, South Carolina.

DATE: Plans Received: February 18, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Harris M. Pope, Acting Regional Director, FEMA Region IV, 1375 Peachtree Street, NW, Atlanta, Georgia 30309, (404) 881-2400, or (912) 228-1761.

Notice: In support of the Federal requirement for emergency response plans, FEMA has proposed a Rule describing its procedures for review and approval of State and local government's radiological emergency response plans. Pursuant to this proposed FEMA Rule (44 CFR Part 350.8), "Review and Approval of State Radiological Emergency Plans and Preparedness," 45 FR 52341, the State Radiological Emergency Response Plan for the State of South Carolina was received by the Federal Emergency Management Agency Region IV Office.

Included are plans for local governments which are wholly or partially within the plume exposure pathway emergency planning zones of the nuclear plants. For the H. B. Robinson Plant, plans are included for Darlington, Lee, and Chesterfield Counties.

Copies of the Plan are available for review at the FEMA Region IV Office, or they will be made available upon request in accordance with the fee schedule for FEMA Freedom of Information Act requests, as set out in subpart C of 44 CFR Part 5. There are 1,676 pages in the document; reproduction fees ar $.10 a page payable with the request for copy.

Comments on the Plan may be submitted in writing to Mr. Harris M. Pope, Acting Regional Director, at the above address on or before April 20, 1981.

FEMA proposed Rule 44 CFR 350.10 also calls for a public meeting prior to approval of the plans. Details of this meeting will be announced in The Charlotte Observer, The Florence Morning News, The State, The Hartsville Messenger, Darlington News, The Chesterfield Advertiser, and The Lee County Messenger at least two weeks prior to the scheduled meeting. Local radio and television stations will be requested to announce the meeting.

Harris M. Pope,
Acting Regional Director.
March 10, 1981.

FEDERAL MARITIME COMMISSION

[Agreements Nos. T-3956, T-3957 and 10412]

Availability of Findings of No Significant Environmental Impact

Having completed environmental assessments, the Commission's Office of Energy and Environmental Impact has determined that the Commission's decisions on the proposed actions listed below will not constitute major Federal actions significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.*, and that preparation of environmental impact statements is not required.

Agreement No. T-3956, between Georgia Ports Authority and Moller Steamship Co., which covers the use of certain paved premises within the Container Central, Garden City Terminal.

Agreement No. T-3957, a containership terminal agreement between the Port of Oakland and Neptune Orient Lines, Ltd., covering the use of a berth, a wharf and loading cranes.

Agreement No. 10412, through which Farrell Lines, Inc., will charter space onboard its vessels sailing from the Ivory Coast to the U.S. to Societé Ivoivienne de Transport Maritime on a space available basis.

The Findings of No Significant Impact (FONSIs) will become final within 20 days unless petitions for review are filed pursuant to 46 CFR 547.8(b).

The FONSIs and related assessments are available for inspection on request from the Office of the Secretary, Room 11101, Federal Maritime Commission, Washington, D.C. 20573, telephone (202) 523-5725.

Joseph C. Polking,
Acting Secretary.

[Agreement No. 10041-8; Amdt. No. 8]

Peru Pooling Agreement; Availability of Finding of No Significant Impact

Upon completion of an assessment, the Federal Maritime Commission's Office of Energy and Environmental Impact has determined that the Commission's decision on Agreement No. 10041-8 will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.*, and that preparation of an environmental impact statement is not required. Under U.S. Atlantic/Peru Pooling Agreement No. 10041-8, Delta Steamship Lines, Inc., a U.S. national flag line member, and Compania Peruana deVapores, a Peruvian government-controlled flag line member, would increase their annual number of minimum sailings from 15 to 19.

This Finding of No Significant Impact (FONSI) will become final within 10 days unless a petition for review is filed pursuant to 46 CFR 547.8(b).

The FONSI and related environmental assessment are available for inspection on request from the Office of the Secretary, Room 11101, Federal Maritime Commission, 1100 L Street, NW., Washington, D.C. 20573, telephone (202) 523-5725.

Joseph C. Polking,
Acting Secretary.

BILLING CODE 6730-01-M

FEDERAL PREVAILING RATE ADVISORY COMMITTEE

Open Committee Meetings

Pursuant to the provisions of section 10 of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on:

Thursday, April 2, 1981
Thursday, April 9, 1981

Thursday, April 16, 1981
Thursday, April 23, 1981
Thursday, April 30, 1981

These meetings will convene at 10 a.m., and will be held in Room 5A06A, Office of Personnel Management Building, 1900 E Street, NW, Washington, D.C.

The Federal Prevailing Rate Advisory Committee is composed of a Chairman, representatives of five labor unions holding exclusive bargaining rights for Federal blue-collar employees, and representatives of five Federal agencies. Entitlement to membership of the Committee is provided for in 5 U.S.C. 5347.

The Committee's primary responsibility is to review the prevailing rate system and other matters pertinent to the establishment of prevailing rates under subchapter IV, chapter 53, 5 U.S.C., as amended, and from time to time advise the Office of Personnel Management thereon.

These scheduled meetings will convene in open session with both labor and management representatives attending. During the meeting either the labor members or the management members may caucus separately with the Chairman to devise strategy and formulate positions. Premature disclosure of the matters discussed in these caucuses would impair to an unacceptable degree the ability of the Committee to reach a consensus on the matters being considered and disrupt substantially the disposition of its business. Therefore, these caucuses will be closed to the public on the basis of a determination made by the Director of the Office of Personnel Management under the provisions of Section 10(d) of the Federal Advisory Committee Act (Pub. L. 92–463) and 5 U.S.C., section 552b(c)(9)(B). These caucuses may, depending on the issues involved, constitute a substantial portion of the meeting.

Annually, the Committee publishes for the Office of Personnel Management, the President, and Congress a comprehensive report of pay issues discussed, concluded recommendations thereon, and related activities. These reports are also available to the public, upon written request to the Committee Secretary.

Members of the public are invited to submit material in writing to the Chairman concerning Federal Wage System pay matters felt to be deserving of the Committee's attention. Additional information concerning these meetings may be obtained by contacting the Committee Secretary, Federal Prevailing Rate Advisory Committee, Room 1340, 1900 E Street, NW, Washington, D.C. 20415 (202–632–9710).

Jerome H. Ross,
Chairman, Federal Prevailing Rate Advisory Committee.
March 16, 1981.

BILLING CODE 6210-01-M

Seafirst Corp.; Proposed Acquisition of Seafirst Payment Services Corp.

Seafirst Corporation, Seattle, Washington, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and section 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire voting shares of

Seafirst Payment Services Corporation, Seattle, Washington.

Applicant states that the proposed subsidiary would engage in the activities of issuing travelers checks which would be sold to the public by applicant's banking subsidiary, Seattle First National Bank, Seattle, Washington, and through other agents. These activities would be performed from offices of Applicant's subsidiary in Seattle, Washington, and the geographic areas to be served are the States of Washington, Oregon, Idaho, Montana, Colorado and Alaska.

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than April 15, 1981.

Board of Governors of the Federal Reserve System, March 16, 1981.

Jefferson A. Walker,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Bank Holding Company; Notice of Proposed de Novo Nonbank Activities

The bank holding company listed in this notice has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to the application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on the application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating

how the party commenting would be aggrieved by approval of that proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for the application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than April 15, 1981.

A. *Federal Reserve Bank of New York* (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

The Chase Manhattan Corporation, New York, New York (mortgage banking and related lending and insurance activities; Pennsylvania): to engage, through its subsidiary, Chase Home Mortgage Corporation, in the following activities; to make or acquire, for its own account or for the account of others, loans and other extensions of credit secured by real estate, including but limited to, first and second mortgage loans secured by mortgages on one-to-four family residential properties; to service loans and other extensions of credit for any person; to sell mortgage loans in the secondary market; and to offer mortgage term life insurance, accident and health insurance and disability insurance directly related to such lending and servicing activities. These activities will be conducted from an office of Chase Home Mortgage Corporation located in Lancaster, Pennsylvania, serving the State of Pennsylvania.

B. *Other Federal Reserve Banks:* None.

Board of Governors of the Federal Reserve System, March 16, 1981.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 80H-0520]

Aflatoxin-Contaminated Corn; Limited Exemptions From Prohibition of Interstate Shipment and Blending

Correction

In FR Doc. 81-2804 appearing at page 7447 in the issue of Friday, January 23, 1981, on page 7448, third column, paragraph numbered 11, tenth line, insert "of all" after "average"; and in the eleventh line, "analysis" should read "analyses".

BILLING CODE 1505-01-M

[Docket No. 80D-0378]

Single-Entity Barbiturates; Class Labeling Guidance

Correction

In FR Doc. 80-35842, published at page 76356, in the issue of Tuesday, November 18, 1980, make the following corrections:

1. On page 76357, first column, the fourth entry now reading "Methbarbital (oral)" should read "Metharbital (oral)".

2. The fifth entry should read "Pentobarbital (oral)". The remainder of the entry should begin on a new line, with the word "Pentobarbital" inserted before the word "sodium".

3. On page 76363, third column, in the second line "60 mg" should read "600 mg".

4. On page 76364, second column, second full paragraph, in the third line from the end of the paragraph "15 to 29 mg/kg" should read "15 to 20 mg/kg".

5. On page 76366, first column, Item 27, in the second line, the word "Macromolecles" should read "Macromolecules".

BILLING CODE 4110-03-M

[Docket No. 81M-0067]

Alcon Laboratories, Inc.; Premarket Approval of Alcon® Soft (Hydrophilic) Contact Lens Thermal Disinfection System

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces its approval of the application for premarket approval under the Medical Device Amendments of 1976 of the Alcon® Soft (Hydrophilic) Contact Lens Thermal Disinfection System, sponsored by Alcon Laboratories, Inc., Fort Worth, TX. After reviewing the recommendation of the Ophthalmic Device Section of the Ophthalmic; Ear, Nose, and Throat; and Dental Devices Panel, FDA notified the sponsor that the application was approved because the device has been shown to be safe and effective for use as recommended in the submitted labeling.

DATE: petitions for administrative review by April 20, 1981.

ADDRESS: Requests for copies of the summary of safety and effectiveness data and petitions for administrative review may be sent to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Henry Goldstein, Bureau of Medical Devices (HFK-402), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7445.

SUPPLEMENTARY INFORMATION: On May 6, 1980, Alcon Laboratories, Inc., Fort Worth, TX, submitted to FDA an application for premarket approval of the Alcon® Soft (Hydrophilic) Contact Lens Thermal Disinfection System. The application was reviewed by the Ophthalmic Device Section of the Ophthalmic; Ear, Nose, and Throat; and Dental Devices Panel, an FDA advisory committee, which recommended approval of the application. On February 23, 1981, FDA approved the application by a letter to the sponsor from the Acting Director of the Bureau of Medical Devices.

Before enactment of the Medical Device Amendments of 1976 (the amendments) (Pub. L. 94-295, 90 Stat. 539-583), soft contact lens solutions were regulated as new drugs. Because the amendments broadened the definition of the term "device" in section 201(h) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 321(h)), soft contact lens solutions are now regulated as class III devices (premarket approval). As FDA explained in a notice published in the Federal Register of December 16, 1977 (42 FR 63472), the amendments provide transitional provisions to ensure continuation of premarket approval requirements for class III devices formerly regulated as new drugs. Furthermore, FDA requires, as a condition to approval, that sponsors of applications for premarket approval of soft contact lenses or solutions comply with the records and reports provisions of Part 310 (21 CFR Part 310), Subpart D, until these provisions are replaced by similar requirements under the amendments.

A summary of the safety and effectiveness data on which FDA's approval is based is on file in the Dockets Management Branch (address above) and is available upon request from that office. Requests should be identified by the name of the device and the docket number found in brackets in the heading of this document.

The Alcon® Soft (Hydrophilic) Contact Lens Thermal Disinfection System is designed for cleaning, rinsing, disinfecting and storing soft (hydrophilic) contact lenses. Sponsors of any soft (hydrophilic) contact lenses that have been approved for marketing are advised that whenever FDA publishes a notice in the Federal Register of the agency's approval of a new solution for use with an approved soft contact lens, the sponsor of each lens shall correct its labeling to refer to the new solution, at the next printing or at such other time as FDA prescribes by letter to the sponsor. A sponsor who fails to update the restrictive labeling may violate the misbranding provisions of section 502 of the act (21 U.S.C. 352) as well as the Federal Trade Commission Act (15 U.S.C. 41-58), as amended by the Magnuson-Moss Warranty-Federal Trade Commission Improvement Act (Pub. L. 93-637). Furthermore, failure to update the restrictive labeling to refer to new solutions that may be used with an approved lens may be grounds for withdrawing approval of the application for the lens, under section 515(e)(1)(F) of the act (21 U.S.C. 360e(e)(1)(F)).

Opportunity For Administrative Review

Section 515(d)(3) of the act (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act (21 U.S.C. 360e(g)) for administrative review of FDA's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and FDA's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration of FDA action under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide to grant or deny the petition and will publish a notice of its decision in the Federal Register. If FDA grants the petition, the notice will state the issues to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before April 20, 1981, file with the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, four copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: March 13, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-03-M

[Docket No. 81M-0054]

Cooper Laboratories, Inc.; Premarket Approval of Pilagel® Sterile Cleaning Solution

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces its approval of the application for premarket approval under the Medical Device Amendments of 1976 of the Pliagel® Sterile Cleaning Solution for use with soft (hydrophilic) contact lenses, sponsored by Cooper Laboratories, Inc., Mountain View, CA. After reviewing the recommendation of the Ophthalmic Device Section of the Ophthalmic; Ear, Nose, and Throat; and Dental Devices Panel, FDA notified the sponsor that the application was approved because the device had been shown to be safe and effective for use as recommended in the submitted labeling.

DATE: Petitions for administrative review by April 20, 1981.

ADDRESS: Requests for copies of the summary of safety and effectiveness data and petitions for administrative review may be sent to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Henry Goldstein, Bureau of Medical Devices (HFK-402), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7445.

SUPPLEMENTARY INFORMATION: On May 16, 1980, Cooper Laboratories, Inc., Mountain View, CA, submitted to FDA an application for premarket approval of Pliagel® Sterile Cleaning Solution for soft (hydrophilic) contact lenses. The application was reviewed by the Ophthalmic Device Section of the Ophthalmic; Ear, Nose, Throat; and Dental Devices Panel, an FDA advisory committee, which recommended approval of the application. On February 9, 1981, FDA approved the application in a letter to the sponsor from the Acting Director of the Bureau of Medical Devices.

Before enactment of the Medical Device Amendments of 1976 (the amendments) (Pub. L. 94-295, 90 Stat. 539-583), soft contact lens solutions were regulated as new drugs. Because the amendments broadened the definition of the term "device" in section 201(h) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 321(h)), soft contact lens solutions are now regulated as class III devices (premarket approval). As FDA explained in a notice published in the **Federal Register** of December 16, 1977 (42 FR 63472), the amendments provide transitional provisions to ensure continuation of premarket approval requirements for class III devices formerly regulated as new drugs. Furthermore, FDA requires, as a condition to approval, that sponsors of applications for premarket approval of soft contact lenses or solutions comply with the records and reports provisions of Part 310 (21 CFR Part 310), Subpart D, until these provisions are replaced by similar requirements under the amendments.

A summary of the safety and effectiveness data on which FDA's approval is based is on file with the Dockets Management Branch (address above) and is available upon request from that office. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

The labeling of the Pliagel® Sterile Cleaning Solution states that the solution is for use to clean certain soft contact lenses each time they are taken off. Sponsors of any soft (hydrophilic) contact lenses that have been approved for marketing are advised that whenever FDA publishes a notice in the **Federal Register** of the agency's approval of a new solution for use with an approved soft contact lens, the sponsor of each lens shall correct its labeling to refer to the new solution, at the next printing or at such other time as FDA prescribes by letter to the sponsor. A sponsor who fails to update the restrictive labeling may violate the misbranding provisions of section 502 of the act (21 U.S.C. 352) as well as the Federal Trade Commission Act (15 U.S.C. 41-58), as amended by the Magnuson-Moss Warranty-Federal Trade Commission Improvement Act (Pub. L. 93-637). Furthermore, failure to update the restrictive labeling to refer to new solutions that may be used with an approved lens may be grounds for withdrawing approval of the application for the lens, under section 515(e)(1)(F) of the act (21 U.S.C. 360e(e)(1)(F)).

Opportunity for Administrative Review

Section 515(d)(3) of the act (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition, under section 515(g) of the act (21 U.S.C. 360e(g)) for administrative review of FDA's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and FDA's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration of FDA action under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide to grant or deny the petition and will publish a notice of its decision in the **Federal Register**. If FDA grants the petition, the notice will state the issues to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before April 20, 1981 file with the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, four copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: March 16, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-03-M

[Docket No. 81N-0068]

Chest X-Ray Referral Criteria Panel; Meeting

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces a forthcoming meeting of the Chest X-Ray Referral Criteria Panel. The University of California at San Francisco has convened this panel, to which FDA provides logistical support. This notice gives methods for interested persons to participate in open sessions of the meeting.

DATES: Open session: April 1, 1981, 9:45 a.m. to 12 m.; closed sessions: April 1, 1981, 8:30 a.m. to 9:30 a.m. and 1 p.m. to 4:30 p.m.; April 2, 1981, 9 a.m. to 12 m.

ADDRESS: Sheraton Old Town Hotel, 800 Rio Grande Blvd. NW., Albuquerque, NM 87104.

FOR FURTHER INFORMATION CONTACT: Jay A. Rachlin, Bureau of Radiological Health (HFX-76), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4600.

SUPPLEMENTARY INFORMATION: Through the Bureau of Radiological Health, FDA

conducts and supports research, training, and other activities to minimize unproductive radiation exposure from diagnostic radiological examinations. One possible source of unproductive radiation exposure is radiological examinations that are not likely to affect patient management. To minimize requests for ineffective examinations, it is important that the referring physician have up-to-date information about when a given radiological study is likely to provide needed diagnostic information. This information, which can take the form of decision guides based on patient signs, symptoms, or history, is termed here "referral criteria."

Under one part of a program designed to facilitate the development and testing by the medical profession of referral criteria for diagnostic radiological examinations, FDA provides logistical support through a contractor for the convening of small panels of clinical and scientific experts to formulate draft referral criteria or statements of use.

This panel meeting is being called to discuss several draft chest X-ray referral criteria and comments received to date from medical professional society reviews. The draft criteria which are being reviewed by professional societies address the following: prenatal chest X-ray screening examinations, mandated chest X-ray screening examinations, and routine hospital admission chest X-ray examinations. Also, the panel meeting is being called to discuss the present status of a number of other chest X-ray use topics which have not yet been developed to the same stage in the deliberation process. Persons interested in specific agenda items to be discussed in open session may determine from the contact person the approximate time of discussion.

Interested persons may submit written data and views to the panel and may do so care of the contact person listed above. Any interested person who wishes to request time for oral presentations during the open portion of the meeting should inform the contact person, either orally or in writing, before the meeting. Any person attending the meeting who does not in advance of the meeting request time will, at the chairperson's discretion, be permitted to make an oral presentation at the conclusion of the open portion if time permits.

A list of committee members, a summary of previous panel deliberations, a copy of the draft chest X-ray referral criteria, and the meeting agenda or the report of the panel meeting may be reviewed at the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday. The report of the panel meeting will contain minutes of the open session, copies of written data and views submitted to the panel in open session, and summaries of the closed sessions.

Dated: March 13, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-03-M

[Docket No. 76P-0295]

Monsanto Industrial Chemicals Co.; Approval of Extension of Variance for Monsanto Tire Inspection Cabinet X-Ray System

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces that an extension of a variance from the performance standard for cabinet x-ray systems has been approved by the Bureau of Radiological Health for the Tire Inspection Cabinet X-Ray System, Model 1027 manufactured by Monsanto Industrial Chemicals Co., Akron, OH. The electronic product is a cabinet x-ray system used for automatic production line x-ray inspection of tires.

DATE: The termination date of Variance No. 75003 is extended from February 25, 1981 to February 25, 1986.

ADDRESS: The application and all correspondence on the application have been placed on public display in the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Robert Phillips, Bureau of Radiological Health (HFK-460), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3426.

SUPPLEMENTARY INFORMATION: In a notice published in the Federal Register of January 26, 1976 (41 FR 3767), FDA announced that a variance from the provisions of § 1020.40(c)(4)(i) (21 CFR 1020.40(c)(4)(i)) requiring that opening the door of a cabinet x-ray system physically disconnects the energy supply circuit to the high voltage generator had been granted to the Picker Corp., 595 Miner Rd., Cleveland, OH 44143. The variance was granted under § 1010.4 (21 CFR 1010.4) for the Picker Model 1027 Tire Inspection System and was assigned Variance No. 75003. On March 2, 1977, all rights to manufacture, install, service, and distribute the Model 1027 Tire Inspection system were sold by the Picker Corp. to Monsanto Industrial Chemicals Co., 947 Waterloo Road, Akron, OH 44314 (Monsanto).

Monsanto has submitted to FDA an application for an unspecified extension of the February 25, 1981, expiration date of Variance No. 75003. The application for extension of the variance uses the same arguments used in support of the original variance application and were discussed at length in the January 26, 1976 notice.

The Director of the Bureau of Radiological Health has determined that the arguments that led to the original granting of Variance No. 75003 are still valid. Furthermore, the Director has concluded that the Monsanto Model 1027 Tire Inspection Cabinet X-Ray System still provides adequate means of radiation safety and protection. Therefore, by letter of February 26, 1981, the Director approved an extension of the variance, which terminates on February 25, 1986. This extension is being granted under the same terms and conditions as the original variance.

This variance is being extended for 5 years instead of the requested indefinite period. This will allow the Bureau the opportunity in 5 years to reevaluate the need and basis for the variance. Such a reevaluation will consider the possible amendment of the performance standard, the then current state of the art, industrial usefulness, radiation protection criteria, and other relevant factors.

In accordance with § 1010.4, the application and all related correspondence on the application (including the data and information in support of the original request and the written notice of approval) have been placed on public display in the Dockets Management Branch (HFA-305), Food and Drug Administration, and may be seen in that office between 9 a.m. and 4 p.m., Monday through Friday.

Dated: March 16, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-83-M

Health Services Administration

National Advisory Council on the National Health Service Corp; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act

(Public Law 92–463), announcement is made of the following National Advisory body scheduled to meet during the month of April 1981:

Name: National Advisory Council on the National Health Service Corps
Date and time: April 27–28, 1981, 9:00 a.m.
Place: Room 431, Federal Office Building, 1961 Stout Street, Denver, Colorado 80294, open for entire meeting.
Purpose: The Council will advise and make appropriate recommendations on the National Health Service Corps (NHSC) program as mandated by legislation. It will also review and comment on proposed regulations promulgated by the Secretary under provisions of the legislation.
Agenda: Agenda items include: a report on the budget proposal for fiscal year 1981 and discussions of State involvement in the supervision and placement of NHSC assignees and the assessment of the quality of services.

The meeting is open to the public for observation and participation. Anyone wishing to participate, obtain a roster of members, or other relevant information, should write to or contact Ms. Charlotte Walch, National Health Service Corps, Health Services Administration, Parklawn Building, Room 6A–14, 5600 Fishers Lane, Rockville, Maryland 20857. Telephone: (301) 443–4040.

Agenda items are subject to change as priorities dictate.

Dated: March 12, 1981.

William H. Aspden, Jr.,

Associate Administrator for Management.

BILLING CODE 4110–84–M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered Species Permit; Receipt of Application

Applicant: Carol Buckley, 15974 Maricopa Hwy., Ojai, CA.

The applicant requests a permit to export and re-import one Asian elephant (*Elephas maximus*) for enhancement of propagation as defined in 50 CFR 17.3. The elephant was born in India in 1973 and was imported before the Asian elephant was listed under the Endangerd Species Act.

Humane care and treatment during transport has been indicated by the applicant.

Documents and other information submitted with this application are available to the public during normal business hours in Room 601, 1000 N. Glebe Road, Arlington, Virginia, or by writing to the Director, U.S. Fish and Wildlife Service (WPO), P.O. Box 3654, Arlington, VA 22203.

This application has been assigned file number PRT 2–7653. Interested persons may comment on this application on or before April 20, 1981 by submitting written data, views, or arguments to the Director at the above address. Please refer to the file number when submitting comments.

Dated: March 17, 1981.

BILLING CODE 4310–55–M

Endangered Species Permit; Receipt of Applications

The applicants listed below wish to conduct specific activities with Endangered Species:

Applicant: New York Zoological Society, PRT 2–7778, Bronx Park, Bronx, NY

The applicant requests a permit to import one captive-bred bush-tailed rat kangaroo (*Bettongia penicillata*) from the Antwerp Zoo, Belgium and to export one captive-bred bush-tailed rat kangaroo to the Antwerp Zoo for enhancement of propagation.

Applicant: Florida State Museum, PRT 2–7802, Gainesville, FL

The applicant requests a permit to import dead specimens of Haitian Solenodons (*Solenodon paradoxus*) from Haiti for scientific research.

Applicant: Jane Brolin, PRT 2–7699, Santa Barbara, CA

The applicant requests a permit to purchase in interstate commerce one captive-bred cheetah (*Acinonyx jubatus*) from Gary Marlin, Creston, Iowa for enhancement of propagation.

Applicant: Kansas City Zoological Gardens, PRT 2–7788, Kansas City, KS

The applicant requests a permit to import in foreign commerce two captive-bred Bactrian camels (*Camelus bactrianus*) from the Metropolitan Toronto Zoo, Toronto, Ontario, Canada for enhancement of propagation.

Applicant: Southeast Forest Experiment Station, PRT 2–7775, U.S. Forest Service, Clemson University, Clemson, SC

The applicant requests a permit to take (harass) red-cocaded woodpeckers (*Picoides borealis*) in the Francis Marion National Forest during a study to determine the impact of roost tree and cavity tree removal in several woodpecker colonies. Three of 400 active colonies in the forest would be affected. Birds would be color banded prior to tree removal for tracking purposes.

Humane care and treatment during transport, if applicable, has been indicated by the applicants.

Documents and other information submitted with these applications are available to the public during normal business hours in Room 601, 1000 N. Glebe Road, Arlington, Virginia, or by writing to the Director, U.S. Fish and Wildlife Service, (WPO), P.O. Box 3654, Arlington, VA 22203.

Interested persons may comment on these applications on or before April 20, 1981 by submitting written data, views, or arguments to the Director at the above address.

Dated: March 17, 1981.

Robert Batky,

Acting Chief, Permit Branch, Federal Wildlife Permit Office, U.S. Fish and Wildlife Service.

BILLING CODE 4310–55–M

Heritage Conservation and Recreation Service

National Registry of Natural Landmarks

AGENCY: Heritage Conservation and Recreation service, Department of the Interior.

ACTION: Public Notice and Request for Comment.

The area listed below appear to qualify for designation as national natural landmarks, in accordance with the provisions of 36 CFR 1212. Pursuant to § 1212.4(d)(1) of 36 CFR Part 1212, written comments concerning the potential designation of these areas as natural landmarks may be forwarded to the Acting Associate Director for Natural Programs, Heritage Conservation and Recreation Service, U.S. Department of the Interior, Washington, D.C. 20243. Detailed information on each site is available. Written comments or a request for additional time or information should be received no later than May 19, 1981.

On February 19, 1981, Secretary of the Interior James G. Watt issued an order consolidating the functions of the Heritage Conservation and Recreation Service into the National Park Service. The order calls for completion of all functional transfers by May 31, 1981. Until completion of this transfer, HCRS will continue to administer the natural landmarks program.

Dated: March 17, 1981.

Jack Hauptman,

Acting Associate Director for Natural Programs.

Connecticut

Litchfield County

Cathedral Pines; a 40-acre tract owned by The Nature Conservancy which is just southeast of Cornwall in the Berkshire Hills of northwestern Connecticut. An old-growth conifer stand dominated by white pine and hemlock (with some trees dating back to 1689), Cathedral Pines is considered to be the most massive forest in New England, with more old-growth white pine concentrated in a single areas than any other.

New Hampshire

Cheshire County

Rhododendron Natural Area; a 15-acre site located three miles south of Troy in southwestern New Hampshire. The area, which is administered by the New Hampshire Division of Parks, is the largest and most viable of the 19 rhododendron stands known to exist in central and northern New England. As such, it illustrates a relict flora persisting from an earlier warmer period when the species was more widespread.

Pennsylvania

Lancaster and York Counties

Susquehanna Piedmont Gorge; a 14,344-acre area which includes a 17-mile stretch of the Susquehanna River between Columbia and Fishing, along with numerous riverside and tributary sites. The area contains a diverse range of outstanding geological features, including the Marctic Line, unique river deeps, dry potholes, the largest fault cave in metamorphic rock in the East, and one of the finest assempblages of bedrock in the country.

The site contains a fine example of Piedmont upland forest, along with representative second-growth stands.

Texas

Blanco County

Little Blanco River Bluff; a small site south of Blanco in central Texas. Little Blanco River Bluff contains a pristine example of the Edwards Plateau limestone bluff community type, with diverse flora estimated at 250 species in 45 families, including some endangered species.

[FR Doc. 81-8526 Filed 3-19-81; 8:45 am]

BILLING CODE 4310-03-M

Bureau of Land Management

Baker District Advisory Council; Meeting

Notice is hereby given in accordance with Pub. L. 94-579 and 43 CFR 1780 that a meeting of the Baker District Advisory Council will be held on April 29, 1981.

The meeting will begin at 9 a.m. in the Conference Room on the second floor of the Federal Building, Baker, Oregon.

The agenda for the meeting will include:

1. Approve minutes of the January 21, 1981 meeting.
2. Review public comments received on the Baker Resource Area Draft Rangeland Management Decision. Work on resolving major public concerns and in preparing the Final Decision.
3. Public comments.
4. Arrangements for the next council meeting.

The meeting is open to the public and news media. Interested persons may make oral statements to the Council between 2 and 3 p.m., or file written statements for the Council's consideration. Anyone wishing to make an oral statement should notify the District Manager, Bureau of Land Management, Federal Building, P.O. Box 987, Baker, Oregon 97814, telephone 503-523-6391, Ext. 281, by 12 noon, Tuesday, April 28, 1981. Depending on the number of persons wishing to make oral statements, a per person time limit may be established by the District Manager.

A report of the Council meeting will be maintained at the District Office and be made available for public inspection and reproduction at the cost of duplication.

Gordon R. Staker,

District Manager.

March 12, 1981.

BILLING CODE 4310-84-M

[SAC 074022 WR]

California; Proposed Partial Continuation of Withdrawal and Opportunity for Public Hearing

March 12, 1981.

Pursuant to Section 204(l) of the Federal Land Policy and Management Act of 1976, (90 Stat. 2754; 43 U.S.C. 1714) the Bureau of Land Management, U.S. Department of the Interior, proposes to continue an Administrative Site withdrawal on the following described lands:

Mount Diablo Meridian, California

T. 32 N., R. 6 W.,
Section 3, Lot 5.

The area described contains approximately 33.44 acres in Shasta County, California.

The withdrawal was created by PLO 3249 of October 10, 1963, which segregated the land from prospecting; location, entry and purchase under the mining laws. The withdrawal is in aid of utilization of the surface by Federal agencies and qualified applicants under the right-of-way laws, and for the retention in public ownership of valuable radio receiving and transmitting site values.

No change in the segregative effect of the withdrawal or the use of this land is proposed.

On or before April 20, 1981, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal continuations may present their views in writing to the undersigned authorized officer of the Bureau of Land Management.

Notice is hereby given that an opportunity for public hearing is afforded in connection with the proposed withdrawal continuations. All interested persons who desire to be heard on the proposed continuations must submit a written request for a hearing to the undersigned officer. If the

State Director, in his discretion, determines that a public hearing is justified, a notice will be published in the Federal Register giving the time and place of such hearing. The public hearing will be scheduled and conducted in accordance with BLM Manual 2351.16B.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demands for the land and its resources. He will review the withdrawal rejustification to insure that continuation would be consistent with the statutory objectives of the programs for which the land is dedicated; the area involved is the minimum essential to meet the desired needs; the maximum concurrent utilization of the land is provided for; and an agreement is reached on the concurrent management of the land and its resources. He will also prepare a report for consideration by the Secretary of the Interior, the President, and Congress, who will determine whether or not the withdrawal will be continued and if so, for how long. The final determination on the continuation of the withdrawal will be published in the Federal Register. The existing withdrawals will continue until such final determination is made.

All communication in connection with the withdrawal continuations should be addressed to the undersigned, Bureau of Land Management, Room E-2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

Walter F. Holmes,

Chief, Branch of Lands and Minerals Operations.

Water and Power Resources Service

Central Valley Project, California Water Service Rate Policy; Availability of a Proposed Ratesetting Policy for Public Review and Comment and Public Hearings: Amendment

FR Doc. 81-3650, appearing in the Federal Register of February 3, 1981, on page 10544, is amended to extend the time available for submission of written statements or other comments on the proposed ratesetting policy from March 16, 1981, to April 10, 1981.

Dated: March 16, 1981.

Clifford I. Barrett,

Assistant Commissioner of Water and Power Resources.

[FR Doc. 81-8716 Filed 3-19-81; 8:45 am]

BILLING CODE 4310-09-M

Contract Negotiations; Farwell Irrigation District, Farwell Unit, Pick-Sloan Missouri Basin Program, Nebr.; Construction of Canal Lining, Additional Drainage Works, and Purchase of Materials To Bury Certain Existing Laterals

The Department of the Interior, through the Water and Power Resources Service (Water and Power), intends to begin negotiations with the Farwell Irrigation District (FID) for repayment of the cost of constructing certain canal lining and drainage works and the purchase of pipe to bury certain laterals within the FID.

The Farwell Unit lies between the North and Middle Loup Rivers in Central Nebraska. Construction of the unit was completed in the mid-1960's and the unit presently serves about 52,000 acres of irrigable land. Due to changing crop patterns, distribution system losses, and full development of the unit's lands, the FID experiences shortages and inadequate canal capacity during portions of the irrigation season. Also, severe drainage problems have developed around St. Paul, Nebraska, as well as other areas.

The lining of the canals and installation of drains in the FID is an ongoing program; however, recently, critical areas have developed and are in need of immediate correction. The contract amendment will provide for repayment of $4 million to accomplish this construction program. This construction is being carried out in compliance with the Reclamation Project Act of 1939 (53 Stat. 1187), the Flood Control Act of 1944 (58 Stat. 887), the Act of August 3, 1956 (70 Stat. 975), and the Act of August 10, 1972 (86 Stat. 525). All meetings scheduled by Water and Power with the FID for the purpose of discussing terms and conditions of the proposed contract shall be open to the general public as observers. Advance notice of meetings shall be furnished only to those parties who have provided a written request for notification. Requests should be addressed to Mr. Robert D. Kutz, Project Manager, Kansas River Projects Office, Water and Power Resources Service, P.O. Box 737, McCook, Nebraska 69001. All written correspondence concerning the proposed contract shall be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act (80 Stat. 383), as amended.

The public is invited to submit written comments on the form of the proposed contract not later than 30 days after the completed contract draft is made available to the public. If little or no public interest is evidenced in these negotiations as gauged by the response to this notice and local news releases or announcements, the availability of the proposed form of contract for public review and comment will not be publicized through the Federal Register or other media. The Commissioner of Water and Power will review comments submitted and based on the number, sources, and nature of the comments, will decide whether to hold a public hearing.

For further information on the contract negotiations, please contact Mr. Robert D. Kutz at the address stated above, or telephone (308) 345-4400.

Dated: March 13, 1981.

Clifford I. Barrett,

Assistant Commissioner of Water and Power Resources.

Contract Negotiations; Lower Missouri Region, Denver, Colo; Intent To Negotiate Interim Water Service Contracts

The Water and Power Resources Service (Water and Power), Department of the Interior, may enter into interim water service contracts for irrigation and municipal and industrial (M&I) water when such water is available and surplus to project needs. Contracts of this type can be entered into upon short notice to meet emergency or temporary demands. However, such contracts may not exceed 1 year in duration and are limited to not more than 10,000 acre-feet per irrigation contract or 500 acre-feet per M&I contract. All interim contracts will specify quantities, rates and other terms and conditions in compliance with Reclamation law and Water and Power policy.

The Regional Director of the Lower Missouri Region, Denver, Colorado, has authority to execute interim water service contracts in southeastern Wyoming, Colorado, Nebraska, and northern Kansas. At this time it appears that water, which is surplus to project needs, will be available for use in Wyoming from Glendo Reservoir, and for use in Kansas from Glen Elder and Bonny Reservoirs of the Pick-Sloan Missouri Basin program. Also, water is expected to be available for use in Wyoming from the Pathfinder Reservoir of the North Platte Project, for use in Colorado from the Ruedi Reservoir and East Slope System of the Fryingpan-Arkansas Project, and from the Green Mountain Reservoir of the Colorado-Big Thompson Project. other Water and Power projects in the region with regulated reservoir storage may have

minor quantities of surplus water available to meet temporary demands. All releases will be subject to State laws for beneficial use and prior appropriation rights.

Parties interested in receiving information about Water and Power's interim water marketing program should contact Mr. Robin McKinley or Mr. Buddy Smith, Water and Power Resources Service, P.O. Box 25247, Denver, Colorado 80255, telephone (303) 234-3327.

Unless significant public interest in the proposed interim water marketing program is demonstrated in response to this notice and local news releases or announcements, the availability of the proposed draft contracts will be limited to those parties who have expressed an interest therein. Written comments from the public on the forms of the proposed contracts should be submitted not later than 30 days after the completed contract drafts are made available.

Parties interested in obtaining a temporary supply of water from a Water and Power project should apply in writing to the Regional Director, Lower Missouri Region, Water and Power Resources Service, at the above address.

Dated: March 13, 1981.

Clifford I. Barrett,

Assistant Commissioner of Water and Power Resources.

[FR Doc. 81-8549 Filed 3-19-81; 8:45 am]

BILLING CODE 4310-09-M

Contract Negotiations; Uncompahgre Project, Colo.; Intent To Negotiate a Rehabilitation and Betterment Loan Repayment Contract

In accordance with procedures established by the Department of the Interior regarding public participation in contract negotiations, the Water and Power Resources Service (Water and Power) intends to initiate negotiations with the Uncompahgre Valley Water Users Association (UVWUA) of Montrose, Colorado, for repayment of a $5,640,000 rehabilitation and betterment loan.

These loan funds will be used to repair deteriorating control and conveyance structures which are becoming hazards in terms of safety and the continued operation of the facilities.

The Uncompahgre Project provides irrigation water to 65,495 acres of irrigable land in the Uncompahgre Valley. Throughout the project, there are approximately 5,000 canal and lateral structures. More than 80 percent of all the canal and lateral structures are of timber construction, although the more recently constructed major structures are reinforced concrete or steel.

The proposed contract is necessary to maintain or improve the current economic welfare of the agricultural environment of the Uncompahgre Project. Rehabilitating this facility will reduce the potential for a system failure and reduce seepage, while ensuring conservation of the project water supply.

The Uncompahgre Project was authorized for construction, operation, and maintenance under the Act of June 17, 1902 (32 Stat. 388). The contract is being negotiated under authority of the Rehabilitation and Betterment Act of October 7, 1949 (63 Stat. 724), as amended. The terms and conditions of the proposed contract are ultimately dependent upon the Commissioner of Water and Power's approval of the basis for the loan, the Secretary of the Interior's approval of the form of the proposed contract, and a maximum 60-day period for congressional review of the repayment terms.

All meetings scheduled by water and Power with the UVWUA for the purpose of discussing terms and conditions of the proposed contract shall be open to the general public as observers. Advance notice of meetings shall be furnished only to those parties who have provided a written request for notification. Requests should be addressed to the Projects Manager, Water and Power Resources Service, Attention: GJ-400, 764 Horizon Drive, Grand Junction, Colorado 81501. All written correspondence concerning the proposed contract shall be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act (80 Stat. 383), as amended.

The public is invited to submit written comments on the form of the proposed contract not later than 30 days after the completed contract draft is made available to the public. If little or no public interest is evidenced in these negotiations as gauged by the response to this notice and local news releases or announcements, the availability of the proposed form of contract for public review and comment will not be formally publicized through the Federal Register or other media. The Commissioner of Water and Power will review comments submitted and based on the number, source, and nature of the comments, will decide whether to hold a public hearing.

For further information on the contract negotiations, please contact Mr. Boyd Holt, Chief of Operations Branch, at the address stated above, telephone number (303) 243-4992, extension 344.

Dated: March 13, 1981.

Clifford I. Barrett,

Assistant Commissioner of Water and Power Resources.

BILLING CODE 4310-09-M

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 403]

Cargo Liability Study; Report to Congress

AGENCY: Interstate Commerce Commission.

ACTION: Notice of request for comments.

SUMMARY: The Interstate Commerce Commission is inviting comments on whether section 11707 of Title 49, United States Code, should be modified or eliminated with respect to rail carriers. Section 11707 imposes on carriers a standard of absolute liability for damage to shipments unless the carrier and shipper have agreed in writing to a limitation of liability. The comments are being sought for the purpose of a Commission study mandated by Congress in Section 211(d) of the Staggers Rail Act of 1980, Pub. L. 96-448.

DATES: Notice of intent to participate must be received on or before April 20, 1981. Comments must be received on or before May 15, 1981. Reply statements must be received on or before June 12, 1981.

ADDRESSES: An original and 15 copies should be sent to: Office of Proceedings, Room 5356, Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT:

Kenneth R. Tyree, Office of Policy and Analysis, (202) 275-0783

or

Alan Weinstein, Office of Proceedings, (202) 275-6449.

SUPPLEMENTARY INFORMATION:

Background

Under the common law, a common carrier was fully liable, as an insurer, for any loss or damage caused during the time the goods were in its possession. Shippers were not required to allege or prove negligence to establish a prima facie case. All that was required of the shipper was to prove delivery of the shipment to the carrier in good condition and either (1) failure of the carrier to deliver the goods in whole or in part; or (2) delivery of the goods in damaged condition.

With the passage of time, the common law recognized specific exceptions to the absolute liability of the carrier. Once a prima facie case was established, the burden of proof switched to the carrier to demonstrate that it was free from negligence and that the damage or loss was attributable to one of the exceptions that would relieve it from liability. The exceptions or defenses consisted of: (1) an act of God; (2) the public enemy; (3) an act of the shipper itself; (4) public authority; or (5) the inherent vice or nature of the goods. See generally *S. Sorkin, How to Recover for Loss or Damage to Goods in Transit* (1978).

The rail carrier's general liability was based on the premise that the carrier had peculiarly within its knowledge all the facts and circumstances surrounding the transportation of the goods and the ability to inform itself of their condition upon receipt. *Missouri Pac. R. R. Co.* v. *Elmore & Stahl*, 377 U.S. 134 (1964). In contrast, the shipper rarely could be expected to have sufficient knowledge of the history of the shipment to demonstrate negligence. Thus, the law placed the burden of the loss or damage upon the carrier when it could not explain and bring its explanation within one of the accepted defenses.

The common law eventually recognized that carriers could limit their liability if the shipper entered into a signed agreement to that effect. Wide variations in handling appeared with liability disclaimers. One common practice was to permit the carrier to disclaim liability if the carrier could prove that it was not guilty of negligence. Because of the confusion that resulted from different handling of liability disclaimers by the courts, Congress in 1906 enacted the Carmack Amendment, 34 Stat. 595, as part of the Hepburn Act.

The Carmack Amendment codified the common law rule and imposed a uniform standard of liability for railroads and transportation companies. The amendment required the issuance of bills of lading and held carriers accountable for all damage to a shipment, regardless of proof of negligence or whether the damage occurred beyond the line of the issuing carrier. It also provided that no contract or any other form of agreement or regulation could exempt carriers from liability for the full actual loss sustained by the owner of the goods.

Subsequently, the Supreme Court interpreted the Carmack Amendment as permitting the use of so-called "released rates" which were based upon less than the actual value of the shipment, so long as full value rates continued to be offered, and the released rates were open, reasonable, and proportioned to the risk. *Adams Express Co.* v. *Croninger*, 226 U.S. 491, 509–510 (1913). Following *Croninger*, carriers began to settle claims based on previously published liability limitations and allegedly published higher actual value rates that effectively forced shippers to use released rates. *In Re The Cummins Amendment*, 33 I.C.C. 662, 690 (1915); *Loss and Damage Claims*, 340 I.C.C. 515, 522 (1972). In response, Congress enacted the Cummins Amendments, 38 Stat. 1197 (1915) and 39 Stat. 441 (1916). These amendments created the statutory scheme that has lasted until passage of the Staggers Act. Carriers were not permitted to limit their liability for damage except by means of a tariff establishing a reduced rate for a released value. This tariff had to be required or authorized by the Commission.

The absolute liability provisions of the Carmack and Cummins Amendments appears at 49 U.S.C. 11707 and the released rate authority given the Commission appear at 49 U.S.C. 10730. Section 211(b) of the Staggers Act modified 49 U.S.C. 10730 to permit rail carriers to establish released rates, without Commission approval, under which the carrier's liability is limited to a value established by written declaration of the shipper or by written agreement between the shipper and the carrier. The Commission issued rules implementing this provision on December 22, 1980, in Ex Parte No. 390, *Rail Rates Based on Limited Liability*, (45 FR 85029, 12/24/80). The Staggers Act also permits the use of a specified deductible for any claim against the carrier for loss and damage or delay in transportation. The intent of the legislation was to permit greater flexibility in ratemaking. Competition and restrictions on rate bureaus were assigned the primary role in insuring reasonableness. In addition, section 211(c) of the Staggers Act narrowed the venue for bringing civil actions, and section 211(d) required the Commission to conduct this study.

Conduct of Study

Specifically, the study is intended to examine whether rail carriers should continue to be subject to section 11707 of the Interstate Commerce Act. We are required to study whether other liability standards, such as comparative negligence or a no-fault system, may be more appropriate than the current standards. The study is also required to address ten specific questions set forth in section 211(d) including whether the presence of market dominance should affect the level of liability, the recovery and amount of attorneys' fees, appropriate time limits for filing of claims, and proper venue requirements.

The Commission is interested in obtaining the views and recommendations of all interested persons. This proceeding is being instituted to permit an open exchange of ideas. As it is a study directed by Congress, it will not result in a final decision within the meaning of the Administrative Procedures Act, 5 U.S.C. 551.

All interested parties shall notify the Commission within 30 days of this notice of their intention to participate. The Commission will then prepare and distribute a service list.

Comments must be filed with the Commission and all participating parties by May 15, 1981 and reply statements will be due no later than June 12, 1981.

Comments Invited

To assist us in preparing the report, we request comments from all interested parties on whether the Carmack Amendment should be modified or eliminated with respect to rail carrier liability. We are especially interested in learing what practices are in use today, what the experience has been under each, and what problems shippers and carriers actually confront in dealing with liability questions. For instance, we would like information as to what extent special or consequential damages are being recovered from rail carriers. We would also like to know whether a rail carrier ought to be responsible for such damages in the absence of a clear showing, by written agreement, that the carrier was made aware of foreseeable risks and had an opportunity to make appropriate arrangements. We believe that it will be beneficial to all parties, as well as to Congress and ourselves, to build a record that reflects the actual experiences and problems of carriers and shippers in this regard. In addition, of course, the Commission is interested in the parties' views about the specific questions posed in the Staggers Act:

(1) Whether in the case of traffic with respect to which rail carriers do not have market dominance, such carriers should be subject to any higher level of liability for loss and damage than they are willing to agree to with the shippers of such traffic.

(2) Whether in the case of traffic with respect to which rail carriers have market dominance, such carriers should be subject to any greater liability than would be imposed under a statutory comparative negligence standard.

(3) Whether liability for damage to rail traffic should be determined under a no-fault liability system and what shippers should bear the cost of such a system.

(4) Whether venue in cases arising from rail carrier liability for damages to traffic should be further limited.

(5) Whether rail carrier property damage cases should be subject to laws other than Federal law.

(6) Whether the right to claims should be limited to either the shipper or receiver of property.

(7) Whether maximum time limits should be imposed on the filing of claims with rail carriers and the courts.

(8) Whether the prevailing party in a claims proceeding should be awarded attorneys fees in order to limit needless litigation.

(9) Whether excessive attorneys fees are awarded in cases under section 11707 of title 49, United States Code.

(10) Whether claimants should be able to recover damages in excess of the market value of the commodity transported unless liability for special or consequential damages is agreed to by the carrier in unity.

The study is directed at reevaluating an area of commercial law that has its roots in antiquity. Because of its importance to commerce, it is essential that interested parties give careful consideration to those policies that would achieve the most cost effective results. We have attached a partial bibliography covering the legal, economic, and practical aspects of cargo liability. Parties should indicate when they are responding to specific questions as opposed to offering general observations.

While it does not appear that this study will significantly affect the quality of the human environment, energy consumption, or have an adverse effect on small business, comments on these matters are also invited.

(49 U.S.C. 10321; section 211 of the Staggers Rail Act, Pub. L. 96-448)

Decided: March 11, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Petition Volume No. OP3-200]

Motor Carrier; Petitions for Modification, Interpretation or Reinstatement of Operating Rights Authority

The following petitions seek modification or interpretation of existing motor carrier operating rights authority, or reinstatement of terminated motor carrier operating rights authority.All pleadings and documents must clearly specify the suffix numbers (e.g., M1 F, M2 F) where the docket is so identified in this notice.

The following petitions, filed on or after March 1, 1979, are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR 1100.247). These rules provide, among other things, that a *petition to intervene either with or without leave* must be filed with the Commission within 30 days after the date of publication in the **Federal Register** with a copy being furnished the applicant. Protests to these applications will be *rejected.*

A petition for intervention without leave must comply with Rule 247(k) which requires petitioner to demonstrate that if (1) holds operating authority permitting performance of any of the service which the applicant seeks authority to perform, (2) has the necessary equipment and facilities for performing that service, and (3) has performed service within the scope of the application either (a) for those supporting the application, or, (b) where the service is not limited to the facilities of particular shippers, from and to, or between, any of the involved points.

Persons unable to intervene under Rule 247(k) may file a petition for leave to intervene under Rule 247(l). In deciding whether to grant leave to intervene, the Commission considers, among other things, whether petitioner has (a) solicited the traffic or business of those persons supporting the

application, or, (b) where the identity of those supporting the application is not included in the published application notice, has solicited traffic or business identical to any part of that sought by applicant within the affected marketplace. Another factor considered is the effects of any decision on petitioner's interests.

Samples of petitions and the text and explanation of the intervention rules can be found at 43 FR 50908, as modified at 43 FR 60277. Petitions not in reasonable compliance with these rules may be rejected. Note that Rule 247(e), where not inconsistent with the intervention rules, still applies. Especially refer to Rule 247(e) for requirements as to supplying a copy of conflicting authority, serving the petition on applicant's representative, and oral hearing requests.

MC 125985 (Sub-6) (M1) and MC 125985 (Sub-9) (M2), filed August 18, 1980, Notice of Filing of Petition to Modify the Commodity Description. Petitioner: AUTO DRIVEAWAY COMPANY, 310 South Michigan Ave., Chicago, IL 60604. Representative: Daniel B. Johnson, 4304 East-West Hwy, Washington, D.C. 20014. Petitioner holds *common carrier* authority in MC 125985 (Sub-6), served December 15, 1971, and MC 125985 (Sub-9), served April 22, 1974. MC 125985 (Sub-6) authorizes over irregular routes, the transportation of *motor homes*, in driveaway service, between points in CA, on the one hand, and, on the other, points in the U.S. (except HI). MC 125985 (Sub-9) authorizes over irregular routes the transportation of *motor homes*, in driveaway service, between points in the U.S. (including points in AK and HI, but exluding Mt. Clemens and Pontiac, MI), restricted against the transportation of traffic between points in CA, on the one hand, and, on the other, points in the U.S.

By the instant petition, petitioner seeks to modify both commodity description to read: "*motor homes* and *automobiles*, in driveaway service."

MC 147524 (Sub-2M1F), filed February 9, 1981, Notice of Filing of a Petition to Add a Contracting Shipper. Petitioner: SINED LEASING, INC., 108 High St., Mount Holly, NJ 08060. Representative: Frank L. Newburger, III, 17th Floor, 1234 Market Street, Philadelphia, PA 19107. Petitioner holds motor *contract carrier* Permit in MC 147524 (Sub-2F), served February 4, 1981, authorizing transportation, over irregular routes, of (1) *liquid sugar*, in bulk, (a) from New York, NY to Chicago, IL, and Twinsburg, OH, Dayton, OH, Lynchburg, Hollins, and Roanoke, VA, Elkin, Winston-Salem, and Greensboro, NC, and Nitro, WV; (b) from Chicago, IL, to Dayton, Akron, Maple Heights, Athens, and Columbus, OH, and Detroit, MI; (c) Chicago, IL and Twinsburg, OH; (d) from Lafayette, IN to Twinsburg, OH; (e) from Argo, OK to Cincinnati, Dayton, and Athens, OH; and (f) from Brooklyn, NY to Akron, Maple Heights, and Athens, OH; (2) *dry sugar*, in bulk, from New York, NY and Boston, MA to Buffalo, NY; (3) *liquid corn syrup*, in bulk, (a) from Hammond, IN to New York, NY, Fogelsville, PA, Baltimore, MD, and Frazer, PA, and (b) from Chicago, IL to Fogelsville, NY; (4) *dry flour*, in bulk, from Buffalo, NY to points in NH, CT, MA, PA, NJ and MD; (5) *dry flour*, in bags, from Buffalo, NY to New York, NY, and points in New Jersey and Pennsylvania; and (6) *dry corn starch*, in bulk, from Hammond, IN, to Fogelsville, PA, under continuing contract(s) with (i) Beverage Management, Inc., of Columbus, OH, (ii) Revere Sugar Corp., of Brooklyn, NY, (iii) GCC Beverages, Inc., of Miami, FL, (iv) F & M Schaefer Brewing, Inc., of Fogelsville, PA, (v) Standard Milling Company, of Kansas City, MO, and (vi) American Maize Products Co., of Hammond, IN.

By the instant petition, petitioner seeks to add International Multifoods Corporation of Minneapolis, MN and Refined Syrups & Sugars, Inc., of Yonkers, NY as contracting shippers.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the Federal Register of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this comliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY–3012

Decided March 11, 1981.

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

MC 3114 (Sub-44), filed February 27, 1981. Applicant: T. H. COMPTON, INC., R.F.D. No. 1, Berkeley Springs, WV 25411. Representative: Herbert Alan Dubin, 618 Connecticut Ave., NW, Washington, DC 20008, (202) 231–1174. Transporting *ores and minerals, coal*

and coal products, clay, concrete, glass or stone products, between points in CT, DE, MD, NJ, NY, PA, VA, WV and DC.

MC 8544 (Sub-41), filed February 23, 1981. Applicant: GALVESTON TRUCK LINE CORPORATION, 7415 Wingate, Houston, TX 77011. Representative: William E. Collier, 8918 Tesoro Dr., Suite 515, San Antonio, TX 78217 (512) 826-6496. Transporting *floor tiles,* between points in Harris, Brazoria, Waller, Liberty and Houston Counties, TX, on the one hand, and, on the other, points in AR, KS, LA, MS, MO, OK, and TN.

MC 8544 (Sub-42), filed February 23, 1981. Applicant: GALVESTON TRUCK LINE CORPORATION, 7415 Wingate, Houston, TX 77011. Representative: William E. Collier, 8918 Tesoro Drive, Suite 515, San Antonio, TX 78217 (512) 826-6496. Transporting *general commodities,* (except classes A and B explosives), between Houston and Galveston, TX, on the one hand, and, on the other, points in AR, LA, KS, MO, OK and TX, restricted to traffic having a prior or subsequent movement by rail or water.

MC 22484 (Sub-7), filed February 23, 1981. Applicant: BROWN FROM WABASH, INC., 403 S. Cass St., Wabash, IN 46992. Representative: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240 (317) 846-6655. Transporting *general commodities* (except classes A and B explosives), between the facilities of United States Gypsum Company and its subsidiaries in the U.S., on the one hand, and, on the other, points in the U.S.

MC 26825 (Sub-57), filed February 17, 1981. Applicant: ANDREWS VAN LINES, INC., P.O. Box 1609, Norfolk, NE 68701. Representative: Jack L. Shultz, P.O. Box 82028, Lincoln, NE 68501 (402) 475-6761. Transporting *food and related products,* between points in Madison County, NE, on the one hand, and, on the other, points in CO, IL, IN, IA, KS, MN, MO, ND, OK, SD, TN, TX, WI, and WY.

MC 67234 (Sub-39), filed February 18, 1981. Applicant: UNITED VAN LINES, INC., One United Drive, Fenton, MO 63026. Representative: B. W. LaTourette, Jr., 11 S. Meramec, Suite 1400, St. Louis, MO 63105 (314) 727-0777. Transporting *sleeping bags, comforters, dog beds, shirts,* and *such commodities* as are dealt in by retail clothing stores, between Seattle, WA, New Orleans, LA, Kinston, NC, and Freeport, ME.

MC 77424 (Sub-55), filed February 24, 1981. Applicant: WENHAM TRANSPORTATION, INC., 3200 East Seventy-ninth Street, Cleveland, OH 44104. Representative: James Johnson, (same address as applicant) (216) 883-4600. Transportation *general commodities* (except classes A and B explosives, between points in AL, AR, CT, DE, FL, GA, IL, IN, IA, KY, LA, MD, MA, MI, MN, MS, MO, NJ, NY, NC, OH, OK, PA, RI, SC, TN, TX, VA, WV, WI, and DC.

Note.—Issuance of a certificate in this proceeding is conditioned upon prior or coincidental cancellation at applicant's written request of MC 77424 and subs thereunder.

MC 95084 (Sub-171), filed February 23, 1981. Applicant: HOVE TRUCK LINE, a Corporation, Stanhope, IA 50246. Representative: Kenneth F. Dudley, P.O. Box 279, Ottumwa, IA 52501 (515) 682-8154. Transportation *lumber,* between points in the U.S., under continuing contract(s) with Midwest Lumber Associates, of Minneapolis, MN.

MC 96964 (Sub-20), filed February 9, 1981. Applicant: P.B.I. FREIGHT SERVICE, a Corporation, 960 North 1200 West, Orem, UT 84057. Representative: Lon Rodney Kump, 333 East Fourth South, Salt Lake City, UT 84111 (801) 328-8987. Transportation *general commodities,* between points in Utah, San Juan and Grand Counties, UT, Apache and Navajo Counties, AZ, and Dolores, San Miguel and Montexzuma Counties, Co.

Note.—(1) To the extent the certificate granted in this proceeding authorizes the transportation of classes A and B explosives it will expire 5 years from the date of issuance; and (2) Applicant intends to take this authority with its existing authority.

MC 104675 (Sub-43), filed February 23, 1981. Applicant: FRONTIER DELIVERY, INC., 4338 Ridge Lea Rd., Amherst, NY 14226. Representative: Ronald W. Malin, Bankers Trust Bldg., Jamestown, NY 14701 (716) 664-5210. Transportation *commodities in bulk,* between points in NY, CT, MA, NH, VT, and RI. Condition: Issuance of a certificate in this proceeding is subject to coincidental cancellation of carrier's existing certificate in MC 104675 and related subs, at applicant's written request.

MC 107295 (Sub-1019), filed February 17, 1981. Applicant: PRE-FAB TRANSIT CO., a Corporation, P.O. Box 146, Farmer City, IL 61842. Representative: Duane Zehr (same address as applicant) (309) 928-2141. Transportation *building materials,* between Cleveland, OH, Atlanta, GA, Piscataway, NJ, Portland, OR, Houston, TX, Minneapolis, MN, St. Louis, MO, and Tustin, CA, on the one hand, and, on the other, points in the U.S.

MC 112014 (Sub-31), filed February 19, 1981. Applicant: SKAGIT VALLEY TRUCKING CO., INC., P.O. Box 400, Mount Vernon, WA 98273. Representative: Michael D. Duppenthaler, 211 So. Washington St., Seattle, WA 98104, (206) 622-3220.Transporting *such commodities* as are dealt in or used by grocery stores and food business houses, between points in WA, OR, and CA.

MC 118544 (Sub-244), filed February 9, 1981. Applicant: ALTRUK FREIGHT SYSTEMS INC., 1703 Embarcadero Rd. Palo Alto, CA 94303. Representative: Richard G. Lougee, P.O. Box 10061, Palo Alto, CA 94303, (415) 856-0117.Transporting *such commodities* as are dealt in or used by manufacturers of animal feed and feed ingredients, between the facilities of Kal-Kan Foods, at points in the U.S., on the one hand, and, on the other, points in the U.S.

MC 120364 (Sub-33), filed February 23, 1981. Applicant: A & B FREIGHT LINE, INC., 4805 Sandy Hollow Rd., Rockford, IL 61109. Representative: James A. Spiegel, Olde Towne Office Park, 6425 Odana Rd., Madison, WI 53719, (608) 273-1003.Transporting *such commodities* as are dealt in by the distributors of agricultural supplies and equipment, between points in U.S. under continuing contract(s) with Timm's Grain & Supply, Inc., of Holcomb, IL.

BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the Federal Register on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each

applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later became unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY-3-013

Decided March 11, 1981.

By the Commission, Review Board No. 2, Members Carleton, Fisher and Williams.

MC 146464 (Sub-7), filed February 20, 1981. Applicant: NEVADA GENERAL TRANSPORTATION, INC., P.O. Box 1161, Lamoille, NV 89828. Representative: David E. Wishney, P.O. Box 837, Boise, ID 83701, (208) 336-3955. Transporting, for or on behalf of the United States Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the U.S.

MC 148644 (Sub-1), filed February 23, 1981. Applicant: GARY W. GLASS, d.b.a. GLASS ENTERPRISES, 3117 Christine, Memphis, TN 38118. Representative: Thomas A. Stroud, 2008 Clark Tower, 5100 Popular Ave., Memphis, TN 38137, (901) 767-5600. Transporting, for or on behalf of the U.S. Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the U.S.

MC 151854 (Sub-1), filed February 10, 1981. Applicant: DENNIS D. RICHMEIER, 5661 Bates Ave., Denver, CO 80227. Representative: Edward C. Hasting, 653 Grant St., Denver, CO 80203, (303) 837-1204. Transporting *food and other edible products and byproducts intended for human consumption (except alcoholic beverages and drugs), agricultural limestone and fertilizers, and other soil conditioners* by the owner of the motor vehicle in such vehicle, between points in the U.S.

MC 154334, filed February 18, 1981. Applicant: THE INTERNATIONAL SHIPPING COMPANY, a corporation, 1001 Connecticut Ave. NW., Suite 628, Washington, D.C. 20036. Representative: Robert A. Warren (same address as applicant), (202) 833-5750. As a *broker* of *general commodities* (except household goods), between points in the U.S.

MC 154404, filed February 19, 1981. Applicant: KUEHNE & NAGEL DISTRIBUTION SERVICES, INC., 955 Pratt Blvd., Elk Grove Village, IL 60007. Representative: Martin W. Dooley, 2420 East Oakton, Arlington Heights, IL 60005, (312) 364-0500. As a *broker* of *general commodities* (except household goods), between points in the U.S.

MC 154415, filed February 12, 1981. Applicant: WILLIAM R. BAIR, 2805 Barton Drive, Cinnaminson, NJ 08077. Representative: (same as applicant), (609)-829-4671. Transporting *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizer, and other soil conditioners* by the owner of the motor vehicle in such vehicle, between points in the U.S.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

[Volume No. 42]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

March 16, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the Federal Register of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,
Secretary.

MC 2229 (Sub-271)X, filed March 9, 1981. Applicant: SPECTOR RED BALL, INC., 3177 Irving Boulevard, Dallas, Texas 75247. Representative: Joseph S. Ruscetta (same address). Applicant seeks to remove restrictions from its Sub-No. 180 certificate to (1) delete all exceptions to its general commodity authority except classes A and B explosives; (2) allow it to serve all intermediate points between Houston and a described junction near Kent, TX; between Houston and a described junction near Harper, TX; between El Paso, TX and Phoenix, AZ; between Lordsburg, NM and Tucson, AZ; between Amarillo, TX and San Bernardino, CA; and between Barstow, CA and junction CA Hwy 58 and Interstate Hwy 5; (3) remove the limitations "serving specified points for purposes of joinder only" wherever they appear in the certificates; and (4) remove the "originating at and destined to" restriction.

MC 6575 (Sub-3)X, filed March 2, 1981. Applicant: G. ARREDONDO TRANSFER CO., INC., 270 Guadalupe St., Laredo, TX 78040. Representative:

Eduardo Pena, Jr., 243 National Press Building, Washington, DC 20045. Applicant seeks to remove restrictions in its lead and Sub-No. 2 certificates to (1) broaden the commodity description in both certificates by removing all restrictions from its general commodities authority "except classes A and B explosives" and (2) broaden the territorial description in the lead certificate, limiting service between Laredo, TX, and a specific port of entry at or near Laredo, TX on the U.S.-Mexico boundary line, and replace Laredo, TX with county-wide authority to authorize service between Webb County, TX and points within five miles of Laredo, TX, and ports of entry on the United States-Mexico boundary line in Texas.

MC 21666 (Sub-195)X, filed March 9, 1981. Applicant: WEST MOTOR FREIGHT, INC., 740 South Reading Avenue, Boyertown, PA 19512. Representative: Alan Kahn, 1430 Land Title Building, Philadelphia, PA 19110. Applicant seeks to remove restrictions in its Sub-No. 136F certificate to (1) broaden the commodity description from general commodities (with exceptions) to *"general commodities* (except classes A and B explosives);" (2) broaden the territorial description by removing facilities limitations and expanding to county-wide authority and to authorize radial service between points in Berks and Dauphin Counties, PA, (facilities at Boyertown and Harrisburg, PA), on the one hand, and, on the other, points in the United States; and (3) remove the exceptions of AK and HI.

MC 22179 (Sub-27)X, filed March 2, 1981. Applicant: FREEMAN TRUCK LINE, INC., 419 Jackson Avenue, Oxford, MS 38655. Representative: Douglas C. Wynn, P.O. Box 1295, Greenville, MS 38701. Applicant seeks to remove restrictions in its lead and Sub-Nos. 8, 15, 17, 20, 22F, 23F, and 24F certificates, and in its certificate acquired in No. MC-F 13931F (portion of MC-141853), in which issuance of a certificate is pending, by broadening its territorial descriptions to (1) authorize service at all intermediate points where service is limited to specified intermediate points or no intermediate point service in the regular route portions of (a) the lead certificate, part (1) between Grenada, MS, and Kosciusko, MS, and in part (2), between Memphis, TN, and Oxford, MS, (b) in Sub-No. 8, between Kosciusko, MS, and Grenada, MS and (c) in Sub-No. 17, between Yazoo City, MS, and Vicksburg, MS; (2) replace its cities and/or facilities with county-wide authority (a) in Sub-No. 15, named facilities located at or near Oxford, MS, with Lafayette County, MS, (b) in Sub-No. 20F, named facilities located at or near Kosciusko, MS, with Attala County, MS, (c) in Sub-No. 22F, named facilities in Warren County, MS, with Warren County, MS (d) in Sub-No. 23F, Oxford, MS, with Lafayette County, MS, (e) in Sub-No. 24F, Vicksburg, MS, with Warren County, MS, and (f) in MC-F 13931F, Belzoni, Rolling Fork, Yazoo City, and Vicksburg, MS, with Humphreys, Sharkey, Yazoo, and Warren Counties, MS; (3) change its one-way authority to radial authority (a) in Sub-No. 15, between Lafayette County, MS, and specified points in AL and TN, (b) in Sub-No. 20F, between Nashville, TN, and points in Attala County, MS, and (c) in Sub-No. 22F, part (1), between Warren County, MS, and points in AL, AR, GA, KY, LA, and TN, and in part (2), between AL, GA, and KY, to points in Warren County, MS; (4) eliminate the originating at and destined to restrictions in Sub-Nos. 20F, and 22F; and (5) eliminate the "cement in containers" exception in the commodity description, in MC-F 13931F.

Note.—Applicant's ability to tack authority acquired in MC-F 13931 with its other authority will be governed by the rules contained at 49 CFR Part 1042.

MC 27580 (Sub-8)X, filed March 5, 1981. Applicant: JOSEPH CORY DELIVERY SERVICE, INC., 114 Liberty Street, Suite 204, New York, NY 10006. Representative: Morton E. Kiel, Suite 1832, 2 World Trade Center, New York, NY 10048. Applicant seeks to remove restrictions in its lead and Sub-Nos. 4, 5, and 7 certificates to (1) broaden the commodity descriptions from uncrated new furniture in its lead and Sub-No. 5, from new furniture, refused, rejected, or damaged shipments of new furniture in Sub-No. 4, and from uncrated furniture in Sub-No. 7, to "furniture and fixtures"; (2) authorize radial service in place of existing one-way authority: (a) between New York, NY and points in New York, New Jersey, Connecticut, and Pennsylvania in its lead, (b) between Jersey City, NJ and points in that part of New York and New Jersey within 50 miles of the New York, NY, commercial zone, as defined by the Commission in 1 M.C.C. 665 in Sub-No. 4, and (c) between Suffolk County, NY, and points in Connecticut, New Jersey, New York, and Pennsylvania in Sub-No. 5; and (3) remove the restriction limiting service to retail delivery service in Sub-No. 5.

MC 57902 (Sub-13)X, filed March 9, 1981. Applicant: SEWELL MOTOR EXPRESS, INC., 149 South Mulberry Street, Wilmington, OH 45177. Representative: Joe F. Asher, 88 East Broad Street, Columbus, OH 43215. Applicant seeks to remove restriction limiting its service to traffic having a prior or subsequent movement by rail, in its Sub-No. 9F certificate on movements between Columbus, OH, and points in 7 States.

MC 71452 (Sub-22)X, filed March 3, 1981. Applicant: INDIANA TRANSIT SERVICE, INC., 4300 West Morris Street, Indianapolis, IN 46241. Representative: Warren A. Goff, 2006 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Applicant seeks to remove restrictions in its lead and Sub-Nos. 8 and 10 certicates to (1) broaden (a) the general commodities descriptions (with the usual exceptions) to "general commodities (except classes A and B explosives)" in the lead (sheet 1) and Sub-Nos. 8 and 10 and (b) magazines to "printed matter" in the lead (sheet 2); (2) remove the ex-air restriction and replace the airport restriction with city-wide authority to serve Indianapolis, IN in the lead and name sub numbers; and (3) replace city-wide with county-wide authority in the lead; Wateska with Iroquois County, IL and Louisville with Jefferson County, KY.

MC 85451 (Sub-22)X, filed March 6, 1981. Applicant: BLUEBONNET EXPRESS, INC., P.O. Box 16205, Houston, TX 77023. Representative: Warren A. Goff, 2006 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Applicant seeks to remove restrictions in its Sub-Nos. 11 and 19 certificates to (1) broaden the commodity description from general commodities, with exceptions to "general commodities (except classes A and B explosives)"; and (2) remove the "ex-air" restriction.

MC 85970 (Sub-51)X, filed March 2, 1981. Applicant: SARTAIN TRUCK LINE, INC., P.O. Box 1258, Dyersburg, TN 38024. Representative: Thomas A. Stroud, 2006 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Applicant seeks to remove restriction from its Sub-No. 8 certificate to (1) remove all exceptions on its general commodities authority except classes A and B explosives; (2) authorize service at all intermediate points between Memphis, TN and Union City, TN, between Memphis, TN and Bradford, TN, and between Dyersburg, TN and St. Louis, MO; and (3) eliminate a restriction limiting service at Memphis, TN to that portion of Memphis and its commercial zone lying wholly within TN, to remove a restriction against handling traffic originating at, destined to, or interchanged at Dyersburg, TN and its commercial zone, to eliminate a restriction against handling traffic at St. Louis, MO and East St. Louis, MO and

their commercial zones which originates at or is destined to Dyersburg or Newbern, TN and points in their commercial zones, and to eliminate a restriction against the transportation of traffic between points in the St. Louis MO, East St. Louis, IL commercial zone, on the one hand, and, on the other, Memphis and Jackson, TN and points in their commercial zones.

MC 99203 (Sub-17)X, filed March 6, 1981. Applicant: SKYLINE TRANSPORTATION, INC., P.O. Box 3569, 131 Quincy Avenue, Knoxville, TN 37917. Representative: Blaine Buchanan, 1024 James Building, Chattanooga, TN 37402. Applicant seeks to remove restrictions from its Sub-Nos. 3, 4, 5, 6, 11, 12, 13, 14F, and 15F certificates to (1) remove all exceptions from its general commodity authority except classes A and B explosives; (2) remove the "originating at or destined to" restriction in Sub-No. 3; and (3) allow service at all intermediate points between Knoxville, TN and Harlan, KY in Sub-No. 4; between Knoxville, TN and Birmingham, AL in Sub-No. 12; and between Newport, TN and Charlotte, NC in Sub.No. 14F.

MC 104881 (Sub-8)X, filed March 4, 1981. Applicant: GAY TRUCK LINE, INC., P.O. Box 134, Falkner, MS 38629. Representative: Harold D. Miller, Jr., 17th Floor, Deposit Guaranty Plaza, P.O. Box 22567, Jackson, MS 39205. Applicant seeks to remove restrictions in its Sub-Nos. 2 and 7F certificates (1) to remove all exceptions from the general commodities authorization, except Classes A and B explosives; and (2) to authorize service to all intermediate points on regular routes in Sub-No. 2 between points in MS and TN; (3) to remove a restriction in its Sub-No. 2 certificate prohibiting tacking of irregular-route authority to regular-route authority, and to convert that irregular-route authority to radial authority between Ripley, MS and Hohenwald, TN.

MC 107304 (Sub-10)X, filed March 9, 1981. Applicant: TRANSWAY, INC., P.O. Box 1266, Metairie, LA 70004. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Applicant seeks to remove restrictions in its lead and Sub-No. 9 certificate to (1) broaden the commodity description from (a) dated publications to "printed matter" in its lead (b) general commodities (with exceptions) to "general commodities (except classes A and B explosives)" in Sub-No. 9, (2) delete the restriction limiting transportation to traffic having a prior or subsequent movement by air in Sub-No. 9.

MC 110191 (Sub-41)X, filed February 19, 1981, previously notice in the Federal Register of March 11, 1981, republished as corrected this issue. Applicant: TURNER'S EXPRESS, INCORPORATED, 1300 Shelton Avenue, Norfolk, VA 23501. Representative: W. P. Davis, P.O. Box 1008, Norfolk, VA 23501. Applicant seeks to remove restrictions in its lead and Sub-Nos. 17, 19, 20, 21, 22, 25, 37, 38 and 40 certificates (1) by broadening the commodity description in its lead from general commodities with the usual exceptions to "general commodities except Classes A and B explosives"; in its Sub-No. 22 from margarine and in its Sub-No. 37 from nonalcoholic beverages to "food and related products" and in its Sub-No. 38, from automobile parts, automobile supplies and equipment to "transportation equipment"; (2) by authorizing service at all intermediate points along its regular routes between Virginia and New York; (3) by expanding irregular authority to appropriate county-wide authority, in Sub-No. 17 from Ahoskie, NC, to points in Hertford County, NC; in Sub-No. 20 from Charleston, Clarksburg, Fairmont, Flemington, Huntington, Parkersburg, Princeton, and Morgantown, WV, to points in Cabell, Harrison, Kanawha, Marion, Mercer, Monogalia, Taylor and Wood Counties, WV; in Sub-No. 21 from named plantsite and storage facilities at Franklin, VA, to points in Isle of Wight and Southampton, VA; in Sub-No. 22 from named plantsite and storage facilities at Pennsauken, NJ, to points in Camden County, in Sub-No. 25 from Exmore, VA, to points in Accomack and Northampton Counties, VA; (4) by broadening in its lead and Sub-Nos. 20, 21, 22, 37, and 40 one-way authority on routes extending throughout the eastern United States; and (5) by removing restrictions in its lead limiting service to service for purposes of joinder only, and limiting service to points within a certain number of specified miles of New York, NY, Philadelphia, PA, Newark, NJ, Baltimore, MD, Washington, DC, Norfolk, VA, and points with Accomack and Northampton Counties, VA; in Sub-No. 17 limiting service to traffic originating at or destined to points north of the Maryland-Virginia State line and against the transportation of meats, etc. between New York, Newark, and Philadelphia; in Sub-No. 19 prohibiting service in bulk and that requiring special equipment, and having prior or subsequent motor movements from Norfolk or Suffolk, VA, or a prior or subsequent rail or water movement from any point; in Sub-No. 20 limiting service against transportation of imported foodstuffs, requiring vehicles equipped with mechanical refrigeration, and restricting service to traffic originating at a named plantsite and destined to name points; in Sub-No. 21 restricting service to traffic originating at a named plantsite and destined to named points in Sub-No. 22 requiring service in vehicles equipped with mechanical refrigeration; and in Sub-No. 25 restricting service to shipments originating at or destined to named facilities at Exmore, VA. The purpose of this republication is to give notice of the expansion of the commodities in applicant's Sub-No. 38.

MC 110641 (Sub-22)X, filed March 12, 1981. Applicant: PORT NORRIS EXPRESS CO., INC., North Avenue, Port Norris, NJ 08349. Representative: William P. Jackson, Jr., Post Office Box 1240, Arlington, VA 22210. Applicant seeks to remove restriction in its Sub-No. 16 certificate to broaden the commodity description from cullet, in bulk, to "commodities in bulk".

MC 111231 (Sub-346)X, filed March 6, 1981. Applicant: JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, AR 72764. Representative: James H. Berry (same address as applicant). Applicant seeks to remove restrictions in its Sub-No. 41 certificate to (1) broaden its commodity description (a) from general commodities (with exceptions) to "general commodities (except classes A and B explosives)", (b) from steel and steel products to "metal articles" and (c) from canned goods to "food and related products", (2) broaden the territorial description (a) by authorizing service at all intermediate points, where service is limited to specified intermediate points or no intermediate point service in connection with its regular-route general commodity operations between St. Louis, MO, and Chicago, IL, (b) authorize radial service in place of existing one-way authority in connection with applicant's irregular-route transportation of metal articles, as follows: between points on the described regular routes and Kansas City, KS, and points in IL and MO.

MC 112908 (Sub-12)X, filed March 3, 1981. Applicant: KINGSWAY TRANSPORTS LIMITED, 123 Rexdale Boulevard, Rexdale, Ontario, CN M9W 1P3. Representative: John W. Bryant, 900 Guardian Building, Detroit, MI 48226. Applicant seeks to remove restrictions from in its Sub-No. 1F certificate and MC-126672, acquired in No. MC-F-14180F (issuance of a certificate is pending) to (1) broaden the commodity description from general commodities,

with exceptions to "general commodities (except classes A and B explosives)" in Sub-No. 1; (2) remove the specific port of entry at Detroit, MI to authorized radial service "between Detroit, MI and ports of entry on the international boundary line between US and CN in MI in Sub-No. 1; and (3) remove the specified ports of entry in VT and NY to authorize radial service "between ports of entry on the US–CN boundary in NY and VT and points in ME, NH, VT, CT, RI, and NY.

MC 116519 (Sub-92)X, filed March 6, 1981. Applicant: FREDERICK TRANSPORT LIMITED, R.R. No. 6, Chatham, Ontario, Canada N7M 5J6.Representative: Jeremy Kahn, Suite 733 Investment Building, 1511 K Street, N.W., Washington, D.C. 20005. Applicant seeks to remove restrictions from its Sub–61F certificate to (1) delete the exception in its building materials authority of "refractories and brick" in part 5; (2) eliminate the facilities limitations at specified points in IL, IA, and IN; and (3) authorize radial authority between ports of entry on the international boundary line between the U.S. and Canada in MI and NY, and points in the U.S. (except 13 western States). Removal of these restrictions will subsume parts 1–4 of applicant's authority authorizing service between specified points in IL, IA, and IN and ports of entry on the international boundary line between the U.S. and Canada in MI and NY.

MC 117765 (Sub-312)X, filed March 2, 1981. Applicant: HAHN TRUCK LINE, INC., 1100 S. MacArthur, Oklahoma City, OK 73147. Representative: C. L. Phillips, Rm. 248, Classen Terrace Bldg., 1411 N. Classen, Oklahoma City, OK 73147. Applicant seeks to remove restrictions from its Sub–1 (in part), 21, 30, 36, 39, 50, 68, 138, 152, 164, 191, 196, (in part), 212, 221, 251F (in part), 260F, 267F, 278F and 292F certificates, by (1) broadening the commodity description in each from greases, lubricating oil, antifreeze, petroleum, petroleum products, etc., to "petroleum products in containers, commodities, materials, equipment and supplies used or distributed by wholesale or retail suppliers, marketers or distributors of petroleum and petroleum products"; (2) removing the "originating at and/or destined to" restrictions wherever they appear in each Sub-30, 36, 50, 68, 152, 260F, and 278F; (4) replace county-wide authority for city-wide authority: Garfield County, OK for Enid in Sub-1 (sheet 5), 21, 50, 68, 138, 152, and 267; Sedgwick County, KS for Wichita in Sub-1 (sheet 5), 30, 50, 68, 138, and 152; Kay County, OK for Ponca City in Sub-1 (sheet 5), 21, 138, 164, 196, 267, and 278; Butler County, KS for El Dorado in Sub-152, 196, and 292; Garvin County, OK for Wynnewood in Sub-191; Montgomery County, KS for Coffeyville in Sub-221; and (5) expand one-way authority to radial authority between points in 22 States located mainly in the Central portion of the U.S.

MC 119710 (Sub-33)X, filed February 26, 1981. Applicant: SHUPE BROS. CO., P.O. Box 929, Greeley, CO 80631. Representative: Paul F. Sullivan, 711 Washington Building, Washington, D.C. 20005. Applicant seeks to remove restrictions in its Sub–5, 11, 15, 16, 17, 18, 26 and 28F permits to (A broaden the commodity description (1) to "food and related products", from (a) salt products, pepper, mineral mixtures, and packaged servings of jams, jellies, honey, syrups, sugar, condiments, sauces, and salad dressings, in Sub-5, 15, and 26, and (b) animal and poultry feeds, and feed ingredients, in Sub-5, 11, 16, 17, 18 and 28F; and (2) to "machinery" from materials, equipment and supplies used in the manufacture of dry animal and poultry feeds and feed ingredients, in Sub-28F; and (B) broaden the territorial authority to "between points in the U.S.", under continuing contract(s) with named shippers.

MC 119777 (Sub-525)X, filed March 2, 1981. Applicant: LIGON SPECIALIZED HAULER, INC., Highway 85, East, Madisonville, KY 42431. Representative: Carl U. Hurst, P.O. Drawer L, Madisonville, KY 42431. Applicant seeks to remove restrictions in its Sub–112, 141, 161, 379F, 440F, and 488F irregular-route certificates to (1) broaden the commodity descriptions to "lumber and wood products" from lumber in Sub-112 and 161; "pulp, paper and related products" from pulpboard, wood pulp and fiber pulp (except size or weight commodities) in Sub-141; "lumber and wood products" from lumber and plywood in Sub-379F; "machinery, lumber and wood products, metal products," from agricultural implements and parts and accessories, iron and steel articles, and commodities, except in bulk, used in their and manufacture or distribution in Sub-482F, (2) broaden the territorial descriptions from one-way service, to authorize radial service: Sub-112, between points in Hancock County, KY, and points in 19 States, and between Hancock County, KY, and points in 23 States; Sub-161, between points in NM, and points in 13 States and DC; Sub-440F, between the named facilities at Pinckneyville, IL and St. Louis, MO, and points in the United States in and west of LA, AR, MO, IA and MN; and, Sub-488F, between the name facilities at Baton, LA, and points in AL, AR, FL, GA, MS, OK, TN and TX, and (3) remove the AK and HI exception in Sub-440F.

MC 120737 (Sub-79)X, filed February 26, 1981. Applicant: STAR DELIVERY & TRANSFER, INC., P.O. Box 39, Canton, IL 61520. Representative: James C. Hardman, 33 N. LaSalle Street, Chicago, IL 60602. Applicant seeks to remove restrictions in its Sub–52F, 53F, 54F, 55F, 64F, 65F, and 66F certificates to (1) broaden the commodity description to "metal products" from (a) iron and steel articles, in 52F, 53F, 54F, 55F, 64F, and 66F, (b) metal articles, in Sub-65F, and (c) pipe, in Sub-66F; (2) broaden the territory description to county-wide authority: Winnebago County, IL, for Rockford, IL, in Sub-54F; Montgomery County, IN, for Crawfordsville, IN, in Sub-55F; Grayson County, TX, for Sherman, TX, and Cook County, IL, for Chicago Heights, IL, in Sub-64F; and Montgomery County, TX, for Conroe, TX, in Sub-66F; (3) in all certificates, except Sub-52F, authorize radial authority in lieu of existing one-way service between points in numerous specified States throughout the U.S. and 3 specified cities and 6 counties in the eastern half of the U.S.; (4) remove the plantsite restriction in Sub-53F, 55F, 64F, 65F, and 66F; (5) eliminate the commodities in bulk exception in Sub-52F and 66F; (6) remove the restriction limiting transportation to traffic originating at and destined to named points, in Sub-52F; and (7) remove the AK and HI exception in Sub-52F, 65F and 66F.

MC 121406 (Sub-69)X, filed March 10, 1981. Applicant: CANGO CORPORATION, 2727 North Loop West, Houston, TX 77008. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, D.C. 20001. Applicant seeks to remove restrictions in its Sub-11F certificate, to (1) broaden the commodity description from liquid chemicals and petroleum products, in bulk, to "commodities in bulk," and (2) broaden the territorial description by changing the plantsite restriction designation to the appropriate county designation of Brazoria County, TX; (3) eliminate the exceptions of AK and HI, and (4) eliminate the restriction limiting service to the transportation of traffic originating at or destined to named facilities.

MC 121499 (Sub-11)X, filed March 6, 1981. Applicant: WILLIAM HAYES LINES, INC., P.O. Box 610, Lebanon, TN 37087. Representative: John A. Crawford, 17th Floor, Deposit Guaranty

Plaza, P.O. Box 22567, Jackson, MS 39205. Applicant seeks to remove restrictions from its Sub-6F certificate to (1) broaden the commodity description from general commodities (with exceptions) to "general commodities (except Classes A and B explosives)"; (2) broaden the territorial scope by removing restrictions which limit service for purpose of joinder only and which limit service to specified or no intermediate points, in order to authorize service at all intermediate points in connection with its regular route operations between points in TN, IN, KY, GA, and AL.

MC 123672 (Sub-125)X, filed March 4, 1981. Applicant: W & L MOTOR LINES, INC., Post Office Box 3467, Hickory, NC 28601. Representative: Theodore Polydoroff, Suite 301, 1307 Dolley Madison Blvd., McLean, VA 22101. Applicant seeks to remove restrictions in its MC 142483 and Sub-2F permits to (1) broaden the commodity descriptions: from communications cable (except commodities which because of size or weight requires special equipment) to "communications cable, and electrical equipment, supplies and machinery" in the lead, and from glass fiber products (except commodities in bulk) to "glass and glass products" in Sub-2F; (2) broaden the territorial scope to serve between points in the U.S. under continuing contract(s) with named shippers, in those authorities.

MC 125103 (Sub-7)X, filed March 9, 1981. Applicant: SUNDERMAN TRANSFER, INC., P.O. Box 63, Windom, MN 56101. Representative: Carl E. Munson, 469 Fischer Building, P.O. Box 796, Dubuque, IA 52001. Applicant seeks to remove restrictions in its Sub-1 and 5 permits to (1) broaden commodity descriptions from meats and other foodstuff items, to "food and related products" in both permits; (2) eliminate restrictions in Sub-1, (a) except animal oils and animal fats, in bulk, in tank vehicles; (b) except fresh and frozen meats to Chicago, IL, Detroit, MI, and Covington, KY; (c) territorial restriction involving frozen foods moving in mixed loads; and (d) restriction pertaining to frozen meats, etc., from Windom, MN, to Galveston and Houston, TX applicable in foreign commerce only; (3) eliminate restriction "except commodities in bulk" in Sub-5; (4) delete the facilities limitation in Sub-5; and (5) broaden the territorial description in each permit to "between points in the United States under continuing contract(s) with named shippers."

MC 127608 (Sub-3)X, filed March 3, 1981. Applicant: B-BROTHERS CARTAGE, INC., 496 West 138th Street, Riverdale, IL 60627. Representative: Joel H. Steiner, 39 S. LaSalle, Suite 600, Chicago, IL 60603. Applicant seeks to remove restrictions from its MC 144361 and Sub-2 permits to (1) broaden the commodity description from aluminum articles (except in bulk) and steel tubing to "metal products" in each permit; and (2) expand the territorial description to between points in the U.S. under a continuing contract(s) with a named shipper.

MC 127608 (Sub-4)X, filed March 3, 1981. Applicant: B-BROTHERS CARTAGE, INC., 496 West 138th St., Riverdale, IL 60627. Representative: Joel H. Steiner, 39 South La Salle, Suite 600, Chicago, IL 60603. Applicant seeks to remove restrictions in its lead and Sub-1 and 4 certificates to (1) change the commodity description from pallet racks in its lead and steel shelving, flexible conduit, strip steel, steel angles, steel beams, dies and welding wire in Sub-4, to "metal products," from telephone directories and telephone directory pages to "printed matter" in Sub-1, and from cleaning compound chemicals and paint (except in bulk), to "chemicals and related products," (2) remove vehicle restrictions in Sub-4; (3) remove facilities limitations at Dwight and Pontiac, IL, in its lead and Sub-1 and 4; (4) substitute Livingston County, IL, for Dwight and Pontiac, IL in its lead and Sub-1 and 4; and (5) change one-way to radial authority between Livingston County, IL, and IA, WI, IN, MI, OH, KY and MO in its lead and Sub-1 and 4, and between Milwaukee, WI and Ferndale, MI and Livingston County, IL, in Sub-4.

MC 133689 (Sub-354)X, filed February 5, 1981, previously noticed in Federal Register of February 24, 1981, republished as corrected this issue. Applicant: OVERLAND EXPRESS, INC., 6651 Naples Street N.E., Blaine, MN 55434. Representative: Robert P. Sack, P.O. Box 6010, West St. Paul, MN 55118. Applicant seeks to remove restrictions from its Sub-264F certificate to (1) broaden the commodity description from parts and accessories for motor vehicles, and, materials, equipment, and supplies used in the manufacture and service of these commodities (except commodities in bulk) to "transportation equipment," (2) remove plantsite restrictions and replace with county-wide or city-wide authority: Fulton County, GA, for Atlanta, GA; Jefferson County, KY, for Louisville, KY; Suffolk and Hampden Counties, MA, for Boston and Springfield, MA; Washtenaw County, MI, for Milan, Rawsonville, and Saline, MI; Clay and St. Louis Counties, MO, for Kansas City and St. Louis, MO; Bergen, Middlesex, Camden, Union, and Hudson Counties, NJ, for Mahwah, Teterboro, Metuchen, Pennsauken, and Roselle, NJ; Erie and Onondaga Counties, NY, for Buffalo and Syracuse, NY; Mecklenburg County, NC, for Charlotte, NC; Shelby and Davidson Counties, TN, for Memphis and Nashville, TN; Hamilton, Cuyahoga, Richland, Lorain, and Allen Counties, OH, for Cincinnati, Cleveland, Manifield, Lorain, and Lima, OH; and Chicago, IL, Hennepin and Ramsey Counties, for Minneapolis, MN. The purpose of this republication is to reflect applicant's request for Fulton County, GA, Clay and St. Louis Counties, MO, and Hudson County, NJ, and Hennepin and Ramsey Counties, MN, for Minneapolis, MN.

MC 135195 (Sub-6)X, filed March 2, 1981. Applicant: STOVER AIR CARGO, INC., 3630 Wisman Lane, Quincy, IL 62301. Representative: Leonard R. Kofkin, 39 South La Salle St., Chicago, IL 60603. Applicant seeks to remove restrictions in its Sub-3 certificate to broaden the commodity and territorial authority by (1) removing all restrictions in its general commodities authority "except classes A and B explosives," (2) removing a restriction limiting service to the transportation of shipments having an immediately prior or subsequent movement by air, (3) removing a restrictions against radial transportation of shipments moving between points in Cook and Du Page Counties, IL, and St. Louis, MO and its commercial zone, and points within St. Louis County, MO, and (4) removing a restriction limiting service at points in IA to the transportation of shipments originating at or destined to points in eight IA counties, to authorize radial service between Chicago and Quincy, IL, Burlington, IA, and St. Louis, MO, and points in the eight IA counties, eight IL counties, seven MO Counties, and St. Louis, MO.

MC 135684 (Sub-166)X, filed February 24, 1981. Applicant: BASS TRANSPORTATION CO., INC., P.O. Box 391, Flemington, NJ 08822. Representative: Herbert Alan Dubin, 8181 Connecticut Ave., N.W., Washington, D.C. 20008. Applicant seeks to remove restrictions in its Sub-1, 5, 8, 10, 15, 16, 17F, 18F, 19F, 20, 23, 24, 26, 27, 28, 29, 34, 35, 40, 41, 44, 45, 46, 47, 48, 49F, 52, 54, 55, 58, 60, 63, 65, 66F, 68F, 71F, 72F, 73F, 74F, 75F, 76F, 78F, 79F, 81F, 82F, 83F, 85F, 96F, 97F, and 99F certificates to (1) broaden the commodity description from (a) fresh meats, meats, meat products, and meat byproducts and articles distributed by meat packinghouses, foodstuffs, confectioneries, chewing gum, and

novelties to "food and related products" in Sub-1, 15, 16 sheet 2 part 12 and 13, 17F sheet 2 parts 4 and 6, 27, 28, 34, 63, 65, and 66F; (b) ornamental iron products, ventilators, plastic shutters and grid ceiling systems to "building materials" in Sub-8; (c) surgical and hospital supplies, laboratory and hospital equipment, and chemicals to "instruments and photographic goods, and chemicals and related products" in Sub-10, 15, 23, and 47; (d) household cleaning products, industrial cleaning products, water purifying products and compounds, dry acids, synthetic gum resin, dry resin, chemicals, naval stores, tall oil products, paints, varnish driers, coal tar dyes, dyestuffs, acids, phthalic anhydride, salt and salt products, sodium bicarbonate and sodium carbonate, and soap to "chemicals and related products" in Sub-16, 29, 35, 44, 45, 46 (parts 1–3), 49 (part 2), 74F, 79F, 82F, 83F, and 97F; (e) hard surface floor coverings, floor coverings, tile, carpeting, rugs, floor tile, and linoleum to "such commodities as are dealt in or used by installors of floors" in Sub-18F (parts 1–6, 24–25), 46 (parts 5–7), and 71F; (f) synthetic rubber, rubber belting, matting, stair treads, packing, hose, machine parts, rubber heels, taps, soles, soling, plastic bottles, jars, jugs, and closures, plastic containers and tubes, plastic sheet lines, plastic bags, to "rubber and plastic products" in Sub-18F (parts 7–16), 19F (part 7–10, 13–14, 18–19, 24–28 and 31), 58, and 76F; (g) limestone, and glass containers to "clay, concrete, glass or stone products" in Sub-18F and 60; (h) paper, wrapping paper, paper bags and closures, pulpboard and by byproducts, fiberboard, wastepaper, and paperboard to "pulp, paper, and related products" in Sub-19F (part 3, 6, 11, 12, 21, 29, and 32, and 20) (parts 1, 3, and 7); (i) burlap bagging and burlap cloth, burlap and cotton bags, and finished burlap cloth, and laminated burlap bags to "textile mill products" in Sub-19F in (parts 1, 2, 4, 5 and 22–23); (j) sewing machine heads and stands, skids, pallets, machinery materials and supplies, office equipment and supplies to "machinery" in Sub-19F (part 15), and 20 (parts 2, 5, and 6); (k) paper and paper products, and supplies, materials, and machinery to "pulp, paper, and related products, and machinery" in Sub-24; (l) synthetic gum resin, resin, dry resin, chemicals, plastic pellets or granules and powder and plastic scrap, plastic film and sheeting, plastic doors and partitions, tall oil products, paints, varnish driers, coal tar dyes and dyestuffs, limestone, ground limestone, and ground clay to "chemicals and related products, rubber and plastic products, and clay, concrete, glass or stone products" in Sub-28; (m) salt and salt products to "chemicals and related products and ores and minerals" in Sub-48; (n) waste and scrap paper to "pulp, paper and related products" in Sub-52; (o) pipe fittings, gaskets, and valves to "metal products and rubber and plastic products" in Sub-54; (p) kitchen utensils, bathroom fixtures, and handles for kitchen utensils to "rubber and plastic products, metal products, and furniture and fixtures" in Sub-55; (q) chemicals and plastic products to "chemicals and related products and rubber and plastic products" in Sub-66F; and (r) containers, container ends, and container closures to "such commodities are dealt in or used by manufacturers and distributors of containers" in Sub-85F; (2) remove all exceptions on commodity descriptions, such as commodities in bulk, in containers, in rolls, in trailers, in bags, in tank vehicles, unusual value, hides, furniture, foodstuffs, frozen, foods, and fresh meats, wastepaper, special equipment, carpeting and rugs, wherever they appear in each of the above numbered certificates; (3) eliminate the named facilities or plantsite limitations in Sub-1, 5, 8, 10, 15, 16, 17F, 18F, 24, 26, 40, 46, 48, 49F, 54, 60, 66F, 72F, 73F, 74F, 75F, 78F, 79F, 81F, 82F, 83F, 95F, 96F and 97F; (4) replace specific point authority with county-wide authority wherever they appear in the above numbered certificates as follows: Franklin Park to Cook County, IL; Billerica, Chelsea, East Pepperall, Ayer, Piscataway, and Wilmington to Middlesex County, MA; Murray Hill, Cranford, Elizabeth, and Linden to Union County, NJ; Fitzwilliam to Cheshire County, NJ; Covington to Newton County, GA; Upland to San Beranardino County, CA; Lawrence to Douglas County, KS; Itasca to DuPage County, IL; Bridewater Township, Sommerville, and Neshanic to Somerset County, NJ; King of Prussia and Pottstown to Montgomery County, PA; Pittsburgh to Allegheny County, PA; Bristol to Bucks County, PA; Nashua and Tampa to Hillsboro County, FL; New Orleans to Orleans Parish, LA; Savannah to Chatham County, GA; Canton and Massillon to Stark County, OH; Milton to Northumberland County, PA; La Mirada and Los Angeles, to Los Angeles County, CA; Hamilton Township to Mercer County, NJ; Cambridge to Suffolk County, MA, Norwood and Stoughton to Norfolk County, MA; Moonacnie, Fair Lawn, and Garfield to Bergen County, NJ; Ripley to Tippah County, MS; Middletown to Dauphin County, PA; Etowah to McMinn County, TN; Lawrenceville to Lawrence County, IL; Lewiston and Libson to Androscoggin County, ME; Texas to Baltimore County, MD; Flemington to Hunterdon County, NJ; Hoboken to Hudson County, NJ; Berlin to Coos County, NH; Old Hickory to Davidson County, TN; Buffalo To Erie County, NY; Louisiana to Pike County, MO; Crossett to Ashley County, AR; Cuyahoga Falls and Akron to Summit County, OH; Youngstown to Mahoning County, OH; Rittman to Wayne County, OH; Lancaster to Lancaster County, PA; Cleveland to Cuyahoga County, OH; Tustin to Orange County, CA; Sanford to York County, ME; Pownal to Bennington County, VT; Winthrop to Kennebec, ME; Watkinsville to Oconee County, GA; Bay Minette to Baldwin County, AL; Pensacola to Escambia County, FL; Telogia to Liberty County, FL; Fords to Perth Amboy County, NJ; East Rutherford and Carlstadt to Rutherford County, NJ; Rockaway to Morris County, NJ; Patterson to Passaic County, NJ; Lobeco to Beaufort County, SC; Reading to Berks County, PA; Dalton to Whitfield County, GA; High Point to Guilford County, NC; Charlotte to Mecklenburg County, NC; Florence to Rutland County, VT; Chester to Windsor County, VT; Gordon to Wilkinson County, GA; Sandersville to Washington County, GA; Edelman, Easton, and Nazareth to Northampton County, PA; Grasselli to Linden County, NJ; Phillipsburg to Warren County, NJ; Chamblee to DeKalb County, GA; to London to Madison County, OH; Neville Island to Allegheny County, PA; Chestertown to Kent County, MD; Lawrenceburg to Dearborn County, IN; Rochester to Monroe County, NJ; Elmira to Chemung County, NY; St. Clair to St. Clair County, MI; South Plainfield to Middlesex County, NJ; Locke Mills to Oxford County, ME; Byesville to Guernsey County, OH; Bohemia to Suffolk County, NY; Warner Robins to Houston County, GA; Duryea to Luzerne County, PA; Scranton to Lackawanna County, PA; Midland to Midland County, MI; Battle Creek to Calhoun County, MI; Lancaster to Fairfield County, OH; Sharonville to Hamilton County, OH; Kent to Portage County, OH; Harrision to Hudson County, NJ; Syracuse to Onondaga County, NY; and Racine and Waxdale to Racine County, WI; (5) authorize radial service between points located throughout the entire US or combinations of specified States therein; (6) remove the following restrictions (a) except AK and HI in Sub-66F; (b) originating at or destined to restriction in Sub-1, 5, 8, 10, 17F, 19F, 20, 27, 28, 34, 46, 47, 49F, 63, 65, 72F, 73F, 78F, and 96F; and (d) ex-water limitations in Sub-99F.

MC 135609 (Sub-9)X, filed March 2, 1981. Applicant: B-H TRANSFER CO., P.O. Box 151, Sandersville, GA 31082. Representative: J. Raymond Clark, Suite 350, 1225 Nineteenth Street, N.W., Washington, DC 20036. Applicant seeks to remove restrictions in its Sub-7F certificate to (1) commodity description in part (1) from insulators, electrical wiring, pottery, and pottery parts, to "clay, concrete, glass or stone products"; (2) remove the restriction against transportation of commodities in bulk, in tank vehicles and (3) broaden the territorial scope by replacing city-wide authority with county-wide to allow service as follows: between points in Washington County, GA (Sandersville) and points in AL, FL, GA, KY, LA, MS, NC, SC, TN, VA, and WV.

MC 136283 (Sub-5)X, filed March 6, 1981. Applicant: DERON, INC., P.O. Box 17170, Portland, OR 97217. Representative: Lawrence V. Smart, Jr., 419 N.W. 23rd Ave., Portland, OR 97210. Applicant seeks to remove restrictions from its Sub-4F permit to enlarge the territorial scope to "between points in the U.S." under contract(s) with a named shipper.

MC 136285 (Sub-40)X, filed March 3, 1981. Applicant: SOUTHERN INTERMODAL LOGISTICS, INC., P.O. Box 1375, Thomasville, GA 31792. Representative: William P. Jackson, Jr., P.O. Box 1240, Arlington, VA 22210. Applicant seeks to remove restrictions from its Sub-3 certificate to (a) remove all exceptions except classes A and B explosives from its general commodities authority; (b) remove the restrictions "in Containers or in trailers"; (c) remove the "ex-Water" restriction; and (d) in part (2) of the certificate, broaden the commodity description from empty containers, trailers, and trailer chassis to "transportation equipment, and such commodities as are dealt in or used by manufacturers of containers".

MC 136315 (Sub-142)X, filed March 4, 1981. Applicant: OLEN BURRAGE TRUCKING, INC., P.O. Box 705, Philadelphia, MS 39350. Representative: Fred W. Johnson, Jr., P.O. Box 22807, Jackson, MS 39205. Applicant seeks to remove restrictions in its Sub-54 and 64 certificates to (A) broaden the commodity descriptions to "metal products" from (1) pipe fittings, valves and hydrants, and (2) accessories used in the installation of the commodities in (1) above, in Sub-54; from "tubular steel poles, iron and steel articles and accessories thereto" in Sub-64; (B) replace specified plantsites in Jefferson and Talladega Counties, AL with county-wide authority and eliminate the "originating at or destined to" restriction, in Sub-54; (C) replace specified facilities in Harris County, TX, with county-wide authority, in Sub-64; and (D) expand its one-way authority to radial authority between the counties named in (B) and (C) above, and, those points in the United States in and east of TX, OK, KS, NE, SD, and ND.

MC 138773 (Sub-4)X, filed March 6, 1981. Applicant: EAST SOUTH EXPRESS, INC., P.O. Box 13887, Roanoke, VA 24038. Representative: Walter Keal, P.O. Box 322, Cuyahooga Falls, OH 44222. Applicant seeks to remove restrictions in its lead and Sub-2F and 3F certificates to (1) broaden its commodity descriptions from electric controllers and instruments, which because of their size or weight require the use of special equipment, to "commodities which because of their size or weight require the use of special handling or equipment and electrical controllers, instruments and equipment parts and accessories", in all authority above; (2) change its one-way authority to radial authority (a) between Roanoke City, VA, and points in the U.S., in the lead certificate, (b) between Roanoke County, VA, and points in CA, FL, GA, ID, MT, NV, NC, OR, SC, VA, UT, and WA, in Sub-2F, (3) eliminate the exceptions (a) AK, HI, VA, NC, SC, GA, WA, OR, CA, MT, ID, UT, NV, and FL, in the lead certificate, and (b) AK and HI, in Sub-3F, and (4) eliminate the restriction against transportation of shipments destined to named destination points.

MC 140033 (Sub-97)X, filed March 2, 1981. Applicant: COX REFRIGERATED EXPRESS, INC., 10006 Goodnight Lane, Dallas, Texas 75220. Representative: Edwin M. Snyder, P.O. Box 45538, Dallas, Texas 75235. Applicant seeks to remove restrictions in its MC 142296 and Sub-Nos. 2 and 3 permits to (1) broaden the commodity descriptions to "textile mill products" from: (a) wearing apparel in the lead; (b) clothing and wearing apparel in Sub-No. 2; and (c) yard, and clothing and wearing apparel and component parts used in the manufacture thereof (except commodities in bulk) in Sub-No. 3; and (2) expand the territorial descriptions to between points in the U.S., under a continuing contract(s) with a named shipper.

MC 140273 (Sub-28)X, filed March 2, 1981. Applicant: BUESING BROS. TRUCKING, INC., 2285 Daniels Street, Long Lake, MN 55356. Representative: Val M. Higgins, 1600 TCF Tower, 121 South Eighth Street, Minneapolis, MN 55402. Applicant seeks to remove restrictions in its Sub-15F certificate to (1) broaden the commodity descriptions from soda ash, lime, limestone, silica sand and crushed glass to "chemicals and related products, clay, concrete, glass or stone products, and ores and minerals"; (2) remove the restriction prohibiting the transportation of a specified commodity from named points in the authorized states; and (3) authorize radial authority in lieu of existing one-way service between points in IL, IN, IA, MN, MO, NE, ND, OH, SD, WI, and WY, and Minneapolis, MN.

MC 140273 (Sub-31)X, filed March 2, 1981. Applicant: BUESING BROS. TRUCKING, INC., 2285 Daniels St., Long Lake, MN 55356. Representative: Val M. Higgins, 1600 TCF Tower, Minneapolis, MN 55402. Applicant seeks to broaden the commodity description in its Sub-No. 21F Certificate from aggregate, crushed rock, stone, and gravel to "ores, minerals, and building materials".

MC 141620 (Sub-1)X, filed March 3, 1981. Applicant: VAN BUS DELIVERY COMPANY, d.b.a. UNITED VAN BUS DELIVERY, 2601 32nd Avenue, South, Minneapolis, MN 55406. Representative: Warren A. Goff, 2006 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Applicant seeks to remove restrictions in its Sub-Nos. 6, 7, 8F and 9F permits to (1) broaden the commodity description from liquid calcium chloride, in bulk, and liquid chlorine in cylinders to "chemicals and related products" in Sub-No. 9F; (2) remove the "except commodities in bulk" restrictions in Sub-Nos. 6 and 7; (3) expand the territorial descriptions to between points in the U.S. under continuing contract(s) with a named shipper; and (4) eliminate the "ex-rail" restriction.

MC 142857-9X, filed March 3, 1981. Applicant: MCC TRANSPORTATION, INC., Rt. 2, Box 107-B, Hope, AR 71801. Representative: Mark J. Andrews, 1660 L St. NW Suite 1100, Washington, DC 20036. Applicant seeks to remove restrictions in its lead and Sub-No. 4 permits to (1) broaden the commodity description from greeting cards, paper in rolls; envelopes; books; candles; games and toys; earthenware and chinaware; paper napkins, place mats and tablecloths; wrapping paper, foil and ribbon; and equipment, materials and supplies used in the manufacture or distribution of the above described commodities to "such commodities as are dealt in by retail greeting card stores" in the lead, (2) broaden the territorial description to "between points in the United States" under continuing contract(s) with a named shipper in both.

MC 143621 (Sub-56)X, filed March 2, 1981. Applicant: TENNESSEE STEEL

HAULERS, INC., Post Office Box 100991, Nashville, TN 37210. Representative: Kim D. Mann, Suite 1010, 7101 Wisconsin Avenue, Washington, DC 20014. Applicant seeks to remove restrictions in its Sub 2F certificate to (1) broaden the commodity descriptions from fireplace grates and screens and materials, except commodities in bulk, to "clay, concrete, glass, and stone products" and "metal products," (2) authorize service at points in AK and HI, (3) authorize two-way radial operations between specified points in TN, AL, and IL and points in the U.S., (4) replace Bloomington, IL with "McLean County, IL," and (5) delete the facilities limitations.

MC 144268 (Sub-2)X, filed March 3, 1981. Applicant: HIRSON TRUCKING, INC., P.O. Box 24203, Oakland, CA 94623. Representative: Thomas M. Loughran, 100 Bush St., 21 St. Fl. San Francisco, CA 94104. Applicant seeks to remove restrictions in its lead certificate to (1) remove the restriction against transportation of articles of unusual value from its general commodities authority; (2) eliminate the restriction requiring transportation to be performed in containers or in trailers, having an immediately prior or subsequent movement by water in interstate or foreign commerce; and (3) broaden the base territorial description from ports located on San Francisco Bay to county-wide authority: Alameda, Contra Costa, Solano, San Mateo, and San Francisco Counties, CA.

MC 144457 (Sub-22)X, filed March 2, 1981. Applicant: HUDSON TRANSPORTATION, INC., P.O. Box 847, Troy, AL 36081. Representative: William P. Jackson, Jr., P.O. Box 1240, Arlington, VA 22210. Applicant seeks to remove restrictions in its lead and Sub-Nos. 1F, 2F, 6, 8, 10F, 13F, 14F, 16F, 17F, 18F, and 19F certificates to (1) change the commodity descriptions in Sub-nox. 1F, 2F, 6, 8, 10F, 14F, 16F and 19F, from various foodstuff items, such as flour and cornmeal, sugar, canned vegetables, etc., to "food and related products"; (2) remove the restrictions against commodities in bulk from the lead and Sub-Nos. 1F, 2F, 6, 8, 10F, 13F, 14F, 16F, 17F, and 19F; (3) delete the "originating at and destined to" restriction in Sub-No. 18F; (4) remove the facilities limitations in the lead, Sub-Nos. 2F, 6, 10F, 13F, 14F, 16F, 17F, 18F and 19F; (5) replace city-wide authority with county-wide authority: in the lead, Brundidge and Troy with Pike County, AL; in Sub-No. 2F, Shawnee with Pottawatomie County, OK; in Sub-No. 8, New Richmond, Eden, Oakfield and Gillett with St. Croix, Fond du Lac, and Oconto Counties, WI; in Sub-No. 10F, Reserve and Kenner with St. John the Baptist and Jefferson Parishes, LA; in Sub-No. 14F, Greenville with Greenville County, SC; in Sub-No. 17F, Lexington with Davidson County, NC; in Sub-No. 18F, Pittsburgh with Allegheny County, PA, Fremont with Sandusky County, OH, and Holland with Ottawa County, MI; and in Sub-No. 19F, Highland City with Polk County, FL; (6) expand its territorial authority in all Sub-Nos., except the lead and Sub-No. 17F, to authorize radial service between points located throughout the U.S., or combinations of States therein; and (7) delete the exception to AK and HI in the lead and Sub-No. 17F.

MC 144682 (Sub-58)X, filed March 4, 1981. Applicant: R. R. STANLEY, P.O. Box 95, 1738 Empire Central, Dallas, TX 75235. Representative: Edwin M. Snyder, Suite 1125 Exchange Park, P.O. Box 45538, Dallas, TX 75245. Applicant seeks to remove restrictions from its Sub-Nos. 10F, 22F, 40F, and 49 certificates to (1) change the commodity descriptions in Sub-No. 10F, from clay glaze tile to "clay, concrete, glass or stone products"; in Sub-No. 22F, from coin-operated pool tables and games and parts to "sporting or athletic goods, and coin-operated amusement or service machines"; in Sub-Nos. 40F and 49, from plumbing goods and fixtures, flexible gas connectors, water closet bowls and tanks, sheet steel sinks and bathtubs to "metal products"; (2) replace city-wide authority with county-wide authority: in Sub-No. 10F, Laredo with Webb County, TX; and in Sub-Nos. 40F and 49, Hearne with Robertson County, TX; and in Sub-No. 49, Plano with Dallas County, TX; (3) authorize radial service between specified points in TX or CA, and, points in the U.S. or specified States therein and (4) remove the AK and HI exception in Sub-No. 10F.

MC 145086 (Sub-3)X, filed March 6, 1981. Applicant: C. HENDERSON TRUCKING, INC., 8 Ruth Street, East Brunswick, NJ. Representative: A. Dayton Schell, 6 Eileen Way, Edison, NJ 08837. Applicant seeks to remove restrictions in its Sub-No. 2F permit to (1) broaden the territorial description to between points in the United States, under continuing contract(s) with a named shipper.

MC 146293 (Sub-79)X, filed March 2, 1981. Applicant: REGAL TRUCKING CO., INC., P.O. Box 829, Lawrenceville, GA 30246. Representative: Richard M. Tettelbaum (same as applicant). Applicant seeks to remove restrictions from its Sub-No. 57 certificates by (1) removing restrictions (a) " except in bulk, in tank vehicles"; (b) against service to AK and HI; (c) to shipments having a prior movement by water; and (d) traffic moving on bills of lading of a freight forwarder; (2) expanding one-way authority to radial authority between points in the US and New Orleans, LA, and Houston, TX and; (3) change Port Everglades, FL to Monroe County, FL.

MC 146607 (Sub-1)X, filed March 2, 1981. Applicant: KING CARRIAGE CO., Davis and Oak Street, Ludlow, KY 41016. Representative: Boyd B. Ferris, 50 W. Broad Street, Columbus, OH 43215. Applicant seeks to remove restrictions in its lead certificate which authorizes the transportation of such commodities as are dealt in or used by manufacturers, converters, and distributors of paper products to (1) replace plantsite facilities with county-wide authority, allowing radial service between Covington and Kenton Counties, KY (for Ludlow, Erlanger, and Covington, KY), Cameron County, TX (for Brownsville, TX), and St. Croix County, WI (for Hudson, WI), and points in the U.S.; and (2) remove the restriction against service to AK and HI.

MC 146753 (Sub-21)X, filed March 3, 1981. Applicant: SAM YOUNG, INC., P.O. Box 337, Wolcott, IN 47995. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 11th Street, N.W., Washington, DC 20001. Applicant seeks to remove restrictions in its Sub-Nos. 1F and 6F certificates to (a) broaden the commodity descriptions: from (1) paper and paper products and (2) materials, equipment and supplies used in the manufacture and distribution of the commodities in (1) to "pulp, paper, and related products" in Sub-No. 1F; and from plastic articles to "rubber and plastic products" in Sub-No. 6F; (b) broaden the territorial scope by replacing one-way authority with radial authority, removing named facility limitations from city-wide authority and replacing named facility limitations with county-wide authority to authorize service between points in Philadelphia, PA, Cincinnati, OH, Cook County (Forest Park) IL, Atlanta, GA, Miami, FL, and points in the US, in Sub-No. 1F; and between points in New York (Kings County) NY and points in the U.S. in Sub-No. 6F; and (c) remove the except AK and HI restriction from those authorities.

[FR Doc. 81-8883 Filed 3-19-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers, Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the Federal Register of December 31, 1980, at 45 FR 85771. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract."

Volume No. OPY4-827

Decided: March 12, 1981.

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

MC 35387 (Sub-4), filed February 25, 1981. Applicant: ORBIT EXPRESS, INC., 105 Creeper Hill Rd., North Grafton, MA 01536. Representative: David M. Marshall, 101 State St., Suite 304, Springfield, MA 01103, (413) 732-1136. Transporting *food and related products,* between points in Monroe and Ontario Counties, NY, on the one hand, and, on the other, points in MA, CT, RI, VT, NH, and ME.

MC 42487 (Sub-1034), filed February 6, 1981. Applicant: CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Dr., Menlo Park, CA 94025. Representative: W. R. Oldenburg, P.O. Box 3062, Portland, OR 97208, (503) 226-4692. Transporting *general commodities* (except classes A and B explosives), between points in Somerset County, PA, on the one hand, and, on the other, points in the U.S.

Note.—Applicant intends to tack with its existing regular route authority in Sub 578.

MC 124896 (Sub-101), filed February 26, 1981. Applicant: WILLIAMSON TRUCK LINES, INC., Corner Thorne and Ralston Sts., P.O. Box 3485, Wilson, NC 27893. Representative: Peter A. Greene, 1920 N. St., NW., Washington, DC 20036 (202) 331-8800. Transporting (1) *chemicals and related products,* (2) *lubricating oil,* (3) *janitorial supplies and equipment,* and (4) *rubber and plastic products,* between points in the U.S., under continuing contract(s) with Texize, Division of MortonNorwich, of Greenville, SC.

MC 154566, filed March 6, 1981. Applicant: DONNIE GENE VANDERVORT, SR, d.b.a. D. VANDERVORT WHOLESALERS, 4725 El Cedro Loop NE, Salem, OR 97303. Representative: Kerry D. Montgomery, 400 Pacific Bldg., Portland, OR 97204 (503) 228-5275. Transporting *general commodities* (except classes A and B explosives), between points in OR, on the one hand, and, on the other, points in WA, CA, AZ, NV, ID, and MT.

Volume No. OPY4-828

Decided: March 12, 1981.

By The Commission, Review Board No. 2, Members Carleton, Fisher and Williams.

MC 95088 (Sub-6) filed February 10, 1981. Applicant: FAYARD MOVING AND TRANSPORTATION CORPORATION, 2615 25th Ave., Gulfport, MS 39501. Representative: Donald B. Morrison, P.O. Box 22828, Jackson, MS 39205, 601-948-8620. Over regular routes, serving all intrmediate points, transporting *general commodities* (except classes A and B explosives), (1) between Mobile, AL, and Atlanta, GA, from Mobile over U.S. Hwy 31 to junction Interstate Hwy 65, then over Interstate Hwy 65 to Montgomery, AL, and then over Interstate Hwy 85 to Atlanta, and return over the same route; (2) between Montgomery, AL, and Atlanta, GA, from Montgomery over U.S. Hwy 31 to junction Interstate Hwy 65, then over Interstate Hwy 65 to Birmingham, AL, then over U.S. Hwy 78 to junction Interstate Hwy 20, and then over Interstate Hwy 20 to Atlanta, and return over the same route; and (3) between New orleans, LA, and Houston, TX, from New Orleans over Interstate Hwy 10 to Houston.

Note.—Applicant intends to tack this authority with existing regular-route authority so as to provide a direct service.

MC 105269 (Sub-95) filed February 18, 1981. Applicant: GRAFF TRUCKING COMPANY, INC., 2110 Lake St., Kalamazoo, MI 49005. Representative: Edward Malinzak, 900 Old Kent Bldg., Grand Rapids, MI, 616-459-6121. Transporting *general commodities* (except classes A and B explosives), between points in the U.S.

MC 106398 (Sub-1095) filed February 10, 1981. Applicant: NATIONAL TRAILER CONVOY, INC., 705 South Elgin, Tulsa, OK 74120. Representative: Gayle Gibson (same address as applicant) (918) 582-1900. Transporting *metal products*, between points in the U.S.

MC 117119 (Sub-838), filed February 11, 1981. Applicant: WILLIS SHAW FROZEN EXPRESS, INC., P.O. Box 188, Elm Springs, AR 72728. Representative: L. M. McLean (same address as applicant) (501) 248-7261. Transporting *lighting fixtures*, between points in the U.S.

MC 119989 (Sub-35), filed February 9, 1981. Applicant: PEERLESS TRANSPORT CORP., 2701 Railroad Street, Pittsburgh, PA 15222. Representative: Robert T. Hefferin (same address as applicant) (412) 456-2976. Transporting *general commodities* (except classes A and B explosives), between points in the U.S. on the one hand, and, on the other, the facilities used by Airwick Industries, Inc., at points in the U.S.

MC 129908 (Sub-77), filed February 10, 1981. Applicant: AMERICAN FARM LINES, INC., 6125 S.W. 15th St., Oklahoma City, OK 73147. Representative: T. J. Blaylock, P.O. Box 75410, Oklahoma City, OK 73147, 405-787-6660. Transporting (1) *machinery* and (2) *lumber and wood products* between Oklahoma City, OK, Los Angeles, CA, and Chicago, IL, on the one hand, and, on the other, points in the U.S.

MC 129908 (Sub-78), filed February 11, 1981. Applicant: AMERICAN FARM LINES, INC., 6125 S.W. 15th St., Oklahoma City, OK 73147. Representative: T. J. Blaylock, P.O. Box 75410, Oklahoma City, OK 73147, 405-787-6660. Transporting *food and related products*, between points in IA and WI, on the one hand, and, on the other, points in TX, TN, KS, MO, IN, and IL.

MC 133478 (Sub-27), filed February 12, 1981. Applicant: DG TRANSPORT, INC., P.O. Box 23727, Portland, OR 97223. Representative: Peter H. Glade, One SW Columbia, #555, Portland, OR 97258.

503–227–1681. Transporting *building materials*, between points in the U.S., under continuing contract(s) with Chapman Lumber Co., of Portland, OR.

MC 135969 (Sub-21), filed February 12, 1981. Applicant: COAST EXPRESS, INC., 1428 Monte Vista Ave., Chino, CA 91710. Representative: William J. Lippman, Steele Park, Suite 330, 50 South Steele St., Denver, CO 80209, 303–320–6100. Transporting *food and related products*, between points in the U.S., under continuing contract(s) with Sterling Colorado Beef Co., of Sterling CO., and Circle C Beef Co., of Denver, CO.

MC 142059 (Sub-162), filed February 10, 1981. Applicant: CARDINAL TRANSPORT, INC., P.O. Box 911, Joliet, IL 60434. Representative: Jack Riley (same address as applicant) 800–435–9355. Transporting *metal products* between points in Cook County, IL, and Lake County, IN, on the one hand, and, on the other, points in the U.S.

MC 146149 (Sub-19), filed February 10, 1981. Applicant: KENNEDY FREIGHT LINES, INC., 4969 Vulcan Ave., Columbus, OH 43228. Representative: Paul F. Beery, 275 E. State St., Columbus, OH 43215, 614–228–8575. Transporting *metal products, and rubber and plastic products*, between points in Hillsborough County, FL, and Cuyahoga and Stark Counties, OH, on the one hand, and, on the other, points in the U.S.

MC 154119 (Sub-1), filed February 26, 1981. Applicant: LINDSEY MOTOR EXPRESS, INC., 3415 Southside Ave., Cincinnati, OH 45204. Representative: Paul F. Beery, 275 E. State St., Columbus, OH 43215, (614) 228–8575. Transporting *commodities in bulk*, between Cincinnati, OH, on the one hand, and, on the other, points in the U.S.

MC 154228, filed February 10, 1981. Applicant: MICHIGAN LIMOUSINE, INC., 626 North Illinois Ave., Atlantic City, NJ 08401. Representative: Brian S. Stern, North Springfield Professional Center II, 5411–D Backlick Rd., 703–941–8200. Transporting *passengers and their baggage* in the same vehicle with passengers, limited to the transportation of not more than 16 passengers in any one vehicle (exclusive of the driver), in charter and special operations, between points in Atlantic County, NJ, on the one hand, and, on the other, LaGuardia and John F. Kennedy Airports, New York, NY, Philadelphia International Airport, Philadelphia, PA, Greater Wilmington Airport, Wilmington, DE, Baltimore-Washington International Airport, near Baltimore, MD, Washington National Airport, Arlington, VA, and Dulles International Airport, near Chantilly, VA.

MC 154288, filed February 10, 1981. Applicant: HENDERSON TRAVEL, INC., 121 West Barnwell St., Hendersonville, NC 28739. Representative: Virginia D. Johnson (same address as applicant) (704)–693–0701. Authority to operate as a *broker* at Hendersonville, NC, in arranging for the transportation of *passengers* and *their baggage*, beginning and ending at points in Henderson, Buncombe, Polk, and Transylvania Counties, NC, and extending to points in the U.S.

MC 154318, filed February 12, 1981. Applicant: G.F.C, INC., 227 Old Dominion Drive, Charleston, SC 29405. Representative: John D. Cook (same address as applicant) (803) 552–6786. Transporting *general commodities* (except classes A and B explosives), between points in SC.

MC 154349, filed February 12, 1981. Applicant: VERNON MILLING COMPANY, INC., Highway 18 West, P.O. Drawer R, Vernon, AL 35592. Representative: James W. Porter, 1725–28 City Federal Bldg., Birmingham, AL 35203, (205) 322–1744. Transporting (1) *food and related products*, and (2) *chemicals and related products*, between points in the U.S., under continuing contract(s) with International Minerals and Chemical Corporation, of Mundelein, IL.

Agatha L. Mergenovich,
Secretary.

[FR Doc. 81–8089 Filed 3–19–81; 8:45 am]
BILLING CODE 7035–01–M

Motor Carriers, Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special rule 247 was published in the **Federal Register** on July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service and to comply with the appropriate statutes and Commission regulations. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g.s., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract."

Volume No. OP1–077

Decided: March 12, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler and Taylor.

MC 154400, filed January 27, 1981. Applicant: LEYDEN SHIPPING CORPORATION, One World Trade Center, Suite 2661, New York, NY 10048. Representative: Bernard Leyden (same address as applicant). As a *broker* of *general commodities* (except household goods), between points in the U.S.

Volume No. OP2-044

Decided: March 11, 1981.

By the Commission, Review Board No. 1. Members Parker, Chandler and Taylor.

MC 109533 (Sub-18), filed January 27, 1981. Applicant: WIEDERHOLD FREIGHT LINES, 5224 Whalen St., Elkton, MI 48731. Representative: Edward E. Wiederhold (same as applicant) (517) 375-4030. Transporting for or on behalf of the United States Government (1) *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), and (2) *shipments weighing 100 pounds or less* if transported in a motor vehicle in which no one package exceeds 100 pounds, between points in the U.S.

Volume No. OP5-78

Decided: March 12, 1981.

By the Commission, Review Board No. 3. Members Krock, Joyce and Dowell.

MC 119988 (Sub-272), filed January 6, 1981. Initially published in the Federal Register on February 5, 1981. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, TX 75901. Representative: Larry Norwood (same address as applicant). Transporting *general commodities* (except Classes A and B explosives), between Ft. Calhoun, NE, Arbyrd, Hornersville, and Whitewater, MO, Gosnell, AR, Roseville, IL, Randolph, IA, Clayton, Commerce, and Talihina, OK, Treece, KS, Griffith and Merrillville, IN, Cayce, KY, Lanare and Mentone, CA, Ballston and Milton, NY, on the one hand, and, on the other, points in the United States.

Note.—The purpose of this application is to substitute motor carrier service for completely abandoned rail service. This application is republished so as to include Cayce, KY, and Lanare and Mentone, CA, as service points.

MC 121489 (Sub-23F), filed October 16, 1980. Applicant: NEBRASKA-IOWA XPRESS, INC., 3219 Nebraska Ave., Council Bluffs, IA 51501. Representative: William S. Rosen, 630 Osborn Bldg., St. Paul, MN 55102. Transporting *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), for the United States Government, between points in the U.S.

MC 154009, filed February 2, 1981. Applicant: EAST COAST CONSOLIDATORS, INC., 1301 North Broad St., Woodbury, NJ 08096. Representative: James W. Patterson, 1200 Western Savings Bank Bldg., Philadelphia, PA 19107. As a *broker* of *general commodities* (except household goods), between points in the U.S.

Secretary.

[FR Doc. 81–8871 Filed 3–19–81; 8:45 am]

BILLING CODE 7035–01–M

Motor Carriers, Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of

any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been notified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in fulll effect only long as as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a vertified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract."

Volume No. OPY-2-015

Decided: March 12, 1981.

By The Commission, Review Board No. 1, Members Parker, Chandler and Taylor.

MC 73533 (Sub-16), filed February 20, 1981. Applicant: KEY WAREHOUSE SERVICES, 820 South Oldham St., Baltimore, Maryland, 21224. Representative: William F. Lamperelli (same address as applicant) 301-327-5800. As a *broker of general commodities* (except household goods), between points in the U.S.

MC 128153 (Sub-5), filed March 2, 1981. Applicant: VICTORY VAN CORPORATION, 950 South Pickett Street, Alexandria, VA 22304. Representative: Alan F. Wohlstetter, 1700 K Street, N.W., Washington, D.C. 20006. Transporting *used household goods* for the account of the United States Government incident to the performance of a pack-and-crate service on behalf of the Department of Defense, between points in the U.S.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Motor Carriers, Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rule of Practice, see 49 CFR 1100.247. Special Rule 247 was published in the Federal Register of July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commssion's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP2-045

Decided: March 11, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Taylor.

MC 151213 (Sub-1F), (Correction), filed November 25, 1980, published in the Federal Register, issue of December 16, 1980, and republished, as corrected this issue. Applicant: S. KENNETH PUCKETT, 8638 Hayshed Lane, Columbia, MD 21045. Representative: Terrell C. Clark, P.O. Box 25, Stanleytown, VA 24168. Transporting (1) *such commodities* as are dealt in by retail department stores, and (2) *materials, equipment and supplies* used in the manufacture and distribution of the commodities in (1) above, between Altavista, Lynchburg and Martinsville, VA and points in NC.

MC 152593 (Sub-1), filed February 6, 1981. Applicant: MARTY'S AUTO SERVICE, 314 SE 10th St., Dania, FL 33004. Representative: Richard B. Austin, 320 Rochester Building, 8390 NW 53d St., Miami, FL 33166. Transporting *used motor vehicles*, between points in AL, CT, DE, FL, GA, MD, MA, NJ, NY, NC, PA, RI, SC, VA and DC.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Volume No. 41]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: March 13, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 3581 (Sub-31)X, filed February 23, 1981, previously noticed in the **Federal Register** of March 11, 1981, republished as corrected this issue. Applicant: THE MOTOR CONVOY, INC., 2175 Parklake Drive, NE, Suite 107, Atlanta, GA 30345. Representative: Paul M. Daniell, P.O. Box 872, Atlanta, GA 30301. Applicant seeks to remove restrictions in its Sub-No. 1 certificate to (1) broaden the commodity description from automobiles, trucks, chassis, tractors and tractor attachments and accessories to "transportation equipment and machinery" (2) authorize radial service in the first portion of its authority between Fulton County, GA (for Hapeville, GA) and points in AL, FL, GA, MS, NC, SC, and TN and (3) remove the restriction against the transportation of shipments moving from Guntersville, AL, and Memphis, TN, which have previously moved to such points by barge and which have originated at Detroit, MI, or Toledo, OH, and are destined to any point in NC or SC. The purpose of this republication is to add machinery to part (1) of the captain summary to bring the commodity description into conformance with the STCC.

MC 19627 (Sub-3)X, filed March 2, 1981. Applicant: FULTON MOVING AND STORAGE, INC., 3002 N. Wygant Avenue, Portland, OR 97217. Representative: Lawrence V. Smart, Jr., 419 N. W. 23rd Avenue, Portland, OR 97210. Applicant seeks to remove restrictions in its Sub-3 certificate to (1) broaden the commodity description from general commodities (with exceptions) to "general commodities (except classes A and B explosives)", (2) remove the requirement that shipments have an immediately prior or subsequent movement by air and (3) expand the territorial authority from named airports to cities and commercial zones: (a) Portland International Airport, OR to Portland, OR, and (b) Seattle-Tacoma International Airport, near Seattle, WA to Seattle, WA.

MC 24784 (Sub-42)X, filed March 2, 1981. Applicant: BARRY, INC., 463 South Water, Olathe, Kansas. Representative: Arthur J. Cerra, 2100 CharterBank Center, P.O. Box 19251, Kansas City, Missouri 64141. Applicant seeks to remove the restriction in its Sub-No. 12F certificate limiting the transportation of traffic to that having a prior or subsequent movement by rail.

MC 41098 (Sub-56)X, filed February 18, 1981, previously noticed in the **Federal Register** of March 9, 1981, republished as corrected this issue. Applicant: GLOBAL VAN LINES, INC., Number One Global Way, Anaheim, CA 92803. Representative: Alan F. Wohlstetter, 1700 K Street, NW., Suite 301, Washington, DC 20006. Applicant seeks to remove restrictions in its Subs-42, 49F, and 50F certificates, and permit MC 144860 Sub-1F to (1) broaden its commodity descriptions (A) in Sub-42, from new furniture, and furnishings, and new store, restaurant, household, hospital, institutional, and office fixtures and equipment, to "furniture and fixtures, machinery and furnishings," and from new floor covering, carpet and padding, to "textile mill products," and (B) in Subs-49F, 50F, and permit MC 144860 Sub-1, from golf carts and industrial vehicles, and parts and attachments, and, helicopters and parts for helicopters, to "transportation equipment"; (2) in each certificate, change its one-way authority to radial authority between several specified States in the U.S., and replace cities or specified plantsites with county-wide authority: (A) in Sub-42, part (II)(a), Allentown, PA, with Lehigh County, PA, Brockport, NY, with Monroe County, NY, Ashland, MA, with Middlesex County, MA, Asheboro, NC, with Randolph County, NC, Ontario, San Leandro, and Garden Grove, CA, with San Bernardino, Alameda, and Orange Counties, CA Tukwila, WA, with King County, WA; in part (II)(b), Seattle and Tukwila, WA, with King and Seattle Counties, WA, Ontario, CA, with San Bernardino County, CA, Grand Prairie, TX, with Dallas County, TX, Lenexa, KS, with Johnson County, KS, Broadview, IL, with DuPage County, IL, Laurel, MD, with Prince George County, MD, Edison, NJ, with Middlesex County, NJ, and Columbus, OH, with Franklin County, OH; in part (II)(c), Jackson and Canton, MS, with Hinds and Madison Counties, MS, Alamogordo, NM, with Otero County, NM; in part (II)(d), St. Cloud, MN, with Stearns County, MN, Mansfield, OH, with Richland County, OH, Heron, IL, with Williamson County, IL; in part (III) (a) and (c), Dalton and Cartersville, GA, with Whitfield and Bartow Counties, GA; (B) in Sub-49F, Anaheim, CA, with Orange County, CA; (C) in Sub-50F, Redlands, CA, with San Bernardino County, CA; and (D) in permit MC 144860 Sub-1, authorize service between points in the U.S., under continuing contract(s) with a named shipper. The purpose of this republication is to reflect the expansion of Jackson and Canton, MS, not MI, to appropriate counties.

MC 59666 (Sub-11)X, filed March 3, 1981. Applicant: TRAFIK SERVICES, INC., 25 Esten Avenue, Pawtucket, RI 02860. Representative: A. Joseph Mega (same as applicant). Applicant seeks to remove restrictions in its MC 148370 Subs-6F, 7F, and 8F permits to broaden its territorial authority to between points in the U.S. under continuing contract(s) with a named shipper, in each permit.

MC 90611 (Sub-7)X, filed March 3, 1981. Applicant: CONSTABLE TRANSPORT, LIMITED, P.O. Box 248, Thorold Ontario, Canada L2V 3Y9. Representative: Robert D. Gunderman, Suite 710, Statler Building, Buffalo, NY 14202. Applicant seeks to remove restrictions in its lead and Subs-3 and 4 by (1) broadening the commodity descriptions wood pulp and pulpboard, paper stock, pulpboard, and paper winding cores and plugs and waste paper to "pulp, paper and allied products"; (2) broadening Tonowanda, Akron, Oakfield, Lockport, and the town of Tonawanda, NY to points in Erie, Genesee and Niagara Counties, NY; (3) replacing one-way with radial authority, including attendant implied authority for the movement of materials, equipment and supplies; and (4) broadening authority from the ports of entry on the International Boundary line between the United States and Canada at Niagara Falls and Buffalo, NY, to all ports of entry in New York to allow radial service between ports of entry in NY, and points in Erie, Genesee, and Niagara Counties, NY.

MC 106644 (Sub-360)X, filed February 26, 1981. Applicant: SUPERIOR TRUCKING COMPANY, INC., P.O. Box 916, Atlanta, GA 30301. Representative: Louis C. Parker III (same as above). Applicant seeks to remove restrictions in its Subs-168, 227 and 262F certificates to (1) broaden the commodity description from source, special nuclear, and by-product materials, radioactive materials, related radioactive equipment, component parts and associated materials to "metal products; machinery; hazardous materials; chemicals and related products; ores and minerals; clay concrete, glass or stone products; waste or scrap material not identified by industry producing", and (2) remove the AK and HI exceptions to allow radial service between TX and the U.S.

MC 108223 (Sub-43)X, filed February 23, 1981. Applicant: CENTURY-MERCURY MOTOR FREIGHT, INC., P.O. Box 43050, St. Paul, MN 55164. Representative: Robert S. Lee, 1800 TCF Tower, Minneapolis, MN 55402. Applicant, a non-rail affiliated carrier, seeks to remove restrictions in its lead and Subs-13, 16, 19, 23, 29, 33, 34, 36, and 40 certificates and MC 52752 (acquired in MC-F-14132) to: (A) broaden its commidity description from (1) general commodities with various exceptions to "general commodities except Classes A and B explosives" in all instances in the lead and Subs-13, 16, 19, 29, 34, and 40 certificates and MC 52752, (2) from packinghouse products to "food and related products" in the lead certificate, sheet 6, (3) from farm machinery and twine to "machinery" and "textile mill products" in Sub-19, sheet 8, (4) from batteries, paper, paper labels, paper boxes, and chipboard to "machinery" and "pulp, paper, and related products" in Subs-19, sheet 8 and Sub-23, and (5) from charcoal, charcoal briquettes, barbecue accessories and materials, supplies and equipment used in the manufacture or distribution of such items to "such commodities as are dealt in by manufactures and distributors of charcoal and barbecue equipment" in Sub-36; (B) to authorize service at all intermediate points along its authorized regular routes between named points primarily in MN, WI, and IL, in its lead and Subs-19, 34, and 40 certificates and MC 52752, and to remove the following restrictions from its lead certificate (1) sheet 3, No service shall be rendered between Brainerd, Cass Lake, and Bemidji, Minn., or between any points located between Brainerd and Bemidji on the route between St. Paul and Blackduck, Minn. No service shall be rendered between The Twin Cities and points located on U.S. Highway 169 between Minneapolis and Onamia, Minn., including Onamia, on the route between St. Paul, Minn., and junction U.S. Highway 71 and Minnesota Highway 11. (2) sheet 4, No service shall be rendered between Minneapolis and St. Paul, Minn., on the one hand, and, on the other, Waskish, Minn., and points on U.S. Highways 10 and 371 between The Twin Cities and Brainerd, including Brainerd. No service shall be rendered between Bemidji and Waskish, Minn. No service shall be rendered at Brainerd in connection with traffic moving to or from Duluth, Minn. No service shall be rendered between Duluth, Minn., and Superior, Wis., or between Superior and Minneapolis and St. Paul, Minn. (3) sheet 6, Shipments transported shall be limited to those moving on through bills of lading or express receipts covering, in addition to a motor carrier movement by carrier, an immediately prior or an immediately subsequent movement by rail. Such further specific conditions as the Commission, in the future, may find it necessary to impose in order to restrict said operation to service which is auxiliary to, or supplemental of, express service. (4) sheet 7, The service to be performed by carrier shall be limited to service which is auxiliary to or supplemental of, express service. Shipments transported by said carrier shall be limited to those moving on a through bill of lading, or express receipt, covering, in addition to a motor carrier movement by said carrier, and immediately prior or immediately subsequent movement by rail. Such further specific conditions as the Commission in the future may find it necessary to impose in order to restrict said carrier's operation to service which is auxiliary to, or supplemental of, express service. and (5) sheet 8, Restriction: No traffic may be transported over U.S. Highway 8 from Minneapolis and St. Paul, Minn., to points south of Riverside, Wis., on carrier's authorized route between Duluth, Minn., and St. Croix Falls; (C) to delete facilities restriction (C.C.C. Camps) in the lead certificate, sheet 9; (D) to replace plantsite authority at Rochelle, IL with city-wide authority at Rochelle, IL in Sub-19, sheet 2; (E) to remove the originating at and destined to restriction in Sub-19, sheet 2; (F) to broaden its territorial description to replace (1) Minneapolis, St. Paul, South St. Paul, and Newport, MN, with Minneapolis, MN in Sub-19, sheet 7, (2) Belvidere, IL, with Boone County, IL, in Sub-19, sheet 7, (3) Two River, WI, with Manitowoc County, WI, in Sub-19, sheet 7, (4) Grand Rapids, MN, with Itasco County, MN, in Sub-33, and (5) replace named points and areas with county-wide authority in Pepin , Buffalo, Pierce, Dunn, Trempleleau, Jackson, and LaCrosse Counties, WI, and Houston, Fillmore, Winona, Olmstead, Mower, Wabasha, Washington, and Goodhue, MN, in the irregular route portion of Sub-34; and (G) replace one-way authority with radial authority (1) between St. Paul, MN, and Chicago, IL, and points in Wisconsin in Sub-19, sheet 8, (2) between Stillwater, MN, and points in Wisconsin in Sub-19, sheet 8, (3) between Duluth, MN, and Chicago, IL, and points in Wisconsin in Sub-23, and (4) between Itasco County, MN, and points in the U.S. in Sub-33.

MC 111574 (Sub-8)X, filed March 2, 1981. Applicant: A. GIORDANA TRUCKING CORPORATION, d.b.a. EMMETT TRUCKING CO., 548 Lehigh Avenue, Union, NJ 07083. Representative: Morton E. Kiel, Suite 1832, Two World Trade Center, New York, NY 10048. Applicant, a non-rail affiliated carrier seeks to remove restrictions in its lead certificate and Sub-No. 7 to (1) remove all exceptions from its general commodities authorities (except classes A and B explosives); (2) replace Elizabethport, Roselle, Bayway, Grasselli, Warners, Tremley, Fanwood, with Union County, NJ, Kearny, and Bayonne, with Hudson County, NJ, Carteret, Barber, Sewaren, and Middlesex with Middlesex County, NJ, and Finderne with Somerset County, NJ, in its lead certificate; remove the

various restrictions limiting service to that performed by the carrier as auxiliary or supplemental of rail service, in its lead certificate; and eliminate the restrictions limiting traffic moving on freight forwarder bills of lading, as defined by the Commission, in its lead certificate.

MC 112617 (Sub-478)X, filed February 27, 1981. Applicant: LIQUID TRANSPORTERS, INC., P.O. Box 21395, Louisville, KY 40221. Representative: Larry W. Thompson (same as applicant). Applicant seeks to remove restrictions from its Sub-Nos. 257, 289, 310, 346, 382, 428, 429F, 433F, 447F, 473F, and 474F certificates, and E–26, E–36, E–43, E–44, and E–45 letter notices to (1) broaden the commodity description from chemicals, petroleum and petroleum products, acids, plastic and plastic materials, in bulk, to "commodities, in bulk" in all certificates and letter notices; (2) remove from the commodity description restrictions (a) "in tank vehicles" in Sub-Nos. 346, 382, 428, 429F, 433F, 447F, 473F, E–36, E–43, E–44, and E–45; (b) "in tank or hopper type vehicles" in Sub-No. 474F; (c) "except petrochemicals" in Sub-Nos. 289 and E–26, E–36, E–43, E–44, and E–45; (d) "except cryogenic liquids" and "lard, fats, tallow, oils and greases to points in Indiana" in Sub-No. 346; and (e) "dry chemicals to points in Ohio, Chambers, Montgomery, Harris, Fort Bend, Galveston, Liberty, and Brazoria Counties, TX", in Sub-No. 289; (3) remove the facilities limitations in each certificate and letter notice; (4) change city-wide to county-wide authority from: Carrollton to Carrollton County, KY in Sub-No. 257; Owensboro to Daviess County, KY in Sub-No. 289, E–26, E–36, E–43, E–44, and E–45; Mount Vernon to Posey County, IN in Sub-No. 310; Paducah to McCracken County, KY in Sub-No. 346; Paris to Bourbon County, KY in Sub-No. 382; Wood River to Madison County, IL in Sub-No. 429F; Chocolate Bayou and Texas City to Brazoria and Galveston Counties, TX, respectively, in Sub-No. 433F; Deer Park to Harris County, TX in Sub-No. 447F; Knoxville to Knox County, TN in Sub-No. 473F; Haverhill to Scioto County, OH in Sub-No. 474F; and Kingsport and Elizabethton to Sullivan and Carter Counties, TN, respectively, in E–36; (5) expand one-way authority to radial authority between (a) Carrollton County, KY and points in AL, AR, FL, GA, IL, IN, IA, KS, KY, LA, MI, MN, MS, MO, OH, NC, SC, TN, TX and WI in Sub-No. 257; (b) Daviess County, KY and points in AL, AR, GA, IL, IN, IA, KS, KY, LA, MI, MN, MS, MO, NC, OH, OK, SC, TN, TX, and WI in Sub-No. 289; (c) Posey County, IN and points in AL, AR, CA, CO, CT, DE, FL, GA, IA, KS, LA, MA, MD, MI, MN, MS, NJ, NY, NC, OH, OK, PA, SC, TX, VT, VA, WV, WA, and WI in Sub-No. 310; (d) McCracken County, KY and points in AL, AR, GA, IL, IN, KY, MS, MO, OH, TN, WV, and VA in Sub-No. 346; (e) Madison County, IL and points in AL, AR, FL, GA, IN, KY, LA, MA, MD, MI, MO, MS, NJ, NY, OH, PA, RI, SC, TX, VA, and WV in Sub-No. 429F; (f) Brazoria and Galveston Counties, TX, Houston, TX and points in the US in and east of LA, AR, MO, IA, and MN in Sub-No. 433F; (g) Harris County, TX and points in the US in Sub-No. 447F; (h) Scioto County, OH and points in the US in Sub-No. 474F; (i) Daviess County, KY and points in MD, VA, Detroit, MI, Sullivan and Carter Counties, TN, PA, WV, FL, NM, WY, UT, CO, and MT in E–26, E–36, E–43, and E–45; and (j) expand one-way authority to two-way authority between Daviess County, KY and ND in E–44; and (6) remove restrictions against (a) AK and HI in Sub-Nos. 382, 447F, 473F, and 474F; and (b) "originating at and destined to" in Sub-Nos. 257, 310, 346, 382, and 428.

MC 114632 (Sub-293)X, filed March 2, 1981. Applicant: APPLE LINES, INC., P.O. Box 287, Madison, SD 57042. Representative: David E. Peterson (same as above). Applicant seeks to remove restrictions in its Sub-No. 285F certificate to (1) broaden the commodity description from general commodities (except commodities in bulk) to "general commodities", and (2) remove the restriction to traffic moving on bills of lading of freight forwarders.

MC 121470 (Sub-80)X, filed February 26, 1981. Applicant: TANKSLEY TRANSFER CO., 801 Cowan Street, Nashville, TN 37207. Representative: John M. Nader, 1600 Citizens Plaza, Louisville, KY 40202. Applicant seeks to remove restrictions from its Sub-No. 23F certificate to (1) broaden commodity description from steel footwalks, aluminum footwalks, and fiberglass footwalks to "metal products and clay, concrete, glass or stone products"; (2) remove the facilities limitation; (3) change city-wide to county-wide authority from Gulfport to Harrison County, MS; Easton to Northampton County, PA; and Long Island City to Queens County, NY; (4) remove the AK and HI exception; (5) expand one-way authority to radial authority between Charlotte, NC, Harrison County, MS, Kansas City, KS, Nashville, TN, Northampton County, PA, Queens County, NY and points in the US; and (6) remove the "originating at and destined to" restriction.

MC 121470 (Sub-81)X, filed March 2, 1981. Applicant: TANKSLEY TRANSFER CO., 801 Cowan Street, Nashville, TN 37207. Representative: John M. Nader, 1600 Citizens Plaza, Louisville, KY 40202. Applicant seeks to eliminate restrictions, in its its Sub-Nos. 9 and 11 certificate to (A) expand the commodity description to "buildings and such commodities as are dealt in by manufacturers and distributors of building materials", from, buildings, complete, knocked down, or in sections, building sections, and building panels, parts and accessories used in the installation thereof, metal and prefabricated structural components in panels, and materials, equipment and supplies in Sub-No. 9, and printed hardboard, fibreboard, and particleboard, returned shipments thereof, and equipment, materials and supplies in Sub-No. 11; (B) eliminate the facilities limitation in each Sub-No., (C) replace city with county-wide authority from Portland, TN to Sumner County, TN in Sub-No. 9 and from Dickson, TN to Dickson County, TN in Sub-No. 11, (D) eliminating the restrictions to the transportation of traffic originating at or destined to named points or facilities in each sub, (E) change one way to radial authority between Sumner County, TN, and, and described portion of the U.S. in Sub-No. 9 and Dickson County, TN, and, a described portion of the U.S. in Sub-No. 11.

MC 121712 (Sub-9)X, filed February 27, 1981. Applicant: MORRIS TRANSPORTATION, INC., 6300 Baldwin St., Oakland, CA 94621. Representative: Marvin Handler, 100 Pine St., Suite 2550, San Francisco, CA 94111. Applicant seeks to remove restrictions in its Sub-No. 8F certificate to broaden the commodity description from (a) oil filters to "machinery", petroleum products (in containers) to "petroleum, natural gas, and their products", in part (A)(2); (b) scaffolding and shoring and related steel items and machinery, materials, tools, and supplies used in concrete construction to "metal products, machinery, and construction and building materials, equipment, and supplies," in part (A)(3); (c) iron and steel articles to "metal products," in part (A)(4); (d) tinplate to "metal products" in part (A)(5); and (e) general commodities (with exceptions, including the exception of automobiles and trucks) to "general commodities (except household goods and classes A and B explosives)" in part (B); and remove the restriction against the transportation of Mercer commodities, earth drilling machinery and equipment, self-propelled articles

weighing 15,000 lbs. or more and size and weight commodities in part (A)(3).

MC 121615 (Sub-4)X, filed March 3, 1981. Applicant: ALL SOUTH MOTOR FREIGHT, INC., 1220 Snyder Court, Nashville, TN 37210. Representative: Henry E. Seaton, 929 Pennsylvania Bldg., 425 13th Street NW., Washington, DC 20004. Applicant seeks to remove restrictions in its Sub-Nos. 2F and 3F to (1) broaden the commodity descriptions from general commodities (with usual exceptions) to "general commodities (except classes A and B explosives)" and (2) to authorize service at all intermediate points along described regular routes between (a) Chattanooga and Memphis, TN and (b) Chattanooga and Nashville, TN, in Sub-No. 2F, and Nashville, TN and St. Louis, MO, in Sub-No. 3F.

MC 125910 (Sub-3)X, filed March 3, 1981. Applicant: CUSTOM TRANSPORT, INC., P.O. BOX 310, Lincolnton, NC 28092. Representative: Jack F. Counts, P.O. Box 26125, Charlotte, NC 28213. Applicant seeks to remove restrictions in its lead and Sub-No. 2F certificates to broaden its commodity description to (1) "textile mill products and materials, equipment and supplies used in the manufacture and distribution thereof, waste or scrap materials not identified by industry and chemicals and related products", from textile materials, textile waste materials, and used bagging and textile waste materials, and cotton which are within the exemption of 49 U.S.C. 10526(a)(6), when transported in the same vehicle with the commodities specified herein, and synthetic textile fibers in its lead certificates; to (2) "pulp, paper and related products" from paper, paper products, and materials and supplies used in the manufacture of paper and paper products in Sub-No. 2F; (3) remove the "except commodities in bulk" restriction in Sub-No. 2F; and (4) change the territorial description by substituting Escambia County, FL for the named facilities in Cantonment, FL, in Sub-No. 2F.

MC 128570 (Sub-23)X, filed March 4, 1981. Applicant: BROOKS ARMORED CAR SERVICE, INC., 13 East 35th Street, Wilmington, DE 19802. Representative: James F. Flint, 406 World Center Building, 918 16th Street NW., Washington, DC 20006. AGENCY: Interstate Commerce Commission.

ACTION: Notice of reopening to eliminate prescription.

SUMMARY: The Commission proposes to vacate the order in these proceedings

applying the Docket No. 28300, *Class Rate Prescription, 1938*, maximum rate ceiling to rates between, from, and to mountain Pacific territory. This action is a necessary complement to our decision in No. 37403, *Consolidated Rail Corporation—Petition to Eliminate Docket No. 28300 Class Rate* Prescription, 364 I.C.C. 615, decided January 9, 1981, served January 19, 1981 (46 FR 8787, published January 27, 1981).

DATES: Comments are due May 4, 1981.

ADDRESS: An original and 15 copies of comments should be sent to: Interstate Commerce Commission, Room 5358, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT: Richard Felder or Jane Mackall, (202) 275–7656.

SUPPLEMENTARY INFORMATION: This proceeding was a logical outgrowth of No. 28300, *supra*, 262 I.C.C. 447 (1945), 264 I.C.C. 41 (1945), 266 I.C.C. 577 (1947), 281 I.C.C. 213 (1951). In No. 28300, the Commission prescribed maximum rail class rates for all territories other than mountain Pacific. Here, with certain exceptions, rates comparable to the No. 28300 scale were established as maximum reasonable rates within, to, and from mountain—Pacific territory. The basis for this action was the same as that explained in No. 28300.

In No. 37403, *supra*, we concluded that the outstanding prescription in No. 28300 conflicted with the Staggers Rail Act of 1980 in that it improperly and arbitrarily limited the rail industry's ratemaking flexibility and was not consistent with the current law of discrimination. The prescription was vacated. Given the relationship between No. 28300 and Nos. 30416 and 30660, the same analysis and conclusions appear required here. We reiterate our findings in No. 37403 that removal of the prescription need not mean the end of the usefulness of the classification system.

It does not appear that this decision will significantly affect the quality of the human environment or conservation of energy resources. However, comments on these issues are invited.

(49 U.S.C. 10321, 10701, 10702, and 10704)

Dated: March 9, 1981.

By the Commission, Division 2, Commissioners Gresham, Trantum, and Alexis.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Docket No. AB-1 (Sub-103F)]

Chicago and North Western Transportation Co.; Abandonment and Discontinuance of Service Over Union Pacific Railroad Co. Near Fremont, Ames, and Lincoln, Nebr.; Notice of Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that by a decision dated February 27, 1981, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, the public convenience and necessity permit the abandonment by the Chicago and North Western Transportation Company (CN&W) of (1) operations over a line of railroad of the Union Pacific Railroad Company extending from Union Pacific milepost 39.20 near Fremont, NE to Union Pacific milepost 44.79 near Ames, NE, a distance of 5.6 miles, and (2) a line of railroad extending from C&NW milepost 5.6 near Ames, NE to C&NW milepost 52.1 at the end of the line near Lincoln, NE, a distance of 46.4 miles, for a total distance of 52.0 miles, all in Dodge, Saunders and Lancaster Counties, NE, subject to the conditions for the protection of employees discussed in *Oregon Short Line R. Co.—Abandonment Goshen*, 360 I.C.C. 91 (1979). A certificate of abandonment will be issued to the CN&W based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 15 days from the date of publication, the Commission further finds that:

(1) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued. The offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice; and

(2) It is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad.

If the Commission so finds, the issuance of a certificate of abandonment will be postponed. An offer may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made on the Commission to set conditions or amount of compensation, a certificate of abandonment will be issued no later than 50 days after this notice is published. Upon notification to the Commission of the execution of an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96–448, effective October 1, 1980). All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced decision.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[No. AB-1 (Sub-101)]

Chicago and Northwestern Transportation Co., Abandonment in Worth and Mitchell Counties, IA, and Mower County, MN; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that by a decision decided March 6, 1981 a finding, which is administrately final, was made by the Commission, Review Board Number, stating that, the public convenience and necessity permit the abandonment by the Chicago and Northwestern Transportation Company of its line extending from rail milepost 48.0 near Manly, IA to rail milepost 14.8 near Austing, MN, a distance of 33.2 miles in Worth and Mitchell Counties, IA, and Mower County, MN. The abandonment is subject to the conditions for the protection of employees discussed in *Oregon Short Line R. Co.–Abandonment Goshen*, 360 I.C.C. 91 (1979). Additionally, Chicago Northwestern Transportation Company is required to keep intact all of the right-of-way underlying track, including all bridges and culverts, for a period of 120 days following the effective date of the decision to permit any state or local government agency or other interested party to negotiate the acquisition for public use of all or any portion of the right-of-way. A certificate of abandonment will be issued to the

Chicago and Northwestern Transportation Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 15 days from the date of publication, the Commission further finds that: (1) a financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued. The offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice; and (2) It is likely that such proffered assistance would: (a) cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonble return on the value of such line, or (b) cover the acquisition cost of all or any portion of such line of railroad. If the Commission so finds, the issuance of a certificate of abandonment will be postponed. An offer may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made on the Commission to set conditions or amount of compensation, a certificate of abandonment will be issued no later than 50 days after notice is published. Upon notification to the Commission of the execution of an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96-448, effective October 1, 1980). All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced decision.

BILLING CODE 7035-01-M

DEPARTMENT OF LABOR

Office of the Secretary

[TA-W-8710]

Automotive Moulding Co., Warren, Mich.; Affirmative Determination Regarding Application for Reconsideration

By a letter[1] received February 24, 1981, a worker representative requested administrative reconsideration of the Department of Labor's Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance for workers and former workers of Automotive Moulding Company, Warren, Michigan. The determination was published in the **Federal Register** on February 10, 1981 (46 FR 11740).

The applicant for reconsideration claimed that the company's customers purchased imported mouldings which adversely affect the domestic moulding market; that two other domestic moulding manufacturing concerns which had the same customers as Automotive Moulding were certified for adjustment assistance; that the output of Automotive Moulding's production declined at a greater ratio than the decline of imported mouldings; and that the domestic moulding manufacturing concerns must compete with Canadian firms which are favored by the exchange rate between the Canadian and the U.S. dollar.

Conclusion

After review of the application, I conclude that the petitioner's claim is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, D.C. this 12th day of March 1981.

James F. Taylor,

Director, Office of Management, Administration and Planning.

BILLING CODE 4510-28-M

[TA-W-8282]

The B. F. Goodrich Co., Oaks, Pa.; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely.

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The investigation was initiated on May 27, 1980 in response to a petition which was filed by the United Rubber, Cork, Linoleum and Plastic Workers of America on behalf of workers at the Oaks, Pennsylvania plant of the B. F. Goodrich Company. The workers produce automobile tires and truck tires.

The investigation revealed that criterion (3) has not been met.

The Department surveyed both randomly selected and major B. F. Goodrich Company automobile and truck tire customers. Respondents to this survey accounted for the majority of Goodrich's 1979 automobile and truck tire sales.

Automobile tire customers which decreased purchases from Goodrich and increased purchases of imported auto tires in 1979 compared with 1978 and during the first half of 1980 compared with the first half of 1979 did not represent a significant proportion of B. F. Goodrich's auto tire sales or total sales decline.

Responding truck tire customers which decreased purchases from the subject firm while increasing import purchases represented an insignificant proportion of Goodrich's truck tire sales in both 1979 and the first half of 1980. These truck tire customers did not account for a significant percentage of Goodrich's decline in truck tire sales.

Conclusion

After careful review, I determine that all workers of the Oaks, Pennsylvania plant of the B. F. Goodrich Company are denied eligibility to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

[1] The letter is filed as a part of the original document.

Signed at Washington, D.C., this 11th day of February 1981.

C. Michael Aho,

Director, Office of Foreign Economic Research.

BILLING CODE 4510-28-M

[TA-W-6760]

Chromium Mining & Smelting Corp., Memphis, Tenn.; Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the act must be met. It is determined in this case that all of the requirements have been met.

The investigation was initiated on August 4, 1980 in response to a petition which was filed by the United Steelworkers of America on behalf of workers at the Chromium Mining and Smelting Corporation, Memphis, Tennessee. The workers primarily produce high carbon ferrochrome.

U.S. imports of high carbon ferrochrome increased both absolutely and relative to domestic production in the first half of 1980 compared to the same period in 1979.

A Department of Labor survey revealed that customers with reduced purchases from Chromium Mining and Smelting Corporation and increased purchases of imported high carbon ferrochrome accounted for a significant portion of the subject firm's sales decline in the first eight months of 1980 compared to the same period in 1979.

Conclusion

After careful reveiw of the acts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with the high carbon ferrochrome produced at the Chromium Mining and Smelting Corporation, Memphis, Tennessee contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of the Chromium Mining and Smelting Corporation, Memphis, Tennessee who became totally or partially separated from employment on or after August 20, 1980 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this 6th day of March 1981.

Harry J. Gilman,

Supervisory International Economist, Office of Foreign Economic Research.

BILLING CODE 4510-28-M

[TA-W-6666]

McKeown Transportation Co. (Union Carbide Corp., Linde Division) Milwaukee, Wis.; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

The investigation was initiated on August 4, 1980 in response to a petition which was filed by workers engaged in the transportation of gas products from the Union Carbide Corporation, Linde Division plant in Milwaukee, Wisconsin. The investigation revealed that the workers are employees of the McKeown Transportation Company driving under an operational agreement between the McKeown Transportation Company and the Union Carbide Corporation.

The McKeown Transportation Company does not produce an article within the meaning of Section 222(3) of the Act. The Department of Labor has consistently determined that the performance of services does not constitute production of an article, as required by Section 222 of the Trade Act of 1974; and this determination has been upheld in the U.S. Court of Appeals. Therefore, workers of McKeown Transportation Company may be certified only if their separation from employment was caused importantly by a reduced demand for their services from a firm which produces an article and which is related to the service workers' firm by ownership or by a substantial degree of proprietary control, or if the workers are determined to be *de facto* (according to the facts of this case) employees of the producing firm. In addition, the reduction in demand for services must be determined to have originated at a production facility whose workers independently meet the statutory criteria for certification, and that reduction must directly relate to the product adversely affected by increased imports.

During the course of the investigation it was determined that workers of the McKeown Transportation Company driving under an operational agreement between the McKeown Transportation Company and the Union Carbide Corporation are *de facto* employees of Union Carbide and that Union Carbide constitutes the "workers' firm" within the meaning of Section 222 of the Trade Act.

None of the workers engaged in the production of acetylene, argon, nitrogen and oxygen at the Union Carbide Corporation, Linde Division are currently certified as eligible to apply for adjustment assistance benefits. Industry sources reported that imports of gases such as acetylene, argon, oxygen and nitrogen are negligible due to the high transportation costs.

Conclusion

After careful review, I determine that all workers of McKeown Transportation Company, (Union Carbide Corporation, Linde Division) Milwaukee, Wisconsin are driving under an operational agreement between the McKeown Transportation Company and the Union Carbide Corporation are denied eligibility to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this 9th day of March, 1981.

James F. Taylor,

Director, Office of Management, Administration and Planning.

BILLING CODE 4510-28-M

[TA-W-6371]

Profile Steel & Wire, Inc. Detroit, Mich.; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

(1) that a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

(2) that sales or production, or both, of the firm or subdivision have decreased absolutely.

(3) that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The investigation was initiated on June 27, 1980, in response to a petition which was filed on behalf of workers at profile Steel and Wire, Incorporated, Detroit, Michigan. Workers at the plant produce cold rolled steel wire.

The investigation revealed that criterion (3) has not met.

The investigation revealed that profile Steel and Wire's customers purchased no imported cold rolled steel wire. All of profile's wire production is shipped to plants that produce Pierce Nuts, which are patented multi-threaded automotive fasteners and can not be imported. One of the plants is affiliated with Profile Steel and Wire.

Petitioners allege that increased imports of automobiles have contributed importantly to declines in sales, production and employment at profile Steel and Wire, Incorporated, Detroit, Michigan. Although imported automobiles incorpoate Pierce Nuts made from cold rolled steel wire, imports of the whole product are not like or directly competitive with their component parts. Imports of cold rolled steel wire and Pierce Nuts must be considered in determining import injury to workers producing cold rolled steel wire and Pierce Nuts.

Conclusion

After careful review, I determine that all workers of Profile Steel and Wire, Incorporated, Detroit, Michigan are denied eligibility to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this 9th day of March, 1981.

BILLING CODE 4510-28-M

[TA-W-9533]

True Temper Sports, Inc., Division of True Temper Corp. Geneva, Ohio; Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

(1) that a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

(2) that sales or production, or both, of the firm or subdivision have decreased absolutely.

(3) that increases of imports of articles like to directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The investigation was initiated on July 28, 1980 in response to a petition which was filed by the United Steelworkers of America on behalf of workers at the Geneva, Ohio plant of True Temper Sports, Incorporated, Division of True Temper Corporation. The workers produce golf shafts, tennis racquet frames, racquet ball racquet frames, steel military antennas, and ferrules (steel tubular hardware for rakes and shovels).

The investigation revealed that criterion (3) has not been met.

U.S. imports of golf shafts decreased relative to domestic production in 1979 compared to 1978. Imports of golf shafts decreased absolutely in 1978 and 1979 compared to the previous year, and in the period January through June 1980 compared to the period January through June 1979.

U.S. imports of tennis racquet frames (or unstrung tennis rackets) declined absolutely in 1979 compared to 1978 and in the period January through June 1980 compared to January through June 1979.

U.S. imports of military antennas, which are included in the same category as amateur radio antennas and 2-way professional radio antennas, are negligible.

The Department of Labor conducted a survey of customers who purchased golf shafts, tennis racquet frames and steel military antennas from True Temper Corporation. None of the respondents to the survey imported steel military antennas in 1978, 1979 or in the period January through September 1980. None of the respondents decreased purchases of tennis racquet frames from True Temper Corporation and increased imports of tennis racquet frames in 1979 compared to 1978 or in the period January through September 1980 compared to January through September 1979. Customers which decreased purchases of golf shafts from True Temper Corporation and increased purchases of imported golf shafts represented an insignificant proportion of True Temper Corporation's total sales of golf shafts in 1979. Furthermore, company-wide sales of golf shafts by True Temper Corporation increased in 1979 compared to 1978 and in the period January through June 1980 compared to January through June 1979.

Ferrules (steel tubular hardware for rakes and shovels) were produced at the Geneva, Ohio plant of True Temper Sports, Incorporated as an inventory item and were transferred to the True Temper hardware division plants at Saybrook, Ohio and at Dunkirk, New York, to be assembled into rakes and shovels. The ratio of U.S. imports to U.S. shipments of shovels, spades and ice choppers (which includes parts for shovels and rakes) was only 2.1 percent in 1979. Absolute imports of shovels, spades and ice choppers decreased in the period January through March 1980 compared to January through March 1979.

Conclusion

After careful review, I determine that all workers of the Geneva, Ohio Plant of True Temper Sports, Incorporated, Division of True Temper Corporation are denied eligibility to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this 9th day of March 1981.

James F. Taylor,
Director, Office of Management Administration and Planning.

BILLING CODE 4510-28-M

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor herein present summaries of determinations regarding eligibility to apply for worker adjustment assistance issued during the period March 2–6, 1981.

In order for an affirmative determination to be made and a certification of eligibility to apply for adjustment assistance to be issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) that a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) that sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations

In each of the following cases it has been concluded that at least one of the above criteria has not been met.

TA–W–8119; Bethlehem Steel Corp., Lackawanna, NY

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–11,372; Hayes-Albion Corp., Fifty Division, Bryan, OH

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–10, 874; Quinlan Lumber Co., Flint, MI

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of wooden industrial pallets and boxes are negligible.

TA–W–10,016; Pennwalt Corp., Lucidol Div., Geneseo, NY

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of organic peroxides are negligible.

TA–W–8780; Clements Mfg. Co., Inc., Deckerville, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–8979; Clevepak Corporation, Clevaflex Div., Cleveland, OH

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–8612; Wellington Industries, Inc., Detroit, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–8624; Dominion Auto Accessories, Inc., Sevierville, TN

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–8988; Martha Manning Co., Inc., Mascoutha, IL

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–8927; Clipper International Corp., Detroit, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–8747; Liquid Carbonic Corp., Detroit, MI

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of industrial gases are negligible.

TA–W–9410; Sealed Power Corp., Franklin, KY

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–8992, 9033 & 9034; T.D. Shea Manufacturing, Inc., Detroit, MI, Kendallville, IN, and Pontiac, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9532; Quality Gasket & Manufacturing Co., Clawson, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–11,261; Ohio Truss Mart, Walled Lake, MI

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of trusses are negligible.

TA–W–8803; Fabricon Automotive Products Co., Division of Eagle Picher Industries, River Rouge, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–8584, 8585, 8586, 9099 & 9100; Keeler Corporation, Godfrey Street Plant, Grand Rapids, MI, Kentwood Plant, Kentwood, MI, Stevens Street Plant, Grand Rapids, MI, Lake Odessa Plant, Lake Odessa, MI, Hall Street Plant, Grand Rapids, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–11,635; MCP Industries, Inc., Detroit, MI

Investigation revealed that criterion (3) has not been met. The workers' firm does not produce an article as required for certification under Section 223 of the Trade Act of 1974.

TA–W–11,731; Central Steel and Wire Co., Detroit, MI

Investigation revealed that the workers do not produce an article as required for certification under Section 223 of the Act.

TA–W–11,210; Tracor Marine, Inc., South Bristol, ME

Investigation revealed that the workers do not produce an article as required for certification under Section 223 of the Act.

TA–W–10,560 & 10,561; Indiana Renewal Center of International Harvester Co., Franklin, IN

Investigation revealed that the workers do not produce an article as required for certification under Section 223 of the Act.

TA–W–9125; Fishman and Tobin, Inc., Philadelphia, PA

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–8974; St. Clair-Pakwell, North Wales, PA

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of paper bags, folding boxes and gift wrap are negligible.

TA–W–8735; G.P. Plastics, Inc., Pontiac, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–8900; Hi-Vol Products, Inc., Livonia, PA

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–8370; Niko Mfg., Co., Inc., Copiague, NY

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–8742; Copiague Knitwear Corp., Copiague, NY

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separation at the firm.

TA-W-9743; Famous Cottons, Inc., Copiague, NY

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separation at the firm.

TA-W-9013; TRW, Inc., Michigan Division, Van Dyke Plant, Sterling Hgts, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-8951; Teledyne-Vasco, Monaca, PA

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separation at the firm.

TA-W-9602; The Lunkenheimer Co., Cincinnati, OH

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-8968; Norris Industries; Automotive Trim Division; Ypsilanti, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-8898; Beam Industries, Inc.; Detroit, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-8748; Huntsville United Research & Technology, Inc.; Huntsville, AL

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-11,362; Union Metal Mfg., Co.; Material Handling Div., Macedonia, OH

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of auto storage racks & containers are negligible.

TA-W-11,301, 11,302, & 11,303; Wausau Homes, Inc.; Wausau, WI; Oscoda, MI. & Lansing, MI

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of prefabricated homes are negligible.

TA-W-8136; Automotive Products Division; U.S. Mfg., Corp.; Fraser, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-9006; Die Cast Corp; Jackson, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-8703; Claude Sintz, Inc; Deshler, OH

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-8961; Diamond Stamping & Mfg., Co., Roseville, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-10,644; The Exolon Co.; Tonawanda, N.Y

Print document as it is (see enclosures).

TA-W-8716; Bernel Foam Products Co.; Buffalo, N.Y

Print document as it is (see enclosures).

Affirmative Determinations

In each of the following cases, it has been concluded that all of the criteria have been met, and certifications have been issued covering workers totally or partially separated from employment on or after the designated dates.

TA-W-9760; Chromium Mining & Smelting Corp.; Memphis, TN

A certification was issued applicable to all workers at the subject firm separated from employment on or after August 30, 1980.

TA-W-9498; Alongi Oldsmobile, Inc.; Niagara Falls, N.Y.

A certification was issued applicable to all workers at the subject firm separated from employment on or after July 11, 1979 and before December 1, 1980.

Split Determination

TA-W-8188 & 8724; Textile Trim, Inc.; Fraser, MI & Fair Haven, MI

A certification was issued covering all workers of the Fraser, Michigan plant separated from employment on or after April 30, 1979 and before September 30, 1979.

With respect to workers of the Fair Haven, Michigan plant investigation revealed that criterion (3) has not been met.

I hereby certify that aforementioned determinations were issued during the period March 2–6, 1981. Copies of these determinations are available for inspection in Room S–5314, U.S. Department of Labor, 200 Constitution Ave., NW., Washington, D.C. 20210 during normal working hours or will be mailed to persons who write to the above address.

Dated: March 6,1981.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[FR Doc. 81-8661 Filed 3-19-81; 8:45 am]

BILLING CODE 4510-28-M

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor herein presents summaries of determinations regarding eligibility to apply for worker adjustment assistance issued during the period March 9–13, 1981.

In order for an affirmative determination to be made and a certification of eligibility to apply for adjustment assistance to be issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) that a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) that sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations

In each of the following cases it has been concluded that at least one of the above criteria has not been met.

TA-W-9426; Setting Sun Seat Co., Red Bluff, CA

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-11,682; AAA Punch & Die Products, Inc., Ferndale, MI

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of auto punches and die buttons are negligible.

TA-W-9020; Pyron Corporation, Niagara Falls, NY

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA-W-8859 & 10,347; Kelsey Hayes Co., Romulus, MI and Heintz Division, Philadelphia, PA

Investigation revealed that criterion (3) has not been met. With respect to wheels, a survey of customers indicated that increased imports did not contribute importantly to

worker separations at the firm. With respect to hoods, fenders, and doors, U.S. imports are negligible.

TA–W–10,291; Sen-Wel Industries,Inc., Buffalo, NY

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of fabricated structural steel are negligible

TA–W–8808; Fort Smith Outerwear Inc., Fort Smith, AR

Investigation revealed that sales by manufactueres for whom subject firm produced under contract did not decline.

TA–W–9130; Wagner Electric Corp., Weatherly, PA

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9063; Arbitman and Arbitman, Inc., New York, NY

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of women's, girls and infants leather coats and jackets did not increase as required for certification.

TA–W–9409; Teledyne Howell Penncraft, Howell Gear Div., Howell, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9406; Teledyne Howell Penncraft, Standards Div., Plymouth, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9408; Teledyne Howell Penncraft, Lincoln Park Div., Lincoln Park, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9102; Schmelzer Corp., Durand, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9025; Carbon City Products Co., St. Marys, PA

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–8963; GRM Industries, Inc., Grand Rapids, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9041; International Hardware Mfg. Co., Inc., Oak Park, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9367, 9368, & 9369; Detroit Plastic Molding Co., Detroit, MI, Roseville, MI, and Sterling Heights, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9047; Richmond Instruments Co., Richmond, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9071 & 9072; Lyntex Mfg. Inc., Ubly, MI and Gemini Plastics, Ubly, MI

Investigation revealed that criterion (3) has not been met. With respect to map pocket assemblies, vent glass assemblies and button retainers, a survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm. With respect to plastic profile extruded parts, sales and production increased from 1978 to 1979 and in the first six months of 1980 compared with the same period in 1979.

TA–W–8872; Trim Parts, Inc., Marshall, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–10,162; Eiffel Leather Fashions, Inc., New York, NY

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of leather coats and jackets did not increase as required for certification.

TA–W–9061; Gibralter Steel Corp., Buffalo, New York, NY

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9104; Fast Machine Inc., Grand Rapids, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9063; McCreary Tire and Rubber Co., Indiana, PA

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9402; Alofs Mfg. Co., Wyoming, MI

Investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

Affirmative Determinations

TA–W–11,368; McKnight Road Dodge, Inc., Pittsburgh, PA

A certification was issued applicable to all workers at the subject firm separated on or after October 10, 1979 and before November 1, 1980.

TA–W–11,744; Chrysler Products of Claremore, Claremore, OK

A certification was issued applicable to all workers at the subject firm separated on or after November 7, 1979 and before November 1, 1980.

TA–W–8849, 8849A, & 8850; Snyder Tank Corp., Buffalo, NY, Springfield, OH, and Galeton, PA

A certification was issued applicable to all workers at the subject firm separated from employment on or after June 1, 1980.

TA–W–8916; Goodyear Tire and Rubber Co., Sun Prairie, WI

With respect to workers producing hydraulic brake hose, a certification was issued covering all workers separated on or after June 2, 1979.

I hereby certify that the aforementioned determinations were issued during March 9–13, 1981. Copies of these determinations are available for inspection in Room S–5324, U.S. Department of Labor, 200 Constitution Ave., NW, Washington, D.C. 20210 during normal working hours or will be mailed to persons who write to the above address.

BILLING CODE 4510–28–M

Mine Safety and Health Administration

[Docket No. M–81–10–C]

Peabody Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

Peabody Coal Company, Camp No. 1, P.O. Box 350, Morganfield, Kentucky 42437, has filed a petition to modify the application of 30 CFR 75.303 (preshift examination) to its mine located in Union County, Kentucky. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns a request by the petitioner to monitor the air passing the first-south off second west seals at a point outby the present seals due to two massive roof falls which prohibit the physical examination of these seals.

2. The seals are located approximately 800 feet from the second main west track in an area of the mine where the roof is badly deteriorated; additional roof support has been added in the area of these seals with very little satisfactory results toward stabilizing the roof.

3. Because of these adverse conditions, rehabilitation of these areas would expose miners to hazardous roof conditions which would result in a diminution of safety for the miners affected.

4. As an alternate method, petitioner proposes to monitor the air passing these seals outby the last open crosscut of the second south off second wall seals in front of No. 2 seal.

5. Petitioner states that the alternate method will provide the same degree of safety for the miners as that afforded by the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before April 20, 1981. Copies of the petition are available for inspection at that address.

Dated: March 11, 1981.

Frank A. White,

Director, Office of Standards, Regulations and Variances.

BILLING CODE 4510-43-M

Occupational Safety and Health Administration

[V-81-1]

Texas Commerce Bank, N.A.; Application

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTION: Notice of application for variance.

SUMMARY: This notice announces the application of Texas Commerce Bank, N.A., for variance from the standard prescribed in 29 CFR 1910.66(b)(3), concerning the design requirements of powered platforms for exterior building maintenance.

DATES: The last date for interested persons to submit commments is April 20, 1981. The last date for affected employers and employees to request a hearing on the application is April 20, 1981.

ADDRESSES: Send comments or requests for a hearing to: Office of Variance Determination, Occupational Safety and Health Administration, U.S. Department of Labor, Third St. and Constitution Ave. NW, Room N3662, Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT:

Mr. James J. Concannon, Director, Office of Variance Determination at the above address, telephone: 202-523-7144;

or the following Regional and Area Offices:

U.S. Department of Labor, Occupational Safety and Health Administration, 555 Griffin Square Building, Room 602, Dallas, Texas 75202;

U.S. Department of Labor, Occupational Safety and Health Administration, 1100 No. 505 NASA Road 1, Houston, Texas 77058.

Notice of Application

Notice is hereby given that Texas Commerce Bank, N.A., c/o James R. Berry, 707 Travis—Suite 800, Houston, Texas 77002, has made application pursuant to section (6)(d) of the Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for a variance from the standard prescribed in 29 CFR 1910.66(b)(3) powered platforms for exterior maintenance—design requirements.

The address of the place of employment that will be affected by the application is as follows: Texas Commerce Center, 601 Travis, Houston, Texas 77002.

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is providing a place of employment as safe as that required by 29 CFR 1910.66(b)(3) which states that all new powered platforms for exterior building maintenance shall meet the requirement of Parts II and III of ANSI A120.1-1970. The ANSI standard requires that the design of the building or structure face in conjunction with the design of the building contact member on the working platform shall provide continuous contact of the working platform with the building or structure in order to absorb wind forces and horizontal components of dead and live loads on the working platform. The face of the building shall be provided with continuous T-rails, indented mullions, or equivalent guides which will positively engage building contact members on the working platform. On buildings where the working platform has a rise of less than 130 feet, guides providing positive engagement are not required.

The applicant contends that its design does not allow for continuous vertical mullions and, therefore, does not provide continuous T-rails or indented mullions required by ANSI A120.1-1970, since the building height is approximately 206 feet.

The applicant proposes to use a system of intermittent stabilization of his powered platform to prevent horizontal translation of the platform with respect to the face of the building. The system will consist of protruding anchors secured to the face of the building in vertical rows at every third floor (approximately 40 feet) and spaced horizontally to allow a stabilization attachment for each of the two platform suspension wire ropes. The stabilization attachment, a quick connect- quick disconnect tie containing an adjustable lanyard to allow positioning of each suspension wire rope vertically parallel to the face of the building, will be attached to each anchor as each elevation of tie-in anchorage is reached during the descent of the working platform. The process will be reversed as the platform ascends. The removal will be assured in that the platform will be provided with electrical interlocks to interrupt power to its hoist(s) in the event either interlock contacts a stabilizer during the ascent of the platform. The platform will also be equipped with building face rollers.

The applicant also contends that its alternative method of securing the powered platform, as described above, is as safe and healthful as the requirements of the standard from which a variance is sought.

All interested persons, including employers and employees who believe they would be affected by the grant or denial of the application for variance are invited to submit written data, views, and arguments relating to the pertinent application no later than April 20, 1981. In addition, employers and employees who believe they would be

affected by a grant or denial of the variance may request a hearing on the application no later than April 20, 1981, in conformance with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing should be in quadruplicate, and must be addressed to the Office of Variance Determination at the above address.

Signed at Washington, D.C., this 13th day of March 1981.

David C. Zeigler,

Acting Deputy Assistant Secretary of Labor.

[FR Doc. 81-8861 Filed 3-19-81; 8:45 am]

BILLING CODE 4510-26-M

[V-81-2]

U.I.D.C. of Colorado, Inc.; Application

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTION: Notice of application for variance.

SUMMARY: This notice announces the application of U.I.D.C. of Colorado, Inc., for variance from the standard prescribed in 29 CFR 1910.66(b)(3), concerning the design requirements of powered platforms for exterior building maintenance.

DATES: The last date for interested persons to submit comments is April 20, 1981. The last date for affected employers and employees to request a hearing on the application is April 20, 1981.

ADDRESSES: Send comments or requests for a hearing to: Office of Variance Determination, Occupational Safety and Health Administration, U.S. Department of Labor, Third St. and Constitution Ave. NW., Room N3662, Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT:

Mr. James J. Concannon, Director, Office of Variance Determination, at the above address, telephone: 202-523-7144;

or the following Regional and Area Offices:

U.S. Department of Labor, Occupational Safety and Health Administration, Federal Building Room 1554, 1961 Stout Street, Denver, Colorado 80294;

U.S. Department of Labor, Occupational Safety and Health Administration, Tremont Center, 1st Floor, 333 West Colfax, Denver, Colorado 80204.

Notice of Application

Notice is hereby given that U.I.D.C. of Colorado, 717 17th Street, Suite 1330, Denver, Colorado, has made application pursuant to section (6)(d) of the Occupational Safety and Health Act of 1970 (84 Stat. 1598; 29 U.S.C. 655) and 29 CFR 1905.11 for a variance from the standard prescribed in 29 CFR 1910.66(b)(3) powered platforms for exterior maintenance—design requirements.

The address of the place of employment that will be affected by the application is as follows: Energy Center II, 707 17th Street, Denver, Colorado 80202.

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is providing a place of employment as safe as that required by 29 CFR 1910.66(b)(3) which states that all new powered platforms for exterior building maintenance shall meet the requirement of Parts II and III of ANSI A120.1-1970. The ANSI standard requires that the design of the building or structure face in conjunction with the design of the building contact member on the working platform shall provide continuous contact of the working platform with the building or structure in order to absorb wind forces and horizontal components of dead and live loads on the working platform. The face of the building shall be provided with continuous T-rails, indented mullions, or equivalent guides which will positively engage building contact members on the working platform. On buildings where the working platform has a rise of less than 130 feet, guides providing positive engagement are not required.

The applicant contends that its design does not allow for continuous vertical mullions and, therefore, does not provide continuous T-rails or indented mullions required by ANSI A120.1-1980, since the building height is approximately 550 feet.

The applicant proposes to use a system of intermittent stabilization of his powered platform to prevent horizontal translation of the platform with respect to the face of the building. The system will consist of protruding anchors secured to the face of the building in vertical rows at every third floor (approximately 40 feet) and spaced horizontally to allow a stabilization attachment for each of the two platform suspension wire ropes. The stabilization attachment, a quick connect—quick disconnect tie containing an adjustable lanyard to allow positioning of each suspension wire rope vertically parallel to the face of the building, will be attached to each anchor as each elevation of tie-in anchorage is reached during the descent of the working platform. The process will be reversed as the platform ascends. The removal will be assured in that the platform will be provided with electrical interlocks to interrupt power to its hoist(s) in the event either interlock contacts a stabilizer during the ascent of the platform. The platform will also be equipped with building face rollers.

The applicant further states that the building has been provided with vertical track guides to stabilize the platform as it descends or ascends past the transition between the hotel and office portions of the building.

The applicant also contends that its alternative method of securing the powered platform, as described above, is as safe and healthful as the requirements of the standard from which a variance is sought.

All interested persons, including employers and employees who believe they would be affected by the grant or denial of the application for variance are invited to submit written data, views, and arguments relating to the pertinent application no later than April 20, 1981. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application no later than April 20, 1981, in conformance with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing should be in quadruplicate, and must be addressed to the Office of Variance Determination at the above address.

Signed at Washington, D.C., this 13th day of March 1981.

David D. Zeigler,

Acting Deputy Assistant Secretary of Labor.

BILLING CODE 4510-26-M

Pension and Welfare Benefit Programs Office

[Prohibited Transaction Exemption 81-27; Exemption Application No. D-2128]

Exemption From the Prohibitions for Certain Transactions Involving The Dakota Steel & Supply Co. Employees Profit-Sharing Retirement Plan, Rapid City, S. Dak.

AGENCY: Department of Labor.

ACTION: Grant of individual exemption.

SUMMARY: This exemption exempts the cash sale of certain improved real

property by the Dakota Steel and Supply Company Employees Profit-Sharing Retirement Plan (the Plan) to the Dakota Steel and Supply Company (the Employer), a party in interest with respect to the Plan.

FOR FURTHER INFORMATION CONTACT: Ms. Jan Broady of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216. (202) 523-7222. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On January 9, 1981, notice was published in the Federal Register (46 FR 2418) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406(a), 406(b)(1) and (b)(2) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1)(A) through (E) of the Code, for a transaction described in an application filed by the trustee of the Plan. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that a copy of the notice and an accompanying letter have been provided to all interested persons in order to comply with the notification requirements set forth in the notice of pendency. No public comments and no requests for a hearing were received by the Department.

The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 406(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly the restrictions of section 406(a), 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to the cash sale, for $93,500, of certain real property located in the Deadwood Avenue industrial area of Pennington, South Dakota, provided this amount is not less than the fair market value on the date of the sale.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to this exemption.

Signed at Washington, D.C., this 12th day of March 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

[Prohibited Transaction Exemption 81-34; Exemption Application No. D-1878]

Exemption From the Prohibitions for Certain Transactions Involving the Paul W. Lawrence Co., Inc. Profit Sharing Plan, Hastings, Minn.

AGENCY: Department of Labor.

ACTION: Grant of individual exemption.

SUMMARY: This temporary exemption permits for a period of three years the sales by the Paul W. Lawrence Co., Inc. (the Employer), the sponsor of the Paul W. Lawrence Co., Inc. Profit Sharing Plan (the Plan) of its interests in contracts for deed or residential first mortgage loans (collectively, the Contracts) to the Plan. The exemption also permits the guarantee of the obligation of the Employer in such sales by Paul W. Lawrence (Lawrence) and his wife.

FOR FURTHER INFORMATION CONTACT: Richard Small of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216. (202) 523-8881. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On January 9, 1981, notice was published in the Federal Register (46 FR 2416) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406(a), 406(b)(1) and 406(b)(2) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1) (A) through (E) of the Code, for a period of three years to the sales by the Employer of its interest in the Contracts to the Plan and for the guarantee of the obligation of the Employer in such sales

by Lawrence and his wife. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that they have met the notice provisions as set forth in the notice of pendency. No public comments and no requests for a hearing were received by the Department. The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affects the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly the restrictions of section 406(a), 406(b)(1) and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply for a period of three years to the sales by the Employer of its interest in the Contracts to the Plan and to the guarantee of the obligation of the Employer in such sales by Lawrence and his wife.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to this exemption.

Signed at Washington, D.C., this 12th day of March, 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.
